Physical Education

1. The basic purpose of physical education is the____ nurturing of child, physically and mentally.
(a) proper (b) high
(c) balance (d)none of these

2. Physical education practically builds a child_____.
(a) Character/behavior (b) Body
(c) Power (d) none of these

3. An empty mind is a_____home.
(a) man (b) friend
(c) devil's (d) none of these

4. Physical education promotes_____awareness among the children.
(a) political (b) religious
(c) economic **(d) none of these**

5. _____is the key to human physical and mental health.
(a) exercise (b) singing
(c) reading **(d) relaxation**

6. Movement is the symbol of _____.
(a) fighting **(b) life**
(c) laziness (d) none of these

7. The aim in jumping is to cross a (n)_____.
(a) obstacle (b) mountain
(c) raod (d) None of these

8. The word "Gymnastic" in invented by_____.
(a) Asians **(b) Greeks**
(c) Chinese (d) none of these

9. Gymnastic education is related to the correctness of _____movements.
(a) Intentional (b) unintentional
(c) compulsory (d) non of these

10. Gymnastic as a game is a part of _____games.
(a) Commonwealth **(b) Olympic**
(c) national (d) none of these

11. Joints exercise strengthens the_____.
(a) body (b) Legs
(c) hands **(d) Muscles**

12. For a balanced personality, a balanced ____ in necessary.
(a) body (b) diet
(c) height (d) none of these

13. A balanced height is the reflection of good health and_____.
(a) personality (b) Running
(c) reading (d) none of these

14. A_____person can easily perform daily works.
(a) heighted (b) short
(c) sound (d) none of these

15. _____can remove temporary tiredness.
(a) exercise **(b) massage**
(c) running (d) none of these

16. Massage fastens the flow of_____.
(a) blood (b) water
(c) food (d) none of these

17. Massage helps the bones to_____.
(a) produce **(b) grow**
(c) melt (d) none of these

18. _____is the basic element of physical fitness.
(a) patience (b) anger
(c) relaxation (d) none of these

19. More tasks in less time is called _____.
(a) movement **(b) speed**
(c) play (d) none of these

20. Physical fitness increases the ability to do more_____.
(a) reading (b) writing
(c) homework **(d) works/tasks**

21. In Nock Out System, the losing team is to be _____ from the tournament.
(a) promoted **(b) expelled**
(c) retained (d) none of these

22. In League system, every team must play with_____.
(a) each other (b) one team
(c) two teams (d) none of these

23. _____education helps people to live a meaningful life.
(a) Mental (b) Political
(c) Social **(d) Physical**

24. _____education helps in building strong and

MTS LEAKPESED, Test Preparation

stable nerves.
(a) Mental (b) Political
(c) Physical (d) Social

25. Age limit for Gymnastics starts from the age of _____.
(a) 10 (b) 11
(c) 12 (d) 14

26. Number of players in Baseball_____.
(a) 7 (b) 6
(c) 5 (d) 9

27. Players in Rugby_____.
(a) 15 (b) 11
(c) 12 (d) 13

28. Players in Kabaddi_____.
(a) 7 (b) 8
(c) 9 (d) 10

29. Players in Hockey and Football (soccer)_____
(a) 12 each (b) 11 each
(c) 13 each (d) 14 each

30. A Volley Ball team has_____players.
(a) 5 (b) 6
(c) 7 (d) 8

31. The ground of____has a total length of 91.4 meters.
(a) Hockey (b) Foot ball
(c) Cricket (d) none of these

32. Break during the play of hockey is___minutes.
(a) 20 (b) 15
(c) 05 (d) 10

33. The lenght of volley ball ground is____meters.
(a) 18 (b) 20
(c) 22 (d) 24

34. Basket Ball court has a total length of___feet.
(a) 82 (b) 83
(c) 92 (d) 94

35. Muscle training is not effective on_____.
(a) Increase in muscle endurance
(b) Change in muscle structure
(c) increae in muscle strength
(d) none of these

36. Which of the following game was developed from "The English Rounder" by Abner Doubleday in New York in 1839_____?
(a) Hockey (b) Baseball
(c) Volleyball (d) Netball

37. The total number of officials required for a Kho-Kho match is_____.
(a) 6 (b) 8
(c) 9 (d) 10

38. Pre-school children learn things by____
(a) practice (b) Imitation
(c) repetition (d) watching TV

39. Increase in Muscle mass due to heavy weight training is called_____.
(a) muscular hypotrophy
(b) Muscular atrophy
(c) Hematoma
(d) Muscular hypertrophy

40. The back thigh muscles are also known as_____.
(a) Hamstring (b) Gluteal
(c) Gastro enemius (d) Quadriceps

41. The longest muscle in body_____.
(a) Deltoid (b) Sartorius
(c) Pectorals Major (d) none of these

42. All humans have unique____to perform.
(a) same (b) identical
(c) features (d) abilities

43. For a good player____is the key.
(a) activeness (b) laziness
(c) good mentality (d) none of these

44. A player changes his____for better performance.
(a) ability (b) power
(c) role (d) techniques

45. A good player must have___making power.
(a) decision (b) meal
(c) ground (d) none of these

46. Posture is an index of_____
(a) Health (b) Character
(c) personality (d) none of these

47. Which of the following factors is considered to be more important in the construction of an indoor gymnasium?
(a) direction (b) ventilation
(c) light (d) floor

48. One of the following is an excellent example of condyloid joint_____.

Muhammad Ali 03191190027

Scanned by CamScanner

(a) Wrist Joint (b) Hip joint
(c) Neck joint (d) shoulder joint

49. The name of valve between left atrium and left ventricle is_____.
(a) Tricuspid valve **(b) Mitral valve**
(c) Aortic valve (d) none of these

50. All reflex activities are controlled by_____.
(a) Spinal Cord (b) Pons
(c) Cerebellum (d) Cerebrum

51. In the technical terms, muscle pull is known as_____.
(a) Sprain (b) Contusion
(c) Strain (d) none of these

52. Supination and Pronation aor the movement of_____.
(a) Carpal - Metacarpal Joints
(b) Tibia - Fibula joint
(c) Radia - Ulnar joint
(d) non of these

53. Trypsin helps in the digestion_____.
(a) Vitamins (b) Fats
(c) Protein (d) none of these

54. Physical activity is basically a_____.
(a) Social attribute
(b) Psychological tendency
(c) Philosophical concept
(d) Biological tendency

55. Which of the following terms denotes the "toughening of body" as its major objectives?
(a) Physical culture (b) Play
(c) Drill **(d) physical training**

56. Which of the following is not connected with the concept of motivation_____.
(a) Sympathy **(b) Drive**
(c) Need (d) motive

57. The functional efficiency of a muscle depends upon its_____.
(a) Fiber quality (b) Girth
(c) Nerve stimulation (d) none of these

58. Who amongst the following are found to be most agile_____?
(a) Divers **(b) gymnasts**
(c) swimmers (d) none of these

59. Which of the following activities measures dynamic strength?
(a) rope climbing (b) forward roll
(c) Vertical Jump (d) Short distance run

60. The most important factor in the organization of recreation_____?
(a) Materials **(b) Facilities**
(c) Leadership (d) Planning

61. In which Olympic did women participate for the first time_____?
(a) 1896 Athens (b) 1928 Amsterdam
(c) 1920 Antwerp **(d) 1900 Paris**

62. Ball and socket type joints are_____
(a) Fixed joints (b) Uniaxial joint
(c) Tri-axial joint (d) none of these

63. Which of the following is a two joint muscle _____?
(a) Sartorius (b) Bicep Brachi
(c) Deltoid (d) none of these

64. Which one is not a primary motive?
(a) sex (b) affection
(c) hunger (d) love

65. Intentional body movements are of ___types.
(a) One **(b) Two**
(c) Three (d) Four

66. Objective of gymnastic include; the perfect height, to be powerful, self-confidence, self respect and_____.
(a) physical health (b) mental health
(c) beauty (d) none of these

67. In a Group Activity there are more than____ participants to perform a group task.
(a) 100 **(b) 1**
(c) 41 (d) 50

68. In one milliliter of blood, the number of platelets is stated to be about_____.
(a) 2,00,000 (b) 3,00,000
(c) 4,00,000 (d) 6,00,000

69. Davis cup is associated with_____.
(a) Hockey **(b) Lawn Tennis**
(c) Volleyball (d) Football

70. The objectives of physical education include _____.
(a) the growth of mental and physical capacities
(b) character building and polishing of natural

Scanned by CamScanner

abilities
(c) Social awareness, self-confidence, time management, good health
(d) All of these

71. _____education is the utilization and practical implementation of health education.
(a) social **(b) physical**
(c) political (d) natural

72. The primary physical movements include; Bending or curling, stretching and_____.
(a) twisting (b) running
(c) walking (d) none of these

73. Additional body movements include_____.
(a) walking & running
(b) jumping and climbing
(c) throwing
(d) All of these

74. _____was considered a blessing and a source of pride in the ancient civilizations.
(a) mental fitness (b) beauty
(c) physical fitness (d) none of these

75. Elements of physical fitness include; power, patience, flexibility, speed and_____.
(a) sharpness (b) laziness
(c) politeness (d) none of these

76. A good player must have the following qualities_____.
(a) Truthfulness, discipline,
(b) firmness and politencess
(c) confident, time bound, sport man ship
(d) All of these

77. Physical Education is a complete discipline that deals with all aspects of human body, the anatomy, physiology, sociology, exercise, Personal hygiene and ___problems.
(a) sexual (b) metal
(c) Psychological (d) none of these

78. Physical education develops human personality mentally, socially and_____.
(a) Emotionally (b) Economically
(c) Religiously (d) None of these

79. "Physical education is one phrase of the total process that develops a person organically, muscularly and emotionally through inherent activities". Held by _____.
(a) Bucher **(b) J.B. Nash**
(c) Socrates (d) None of these

80. Physical education can also be use as___ for the body.
(a) heal (b) medicine
(c) cure (d) none of these

81. Physical education is based on_____foundation because it deals with the anatomy of human body.
(a) Scientific (b) sociological
(c) Political (d) None of these

82. Activities of Physical education depend upon biological, psychological and_____aspects of growth and developments.
(a) religious (b) mental
(c) sociological (d) None of these

83. A Physical educationist and___ working toghether to find ways and means to avoid athletic injuries and other body defects.
(a) Physiologist (b) Psychologist
(c) Physician (d) None of these

84. The future belongs to the_____.
(a) strong (b) fattest
(c) fittest (survival of the fittest)
(d) None of these

85. The first training in the ancient times was in _____.
(a) archery (b) firing
(c) running (d) none of these

86. Wrestling and___games are also traced back to the ancient times.
(a) cricket **(b) ball**
(c) jumping (d) None of these

87. Athens was the center of Philosophy while Sparta was a ___might.
(a) Military (b) Educational
(c) Economic (d) None of these

88. Spartans used to pick up children from age_____for military trainings.
(a) 5 **(b) 7**
(c) 8 (d) 9

89. Music and___were also an important part of the Spartans education system.

Scanned by CamScanner

(a) Sociology (b) Physics
(c) Art **(d) songs**

90. In the____BC the small community of Athenians produced men of highest rank in human history like Socrates, Plato, Aristotle, Phidias, Percales, Sophocles and Myron.
(a) 5th (b) 6th
(c) 7th (d) 8th

91. The education of___boys was based on literature, music and gymnastic.
(a) Greeks **(b) Athenians**
(c) spartans (d) None of these

92. Gymnastic involved the whole range of physical activities, which included discus, running, jumping, wrestling and_____.
(a) football (b) hockey
(c) cricket **(d) free play**

93. Olympic Association of Pakistan conducted a sports meeting in_____.
(a) 1948 (b) 1949
(c) 1950 (d) 1951

94. College of Physical education was established in___at Valton, Lahore.
(a) 1947 (b) 1948
(c) 1949 **(d) 1950**

95. Sports stadiums were established at Lahore and Karachi in_____.
(a) 1957 (b) 1958
(c) 1953 (d) 1956

96. In___a college of physical education was established at Karachi.
(a) 1965 (b) 1964
(c) 1966 (d) 1967

97. In___the department of Health and Physical education was established at Gomal University.
(a) 1975 **(b) 1976**
(c) 1977 (d) 1978

98. The national game of Pakistan is_____is
(a) Hockey (b) Football
(c) Cricket (d) Kabadhi

99. The amount of blood cames out from ventricle, per minute is called_____.
(a) Cardiac cycle **(b) Cardiac output**
(c) Cardiac volume (d) None of these

100. A long distance runner must consume more quantity of_____.
(a) Carbohydrate (b) Fat
(c) Protein (d) vitamins

101. Range Swami Cup is awarded in_____
(a) Cricket (b) Football
(c) Hockey (d) none of these

102. How we get injured in games_____?
(a) When rules of games are not followed
(b) Precaution habits
(c) Over confidence
(d) None of these

103. The weight of a Basketball is_____.
(a) 650 gm. (b) 600 gm.
(c) 567-650 gm. (d) none of these

104. Which of the following food stuff contains almost all ingredients of a balanced diet?
(a) Vegetables (b) Meat
(c) Fish **(d) Milk**

105. Against which country 'Mardona' scored the goal of the century_____?
(a) Brazil (b) Germany
(c) Spain **(d) England**

106. The length and width of volleyball court is___meters.
(a) 18x10 **(b) 18x9**
(c) 18x12 (d) 18x21

107. Which of the following concepts of health is the best earliest concept?
(a) The religious concept
(b) The Bio-medical concept
(c) Psycho-social concept
(d) None of these

108. The height of human being is measured by _____.
(a) Venire scale **(b) Weighing scale**
(c) Studio meter (d) None of these

109. Which of the following game's playground has bonus line?
(a) Kabaddi (b) Hockey
(c) Volleyball (d) Basketball

110. In older age, the common problem in eyes is _____.
(a) Black water **(b) Cataract**

Muhammad Ali 03101790021

Scanned by CamScanner

(c) Squint eyes (d) None of these

111. Apparatus to measure fat percentage in body is_____.
(a) Annomter (b) Tensiometer
(c) Flesometer **(d) Skinfold meter**

112. One of the method of teaching is_____.
(a) Search (b) writing
(c) Demonstration (d) None of these

113. The cause of postural defects is_____?
(a) Malnutrition (b) Balanced diet
(c) Extra diet (d) Sickness

114. Jogging at one spot_____?
(a) Tightens muscles
(b) Strengthening muscles
(c) Weakening muscle
(d) None of these

115. Long bones work in human body is_____.
(a) To give strength **(b) To work as lever**
(c) To give shelter (d) None of these

