بِسۡمِ اللّٰہِ الرَّحۡمٰنِ الرَّحِیۡمِ

EDU301 Quiz 2 File by Tanveer Online Academy

What is worth a thousand words?	Picture
Which of the following presents 'big picture' to establish relationship between different concepts?	Advance organizer
Individual educational plans are usually opposite to which of the following?	Inclusion
-------is the art of developing logical plan for instructional activities.	Sequencing
Which of the following objectives would be much more than the terminal objectives and the prerequisites?	Intermediate
-------- is helpful in writing a research report.	Keeping notes
Which one of the following has a lot of significance value?	Questioning
An important thing in inductive mode of presentation is--.	Process
Teachers' complaint for shortage of time can be resolved through -------- -.	Unit Plan
The individualized part of IEP means that the plan has to be tailored specifically to your child's special--.	Needs
In which of the following teachers don't need to follow all the things that are followed in concept analysis model in?	Advance organizer
--------- is basically an extended adaptation of a lesson plan.	IEP
What is an effective strategy in elaboration?	Questioning

The extended version of a lesson plan is called as:	**IEP (Individual Education Plans)**
Facts and concepts comes under which domain of knowledge?	**Declarative**
A drawback in deductive reasoning is --.	**No fair observation**
Task analysis model is a very important model as it helps the teacher to identify -----.	**Prerequisites**
Which of the following is a provisional purpose of a lesson plan?	**Developing thinking skills that will be useful in practical teaching**
Lesson planning is a part of --- --.	**long term planning**
We have limited time to teach in a	**Class**
------helps to make learning more manageable.	**Sequencing**
--------are those which depend on prerequisites.	**Dependent enabling skill**
There are ------content forms.	**3**
The best model to integrate all the components of a concept is ?	**Concept analysis**
Teachers have to identify the -------to monitor the progress of the students.	**Methods**
Teacher should remain relaxed while doing------ --.	**Brainstorming**
Along with content which of the following are very important in teacher's consideration?	**Processes**
In which of the following teaching method a teacher presents concepts and procedures ?	**Presentation**
A lot of information can be communicated through---- --.	**Pictures**
If teacher gave example of a concept that could not be explained with real life examples then this concept is:	**Abstract**
In information processing theory, short term learning is named as.....	**Sensory register**
Venn Diagram is a very important tool for --.	**Comparing**
Research shows that learning do not take place if presented in isolated	**Items**
Teacher needs to start lesson with -- --.	**simple Steps**
Which of the following is the title of the whole unit?	**Unit/ subject**
The individualized part of IEP means that the plan has to be tailored specifically to your child's:	**Special needs**
Curriculum guides are planned by --.	**Ministry of Education**
Brainstorming is a common tool to-- a thing.	**Describe**

Human brain can keep number of unrelated piece of information at a time:	**5-9**
Which of the following has the policy to cover the content?	**School**
When teacher provides guidance to the students, then there is--.	**semantic encoding**
The common thing in Tyler's model and Bloom's taxonomy is that the teachers observe the --.	**Students**
An inferential statement that expresses a relationship between two or more concepts is:	**Generalization**
How many elements are in Gagne's plan of introducing and organizing experience?	**Nine**
Effective individual education plans are individualized and ----------.	**student-oriented**
Generalizations are basically a relationship between --.	**Concepts**
IEP is basically -------- adaptation of lesson plan.	**Extended**
Whenever we are sequencing, we need to know what a for a particular terminal objective is.	**Prerequisite**
Which of the following skills are prerequisite actually?	**Independent enabling skills**
Sequencing steps are in progression, they start from simple to--.	**Complex**
Cognitive about cognition comes in ----.	**Metacognition**
Which of the following is the guarantee of effective instruction and effective learning?	**Unit planning**
Which of the following is a detailed form of the unit plan?	**Lesson**
What are the components of post-lesson activities in teaching?	**Evaluating lesson plans, evaluating unit plans.**
Which of the following consist of a number of lesson plans?	**Unit plan**
What is the main purpose of planning a lesson?	**Serving as a guide to action**
Activity schedule in lesson planning is part of the:	**block timetable**
In which of the following planning the societal needs are identified?	**Curriculum**
What is the primary purpose of record keeping in education?	**Future planning and improvement**
Which of the following is the process of setting goals and developing strategies?	**Planning**

