

**Q.1 Whose theory of emotions basically talked about primary and secondary appraisal?**

- A. Solomon and Corbit
  - B. Richard Lazarus**
  - C. James- Lange
  - D. Magda Arnold
- 

**Q.2 The notion that a stable, well-maintained state of internal biological balance is required for the proper functioning of the body. This refers to what?**

- A. Instinct
  - B. Homeostasis**
  - C. Motive
  - D. Drive
- 

**Q.3 Which of the following is the storehouse for facts and general knowledge about the world e.g., historical facts or scientific formula?**

- A. Procedural memory
  - B. Implicit memory
  - C. Semantic memory**
  - D. Episodic memory
- 

**Q.4 According to Freud, the part that cannot be accessed directly, although impulses, ideas, and feelings may permeate out through other sources e.g. dreams, slips of tongue:**

- A. Preconscious
  - B. Unconscious**
  - C. Sub-conscious
  - D. Conscious
- 

**Q.5 Which one of the following is not the synonym of primary motives?**

- A. Physiological
  - B. Learnt**
  - C. Biological
  - D. Unlearnt
- 

**Q.6 John Jenkins and Karl Dallenbach (1924) were the first ones to experimentally prove the role of \_\_\_\_\_ theory of forgetting.**

- A. Explicit
  - B. Interference**
  - C. Decay
  - D. Repression
-

**Q.7 Which of the following is a rule; if it is applied, ensures the solution to the problem?**

- A. Both heuristics and algorithms
  - B. Heuristics
  - C. Algorithms**
  - D. Logrithm
- 

**Q.8 A rule, if it is applied, ensures the solution to the problem and always accurate is known as:**

- A. Heuristics
  - B. Algorithms**
  - C. Inductive reasoning
  - D. Deductive reasoning
- 

**Q.9 Amnesia, Dementia and Alzheimer's diseases are the disorders of which of the following?**

- A. Motivation
  - B. Learning
  - C. Personality
  - D. Memory**
- 

**Q.10 Tying shoelaces, riding a bicycle, swimming, and hitting a football are examples of \_\_\_\_\_.**

- A. Semantic memory
  - B. Procedural memory**
  - C. Declarative memory
  - D. Episodic memory
-

**Q.1 Cognitive theory given by Magda Arnold with reference to emotion is also known as:**

- A. Opponent-Process Theory
  - B. Parallel Model
  - C. Sequential Model
  - D. Two Factor Theory of Emotions**
- 

**Q.2 In which of the following diseases memory impairment occurs because of brain damage caused by thiamine deficiency and alcoholism?**

- A. Amyotrophic Lateral Sclerosis
  - B. Alzheimer's disease
  - C. Korsakoff's Syndrome**
  - D. Huntington's disease
- 

**Q.3 Which one of the following is not included in bodily changes during emotions?**

- A. Trembling
  - B. Muscle tension
  - C. Liver cancer**
  - D. Weakness or fainting
- 

**Q.4 Which of the following is the capacity to think about certain phenomena in its most typical form?**

- A. Functional fixedness
  - B. Mental sets**
  - C. Creativity
  - D. Reasoning
- 

**Q.5 Which of the following is not one of the steps involved in emotions according to Magda Arnold cognitive theory?**

- A. Motivation**
  - B. Appraisal
  - C. Perception
  - D. Determining emotions
- 

**Q.6 In which of the following need a person tends to achieve something, some object of desire, a goal, or position/status?**

- A. Achievement**
  - B. Need for affiliation
  - C. Curiosity
  - D. Need for appraisal
-

**Q.7 Which of the following theory proposes that emotional experience cannot solely be understood of its own, but understanding the environment must be evaluated?**

- A. Opponent- Process Theory: Solomon and Corbit
  - B. Cognitive Appraisal Theory: Richard Lazarus**
  - C. Cognitive Theory: Magda Arnold
  - D. Activation Theory: Lindsley
- 

**Q.8 Which part of the nervous system arouses us for defensive action?**

- A. Parasympathetic Nervous System
  - B. Sympathetic Nervous System**
  - C. Cerebral cortex
  - D. Limbic system
- 

**Q.9 Emotional wheel belongs to:**

- A. Freud
  - B. Mc Dougall
  - C. Plutchik**
  - D. Watson
- 

**Q.10 Which of the following theories posited that thalamus played the most important role in emotions?**

- A. James- Lange theory of emotions
  - B. Cognitive Labeling Theory
  - C. Schachter- Singer theory of emotions
  - D. Cannon- Bard theory of emotions**
-

**Q.1 The market structure in which there is interdependence among firms is:**

- A. Oligopoly.**
  - B. Perfect competition.
  - C. Monopolistic competition.
  - D. Monopoly.
- 

**Q.2 Which of the following is an example of an information product?**

- A. A bicycle
  - B. A hamburger
  - C. A music album**
  - D. A pair of shoes
- 

**Q.3 Which market structure is characterized by a few major firms dominating the industry?**

- A. Monopolistic competition
  - B. Oligopoly**
  - C. Monopoly
  - D. Perfect competition
- 

**Q.4 In case of monopoly at equilibrium point:**

- A. Price is equal to marginal cost
  - B. Price is less than marginal revenue
  - C. Price is greater than marginal revenue**
  - D. Price is less than marginal cost
- 

**Q.5 In the first-degree price discrimination, prices are determined by:**

- A. The cost of production.
  - B. The willingness to pay of each individual customer.**
  - C. Market competition.
  - D. Government regulations.
- 

