

PSY101 100+ FINAL TERM MCQS SPRING 2025

BY BRAINY SQUAD

Question No: 1

The therapy based upon _____ theory is too time-consuming and therefore expensive.

- A. Psychodynamic
- B. Psycho-social
- C. Trait
- D. None of the given options

Correct Answer: A. Psychodynamic

Question No: 2

What is one similarity shared by clinical psychologists and psychiatrists?

- A. They diagnose and treat people experiencing behavioral and emotional problems.
- B. They have the same training experiences after college.
- C. They view abnormal behaviors as arising from the same causes.
- D. They obtain the same graduate degree.

Correct Answer: A. They diagnose and treat people experiencing behavioral and emotional problems.

True/False & Definitions

Question No: 3

Impression formation is the process by which an individual organizes information about another individual to form an overall impression of that person.

Answer: True

Question No: 4

Learning through experiences by modeling and imitation is known as "**Observational Learning**".

Question No: 5

Bipolar disorder is a combination of **depression** and **mania**.

Question No: 6

Major depression was previously known as "**melancholia**".

Question No: 7

Claustrophobia is known as the fear of **closed spaces**.

Multiple Choice Questions (MCQs)

Question No: 8

The American Psychological Association (APA) has ** ____ divisions.

- A. 55
- B. 65
- C. 54
- D. 45

Correct Answer: C. 54

Question No: 9

The **___ version of DSM was published in 2000.

- A. DSM-III
- B. DSM-IV
- C. DSM-IV-TR
- D. DSM-II

Correct Answer: B. DSM-IV

Question No: 10

**___ contributions began with revolutionary changes at the La Bicetre hospital in Paris.

- A. Philippe Pinel
- B. Galen
- C. Plato
- D. Mesmer

Correct Answer: A. Philippe Pinel

Question No: 11

The hierarchical theory of intelligence consists of **___ levels.

- A. 3
- B. 4
- C. 5
- D. 6

Correct Answer: A. 3

Question No: 12

According to Sternberg's theory, intelligence has three components. Which component is **NOT** part of this theory?

- A. Analytic intelligence
- B. Crystalline intelligence

- C. Practical intelligence
- D. Creative intelligence

Correct Answer: B. Crystalline intelligence

Question No: 13

Galton considered intelligence to be ____.

- A. Not heritable
- B. Similar between most people
- C. A property of our nervous system or hereditary
- D. The product of social differences

Correct Answer: C. A property of our nervous system or hereditary

Question No: 14

If a man experiences chest pains while at a department store and later develops anxiety attacks when visiting department stores, this can be explained by ** ____ learning.

- A. Operant
- B. Classical conditioning
- C. Observational
- D. Vicarious

Correct Answer: B. Classical conditioning

Question No: 15

Who proposed that a power similar to magnetism existed in humans?

- A. Franz Friedrich Anton Mesmer
- B. Philippe Pinel
- C. Galen
- D. Plato

Correct Answer: A. Franz Friedrich Anton Mesmer

Question No: 16

Social phobia is characterized by ____.

- A. A fear of people
- B. A fear of rejection
- C. A fear of social situations
- D. A fear of social isolation

Correct Answer: C. A fear of social situations

Question No: 17

Who was the founder of **REBT (Rational Emotive Behavior Therapy)**?

- **A. Albert Ellis**
- **B. Aaron Beck**
- **C. Albert Einstein**
- **D. Aron Feldr**

Correct Answer: A. Albert Ellis

Question No: 18

Which one is **NOT** a type of schizophrenia?

- **A. Disorganized type**
- **B. Catatonic type**
- **C. Paranoid type**
- **D. Differentiated type**

Correct Answer: D. Differentiated type

Question No: 19

Which model of psychotherapy consists of **Systematic Desensitization** and **Contingency Management**?

- **A. Biological**
- **B. Family and Couples**
- **C. Behavioral**
- **D. Cognitive**

Correct Answer: C. Behavioral

Question No: 20

The concept where there is a feeling of integration between the **self** and **ideal self** is called ____.

- **A. Empathy**
- **B. Respect**
- **C. Congruence**
- **D. Genuineness**

Correct Answer: C. Congruence

Question No: 21

When our initial perception of a person is positive, we tend to expect that the same person has other positive characteristics too. This is known as ____.

