EDU201 Quiz 3 File by Tanveer Online Academy

Spontaneity is the characteristic of -------- people.	Self-actualized
If your learning style is auditory that means you learn best by?	Hearing
Which of the following is the highest level of Maslow's hierarchy of needs?	Self-actualization
Teacher must develop new knowledge based on ----- knowledge.	Background
Kolb's (1984) theory sets out ----- distinct learning styles.	4
What should assessment emphasize to enhance learning?	Quality student-teacher learning interactions
How does effective AfL recognize the importance of knowledge, skills, and understanding?	By acknowledging them
According to the Fordham Institute survey, what percentage of teachers found Differentiated Instruction "very difficult" to implement?	80%
What is the significance of stimulating recall of prior learning in Gagne's instructional events?	To remember prior knowledge
What is the benefit of students actively participating in assessing their learning?	Improved ability to identify strengths and needs
What does "Process" refer to in the context of differentiated Instruction?	Activities that student engages to make sense of the content
According to Gagne, why is it important for each step of learning to be accomplished in sequence?	To facilitate effective learning
What is the first step in putting Gagne's theory into practice?	State objectives in performance terms using standard verbs
What information should students know in advance?	How and when they learn and to be assessed?

In the context of Assessment for Learning (AfL), what is one of the primary benefits for teachers?	**Gathering information to plan and modify teaching programs**
How does the assessment for learning process empower students?	**By making students' thinking visible**
According to the importance of assessment, why is assessment crucial for learning?	**Feedback aids skill acquisition**
What does "Learning Environment" encompass in differentiated Instruction?	**The way the classroom works and feels**
What is the primary purpose of "Assessment of learning"?	**To celebrate success and plan interventions**
What is the importance of feedback in teaching and learning?	**It's a powerful ingredient for teaching and learning**
How does assessment for learning contribute to student motivation?	**By highlighting progress and achievement**
What does "Assessment Applied" aim to achieve for student self-evaluation?	**Motivate performance**
What is the purpose of providing feedback in the context of the Nine Instructional Events?	**To reinforce and assess learner progress**
According to the Historical Perspective, what was the traditional approach to assessing students' understanding?	**Considering student scores on a final test**
Which of the following is one of the differentiated classroom elements?	**Process**
What is essential for a valid and fair assessment of progress?	**Validity, and suitability for the purpose**
What does "Readiness" refer to in differentiating States?	**Skill level and background knowledge of the student**
In Gagne's instructional events, what is the purpose of sharing learning objectives with learners?	**To organize learners' thoughts**
According to the information provided, what is emphasized as crucial for supporting student learning?	**Utilizing assessment to inform instruction and guide student progress**

In the context of evaluating progress, what is the primary focus?	**Assessing the student's learning and skills application**
What is the primary purpose of differentiation?	**To process individualized learning**

1. PBL is an instructional strategy in which students work cooperatively to investigate and resolvean ill-structured problem based on real-world issues or situations.
2. Lorin Anderson, revisited the learning taxonomy in the mid-nineties.
3. Gagne's theory is broken into three areas.
4. Old taxonomy used nouns to describe the levels of thinking.
5.New taxonomy uses verbs to describe the levels of thinking.
6.PBL represents the way learning occurs in the world outside the classroom.
7.Evaluation is about the ability to judge the value of material.
8.Students work together in small groups on a structured activity in Cooperative learning.
9.A teacher adopting a PBL approach may not be able to cover as much material as a conventional lecture-based course.

10. Collaborative learning is an umbrella term for a variety of educational approachesinvolving joint intellectual effort by students, or students and teachers together".
11. In Collaborative learning all group members gain from each others efforts.
12. There are levels of Blooms cognitive domain.
13. Classroom roles change in collaborative learning.
14. Application denotes the ability to use learned material in a context different from the one inwhich it was learned.
15. Comprehension is defined as the ability to grasp the meaning of material.16.In collab earning,students are fully responsible.
17. Bloom classified learning into domains.
18. Synthesis means the ability to put parts together to form a new whole.
19. Clarifying the goals is the phase of collaborating learning.
20. cooperative/ collaborative learning pro ritical thinking skills.
21. Students recall or recognizes information in the knowledge level of Bloom cognitive domain.22.Collaborative Learning helps develop a social support system for learners.
23.In collaborative learning recognize that all group members share a common fate.24.Building diversity understanding among stude d staff is the social benefit of Learning.
25.Analysis refers to the ability to break down material into its component parts so that itsorganizational structure may be understood.