**Q.6 What is a characteristic of monopolists' profits in comparison to perfectly competitive firms?**

- A. Monopolists earn subnormal profits
  - B. Both earn equal profit
  - C. Monopolists earn supernormal profits**
  - D. Monopolists earn normal profits
-

**Q.7 For a monopolist, changes in demand will lead to changes in:**

- A. All of the given options.
  - B. Both price and quantity.**
  - C. Output with no change in price.
  - D. Price with no change in output.
- 

**Q.8 In monopolistic competition, there are:**

- A. Many sellers and one buyer
  - B. Many buyers and one seller
  - C. One seller and one buyer
  - D. Many sellers and many buyers**
- 

**Q.9 Combined effects of Russian revolution, hyperinflation and crash of New York stock exchange results in:**

- A. High unemployment**
  - B. Low unemployment
  - C. High consumption
  - D. Low inflation
- 

**Q.10 In macroeconomics, what does the term "Aggregate Demand" (AD) refer to?**

- A. The total spending on all goods and services in an economy at a given price level.**
  - B. The total number of workers in the labor force.
  - C. The total spending by households on consumer goods and services.
  - D. The total output of all goods and services produced in an economy.
- 

**Q.11 Which of the following activity doesn't involve thinking?**

- A. Seeking answers to questions
  - B. Problem solving
  - C. Reflex actions in sudden conditions**
  - D. Finding facts and exploring reality
- 

**Q.12 Which one of the following is not the synonym of primary motives?**

- A. Learnt**
  - B. Biological
  - C. Unlearnt
  - D. Physiological
-

**Q.13 Which of the following is not one of the theories of emotions?**

- A. James-Lange theory of emotions
  - B. Opponent-Process theory
  - C. Cannon-Bard theory of emotions
  - D. Atkinson-Shiffrin model**
- 

**Q.14 Which of the following theory of forgetting states that stored information decays and is disintegrated with the passage of time?**

- A. Explicit
  - B. Decay**
  - C. Repression
  - D. Interference
- 

**Q.15 With regard to the types of concepts; which of the following concept is known, familiar and relatively simple concept?**

- A. Natural**
  - B. Prolonged
  - C. Artificial
  - D. Prototypes
- 

**Q.16 According to which of the following theory, physiological changes create specific sensations and our brain interprets these sensations as different emotions?**

- A. Cannon- Bard Theory of Emotions
  - B. Activation Theory
  - C. Opponent- Process Theory
  - D. James- Lange Theory of Emotions**
- 

**Q.17 All of the followings are included in Vertical thinking EXCEPT:**

- A. Avoids looking for what is "right" or "wrong".**
  - B. Finds what is right: seeks "yes" or "no" justifications
  - C. Seeks continuity
  - D. Tries to find absolutes
- 

**Q.18 Primary motives are also known as:**

- A. Secondary
  - B. Unlearned**
  - C. Learned
  - D. Psychological
-

**Q.19 Which of the following type of deductive thinking is largely influenced by cultural backgrounds of people?**

- A. Driving
  - B. Evaluating syllogisms**
  - C. Cooking
  - D. Stitching
- 

**Q.20 The best analogy for the way long-term memory is conceptualized would be:**

- A. A television
  - B. A revolving door
  - C. A desktop
  - D. A filing cabinet**
-

**Q.1 Which part of the nervous system arouses us for defensive action?**

- A. Sympathetic Nervous System**
- B. Cerebral cortex
- C. Limbic system
- D. Parasympathetic Nervous System

**Q.2 The lowest need in Maslow's hierarchy of needs is:**

- A. Safety needs
- B. Self-actualization
- C. Physiological needs**
- D. Love & Belongingness

**Q.3 Which of the following memory impairment occurs because of brain damage caused by thiamine deficiency and alcoholism?**

- A. Alzheimer's disease
- B. Korsakoff's Syndrome**
- C. Amyotrophic Lateral Sclerosis (ALS)
- D. Huntington's disease (HD)

**Q.4 Which of the following is the ability to use logic, past experience, and learn information for mental processing?**

- A. Reasoning**
- B. Perception
- C. Thinking
- D. Research

**Q.5 Which of the following disease refers to a progressive loss of memory including effect on person's language and recognition of people?**

- A. Alzheimer's disease**
- B. Amyotrophic Lateral Sclerosis (ALS)
- C. Huntington's disease (HD)
- D. Korsakoff's Syndrome

**Q.6 John Jenkins and Karl Dallenbach (1924) were the first ones to experimentally prove the role of \_\_\_\_\_ theory of forgetting.**

- A. Decay
- B. Explicit
- C. Interference**
- D. Repression

**Q.7 Depression, lack of motivation, laziness, agitation, physical and verbal aggressiveness; recent events forgotten; delusions and hallucinations may occur in:**

- A. Amyotrophic Lateral Sclerosis
  - B. Huntington's disease
  - C. Dementia**
  - D. Alzheimer's disease
- 

**Q.8 Which component of emotion refers to how we interpret certain situations or stimulations?**

- A. Physiological
  - B. Intuition
  - C. Behavioral
  - D. Cognitive**
- 

**Q.9 Which of the following is not one of the types of concepts?**

- A. Prototype concepts
  - B. Artificial concepts
  - C. Natural concepts
  - D. Prolonged concepts**
- 

**Q.10 Which of the following is the capacity to think about certain phenomena in its most typical form?**

- A. Reasoning
  - B. Functional fixedness
  - C. Mental sets**
  - D. Creativity
-