- A. Halo effect
- B. Social influence
- C. Hello effect
- D. Positive effect

Correct Answer: A. Halo effect

Question No: 22

In terms of its causes and course, bipolar disorder is most similar to ____.

- A. Panic disorder
- B. Schizophrenia
- C. Substance use disorders
- D. Unipolar depression

Correct Answer: D. Unipolar depression

Question No: 23

_____ is a defense mechanism which refuses to acknowledge or accept anxiety-provoking thoughts or impulses.

- A. Displacement
- B. Denial
- C. Projection
- D. None of the above

Correct Answer: B. Denial

Question No: 24

Structures of consciousness, according to the psychodynamic approach, are conscious, subconscious, _____, and unconscious.

- A. Superconscious
- B. Hyperconscious
- C. Nonconscious
- D. None of the above

Correct Answer: D. None of the above (The correct missing term is **preconscious**)

Question No: 25

The therapy based upon _____ theory is too time-consuming and therefore expensive.

- **A. Psychodynamic**
- **B. Psycho-social**
- **C. Trait**
- **D. None of the given options**

Correct Answer: A. Psychodynamic

Question No: 26

_____ described personality in terms of two major dimensions.

- **A. Cattell**
- **B. Eysenck**
- **C. Adler**
- **D. None of the above**

Correct Answer: B. Eysenck

Question No: 27

TAT is a _____.

- **A. Self-Report Inventory**
- **B. Projective Test**
- **C. Perception Test**
- **D. None of the above**

Correct Answer: B. Projective Test

Question No: 28

_____ was the first to use the term “Mental Test” for devices used to measure intelligence.

- **A. Galton**
- **B. Cattell**
- **C. Thorndike**
- **D. None of the above**

Correct Answer: B. Cattell

Question No: 29

Multiple Intelligence theory maintains that humans possess around _____ kinds of intelligence.

- **A. Two**

- B. Seven
- C. Eight
- D. None of the above

Correct Answer: C. Eight (Gardner's theory originally included 8 intelligences)

Question No: 30

Binet and Simon were _____ scientists. They were the first to measure intelligence formally.

- A. German
- B. American
- C. French
- D. None of the above

Correct Answer: C. French

Question No: 31

Cole and Hass gave the idea of _____.

- A. Social Intelligence
- B. Moral Intelligence
- C. Emotional Intelligence
- D. None of the above

Correct Answer: C. Emotional Intelligence

Question No: 32

Available statistics show that the majority of people have an IQ level between _____.

- A. 75–115
- B. 80–115
- C. 85–115
- D. None of the above

Correct Answer: C. 85–115

Question No: 33

The function of memory responsible for the initial recording of information is _____.

- A. Encoding
- B. Storage
- C. Retrieval
- D. None of the above

Correct Answer: A. Encoding

Question No: 34

Information gathered by our visual sense is reflected by the _____.

- **A. Echoic Memory**
- **B. Iconic Memory**
- **C. Long-Term Memory**
- **D. None of the above**

Correct Answer: B. Iconic Memory

Question No: 35

_____ is a technique used to transfer short-term memory information into long-term memory.

- **A. Chunking**
- **B. Echoic Memory**
- **C. Retrieval**
- **D. None of the above**

Correct Answer: A. Chunking

Question No: 36

According to _____, information is remembered in terms of schemas.

- **A. Maslow**
- **B. John Jenkins**
- **C. Bartlett**
- **D. None of the above**

Correct Answer: C. Bartlett

Question No: 37

MCI stands for _____.

- **A. Memory Critical Impairment**
- **B. Memory Coding Impairment**
- **C. Memory Cognitive Impairment**
- **D. None of the above**

Correct Answer: D. None of the above (Correct: Mild Cognitive Impairment)

Question No: 38

A process responsible for a stable and well-maintained state of internal biological balance is called _____.

- A. Motivation
- B. Adaptation
- C. Homeostasis
- D. None of the above

Correct Answer: C. Homeostasis

Question No: 39

Motivation from within to accomplish a goal without external rewards is called _____.

- A. Intrinsic Motivation
- B. Curiosity
- C. Extrinsic Motivation
- D. None of the above

Correct Answer: A. Intrinsic Motivation

Question No: 40

_____ divided emotions into three types: primary, secondary, and derived.

- A. Maslow
- B. Freud
- C. McDougall
- D. None of the above

Correct Answer: C. McDougall

Question No: 41

_____ Memory is a type of sensory memory which stores information coming from the ears.

- A. Iconic
- B. Echoic
- C. Implicit
- D. Semantic

Correct Answer: B. Echoic

Question No: 42

The psychological school of thought that stressed the whole or complete view of a situation was_____.

