

EDU 410

Final Paper

Subjective Part

01:

Explain principles of listening.

Pay Attention:

Focus on the speaker. Look at him or her because facial expressions and body language can communicate as much as language.

For example, there will usually be more engagement with the listener in making eye contact and use of hand gestures.

Practice Active Listening:

Ask the speaker to slow down or repeat when you don't understand or just want to be certain about what you heard.

Repeat back what you think you heard him or her say, as there can often be a gap between what we thought we heard and what the speaker intended.

Pay Attention to Structure:

In a formal lecture or speech, the speaker will usually let you know ahead of time the organization of the discourse: "Today we will discuss the two types of sentences, Type One and Type Two,"

and then what will follow is a description of Types One and Two. These devices, called "discourse markers," actually help the listener in organizing and understanding the lecture.

02:

Write good writers qualities.

- Good writers plan their writing.
- Good writers write complete sentences.
- Good writers make their writing better.

- Good writers make their writing neat and correct.
- Good writers share their writing.

03:

What is Listening Strategies?

Listening strategies are techniques or activities that contribute directly to the comprehension and recall of listening input. Listening strategies can be classified by how the listener processes the input.

- Top-down strategies are listener based.

04:

Define Tense.

Tense is a form of the verb that indicates time. A verb tense not only indicates past, present, and future action but also indicates whether the action is ongoing or complete.

In English the tense also may provide emphasis and may determine whether or not an action or condition was continuous or recitative. There are three basic tenses: past, present, and future.

05:

What is Cooperative Learning?

Cooperative Learning is an approach to teaching that makes maximum use of cooperative activities involving pairs and small groups of learners in the classroom.

Cooperative Language Learning (CLL) is also known as Collaborative Learning (CL).

06:

How can you say that audio lingual Methods similar to the direct Methods?

Audio Lingual Method/ALM:

The Audio-Lingual method of teaching a foreign language is also known as the army method. It originated from the behaviorist theory of learning languages and was introduced to teach language to troops during World War 2.

Similar to the direct method:

- They both are oral-based approaches - pronunciation and ability of speaking in the target language is superior to other skills

- Grammar is learnt inductively

■ Different from the direct method:

- Not only vocabulary but also grammatical sentence patterns
- Stronger theoretical base in linguistics (structural linguistics) and psychology (behavioral psychology)

07:

What Is Comprehensive listening?

Listening to understand the message the speaker is communicating called Comprehensive Listening.

It involves not only hearing the words being spoken but also comprehending their meaning, context, and nuances.

08:

Name the three basic tenses.

There are three basic tenses:

- Past
- Present
- Future

09:

How can spelling can be taught at higher stage?

Teaching spellings at higher stage:

Teaching spellings to beginners in early classes demands some easy strategies, but to elder students like 7th and 8th graders can be conducted with higher level activities.

When you are teaching something it is very important to involve student's cognition for a long term learning.

There are certain activities which can be used for higher learners.

- Using missing spelling chart
- Shuffling the spellings
- Remove extra letter

10:

How can you teach principles of speaking to your student?

Principles for Teaching Speaking Skills:

1. Focus on both fluency and accuracy
2. Provide intrinsically motivating techniques
3. Encourage the use of authentic language
4. Provide appropriate feedback and correction
5. Capitalize on the natural link between speaking and listening
6. Give students opportunities to initiate oral communication
7. Encourage the development of speaking strategies.

11:

What is present perfect tense?

Present perfect tense:

present perfect tense means that some activity has been started in past and completed in present.

Example:

He has written a story.

12:

What is GTM?

Grammar Translation Method/GTM:

The grammar translation method is a method of teaching foreign languages derived from the classical (sometimes called traditional) method of teaching Greek and Latin.

We can use GTM for translations, for word lists, grammar etc.

13:

What are Idioms and collocation?

Idiom:

a group of words established by usage as having a meaning not deducible from those of the individual words (e.g. hang one's head; see the light).

Examples:

- Cats and Dogs
- A piece of cake

Collocation:

a word or phrase that is often used with another word or phrase, in a way that sounds correct to people who use it (day and night, come to the point)

Examples:

- Heavy rain

"There was heavy rain all night, causing flooding in many areas."

- Fast food

"Let's grab some fast food for lunch."

14:

What are levels of language? And Explain it.

There are 5 levels of language:

- 1) Phonology
- 2) Morphology
- 3) Syntax
- 4) Semantics
- 5) Pragmatics

1: Phonology:

Phonology is the study of how sounds are organized and used in natural languages. It is a branch of linguistics concerned with the systematic organization of sounds in languages.