**Q.1 Who gave the Opponent- Process Theory of emotions?**

**A. Richard Solomon and John Corbit**

B. Lindsley and Cohen

C. Sigmund Freud

D. Albert and Ellis

---

**Q.2 All of the following are basis of Neo-Freudian's disagreement with Freud EXCEPT:**

A. Their emphasis on the role of society and culture on personality development

B. Freud's idea of the primary importance of sexual urges

C. Their emphasis on the functions of ego, and the control that it had over routine-life activities

**D. The impact of biological variables**

---

**Q.3 Mc Dougall divided "Emotions" into how many types?**

A. One

B. Three

**C. Two**

D. Five

---

**Q.4 Which of the following refers to the problems whose solution depends on the relationship of components so that new construct can be developed?**

A. Arrangement Problems

B. Transformation Problems

C. Creativity problems

**D. Problems of Inducing Structures**

---

**Q.5 Amnesia, Dementia and Alzheimer's diseases are the disorders of which of the following?**

A. Personality

B. Motivation

**C. Memory**

D. Learning

---

**Q.6 Mental Images and concepts are the fundamental elements of:**

**A. Thinking**

B. Behavior

C. Motivation

D. Emotion

---

**Q.7 Which part of the nervous system arouses us for defensive action?**

- A. Limbic system
  - B. Sympathetic Nervous System**
  - C. Cerebral cortex
  - D. Parasympathetic Nervous System
- 

**Q.8 Recall tests are example of which of the following types of memory?**

- A. Implicit memory
  - B. Explicit memory**
  - C. Working memory
  - D. Associative memory
- 

**Q.9 General knowledge, language, and concepts are seen as parts of which of the following?**

- A. Semantic memory
  - B. Episodic memory
  - C. Procedural memories
  - D. Declarative memories**
- 

**Q.10 Which of the following Approach focuses upon the unconscious determinants of personality?**

- A. Cognitive Approach
  - B. Existential Approach
  - C. Behavioral Approach
  - D. Psychodynamic Approach**
-

**Q.1 The best analogy for the way long-term memory is conceptualized would be:**

**A. A filing cabinet**

B. A television

C. A desktop

D. A revolving door

---

**Q.2 All of the followings are the features of Unconscious EXCEPT:**

A. Desires

B. Infantile wishes

**C. Perception**

D. Instinctual drives

---

**Q.3 Primary motives are also known as:**

A. Psychological

**B. Unlearned**

C. Learned

D. Secondary

---

**Q.4 Which part of brain controls positive emotions?**

A. Cerebrum

B. Limbic system

**C. The left hemisphere**

D. The right hemisphere

---

**Q.5 Which of the following posits that our biological/ physiological needs create an aroused or tension producing state that motivates us to fulfill them?**

A. Instinct Approaches

B. Arousal Approaches

**C. Drive-reduction Approaches**

D. Incentive Approaches

---

**Q.6 What is the correct sequence of opponent process theory of Solomon and Corbit?**

**A. Baseline--> State A--> State B--> Baseline**

B. State A--> Baseline--> Baseline--> State B

C. Baseline--> Baseline--> State A--> State B

D. State B--> Baseline--> State A--> Baseline

---

**Q.7 The phenomenon of "Insight" was first introduced by whom?**

- A. Max Wertheimer
  - B. Wolfgang Kohler**
  - C. J.B. Watson
  - D. Kurt Kafka
- 

**Q.8 Secondary motives are also called:**

- A. Biological motives
  - B. Psycho-social motives**
  - C. Unlearnt motives
  - D. Physiological motives
- 

**Q.9 Which of the followings are examples of a concept that is typical and highly representative of a concept?**

- A. Ideas
  - B. Images
  - C. Prototypes**
  - D. Constructs
- 

**Q.10 Which of the following Approach focuses upon the unconscious determinants of personality?**

- A. Existential Approach
  - B. Psychodynamic Approach**
  - C. Cognitive Approach
  - D. Behavioral Approach
-

**Q.1 Mental Images and concepts are the fundamental elements of:**

- A. Motivation
  - B. Thinking**
  - C. Behavior
  - D. Emotion
- 

**Q.2 Amnesia, Dementia and Alzheimer's diseases are the disorders of which of the following?**

- A. Learning
  - B. Motivation
  - C. Memory**
  - D. Personality
- 

**Q.3 Which of the following theories posited that thalamus played the most important role in emotions?**

- A. Schachter- Singer theory of emotions
  - B. Cannon- Bard theory of emotions**
  - C. Cognitive Labeling Theory
  - D. James- Lange theory of emotions
- 

**Q.4 Which branch of psychology studies cognition, related areas and issues?**

- A. Developmental psychology
  - B. Cognitive psychology**
  - C. Experimental psychology
  - D. Thinking psychology
- 

**Q.5 \_\_\_\_\_ is synonymous with short-term memory.**

- A. Shadow memory
  - B. Working memory**
  - C. Secondary memory
  - D. Sensory registers
- 

**Q.6 Cognitive theory given by Magda Arnold with reference to emotion is also known as:**

- A. Parallel Model
  - B. Two Factor Theory of Emotions
  - C. Opponent-Process Theory
  - D. Sequential Model**
-

**Q.7 Which component of emotion deals with psychological arousal that usually accompanies the emotion the body is feeling?**

