| MUHAMMAD IMRAN | EDU301 - General Methods of Teaching |
|---|---|
| Lecture No.1 to 6 | QUIZ NO 1 |

**The online quiz will be opened on December 03, 2020 and will be closed on December 04, 2020**

**Quiz will be based upon Multiple Choice Questions (MCQs) and covering Lecture 1-6.**

1. social constructivism is present by _____ **Lev Vygotsky**
2. The domain encompasses objectivies that deal with recall or recongnition of knowledge. _____ **cognitive**
3. Which of the following is not metaphor for teacher?_____ **teacher Is a guider**
4. ….is not appropriate, if both sides of brain are not working appropriately. _____ **Learning**
5. Learning is there when teachers try to help learners change their ----------instead of focusing on their own teaching. _____ **cognitive structures**
6. - is to teach certain content to the students._____ **METHOD**
7. Teachers' complaint for shortage of time can be resolved through ---------. _____ **Unit planning**
8. ……are much economical and take less space in our working memory_____ **Images**
9. ----- is a short term planning. _____ **Lesson plan**
10. Holistic development means _____ **Complete development**
11. In this state of functioning, a teacher does not invite people to give you suggestions. There is no sharing of ideas_____ **Intentionally Disinviting**
12. A person with ---------- need not have specialized knowledge of his trade._____ **occupation**
13. How many key context are there in schooling? _____ **3**
14. Teaching is an activity to __ knowledge. _____ **Impart**
15. teachers want _____ **career growth**
16. complete formula for teacher growth . **Knowledge + …….+ Reflection = Growth** _____ **Experience**
17. Schools follow a certain ------. _____ **curriculum**
18. ____ means that students may get any change in their behavior. _ **behavioral perspective**
19. "Society for Pakistani English Language Teachers" organize different workshops for -----. _____ **teachers**
20. ---------- education has no regular curriculum. _____ **Informal**
21. Reflective Practice was introduced by ----------. _____ **Jean piajet**
22. Teaching has a ---------- function. _____ **social**
23. What is the highest level of teaching development ? _____ **Intentionally Inviting**
24. Pedagogy is a study of _____ **teaching methods**
25. ……can lead development_____ **Learning**
26. Learning can lead --------. _____ **development**
27. Vygotsky's theory about prior learning and social context included ___ major ideas. _____ **4**
28. Who believe that knowledge is actively constructed by learners? _____ **Nolan and francis**
29. ----- is not restricted to the schools. _____ **Collegial context**
30. Knowledge about different facts is -----. _____ **stratified knowledge**
31. The warmth, respect and appreciation in the eyes of the -------- for the teacher are the actual recognition._____ **students**
32. ___ is an ability to recall or recognize what has been learned or experienced _____ **Retention**
33. In this state of functioning teacher realize that you didn't know everything and they need development. help and advice from your colleagues_____ **Intentionally inviting**
34. Paulo freire was born in _____ **Brazil**
35. Teaching is a way of development certain ___ behaviors among students. _____ **desirable**
36. ___is an organized body of knowledge. _____ **Science**
37. Teacher must give _____ for every students. _____ **feedback**