Phonology, therefore, is the study of sounds, and the combination of sounds, that is, how are these sounds organized.

- Sounds are known as "phonemes"

2: Morphology:

Morphology is a sub-discipline of linguistics in which forms and structure of words in a language are studied. In easier words, one can say that sounds combine to form words, and that is Morphology.

In morphology, the word part morph- means "form" and -ology means "the study of."

- Number of "phonemes" (sounds) combines to give a "morpheme" (word).

3: Syntax:

Syntax is the sequence in which words are put together to form sentences. In English, the usual sequence is subject, verb, and object. (Note: Syntactic languages, such as English, use word order to indicate word relationships).

- "Syntax" is a Greek word, which means "order"

4: SEMANTICS:

"the study of linguistic meaning", or "the study of the meaning of words and sentences"

5: PRAGMATICS:

Pragmatics is the study of "how to do things with words", or "the study of the contribution of context to meaning".

15:

What is Formula of present perfect tense?

Present perfect tense:

present perfect tense means that some activity has been started in past and completed in present.

Formula:

Subject+ Has/Have + 3rd form of Verb + Object

16:

Explain Stages of learning vocabulary.

There are **three stages** involved in learning vocabulary:

- Introduction
- Recognition
- Production

1st Stage: Introduction:

Lewis (2000) claims that "make and do" collocations provide a useful starting point for introducing the idea of collocations to learners.

Make or Do?

Make:

something that didn't exist before.

make the bed

make a cake

make the dinner

make a cup of tea / coffee

make a mess

make a wish

Do:

an activity, or action

do housework

do the ironing

do homework

do the washing-up

do the shopping

do the cleaning

2nd Stage: Practice

To practice or to recognize refer to the same stage. Practice has a crucial role in learning. However, it is more crucial for collocations/idioms as there is no rule for students to refer to.

The only way to help learners to remember collocations/idioms is to expose them to collocations through practice and revision activities.

Any kind of filling in the blanks, matching, error correction and odd word out type of activities can be used to practice collocations/idiom at all levels. For example, error correction activity would be useful both for writing and exam practice.

3rd. Stage: Production

Provide students with certain words and tell them to make collocations by using those words.

Do:

someone a favor, your hair, the shopping, your best, your homework, the dishes, your taxes

Make:

a cake, a mess, a difference, money, lunch, progress, an effort, time

Have:

a baby, fun, a rest, a shower, a problem, dinner, a chat, a party, a relationship

Take:

a photo, a break, a chance, a taxi, your time, notes, a risk, an interest, in, a vote

Go:

abroad/overseas, online, shopping, crazy/mad, bald, blind, quiet/silent.

Get:

Drunk, a job, a shock, lost, married, permission, ready.

17:**What listening activities can be given to children?****Listening Activities:**

- 1) Construct the listening activity around a contextualized task.
- 2) Define the activity's instructional goal and type of response. It means: main idea, sounds, text type etc.
- 3) Check the level of difficulty of the listening text.
- 4) Use pre-listening activities to prepare students for what they are going to hear or view.
- 5) Use pre-listening activities to prepare students for what they are going to hear or view.

Sample pre-listening activities:

- looking at pictures, maps, diagrams, or graphs
- reviewing vocabulary or grammatical structures
- reading something relevant

18:**What is Descriptive writing?**

A type of expository writing that uses the five senses to paint a picture for the reader. This writing incorporates imagery and specific details. Descriptive writing is a style of writing that focuses on vividly describing a person, place, object, event, or experience in detail.

19:**What are Writing strategies?**

Here are some strategies that might help you when you teach writing:

- 1) Choose writing objective.
- 2) Find a writing exercise that helps to focus on the specific objective.
- 3) If possible, tie the subject matter to student needs.
- 4) Provide feedback through correction activities that call on students to correct their own mistakes.
- 5) Have students revise work.

20:

What is Teaching speaking?

The goal of teaching speaking skills is communicative efficiency. Learners should be able to make themselves understood, using their current proficiency.

21:

Explain Types of listening:

There are different types of listening depending upon the situation and the environment, where the listening takes place. Few important types are given here:

1) **Appreciative Listening:**

Listening for appreciation and pleasure.

2) **Attentive Listening:**

attentively listening each and every word.

3) **Whole-person listening:**

understanding the speaker, his words, thought, motive etc.