- A. Behavioral
  - B. Physiological**
  - C. Cognitive
  - D. Intuition
- 

**Q.8 Which of the following two types of memory are classified as types of declarative memory?**

- A. Episodic & Procedural
  - B. Episodic & Semantic**
  - C. Procedural & Associative
  - D. Procedural & Semantic
- 

**Q.9 All of the followings are the types of problems EXCEPT:**

- A. Arrangement problems
  - B. Transformation problems
  - C. Artificial problem**
  - D. Problems of inducing structures
- 

**Q.10 Which one of the following can be categorized as primary/unlearned/ physiological/ biological motives?**

- A. Achievement
  - B. Air**
  - C. Power
  - D. Curiosity
-

**Q.1 Which of the following refers to a detailed and vivid memory that is stored on one occasion and retained for a lifetime e.g. an interview room, an accident, first day at class?**

- A. Implicit memory
  - B. Semantic memory
  - C. Flashbulb memory**
  - D. Procedural memory
- 

**Q.2 Which of the following need based on a desire to grow rather than for meeting a deficiency expressed in the need for self-actualization?**

- A. Psychological needs
  - B. Meta needs**
  - C. Deficiency needs
  - D. Esteem needs
- 

**Q.3 Which of the following theory of forgetting states that stored information decays and is disintegrated with the passage of time?**

- A. Explicit
  - B. Interference
  - C. Decay**
  - D. Repression
- 

**Q.4 All of the following are important for an individual in assessing emotions EXCEPT:**

- A. Dressing**
  - B. Type of association with that person
  - C. Acquaintance with the other person
  - D. Deriving clues from own emotional experiences
- 

**Q.5 Which of the following mediates the link of the self with the outside world?**

- A. Ego**
  - B. Id
  - C. Libido
  - D. Superego
- 

**Q.6 The rate at which food converts into energy and then is expended by the body is known as what?**

- A. Oxytocin
  - B. Metabolism**
  - C. Deuteranopia
  - D. Calcitonin
-

**Q.7 Which of the following is not one of the steps involved in emotions according to Magda Arnold cognitive theory?**

- A. Appraisal
  - B. Determining emotions
  - C. Perception
  - D. Motivation**
- 

**Q.8 Organized bodies of information stored in memory are called what?**

- A. Norms
  - B. Cognitions
  - C. Schema**
  - D. Traits
- 

**Q.9 In which of the following need a person has a tendency to seek impact, control, or influence over others?**

- A. Achievement
  - B. Affiliation
  - C. Power**
  - D. Arousal
- 

**Q.10 The phenomenon of "Insight" was first introduced by whom?**

- A. Wolfgang Kohler**
  - B. Kurt Kafka
  - C. J.B. Watson
  - D. Max Wertheimer
-

**Q.1 Who among the following gave the Activation Theory of emotions?**

- A. James and Lange
  - B. Magda Arnold
  - C. Richard Solomon and John Corbit
  - D. Lindsley**
- 

**Q.2 A rule, if it is applied, ensures the solution to the problem and always accurate is known as:**

- A. Inductive reasoning
  - B. Heuristics
  - C. Algorithms**
  - D. Deductive reasoning
- 

**Q.3 Human behavior is determined by the environment. This was proposed by which of the followings?**

- A. Psychoanalysts**
  - B. Cognitivists
  - C. Humanists
  - D. Behaviorists
- 

**Q.4 The highest need in Maslow's hierarchy of needs is:**

- A. Love & Belongingness
  - B. Safety needs
  - C. Self - Actualization**
  - D. Self-Esteem
- 

**Q.5 Blocking unpleasant/ unacceptable thoughts by pushing them into the unconscious is:**

- A. Projection
  - B. Repression**
  - C. Rationalization
  - D. Denial
- 

**Q.6 Which of the following is the storehouse for facts and general knowledge about the world e.g., historical facts or scientific formula?**

- A. Procedural memory
  - B. Implicit memory
  - C. Episodic memory
  - D. Semantic memory**
-

**Q.7 Mc Dougall divided "Emotions" into three types. Among those, derived emotions are:**

- A. Simple emotions
  - B. Basic emotions
  - C. Mixture of various instincts**
  - D. Learn through experiences
- 

**Q.8 Problems that require understanding and that should be solved in a manner that involves series of methods so that the initial problematic state can be changed into the goal attaining state are known as what?**

- A. Minor problems
  - B. Arrangement Problems
  - C. Transformation Problems**
  - D. Typical problems
- 

**Q.9 Which of the following is a rule of thumb that if used can be effective in finding solutions to problems,- but may not ensure or guarantee this?**

- A. Inductive reasoning
  - B. Algorithms
  - C. Deductive reasoning
  - D. Heuristics**
- 

**Q.10 According to Horney, which of the followings is not among the different styles with which people interact with each other?**

- A. Moving against others
  - B. Moving along others**
  - C. Moving towards others
  - D. Moving away others
-

**Q.1 Memory for information pertaining to life events, episodes and biographical details is known as:**

- A. Procedural memory
  - B. Implicit memory
  - C. Episodic memory**
  - D. Semantic Memory
- 

**Q.2 Which of the following refers to an arousal or motivational tension that provides energy for action or behavior?**

- A. Drive**
  - B. Motive
  - C. Stimulus
  - D. Behavior
- 

**Q.3 Memory, intelligence and language are important aspects of:**

- A. Imagination
  - B. Emotion
  - C. Cognition**
  - D. Motivation
- 

**Q.4 Which of the following is the capacity to think about certain phenomena in its most typical form?**

- A. Mental sets**
  - B. Creativity
  - C. Reasoning
  - D. Functional fixedness
- 