116. During muscular contraction, if there is no change in the size of muscle, this contraction is said_____.
(a) Isometric (b) Isotonic
(c) Isoinetic (d) None of these

117. The number of muscle pairs, found in human body is_____.
(a) 220 **(b) 250**
(c) 240 (d) 260

118. In one milliliter of blood, the number of platelets is stated to be about_____.
(a) 2,00,000 (b) 3,00,000
(c) 4,00,000 (d) 6,00,000

119. Davis cup is associated with_____.
(a) Hockey **(b) Lawn Tennis**
(c) Volleyball (d) Football

120. The amount of calories required by an adult of average body weight per day is_____.
(a) 3000 calories (b) 2800 calories
(c) 2600 calories **(d) 2500 calories**

121. For the good health which type of exercises are necessary?
(a) light **(b) Regular**
(c) hard (d) Medium

122. In human body 'Fartlek' develops_____.
(a) Agility (b) Endurance
(c) Speed (d) Strength

123. The technique to swim, Fastest is_____
(a) Butterfly (b) Breast stoke
(c) Back stoke **(d) Free style**

124. In test cricket, how many bouncers can be bowled in one over_____?
(a) 5 (b) 4
(c) 2 (d) 3

125. After emulsion, the digestion of fat is done by an enzyme called_____.
(a) Lipase (b) Renin
(c) Amylase (d) Trypsin

126. A perfect food, known as nutritious is one that_____.
(a) Has been cooked well
(b) Satisfies our hunger
(c) Is easy to digest
(d) Contains all nutritious elements of food

127. The maximum quantity in the diet of small children should be of_____.
(a) Protein (b) Carbohydrate
(c) Minerals (d) Vitamins

128. Olympia city is situated in which country of the world_____?
(a) Greece (b) Turkey
(c) Italy (d) China

129. For remaining fit and healthy, what is most important?
(a) Aptitudes **(b) Routines**
(c) Life style (d) Attitudes

130. Set Shot is related to_____.
(a) Cricket (b) volleyball
(c) Basketball (d) None of these

131. The weight of Javelin for women?
(a) 600gm. (b) 500gm.
(c) 400gm. (d) 300gm.

132. Strategy of 'fast break' is related with the game_____.
(a) Athletics (b) swimming
(c) Basketball (d) none of these

133. Health is primarily the responsibility of the_____.
(a) Parents (b) State

Scanned by CamScanner

(c) Society (d) Individual

134. Appendix is helpful in Digestive system of human being for_____.

(a) Helpful in digestion of food

(b) Helpful in secreting the digestve juice

(c) Maintain the temperature during digestion process

(d) None of these

135. The quality of Physical Education teacher is_____.

(a) Good performer (b) civilized

(c) young (d) smart

136. Why good nutrition is necessary for good health_____.

(a) Postural deformities **(b) Development**

(c) Instant replies (d) Good Habits

137. Aerobic power can be enhanced by_____.

(a) Circuit training (b) Swimming

(c) Short sprints (d) none of these

138. Blood gets de-oxygenated in_____.

(a) Lungs **(b) Heart**

(c) Nerves (d) None of these

139. Goniometer measures_____.

(a) Agility (b) Strength

(c) Speed **(d) Flexibility**

140. The Basal Metabolic Rate may vary from person to person but it is closely related to a person's amount of_____.

(a) Physical activity (b) Weight of the body

(c) Muscular energy (d) None of these

141. Physical exercise done in presence of oxygen is called_____.

(a) Anaerobic exercise **(b) Aerobic exercise**

(c) Isokinetic exercise (d) None of these

142. Rovers cup is associated with the game of _____.

(a) Basket Ball (b) Boxing

(c) Chess **(d) Football**

143. What is manufactured from the iron that we obtain from our diet_____?

(a) Hemoglobin (b) Blood cells

(c) Bone Marrow (d) Protoplasm

144. The duration of Russel Launge Volley ball test is_____.

(a) 50 seconds (b) 40 seconds

(c) 30 seconds **(d) 45 seconds**

145. Adrenalin, which is an excitatory hormone is secreted by_____.

(a) Pancreas (b) Gonads

(c) Thyroid (d) None of these

146. Of the given, which protein filament is 50% in the muscle_____?

(a) Actomoysin (b) Actin

(c) Myosin (d) None of these

147. The most important consideration in selecting the Sports equipment is_____.

(a) Price **(b) Quality**

(c) Source (d) None of these

148. In comparison to the Greeks, the Romans were more_____.

(a) Utilitarian (b) Democratic

(c) Authoritarian (d) None of these

149. In the technical terms, muscle pull is known as_____.

(a) Sprain **(b) Strain**

(c) Abrasion (d) none of these

150. Supination and Pronation are the movements of_____.

(a) Carpal-Metacarpal Joints

(b) Tibia-Fibula Joints

(c) Radio-Ulnar Joint

(d) None of these

151. Trypsin helps in the digestion of_____.

(a) Carbohydrates (b) Vitamins

(c) Protein (d) Fats

152. A test is considered to be reliable if it has _____.

(a) Consistency (b) Continuity

(c) commonality (d) None of these

153. Which of the following conditions is not a cause for the occurrence of plateau in learning_____.

(a) Fatigue (b) Monotony

(c) Physiological limit (d) None of these

154. How many major Salivary glands are there in the human body_____.

(a) Three (b) Four

(c) Five **(d) Six**

155. Physical activity is basically a_____.

NTS FEAKPESED, Test Preparation

Scanned by CamScanner

(a) Philosophical concept
(b) Social attribute
(c) Psychological tendency
(d) Biological necessity

156. Which of the following terms denotes the "Toughening of body" as its major objectives?
(a) Physical culture **(b) Physical training**
(c) Drill (d) Play .

157. Which one of the following is not connected with the concept of motivation?
(a) Drive (b) Sympathy
(c) Need (d) Motive

158. Which deficiency in the blood causes inflammation in body parts____?
(a) White blood cells **(b) Red Blood Cells**
(c) Platelets (d) Antibodies

159. The functional efficiency of a muscle depends upon its_____.
(a) Fiber quality (b) Tones
(c) Girth (d) None of these

160. Which of the following are considered as the social inheritance of Man_____.
(a) Traditions **(b) conditional reflexes**
(c) Habits (d) None of these

161. The literal meaning of the word Philosophy is_____.
(a) Love of criticism (b) Love of knowledge
(c) Love of God **(d) Love of wisdom**

162. Who is said to be the Father of Philosophy of Idealism_____.
(a) Plato (b) Galan
(c) Socrates (d) None of these

163. Which one of the following is not considered as an organization_____.
(a) Clubs (b) Schools
(c) Associations (d) Society

164. In the school setting the major channel of publicity for the physical education programs___.
(a) Intramurals (b) Advertisement
(c) Students (d) Teachers

165. Who amongst the following are found to be most agile_____.
(a) Swimmers **(b) Gymnasts**
(c) Divers (d) High Jumper athlete

166. Which of the following activities measures dynamic strength_____?
(a) Rope climbing (b) Vertical Lump
(c) Short distance run (d) Forward roll

167. The most important factor in the organization of recreations_____.
(a) Materials **(b) Facilities**
(c) Planning (d) None of these

168. White muscle fibers are better adopted to perform_____.
(a) Slow contraction (b) Fast contraction
(c) Medium Contraction (d) None of these

169. The longest muscle in body is_____.
(a) Deltoid **(b) Sartorius**
(c) Pectorals Major (d) None of these

170. Up to the age of Puberty the sex hormone are secreted by_____.
(a) Adrenal gland (b) Testes
(c) Ovaries **(d) Pituitary gland**

171. In which Olympic did women participate for the first time_____.
(a) 1846 **(b) 1900**
(c) 1896 (d) 1906

172. Which of the following is a two joint muscle?
(a) Sartorius (b) Bicep
(c) Iliopsoa (d) none of these

173. Polo has_____players.
(a) 1 (b) 2
(c) 3 **(d) 4**

174. Water Polo has_____players.
(a) 5 (b) 6
(c) 7 (d) 8

175. Net ball has_____players.
(a) 7 (b) 8
(c) 9 (d) 10

176. Cricket has_____players in each team.
(a) 10 (b) 11
(c) 12 **(d) 13**

177. Badminton has___players.
(a) 1 or 2(Single/Doubles) (b) 4
(c) 5 (d) 6

178. Tennis has____players.
(a) 1 or 2(Single/Doubles) (b) 3
(c) 4 (d) 6

179. Table Tennis has____players.
(a) 3
(b) 1 or 2 (Singles and Doubles respectively)
(c) 4 (d) 5

180. Boxing, Snooker and Chess has____player (s) each.
(a) 3 (b) 2
(c) 1 (d) 4

181. Bridge has____players.
(a) 2 (b) 4
(c) 6 (d) 9

182. Croquet has_____players.
(a) 14 (b) 8
(c) 13 or 15 (d) 9

183. Lacrosse has_____players.
(a) 12 (b) 14
(c) 16 (d) 18

184. Olympic flag consisted of how many circles_____.
(a) 9 (b) 6
(c) 5 (d) 4

185. Olympic flag's circles colors are; Blue, Yellow, Green, Black and_____.
(a) red (b) Orange
(c) Purple (d) None of these

186. First Olympic games held in_____Athens, Greece.
(a) 1894 **(b) 1896**
(c) 1898 (d) 1900

187. _____Olympic games held in Rio de Janeiro Brazil.
(a) 2016 (b) 2014
(c) 2012 (d) None of these

188. The landing arena of high jump will be____.
(a) 4x3 mts. **(b) 5x3 mts.**
(c) 6x4 mts. (d) None of these

189. Blood is purified in the human body by____.
(a) vitamins (b) protein
(c) glands **(d) oxygen**

190. Name the vitamin which is water soluble____.
(a) Vitamin b (b) Vitamin C
(c) Vitamin d (d) Vitamin A

191. Salivary gland produces_____.
(a) Watery protein **(b) Ptyalin**
(c) Enzyme (d) Protein

192. Who is responsible for sanitation in schools____
(a) Principal (b) Cleaning worker
(c) Teacher and students
(d) All of the above

193. Name the disease which is categorized psychosomatic disease_____
(a) Diabetes (b) Malaria
(c) Cancer (d) None of these

194. According to rules the color of football goal post is_____
(a) Red (b) Black
(c) Yellow **(d) White**

195. How much protein a working woman must intake every day_____
(a) 37 gm. (b) 40 gm.
(c) 45 gm. (d) 50 gm.

196. Which of the following line is related to volleyball_____
(a) Base line (b) Last Line
(c) Service line (d) None of these

197. The trade mills training is prescribed for the injured athlete for the purpose if improving his/her_____.
(a) Health **(b) Muscle endurance**
(c) Physical health (d) None of these

198. To which of the following chambers of the heart is the Aorta connected_____
(a) Left Ventricle (b) Right ventricle
(c) central ventricle (d) None of these

199. Football world cup has been won by which country for the maximum number of times?
(a) Italy (b) Spain
(c) Brazil (d) None of these

200. Caddie is related to_____
(a) Golf (b) Polo
(c) Kabadhi (d) None of these

201. In which place world class hockey academy is proposed to be established by international hockey federation_____.
(a) New Delhi (b) England
(c) Dubai (d) Karachi

202. The Cardio respiratory capacity is related to

Scanned by CamScanner

_____.

(a) Strength (b) Speed
(c) Weight (d) None of these

203. Shuttle run test measures_____.

(a) Speed (b) Width
(c) Agility (d) None of these

204. Which of the following games team consist of both men and women players_____.

(a) Football (b) Netball
(c) Snowball **(d) Softball**

205. Stimulus response theory was given by____.

(a) Simpson (b) Dewey
(c) Thorndike **(d) E.L. Thorndike**

206. The types of swimming in competitions are_____.

(a) five **(b) six**
(c) seven (d) eight

207. Which of the following we get from sun rays _____.

(a) Vitamin D (B) Vitamin A
(c) Vitamin K (d) Vitamin C

208. How many entries are allowed per event in athletics in Olympics_____.

(a) 2 **(b) 3**
(c) 5 (d) 6

209. When did cricket world cup started_____.

(a) 1975 (b) 1976
(c) 1977 (d) 1978

210. Reason of constipation is due to_____.

(a) No digestion
(b) Less functioning of large intestine
(c) Excessive food intake
(d) None of these

211. The weight of hockey ball approximately is__

(a) 5 ounce (b) 8 ounce
(c) 6 ounce (d) 5.75 ounce to 6 ounce

212. Pele is related to which game_____.

(a) Volleyball (b) Cricket
(c) Football (d) Tennis

213. The normal temperature of a healthy human beings is_____.

(a) 98.4 F (b) 97.4 F
(c) 96.4 F (d) None of these

214. The life span of RBC is not more than_____ days.

(a) 120 (b) 140
(c) 160 (d) None of these

215. What is the resting stroke volume perbeat of heart?

(a) 80 - 100 ml **(b) 60 - 80 ml**
(c) 60 - 70 ml (d) None of these

216. The length of trachea (wind pipe) in an adult person is about_____.

(a) 10 cm (b) 12 cm
(c) 8 cm (d) 6 cm

217. By which hormone High Blood Sugar level can be controlled in stomach?

(a) Glucose **(b) Insulin**
(c) Thyroxin (d) None of these

218. Are heavy exercises good for sound sleep?

(a) No (b) Yes
(c) Never (d) sometimes

219. Balanced diet contain_____.

(a) vitamins
(b) Protein, Vitamins & Carbohydrates
(c) Protein (d) Carbohydrates

220. The main source of vitamin A is_____.

(a) Egg (b) Meat
(c) Potato **(d) Carrot**

221. Fatigue comes during training due to_____.

(a) Adrenal **(b) Lactic acid**
(c) pH-Factors (d) None of these

222. What energy do minerals supply to the body?

(a) No energy (b) Chemical
(c) Electrical (d) None of these

223. The Football World Cup 2018 will be held at_____.

(a) Qatar (b) Kuwait
(c) Spain **(d) Russia**

224. The FIFA Football World cup 2022 will be held at_____.

(a) Oman (b) Kuwait
(c) Qatar (d) None of these

225. THe measuring instrument of Blood Pressure is_____.

(a) Sphygmomanometer (b) Speedometer
(c) Manometer (d) None of these

Muhammad Ali 03101900027

Scanned by CamScanner

226. The minimum number of players required in a team to start a Basketball match is_____.
(a) 3 (b) 4
(c) 2 **(d) 5**

227. What is blood_____?
(a) Liquid Tissue (b) Tissue
(c) Special Tissue (d) Plasma

228. Water percentage in Plasma_____?
(a) 90 (b) 80
(c) 70 (d) 75

229. Who declares the 'Olympic games close'?
(a) President JOC **(b) Chairman JOC**
(c) Secretary JOC (d) None of these

230. The width of a lane in an athletic track is___.
(a) 1.1 mt. (b) 1.4 mt.
(c) 1.22 mt. (d) 2.00mt.

231. During the hockey match, if the ball is stuck in the Goalkeeper's pads then game is restarted by_____.
(a) Bully (b) Centre back pass
(c) toss (d) None of these