Which of the following is the focus of the Individual Educational Plan (IEP)?	**Needs of the learner**
Which of the following planning is very challenging and time-consuming?	**Unit**
What are the key characteristics of effective Individual Education Plans (IEP)?	**Individualized and holistic**
----- is one of the famous models of curriculum development.	**Tyler's model**
Which of the following is NOT a purpose of keeping notes?	**Preparation of exams**
Teachers' complaints about shortage of time can be resolved through:	**Unit plan**
The lesson is a piece of a unit NOT a block of:	**time**
Which of the following is helpful for making learning manageable?	**Sequencing**
Which of the following objective is the second name of performance objectives?	**Behavioral**
The process of sequencing of concept should be from:	**Simple to complex**
What does the term "elaboration" mean?	**Addition**
Which type of reasoning involves moving from a Specific statement to a general conclusion?	**Inductive reasoning**
If teacher gave example of a concept that could not be explained with real life examples then this concept is:	**Abstract**
How many modes of presentation are there?	**Two**
What is the important aspect emphasized in the inductive mode of presentation?	**Process**
The thinking process which requires focused attention as compared to others:	**Convergent thinking**
Advance organizer model is based upon which approach?	**Deductive**
Which of the following are more economical and take less space in our working memory?	**Images**
Which of the following skills are prerequisites and, they are not dependent on anything?	**Independent**
Sequencing is important in the context of education to:	**make learning more manageable**
Which type of reasoning involves moving from a general statement to a specific conclusion?	**Deductive reasoning**
Which of the following theory is important for a deeper understanding of children?	**Information processing**
Which of the following approaches is used in the advanced organizer model?	**Deductive**
Which of the following is a teaching method where a teacher	**Presentation**

presents concepts and procedures?	
Which of the following modes of presentation are used by the teacher to teach the skill of observation to the students?	**Deductive**
In information processing theory working memory is also termed as which type of memory?	**Conscious**
The deductive mode of presentation proceeds from:	**General to specific**
What is also known as a concept map?	**Graphic organizer**
Which of the following mode is better to learn the skill of observation?	**Inductive**
Which of the following is a commonly used teaching strategy which helps in developing space in working memory?	**Elaboration**

Concepts are basically------- --. Ideas

In deductive mode, students learn reasoning and----- --. Concepts

How many levels of Affective domain are identified? Five

Which of the following thinking is more creative? Divergent thinking

Teachers must divide their overall content into some: Instructional units

Teacher has to decide which content have to be taught and which must be omitted, this comes in the: rationale

Which of the following thinking is more focused? Convergent thinking

In which of the following hemisphere logical thinking and verbal intelligence comes?

Left

The objectives in which observable behavior are measured is called: Performance objective

Some -------- demands that their children must also be engaged in co-curricular activities as well as learning the content. Parents

Observed learning outcome is directly linked to which of the following assumption of content or media used? teaching strategy

Curriculum guides are planned by------ --. Ministry of Education

Which of the following is very important thinking for creativity? Divergent

Which of the following is the best source to gain knowledge for the students? Teacher

Students must be told about the processes they are learning. Thought

- ----------is a statement of those elements that the learner will be required to master in a lesson.
Advance organizer

The internal process of reinforcement for student is takes place when teacher: Provide Feedback

Which one of the following model is useful for the teachers to communicate their expectations to the students?
Advance organizer model

In information processing theory, short term learning is named as. Sensory register

Touching sense is learned by which of the following learning style? Tactile

Task analysis is very important when you are going to give the students --. procedural knowledge

Facts and concepts comes under which domain of knowledge? Declarative

In process of sequencing which of the following variable is directly proportional to time span? Complexity of the concept

Which of the following is a process associated with inquiry method? observation

Who of the following gave this statement: "Inquiry is the active, persistent, and careful consideration of any belief or supposed form of knowledge."? Dewey

Which of the following levels of Simpson's psychomotor domain means attending to a stimulus? Perception

Which of the following objective is often process and in some instances, the end product? inquiry teaching

Tyler model is famous model of --. Curriculum

Which of the follow An inferential statement that expresses a relationship between two or more concepts is: Generalization

_____is second stage of Bruner's theory? Iconic

Which of the following is not related with inquiry?

memorizing facts Objectives should be --. Student-

oriented

"To keep record of the teaching" is the purpose of --. keeping notes

Which of the following is basic concept of Hunter's model of lesson planning? Gagne's model

Which of the following type of integration is related to shared integration? Sequenced

- ---- are something which is not tangible. Abstractions

Which of the following are based on induction? Essential Questions

Which of the following is first stage of Bruner's theory? Enactive

The stages of Piaget's cognitive development are: 4

Curriculum guides are consisted of: Activities

Research has now determined that remarkable changes occur in the brain during the

----------decade of life.
second

It is common experience that poor children have more? problem solving skill

Mechanism indicates that a child is ------- to do a task by following its mechanics. Independent

What we do in schools, we never focus on the which of the following of learning?