**Q.5 Galvanic skin response; in combination with the respiration and blood pressure is used for:**

- A. Antibodies detection
  - B. Virus detection
  - C. Measuring sugar in blood
  - D. Lie detection**
- 

**Q.6 Attributing one's unwanted thoughts and impulses to others is:**

- A. Rationalization
  - B. Denial
  - C. Sublimation
  - D. Projection**
-

**Q.7 Which of the following operates on the “Reality Principle”?**

- A. Ego**
  - B. Id
  - C. Archetypes
  - D. Super ego
- 

**Q.8 All of the following are basis of Neo-Freudian’s disagreement with Freud EXCEPT:**

- A. The impact of biological variables**
  - B. Freud’s idea of the primary importance of sexual urges
  - C. Their emphasis on the role of society and culture on personality development
  - D. Their emphasis on the functions of ego, and the control that it had over routine-life activities
- 

**Q.9 Problems that require understanding and that should be solved in a manner that involves series of methods so that the initial problematic state can be changed into the goal attaining state are known as what?**

- A. Transformation Problems**
  - B. Arrangement Problems
  - C. Minor problems
  - D. Typical problems
- 

**Q.10 All of the followings are the features of Unconscious EXCEPT:**

- A. Instinctual drives
  - B. Perception**
  - C. Desires
  - D. Infantile wishes
-

**Q.1 All of the followings are the components of emotion EXCEPT:**

- A. Cognitive
  - B. Behavioral
  - C. Intuitional**
  - D. Physiological
- 

**Q.2 Amnesia has \_\_\_\_\_ types.**

- A. 1
  - B. 2**
  - C. 3
  - D. 4
- 

**Q.3 Which of the following part of the brain concerned with hunger and operates on it by regulating its activity?**

- A. Thalamus
  - B. Hypothalamus**
  - C. Pia matter
  - D. Cortex
- 

**Q.4 All of the followings are the types of emotions gave by Mc Dougall EXCEPT:**

- A. Primary
  - B. Secondary
  - C. Derived
  - D. Positive**
- 

**Q.5 Which of the following is the characteristic feature of achievement motive?**

- A. Curiosity
  - B. Need for affiliation
  - C. Need for appraisal
  - D. Achievement**
- 

**Q.6 Which of the following is a desire, instinct or need that speeds up our behavior towards some goal?**

- A. Learning
  - B. Tendency
  - C. Motivation**
  - D. Vulnerability
-

**Q.7 Self-actualization is associated with which of the following psychologists?**

- A. Freud
  - B. Hull
  - C. Cannon
  - D. Maslow**
- 

**Q.8 Primary motives are also known as:**

- A. Unlearned**
  - B. Learned
  - C. Psychological
  - D. Secondary
- 

**Q.9 According to Jung, which of the following is the energy for personal growth and development?**

- A. Libido**
  - B. Neurotic needs
  - C. Superiority complex
  - D. Archetypes
- 

**Q.10 Which of the followings are examples of a concept that is typical and highly representative of a concept?**

- A. Ideas
  - B. Constructs
  - C. Prototypes**
  - D. Images
-

**Q.1 Typically there are three kinds of problems which include all of the following EXCEPT:**

- A. Arrangement problems
  - B. Transformation problems
  - C. Problems of inducing structures
  - D. Agreement problems**
- 

**Q.2 Which of the following is not one of the theories of emotions?**

- A. Cannon-Bard theory of emotions
  - B. Atkinson-Shiffrin model**
  - C. Opponent-Process theory
  - D. James-Lange theory of emotions
- 

**Q.3 Mc Dougall divided "Emotions" into three types. Among those, secondary emotions are:**

- A. Simple emotions
  - B. Mixture of various instincts
  - C. Learn through experiences**
  - D. Basic emotions
- 

**Q.4 Which of the following tests is used to measure achievement motivation of an individual?**

- A. Millon Clinical Multiaxial Inventory (MCMI)
  - B. Thematic Apperception Test (TAT)**
  - C. Minnesota Multiphasic Personality Inventory (MMPI)
  - D. Rotter Incomplete Sentence Blank (RISB)
- 

**Q.5 We may not necessarily understand their logical basis but \_\_\_\_\_ are always accurate.**

- A. Algorithms**
  - B. Deductive reasoning
  - C. Inductive reasoning
  - D. Heuristics
- 

**Q.6 What is the correct sequence of opponent process theory of Solomon and Corbit?**

- A. State A--> Baseline--> Baseline--> State B
  - B. State B--> Baseline--> State A--> Baseline
  - C. Baseline--> Baseline--> State A--> State B
  - D. Baseline--> State A--> State B--> Baseline**
-

**Q.7 J.B.Watson talked about \_\_\_\_\_ main emotions.**

- A. Five
  - B. Two
  - C. One
  - D. Three**
- 

**Q.8 A German psychologist Wolfgang Kohler was one of the first psychologists who observed which of the following phenomenon?**

- A. Deductive reasoning
  - B. Trial and error
  - C. Insight**
  - D. Inductive Thinking
- 

**Q.9 Which of the following refers to an arousal or motivational tension that provides energy for action or behavior?**

- A. Stimulus
  - B. Motive
  - C. Behavior
  - D. Drive**
- 

**Q.10 Which of the following theories posited that thalamus played the most important role in emotions?**

- A. James- Lange theory of emotions
  - B. Cannon- Bard theory of emotions**
  - C. Cognitive Labeling Theory
  - D. Schachter- Singer theory of emotions
-