232. The length of football ground is____meters.
(a) 120 (b) 130
(c) 100 (d) 110

233. The height of Goal Post in Football____feet.
(a) 8 (b) 10
(c) 12 (d) 14

234. The total duration of a Football match_____ minutes.
(a) 50 (b) 60
(c) 90 (d) 120

235. The in between distance of both Goal Posts is____meters.
(a) 8 (b) 6
(c) 5 (d) 4

236. Penalty Kick point is at_____memters.
(a) 8 **(b) 10**
(c) 12 (d) 14

237. The central circle is of_____memters.
(a) 10 (b) 12
(c) 14 (d) 15

238. Volleyball court length is_____meters.
(a) 15 **(b) 18**
(c) 20 (d) 22

239. Timeout period in volleyball consisted of___ seconds.
(a) 20 (b) 40
(c) 50 **(d) 30**

240. Volleyball court width_____meters.
(a) 9 (b) 10
(c) 12 (d) 14

241. Service area is of_____meters.
(a) 2 **(b) 4**
(c) 6 (d) 8

242. The Attach area in volleyball is of_____ meters.
(a) 10 (b) 8
(c) 5 **(d) 3**

243. Volley Ball weight_____ounces.
(a) 9.2 - 9.9 (b) 9
(c) 11 (d) 10

244. The height of Net in volleyball is____meters.
(a) 2.3 (b) 2.5
(c) 2.6 **(d) 2.43**

245. Net ball court length is_____feet.
(a) 100 (b) 110
(c) 120 (d) 130

246. Netball court width is_____feet.
(a) 20 (b) 30
(c) 50 (d) 60

247. The weight of net ball is _____ounces.
(a) 12 **(b) 14**
(c) 16 (d) 18

248. Discus weight for girls is_____kg.
(a) 1 (b) 2
(c) 1.2 (d) 1.4

249. Discus weight for boys_____kg.
(a) 1.5 **(b) 2**
(c) 2.5 (d) 2.6

250. Game is a useful_____.
(a) exercise (b) picnic
(c) hobby (d) none of these

251. Games are the symbol of_____peace.
(a) national (b) local
(c) Global (d) None of these

252. Professional games is a mean of_____and fame.
(a) money (b) power

Scanned by CamScanner

(c) dignity (b) none of these

253. Games help us to ignore_____tendencies.
(a) natural (b) positive
(c) dignitive (d) none of these

254. Hockey match duration is _____ minutes.
(a) 50 (b) 60
(c) 60 **(d) 70**

255. The width of Hockey ground is ____ meters.
(a) 40 (b) 45
(c) 50 **(d) 55**

256. The height of hockey pole is _____ feet.
(a) 5 **(b) 7**
(c) 9 (d) 10

257. Weight of Hockey Ball is _____ ounce.
(a) 5.50 (b) 5.60
(c) 5.7 (d) 5.8

258. The distance between hockey poles _____ meters.
(a) 3 **(b) 4**
(c) 5 (d) 6

259. Hockey ground length _____ methers.
(a) 91.40 (b) 92
(c) 93 (d) 94

260. Basketball weight is _____ gm.
(a) 500 **(b) 600**
(c) 700 (d) 800

261. Basketball match duration _____ minutes.
(a) 20 (b) 30
(c) 35 **(d) 40**

262. A Basket Ball match has _____ quarters.
(a) 2 (b) 3
(c) 4 (d) 6

263. Service in Table Tennis is to be exchanged after _____ points.
(a) 2 (b) 4
(c) 5 (d) 1

264. One set of Table tennis has _____ points.
(a) 11 (b) 12.
(c) 14 (d) 16

265. Table length in Table Tennis is _____ feet.
(a) 5 **(b) 9**
(c) 11 (d) 12

266. Net in Table Tennis is at a height of __ inch.
(a) 6 (b) 7
(c) 8 (d) 10

267. Table Tennis Ball weight _____ gm.
(a) 2.5 **(b) 2.7**
(c) 2.8 (d) 2.9

268. The Table width in Table Tennis is ___ feet.
(a) 5 (b) 6
(c) 7 (d) 8

269. The court length in Badminton is 44 feet and its width is _____ feet.
(a) 15 **(b) 17**
(c) 18 (d) 20

270. The weight of Shuttlecock is _____ gm.
(a) 4.5 (b) 4.9
(c) 5 **(d) 4.75 - 5.50**

271. One set of Baddminton has _____ points.
(a) 20 **(b) 21**
(c) 15 (d) 10

272. If the shuttle touches the net in Service, it is a _____.
(a) Late (b) Point
(c) Out (d) none of these

273. Javelin weight for male _____ gm.
(a) 500 (b) 600
(c) 700 **(d) 800**

274. Javelin weight for women _____.
(a) 300 (b) 400
(c) 600 (d) 200

275. Running limit in Javelin throw is ____ feet.
(a) 98.6 (b) 100
(c) 102 (d) 104

276. The length of Javelin for males is ___ meters.
(a) 2.5 (b) 2.6
(c) 2.8 **(d) 2.70**

277. The length of javelin for females is ____ meters.
(a) 2.20 (b) 2.1
(c) 2.8 (d) 3

278. Crossbar weight is _____ kg.
(a) 2 (b) 3
(c) 4 (d) 5

279. The length of crossbar is _____ meters
(b) 4
(a) 3 (d) 6
(c) 5

Scanned by CamScanner

260. The width of streets in Meter Running is ____ feet.
(a) 2 (b) 3
(c) 4 (d) 5

261. The total length of Meter running track is ____ meters.
(a) 400 (b) 500
(c) 600 (d) 800

262. Small intestine is _____ meters long.
(a) 4 (b) 5
(c) 5.1 (d) 6

263. Large intestine is _____ feet long.
(a) 6 (b) 7
(c) 8 (d) 10

264. High Jump runway length is _____ meters.
(a) 12 (b) 14
(c) 15 (d) 16

265. Standard track distance _____ meters.
(a) 400 (b) 300
(c) 200 (d) 150

266. Our body is consisted _____ percent of water.
(a) 50 (b) 70
(c) 80 (d) 90

267. Heart has _____ chambers.
(a) 4 (b) 5
(c) 6 (d) 8

268. The next ICC Champions tournament 2021 is going to be held in _____?
(a) Pakistan (b) India
(c) England (d) Sri Lanka

269. Current champion of PSL is _____.
(a) Queta Gladiators (b) Peshawar Zalmi
(c) Karachi Kings (d) Islamabad United

290. Total teams in Football world cup 2018 ___.
(a) 32 (b) 34
(c) 36 (c) 40

291. Wimbledon Tennis Tournament held each year in June and June and July in which country ____?
(a) France (b) UK
(c) USA (d) Germany

292. Wimbledon 2017 Men singles won by ____.
(a) Marcelo (b) Melo
(c) Marck (d) Roger Federer

293. Roger Federer belongs to ____.
(a) Switzerland (b) Spain
(c) Poland (d) UK

294. Who is the current president of Pakistan Hockey Federation ?
(a) Akhtar Rasool (b) Qasim Zr
(c) Tariq Kirmani (d) Bri.KhalidS. Khokar

295. Who is the captain of pakistan women cricket team?
(a) Sana Mir (b) Bismah Mahroof
(c) Javeria Khan (d) none of these

(a)✓ True (b) False

48. What other period embraces the classical qualities of Ancient Greek and Roman artwork?
(a)✓ The Renaissance
(b) The Middle Ages
(c) Modernism
(d) Romanticism

Scanned by CamScanner

Romanticism was:
(a) A countermovement to Neoclassicism
(b) Characterized by intense emotional excitement
(c) Characterized by powerful forces in nature, the exotic and the suffering human condition.
(d)✓ All of the above

One of the key artists of the 18th- 19th Romantic period were:
(a) Pablo Picasso
(b)✓ Francesco Goya
(c) Jackson Pollock
(d) Keith Haring

51. J.M.W Turner's work, "Rain, Steam, and Speed: The Western Railway", sought to:
(a)✓ Capture the feeling of modern technology
(b) Capture the expression of paint
(c) Confront his fear of modern technology
(d) All of the above

52. The Impressionist were concerned with the following:
(a) The careful rendering of objects
(b)✓ The effects of light and time on nature
(c) Photorealism
(d) Cubism

53. Romanticism was a style of spontaneity, intuition and emotion rather than carefully organized rational approaches to form:
(a)✓ True (b) False

54. Eugene Delacroix's painting, "Liberty Leading the People" was a social commentary on slavery:
(a) True (b)✓ False

55. Which artist does not paint in the abstract style?
(a)✓ Michelangelo
(b) Kandinsky
(c) Picasso
(d) Van Gogh

56. The following were influences on abstraction:
(a) Science
(b) Technology
(c) War and revolution
(d)✓ All of the above

57. Kandinsky sought a visual form of expression in photography:
(a) True (b)✓ False

58. What are the two main streams of abstraction?
(a) Horizontal and vertical
(b)✓ Geometric and organic
(c) Overt and covert
(d) All of the above

59. Abstraction is:
(a) The depiction of recognizable space
(b) Representational art
(c)✓ Non-representational art
(d) Realism

60. Vincent van Gogh was a romantic painter who killed himself?
(a) True (b) False

61. What art movement marked the beginning interest in abstraction?
(a) The Surrealists
(b) The Cubist
(c)✓ The Impressionists
(d) The Post-Impressionists

62. Painting *en-plein air* (in the open air) is a French term associated with Impressionism:
(a)✓ True (b) False

63. Keith Haring creates artwork:
(a) That is called street art
(b) That has political and social messages
(c) That is stylized
(d)✓ All of the above

Muhammad Ali 03101190027

Scanned by CamScanner

64. What distinguished the Greeks from other peoples in Europe? Their attitude towards being human.
(a)✓ True (b) False

65. Christo and Jeanne-Claude are artist who:
(a) Use fabric to build houses
(b)✓ Use fabric to create temporary artworks
(c) Use art to exploit the environment
(d) Use paint to create splatter paintings

66. What is a building, sculpture or structure especially built to remember and honor a person or event?
(a) Gateway (b) Statue
(c) Monument
(d) Church

67. Which is the style in which an artist represents a subject as it appears in the natural world?
(a) Futurism
(b) Impressionism
(c)✓ Naturalism
(d) Modernism

68. What is the word for an upright pillar or post often used to bear weight?
(a) Foundation
(b) Pole
(c) Column (d) Stick

69. What is a design made of tiny pieces of colored stone, glass, tile or paper stuck to a surface?
(a) Pattern (b) Motif
(c)✓ Mosaic (d) Decoration

70. What is the term for a line neither vertical nor horizontal but having a slanted direction?
(a) Turned (b) Tilted
(c)✓ Diagonal (d) Bent

71. What is an image given back by a reflecting surface, such as a mirror or still water, called?
(a) Refraction (b) Incidence
(c) Reflection (d) Absorption

72. What is a craftsman or a skilled manual worker called?
(a) Actor (b) Painter
(c) Artisan (d) Sculptor

73. What is the word that denotes something made to enclose a picture or a mirror?
(a)✓ Frame (b) Cover
(c) Border (d) Casing

74. What is a small figure usually with a cloth body and hollow head that is manipulated by hand called?
(a) Scarecrow (b)✓ Puppet
(c) Automaton
(d) Statue

75. What is the name of the egg-like two-dimensional shape that looks like a stretched circle?
(a) Sphere (b) Ovoid
(c) Oblong (d)✓ Oval

76. What word means allowing light to pass through so objects can be clearly seen from the other side?
(a)✓ Transparent
(b) Opaque
(c) Backlit (d) Silhouette

77. What is a three-dimensional form of a person or animal sculpted, carved, modeled, or cast called?
(a) Figurine (b) Figure
(c) Model (d)✓ Statue

78. What is the name given to the protective transparent finish applied in a liquid state to a surface?
(a)✓ Varnish (b) Layer
(c) Spread (d) Cover

78. What is the interlacing of long, thi materials such as yarn or thread t make cloth called?
(a) Macrame (b) Sewing
(c) Knitting (d)✓ Weaving

Scanned by CamScanner

What is a quick drawing that loosely captures appearance or action of a place or situation called?
(a) Sculpture (b)✓ Sketch
(c) Painting (d) Art

What is a picture of a scene at sea or a scene largely including a portion of the sea called?
(a) Landscape
(b)✓ Seascape
(c) Mountainscape
(d) Riverscape

What the surface quality.or "feel" of an object, its smoothness, roughness, softness, etc. called?
(a)✓ Texture (b) Touch
(c) Feeling (d) Sensation

What is a group of artists whose style demonstrates a common origin or influence called?
(a) Palette (b) Club
(c) Objet D'Art
(d)✓ School

What is a three-dimensional form shaped like a ball and circular from all points of view called?
(a) Cone (b) Cylinder
(c) Cube (d)✓ Sphere

What is a portrait an artist makes using himself or herself as its subject called?
(a)✓ Self-Portrait
(b) Face Portrait
(c) Reflected Portrait
(d) Own Portrait

Elements of Art

1. This refers to the way something feels, or looks as if they might feel like something:
(a) Line (b) Space
(c) Value (d)✓ Texture

2. When lines meet to form an enclosed area this is formed:
(a) Space (b)✓ Shape
(c) Form (d) Line

3. This is an empty place or surface in or around a work of art. It can be two-dimensional, three-dimensional, negative and/or positive;
(a) Shape (b) Color
(c)✓ Space (d) Value

4. This is the most basic element of art. It is used to form lots of different things in art. It is the path of a dot through a space.
(a) Texture (b) Space
(c)✓ Line (d) Value

5. This is the lightness or darkness of a color.
(a)✓ Value (b) Texture
(c) Color (d) Shape

6. They are three-dimensional—they have height, width and thickness:
(a) Color (b) Spape
(c)✓ Form (d) Value

7. This is what we see as light waves are absorbed or reflected by everything around us:
(a) Line (b) Space
(c) Value (d)✓ Color

8. How can you advertise Paper Pumpkin at events?
(a) Create a display board and show it
(b) Hand out Paper Pumpkin flyers
(c) Show customers your growing collection of stamps and ink
(d)✓ Cash and Carry the kits
(e) All of the above

9. True or False: You can create your own personalized Paper Pumpkin link.
(a)✓ True (b) False

10. What kind of stamps are included in Paper Pumpkin kits?
(a) Clear-mount
(b) Wood-mount
(c)✓ Photopolymer
(d) Stamps are not included

Scanned by CamScanner

11. Have you posted your Paper Pumpkin event on your public calendar?
(a)✓ Yes (b) No
(c) Not applicable

12. Where do we recommend you display your home décor items?
(a) Your home
(b) Your friend's home
(c) Your office
(d)✓ (a) & (c)
(e) All of the above

Studio Craft; Supports and Grounds

1. In canvas, how are "warp" and "weft" yarns aligned?
(a) Warp yarns are at the edges; weft are in the middle.
(b)✓ Warp yarns are aligned with the long dimension of the loom, and weft go across.
(c) Warp yarns go across the fabric, and weft are aligned with the long dimension of the loom.
(d) Warp yarns are wrapped around the finished roll, and the cloth is actually made from the weft.

