Lesson No. 23

STA630:Quiz 02

Question # 2 of 10 (Start time: 05:18:54 PM, 28 July 2021)

Which of the following provides insight into the complexity of using interviews?

Select the correct option

- ○ The different semantic meanings of the language being used
- ● The accuracy of the interviewee's responses
- ○ Accuracy, influences and language used
- ○ Potential influence of gender or cultural differences between interviewer and interviewee

Home

Question # 4 of 10 (Start time: 05:19:56 PM, 28 July 2021)

How do you find comfort at your work place?
Very good
Good
Fair
Poor

This question is poorly structured. In your opinion what is the problem in its design?

Select the correct option

○	Leading question
●	Ambiguity and vagueness
○	Double barreled question
○	Loaded question

Home

Question # 7 of 10 (Start time: 05:22:36 PM, 28 July 2021)

Which of the following is an advantage of open questions?

Select the correct option

○	They prevent respondents from giving unusual answers.
○	They allow respondents to code their answers in advance.
○	They allow respondents to put less effort into their answer.
●	They allow respondents to answer in their own terms.

Hom

Question # 6 of 10 (Start time: 04:52:48 PM, 24 January 2021)

In data collection process, when a researcher has to conduct an in depth interview, which of the following tool is necessary?

Select the correct option

- ○ Observation
- ○ Questionnaire
- ◉ Interview Guide
- ○ Interview schedule

Question # 8 of 10 (Start time: 04:54:32 PM, 24 January 2021)

When constructing a questionnaire, it is imperative to do each of the following EXCEPT _____.

Select the correct option

- ◉ Use "leading" or "loaded" questions
- ○ Use natural language
- ○ Understand your research participants
- ○ Pilot your test questionnaire

Question # 9 of 10 (Start time: 04:55:09 PM, 24 January 2021)

Which of the following is an advantage of open questions?

Select the correct option

- (●) They allow respondents to answer in their own terms.
- ( ) They prevent respondents from giving unusual answers.
- ( ) They allow respondents to put less effort into their answer.
- ( ) They allow respondents to code their answers in advance.

STA630:Quiz 2

Question # 2 of 10 (Start time: 09:56:39 AM, 25 August 2020)

How do you find comfort at your work place?
Very good
Good
Fair
Poor

This question is poorly structured. In your opinion what is the problem in its design?

Select the correct option

- ( ) Ambiguity and vagueness ✓
- ( ) Loaded question
- ( ) Leading question
- ( ) Double barreled question

uestion # 3 of 10 (Start time: 09:57:48 AM, 25 August 2020)

data collection process, when a researcher has to conduct an in depth interview, which of the following tool is necessary?

lect the correct option

- Observation
- Questionnaire
- Interview Guide
- Interview schedule

Question # 10 of 10 (Start time: 10:05:37 AM, 25 August 2020)

Which of the following is not a data collection method?

Select the correct option

- Questionnaires
- Focus groups
- Correlational method
- Secondary data

STA630:Quiz 2

Quiz Start T

Question # 1 of 10 (Start time: 11:32:27 PM, 25 August 2020)

Which of the following provides insight into the complexity of using interviews?

Select the correct option

- Potential influence of gender or cultural differences between interviewer and interviewee
- The accuracy of the interviewee's responses
- The different semantic meanings of the language being used
- Accuracy, influences and language used

STA630:Quiz 2

Quiz Start Time: 11:32 PM, 25 August 20

Question # 9 of 10 (Start time: 11:41:23 PM, 25 August 2020)

Total Marks

Which of the following is an advantage of open questions?

Select the correct option

- They allow respondents to answer in their own terms.
- They prevent respondents from giving unusual answers.
- They allow respondents to put less effort into their answer.
- They allow respondents to code their answers in advance.

Question # 10 of 10 (Start time: 12:17:42 PM, 26 July 2021) Total Marks

Which one of the following in NOT a major method of data collection:

Select the correct option

- ○ Focus groups
- ● All of the given are the methods of data collection
- ○ Questionnaires
- ○ Interviews

STA630:Quiz 02 Quiz Start Time: 12:19 P

uestion # 3 of 10 (Start time: 12:21:36 PM, 26 July 2021)

Which of the following provides insight into the complexity of using interviews?

lect the correct option

- ○ Potential influence of gender or cultural differences between interviewer and interviewee
- ○ The different semantic meanings of the language being used
- ● The accuracy of the interviewee's responses
- ○ Accuracy, influences and language used

"Have you ever had or been treated for skin allergy?
Yes
No"
Which type of question it is?