38. Schooling is not about a single person, it is a -----._____ **Group orientation**
39. stratified knowledge is the Knowledge about _____**facts**
40. Knowledge is something that is learnt by reflecting, acting on something is called?_____ "**Subjective knowledge**"
41. Educators work to stimute____. _____**Spirit of inquiry**
42. To ---------- is to change. _____**Learn**
43. Teacher must give___ given from the teachers maximizes students learning. _____**Constructive feedback**
44. performance objectives are also known as ….. objectives_____ **behavioral**
45. A ……is worth a thousand words _____ **picture**
46. Teacher has the autonomy of how to teach in a _____**class**
47. A ---------- needs extensive training and specialized knowledge. _____**profession**
48. The level of …..to the profession must be to the range of every student_____ **commitment**
49. Teacher must share ideas with the students so that they can work for a change in ---___**society**
50. ---------- is created when we act and reflect. _____**knowledge**
51. Teacher is more interested in…..instead of conceptual change _____**covering the syllabus**
52. Reflection is of ------ types. _____**2**
53. At second stage of zone of proximal development, a child gets assistance from ------ _____**self**
54. The reflection on every action at the same moment when the action is being taken is ---------- _____**reflection in action**
55. A ---------- education comprises of a basic education that a person receives at school.____ _____**formal**
56. Different cultures have different perceptions about --------._____ **education**
57. Precise statements written in the lesson plans about expectations from students are called_____ **Performance objectives**
58. If teacher play role like a gardener, and use the teaching strategies as a fertilizer than students grows like a:_____ **Seed**
59. Where there is silence, there is no ---------._____ **learning**
60. At ---------- stage of zone of proximal development, a child gets assistance from more knowledgeable other._____
61. A teacher make education attractive for students by using …… teacher learning strategies____
62. One will have more chance of being successful as a teacher if _____
63. Which of the following competency should be the most focused by Good teachers?_____
64. Which of the following is responsible for curriculum planning?_____
65. Curriculum guides actually give us a guideline about what to be taught in different ---- _____**grade levels**

| | | |
|---|---|---|
| **66.** | We have limited time to teach in a ---------. | class |
| **67.** | ---------- means problems with reading, writing, spelling, symbols and numbers, because the brain misinterprets what it sees (visual) and hears (auditory). | Dyslexia |
| **68.** | To write performance objectives is ----------. | necessary |
| **69.** | Age is the element of -------- diversity. | physical |
| **70.** | Teachers must communicate their ------ to the students. | Experiences |
| **71.** | The term ------ is used while explaining multiple diversity among people. | dyslexia |
| **72.** | The statement "The student will define the 6 levels of Bloom's taxonomy" is an example of ---------- level of cognitive domain. | Knowledge |
| **73.** | Who gave this statement: "Having a critical spirit is as important as thinking critically". | niam |

| | | |
|---|---|---|
| **74.** | In --------, planning includes selection of activities. | horizontal level |
| **75.** | in ------, Bloom developed the taxonomy of cognitive domain. | 1956 |
| **76.** | A teacher needs to know the ------ level of the students. | Motivational |
| **77.** | Objectives have a ----- purpose. | Limited |
| **78.** | ------- is a readiness for action. | Set |
| **79.** | ------- are intent of teaching. | Objectives |
| **80.** | The prescription of a minimally acceptable level of a performance on the part of a learner is called --------. | Criterion measure |
| **81.** | Taxonomies provide a --------- structure. | cognitive |
| **82.** | While writing performance objectives, we focus on the --------- | action words |
| **83.** | In performance objectives, all the ------- elements must be present. | three |
| **84.** | While writing performance objectives, we have to use an action word that exactly shows the ----------. | performance |
| | ------- is the highest level of Simpson's hierarchy. | Origination |
| | Curriculum documents are not available in all --------. | schools |
| | ------ is the guarantee of effective instruction and effective learning. | Unit planning |
| | While ---------, you have to see the curriculum framework. | yearly planning |
| | The statement "Write an appropriate title for the text" comes in the ------ level of cognitive domain. | synthesis |
| | Altering motor activities to meet demands of problematic situation is ---------. | Adaptation |
| | A content is consisted of -------. | Facts - Concepts - Generalizations<br><br>ALL |
| | The --------- focuses on what the learner will experience, rather than what the instructor will share or do. | objective |
| | The term ---------- is actually a teacher who has expertise on his subject and he ensures the quality learning of the students. | Master teacher |
| | The last three levels of Bloom’s taxonomy of cognitive domain are called as ---------. | Higher level of learning |
| | The statement of an observable behavior on the part of learner is ---------. | performance |
| | Methods are also identified in ----------. | instructional planning |

| | | |
|---|---|---|
| | Every educational activity should have a ----------. | goal |
| | The objective “The student will compare and contrast the cognitive and affective domains.” is an example of ------ level of cognitive domain. | Comprehension |
| | The -------- has been widely used in curriculum and test construction. | taxonomy |
| | You must tell the students about the ------- processes they are learning. | thought |
| | The prescription of a minimally acceptable level of a performance on the part of a learner is called --------. | Criterion measure |
| | ---------- is a disorder in language formation that may be associated with neurological, psychological, sensory or physical factors. | Speech impairment |
| | Who gave this statement:<br>"Schools not only teach the students but also raise them." | Sausa |

