MCQS

1. Which of the following is an example of a formative assessment? a) Final exam
b) Midterm test
c) Weekly quizzes
d) End-of-term project

Answer: c) Weekly quizzes

2. Which theory focuses on the idea that learners actively construct their knowledge through experiences? a) Behaviorism
b) Cognitive theory
c) Constructivism
d) Social learning theory

Answer: c) Constructivism

3. Which of the following is the primary purpose of Bloom's Taxonomy? a) To develop lesson plans
b) To assess students' knowledge
c) To create a hierarchy of cognitive skills
d) To measure students' emotional intelligence

Answer: c) To create a hierarchy of cognitive skills

4. Which educational model emphasizes the role of the teacher as a facilitator of learning rather than a source of information? a) Traditional model
b) Constructivist model
c) Behavioral model
d) Pedagogical model

Answer: b) Constructivist model

5. In the context of assessment, what does “reliability” refer to? a) The fairness of the test
b) The accuracy of the test in measuring what it intends to measure
c) The consistency of the test results
d) The validity of the test

Answer: c) The consistency of the test results

6. Which of the following best describes differentiated instruction? a) Teaching the same content to all students
b) Providing students with multiple ways to learn and demonstrate knowledge
c) Teaching students according to their academic level only
d) Focusing solely on high-achieving students

Answer: b) Providing students with multiple ways to learn and demonstrate knowledge

7. Which type of learning involves problem-solving, critical thinking, and collaboration? a) Rote memorization
b) Active learning
c) Passive learning
d) Lecture-based learning

Answer: b) Active learning

8. Which is the primary focus of Vygotsky’s theory of social development? a) The importance of genetic factors in learning
b) The role of social interaction in cognitive development
c) The stages of intellectual development
d) The role of sensory experiences in learning

Answer: b) The role of social interaction in cognitive development

9. The concept of 'scaffolding' in education refers to:
- a) Offering constant support during all tasks
 - b) Gradually removing assistance as learners become more competent
 - c) Focusing on the student's weaknesses
 - d) Encouraging competition among students

Answer: b) Gradually removing assistance as learners become more competent

10. Which type of assessment is used to monitor students' progress during instruction?
- a) Summative assessment
 - b) Formative assessment
 - c) Diagnostic assessment
 - d) Norm-referenced assessment

Answer: b) Formative assessment

11. Which of the following is a characteristic of a learner-centered classroom?
- a) The teacher controls the classroom environment and decisions
 - b) Students engage in collaborative and active learning
 - c) Students passively receive information
 - d) The focus is on standardized testing

Answer: b) Students engage in collaborative and active learning

12. According to Howard Gardner, which of the following is one of the multiple intelligences?
- a) Emotional intelligence
 - b) Musical intelligence
 - c) Mathematical intelligence
 - d) All of the above

Answer: d) All of the above

13. Which strategy is an example of inquiry-based learning? a) Lecture with note-taking
b) Collaborative group research projects
c) Watching a documentary
d) Reading a textbook chapter

Answer: b) Collaborative group research projects

14. Which of the following refers to the set of standards for student achievement, typically developed by education boards? a) Curriculum guides
b) Educational goals
c) Learning outcomes
d) Benchmarks

Answer: c) Learning outcomes

15. The process of determining the effectiveness of teaching methods and learning outcomes is called: a) Evaluation
b) Reflection
c) Motivation
d) Assessment

Answer: a) Evaluation

16. Which term refers to the learning needs of students with disabilities and special needs? a) Standardized learning
b) Special education
c) Inclusive education
d) Vocational education

