

ENG514

Final-Term (✨✨✨✨✨✨)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Teaching Listening and Speaking Skills

ENG514_Teaching Listening and Speaking Skills
Final-Term (✨✨✨✨✨✨)

1. Speaking & Listening

Speaking and listening are interactive language skills used for communication, sharing ideas, and learning.

Speaking is the most frequently used language skill.

2. Language Complexity

Language complexity is measured through:

- **Fluency**: speed, smoothness, fewer pauses
- **Accuracy**: fewer grammatical errors
- **Complexity**: use of advanced structures (clauses, variety)

3. Skills Involved in Speaking

- Pronunciation
- Grammar
- Vocabulary
- Fluency
- Coherence
- Pragmatic competence

4. Developing Speaking Fluency

- Meaning-focused activities
- Repetition
- Familiar topics
- Time pressure

4/3/2 Technique

Speaker talks for 4 minutes, then 3, then 2 on the same topic → fluency improves

5. Types of Listening

- **Intensive**: focus on sounds and details
- **Extensive**: general meaning
- **Responsive**: short responses
- **Selective**: specific information

One-way listening: Extensive & Selective

6. Techniques to Improve Listening Fluency

- Meaning-focused listening
- Interesting stories
- Controlled input
- Repetition
- Using background knowledge

7. Accent vs Dialect

- **Accent**: pronunciation only
- **Dialect**: pronunciation + grammar + vocabulary

8. Discourse & Conversation Analysis

Both study language in social context:

- **Discourse Analysis**: long stretches of language
- **Conversation Analysis**: turn-taking & interaction

9. Turn-Taking

Helps children learn when to speak and listen → supports language development

10. Negotiation of Meaning

Interactive strategies like clarification and confirmation to improve understanding

11. Guided Learning

Teacher-supported learning with scaffolding to develop independence

12. Guided Reading vs Exploratory Talk

- Guided reading: teacher-led text understanding
- Exploratory talk: learners discuss and build ideas together

13. Assessing Classroom Talk – Difficulties

- No clear criteria
- Spoken language is temporary
- Context affects performance

Alan Howe (1997): variation, informality, tracking progress

14. Diary Talk

Learners talk about personal diaries → improves fluency and confidence

15. Psycholinguistics (Focus Areas)

- Cognitive processes
- Speech perception & production
- Language memory

16. Cognitive Load Principle (Brown)

More complexity = more mental effort = harder comprehension

17. Garden Path Technique

Learners make errors on purpose → notice mistakes → correct learning

18. Language Testing

Reliability

Same results over time

Validity

Test measures what it should

Practicality

Easy to administer, score, and interpret

19. Listening Tests (Examples)

- Dictation
- Gap-fill
- MCQs
- Recall tests
- Sentence completion

20. High-Stakes Testing

Tests that strongly affect learners' future (IELTS, TOEFL)

21. Speaking Tests

- **IELTS**: face-to-face, communicative
- **TOEFL iBT**: computer-based, impersonal

22. Formal Speaking

- Planned
- Long turns
- Academic vocabulary
- Needs training

23. Pyramid Procedure

Students speak in pairs → groups → class with reduced notes

24. Computer Talk Types

- Disputational
- Cumulative
- Exploratory

25. Exploratory Talk Rules

- Respect ideas
- Ask reasons
- Share information
- Discuss alternatives
- Reach agreement

26. Pronunciation Correction Techniques

- Teacher repetition
- Stressing problem part
- Writing word on board

27. Role of Technology

Speech recognition, text-to-speech, online tools improve speaking

28. Communicative Language Teaching (CLT)

Focus on meaning and real communication

29. Task-Based Language Teaching (TBLT)

Learning through real-life tasks with interaction

30. Fluency Characteristics

- Message-focused
- Easy tasks
- High performance speed

31. Vocabulary Learning

Beginner Level

Pre-teaching, semantic maps, repetition

Intermediate Level

Context guessing, word parts, keyword technique

32. Keyword Technique

Link new word with L1 word + mental image

33. Caregiver Talk

- One-on-one talk
- Reading stories
- Asking questions
- Modeling full sentences

34. Listening Support Techniques

- Brainstorming
- Prediction
- Repetition

- Observation

35. Channels of Communication

- Auditory (speech)
- Visual (gestures)

36. Stress-Timed vs Syllable-Timed

- Stress-timed: English
- Syllable-timed: French

37. Corpus Linguistics

Study of real spoken language using corpora

38. Teacher-Control Techniques

Learners can ask teacher to repeat, slow down, explain

39. Importance of Fluency Activities

Increase speed, confidence, and natural speech