Select the correct option

○	Loaded question
○	Double barreled question
○	Leading question
○	Ambiguous question

Lesson No. 24

Question # 2 of 10 (Start time: 12:02:43 PM, 26 July 2021)

Which one of the following aspect needs to be evaluated during "Pilot Testing"?

Select the correct option

○	Discovering errors in the instrument
●	All of the given options
○	Sampling procedure can be checked
○	Reactions of Respondents

Home

What is the main purpose of pilot testing?

Select the correct option

- To identify respondent
- To identify potential problems
- To evaluate the research
- To accumulate responses

Question # 4 of 10 (Start time: 11:35:41 PM, 25 August 2020)

The small scale trial run of a particular item is called _____.

Select the correct option

- Test run
- Pilot test
- Post hoc test
- t-test

STA630:Quiz 2

Question # 4 of 10 (Start time: 09:34:12 PM, 24 August 2020)

Which one of the following aspect needs to be evaluated during "Pilot Testing"?

page 106

Select the correct option

○	Reactions of Respondents
○	Discovering errors in the instrument D
○	Sampling procedure can be checked
○	All of the given options

Question # 1 of 10 (Start time: 04:30:35 AM, 25 August 2020)

Which of the following is an example of an issue that would be checked in a pilot testing?

Select the correct option

- (●) Completion of all questions on a questionnaire
- ( ) Legible writing
- ( ) Single responses to all multiple choice questions
- ( ) Logical answers between questions (i.e., attributes should be rated high if purchase interest is high)

STA630:Quiz - 2

Question # 10 of 10 (Start time: 04:55:37 PM, 24 January 2021)

Which of the following can not be done through pilot testing?

Select the correct option

- ( ) Structuring open ended questions
- ( ) Determining population ✓
- ( ) Measuring the reliability of questions
- ✗ Determining the acceptability of questions

Question # 8 of 10 (Start time: 05:22:58 PM, 28 July 2021)

If, after pilot testing, a researcher finds that questionnaire is unable to reveal all the facts the researcher needed. Which type of following error is expected if questionnaire is not modified?

Select the correct option

- (●) Research may lose it focus
- ( ) Data analysis may get wrong
- ( ) Sampling issues may arise
- ( ) Respondents may lose interest

STA630:Quiz 02 **Quiz Start Time: 05:18 PM, 28 July 2021**

Question # 1 of 10 (Start time: 05:18:16 PM, 28 July 2021) **Total Marks: 1**

In which of the following Tests, we give extra training to the interviewer in case of big research funded by an organization?

Select the correct option

- (●) Pilot Test
- ( ) T- Test
- ( ) Test Run
- ( ) Post Hoc Test

STA630 Quiz - 2

Question # 6 of 10 (Start time: 11:06:34 AM, 24 January 2021)

If, after pilot testing, a researcher finds that questionnaire is unable to reveal all the facts the researcher needed. Which type of following error is expected if questionnaire is not modified?

Select the correct option

- Researcher may not be able to capture the required variables
- Sampling issues may arise
- Data analysis may get wrong
- Respondents may lose interest

www.BANDICAM.com

A sample can be defined as:

Select the correct option

- ○ The count of all elements in a population
- ○ The total collection of elements about which we wish to make some inferences
- ● Some selected elements from a population through which we can draw conclusions about all population
- ○ The subject on which the measurement is being taken

STA630:Quiz 02 Quiz Start Time: 12:10 PM, 26 July 20

Question # 4 of 10 (Start time: 12:12:51 PM, 26 July 2021) Total Marks

_____ is that unit about which information is collected and which provides the basis of analysis.

Select the correct option

- ○ Sampling frame
- ● Element
- ○ Population
- ○ Sampling unit

STA630:Quiz 02 Quiz Start Time: 12:01 PM, 26 July 20

Question # 10 of 10 (Start time: 12:08:38 PM, 26 July 2021) Total Mark

A numerical value calculated from population is called

Select the correct option

- ○ Error
- ○ Sampling Error
- ○ Bias
- ● Parameter

TA630:Quiz 02 Quiz Start Time: 12:01 PM, 26 July 20

uestion # 3 of 10 (Start time: 12:04:06 PM, 26 July 2021) Total Marks

The summary description of a given variable in a population is called as:

elect the correct option

- (●) Parameter
- ( ) Statistic
- ( ) Sampling unit
- ( ) Observation unit

uestion # 10 of 10 (Start time: 11:41:50 PM, 25 August 2020)

Which of the following is not something a researcher will have to consider when thinking about their sample size?

elect the correct option

- ( ) Time and cost.
- ( ) Non-response.
- (■) Length of questionnaire.
- ( ) Heterogeneity of population.

www.BANDICAM.com

_____ is that unit about which information is collected and which provides the basis of analysis.

elect the correct option

- Sampling unit
- Population
- Element ✓
- Sampling frame

STA630:Quiz 02 Quiz Start Time: 12:19 PM, 26 July 202

Question # 7 of 10 (Start time: 12:25:22 PM, 26 July 2021) Total Marks

Which of the following best defines the population of study?