| | | |
|---|---|---|
| | Who gave this statement" Less planning leads to less learning" | Walsh |
| | "Unit planning is the most important as well as most time consuming level of planning for each teacher" who gave the above statement? | Walsh |
| | Girls are less committed to --- | careers |
| | ------- knowledge is a very important competency of a teacher. | Content |
| | ____ plays an important role in child’s learning. | language |
| | Information used as evidence or as part of a report or news article is called ___ | fact |
| | Students ____ indicate their learning. | tests |
| | Children construct their own ___. | Knowledge |
| | A teacher is responsible in the ____ development of a child. | cognitive |

| | | |
|---|---|---|
| | Lev vygotsky’s was born in ___. | Rusia |
| | Idea of “teaching is an art” was development by ___. | William james |
| | Teacher can manage different ___ in school for ethical development of a child. | Activities |
| | A profession has a body of ___. | techniques |

| | | |
|---|---|---|
| | The role of a teacher is a changed from a lecturer to ___. | An agent of transformation |
| | Learning is a ___ process. | social |
| | development/learning cannot be separated from ____ in which it occur. | Social context |
| | Learning is a___ endeavor. | social |
| | In ___ teachers do not have autonomy or the power of decision making. | pakistan |
| | Who gave the theory of multiple intelligence. | Howard gardner |
| | ____ education has a structure systems of learning. | formal |
| | A view or opinion that is incorrect because based on faulty thinking or understanding is a ___. | misconception |

| | | |
|---|---|---|
| | ___ model is an important way of learning. | Observational learning |
| | The role of a teacher is changed from a lecturer to __. | An agent of transformation |
| | A profession allows____. | autonomy |
| | Education that is not given in proper schools is ___. | Informal education |
| | ____ greatly influences learning. | Prior knowledge |
| | Different cultures have different perception about ___. | education |
| | ___ knowledge is acquired, if a child gets cognition about cognition. | metacognitive |
| | ___ are something that is memorized. | Facts |
| | Who gave this statement “knowledge is created when we act and reflect”? | friere |
| | ____ is the procedure to gain declarative knowledge. | lecturing |
| | Lev vygotsky died at the age of___. | 37 |
| | The first process in modeling is ___. | Alternation |
| | Howard Gardner is very famous because of his __. | Multiple intelligence theory |
| | ____ is very important for a teacher. | Reflection in practice |
| | ___ is important but it does require time. | Conceptual change |
| | ___ context of school is “characterized by or having power and authority vested equally among colleagues.” | collegial |

| | | |
|---|---|---|
| | Paulo freire was born in ____. | 1921 |
| | The idea of “teaching is an art or science “was developed in __ by william james. | 1891 |
| | ------- activities are different from teaching activities. | Learning activities |
| | ---- is a series of small action steps which are needed to achieve desired goals. | Objectives: |
| | "Describe the two nation theory" comes in -------- level of cognitive domain. | Comprehension: |

| | | |
|---|---|---|
| | ------- means that a behavior becomes part of your life. | Characterization |
| | -------- comes from curriculum planning. | Holistic vision |
| | The objects through which light could not past are ------- objects. | opaque |
| | A unit plan is a ------- of lesson plans. | Series |
| | There are ----- steps in Taylor's model of curriculum. | four |
| | It is important for the broader curriculum to identify educational --------. | experiences |
| | ------ is the title of the whole unit. | Unit subject |
| | There are ------ necessary elements of planning. | 11 |
| | A teacher needs to know the ------ level of the students. | motivation level |
| | There are -------- types of communication disability. | 2 |
| | Master teachers are ---------- in their planning. | well-organized |
| | Curriculum is a ----- term. | Broad |
| | ------- is essentially a nested process with horizontal and vertical dimension. | Planning |
| | Elements of physical diversity are -------. | 3 |
| | ---------- is a planning of one year of a school. | Long term Planning |
| | A teacher needs to know the ------ level of the students. | Motivational |
| | Detailed implementation comes from --------- planning. | lesson planning |