**Q.1 All of the followings are the features of Unconscious EXCEPT:**

- A. Perception**
  - B. Instinctual drives
  - C. Infantile wishes
  - D. Desires
- 

**Q.2 Which of the following Approach focuses upon the unconscious determinants of personality?**

- A. Psychodynamic Approach**
  - B. Existential Approach
  - C. Cognitive Approach
  - D. Behavioral Approach
- 

**Q.3 Which of the following approach posits that all behaviour is determined i.e., it has a cause that lies in the mind/psyche?**

- A. Oedipus complex
  - B. Psychic determinism**
  - C. Unconsciousness
  - D. Symbolism
- 

**Q.4 Which one of the following is not the primary motive?**

- A. Sleep**
  - B. Achievement
  - C. Air
  - D. Hunger
- 

**Q.5 The notion that motivational state of the organism is understood and explained in terms of positive or negative environmental stimuli BEST connects to:**

- A. Arousal Approaches
  - B. Incentive Approaches**
  - C. Instinct Approaches
  - D. Drive-reduction Approaches
- 

**Q.6 Who gave the Opponent- Process Theory of emotions?**

- A. Lindsley and Cohen
  - B. Sigmund Freud
  - C. Richard Solomon and John Corbit**
  - D. Albert and Ellis
-

**Q.7 Which of the following is the ability to use logic, past experience, and learn information for mental processing?**

- A. Perception
  - B. Thinking
  - C. Research
  - D. Reasoning**
- 

**Q.8 In which type of problem it is not possible to draw immediate and absolute conclusions and solutions of the problem?**

- A. Absolute-defined problem
  - B. Null-defined problem
  - C. Well-defined problem
  - D. ill-defined problem**
- 

**Q.9 Which of the following type of memory can be used as a synonym to procedural memory?**

- A. Semantic memory
  - B. Explicit memory
  - C. Implicit memory**
  - D. Declarative memory
- 

**Q.10 Which of the following is the capacity to think about certain phenomena in its most typical form?**

- A. Functional fixedness
  - B. Mental sets**
  - C. Creativity
  - D. Reasoning
-

**Q.1 According to the humanistic approach, \_\_\_\_\_ is a state of self-fulfillment in which people realize their optimal potential.**

- A. Self-actualization**
  - B. Projection
  - C. Happiness
  - D. Psychic determinism
- 

**Q.2 Identify the year in which DSM IV TR was published.**

- A. 1994
  - B. 2000**
  - C. 2001
  - D. 1990
- 

**Q.3 WAIS-R consists of two major parts. All of the followings are the subscales of verbal scale EXCEPT:**

- A. Information
  - B. Similarities
  - C. Object assembly**
  - D. Arithmetic
- 

**Q.4 Rorschach belongs to which of the following category of test?**

- A. Projective**
  - B. Aptitude
  - C. Intelligence
  - D. Self-Report
- 

**Q.5 While talking about Eysenck's Dimensions of Personality, moody, touchy and anxious people are:**

- A. Neurotics**
  - B. Stable
  - C. Extrovert
  - D. Introvert
- 

**Q.6 According to Rogers, an attitude of total acceptance and respect from another person without any conditions is:**

- A. Unconditional positive regard**
  - B. Projection
  - C. Psychic determinism
  - D. Self-actualization
-

**Q.7 Name the concept when there is a feeling of integration between the self and ideal self.**

- A. Empathy
  - B. Genuineness
  - C. Respect
  - D. Congruence**
- 

**Q.8 Major depressive disorder is also referred to as what?**

- A. Unipolar**
  - B. Polar
  - C. Bipolar
  - D. Tripolar
- 

**Q.9 Who was the first ever to use the term “mental test” for devices used to measure intelligence?**

- A. Francis Galton
  - B. Charles Darwin
  - C. Kurt Koffka
  - D. James McKeen Cattell**
- 

**Q.10 Which of the following refers to an extreme or irrational fear of or aversion to something?**

- A. Stress
  - B. Anxiety
  - C. Depression
  - D. Phobia**
-

**Q.1 One of the most primitive ways of treating abnormality, and freeing the person of the “evil” possession was the use of:**

- A. Trephining
- B. Exorcism**
- C. Insight
- D. Shaman

**Q.2 Which of the following is a technique used in behavior therapy in which a stimulus that generates pleasant feeling is repeatedly paired with the anxiety provoking stimulus in hope to alleviate?**

- A. Flooding and implosive
- B. Aversive therapy
- C. Systematic desensitization**
- D. Free association

**Q.3 Which of the following is the main technique of Carl Rogers?**

- A. Reflection**
- B. Free Association
- C. Token Economy
- D. Double Dispute

**Q.4 Which of the following approach's focused on altering the irrational beliefs into more acceptable way?**

- A. Humanistic approach
- B. Gestalt therapy
- C. Rational-Emotive Behavior Therapy**
- D. Existential Therapy

**Q.5 WAIS-R consists of two major parts. All of the followings are the subscales of verbal scale EXCEPT:**

- A. Object assembly**
- B. Arithmetic
- C. Similarities
- D. Information

**Q.6 Tests in which the subject is first shown an ambiguous stimulus and then he has to describe it or tell a story about it; known as what?**

- A. Interview
- B. Observational Tests
- C. Projective Tests**
- D. Self-Report Test