Answer: b) Special education

17. Which type of learning focuses on the integration of new knowledge with prior understanding? a)

Constructivist learning

b) Rote learning

c) Active learning

d) Passive learning

Answer: a) Constructivist learning

18. Which of the following is an example of intrinsic motivation? a) Learning for a reward or recognition

b) Learning to avoid punishment

c) Learning because it is enjoyable or interesting

d) Learning because of parental pressure

Answer: c) Learning because it is enjoyable or interesting

19. Which of the following is a feature of project-based learning? a) The teacher presents all content

b) Students work on real-world problems over an extended period

c) Learning is based solely on lectures

d) Students work in isolation

Answer: b) Students work on real-world problems over an extended period

20. Which of the following best describes the term 'zone of proximal development' (ZPD)? a) The level of learning that is beyond a student's current ability

b) The gap between what a learner can do independently and with assistance

c) The range of knowledge a learner can master without any guidance

d) The zone where a learner is incapable of learning

Answer: b) The gap between what a learner can do independently and with assistance

21. Which of the following is a key principle of behaviorism in education? a) Learning is an active, constructive process
b) Students learn by imitating others
c) Learning can be shaped through reinforcement and punishment
d) Students are naturally motivated to learn

Answer: c) Learning can be shaped through reinforcement and punishment

22. Which of the following is an example of a summative assessment? a) Weekly quizzes
b) Midterm exam
c) Classroom discussion
d) Group project

Answer: b) Midterm exam

23. In educational psychology, which of the following refers to a student's belief in their ability to succeed? a) Self-regulation
b) Self-esteem
c) Self-concept
d) Self-efficacy

Answer: d) Self-efficacy

24. Which of the following best defines 'inclusive education'? a) Education for students with disabilities only
b) Education that accommodates all learners, including those with diverse needs
c) Education that focuses on high-achieving students
d) Education that is only delivered in special schools

Answer: b) Education that accommodates all learners, including those with diverse needs

Midterm preparation file

25. Which of the following strategies is most effective for promoting critical thinking?

- a) Encouraging rote memorization
- b) Asking open-ended questions
- c) Relying on multiple-choice assessments
- d) Focusing on one-way lectures

Answer: b) Asking open-ended questions

26. What is the primary aim of cooperative learning? a) To teach students in isolation

- b) To encourage teamwork and mutual support among students
- c) To focus on individual achievement
- d) To reduce student collaboration

Answer: b) To encourage teamwork and mutual support among students

27. Which of the following is a characteristic of experiential learning? a) Learning through passive observation

- b) Learning through practical experience and reflection
- c) Learning through memorization
- d) Learning through standardized tests

Answer: b) Learning through practical experience and reflection

28. Which of the following is the first step in the ADDIE model for instructional design?

- a) Design
- b) Development
- c) Analyze
- d) Evaluate

Answer: c) Analyze

Midterm preparation file

29. Which of the following is a purpose of differentiated assessment? a) To assess all students in the same manner
- b) To allow students to demonstrate their understanding in different ways
- c) To test only the highest-achieving students
- d) To assess students' memory retention

Answer: b) To allow students to demonstrate their understanding in different ways

30. What is the role of the teacher in a constructivist classroom? a) To deliver content through lectures
- b) To control the learning environment
- c) To facilitate students' exploration and discovery
- d) To grade students based on standardized tests

Answer: c) To facilitate students' exploration and discovery

Midterm preparation file

33. What is the primary objective of cooperative learning?

- a) To encourage competition among students**
- b) To foster teamwork and collaboration**
- c) To focus solely on individual performance**
- d) To increase teacher authority in the classroom**

Answer: b) To foster teamwork and collaboration

34. Which of the following is true about the teacher's role in a learner-centered classroom?

- a) The teacher is the sole authority and source of knowledge**
- b) The teacher facilitates and guides student learning**
- c) The teacher directs all classroom activities**
- d) The teacher focuses only on students' individual performance**

Answer: b) The teacher facilitates and guides student learning

35. In differentiated instruction, what is the primary focus?

- a) Teaching to the lowest common denominator**
- b) Adapting instruction to meet the diverse needs of learners**
- c) Standardizing the curriculum for all students**
- d) Teaching only high-achieving students**

Answer: b) Adapting instruction to meet the diverse needs of learners

36. Which of the following is an example of formative assessment?

- a) A standardized final exam**
- b) A teacher's feedback on a student's draft of an essay**
- c) A midterm exam**
- d) A national test for academic performance**