2. Snail slime and fig juice have been used on canvas to protect against damage from oil paint.
(a)✓ True (b) False

3. Which of the following is NOT one of the functions of a size/sizing?
(a)✓ Provide absorbency
(b) Prevent direct contact between the support and the paint vehicle
(c) Stiffen fabric to maintain a flat surface
(d) Prevent discoloration of the painting ground from the support

4. Acrylic Gesso is:
(a) A size, but not a primer
(b) A primer, but not a size
(c)✓ Both size and primer
(d) Neither size nor primer

5. Traditional glue-based gesso is a hard painting ground that can be used on stretched canvas.
(a) True (b)✓ False

6. Hardboard is:
(a) A plywood panel made of hardwood
(b)✓ A manufactured board made from wood, cane or other fibers
(c) One particular brand of masonite
(d) A type of paperboard

7. Oil priming can be applied directly to raw linen canvas:
(a) True (b)✓ False

8. Acrylic-primed canvas can only accept acrylic paint:
(a) True (b)✓ False

9. Oil-primed canvas cannot accept acrylics:
(a)✓ True (b) False

10. "Gesso" is:
(a) A generic trademark for acrylic dispersion painting ground
(b) A traditional glue/chalk preparation for panels
(c) Italian for "chalk"
(d) Italian for "plaster"
(e)✓ All of the above

Write the correct answer:

Working Drawings

In these drawings it is necessary to snow cut surfaces and distinguish between adjacent parts:
(a) Auxiliary drawings
(b)✓ Assembly sections
(c) 3D assemblies
(d) Parts lists

These drawings are given to contractors to perform work or manufacture individual parts:
(a) Assembly details
(b) 3D drawings
(c)✓ Working drawings
(d) Skeleton assemblies

In working drawings, these show all necessary information not given directly on the drawing with its dimensions and notes:
(a) Document strips
(b) Portable documents
(c) Formatting forms
(d)✓ Title and record strips

This should show what changes were made, when, and by whom:
(a) Portable document
(b)✓ Record of revisions
(c) Title form
(d) Revision drawings

An accurate record of changes made to released drawings is tracked via this:
(a)✓ A revision block
(b) The basic title form
(c) Working drawings
(d) Portable documents

In an assembly section, these parts should have their section lines left out or shown solid black:
(a) Bolts
(b) All fasteners
(c)✓ Thin parts (d) Rivets

These are groups of components of a larger machine:
(a)✓ Subassemblies
(b) Major assemblies
(c) External assemblies
(d) None of these

Piping Drawings

1. This type of pipe is commonly used for water, steam, oil, and gas:
(a) Wrought iron or copper
(b) PVC or steel
(c)✓ Steel or wrought iron
(d) Copper or PVC

2. These types of pipes are generally connected with bell and spigot joints or flanged joints:
(a) Soil and waste
(b)✓ Water and gas
(c) Water and steam
(d) Gas and soil

3. When dimensioning piping drawings, you give the lengths of all runs of this type:
(a)✓ Straight (b) Angular
(c) Filleted (d) Transverse

4. In this type of drawing, vertical pipes may be revolved into the horizontal plane:
(a) Standard view
(b) Elevation view
(c) Transverse piping
(d)✓ Developed piping

5. This type of drawing shows two lines representing the pipe diameter:
(a) Single-line
(b)✓ Double-line
(c) Standard piping
(d) Centerline piping

6. This is used in applications for nonferrous construction:
(a)✓ Copper tubing
(b) Steel pipe
(c) PVC pipe
(d) Iron tubing

7. This type of pipe is commonly used for water or gas service, and also as soil pipe:
(a) PVC (b) Copper
(c) Steel (d)✓ Cast-iron

Scanned by CamScanner

Structural Drawing

1. This is a common method for connecting steel members of buildings and bridges:
   (a) Assembly (b) Fabricating
   (c) Riveting (d)✓ Welding
2. This type of structural steel drawing shows all dimensions necessary for fabrication:
   (a)✓ Shop drawings
   (b) Design drawings
   (c) Weldment drawings
   (d) Application drawings
3. These are joined together in the field to build a structure:
   (a) Riveted members
   (b)✓ Main members
   (c) Steel fabrications
   (d) Assembled fabrications
4. These plans, made by the steel fabricator, are assembly drawings for the steel structure:
   (a) Welding plans
   (b) Assembly plans
   (c) Construction plans
   (d)✓ Erection plans
5. This material is used in masonry construction, most commonly for ornamental facing:
   (a) Face brick
   (b) Clay tile
   (c)✓ Natural stone
   (d) Aggregate
6. This type of weld is the most common in structural steel fabrication:
   (a)✓ Fillet weld (b) Beam weld
   (c) Rivet weld
   (d) Structural weld
7. In this type of concrete, the steel is pretensioned before the superimposed load is applied:
   (a) Aggregate (b)✓ Prestressed
   (c) Reinforced (d) Preloaded

Perspective Drawings

1. Two-point perspective is also known as:
   (a) Two-view perspective
   (b) Regular perspective
   (c) Parallel perspective
   (d)✓ Angular perspective
2. This is the intersection of the ground plane with the picture plane:
   (a) Vanishing point
   (b)✓ Ground line
   (c) Station point (d) Horizon
3. In perspective drawings this is placed between the observer and the object:
   (a) Vanishing point / horizon
   (b) Station point
   (c) Ground line
   (d)✓ Plane of projection / picture plane
4. When positioning this feature of perspective projection, the centerline of the cone of visual rays should be directed toward the approximate center of the object:
   (a)✓ Station point
   (b) Vanishing point
   (c) Horizon (d) Ground line
5. Perspective drawings are classified according to their number of these features:
   (a) Station points
   (b) Picture planes
   (c)✓ Vanishing points
   (d) Ground lines

Mechanical Working Drawings

1. The typical parts list should include the:
   (a) Part number
   (b) Manufacturing material
   (c) Number of parts needed
   (d)✓ All of the above
2. A typical set of mechanical working drawings includes:
   (a) Exploded assembly
   (b) Part details
   (c) Parts list
   (d)✓ All of the above
3. The title block used on working drawings should include the:
   (a)✓ Sheet number
   (b) Line type
   (c) Layer set

Scanned by CamScanner

(d) All of the above

One critical issue drafters need to pay close attention to is the:
(a) Size of the sheet
(b)✓ Designer's intent
(c) Scale factor
(d) None of the above

In the mechanical design process the first step is to:
(a) Brainstorm solutions
(b) Prepare rough sketches
(c) Prepare a budget
(d)✓ Identify the problem

The text used on a typical detail sheet should be:
(a)✓ Placed horizontally
(b) In bold text
(c) In an architectural text style
(d) None of the above

In an exploded assembly drawing it is customary for the drafter to us a line to illustrate how parts fit together:
(a)✓ Phantom (b) Hidden
(c) Dashed (d) Center

It is customary for the first sheet of a working drawing set to include:
(a) A parts list
(b) Exploded assembly
(c) Assembled assembly
(d)✓ All of the above

In order to create an accurate assembly drawing the drafter should create the drawings first:
(a)✓ Detail (b) Title block
(c) Parts list (d) Isometric

The thread note for a typical bolt will include the:
(a)✓ Major diameter of the thread
(b) Material
(c) Center line
(d) Offset distance

Isometric Drawings

Isometric drawings are often used by _____ to help illustrate complex designs:
(a) Mechanical engineers
(b) Piping drafters
(c) Aerospace engineers
(d)✓ All of the above

2. In order to create an isometric circle to represent a hole through the top surface of a box, the drafter must insure that the correct isoplane has been selected by scrolling through the isoplanes using the _____ key:
(a) F1 (b) F3
(c)✓ F5 (d) F8

3. A fillet is a rounded surface on the corner of a part:
(a)✓ Inside (b) Outside
(c) Radial (d) Isoplane

4. Before starting an isometric drawing in AutoCAD the drafter needs to:
(a)✓ Set the grid to isometric
(b) Set the current layer to Defpoints
(c) Turn Object Snap off
(d) Turn Ortho off

5. A round is a rounded surface on the _____ corner of a part:
(a) Inside (b)✓ Outside
(c) Radial (d) Isoplane

6. Architectural drafters generally prefer to use _____ drawings to help illustrate 3-dimensional views of a structure:
(a) Isometric (b)✓ Perspective
(c) Orthographic
(d) Auxiliary

7. The bounding box method for setting up an isometric drawing helps the drafter:
(a)✓ Confine the isometric drawing to its maximum size
(b) Figure what lines are to be; illustrated vertical and horizontal
(c) Position the isometric drawing in paper space
(d) None of the above

8. The Offset tool should only be used for placing _____ in an isometric drawing:
(a) Circles
(b) Horizontal lines
(c)✓ Vertical lines

Muhammad Ali 03101190027

Scanned by CamScanner

(d) None of the above

9. When creating an isometric drawing in AutoCAD the drafter can utilize the Dynamic Input and Polar Coordinate system to place both vertical and horizontal lines. A line created from one point 3 inches at 180 degrees would be a _____ line.
(a) Horizontal (b)✓ Vertical
(c) Inclined
(d) None of these

10. AutoCAD refers to isometric ellipses as:
(a) Ellipses (b) Isoellipses
(c)✓ Isocircles (d) Circles

Landform Drawings

1. These maps are used in planning installations of trees, shrubbery, drives, and other garden features:
(a)✓ Landscape maps
(b) Engineering maps
(c) Topographic maps
(d) Cadastral maps

2. These are special installations of 'stone or concrete marking the locations of points accurately determined by precise surveying:
(a) Topographic marks
(b) Hatchures
(c)✓ Monuments (d) Pillars

3. These are vertical distances above a common datum, reference plane, or point:
(a) Plats (b)✓ Elevations
(c) Traverse (d) Profiles'

4. These are lines drawn on a map to, locate, in the plan view, points of equal ground elevation:
(a)✓ Contours (b) Elevations
(c) Profiles (d) Hatchures

5. These maps are used to plan construction projects that locate construction features so they fit the topography of the area:
(a) Subdivision plats
(b) Landscape maps
(c) Structural topography maps
(d)✓ Structure location plans

6. This type of drawing is created to calculate areas, locate property lines and locate building projects and facilities:
(a) Traverse (b) Contour
(c) City map (d)✓ Plat

7. These are accurately drawn maps of cities and towns showing property lines and other features that control property ownership:
(a) Monument maps
(b)✓ Cadastral maps
(c) City maps
(d) Topographic maps

Architectural Working Drawings

1. The building construction industry relies on sets of _____ drawings to construct homes and commercial buildings:
(a) Mechanical
(b) Isometric
(c)✓ Architectural working
(d) All of the above

2. The text height for room names should be set to for a drawing that will be plotted to a scale of 1/4" = 1'-0".
(a) 4" (b) 5"
(c)✓ 6" (d) 8"

3. The architectural drafter usually begins a set of working drawings by creating the plan first:
(a) Foundation (b)✓ Floor plan
(c) Elevations
(d) Building section

4. Once the architect has finalized the house plans with the client any changes to the design requested by the client will require a:
(a)✓ Change order
(b) Modification slip
(c) Whole new set of drawings
(d) None of the above

5. The foundation contractor will work with the following architectural plans:
(a) Foundation (b) Site plan
(c) Floor plan
(d)✓ All of the above

Scanned by CamScanner

Dimensioning Architectural Drawings

Architectural dimensioning standards allow for the placement of dimensions inside the floor plan. These inside dimensions locate interior:
(a)✓ Door openings and walls
(b) Centers of cabinets
(c) Windows
(d) All of the above

When dimensioning architectural drawings architects will utilize both _____ and _____ options:
(a) Baseline and continuous
(b) Baseline and linear
(c) Quick dim and linear
(d)✓ Linear and continuous

Architectural dimensioning is usually done in:
(a) Even numbers
(b)✓ Feet and inches
(c) Feet only
(d) Inches only

Some of the standard AutoCAD text s les used in architectural drawings includes:
(a) City Blueprint
(b) Country Blueprint
(c) Stylus BT
(d)✓ All of the above

Dimension text is generally placed above the _____ line:
(a)✓ Dimension (b) Extension
(c) Center (d) Leader

The architectural and construction industries use the United States National CAD standard (NCS) system on many _____ projects:
(a) Residential
(b) Commercial
(c) Aerospace
(d)✓ Publicly funded

There should be a visible gap between the wall and the _____ line:
(a) Dimension (b)✓ Extension
(c) Center (d) Leader

Dimensions are used on the elevation plan to describe:
(a) Finished floor elevations
(b) Roof overhangs
(c) Roof pitch angles
(d)✓ All of the above

9. The second line of dimensions out from the plan generally includes:
(a) Centers of doors and windows
(b)✓ The distances between outside walls and interior walls
(c) The measurement from the outside of the brick to the inside of the exterior wall
(d) The measurement from one outside corner to the opposite outside corner.