4) **Casual Listening:**

Listening not very attentive, listening casually without any interest.

5) **Evaluative Listening:**

Listening to evaluate or judge something. It is also called "Critical Listening"

6) **Comprehensive Listening:**

listening to understand the message the speaker is communicating.

7) **Discriminative Listening:**

listening type, the objective is to focus on the sounds. At its most basic level this is akin to distinguishing the speakers gender, or the number of people in a conversation.

22:

What are Word Walls?

Teachers use two types of word walls in their classrooms. One-word wall features “important” words from books students are reading or thematic units.

23:

What are the Steps in vocabulary?

- Understanding new words
- Recognizing new words
- Producing vocabulary
- Idioms and collocations

24:

What is Teaching of Vocabulary?

Words used in a particular language are called vocabulary. Even at certain places, it has been defined as the total number of words in a language. It can be taught by different stages.

Receptive vocabulary:

refers to a learner's ability to recognize a word and retrieve its meaning while listening or reading.

Productive vocabulary:

refers to a learner's ability to use a word to send a message or express his/her thought appropriately through speaking or writing (Nation, 2006: 24)

25:

What are Tips for improving Pronunciation?

- 1) Learn the Rules
- 2) Learn the Meaning and Pronunciation
- 3) Listen
- 4) Record Yourself
- 5) Write Things Down
- 6) Consult Technical Sources
- 7) Practice

26:

What are the Principles of teaching?

Principles of teaching:

- 1) Create an active learning environment.
- 2) focus attention.
- 3) connect knowledge
- 4) help students organize their knowledge
- 5) provide timely feedback
- 6) demand quality
- 7) balance high expectations with student support
- 8) enhance motivation to learn
- 9) communicate your message in a variety of ways
- 10) help students to productively manage their time.

27:

What is Whip?

- Whip is an activity used after reading the text.
- This is when a teacher goes around the room and asks students questions about the text after reading it.
- The questions are usually given to the students before reading so they know who to specifically look for or listen to while reading.
- This strategy allows students to recall information they have just read

28:

What are Skimming and scanning?

Skimming and scanning are two very different strategies for speed reading.

Skimming:

refers to looking only for the general or main ideas. With skimming, your overall understanding is reduced because you don't read everything.

Example:

- ❖ The Newspaper Headlines.
- ❖ Table of contents.

Scanning:

In this We look only for a specific fact or piece of information without reading everything. Scanning Is a selective reading process. Scanning involves searching a text for specific information or keywords rather than reading it in its entirety.

Examples:

- ❖ Searching for a Phone Number.
- ❖ Finding a Word in a Dictionary.

29:

What is Article?

An article is a word used to modify a noun, which is a person, place, object or idea. Technically, an article is an adjective, which is any word that modifies a noun.

Articles are of two types:

- 1) Definite Articles (The)
- 2) Indefinite Articles (A, An)

30:

Write Cvc words with one vowel.

- ❖ Cat
- ❖ Bat
- ❖ Rat
- ❖ Fat
- ❖ Sat
- ❖ Mat
- ❖ Pet
- ❖ Met
- ❖ Bet
- ❖ Wet
- ❖ Vet

31:

Write Cvc words with two vowels.

- ❖ Cake
- ❖ Bake
- ❖ Game
- ❖ Gate
- ❖ Lake

- ❖ Cave
- ❖ Rake
- ❖ Tape

32:

What is Listening?

To hear something with thoughtful attention. Research shows that 45% of our time is spent on listening. We listen more than speak. Listening comprehension is the receptive skill in the oral mode.

Thomlison (1984) defines listening as, "Active listening, which is very important for effective communication".

33:

What is One-on-One Speaking?

Student-teacher or student-student where students are asked to discuss or explain some question or problem.

34:

What is Direct Method?

The direct method of teaching, which is sometimes called the **natural method**, and is often (but not exclusively) used in teaching foreign languages, refrains from using the learners' native language and uses only the target language.

35:

What is Dependent Clauses?

Subordinate or dependent Clause:

Subordinate (or independent) clause is a clause which does not express complete thought and depends on another clause (main clause) to express complete thought. Subordinate clause does not express complete idea and can't stand as a sentence.

Example:

He likes Chinese rice which tastes good.

The clause "which tastes good" in above sentence is a subordinate clause.

36:

What are Regular and Irregular Verbs?

Regular Verbs:

A verb in which the past tense is formed by adding the usual -ed ending is known as a regular verb.

Examples:

Walk, walked and walked

Irregular Verbs:

A verb in which the past tense is not formed by adding the usual -ed ending.