- **A. Structuralism**
- **B. Functionalism**
- **C. Behaviorism**
- **D. Gestalt**

Correct Answer: D. Gestalt

Question No: 43

Self-actualization is associated with the name of _____.

- **A. Hull**
- **B. Maslow**
- **C. Cannon**
- **D. Freud**

Correct Answer: B. Maslow

Question No: 44

_____of the following perspectives would be associated with free will.

- **A. Behavioral**
- **B. Psychodynamic**
- **C. Biological**
- **D. Humanistic**

Correct Answer: D. Humanistic

Question No: 45

Wilhelm Wundt_____.

- **A. was one of the first psychologists to focus on child development**
- **B. developed the field of school psychology**
- **C. was an influential developmental psychologist**
- **D. set up the first psychological laboratory**

Correct Answer: D. set up the first psychological laboratory

Question No: 46

A psychiatrist has a _____ degree.

- **A. Ph.D.**

- B. Master's degree
- C. Psy.D
- D. MBBS

Correct Answer: D. MBBS

Question No: 47

The behavioral treatment approaches assume that abnormal behavior is_____.

- A. Learned
- B. A function of dysfunctional cognitions
- C. A consequence of restricted growth potential
- D. The result of a biological dysfunction

Correct Answer: A. Learned

Question No: 48

Laws of perceptual organization were proposed by_____.

- A. Functionalism
- B. Structuralism
- C. Gestalt school
- D. Behaviorist school

Correct Answer: C. Gestalt school

Question No: 49

The final step of a scientific investigation is _____.

- A. Analyze data
- B. Collect data
- C. Report the findings
- D. Drawing conclusions

Correct Answer: C. Report the findings

Question No: 50

A _____ psychologist would focus on the study of overt behavior.

- A. Personality
- B. Social
- C. Behavioral
- D. Forensic

Correct Answer: C. Behavioral

Question No: 51

Introspection is a procedure used by _____ to study the mind.

- **A. Functionalists**
- **B. Structuralists**
- **C. Biologists**
- **D. Humanists**

Correct Answer: B. Structuralists

Question No: 52

The _____ perspective holds that abnormal behavior stems from childhood conflicts over opposing wishes regarding sex and aggression.

- **A. Cognitive**
- **B. Humanistic**
- **C. Psychoanalytic**
- **D. Sociocultural**

Correct Answer: C. Psychoanalytic

Question No: 53

J.B. Watson talked about three main emotions: anger, love and _____.

- **A. Disgust**
- **B. Fear**
- **C. Sadness**
- **D. None of the given options**

Correct Answer: B. Fear

Question No: 54

The therapy based upon _____ theory is too time consuming and therefore expensive.

- **A. Psychodynamic**
- **B. Psycho social**
- **C. Trait**
- **D. None of the given options**

Correct Answer: A. Psychodynamic

Question No: 55

TAT is a _____.

- **A. Self Report Inventory**
- **B. Projective Test**
- **C. Perception Test**
- **D. None of the given options**

Correct Answer: B. Projective Test

Question No: 56

According to Freud, dreams reflect unconscious needs, desires, and impulses.

Answer: True

Question No: 57

Allport identified 15 traits that represent basic dimensions of personality.

Answer: False

Question No: 58

Interview is used in the assessment of personality.

Answer: True

Question No: 59

Schizophrenia is a major category of DSM-IV-TR.

Answer: True

Question No: 60

Bipolar Disorder is a combination of Phobia and mania.

Answer: False

Question No: 61

Who among the following is the author of the book "The Origin of Species"?

- **A. Emil Kraepelin**
- **B. Paul Broca**
- **C. Wilhelm Griesinger**
- **D. Charles Darwin**

Correct Answer: D. Charles Darwin

Question No: 62

Which of the following is incorrect about insulin-shock therapy?

- **A. In this therapy, the coma is caused by a reduction in blood sugar level.**
- **B. It has been found effective with schizophrenics, addicts, etc., if used with psychotherapy.**
- **C. It was developed by Paul Broca, a French surgeon and anthropologist.**

- D. It is used to cure psychological disorders by administering insulin.

