MTH621 VU Current Final Term Papers Spring 2020
Mth 621 paper
Practise queation ma sa 80% aya : 3nu quizes ma sa sary mcqs ay
Objective bi 30 aur subjective bi 30 k tha total 60 marks k paper tha
Subjective total chap3 aur chap 4 ma say tha
Subjective almost practise question ma sa tha
Mcqs 80% quizes ma sa thay
G therorem bi aik 2 to zehn ma ni a rhy
621 theorem on bounded set theorem on reman integral mean value theirem limit chain rule integaration
621 k saare mcq old quizes m se aye
#Mth621
Mcqs were based on concepts and 6,7 was from mcqs file of quizz.
1-Define Removeavle continuity? 2 marks
2-Deifine chain rule for composition of functions? 2 marks
3-Define Second mean theorem of Integration?
4- Find uniform continuity of 2x?
5- A theorem was from Monotonic Function? 5 marks
6-evaluate lim->0 ln sinx/ln x??
7- and Rest two was from the last 5th chp of about integration on closed interval.
Mcqs zyada quiz mai sy thy
evaluate lim->0 ln sinx/ln x??
Find uniform continuity of 2x?
generalized mean value theorem
Refinement of partition

MTH621 Current paper (10-09-2020)
Long questions;-
If f is continuous on the closed interval [a, b] and di_erentiable on the open interval (a, b), then

$$f'(c) = \frac{f(b) - f(a)}{b - a}$$

2) If f is integrable on [a, b] and $a \le a1 < b1 \le b$, then f is integrable on [a1, b1].
3) Discuss the continuity of $f(x) = \sqrt{x}$, $0 \le x < \infty$.
Short questions;-
define
1)comparison test

2)lower integral
3)piecewise continuous function
4)monotonic function

MTH621 final Term Papers 27-02-2019
Prove that if f is continuous on a finite close interval [a,b] then f is bounded on [a,b].
Give an example of a function which is not defined at a certain point but has got the limit at that point.
Give statement of change of variable theorem.
Show that if f is lipschitz continuous at x= then f is uniformly continuous at x=
Find the open cover for the set
Define a continuously differentiable function.
Give statement of second Mean value theorem for integral
Stat completeness property of R.
Find
Kud to aik b nahi keya ap ka leya lik ka la aya
Best of luck