| | | |
|---|---|---|
| | Students’ ---------- must be considered before planning. | feedback |
| | Terms in revised Bloom’s taxonomy were changed from noun to ----------. | adjectives |
| | ------- is the highest level of Simpson's hierarchy. | Origination: |

| | | |
|---|---|---|
| | Teachers must communicate their ------ to the students. | Ideas |
| | The prescription of a minimally acceptable level of a performance on the part of a learner is called --------. | Criterion measure: |
| | We have limited time to teach in a ---------. | |
| | There are ----- domains of learning. | three |
| | Benchmarks and standards are written in a sequence in ---------. | instructional |
| | We have to identify the facts, concepts and generalizations while planning a --------. | a unit |
| | Bloom’s taxonomy was revised by ----------. | William |
| | Teaching activities are there to teach --------- to the students. | content |
| | ------ identifies classroom assessment criteria. | teacher |
| | ------ is the gurantee of effective instruction and effective learning. | d unit planning |

| | | |
|---|---|---|
| | There are different -------- to do different things. | mechanics |
| | The objective “The student will judge the effectiveness of writing objectives using Bloom's taxonomy” is an example of ------ level of cognitive domain. | Analysis |
| | -------- planning is very challenging and time consuming. | unit planning |
| | "Abstract thinking leads to reasoning with symbols" this refers to ------ stage of Piaget's cognitive development. | Formal operational |
| | -------- do not have attention span. | Children |
| | If we will use the connections our efficiency of doing any task will ------. | increase |

| | | |
|---|---|---|
| | Questions in ----- also includes in essential questions. | induction |
| | In order to start working, the cells need to -------- with each other. | communicate |
| | Teacher must ensure ------ development of child. | holistic l |
| | Brain develop very fast in the ------ year after birth. | first |
| | Learners can learn only ----- chunks of information at a time. | 5-9 |
| | Remarkable changes occur in the brain during the ---------- decade of life. | second |
| | A teacher can teach higher order thinking skills through the --------- process. | |
| | ---------- is a time of profound brain growth. | Adolescent |
| | ---------- should be made clear to the students. | Core concepts |
| | A ----- year old child has the vocabulary of 2000 words. | |
| | The average weight gain of 6-12 years children in a year is ----------. | 5-7 |

| | | |
|---|---|---|
| | Fragmentation is said to be the ------- level of integration. | primary |
| | Core concepts are ----- knowledge. | declarative |
| | Teaching is very exciting for ------- teachers without integration also. | young |
| | In the context of preschool it includes ------ stages of Piaget's cognitive development. | 2 |
| | Children can come up with different ideas and teachers must ------ all ideas. | accept |
| | --------- have no obvious right answer. | essential Questions |
| | John dewy says that there is no such profession where ------- is separable from doing or practise. | knowledge |
| | Generative topics actually make ---------. | connections. |
| | Jumping is the example of -------. | Gross motor |
| | The networked methodology of integration is --------. | student-centered |

| | | |
|---|---|---|
| | ------ always identify their intent. | Teachers |
| | Teachers want to teach in ----- but want to cover the syllabus too. | depth |
| | Child's rights convention of 1989 has mentioned that "---------- is basic right of every child." | Education |
| | Form 1 is --------- integration. | |
| | The green hat in the De Bono's six thinking hats symbolizes ---------. | creativity |
| | --------- are those things that can be changed. | Variables |
| | Group learning will be more efficient for developing the ------. | idea |
| | Bruner's first stage is ------. | Enactive" |