Correct Answer: C. It was developed by Paul Broca...

*(Correct developer: **Manfred Sakel**)*

Question No: 63

Which of the following can increase the likelihood of occurrence of a behavior?

- A. Extinction
- B. Reinforcement
- C. Punishment
- D. Insight

Correct Answer: B. Reinforcement

Question No: 64

Identify where we stop reinforcement and behavior extinguishes.

- A. Generalization
- B. Extinction
- C. Spontaneous recovery
- D. Shaping

Correct Answer: B. Extinction

Question No: 65

Which law by Thorndike states that responses followed by satisfaction are stamped into an individual, leading to learning?

- A. Law of exercise
- B. Law of effect
- C. Law of insight
- D. Law of belongingness

Correct Answer: B. Law of effect

Question No: 66

Which perspective of psychology focuses on free will, human dignity, and self-reflection?

- A. Humanistic
- B. Behavioral
- C. Gestalt
- D. Psychodynamic

Correct Answer: A. Humanistic

Question No: 67

Which process did Bandura suggest helps humans learn behavior?

- **A. Intention**
- **B. Observation**
- **C. Insight**
- **D. Reinforcement**

Correct Answer: B. Observation (*Observational learning*)

Question No: 68

Fatima uses newspaper records to study crime rates over 20 years. Which method is she using?

- **A. Participant Observation**
- **B. Structured Observation**
- **C. Field experiments**
- **D. Archival data**

Correct Answer: D. Archival data

Question No: 69

A gene that only influences trait expression when paired with an identical gene is called:

- **A. Dominant**
- **B. Mutated**
- **C. Recombinant**
- **D. Recessive**

Correct Answer: D. Recessive

Question No: 70

What is the correct order of Piaget's developmental stages?

- **A. Preoperational → Sensory-motor → Concrete operations → Formal operation**
- **B. Concrete operations → Preoperational → Sensory-motor → Formal operation**
- **C. Sensory-motor → Preoperational → Concrete operations → Formal operation**
- **D. Preoperational → Concrete operations → Sensory-motor → Formal operation**

Correct Answer: C. Sensory-motor → Preoperational → Concrete operations → Formal operation

Question No: 71

Which scan shows real-time biochemical brain activity?

- A. CAT
- B. MRI
- C. EEG
- D. PET

Correct Answer: D. PET (*Positron Emission Tomography*)

Question No: 72

Which statement best describes hormones?

- A. The male gonads
- B. Chemicals in synaptic vesicles affecting the next cell
- C. Chemicals released by endocrine glands into the bloodstream
- D. The female gonads

Correct Answer: C. Chemicals released by endocrine glands...

Question No: 73

What is thyroid enlargement called?

- A. Vitamin deficiency goiter
- B. Calcium deficiency goiter
- C. Protein deficiency goiter
- D. Iodine deficiency goiter

Correct Answer: D. Iodine deficiency goiter

Question No: 74

Which eye part regulates pupil size?

- A. Retina
- B. Sclera
- C. Iris
- D. Lens

Correct Answer: C. Iris

Question No: 75

What is the correct sequence of sound transmission in the ear?

- A. Oval window → Eardrum → Stirrup → Cochlea

- B. Cochlea → Stirrup → Eardrum → Oval window
- C. Stirrup → Eardrum → Oval window → Cochlea
- D. Eardrum → Stirrup → Oval window → Cochlea

Correct Answer: D. Eardrum → Stirrup → Oval window → Cochlea

Question No: 76

Which hearing problem can hearing aids address?

- A. Central deafness
- B. Auditory pathway deafness
- C. Conduction deafness
- D. Sensory-neural deafness

Correct Answer: C. Conduction deafness

Question No: 77

In Watson's experiment, Little Albert feared cotton balls after rat conditioning. This is called:

- A. Stimulus generalization
- B. Extinction
- C. Spontaneous recovery
- D. Higher-order conditioning

Correct Answer: A. Stimulus generalization

78. Who among the followings is known as "father of Greek medicines"?

- A. Socrates
- B. Plato
- C. Aristotle

☒ D. Alcameon

79. Who among the followings gave the concept of Insight?

- A. Max Wertheimer
 - ☒ B. Wolfgang Kohler
 - C. James Rowland Angell
 - D. James Mckeen Cattell
-