Examples:

sing (past tense sang); feel (felt); and go (went).

37:

What makes a word difficult?

- ❖ Spelling
- ❖ Pronunciation
- ❖ Length and complexity
- ❖ Grammar
- ❖ Meaning

38:

What are Teaching parts of speech?

A traditional term for categories into which words are classified according to their functions in sentences. A category to which a word is assigned in accordance with its syntactic functions.

In English main parts of speech are:

- ❖ Noun
- ❖ Pronoun
- ❖ Adjective
- ❖ Determiner
- ❖ Verb
- ❖ Adverb
- ❖ Preposition
- ❖ Conjunction
- ❖ Interjection

People count 'articles' also as parts of speech.

39:

What is Communicative approach?

The Communicative approach emphasizes the ability to communicate the message in terms of its meaning, instead of concentrating exclusively on grammatical perfection or phonetics.

The Communicative Approach Guiding Principles:

- ❖ Comprehension precedes production.
- ❖ Production emerges in stages.
- ❖ Goal is meaningful communication.
- ❖ Affective filter is lowered.
- ❖ Language is "acquired" through interaction as well as "learned" from the teacher.

40:

What are Clauses & phrases?

Clause:

A clause is a unit of grammatical organization next below the sentence in rank and in traditional grammar said to consist of a subject and predicate. The subject is what (or whom) the sentence is about, while the predicate tells something about the subject. A clause contains a subject and a verb, but can or cannot contain a complete thought.

Types:

- ❖ Independent Clause
- ❖ Dependent Clause

Phrase:

A phrase is a sequence of two or more words that make up a grammatical construction, but lacking a complete meaning and hence not a complete clause or sentence: shady lane (a noun phrase); at the bottom (a prepositional phrase); very slowly (an adverbial phrase). A phrase is a collection of words without a subject/verb or complete thought.

Examples:

- ❖ She walked in the park (**Prepositional Phrase**)
- ❖ She wanted to visit her grandmother (**Infinitive Phrase**)

41:

What is Speaking? And Explain it briefly.

Speaking:

"the process of building and sharing meaning through the use of verbal and non-verbal symbols, in a variety of contexts."

OR

“The action of conveying information or expressing one's feelings in speech”

Speaking is an interactive process of constructing meaning that involves producing and receiving and processing information (Brown, 1994; Burns & Joyce, 1997).

Types:

- 1) One-on-One Speaking
- 2) Small-Group or Team-Based Oral Work
- 3) Full-Class Discussions (Teacher- or Student-Led)
- 4) In-Class Debates and Deliberations
- 5) Speeches and Presentations
- 6) Oral Examinations

42:

Write 3 types of Grammar activities.

- 1- mechanical drill
- 2- meaningful drill
- 3 - communication drill

43:

How to introduce a new word?

1. Introducing nouns, things, objects, animals, etc
2. Introducing adjectives
3. Introducing abstracts

44:

As a prospective teacher, What will you do strategies improve vocabulary

1. Reading:

Encouraging students to read extensively can greatly enhance their vocabulary. I would provide a variety of reading materials such as books, articles, and newspapers, and encourage students to explore different genres and topics.

2. Contextual Learning:

I would emphasize learning vocabulary in context rather than just memorizing isolated words. This can be done through activities like reading comprehension exercises, discussions, and using vocabulary in real-life situations.

3. Word Games and Activities:

Engaging students in fun word games and activities can make vocabulary learning enjoyable. Activities like crossword puzzles, word association games, and vocabulary quizzes can help reinforce new words and their meanings.

4. Vocabulary Journals:

Encouraging students to keep a vocabulary journal can be beneficial. They can write down new words they come across, along with their definitions and example sentences. This helps them review and practice using the words later.

5. Word of the Day:

Introducing a "word of the day" to students can expand their vocabulary gradually. Each day, I would introduce a new word, discuss its meaning, and encourage students to use it in their conversations and writing.

6. Technology and Online Resources:

Utilizing technology and online resources can be a great way to enhance vocabulary. There are various vocabulary-building apps, websites, and online flashcards that students can use for independent practice.

45:

Write the types of vowel sounds in detail.

Long vowels

Symbol of long vowel is /a:/, in short vowels there are two dots as part of symbol. Sound in short vowels is not stretched but in long vowel sound is stretched. Long vowel is also a monophthong.