Select the correct option

- (●) The subject on which the measurement is being taken
- ( ) The total collection of elements about which we wish to make some inferences
- ( ) None of the given option
- ( ) Some selected elements from a population through which we can draw conclusions about all population

Which of the following best defines the population of study?

Select the correct option

- ( ) The total collection of elements about which we wish to make some inferences
- (●) The subject on which the measurement is being taken
- ( ) Some selected elements from a population through which we can draw conclusions about all population
- ( ) None of the given option

Question # 5 of 10 (Start time: 09:59:47 AM, 25 August 2020)

The difference between parameter and statistics is called

Select the correct option

- Random Error
- Sampling Error
- Bias
- Error

Home

Question # 1 of 10 (Start time: 08:48:00 PM, 24 Aug

The list of all units in a population is called

Select the correct option

O	Random sampling
O	Sampling Frame
O	Parameter
	Statistic

STA630:Quiz - 2

Question # 1 of 10 (Start time: 04:45:20 PM, 24 January 2021)

_____ is the list of elements from which the sample is drawn.

Select the correct option

- (●) Population ✗
- ( ) Sampling frame ✓
- ( ) Sampling unit
- ( ) Observation unit

Home

Question # 6 of 10 (Start time: 05:20:39 PM, 28 July 2021)

_____ is the list of elements from which the sample is drawn.

Select the correct option

○	Sampling unit
○	Observation unit
○	Population
●	Sampling frame

Lesson NO. 27

In which of the following sampling methods People are available such as volunteer or can be easily recruited?

elect the correct option

- Systematic sampling
- Cluster sampling
- Convenience sampling
- Simple random sampling

Question # 10 of 10 (Start time: 12:00:25 PM, 26 July 2021) Total Marks:

Which of the following can be referred as a Reputational sampling?

Select the correct option

- Quota Sampling
- Convenience Sampling
- Snowball Sampling
- Purposive Sampling

WWW.BANDICA

Question # 10 of 10 (Start time: 04:28:14 AM, 25 August 2020)

Which of the following can be referred as a Reputational sampling?

Select the correct option

○	Purposive Sampling
○	Quota Sampling
○	Convenience Sampling
●	Snowball Sampling

Which of the following concerns is MOST likely to become a problem if Mr. Baber uses purposive sampling techniques?

Select the correct option

○	Subjects participating in the study.
○	Selection of participants who are thought to be informative, articulate, and experienced with the research topic and setting. ✓
○	Statistically equal groups.
○	Generalizability from the sample to the population.

STA630:Quiz 02 Quiz Start Time: 12:19 PM, 26 July 2021

Question # 6 of 10 (Start time: 12:24:07 PM, 26 July 2021) Total Marks:

Which of the following is NOT a form of non-probability sampling?

Select the correct option

- ○ Snowball sampling
- ● Quota sampling ✗
- ○ Stratified sampling ✓
- ○ Purposive sampling

Question # 10 of 10 (Start time: 05:26:36 PM, 28 July 2021)

_____ is not an example of a non-probability sampling technique

Select the correct option

- ○ Convenience
- ● Cluster
- ○ Quota
- Purposive

Question # 9 of 10 (Start time: 05:24:24 PM, 28 July 2021)

You wish to make a precise estimate about the characteristics of a population of individuals. You should use:

Select the correct option

- (●) Quota sampling
- ( ) Probability sampling
- ( ) Accidental sampling
- ( ) Snowball sampling

Question # 7 of 10 (Start time: 04:54:05 PM, 24 January 2021)

Which of the following is the least reliable sampling design but normally cheapest and easiest to conduct?

Select the correct option

- (●) Convenience sampling
- ( ) Purposive sampling
- ( ) Quota sampling
- ( ) Snowball sampling

STA630:Quiz 02 Quiz Start Time: 12:19 PM, 26 July 20

Question # 2 of 10 (Start time: 12:20:58 PM, 26 July 2021) Total Mark

Which of the following would generally require the largest sample size?

