STA301 - Statistics and Probability (Quiz 5)

Question # 1 of 10 (Start time: 11:06:43 AM, 12 January 2025)

Suppose H0: u 1= u2 and H1:u 1 < u 2 and Critical value is z= - 1.645. If calculated value of Z= - 2.08,then what will be your conclusion?

Select the correct option

- ( ) Accept Ho
- ( ) None of the above
- ( ) Impossible to decide
- (•) Reject Ho

Question # 2 of 10 (Start time: 11:07:16 AM, 12 January 2025)

Which one of the following provides the basis for hypothesis testing?

Select the correct option

- [x] Null hypothesis
- [ ] Alternative hypothesis
- [ ] Test-statistic
- [ ] Critical value

Question # 3 of 10 (Start time: 11:08:05 AM, 12 January 2025)

Accept H0/H0 is false, is the ________.

Select the correct option

- [ ] None of the above
- [ ] Type I error
- [ ] Correct decision
- [x] Type II error

Question # 4 of 10 (Start time: 11:08:40 AM, 12 January 2025) Total Marks: 1

An experiment was conducted to estimate the mean yield of a new variety of wheat. A sample of 20 plots gave a mean yield of 2.9, and a 95% confidence interval of (2.48, 3.32) . This means:

Select the correct option

- [x] We are 95% con?dent that the true mean yield of this variety is between 2.48 and 3.32
- [ ] We are sure the true mean yield of this new variety is between 2.48 and 3.32.
- [ ] We are 95% confident that the true mean yield of this variety is 2.9
- [ ] None of these

Question # 5 of 10 (Start time: 11:09:28 AM, 12 January 2025)

If we are testing H0 : u 1- u 2 = 10 against H1: u 1 - u 2 < 10.Then rejection region will be:

Select the correct option

- [ ] on both sides of Z=0
- [x] on left side of Z=0
- [ ] in Center
- [ ] on right side of Z=0

Question # 6 of 10 (Start time: 11:10:21 AM, 12 January 2025)

A null hypothesis is generally denoted by:

Select the correct option

- (selected) H0
- H1
- H2
- H3

Question # 7 of 10 (Start time: 11:10:49 AM, 12 January 2025)

The proportion of working females in Pakistan is at most 0.40, the Null Hypothesis is H0 : $P \leq 0.40$. then the alternative hypothesis H1 is

Select the correct option

- $P = 0.40$
- none of these
- (selected) $P > 0.40$
- $P < 0.40$

Question # 8 of 10 (Start time: 11:11:21 AM, 12 January 2025)

Probability of making type II error is reprented by:

Select the correct option

- (selected) β
- $1-\beta$
- $1-\alpha$
- α

Question # 9 of 10 (Start time: 11:11:44 AM, 12 January 2025)

The test statistic to test the U1 = U2 (U represent the mean of population)for normal population for n<30 when population variance is unknown

Select the correct option

- Z-Test
- (selected) T-Test
- F- Test
- All of the above