Short Vowels

A monophthong is a pure vowel sound, one whose articulation at both beginning and end is relatively fixed, A vowel that has a single perceived auditory quality and which does not glide up or down towards a new position of articulation. A short vowel is also a monophthong.

Schwa:

The most frequently occurring vowel in English is schwa and it is always associated with weak syllables. In quality it is mid (half-way between close and open) and central (half way between front and back). Most

specialists describe the schwa sound as lax, not articulated with much energy. L, or even in two lettered words, like in, it, and at.

For example, the schwa sound is found in the following words:

- The a is schwa in adopt.
- The e is schwa in synthesis.
- The I am schwa in decimal.
- The o is schwa in harmony.
- The u is schwa in medium.
- The y is schwa in syringe

Diphthongs:

A sound formed by the combination of two vowels in a single word, in which the sound begins as one vowel and moves towards another (as in coin, loud, side).

It means: There are two vowel sound. There is a different beginning and different end. The position of tongue changes because it glides from one position to another position.

46:

What are Metacognitive strategies?

Metacognitive strategies refer to methods used to help students understand the way they learn; in other words, it means processes designed for students to 'think' about their 'thinking'.

47:

Examples of diphthong

Here's an example of a diphthong: the word "coin." In this word, the "oi" combination represents a diphthong, which is a combination of two vowel sounds. When you say "coin," you start with the "o" sound and then glide into the "i" sound. So, "coin" has a diphthong in it!

48:

Steps of Learning Phonics.

There are 5 Steps in Learning Phonics

- 1) Step-1- Learning a-z.
- 2) CVC words with one vowel
- 3) CVCV words with two vowels

- 4) words with double/triple consonant blends.
- 5) Advance phonics: diphthongs and diagraphs.

49:

Short notes on reading Proficiency.

Reading Proficiency:

All of these types of reading involve certain steps of reading proficiency: Cognitive Skills, Reading Fluency, Comprehension and Metacognition. These steps collectively help in proficient reading. It is worth mentioning the higher steps are more complex as compared to the lower ones.

50:

why reading strategies need to be taught?

Teaching reading strategies is crucial for several reasons:

- 1) Comprehension
- 2) Critical Thinking
- 3) Vocabulary Development
- 4) Text Structure Awareness
- 5) Metacognition
- 6) Differentiation
- 7) Lifelong Learning Skills

These strategies empower students to become more proficient, strategic, and independent readers both inside and outside the classroom.

51:

how many diphthongs end on /ɪ/ sounds?

In English, there are two diphthongs that end with the /ɪ/ sound:

The diphthong /aɪ/ as in "price" or "high."

The diphthong /ɔɪ/ as in "boy" or "choice."

These diphthongs end with the /ɪ/ sound, which is a close front unrounded vowel, often represented by the letter "i" in English spelling.

52:

What are reading strategies in classroom?

Instruction in reading strategies is an integral part of the use of reading activities in the language classroom.

Reading Strategies Instructors can help the students by applying these strategies:

- ❖ Previewing
- ❖ Predicting
- ❖ Skimming and scanning
- ❖ Guessing from context
- ❖ Paraphrasing

53:

difficulty in speaking triphthongs?

A triphthong is a glide from one vowel to another and then to a third, all produced rapidly without interruption.

There are **five triphthongs in English**. They are composed of the five closing diphthongs with / added at the end.

Three vowel sounds are produced from a limited space and there is a quick gliding of the tongue. So difficult to perceive and distinguish.

54:

write three examples which end on schwa sound

There are three diphthongs ending on Schwa sound.

Examples:

- ❖ /iə/ as in here
- ❖ /eə/ as in hair
- ❖ /ʊə/ as in tour

55:

what is cognitive approach?

A cognitive approach refers to an educational perspective that focuses on understanding how students think, learn, and acquire knowledge. This approach emphasizes the internal mental processes involved in learning, such as perception, memory, problem-solving, and decision-making.

56:

How to develop listening skills?

the listening skill is used in a proper way; we can master the tools of communicative skills. Thomlison (1984) defines listening as, "Active listening, which is very important for effective communication".

57:

What is Consonant blends?

Consonant blends (also called consonant clusters) are groups of two or three consonants in words that makes a distinct consonant sound, such as "bl" or "spl."

58:

How to develop writing skills in children?

- ❖ Knowing the parts of speech
- ❖ using them correctly
- ❖ understanding how they relate to one another
- ❖ Provide a Supportive Environment
- ❖ Start with the Basics
- ❖ Encourage Creativity
- ❖ Provide Writing Opportunities