Select the correct option

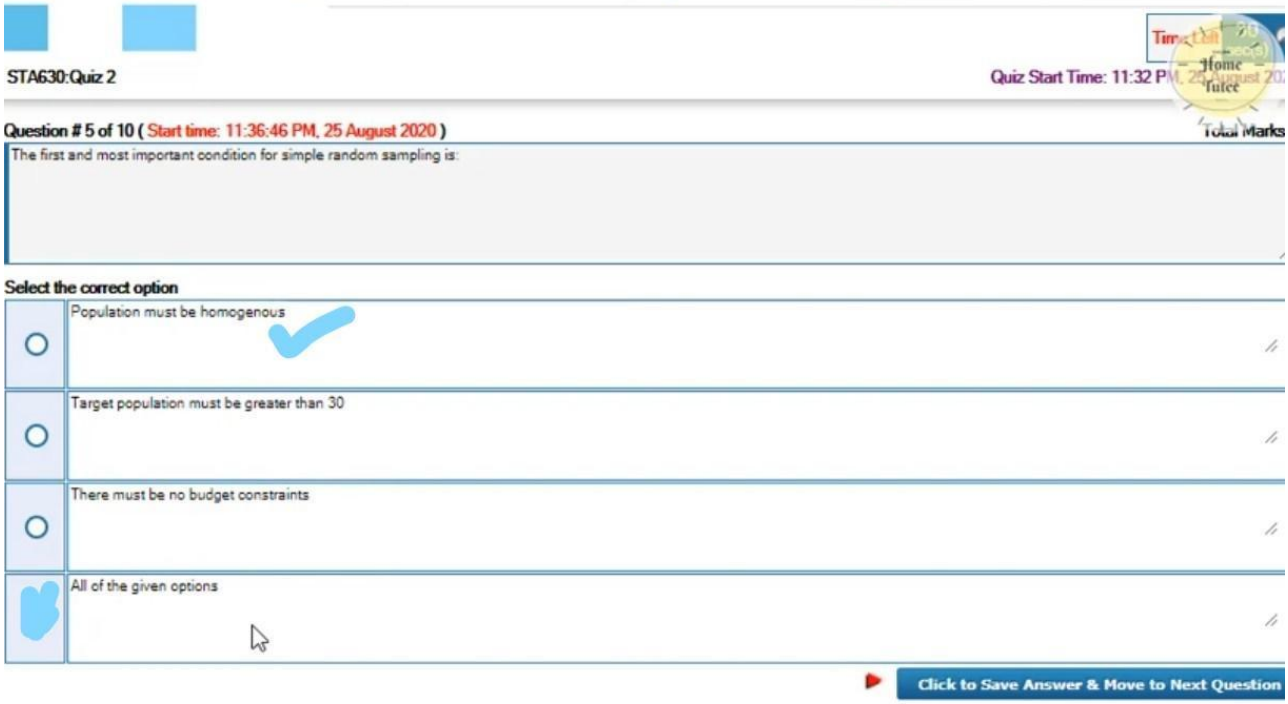

- Cluster sampling
- Proportional stratified sampling
- Simple random sampling
- Systematic sampling