**Q.7 Who among the following was responsible to differentiate between delusions, hallucination and illusions?**

- A. Plato
  - B. Galen**
  - C. Aristotle
  - D. Asclepiades
- 

**Q.8 All of the following is correct with reference to Freudian's approach to dreams EXCEPT:**

- A. Dreams are of no significant importance**
  - B. Dreams reflect unconscious needs, desires, and impulses
  - C. Dreams are a royal road to unconscious
  - D. Dreams have manifest and latent content
- 

**Q.9 Which of the following states that learned expectations which one is capable of performing a certain behavior, or producing a desired outcome?**

- A. Self-concept
  - B. Self-esteem
  - C. Self-efficacy**
  - D. Self-realization
- 

**Q.10 Childhood experiences are the root cause of mental disorders. This is the basic notion of:**

- A. Medical Perspective
  - B. Psychodynamic Perspective**
  - C. Cognitive Perspective
  - D. Behavioral Perspective
-

**Q.1 Who gave the theory of “humors”?**

- A. Socrates
  - B. Hippocrates**
  - C. Plato
  - D. Kraepelin
- 

**Q.2 Which of the following approach's focused on altering the irrational beliefs into more acceptable way?**

- A. Existential Therapy
  - B. Gestalt therapy
  - C. Rational-Emotive Behavior Therapy**
  - D. Humanistic approach
- 

**Q.3 Which of the following is NOT a behavioral disturbance exhibited by schizophrenics?**

- A. Repetitive movements
  - B. Increased motivation**
  - C. Avolition
  - D. Odd facial expressions
- 

**Q.4 Interpretation of messages involving consideration of the message source, and related general information, instead of considering the message itself refers to:**

- A. Casual route processing
  - B. Peripheral route processing**
  - C. Central route processing
  - D. Phenomenal route processing
- 

**Q.5 Which of the following type of schizophrenia consists of minor signs of schizophrenia after a major and more serious episode?**

- A. Undifferentiated Schizophrenia
  - B. Catatonic Schizophrenia
  - C. Residual schizophrenia**
  - D. Disorganized or hebephrenic type
- 

**Q.6 The study of the agencies under social control that may improve or repair the racial qualities of future generations, either physically or mentally is:**

- A. Eugenics**
  - B. Intelligence
  - C. Heredity
  - D. Determinism
-

**Q.7 Identify the year in which DSM was first published.**

- A. 2000
  - B. 1998
  - C. 1917**
  - D. 1994
- 

**Q.8 Which of the following branch of psychology concerned with how people's thoughts, feelings and actions are affected by others?**

- A. Educational
  - B. Social**
  - C. Industrial
  - D. Health
- 

**Q.9 Who among the following is considered the founder of differential psychology?**

- A. Francis Galton**
  - B. Spearman
  - C. James McKeen Cattell
  - D. Charles Darwin
- 

**Q.10 All of the followings are the symptoms of Panic Disorder EXCEPT:**

- A. Hallucinations**
  - B. Sweating
  - C. Chest pain and discomfort
  - D. Palpitation
-

**Q.1 Schizophrenics live in an isolated world of their own. They are not interested in others and do not socialize. This is:**

- A. Emotional disturbances
  - B. Withdrawal**
  - C. Hallucinations
  - D. Delusions
- 

**Q.2 While talking about Eysenck's Dimensions of Personality, Quiet, passive, and careful people:**

- A. Neurotics
  - B. Stable
  - C. Introvert**
  - D. Extrovert
- 

**Q.3 Tests in which the subject is first shown an ambiguous stimulus and then he has to describe it or tell a story about it; known as what?**

- A. Self-Report Test
  - B. Observational Tests
  - C. Interview
  - D. Projective Tests**
- 

**Q.4 Name the concept when there is a feeling of integration between the self and ideal self.**

- A. Genuineness
  - B. Respect
  - C. Congruence**
  - D. Empathy
- 

**Q.5 All of the followings can be a psychotherapy provider EXCEPT:**

- A. Industrial psychologist**
  - B. Psychiatrists
  - C. Clinical or Psychiatric Social Workers
  - D. Clinical Mental Health Counselors
- 

**Q.6 The explanation of mental disease according to the ancient man was that mental disorders are caused by abnormal activities of which of the following part?**

- A. Soul**
  - B. Hormones
  - C. Glands
  - D. Mind
-

**Q.7 Who among the following is the inventor of fingerprint identification?**

- A. Charles Darwin
  - B. Francis Galton**
  - C. Kurt Koffka
  - D. James McKeen Cattell
- 

**Q.8 Who said that intelligence must be bred, not trained?**

- A. James McKeen Cattell
  - B. Thorndike
  - C. Francis Darwin
  - D. Charles Spearman**
- 

**Q.9 If our initial perception of a person is positive, then we tend to expect that the person has other uniformly positive characteristics too. This is an example of which of the following attribution biases?**

- A. The halo effect**
  - B. Assumed similarity bias
  - C. Societal and environmental biasness
  - D. The fundamental attribution
- 

**Q.10 Major depressive disorder is also referred to as what?**

- A. Polar
  - B. Bipolar
  - C. Unipolar**
  - D. Tripolar
-

**Q.1 According to Rogers, an attitude of total acceptance and respect from another person without any conditions is:**

- A. Projection
- B. Self-actualization
- C. Psychic determinism
- D. Unconditional positive regard**

**Q.2 Jean Charcot wrote an article in a medical journal showing that hypnotism can be used to treat what?**

- A. Amnesia
- B. Schizophrenia
- C. Depression
- D. Hysteria**

**Q.3 People have a tendency to attribute the behavior of other people to dispositional causes; they give less importance to the situational causes. . This is an example of which of the following attribution biases?**