| | | |
|---|---|---|
| | 'Collecting data' is the ------- step of Guided Inductive Inquiry. | |
| | According to Kolb (1984), ---------- is a process of a combination of grasping experience and transforming it. | ), Learning |
| | The word scientific was devised in the -------. | 19 |
| | The black hat in the De Bono's six thinking hats symbolizes ---------. | judgment |
| | Usually we do not ------- our tradition and authority. | question |
| | ---------- invented the bulb. | Edison |
| | Bruner's second stage is --------. | "Iconic |
| | The red hat in the De Bono's six thinking hats symbolizes ---------. | feelings |
| | Problem based learning starts from ---------. | Analysis |
| | ---------- characteristics of critical thinking are presented by Wade (1995). | |
| | Inquiry is NOT about ----------. | memorizing facts |
| | During guided inductive inquiry, the -------- plays the key role in asking questions. | teacher p |
| | Problem based learning also starts from ---------. | Questions |
| | There are ---------- processes of inquiry. | 13 |

| | | |
|---|---|---|
| | The term ‘Six Thinking hats’ was presented by ------- | De Bono |
| | The ---------- is an educated guess about the relationship between the independent and dependent variables. | Hypothesis |
| | Students will make generalizations that are too -------. | broad |
| | The solutions, responses provided by learners are not found in ---------. | textbooks |

| | | |
|---|---|---|
| | Children produce their original work after -------. | problem based learning |
| | Inquiry may involve ---------, procedure and solution. | Problem |
| | --------- are responsible for planning, conducting and evaluating their own efforts. | Learners |
| | Scientific method can be used in ------- also. | social sciences |
| | Roots of the ------- of all social sciences is based on scientific method. | research |
| | In school we do not have much time to deliver information so we must know the -------. | |
| | The most important part of integration is -----. | assessment |
| | ---------- thinking is a disciplined manner of thought that a person uses to assess the validity of something. | critical thinking |
| | ---------- talked about logics and he was one of the pioneers. | Aristotle |
| | --------- of information is important. | depth |
| | Inquiry is NOT a ---------- technique. | Hypothetical |
| | ------- love integrated curriculum because it provides the context for learning. | Children |
| | Group learning develops ideas and ---------. | |
| | Learners progress from specific observations to ----------. | inferences |
| | The brain thrives on -------. | connections |
| | During guided inductive inquiry, the ---------- plays the key role in asking questions. | teacher |
| | Inductive inquiry is of ---------- types. | 2 |

| | | |
|---|---|---|
| | According to Kolb (1984), Learning is a process of a combination of grasping ---------- and transforming it. | Experience |
| | Inquiry may involve problem, -------- and solution. | procedure |

| | | |
|---|---|---|
| | In ---------- , students investigate a teacher-presented question. | Guided inductive |
| | Students must learn to modify their ---------. | conclusions |
| | -------- is a permanent change in behaviour. | learning |
| | --------- are much important in scientific method. | variables |
| | Paper pencil tests can assess the ------ of the students. | |
| | Inquiry method requires the learner to develop -------- associated with inquiry. | various processes |
| | ---------- inquiry is widely used in our classroom settings. | Information inquiry |
| | Learners progress from --------- observations to inference or generalizations in GII. | specific observations |
| | -------- is the domain where our body movements are involved. | Psychomotor |
| | ---------- is actively constructed by learners. | Knowledge |
| | Idea of "teaching is an art" was developed by-------. | William James |
| | is a learning style in which learning takes place by the student carrying out a physical activity. | Kinesthetic learnin |

| | | |
|---|---|---|
| | growth cannot take place unless we do not provide opportunities to our students to think at high level. | Intellectual growth |
| | The theory of Zone of proximal development was given by --------. | Vygotsky |
| | A child is responding in the form of action but this action is not an independent action is a<br>-------. | Guided Response |
| | means the knowledge about how to teach the students. | pedagogical knowledge |
| | There are ------ types of education in our society. | 2 |
| | Learning is ---------- by nature. | social |

| | | |
|---|---|---|
| | ------ includes all intellectual skills. | Cognativbe domaon |
| | According to research, the best recognition teachers got is from the ----------. | students |
| | There are ---------- types of intellectual disability. | |
| | Developing questioning skills among students comes in | Higher thinking levels: |
| | means attending to a stimulus | Perception |
| | Who gave this statement: “Knowledge is created when we act and reflect”? | Friere: |