80. Who among the followings regarded as the "Father of Medicine"?

- ☒ A. Hippocrates
- B. Kraepelin

- C. Plato
 - D. Socrates
-

81. Who among the followings is the author of the book “The Origin of Species”?

- A. Emil Kraepelin
 - B. Paul Broca
 - C. Wilhelm Griesinger
 - ☒ D. Charles Darwin
-

82. Which of the following is incorrect about insulin-shock therapy?

- A. In this therapy the coma is caused because of a reduction in blood sugar level.
 - B. It has found to be effective with schizophrenics, addicts etc., if used with psychotherapy.
 - ☒ C. It was developed by Paul Broca who was a French surgeon and anthropologist
 - D. It is used to cure psychological disorders by administering insulin.
-

83. Which of the following can increase the likelihood of occurrence of a behavior?

- A. Extinction
 - ☒ B. Reinforcement
 - C. Punishment
 - D. Insight
-

84. Identify where we stop reinforcement and behavior extinguishes.

- A. Generalization
 - ☒ B. Extinction
 - C. Spontaneous recovery
 - D. Shaping
-

85. Which of the following law is given by Thorndike that all responses followed by satisfaction are stamped into an individual and he learns those responses?

- A. Law of exercise
 - ☒ B. Law of effect
 - C. Law of insight
 - D. Law of belongingness
-

86. Which perspective of psychology emerged out of a desire to understand the conscious mind, free will, human dignity, and the capacity for self-reflection and growth?

- ☒ A. Humanistic
 - B. Behavioral
 - C. Gestalt
 - D. Psychodynamic
-

87. Which of the following process is suggested by Bandura that help human behavior to learn?

- A. Intention
 - ☒ B. Observation
 - C. Insight
 - D. Reinforcement
-

88. Fatima is using newspaper records to study the rate of crime during the past 20 years. Which type of method is she utilizing?

- A. Participant Observation
 - B. Structured Observation
 - C. Field experiments
 - ☒ D. Archival data
-

89. Gene that only influences the expression of a trait when paired with an identical gene is known as what?

- A. Dominant
 - B. Mutated
 - C. Recombinant
 - ☒ D. Recessive
-

90. Which of the following is the correct order for Piaget's four stages of development?

- A. Preoperational, sensory-motor, concrete operations, formal operation
 - B. Concrete operations, preoperational, sensory-motor, formal operation
 - ☒ C. Sensory-motor, preoperational, concrete operations, formal operation
 - D. Preoperational, concrete operations, sensory-motor, formal operation
-

91. Which of the following is a scan showing biochemical activity within the brain at any given moment?

- A. CAT
 - B. MRI
 - C. EEG
 - ☒ D. PET
-

92. Which of the following statement best describes “Hormones”?

- A. The male gonads
 - B. Chemicals found in the synaptic vesicles, which when released have an effect on the next cell
 - ☒ C. Chemicals released into the bloodstream by the endocrine glands
 - D. The female gonads
-

93. What do we call thyroid enlargement?

- A. Vitamin deficiency goiter
- B. Calcium deficiency goiter

C. Protein deficiency goiter

☒ D. Iodine deficiency goiter

94. Which part of the eye is a muscle that regulates the size of the pupil?

A. Retina

B. Sclera

☒ C. Iris

D. Lens

95. Which type of hearing problem can be reduced with ordinary hearing aids?

A. Central deafness

B. Auditory pathway deafness

☒ C. Conduction deafness

D. Sensory-neural deafness

96. In Watson's experiment, when little Albert was being conditioned to the fear of a rat, afterwards he used to be afraid of cotton balls as well. This concept is known as what?

☒ A. Stimulus generalization

B. Extinction

C. Spontaneous recovery

D. Higher order conditioning

97. When Pavlov presented the bell (CS) continuously without the presentation of the meat powder (US), the dog's salivation decreased. This process is known as what?

A. Stimulus generalization

B. Spontaneous recovery

☒ C. Extinction

D. Reinforcement

98. A child overcomes her fear of snakes by observing another child repeatedly handle snakes. This is an example of which of the followings?

A. Cognition therapy

B. Systematic desensitization

☒ C. Modeling

D. Contingency contracting

99. Cognitive approach emphasizes on all of the followings EXCEPT:

A. Feelings

B. Thoughts

C. Thinking

☒ D. Genetic makeup