Higher Lesson plan starts with the --. Subject

Which of the following level is the highest level in affective domain? Characterization

Which of the following is a very good approach to know problem solving? Case method

The brain thrives on --- --. Connections

Who of the following are responsible for planning, conducting and evaluating their own efforts? Learners

Learning activities are those where are actively involved. Students

"Design an experiment to prove that light rays travel in straight line" comes in which of the following level of cognitive domain? Synthesis

Teachers should plan instruction in order to enhance which of the following

hemispheres? both right & left Which of the following domain involved our body

movements? Psychomotor

In performance objectives, how many elements must be present? Three

The first three levels of cognitive domain are called as: Lower

level of learning Which of the following age level the brain

develops very fast? First year Which of the following best

relate with change in behavior? Learning

In which books there is a lot of information than Japanese and German book? American

Who love integrated curriculum? Students

Which of the following is the art of developing logical plan for instructional activities and has integrated steps? Sequencing

Forms of integration were presented by Fogarty and Stoehr in which year?

1995 Post lesson activities are related to - --. Evaluation

Which of the following includes drawing conclusions based on observations? Inferring

Which of the following model is the best model to integrate all the components of a concept? Concept analysis model

Which of the following skills can be assessed by creating a check list?

Communication Teachers mostly concern about. completion of syllabus

Which of the following level is the highest level of Simpson's hierarchy? Origination

According to research teachers mostly focus on which of the following hemisphere?

Left Which of the following comes from curriculum planning? Holistic vision

- ----------characteristics of critical thinking are presented by Wade (1995). Eight

Instructional objectives are ------- than goals. Narrow

Which component is common in Hunter, John and Tru's template of lesson planning? Resources

Which one of the following has a lot of significance value? Questioning

The knowledge that consists of facts, concepts and generalization is termed as:

Declarative Taxonomies provide which of the following structure? Cognitive

Which of the following level is the first level of Bloom's taxonomy of cognitive domain? Knowledge

In which of the following inquiry, teachers' role is minimized? Unguided

Which of the following signifies the white hat in the De Bono's six thinking hats? information known or needed

Teachers must communicate their---- to the students. Experiences

Which of the following skills are prerequisite actually and are not dependent on anything? Independent enabling skills

Which of the following is a nested process with horizontal and vertical dimensions? Planning

An important thing in inductive mode of presentation is --. Process

The important thing in is what we know we must share it with others. jigsaw reading

Which of the following is the most important as well as the most time consuming level of planning? Unit plan

- ------are those which depend on prerequisites. Dependent enabling skill

Light could not pass through which of the following objects?

Opaque The idea in thinking is that no idea is a stupid

idea. divergent

In what kind of thinking the idea in thinking is that no idea is a

stupid idea? Divergent Teacher should remain relaxed while doing

---------- --. brainstorming

Life time learning is: curriculum

- ---helps to make learning more manageable. Sequence

In which of the following activity the children share their ideas with each other, so it also results in social development? Snack time & circle

Our assumptions and beliefs are: Big ideas

According to Kolb (1984), ---- is a process of a combination of grasping experience and transforming it.
Learning

Learning is a permanent change in: behaviour

Whenever we are sequencing, we need to know what a for a particular terminal objective is. Prerequisite

Teacher must come up with at least so that the students can understand the concept easily. One

Different countries use different names for pre-schooling, but the umbrella term for it is: Early Childhood Education

When we are going to start teaching it is important to write: performance

objectives Which of the following mode is better to learn the skill of observation?

An inductive How old a child has the vocabulary of 2000 words? 5

The action verbs that used for evaluation level questions are: __Judge, verify, conclude

Through integration, the teaching of experienced teachers
has become? exciting

What is an effective strategy in elaboration?