| | | |
|---|---|---|
| | ------ is the level where a child can originate things on his own. | origination |
| | “Write an appropriate title for the text” is an example of ---------- level of cognitive domain. | Synthesis level |
| | Teaching is a -------- profession. | noble |
| | The objective “The student will construct an instructional objective for each level of Bloom's taxonomy” is an example of ------ level of cognitive domain. | |
| | A teacher is a ---------. | Change agent |
| | is to teach certain content to the students | METHOD |
| | cannot be separated from the social context in which it occur | Learning |
| | It was ---------- century in which perceptions about teaching, learning and education were developed. | 16th century |
| | education has a structured system of learning | formal |
| | Knowledge is actively constructed by | learners |
| | A teacher must use ---------- resources in a class. | Low cost |
| | An educator must work to stimulate the spirit of ---------- among the students. | f inquiry |
| | What we do in schools, we never focus on the --------- level of learning. | higher level |
| | Hierarchical levels of Simpson' Psychomotor domain are | 7 |
| | The level of --------- to the profession must be to the range of every student. | commitment |

| | | |
|---|---|---|
| | is the mean of creating a dialogue | reflection |
| | ------ is the knowledge that is declared in books, | Declarative knowledge |

| | | |
|---|---|---|
| | research papers or newspapers. | |
| | ------ is the level of understanding. | Comprehension |
| | Teachers need to know the ------- level of students. | |
| | We must plan unit before -----. | lessons. |
| | While evaluating teaching or students' learning, you should always come up with judgements based on ----------. | t evidence |
| | Planning serves a guide to ----------. | action. |
| | Lesson is a piece of a unit NOT a block of ---------. | time |
| | The process of setting goals, developing strategies is -------. | Planning |
| | In evaluation we discuss --- things. | two |
| | Process cannot be isolated from --------. | All of abouve |
| | IEP is basically ---------- adaptation of lesson plan. | extended |
| | If a teacher plans to take the students for field trips, then he needs to consider ----------. | schools‟ resources |
| | | |
| | Performance objectives must be alligned with<br>-------. | curriculum |
| | ---------- research is very effective research for teachers because it aims at improvement. | Action |
| | The learning of --------- is lifetime. | core concepts |
| | The average height growth of 6-12 years children in a year is ----------. | |

| | | |
|---|---|---|
| | Learner can process only about one new idea or concept every ------- second. | ten |
| | In ------- books there is a lot of information than Japanese and German books. | American |

| | | |
|---|---|---|
| | A preschool child of 36 months can now hold ------ different emotions in his mind at the same time. | two |
| | ---------- education is different from other education. | Pre-school and infant educations |
| | Generative topics are generated from ---------. | leant information |
| | --------- need to be interesting for the teachers as well as for students | Generative topics |
| | ---------- integration method overlaps concepts as organizer. | shared |
| | "Child is a natural discoverer" who gave this statement. | Bruner |
| | ------- are related to the lives of people. | Essential questions |
| | In United States, pre-schooling is named as ----------. | Pre-school |
| | Learning depends upon the ---------. | environment |
| | The idea in -------- thinking is that no idea is a stupid idea. | divergent |
| | Essential questions are related to the ---- of people. | lives |
| | Brain development continues till the age of ----. | 8 |
| | -------- teacher should integrate two or three subjects so that we can save the time. | Primary school |
| | Core concepts are central to the domain of --------. | knowledge |
| | Integration means putting things ---------. | together |
| | Because of integration it will be easier to ask ----------. | essential questions |

| | | |
|---|---|---|
| | ------ are most important persons in the application of curriculum. | Teachers |
| | In British English, pre-schooling is known as ----------. | nursery |
| | ------- construct their own knowledge. | Children |
| | There are ---------- physical developmental milestones used in pre-schooling. | |
| | -------- needs to be an integral part of early years of education. | Story time |

| | | |
|---|---|---|
| | ------- are unique to every individual. | Experiences |
| | Teachers mostly concern about ----------. | completion of syllabus |
| | Form 3 focuses on the integration of subject knowledge with ----------. | Student's Interest |
| | Bigger ideas are our assumptions and ----------. | belief |
| | -------- theory is very much applicable in early childhood education. | Vygotsky |
| | The ---------- curriculum is a great gift to experienced teachers. | integrated |
| | passive rolesResearch has now determined that remarkable changes occur in the brain during the ----- decade of life. | second |
| | Development cannot be separated from the ---------context in which it occurs. | social |
| | By the age ------, a child has TWICE as many brain connections as an adult. | |
| | Gross motor and fine motor development is involved in ----------. | Physical development |
| | M. Markus was a ------ who gave the definition of integration. | |