10. The dimension text size is determined by what the architect deems necessary in:
(a) Model space
(b) Paper space
(c)✓ The Finished plot
(d) The PDF file

Engineering Drawing & Engineering Graphics

1. Hidden lines are drawn as:
(a)✓ Dashed narrow lines
(b) Dashed wide lines
(c) Long-dashed dotted wide line
(d) Long-dashed double dotted wide line

2. Line composed of closely and evenly spaced short dashes in a drawing represents:
(a) Visible edges
(b)✓ Hidden edges
(c) Hatching
(d) Pitch circle of gears

3. Lettering on a drawing sheet should have:
(a)✓ All alphabets in capital letters
(b) All alphabets in small letters
(c) In a sentence only first alphabet in capital letter
(d) In a sentence only abbreviations are capital letter

4. The line connecting a view to note is called:
(a) Dimension line

Muhammad Ali 03101990027

Scanned by CamScanner

(b) Projection line
(c)✓ Leader (d) Arrowheads

5. The dimension figure for radius of a circle should be preceded by:
(a) R (b)✓ CR
(c) SR (d) RAD

6. Methods of arrangement of dimensions includes:
(a)✓ Parallel, continuous and combined
(b) Perpendicular, parallel and combined
(c) Perpendicular, continuous and combined
(d) Perpendicular, parallel and continuous

7. Superimposed dimensioning is a simplified method of:
(a) Chain dimensioning
(b)✓ Parallel dimensioning
(c) Combined dimensioning
(d) Tabular dimensioning

8. A curve drawn for Boyle's law (V = constant) on a P-V chart has a characteristic shape of:\
(a) Ellipse (b) Parabola
(c) Oblique hyperbola
(d)✓ Rectangular hyperbola

9. The profile of a gear teeth is in the form of:
(a) Parabola (b)✓ Involute
(c) Spiral (d) Helix

10. When two angles together make 90°, they are called:
(a) Obtuse angle
(b) Reflex angle
(c)✓ Complementary angles
(d) Supplementary angles

11. The included angle of a hexagon is:
(a) 30° (b) 60°
(c)✓ 120° (d) 150°

12. The curve generated by a point on the circumference of a circle, which rolls without slipping along outside of another circle is known as:
(a) Hypocycloid
(b)✓ Epicycloid
(c) Cycloid (d) Trochoid

13. In orthographic projections, the rays are assumed to:
(a) Diverge from station point
(b) Converge from station point
(c)✓ Be parallel
(d) None of these

14. If an object lies in third quadrant, its position with respect to reference planes will be:
(a) In front of V.P, above H.P
(b) Behind V.P., above H.P.
(c)✓ Behind V.P., below H.P.
(d) In front of V.P., below H.P.

15. If the Vertical Trace (V.T.) of a line lies 30 mm above reference line (XY), then its position will be'.
(a) 30 mm in front of V.P.
(b) 30 mm behind V.P.
(c)✓ 30 mm above H.P.
(d) 30 mm below H.P.

16. When an object is cut by a section plane parallel to H.P and perpendicular to V,P, then the sectional view of the object is obtained in
(a)✓ Top view (b) Front view
(c) Left side view
(d) Right side view

17. Which of the following object gives a circular section, when it is cut completely by a section plane (irrespective of the angle of the section plane):
(a) Cylinder (b)✓ Sphere
(c) Cone
(d) Circular lamina

18. Comparative scale is a pair of scale having a common:
(a) Units
(b)✓ Representative fraction
(c) Length of scale
(d) Least count

19. An angle can be set off and measured with the help of:
(a) Plane scale
(b) Diagonal scale
(c) Comparative scale
(d)✓ Scale of chords

Scanned by CamScanner

Which drawing tool is used to create special effects with text?
(a) Smart Art (b) Shapes
(c) Text Box (d)✓ Word Art

Which of the following is not a search option for clip art collections?
(a) My Collections
(b) Office Collections
(c)✓ Global Collections
(d) Web Collections

Which of the following scales a picture from its original size?
(a) Lock aspect ratio
(b) Horizontal and vertical alignment
(c)✓ Relative to original picture size
(d) Rotation

Which of the following inserts a picture from a file?
(a) Insert tab, Clip Art
(b) Insert tab, Illustrations
(c)✓ Insert tab, Picture
(d) Insert tab, Shapes

Which of the following is not displayed when you point to a picture in the Clip Art task pane?
(a) Keywords associated with the clip
(b)✓ Size in inches
(c) Size in pixels
(d) Type of file

Which of the following opens the Clip Art task pane?
(a) Home tab, Clip Art
(b)✓ Insert tab, Clip Art
(c) Page Layout tab, Clip Art
(d) Drawing tab, Clip Art

Which of the following is not true regarding WordArt?
(a) WordArt is inserted as an in-line graphic.
(b) WordArt can be formatted with a gradient, texture, or pattern.
(c)✓ WordArt cannot be formatted with 3-D effects.
(d) Spacing between WordArt letters can be adjusted to tight or loose settings.

27. Which of the following actions selects an object?
(a) Right-click the object
(b)✓ Click the object
(c) Double-click the object
(d) Triple click the object

28. Which of the following can you change when a selected object has a yellow diamond handle?
(a) Height-to-width ratio
(b) Position of the object
(c)✓ Contour of the object
(d) Rotation

29. Which of the following is not included in a theme effect?
(a)✓ Text color (b) Line style
(c) Fill (d) 3-D effects

30. In oblique projection, important shapes should be in this position relative to the viewing plane:
(a)✓ Parallel
(b) Perpendicular
(c) Adjacent (d) Rotated

31. In a CAD system, you can draw an ellipse by specifying these:
(a) The bounding lines
(b) The mid-point and end
(c)✓ The center and major and minor axes
(d) The center and radius

32. Oblique drawings are dimensioned in a similar fashion as these types of drawings:
(a) Orthographic
(b)✓ Isometric
(c) Angular (d) Parallel

33. In an oblique drawing, equally spaced partial circles may be used to show this:
(a)✓ Symbolic thread pitch
(b) Ellipses
(c) Cavalier drawings
(d) Projection points

34. When the receding lines are true length, and the projectors are at 45 degrees to the plane of projection, the oblique drawing is called this:
(a) Cabinet projection
(b)✓ Cavalier projection

ALEEM TEA, KPESE Test Preparation

Scanned by CamScanner

(c) Axonometric projection
(d) Isometric projection

35. Oblique sections are useful to show this:
(a) Foreshortened features
(b) Oblique lines
(c)✓ Interior shapes
(d) Projected features

2D Drawing Representation

1. This is a conical-shaped recess around a hole, often used to receive a tapered screw head:
(a) Boss (b) Spotface
(c) Counterbore (d)✓ Countersink

2. This is an angled surface used on cylinders to make them easier to handle:
(a) Fillet (b) Taper
(c)✓ Chamfer (d) Lug

3. These are used to attach parts to a cylinder so they won't turn on it:
(a) Lugs and bearings
(b) Keyseats and bearings
(c) Knurls and keys
(d)✓ Keys and keyways/keyseats

4. This is a flat or rounded tab protruding from a surface, usually to provide a method for attachment:
(a)✓ Lug (b) Boss
(c) Chamfer (d) Spotface

5. This means that a feature of a finished product contains the maximum amount of material permitted by the toleranced dimensions for that feature:
(a)✓ Maximum material condition
(b) Machined material condition
(c) Maximum machined indication
(d) Machine mark indication

6. This is a rounded exterior blend between surfaces:
(a) Fillet (b)✓ Round
(c) Taper (d) Chamfer

Welding Representation

1. A projection weld is a type of:
(a)✓ Resistance weld
(b) Arc weld
(c) Gas weld (d) Fillet weld

2. These weld symbols have no arrow side or other-side significance:
(a) Projection or seam weld
(b) Back or backing weld
(c) Surface or groove weld
(d)✓ Flash and upset weld

3. A back or backing weld is a type of:
(a) Groove weld
(b) Resistance weld
(c)✓ Arc and gas weld
(d) Upset weld

4. Welding drawings are a special type of this kind of drawing:
(a) Symbol (b) Perspective
(c)✓ Assembly (d) Isometric

5. Which of the following is one of the basic types of welded joints?
(a)✓ T-joint (b) Rear joint
(c) Angle joint
(d) Groove joint

Traditional Drafting Techniques

6. A half-moon protractor is divided into how many degrees?
(a) 360 (b)✓ 180
(c) 270 (d) 310

7. A line drawn with a long section, short dash, and another long section is a:
(a) Hidden feature
(b) Center of a circle
(c)✓ Center axis of a hidden cylinder
(d) Center of a radius

8. Traditional drafters need to be able to create several different line widths because:
(a)✓ Different line widths convey different information
(b) The line width has to do with how dark it appear in the finished drawing
(c) They seem to transmit better in a fax machine
(d) It makes no difference

9. Several of the tools used in traditional drafting include the following:
(a) Parallel straight edge
(b) 45 degree triangle

Scanned by CamScanner

(c) Circle template
(d)✓ All of the above

10. A civil engineer working on a bridge design would probably rely on his scale for checking printed drawings:
(a)✓ Engineer's (b) Metric
(c) Architect's
(d) None of these

11. In order to convert fractional inches into decimal inches:
(a) Look on a metric conversion chart
(b)✓ Divide the numerator (top number) by the denominator (bottom number)
(c) Check the engineer's scale
(d) All of the above

12. An engineer's scale would be used to measure lines on a drawing where the scale factor reads:
(a) 1/4" = 1'-0" (b) 1/8"=1'-0"
(c)✓ 1"=100' (d) 3/4" = 1'-0"

13. Referring to the fractional inches to decimal inches to millimeter conversion chart on page 55 what is the equivalent mm measurement of 3/16 inch:
(a) 1.906 (b)✓ 4.7625
(c) 5.958 (d) 14.6844

14. Some traditional board drafters preferred the drafting machine over the parallel straight edge because it could be used without the need for:
(a) Circle templates
(b)✓ T-iangles
(c) Technical pens
(d) Lettering guides

15. The first step in creating a traditional technical drawing is to:
(a) Draw a series of guide lines
(b) Set up the miter line
(c)✓ Align the paper so that it will be positioned square to the parallel bar'
(d) Sharpen the leads in the technical pens

Blocks

1. An AutoCAD term that refers to a pre-drawn object which is stored in a drawing file and can be inserted into any other drawing file as needed is a:
(a)✓ Block (b) Brick
(c) Balloon
(d) None of these

2. Most architectural firms and mechanical design companies utilize different categories of blocks. These sets of blocks are usually housed in:
(a) Block vaults
(b)✓ Block libraries
(c) Block books
(d) Block references

3. In some circumstances an entire drawing can be inserted into a different drawing as a block. When this is used the base point will default to:
(a)✓ 0,0 (b) 10,10
(c) 20,20 (d) 30,30

4. When creating your own blocks it is important to avoid drawing any portion of the block in the _____ layer:
(a)✓ 0 (b) center line
(c) Hatch (d) Hidden line

5. Newer versions of AutoCAD utilize the _____ to make block library' management very easy:
(a) File I find
(b)✓ Design Center
(c) File I search
(d) None of these

6. When the drafter types the word Block or selects the Make Block tool from the Draw tool bar the _____ will appear.
(a) Grid
(b) Block Text Box
(c)✓ Block Definition Dialog
(d) None of the above

Scanned by CamScanner

7. When creating a block the drafter needs to pay particular attention to selecting a base point because it determines the:
   (a) Scale
   (b) Rotation angle
   (c)✓ Insertion point
   (d) Color
8. When using versions of AutoCAD prior to Release 2006 it may be necessary to _____ a block in order to edit it:
   (a) Copy (b)✓ Explode
   (c) Offset
   (d) None of these
9. Some common blocks used by architectural drafters include:
   (a) Door swings
   (b) Ceiling fans
   (c) Appliances
   (d)✓ All of the above
10. Inserting blocks into a drawing file usually requires exacting placement. The drafter should insure that _____ is turned on:
   (a)✓ 0 Snaps (b) Ortho
   (c) Grid
   (d) Dynamic Input

Computer Aided Design Basics

1. Using the Relative Polar Coordinate System to add a 3 inch line that is 45 degrees from the end point of the line created above the drafter would:
   (a)✓ Type @3<45 and enter
   (b) Type 3 back slash and enter
   (c) Type 3 forward slash and enter
   (d) Type 3 and try to use the Dynamic Input readout to find the end point
2. A line .with a tapering width can be easily created by using thetool.
   (a) Circle (b) Eclipse
   (c) Line (d)✓ Polyline
3. Understanding the Cartesian coordinate system will help the beginning drafter:
   (a)✓ Control the accuracy of the drawing
   (b) Produce a visible grid system
   (c) Select a different text style
   (d) Choose various line types
4. The UCS icon represents the intersection of the:
   (a) X axis (b) Y axis
   (c) Z axis (d)✓ All of these
5. When using the direct entry method to create a horizontal line exactly three inches long the drafter should _____ first:
   (a) Pull the line from away from the starting point very carefully
   (b)✓ Insure that Ortho is on
   (c) Enter 3 for the length of the line
   (d) Read the coordinate position on the Dynamic Readout
6. In order to set drawing limits for a "C" size architectural drawing the drafter should set the limits to:
   (a) 0,0 and 2,9
   (b) 0,0 and 17,11
   (c)✓ 0,0 and 18,24
   (d) 0,0 and 34,24
7. One quick way to view the entire drawing area is to use the Zoom command by typing:
   (a)✓ Type Z enter A enter
   (b) Type Z enter E enter
   (c) Type SHOWALL enter
   (d) Type ALL enter
8. When setting up a mechanical drawing in AutoCAD the drafter should set the units to:
   (a) Fractional
   (b)✓ Decimal
   (c) Architectural
   (d) Metric
9. When drawing a line using the relative coordinate system a line is created from:
   (a) 0,0
   (b)✓ The ending point of the last line

Scanned by CamScanner

(c) The beginning point of the last line
(d) None of the above

10. If you use the absolute coordinate system to create a line from a starting point of 0, 0 8 units on the X axis and 5 units on the Y axis you enter for the second point:
(a)✓ 8,5 (b) 5,8
(c) 0,8 (d) 5,0