Questioning Core concepts are of which kind

of knowledge? Declarative Fragmentation is at

which level of integration? Primary

Cognitive about cognition comes in --------. Metacognition

Detailed implementation comes from------- planning. Lesson

Which of the following thinking is a disciplined manner of thought that a person uses to assess the validity of something? Critical

EDU301 QUIZ 2 Spring 2023

What is worth a thousand words?	picture
Which of the following presents 'big picture' to establish relationship between different concepts?	Advance organizer
Individual educational plans are usually opposite to which of the following?	Inclusion
-------is the art of developing logical plan for instructional activities.	Sequencing
Which of the following objectives would be much more than the terminal objectives and the prerequisites?	Intermediate
-------- is helpful in writing a research report.	Keeping notes
Which one of the following has a lot of significance value?	Questioning
An important thing in inductive mode of presentation is--.	Process
Teachers' complaint for shortage of time can be resolved through -------- -.	Unit Plan
The individualized part of IEP means that the plan has to be tailored specifically to your child's special--.	Needs
In which of the following teachers don't need to follow all the things that are followed in concept analysis model in?	Advance organizer
--------- is basically an extended adaptation of a lesson plan.	IEP
What is an effective strategy in elaboration?	Questioning
The extended version of a lesson plan is called as:	IEP (Individual Education Plans)
Facts and concepts comes under which domain of knowledge?	Declarative
A drawback in deductive reasoning is --.	No fair observation
Task analysis model is a very important model as it helps the teacher to identify -----.	Prerequisites
Which of the following is a provisional purpose of a lesson plan?	Developing thinking skills that will be useful in practical teaching
Lesson planning is a part of --- --.	long term planning
We have limited time to teach in a	Class
------helps to make learning more manageable.	Sequencing
--------are those which depend on prerequisites.	Dependent enabling skill
There are ------content forms.	3

The best model to integrate all the components of a concept is ?	Concept analysis
Teachers have to identify the -------to monitor the progress of the students.	Methods
Teacher should remain relaxed while doing------ --.	Brainstorming
Along with content which of the following are very important in teacher's consideration?	Processes
In which of the following teaching method a teacher presents concepts and procedures ?	Presentation
A lot of information can be communicated through---- --.	Pictures
If teacher gave example of a concept that could not be explained with real life examples then this concept is:	Abstract
In information processing theory, short term learning is named as.....	Sensory register
Venn Diagram is a very important tool for ---------- --.	Comparing
Research shows that learning do not take place if presented in isolated	Items
Teacher needs to start lesson with----------.	simple Steps
Which of the following is the title of the whole unit?	Unit/ subject
The individualized part of IEP means that the plan has to be tailored specifically to your child's:	Special needs
Curriculum guides are planned by ----------.	Ministry of Education
Brainstorming is a common tool to---------- a thing.	Describe
Human brain can keep number of unrelated piece of information at a time:	5-9
Which of the following has the policy to cover the content?	School
When teacher provides guidance to the students, then there is - - - - - .	semantic encoding
The common thing in Tyler's model and Bloom's taxonomy is that the teachers observe the ---------- --.	Students
An inferential statement that expresses a relationship between two or more concepts is:	Generalization

In which of the following type of planning sequence of methods or strategies to be used in the class is made?

instructional planning

Teacher needs to start lesson with ----. simple steps

In order to teach a sequenced lesson, a teacher needs to add to the lesson. Complexity

Who among the following gave this statement “Less planning leads to less learning"

Walsh

Curriculum is a - term. Broad

Which of the following identifies classroom assessment criteria?

Teachers

“To keep record of the teaching” is the purpose of --------. keeping notes

- --- is something which indicates division of time. Activity schedule

- --- is defined as "a systematic design for the development, implementation and evaluation of instruction".Lesson plan

An inferential statement that expresses a relationship between two or more concepts is: Generalization

Which of the following is based on Gagne’s Model? Hunter’s model

Total sequencing time may be ------ years. 10

Effective individual education plans are individualized and --.student-oriented

Which of the following knowledge is a very important competency of a teacher?

Content

- ---- are something which is not tangible. Abstractions

Which of the following skills can be assessed by creating a check list?

Communication

A unit plan consisted of which of the following, lesson plans?

Series

The internal process of reinforcement for student is takes place when teacher:

Provide Feedback Teachers' complaint for shortage of time can be resolved through

---------- --. Unit plan

Which of the following is the best source to gain knowledge for the students? Curriculum guide

Which of the following is taken into consideration while planning curriculum?

assessment

Which type of planning shows link between standards, benchmarks, learning outcomes and instructional objectives? Vertical

- -------is helpful in writing a research report. Keeping notes

Tyler model is famous model of --. Curriculum

- --- is a piece of unit not a block of time. Lesson

. In which planning the societal needs is identified?

Curriculum
