CS302 - Digital Logic Design (Semester Quiz # 01) **Total Questions :10**

Please read the following instructions carefully!

1. Quiz will be based upon Multiple Choice Questions (MCQs).
2. You have to attempt the quiz online. You can start attempting the quiz any time within given date(s) of a particular subject by clicking the link for Quiz in VULMS.
3. Each question has a fixed time of 90 seconds. So you have to save your answer before 90 seconds. But due to unstable internet speeds, it is recommended that you should save your answer within 60 seconds. While attempting a question, keep an eye on the remaining time.
4. Attempting quiz is unidirectional. Once you move forward to the next question, you can not go back to the previous one. Therefore before moving to the next question, make sure that you have selected the best option.
5. **DO NOT** press **Back Button** / **Backspace Button** while attempting a question, otherwise you will lose that question.
6. **DO NOT** refresh the page unnecessarily, **specially** when following messages appear
   - Saving...
   - Question Timeout: Now loading next question...
7. **Javascript MUST be enabled** in your browser; otherwise you will not be able to attempt the quiz.
8. If for any reason, you lose access to internet (like power failure or disconnection of internet), you will be able to attempt the quiz again from the question next to the last shown question. But remember that you have to complete the quiz before expiry of the deadline.
9. If any student failed to attempt the quiz in given time then no re-take or offline quiz will be held.

Important Announcement

1. It has come to the University's knowledge that some students are using unfair means while attempting their Mid-Term quiz.
2. The University is monitoring & analyzing the quiz attempts and if a student is found involved in using unfair means, i.e., helping tools/software, Web Extension, Add-ons etc., an Unfair Means Case (UMC) will be made against such student(s) including cancellation of their Mid-Term quiz.

How many 74HC85s are cascaded together forms a 12-bit Comparator circuit?

Select the correct option

- 2
- 1
- 3
- 4

(Start time: 07:43:25 PM, 06 January 2022)

The sum terms in Standard POS form are called _______

Select the correct option

- Maxterms
- Minterms
- Midterms
- Mixterms

07:43:25 PM, 06 January 2022)

The sum terms in Standard POS form are called _______

Select the correct option

- Maxterms
- Minterms
- Midterms
- Mixterms

In 16 bit ALU, The G output is activated if the 4-bit unit generate a Carry ____ irrespective of Ca

Out, In

... that have all the variables in the domain of the expression.

In 16 bit ALU, The G output is activated if the 4-bit unit generate a Carry ____ irrespective of Ca

Out,In

terms that have all the variables in the domain of the expression.

Question # 5 of 10 (Start time: 07:42:13 PM, 06 January 2022)

In 16-bit ALU, the G output is activated if the 4-bit unit generates a ________ irrespective of _______.

Select the correct option

- Carry in, input number
- Carry out, carry in
- Carry in, carry out
- Input number, carry in

Question # 5 of 10 (Start time: 07:42:13 PM, 06 January 2022)

In 16-bit ALU, the G output is activated if the 4-bit unit generates a ________ irrespective of _______.

Select the correct option

- Carry in, input number
- Carry out, carry in
- Carry in, carry out
- Input number, carry in

PM, 06 January 2022)

The decimal "10" will have an octal equivalent ---------

Select the correct option

- 12
- 9
- 10
- 11

PM, 06 January 2022)

The decimal “10” will have an octal equivalent ________

Select the correct option

- 12
- 9
- 10
- 11

Question # 3 of 10 (Start time: 07:39:18 PM, 06 January 2022)

In the expression F = A ⊕ B, the ⊕ represents __________logical operator.

Select the correct option

- OR
- XOR
- NAND
- AND

Question # 3 of 10 (Start time: 07:39:18 PM, 06 January 2022)

In the expression F = A ⊕ B, the ⊕ represents ----------logical operator.

Select the correct option

- OR
- XOR
- NAND
- AND

The PLDs are implemented having a general purpose structure based on -------arrays.

Select the correct option

○	OR-XOR
○	XOR-NOR
●	AND-NAND
○	AND-OR

January 2022)

The PLDs are implemented having a general purpose structure based on -------arrays.

Select the correct option

- OR-XOR
- XOR-NOR

Which of the following statement is TRUE of sound intensity and decibel levels? Identify all that apply.

Select the correct option

- A machine produces a sound which is rated at 60 dB. If two of the machines were used at the same time, the decibel rating would be 120 dB.
- The intensity of sound which corresponds to the threshold of pain is one trillion times more intense than the sound which corresponds to the threshold of hearing.
- Two sounds which have a ratio of decibel ratings equal to 2.0. This means that the second sound is twice as intense as the first sound.
- Sound A is 20 times more intense than sound B. So if Sound B is rated at 30 dB, then sound A is rated at 50 dB.

PHY101 - Physics (2nd online quiz of Physics (PHY101)) | **Total Questions :10**

Please read the following instructions carefully!

1. Quiz will be based upon Multiple Choice Questions (MCQs).
2. You have to attempt the quiz online. You can start attempting the quiz any time within given date(s) of a particular subject by clicking the link for Quiz in VULMS.
3. Each question has a fixed time of 90 seconds. So you have to save your answer before 90 seconds. But due to unstable internet speeds, it is recommended that you should save your answer within 60 seconds. While attempting a question, keep an eye on the remaining time.
4. Attempting quiz is unidirectional. Once you move forward to the next question, you can not go back to the previous one. Therefore before moving to the next question, make sure that you have selected the best option.
5. **DO NOT** press **Back Button** / **Backspace Button** while attempting a question, otherwise you will lose that question.
6. **DO NOT** refresh the page unnecessarily, **specially** when following messages appear
   - Saving...
   - Question Timeout: Now loading next question...
7. **Javascript MUST be enabled** in your browser; otherwise you will not be able to attempt the quiz.
8. If for any reason, you lose access to internet (like power failure or disconnection of internet), you will be able to attempt the quiz again from the question next to the last shown question. But remember that you have to complete the quiz before expiry of the deadline.
9. If any student failed to attempt the quiz in given time then no re-take or offline quiz will be held.

Important Announcement

1. It has come to the University's knowledge that some students are using unfair means while attempting their Mid-Term quiz.
2. The University is monitoring & analyzing the quiz attempts and if a student is found involved in using unfair means, i.e., helping tools/software, Web Extension, Add-ons etc., an Unfair Means Case (UMC) will be made against such student(s) including cancellation of their Mid-Term quiz.