Threads, Fasteners and Springs

These include taper pins, straight pins, dowel pins, clevis pins, and cotter pins:
(a) Bolts
(b) General fasteners
(c)✓ Machine pins
(d) Rivets

The distance a screw thread advances axially in one turn is the:
(a)✓ Lead (b) Pitch
(c) Turn (d) Crest

The standard number of threads per inch for various diameters is the:
(a)✓ Series of thread
(b) Lead
(c) Major diameter
(d) Thread pitch

This type of fit is high quality and is used for the bulk of interchangeable screw thread work:
(a) Class 1 (b)✓ Class 2
(c) Class 3 (d) Class 4

This type of thread is a thread on the inside of a member:
(a) Basic thread
(b) External thread
(c)✓ Internal thread
(d) Major diameter thread

This is the smallest diameter of a screw thread:
(a) Internal thread diameter
(b)✓ Minor diameter
(c) Major diameter
(d) External thread diameter

7. This is the bottom surface joining the sides of two adjacent threads:
(a) Lead (b) Pitch
(c) Crest (d)✓ Root

Technical Sketching

1. This type of solid is egg-shaped and can be created by revolving an ellipse around one of its axes:
(a)✓ Ellipsoid (b) Torus
(c) Cone (d) Cylinder

2. Some of the common terms used to describe technical drawing include:
(a) Drafting
(b) Engineering Graphics
(c) Engineering Drawing
(d)✓ All of the above

3. An architect often relies on a _____ to complete the set of technical drawings used in the design of an office building:
(a) Technical illustrator
(b) Artist
(c)✓ Drafter
(d) Construction superintendent

4. In oblique sketches, the most commonly used angles for receding lines are:
(a) 15 or 30 degrees
(b) 25 or 30 degrees
(c)✓ 30 or 45 degrees
(d) 45 or 60 degrees

5. A drafter who develops technical drawings of a highway overpass would most likely be a drafter:
(a) Architectural
(b)✓ Civil
(c) Mechanical
(d) Process piping

6. These types of projectors converge at a vanishing point:
(a)✓ Perspective (b) Parallel
(c) Orthographic
(d) Oblique

7. A _____ is the person responsible for verifying that the drawings in a project set are free of mistakes:

Scanned by CamScanner

(a) Client
(b) CAD trainee
(c) Receptionist
(d)✓ Checker

8. This type of solid has two bases that are parallel equal polygons:
(a) Pyramid (b)✓ Prism
(c) Cone (d) Torus

9. An oil refinery relies on which type of drafter to maintain and update the technical piping drawings used for the construction and maintenance of the facility:
(a) Architectural
(b) Civil
(c)✓ Process piping
(d) Electrical

10. When designing a home for a client, one of the most important pre-design considerations that an architect needs to address is:
(a) How much money the client is willing to spend.
(b)✓ The site on which the house is to sit
(c) The nearest grocery store
(d) Whether or not there is a curb and gutter system

11. This is formed where three or more surfaces intersect:
(a) Oblique (b) Line
(c) Edge (d)✓ Vertex

12. The Department of Labor's Bureau of Labor Statistics predicts that some of the best opportunities for employment in our near future will be for students who:
(a) Drop out of high school
(b) Graduate from high school and go right into the workforce
(c)✓ Obtain a two year technical degree from a community or junior college
(d) Earn a B.S. degree in psychology

13. Three dimensional models are often used in the design process to:
(a)✓ Help the client understand the overall design concept
(b) Help the client select a color for their carpet
(c) Provide the client with a model which they can use to impress their friends
(d) Determine the quantity of brick needed to build the house

14. Students can complete an associate's degree in drafting which normally takes about years to complete:
(a) One (b)✓ Two
(c) Three (d) Four

15. This is used in drawings to represent the edge of a solid object:
(a) Angle (b) Vertex
(c) Surface (d)✓ Line

16. The daily workload of a drafter would generally include technical drawings of machine parts:
(a) Architectural
(b) Civil
(c) Electrical (d)✓ Mechanical

17. This type of solid has a polygon for a base and triangular lateral faces that intersect at a vertex:
(a)✓ Pyramid (b) Prism
(c) Cone (d) Torus

Sectional Views

1. This type of section is limited by a break line:
(a) Removed section
(b) Revolved section
(c)✓ Broken-out section
(d) Half section

2. Drafters should use a _____ in a section view of a mechanical part that includes the cylindrical view of a threaded hole:
(a)✓ Center line (b) Hatch line
(c) Poly line
(d) Dimension line

NTS,FEA,KPESED, Test Preparation

Scanned by CamScanner

The section view drawing in which one fourth of an object has been marked for removal is known as a _____ section:
(a) Full (b)✓ Half
(c) Quarter
(d) None of these

When filling an area with a hatch pattern in AutoCAD the drafter needs to be able to:
(a)✓ See the entire bounding area to hatch
(b) Set Ortho on
(c) Turn ISO grid off
(d) Set the layer to Defpoints

To avoid having to dimension to a hidden feature the drafter can utilize a section:
(a) Whole (b) Half
(c) Broken out
(d)✓ All of the above

Objects that are symmetric can be shown effectively using this type of section:
(a) Quarter section
(b)✓ Half section
(c) Full section
(d) Symmetric section

This type of section is not in direct projection from the view containing the cutting plane:
(a) Revolved section
(b)✓ Removed section
(c) Broken-out section
(d) Full section

By using a _____ section of a cylindrical mechanical part the drafter should be able to show only one view of the part:
(a) Half (b) Whole
(c)✓ Revolved (d) Broken out

In the section view, the areas that would have been in actual contact with the cutting plane are shown with:
(a) A cutting plane line
(b)✓ Section lining
(c) Visible lines
(d) Lines and arrows

10. These breaks are used to shorten the view of an object:
(a) Section breaks
(b) Aligned breaks
(c)✓ Conventional breaks
(d) Full breaks

11. In architectural _____ are often structural drawing used to illustrate and detail components:
(a) Foundation beam detail sections
(b) Wall sections
(c) Building sections
(d)✓ All of the above

12. When only a small section of an interior area needs to be revealed the drafter can use a _____ section:
(a) Half (b) Quarter
(c) Full (d)✓ Broken out

13. In this type of section, one quarter of the object is removed:
(a) Revolved section
(b) Removed section
(c) Quarter section
(d)✓ Half section

14. A _____ section allows the drafter to create a Cutting Plane line which is not in a straight line across the part:
(a)✓ Offset (b) Half
(c) Whole (d) Broken out

15. The _____ is a standard element of a section view in a technical drawing:
(a) Cutting Plane line
(b) Section lines
(c) Material hatch pattern
(d)✓ All of the above

16. When creating a Cutting Plane line with AutoCAD it is customary to use a _____ to create the line:
(a) Center line (b)✓ Polyline
(c) Dashed line (d) Hatch line

17. A section view usually shows _____ Details:
(a) Exterior (b)✓ Interior
(c) Profile

Scanned by CamScanner

(d) Foreshortened

18. What are the lines in a section view used to show where the material is cut called?
(a) Cutting plane lines
(b)✓ Section lines
(c) Object lines
(d) Hidden lines

19. When are ribs sectioned?
(a) When they are perpendicular to the cutting plane
(b) When they are parallel to the cutting plane
(c) Ribs are always sectioned
(d)✓ Ribs are never sectioned

20. When a quarter of the object is removed, the section is a:
(a) Full section (b)✓ Half section
(c) Quarter section
(d) Eighth section

21. The direction of line of sight of a section is indicated by the:
(a) Viewing direction of the section
(b) Offset section in the section
(c)✓ Arrows at the end of the cutting plane line
(d) Dashed lines on the section

22. A(n) _____ is a section view drawing in which the cutting plane is perpendicularly bent to pass through all important interior details:
(a) Full section
(b) Revolved section
(c)✓ Offset section
(d) Broken-out section

23. A _____ section make use of a short break line:
(a) Whole (b) Offset
(c) Revolved (d)✓ Broken-out

24. Cutting plane lines compared to object lines are:
(a) Lighter & thinner
(b) Darker & thinner
(c)✓ Same darkness & thicker
(d) Same darkness & thinner

25. Section lines compared to object lines are:
(a) Lighter & thinner
(b) Darker & thinner
(c) Same darkness & thicker
(d)✓ Same darkness & thinner

26. In an assembly section which of the following parts are not sectioned?
(a)✓ Threaded fasteners
(b) Plastics
(c) The smallest piece
(d) The outer piece

27. In an assembly section a thin washer, gasket, or sheet metal is described by:
(a) The cast iron crosshatching symbol.
(b) Not crosshatching it.
(c) Not showing it.
(d)✓ Darkening it entirely black.

28. A section view that shows the section superimposed on a standard view is a:
(a) Auxiliary section
(b) Removed section
(c)✓ Revolved section
(d) Offset section

29. A section is identified by use of:
(a) A conventional break
(b A reference plane
(c) A reference line
(d)✓ A cutting plane

30. When a cutting plane is located in a view:
(a) All other views are shown with a segment removed
(b) Only the view where the cutting plane arrows is pointing is sectioned
(c)✓ An adjacent view is sectioned
(d) None of the adjacent views are sectioned

31. A _____ is used mainly to expose small portions of the interior of an objects?
(a) Revolved section
(b) Removed section
(c)✓ Broken-out section

Scanned by CamScanner

(d) None of the above

12. A _____ section is used when the section view will be placed in another drawing sheet:
(a) Revolved (b)✓ Removed
(c) Offset (d) Phantom

13. The purpose of the arrowheads on a cutting plane line is to:
(a)✓ Show the direction in which the imaginary cut surface is viewed
(b) Indicate the location of the cutting plane
(c) Identify the reference letters such as section A-A or B-B, etc.
(d) All of the above

Orthographic Projection

1. The top, front, and bottom views align in this manner:
(a) Horizontally
(b)✓ Vertically
(c) According to the planar views
(d) Parallel to the frontal plane

2. If a plane is parallel to the plane of projection, it appears:
(a)✓ True size
(b) As a line or edge
(c) Foreshortened
(d) As an oblique surface

3. This line pattern is composed of three dashes, one long dash on each end with a short dash in the middle:
(a) Object (b) Hidden
(c)✓ Center (d) Phantom

4. This is the plane upon which the top view is projected:
(a)✓ Horizontal (b) Frontal
(c) Profile (d) Base

5. An advantage of this type of view is that each view shows the object all the way through as if it were transparent:
(a) Planar (b) Horizontal
(c) Auxiliary
(d)✓ Orthographic

6. This type of surface is tipped to all principal planes of projection and does not appear true size in any standard view:
(a) Foreshortened
(b) Parallel
(c) Orthographic
(d)✓ Oblique

Manufacturing Processes

1. This allows the designer to conceptualize objects more easily without having to make costly illustrations, models, or prototypes:
(a) Computer-aided manufacturing
(b)✓ Computer-aided design
(c) Computer-aided engineering
(d) Computer-aided prototypfng

2. This allows the performance of structures to be analyzed and tested efficiently, accurately, and quickly:
(a) Computer-aided manufacturing
(b) Computer-aided design
(c)✓ Computer-aided engineering
(d) Computer-aided prototyping

3. This type of rapid prototyping system uses a laser to fuse powdered metals, plastics, or ceramics:
(a) Fused deposition modeling
(b) Stereolithography apparatus
(c) Solid ground curing
(d)✓ Selective laser sintering

4. This process recognizes the inherent interrelationships between design and manufacturing:
(a) Design for manufacture
(b)✓ Design for manufacture and assembly
(c) Design for concurrent engineering
(d) Design for assembly

5. Manufacturing may produce these types of products:
(a)✓ Discrete or continuous
(b) Raw material or parts
(c) Machinery or manufactured
(d) Processes or operations

6. Approximately this much of the cost of product development and

Scanned by CamScanner

manufacture is determined at the design stage:
(a) 40-50% (b) 60-75%
(c)✓ 70-80% (d) 75-85%

7. This is a solid shape that fits inside4he maid and forms a hole in a cooled cast metal or molten plastic object:
(a)✓ Core (b) Cavity
(c) Prototype (d) Hole mold

Layouts and Lettering

1. When lettering a CAD drawing, for clarity you should limit the number of fonts to:
(a) One (b)✓ Two
(c) Three
(d) Any number

2. The primary unit of measurement for engineering drawings and design in the mechanical industries is the:
(a)✓ Millimeter (b) Centimeter
(c) Meter (d) Kilometer

3. These units are based on inch-foot and yard measurements:
(a) International customary units
(b) U.S. metric units
(c)✓ U.S. customary units
(d) ISO international units

4. This is how axonometric, oblique, and perspective sketches show objects:
(a) Orthographically
(b)✓ Pictorially
(c) Obliquely (d) Parallel

5. This type of projection is when projectors are parallel to each other, but are at an angle other than 90 degrees to the plane of projection:
(a)✓ Oblique projection
(b) Perpendicular projection
(c) Aesthetic projection
(d) Angular projection

6. There are two main types of projection:
(a) Parallel and Orthographic
(b) Station-point and Perspective
(c) Parallel and Convergent
(d)✓ Perspective and Parallel

Graphic Language for Design

1. EDM is the acronym for:
(a)✓ Enterprise data management
(b) Engineering drawing management
(c) Enterprise drawing manipulation
(d) Engineering data manipulation

2. Technical drawings typically serve one of three purposes:
(a)✓ Visualization, Communication, or Documentation
(b) Visualization, Dimensioning, or Dimensioning
(c) Communication, Documentation, Documentation, or Installation
(d) Documentation, Installation, or Engineering

3. The organized and orderly approach to solving problems is known as the:
(a) Engineering process
(b)✓ Design process
(c) Aesthetic process
(d) Functional process

4. This is the range of digital or hard copy documents that specify the physical function requirements for a product:
(a) Product design
(b)✓ Product definition
(c) Drawing definition
(d) Engineering design

5. PDM is the acronym for:
(a) Project drawing management
(b) Product drawing manipulation
(c)✓ Product data management
(d) Project data manipulation

6. This is a systematic approach that integrates the design and manufacture of products with the goal of optimizing the process:
(a) Traditional engineering design
(b) The manufacturing process
(c)✓ Concurrent design
(d) Design for recycling