Answer: b) A teacher's feedback on a student's draft of an essay

Midterm preparation file

37. What does the term 'scaffolding' mean in educational theory?

- a) Offering a permanent support to all students
- b) Temporary assistance provided to learners to help them achieve higher levels of understanding
- c) A system of testing student's knowledge
- d) Focusing on peer learning and student-led discussions

Answer: b) Temporary assistance provided to learners to help them achieve higher levels of understanding

38. Which of the following learning strategies emphasizes learning through real-world application and reflection?

- a) Rote learning
- b) Experiential learning
- c) Passive learning
- d) Memorization

Answer: b) Experiential learning

39. According to Piaget, which stage involves the development of logical thinking and concrete problem-solving?

- a) Sensorimotor
- b) Preoperational
- c) Concrete operational
- d) Formal operational

Answer: c) Concrete operational

40. Which of the following is most likely to be part of a learner-centered classroom?

- a) Teacher-controlled lessons
- b) Students working independently without feedback
- c) Collaborative student projects
- d) Uniform, one-size-fits-all lessons

Answer: c) Collaborative student projects

MCQS**Midterm preparation file**

41. What is the primary purpose of peer assessment?

- a) To determine the final grade for students
- b) To provide feedback from peers to improve learning
- c) To assess the teacher's performance
- d) To compare students' abilities

Answer: b) To provide feedback from peers to improve learning

42. Which of the following is a characteristic of a well-constructed multiple-choice question?

- a) Only one correct answer with plausible distractors
- b) Multiple correct answers
- c) Long, complex wording
- d) Questions with no distractors

Answer: a) Only one correct answer with plausible distractors

43. Which of the following refers to a type of assessment designed to evaluate students' knowledge after instruction has been completed?

- a) Formative assessment
- b) Diagnostic assessment
- c) Summative assessment
- d) Norm-referenced assessment

Answer: c) Summative assessment

44. Which educational theorist is best known for his work on stages of cognitive development?

- a) Vygotsky
- b) Piaget
- c) Skinner
- d) Gardner

Answer: b) Piaget

45. In Gardner's theory of multiple intelligences, which intelligence involves the ability to understand and relate to others?

- a) Linguistic intelligence
- b) Interpersonal intelligence
- c) Logical-mathematical intelligence
- d) Spatial intelligence

Answer: b) Interpersonal intelligence

46. What does "learning outcomes" refer to in education?

- a) The way students feel about their education
- b) The measurable knowledge or skills that students should demonstrate after instruction
- c) The grades students receive on tests
- d) The classroom environment created by the teacher

Passing criteria of this course

Letter Grade	Grade Points	Equivalent Percentage
A+	4.00	90-100
A	4.00	85-89
A-	3.66 - 3.99	80-84
B+	3.33 - 3.65	75-79
B	3.00 - 3.32	71-74
B-	2.66 - 2.99	68-70
C	2.00 - 2.65	61-67
D	1.00 - 1.99	50-60
F	0.00	00-49

Passing Criteria for a Course:

The passing criteria is defined in such a way that it ensures the student shall be consistent in his studies throughout the semester.

Therefore, for passing a course/subject, student shall fulfill the following:

- Secure minimum **20%** score in Formative Assessments/Mid terms
- Secure minimum **20%** score in Final Term Examinations.
- Secure at least **40%** marks in aggregate while fulfilling the above requirements

Course Selection and Credit Hours

Q: How do I select courses when the course selection is open?

A: Follow these steps:

- 1. Check the credit hours allowed by your university (e.g., 21, 18, or 15 credit hours).**
- 2. Each subject typically has 3 credit hours.**
- 3. Divide the total allowed credit hours by 3 to determine how many subjects you can select.**

Examples:

21 credit hours = 7 subjects

15 credit hours = 5 subjects

Remember, the university may allow different credit hours for each student, so check your specific allowance.

By following these steps, you can make informed decisions during course selection and manage your credit hours effectively.