| | | |
|---|---|---|
| | Which needs does a primary reinforcer satisfy? | Food oxygen warmth watre |
| | Teachers get little assistance from ------- publishers. | textbook |
| | The brain is not complete at --------. | birth |
| | Essential questions require ---------- thinking. | divergent |
| | ---------- type of integration is related to shared integration. | sequenced |
| | Networked integration is created between the ----------. | learners |
| | --------- is a dead thing teachers give life to it. | Curriculum |
| | We need to integrate the knowledge with ---------- skills. | practical |
| | ------ is a conceptual commitment. | Essential question |
| | Through -------- it will be easier for the children to ask essential questions. | integration |

| | | |
|---|---|---|
| | Different countries use different names for pre-schooling, but the umbrella term for it is ----------. | Early Childhood Education |
| | There are ----- stages of Piaget's cognitive development. | 4 |
| | Vygotsky's theory includes ------- major ideas. | four |
| | Our teachers do not focus on ---------. | core concepts. |
| | ---------- integration is created among group of students. | |
| | ---------- integration takes advantage of natural combinations. | Nested integration |
| | Development of --------- skills is very important in preschool or early childhood education. | Gross motor |
| | Forms of integration were presented by Fogarty and Stoehr in --------. | 1995 |
| | Work on scientific method was started by ------ to Galileo. | Aristotle |

| | | |
|---|---|---|
| | Cooperative learning method can help students develop ---------- skills. | Communication |
| | Piaget spend actually------- to work on constructivism. | 50 years |
| | The cooperative learning model changes the ------- . | reward system |
| | --------- can be assessed through direct observation. | skills |
| | ---------- is a model which requires student cooperation and interdependence in its task, goal and reward structure. | Cooperative learning |
| | Cooperative learning methods are those in which more than --------- person work together. | one |
| | Teachers role is minimized in ---------- inquiry. | |
| | In cooperative lessons, Students work ------- to master learning goal. | **teams** |
| | Cooperative learning requires ---------. | |
| | Assigning different roles is a good thing in --------. | jigsaw technique |
| | Kagan (1994) roles have been adapted by --------. | Arends |

| | | |
|---|---|---|
| | cooperative learning help students make the ---------- from whole-class to cooperative learning groups. | transition |
| | In cooperative learning, ---------- are oriented to the group as well as the individual. | Reward system |
| | More than ---------- of the researches says that cooperative learning helps in the academic achievement of the student. | |
| | A special challenge for cooperative learning teaching is how to ------- for both team and individual efforts. | grade |
| | Rubrics are actually instruments -------. | |

| | | |
|---|---|---|
| | In --------- teacher talk time is more than 50% of students talk time. | Recitation |
| | ---------- functions are image and inform. | Concepts |
| | ---------- create productive learning communities. | Effective teachers |
| | Extended practice leads to ---------. | Overlearning |
| | Teacher control is ------- process. | authoritative |
| | Peer tutoring is ----------. | motivational strategy |
| | ---------- lose their significance after sometime. | External rewards |
| | --------- discussion is a teacher-centered discussion. | Monologic |
| | --------- is a teacher-centered method. | Presentation |
| | Direct instruction keeps ------ in passive role. | students |
| | Practice that is under the watchful eye of the teacher is called -------. | Guided practice |
| | ---------- method is the example of discussion method. | |
| | Teachers can obtain better classroom discourse by giving their students opportunities to think before they --------. | respond |
| | Feedback should be appropriate and ---------. | constructive |
| | The base level of Maslow's Hierarchy of Needs is ---------. | Physiological needs |
| | Recitation is also called ----------. | |

| | | |
|---|---|---|
| | Presentation is a --------- centered method. | Teacher |