Muhammad Ali 03101900027

Scanned by CamScanner

Electronic Diagrams

1. On typical electronic diagrams, these items need not be shown unless they are needed for clarification:
   (a) Transmission diagrams
   (b) Operating relays
   (c) Closed relays
   (d)✓ Terminal circles
2. Schematic and single-line diagrams should be arranged so that signal or transmission path from input to output proceeds in this fashion:
   (a) Right to left and top to bottom
   (b) Right to left and bottom to top
   (c)✓ Left to right and top to bottom
   (d) Left to right and bottom to top
3. Switches and relays should be shown in this position with no operating force or applied energy:
   (a)✓ Normal (b) Closed
   (c) Offset (d) Application
4. These items typically are not used in new designs, but are still common in high-power amplifiers:
   (a) Amplifier tubes
   (b)✓ Electron tubes
   (c) Signal relays
   (d) Switches
5. This type of circuit is a semiconductor wafer or chip:
   (a)✓ Integrated circuit
   (b) Transmission circuit
   (c) Plotted circuit
   (d) Conducted circuit

Gears and Cams

1. Spur gear design normally begins with selecting this:
   (a) Rack size (b) Tooth size
   (c) Gear size
   (d)✓ Pitch diameter
2. The most common geometric form used in gears today is this:
   (a)✓ Involute profile
   (b) Convolute profie
   (c) Base circle
   (d) Spur circle
3. This is a curve showing the displacement of the follower as ordinates on a base line that represents one revolution of the cam:
   (a)✓ Displacement diagram
   (b) Follower
   (c) Cam cycle
   (d) Reciprocation chart
4. Gear teeth formed on a flat surface are called this:
   (a) Pinion (b)✓ Rack
   (c) Spur (d) Teeth
5. These gears transmit power between shafts whose axes intersect at any angle:
   (a) Worm gears (b) Spur gears
   (c)✓ Bevel gears (d) Racks

Dimensioning

1. The condition of a part when it contains the least amount of material is referred to as:
   (a) Smallest (b)✓ LMC
   (c) MMC (d) Ac' al size
2. This is used to indicate that a surface is to be machined:
   (a)✓ Finish mark
   (b) Machining mark
   (c) Roughness indicator
   (d) Coordinate mark
3. The _____ tool on the Dimension tool bar places the length of an arch on a drawing:
   (a) Arc Radius (b)✓ Arc Length
   (c) Radius (d) Diameter
4. How can the drafter prevent AutoCAD from placing or stacking another center mark on a circle when adding a diameter dimension to it?
   (a) Explode the dimension and then erase the center mark.
   (b)✓ Use the Properties dialog box to turn off the center mark of the dimension.
   (c) It can't be done.
   (d) Use the trim tool to take away the stacked center mark.

Scanned by CamScanner

5. In this type of dimensioning, allowance must be made for bends:
(a) Angular (b) Tolerance
(c) Datum (d)✓ Sheet metal

6. One way to evenly space dimensions on a drawing is to use the:
(a)✓ Dimension Space tool
(b) Linear tool
(c) Continue tool
(d) Baseline tool

7. The _____ tool on the Dimension tool bar will place several dimensions at one time by using a selection box placed over several part features:
(a) Linear (b) Continue
(c) Baseline
(d)✓ Quick Dimension

8. A circular arc is dimensioned in the view where you see its true shape by giving the value for its:
(a) Diameter
(b) Arc length
(c)✓ Radius
(d) Chord length

9. This is the total amount that the feature on the actual part is allowed to vary from what is specified by the dimension:
(a) Allowance (b)✓ Tolerance
(c) Specification
(d) Difference

10. The _____ dimension tool will place the length of an angled line:
(a)✓ Aligned (b) Angle
(c) Linear (d) Radial

11. Placement of dimensions on a drawing is controlled by:
(a) ANSI
(c) Corporate drafting standards
(c) None of these
(d)✓ All of the above

12. Baseline dimensions are referenced from a common geometric feature known as a:
(a) Edge (b) Corner
(c)✓ Datum
(d) Point of reference

13. Given a situation in which the drafter has crossed extension lines in a drawing what can be done to clean up the point of crossing?
(a)✓ Use the Modify tool to clean up the extension lines
(b) Use the Tolerance tool to clean up the extension lines
(c) Use the Break tool to clean up the extension lines
(d) Use the stretch tool to clean up the extension lines

14. This is a thin solid line directing attention to a note or dimension and starting with an arrowhead or dot:
(a) Dimension line
(b) Extension line
(c)✓ Leader
(d) Specification

15. The maximum and minimum sizes of a feature are identified by a ____ tolerance:
(a)✓ Limits (b) GD&T
(c) Reference (d) Allowance

16. This is a line terminated by arrowheads, indicating the direction and extent of a dimension:
(a)✓ Dimension line
(b) Extension line
(c) Arrowhead line
(d) Centerline

17. In U.S. structural and architectural drafting, all dimensions of this length are usually expressed in feet and inches:
(a) One inch or over
(b)✓ One foot or over
(c) One yard or over
(d) One rod or over

Dimensioning and Tolerancing Practices

1. In dimensioning, a datum is established for each Cartesian coordinate direction:
(a)✓ Baseline (b) Symmetric

NTS,FETEA,KPK Test Preparation

Scanned by CamScanner

(c) Hole basis
(d) None of these

2. In current ANSI standards, a _____ is indicated by a 'V' shaped symbol:
(a) Counterbore
(b) Datum surface
(c)✓ Countersink
(d) Drill

3. A limited length or area (such as a polished end of shaft) is indicated with a _____ line.
(a) Hidden (b)✓ Chain
(c) Section (d) Dimension

4. In previous ANSI standards, a blind hole dimension would have to contain which designation?
(a)✓ DP (b) THRU
(c) C'BORE (d) CSK

5. The _____ of an external feature is the upper limit:
(a) Maximum material condition
(b)✓ Runnout
(c) Minimum material condition
(d) Allowance

6. The _____ of an internal feature is the upper limit:
(a) Maximum material condition
(b) Runnout
(c)✓ Minimum material condition
(d) Allowance

7. A term used to describe the concept of perfect form at MMC is:
(a) Datum reference frame
(b)✓ The envelope principle
(c) Rule No.1
(d) Departure from MMC

8. Which of the following is descriptive of the datum reference frame?
(a) Six degrees of freedom
(b) Located based on the functionality of the part
(c) Three orthogonal planes
(d)✓ All of the above

9. The primary datum feature should be established based on:
(a) An inaccessible feature that is unlikely to get damaged
(b) The feature that is likely to fluctuate most in size and shape
(c)✓ A feature that has predictable variation
(d) The curved rather than flat surface of a cylinder

10. All of the following controls are based directly on the concept of straightness except:
(a)✓ Line profile (b) Roundness
(c) Flatness (d) Parallelism

11. When lines intersect on a drawing at angles of this many degrees, it is customary not to dimension the angle:
(a) 360 (b) 180
(c)✓ 90 (d) 45

12. This is the term for the range of tightness or looseness resulting from the allowances and tolerances in mating parts:
(a) Limits (b)✓ Fit
(c) Specifications
(d) Allowance

Graphics Communication and Sketching

Write the correct answer:

1. Graphics is used in the engineering design process for:
(a) Communicating
(b) Conducting analyses
(c) Solving problems
(d)✓ All of the above

2. Which is not a geometry which is considered a foundation for technical graphics?
(a)✓ Relative (b) Descriptive
(c) Analytic (d) Plane

3. _____ are commonly accepted practices, rules, or methods.
(a) Standards (b) Laws
(c)✓ Conventions (d) Habits

4. Which of the following input devices does not translate hand movements into instructions for the computer?

Scanned by CamScanner

(a)✓ Scanner (b) Mouse
(c) Keyboard
(d) Tablet and puck

5. Which tool can be used to draw a 90 degree angle?
(a) 30/60 triangle
(b) Protractor
(c) Drafting machine
(d)✓ All of the above

Which set of lead grades has a grade out of sequence?
(a) H, H8, 8, 38
(b)✓ 78, H, F, 3H
(c) 68, 8, H, 4H
(d) 9H, H8, 8, 28

7. Which type of line is part of a dimension?
(a) Break lines
(b) Phantom lines
(c)✓ Extension lines
(d) Cutting plane lines

8. Which type of line is particular to section drawings?
(a) Break lines
(b) Phantom lines
(c) Extension lines
(d)✓ Cutting plane lines

9. Which angle cannot be made with either a 45 or 30/60 triangle or a combination of the two?
(a) 90 (b)✓ 70
(c) 30 (d) 15

10. A drawing instrument set usually contains all of the following, except:
(a) Bow compass
(c)✓ Scale
(c) Dividers (d) Sextent

11. Which line type is thin and light?
(a) Visible lines
(b) Center lines
(c) Construction lines
(d) All of the above

12. Which line type is thick and black?
(a)✓ Visible lines
(b) Center lines
(c) Construction lines
(d) All of the above

13. What type of sketch are typically used in the refinement stage of the design process?
(a) Isometric (b)✓ Document
(c) Oblique (d) Ideation

14. Which type of line has precedence over all other types of lines?
(a) A hidden line
(b) A center line
(c)✓ A visible line
(d) None of these

15. Which statement(s) is true about the precedence of lines?
(a)✓ A hidden line has precedence over a center line
(b) A center line has precedence over a visible line
(c) A visible line has precedence over a miter line
(d) All of the above

16. In a VR system, all of the following statements about immersiveness are true, except:
(a) Response time is an important factor
(b) Both display resolution and display size can affect it
(c)✓ The visual sense is the only sense to affect it
(d) Tracking body movement is an important factor

The Engineering Design Proce

1. All of the following are proce opposed to input or output) in a manufacturing business excep
(a)✓ Material (b)
(c) Documenting
(d) Designing

2. All of the following operati make use of the CAD except:
(a) Designing (b) Marketing
(c) Producing
(d)✓ None of these

Scanned by CamScanner

All of the following are part of the refinement process except:
(a) Modeling
(b) Design analysis
(c)✓ Problem identification
(d) Design visualization

Which type of model is likely to be created with a rapid prototyping system?
(a) Mathematical model
(b) Wireframe model
(c) Surface model
(d)✓ Scale model

Which of the following is considered a type of mechanism analysis?
(a) Functional analysis
(b)✓ Kinematic analysis
(c) Finite Element analysis
(d) Human Factors analysis

Which of the following would be used to help determine the spacing between earpiece and mouthpiece on a phone?
(a) Dynamic analysis
(b) Kinematic analysis
(c) Finite Element analysis
(d)✓ Human Factors analysis

All of the following are part of the implementation phase, except:
(a)✓ Modeling
(b) Documenting
(c) Servicing (d) Marketing

Which of the following is the responsibility of the production manager?
(a) People (b) Plants
(c) Processes
(d)✓ All of the above

Which of the following is not part of design for manufacturability?
(a) Minimize the number of parts
(b)✓ Use horizontal assembly whenever possible
(c) Reduce or eliminate fasteners
(d) Use modular design

10. Which of the following would be a typical use for Product Data Management?
(a) Tracking potential clients by Marketing
(b) Generating variations of a preliminary design
(c)✓ Searching for how many designs used a particular fastener
(d) Evaluating the strength of a rib support on a cast piece

11. Which method *bf* analysis takes into account forces acting on the model?
(a) Kinematics
(b) Mass-properties
(c)✓ Dynamics
(d) Process planning

Engineering Geometry

1. Which coordinate system uses two angles and one distance?
(a) World (b)✓ Spherical
(c) Local (d) Cylindrical

2. Which coordinate system uses two distances and one angle?
(a) World (b) Spherical
(c) Local (d)✓ Cylindrical

3. If you are going to create a tangent arc between two arcs that cannot intersect, to find the center of the tangent arc, you must set your compass to a radius that is:
(a) The existing arc radius, minus the tangent arc radius
(b) Centered at the tangent point of the new arc and the existing arc
(c)✓ The existing arc radius plus the tangent arc radius
(d) The sum of the two existing arc radii

4. _____ do not define a plane.
(a) Two parallel lines
(b) Three points
(c)✓ Two skew lines
(d) A line and a point

Scanned by CamScanner

5. A(n) _____ subtends an angle which is greater than that of a semicircle:
   (a) Quadrant (b) Segment
   (c) Secant (d)✓ Major arc
6. What type of curve is created by the intersection of a plane parallel to the side of cone?
   (a)✓ Parabola (b) Hyperbola
   (c). Ellipse (d) Roulette
7. A(n) _____ is created by the motion of a point on a circle as the circle rolled along a straight line:
   (a) Epicycloids (b) Hyperbola
   (c)✓ Cycloid (d) Spiral
8. When making a 'pipe' with a ruled surface, the determines whether the pipe is straight or curved:
   (a) Generator (b) Generatrix
   (c) Cutting plane
   (d)✓ Directrix
9. The path that a generatrix follows is called the:
   (a) Parabola (b) b-spline
   (c) Ruler (d)✓ Directrix
10. Another name for a cube is a:
   (a)✓ Hexahedron (b) Tetrahedron
   (c) Isocohedron (d) Octahedron
11. A(n) _____ cone has two planar surfaces parallel to each other:
   (a) Truncated (b)✓ Frustrum
   (c) Right (d) oblique

Design Visualization

1. Which of the following is typically represented in a drawing but does not have a true physical counterpart on the object?
   (a) Edge of planar surface
   (b) Edge of a circular face
   (c) Corner of a rectangle
   (d)✓ Limiting element of a curved surface
2. A cutting plane normal to a face of a cube has to be _____ in order to cut an oblique face:
   (a) Rotated about one axis
   (b) Rotated about one axis and translated
   (c)✓ Rotated about two axes
   (d) Rotated about two axes and translated
3. In a VR system, all of the following statement about immersiveness are true, except:
   (a) Response time is an important factor
   (b) Both display resolution and display size can affect it
   (c)✓ The visual sense is the only sense to affect it
   (d) Tracking body movement is an important factor
4. Imagine a "L" shaped face extruded into three dimensions. How many faces does it contain?
   (a) Seven (b)✓ Eight
   (c) Ten (d) Six
5. Acceptable parts must not extend beyond this:
   (a)✓ Boundary limits
   (b) Hole limits
   (c) Specification
   (d) Tolerances
6. This practice considers an individual part's dimensions and tolerances and that part's relation to its related parts:
   (a) Applying allowances
   (b)✓ Geometric dimensioning and tolerancing
   (c) Creating datum references
   (d) Angular dimensioning tolerances
7. An dependent variable is derived by subtracting the temperature reading on Gauge A from the reading on Gauge B. This variable would be a ____ variable:
   (a) Ratio
   (b) Independent
   (c)✓ Interval (d) Absolute
8. This is the measured size of a finished part:

Scanned by CamScanner

(a)✓ Actual size
(b) Dimensioned size
(c) Basic size
(d) Production size

9. The direction and velocity of air currents can be expressed as a:
(a) Scalar (b) Vector
(c) Tensor
(d)✓ Two of the above

10. All of the following are simple marks, except:
(a) Lines (b) Points
(c)✓ Arrows (d) Areas

11. Which of the following is not a technique normally used with a surface plot:
(a) Hidden line removal
(b) Color coding based on z value
(c)✓ Specular reflection
(d) Gouraud shading

12. All of the following is true about solid models, except:
(a)✓ They are equivalent to surface models
(b) They are 'watertight'
(c) A CSG model is one type
(d) They are typically manifold models

13. A _____ modeler 'defines the model with surfaces bounding a region:
(a)✓ Wireframe (b) Primitive
(c) B-rep (d) CSG

14. Which Boolean operation is sensitive to the order of the operands?
(a)✓ Difference (b) Union
(c) Divisor (d) Intersection

15. _____ control the geometric behavior of a dynamic model:
(a) Standards (b) Booleans
(c)✓ Constraints
(d) Habits

16. All of the following are elements needed to define a generalized sweep, except:
(a)✓ Intent (b) Profile
(c) Direction (d) Work plane

17. A _____ sweep is dependent on the location of the axis/vector relative to the profile:
(a) Path-based (b) Linear
(c)✓ Revolved (d) Blend

18. Which two methods of defining a work plane both define the work plane parallel to a planar face?
(a) Tangent and Through
(b) Offset and Tangent
(c) Angle and Orientation
(d)✓ Through and Offset

19. All of the following are examples of implicit constraints, except:
(a) Same size
(b)✓ Intersection
(c) Overlap (d) Tangency

20. A parent feature should always be relative to its child feature:
(a) In a separate model
(b) Created at the same time
(c)✓ Above in the feature tree
(d) Created after

21. Which type of sweep definition takes the sweep infinitely far?
(a) To next (b) Offset
(c) Blind (d)✓ Through all

22. All of the following are feature definition parameters that typically can be modified, except:
(a) Side of profile to work on
(b)✓ Type of operation
(c) Sweep direction
(d) Sweep distance

23. The view camera:
(a) is not controllable by the operator
(b)✓ is a metaphor used to describe the model viewing process
(c) only controls the zoom and pan
(d) is the same as the viewport

24. When changes in the model alter the views in the drawing view of the model but not vice versa, the associativity is:
(a) Non-directional

Scanned by CamScanner

(b) Bidirectional
(c)✓ Unidirectional
(d) All of the above

25. A(n) _____ in an assembly defines surface coplanar with the direction vector opposing each other:
(a)✓ Mate (b) Offset
(c) Align (d) Integrate

26. What type of analysis helps evaluate how a model responds to forces acting on it?
(a) Ergonomics
(b)✓ Finite Element Analysis
(c) Kinematics
(d) Mass Properties

3D Modeling Basics

1. The Press-Pull tool will _____ the face of a solid model in the direction it faces:
(a) Taper (b)✓ Extrude'
(c) Spiral
(d) None of these

2. The View toolbar will position the view of the 3D solid toward the:
(a) Front (b) Left side
(c) SE isometric
(d)✓ All of the above

3. The Free Orbit tool is found on the _____ toolbar:
(a) Rotate' (b) Move
(c)✓ Modify (d) 3-D move

4. The default position of the UCS icon is positioned at _____ on the AutoCAD grid:
(a)✓ 0,0,0 (b) 10,10,10
(c) 20,20,20
(d) None of these

5. A cylinder can be created by drawing a rectangular shape then the _____ tool:
(a)✓ Revolve (b) Sweep
(c) Extrude
(d) None of these

6. The MASSPROP shortcut will provide the following information:
(a) Mass (b) Volume
(c) Bounding box
(d)✓ All of the above

7. The 3-D commands on the Modeling toolbar include:
(a) Box (b) Sphere
(c) Extrude
(d)✓ All of the above

8. CAD programs which incorporate parametric modeling utilize a system in which the dimensions control the:
(a)✓ Size and shape of the model features
(b) Perspective of the model
(c) Shading used to render the model
(d) All of the above

9. In order to create one solid model from two or more separate solid shapes the drafter will need to position them and then:
(a)✓ Use Union to join them
(b) Use the Join command
(c) Use the Add Parts tool
(d) None of the above

10. The Conceptual Visual Style tool is located on the toolbar.
(a)✓ Visual Styles
(b) Modify
(c) 3-D Modeling
(d) All of the above

Auxiliary Views

1. The lines used to create the auxiliary view should appear as _____ in the finished view:
(a)✓ Object lines
(b) Construction lines
(c) Reference lines
(d) Construction lines

2. The offset distance for the width (front to back) distance of the auxiliary view is the same distance of the _____ in the top view:
(a)✓ Width (b) Height
(c) Length
(d) None of these

Scanned by CamScanner

The principle reason for using an auxiliary view is:
(a) To eliminate hidden lines
(b)✓ To create a true projection plane from an inclined plane in one of the primary views
(c) To show cylinders as ellipses
(d) To locate center marks

Circular shapes appear in this fashion when viewed at an angle other than 90 degrees:
(a) Circular (b)✓ Elliptical
(c) Lengthened (d) Angular

When adding dimensions to an auxiliary view it will be necessary to use the _____ tool:
(a) Linear dimension
(b)✓ Aiigned dimension
(c) Baseline dimension
(d) Angle dimension

An efficient method for trimming the corners on an auxiliary view is to use the:
(a)✓ 0 radius fillet
(b) Hatch tool
(c) Extend tool
(d) Grips function

In this type of auxiliary view, a break line is used to indicate the imaginary break in the views:
(a) Primary (b) Secondary
(c) Revolved (d)✓ Partial

When using the descriptive geometry method to create an auxiliary view the drafter should:
(a)✓ Rotate the snap grid to the same angle of the inclined plane
(b) Offset the right vertical line of the front view
(c) Rotate the top line of the front view 45 degrees
(d) Offset the top line of the front view 2 inches

This is the most common application for developments and intersections:
(a)✓ Sheet metal construction
(b) Piping
(c) Architecture
(d) Mechanical engineering

10. This type of auxiliary view is projected onto a plane that is perpendicular to one of the principal planes of projection:
(a)✓ Primary (b) Secondary
(c) Revolved (d) Successive

11. A partial auxiliary view usually shows only features on the _____ of the inclined line and not any projection of other planes:
(a) Hidden lines (b)✓ Plane
(c) Center lines
(d) None of the above

12. A partial auxiliary view is used to show only the _____ in the auxiliary view:
(a)✓ Projected inclined plane
(b) The projected top view
(c) The projected side view
(d) None of the above

13. This type of surface may be a plane, a single curved surface, or a warped surface:
(a) Edge surface
(b)✓ Ruled surface
(c) Auxiliary surface
(d) Developed surface

14. In this type of view, the cutting plane line indicates both the location of the cutting plane and the direction of sight:
(a) Removed section
(b) Revolved section
(c)✓ Auxiliary section
(d) Partial section

15. The principle views associated with orthographic projection are:
(a) Front view
(b) Right side view
(c) Top view
(d)✓ All of the above

16. A secondary auxiliary view is a projection off of the:

Scanned by CamScanner

(a) Front view (b) Top view
(c)✓ Primary auxiliary view
(d) None of the above

17. This type of solid is formed by sweeping a shape along a linear path:
(a) Planar solid
(b) Revolved solid
(c) Warped solid
(d)✓ Extruded solid

18. A sphere can be described in how many views:
(a) 4 (b) 3
(c) 2 (d)✓ 1

19. An asymmetric object is usually described by how many views?
(a) 6 (b)✓ 3
(c) 4 (d) 2

20. An axially symmetric object, such as one turned on a lathe, normally can be shown in _____ view(s).
(a) One (b)✓ Two
(c) Three (d) Four

21. In orthographic projection, visual rays are _____ to the projection plane:
(a) Parallel (b) Adjacent
(c)✓ Perpendicular
(d) Tangent

22. The top and right side views have what common dimension(s)?
(a) Height and width
(b) Width and depth
(c) Height (d)✓ Depth

23. For orthographic projection, the engineering custom in the United States dictates the use of:
(a) First-angle projection
(b) Second-angle projection
(c)✓ Third-angle projection
(d) Fourth-angle projection

24. For orthographic projection, the engineering custom in Europe dictates the use of:
(a)✓ First-angle projection
(b) Second-angle projection
(c) Third-angle projection
(d) Fourth-angle projection

25. The sequence for the direction of view (or line of sight) for any orthographic projection as utilized in the United States is:
(a)✓ *Eye* of observer > projection plane > object
(b) Eye of observer > object > projection plane
(c) Projection plane > object > eye of observer
(d) Projection plane > eye of observer > object

26. Depending on its relationship to the projection plane on which the view is projected, a line may project:
(a) True length
(b) Foreshortened
(c) As a point
(d)✓ All of the above

27. When a surface of an object is parallel to a plane of projection, it will appear _____ in the view.
(a) Foreshortened
(b)✓ In true size and shape
(c) As a line
(d) As a point

28. If a surface on an object is parallel to one of the principal planes of projection, then the angular relationship of that surface to at least two other principal projection planes is:
(a) Parallel
(b)✓ Perpendicular
(c) Inclined (d) Unknown

29. Good practice dictates that the characteristic contour shape of the object be shown in what view?
(a) Top (b)✓ Front
(c) Right side (d) Any side

30. The height, width, and depth of an object can be shown with a minimum of how many orthographic projection views?
(a) Six (b) Three
(c)✓ Two (d) Four

Muhammad Ali 03101190921

Scanned by CamScanner

31. Which of the following pairs of orthographic views both show the height dimension?
(a)✓ Left side and front
(b) Top and front
(c) Top and rear
(d) Bottom and right side

32. Which type of auxiliary view' is projected directly from one of the six principal views?
(a)✓ Primary (b) Secondary
(c) Tertiary
(d) None of these

33. A(n) _____ auxiliary view is generated from an *edge* view of an inclined surface in the top view:
(a) Depth (b)✓ Height
(c) Width (d) Secondary

Axonometric Projection & Pictorial Projections

1. If a client of yours is having difficulty visualizing a design, what type of drawing would be the easiest to understand?
(a)✓ Axonometric
(b) Three-view orthographic
(c) One-view orthographic
(d) Biometric

2. Which of the following is not a pictorial drawing?
(a) Isometric (b)✓ Multiview
(c) Perspective
(d) Axonometric

3. Which of the following projection methods does not use projectors perpendicular to the projection plane?
(a) Isometric
(b) Orthographic
(c)✓ Oblique
(d) Axonometric

4. A circle will appear on an isometric drawing as a(n):
(a)✓ Ellipse (b) Cycloid
(c) Circle (d) Parabola

5. An axonometric drawing which has two axes divided by equal angles is:
(a)✓ Diametric (b) Trimetric
(c) Orthographic
(d) Isometric

6. An axonometric drawing which has all three axes divided by equal angles is:
(a) Diametric (b) Trimetric
(c) Orthographic
(d)✓ Isometric

7. In a trimetric drawing, the relationship of the angle between axes to each other is:
(a) Three are equal
(b) Two are equal
(c) Three are unequal
(d)✓ None of the above

8. In an isometric sketch of a cube:
(a) The frontal face appears in its true shape
(b) The receding axes are at 45 degrees to the horizontal
(c)✓ All faces are equally distorted
(d) Only the depth distances must be reduced

9. In isometric drawings:
(a) Two axes are perpendicular
(b)✓ True measurements can be made only along or parallel to the isometric axes
(c) All faces are unequally distorted
(d) None of the above

10. In an axonometric drawing, the projection rays are drawn _____ to each other and _____ to the plane of projection:
(a) Parallel ..... oblique
(b) Oblique ..... parallel
(c)✓ Parallel ..... perpendicular
(d) Parallel ..... parallel

11. Non-isometric lines are located and sketched how?
(a) They are drawn parallel to the isometric axis
(b) They are measured using the angle from the multiview
(c) They are measured using a non-isometric template

Scanned by CamScanner

(d)✓ They are located by determining the endpoints of the non-isometric line

12. In an oblique sketch of a cube:
(a)✓ The frontal face appears in its true shape
(b) Both receding axes are at 30 degrees to the horizontal
(c) All faces are equally distorted
(d) The depth distances must be reduced

13. In an oblique drawing, all of the following angles are commonly used for drawing the depth axis, except:
(a) 30° (b) 45°
(c) 60° (d)✓ 90°

14. In an oblique drawing, the projection rays are drawn _____ to each other and _____ to the plane of projection:
(a) Oblique ..... oblique
(b) Oblique ..... parallel
(c)✓ Parallel ..... oblique
(d) Parallel ..... parallel

15. Which type of perspective view represents an adult viewer looking at an object on a high kitchen shelf?
(a) Bird's eye view
(b)✓ Worm's eye view
(c) Human's eye view
(d) Ground's eye view

16. Which type of perspective view represents an adult viewer looking at an object on the ground?
(a) Bird's eye view
(b)✓ Worm's eye view
(c) Human's eye view
(d) Ground's eye view

17. In a perspective drawing, the object always touches the:
(a)✓ Ground line
(b) Horizon line
(c) Measuring line
(d) Station point

18. In isometric projection, all distances are approximately this percentage of their true size:
(a) 120 percent (b)✓ 80 percent
(c) 50 percent (d) 20 percent

19. Angles project true size only when the plane containing the angle and plane of projection are this:
(a) Adjacent (b) Aligned
(c) Perpendicular
(d)✓ Parallel

20. In this type of projection, each of the axes has different ratios of foreshortening:
(a) Isometric (b) Dimetric
(c)✓ Trimetric (d) Parallel

21. Lines of an isometric drawing that are not parallel to the isometric axes are called this:
(a) Trimetric lines
(b)✓ Nonisometric lines
(c) Multiview lines
(d) Dimetric lines

22. This type of axonometric drawing has equal foreshortening along two axis directions and a different amount on the third axis:
(a)✓ Dimetric (b) Multiview
(c) Isometric (d) Trimetric

23. The edges of a cube in isometric projection make angles of this many degrees with each other:
(a) 30 (b) 60
(c) 90 (d)✓ 120