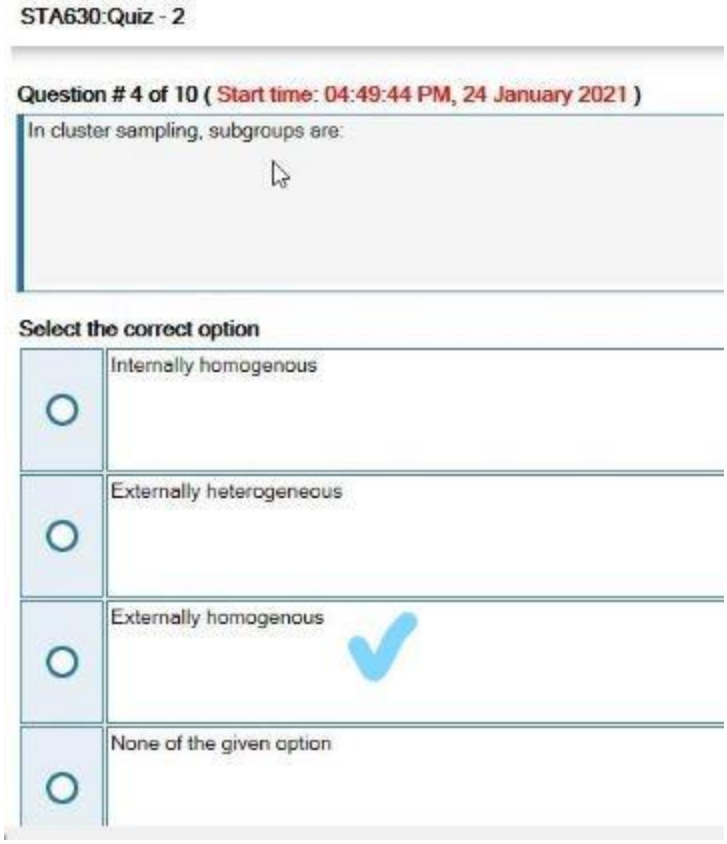

Question # 9 of 10 (Start time: 01:10:13 PM, 28 July 2021)

Which of the following techniques yields a simple random sample?

Select the correct option

- Choosing volunteers from an introductory psychology class to participate
- Randomly selecting schools, and then sampling everyone within the school.
- Listing the individuals by ethnic group and choosing a proportion from within each ethnic group at random.
- Numbering all the elements of a sampling frame and then using a random number table to pick cases from the table.

STA630:Quiz 2
Quiz Start Time: 11:32 PM
Question # 5 of 10 (Start time: 11:36:46 PM, 25 August 2020)
The first and most important condition for simple random sampling is:
Select the correct option
Population must be homogenous
Target population must be greater than 30
There must be no budget constraints
All of the given options
Click to Save Answer & Move to Next Question

STA630:Quiz - 2
Question # 4 of 10 (Start time: 04:49:44 PM, 24 January 2021)
In cluster sampling, subgroups are:
Select the correct option
Internally homogenous
Externally heterogeneous
Externally homogenous
None of the given option

STA630:Quiz - 2 Quiz Start Time: 04:45 PM, 24 January 2021

Question # 3 of 10 (Start time: 04:48:37 PM, 24 January 2021) **Total Marks:** 1

If groups of participants are selected to represent sub-groups in the population (e.g. such as selecting an entire class of management students to be compered to a group of economics students), this is known as..

Select the correct option

- ○ Cluster sampling ✓
- ○ Haphazard sampling
- ○ Opportunity sampling
- ○ Simple random sampling

A researcher has divided population in three geographical areas and has taken random sample from the population divided on the basis of level of education, age and salary package by making groups of persons having particular characteristics in those specified areas. Which of the following sampling technique he is using?

Select the correct option

- ○ Cluster sampling ✓
- ○ Stratified random sampling
- ● Simple random sample ✚
- ○ Systematic sampling

STA630:Quiz - 2

Question # 2 of 10 (Start time: 04:46:50 PM, 24 January 2021)

In stratified sampling, strata are:

Select the correct option

○	Internally heterogeneous
○	Externally homogenous
○	Externally heterogeneous ✓
○	None of the given option

Home

STA630:Quiz - 2

Question # 5 of 10 (Start time: 04:50:50 PM, 24 January 2021)

A random sampling technique which chooses number of subgroups from population for in-depth study is called:

Select the correct option

○	Simple random sample
◉	Stratified random sampling
○	Cluster sampling
○	Systematic sampling

Question # 2 of 10 (Start time: 01:16:07 AM, 13 August 2021)

In order to read a table, students should first look at;

Select the correct option

○	Variable labels
○	Direction
○	Summation
●	Percentages

Question # 6 of 10 (Start time: 01:02:16 AM, 13 August 2021)

The bivariate table derived from trivariate table is called;

Select the correct option

- ○ Correlation tables
- ○ Bivariates
- ○ Sub table
- ● Partials

STA630 Quiz 2

Question # 7 of 10 (Start time: 09:36:48 PM, 24 August 2

Researchers read percentaged tables to make:

page 140

Select the correct option

O	Differences
O	Relationships
O	Comparison
O	None of the above

C

Question # 3 of 10 (Start time: 09:32:40 PM, 24 August 2020)

What is the purpose of a control group?

C

Select the correct option

- Make the experiment easier to analyze
- Show the value of the dependent variable when the independent variable is not being
- To be able to better evaluate the effect of the independent variable
- To control all variables

EDUCATION INFORMATION EXPERT

STA630:Quiz 2

Question # 2 of 10 (Start time: 04:31:17 AM, 25 August 2020)

_____ is a measure of association tested for its genuineness by controlling the third variable.

Select the correct option

○	Trivariate tables.
○	Multiple regressions.
●	Statistical control.
○	None of the above.