- A. The fundamental attribution error**
- B. Societal and environmental biasness
- C. Assumed similarity bias
- D. The halo effect

**Q.4 Hippocrates maintained that four humors led to four temperaments forming one's personality. All of the followings are temperaments EXCEPT:**

- A. Sanguine
- B. Choleric
- C. Melancholic
- D. Metabolic**

**Q.5 Which of the following can be understood as the typical intelligence level found for people at a given chronological age?**

- A. Emotional Quotient
- B. Mental age
- C. Intelligence Quotient**
- D. Intellectual level

**Q.6 All of the followings can be a psychotherapy provider EXCEPT:**

- A. Clinical or Psychiatric Social Workers
- B. Psychiatrists
- C. Industrial psychologist**
- D. Clinical Mental Health Counselors

**Q.7 Which of the following is a technique used as a written contract between the client and the therapist, specifying all goal-behaviors as well as consequences?**

- A. Token Economy
  - B. Aversive therapy
  - C. Systematic desensitization
  - D. Contingency Contracting**
- 

**Q.8 Which of the following is a technique used to unlearn the unwanted habits by associating it with the unwanted impulses?**

- A. Systematic desensitization
  - B. Aversive technique**
  - C. Contingency contracting
  - D. Token economy
- 

**Q.9 Learning approaches are primarily based upon the principles of all of the followings EXCEPT:**

- A. Operant Conditioning
  - B. Gestalt Principle**
  - C. Cognitive Learning
  - D. Classical Conditioning
- 

**Q.10 When our initial perception about a person is positive then we tend to expect that same person has other positive characteristics too is known as \_\_\_\_\_.**

- A. Social influence
  - B. Positive effect
  - C. Halo effect
  - D. Halo effect**
-

**Q.1 While talking about Eysenck's Dimensions of Personality, moody, touchy and anxious people are:**

**A. Neurotics**

B. Extrovert

C. Introvert

D. Stable

---

**Q.2 All of the following are correct regarding Humanistic approach's emphasis EXCEPT:**

**A. Unconscious determinants of personality**

B. Capacity for personal growth

C. Intrinsic worth

D. Individual's freedom in directing his future

---

**Q.3 According to Allport, a single personality trait directing most of the person's behaviors and activities e.g. affection, affiliation, kindness, greed is known as what?**

A. Central

**B. Cardinal**

C. Primary

D. Secondary

---

**Q.4 In ABC model, 'B' refers to which of the following component?**

**A. Behavioral**

B. Bulimia

C. Bipolar

D. Brief

---

**Q.5 Emotional Intelligence includes all of the following aspects, EXCEPT:**

**A. High motivational level**

B. Self-awareness

C. Empathy

D. Handling relationships

---

**Q.6 A therapeutic strategy which is used for modifying behavior in such a manner that the frequency of desired behavior is increased up to the optimal level, and undesired behavior is brought down to the minimum:**

A. Token Economy

**B. Behavior Modification**

C. Aversive therapy

D. Contingency Contracting

---

**Q.7 Eysenck identified different features of Neurotics. Identify which of the following is not one of them?**

**A. Care-free**

B. Anxious

C. Touchy

D. Moody

---

**Q.8 Which model of psychotherapy consists of Behavior modification and Shaping?**

A. Family and couples

B. Cognitive

**C. Behavioral**

D. Biological

---

**Q.9 Who among the following was responsible to differentiate between delusions, hallucination and illusions?**

**A. Asclepiades**

B. Plato

C. Galen

D. Aristotle

---

**Q.10 Which of the following type of schizophrenia consists of minor signs of schizophrenia after a major and more serious episode?**

**A. Residual schizophrenia**

B. Undifferentiated Schizophrenia

C. Catatonic Schizophrenia

D. Disorganized or hebephrenic type

---

**Q.1 Which one of the following Axis of DSM-IV-TR deals with Psychosocial or environmental problems?**

- A. Axis II
- B. Axis III
- C. Axis I
- D. Axis IV**

**Q.2 “g” factor and “s” factor are key terms of whose intelligence theory?**

- A. Thorndike
- B. Francis Darwin
- C. Charles Spearman**
- D. James McKeen Cattell

**Q.3 Salesmen, politicians, teachers, clinicians and religious leaders exhibit which type of intelligence?**

- A. Social intelligence**
- B. Moral intelligence
- C. Emotional intelligence
- D. Motivational intelligence

**Q.4 Which one of the following Axis of DSM-IV-TR deals with General medical conditions?**  
**III**

- Axis IV** Axis IV
- Axis I** **B. Axis III**
- Axis II** Axis I
- Axis** D. Axis II

**Q.5 According to Freud, the content of dreams the patient describes about the dream and its surface interpretation is:**

- A. Manifest content**
- B. Latent content
- C. Evident content
- D. Plain content

**Q.6 In ABC model, ‘B’ refers to which of the following component?**

- A. Bipolar
- B. Bulimia
- C. Behavioral**
- D. Brief

**Q.7 Identify the year in which DSM IV was published.**

- A. 1987
  - B. 1980
  - C. 1968
  - D. 1994**
- 

**Q.8 Who among the following published the first system of classification of mental diseases?**

- A. Phillip Pinal**
  - B. Charcot
  - C. Griesinger
  - D. Kraepelin
- 

**Q.9 Which of the following branch of psychology concerned with how people's thoughts, feelings and actions are affected by others?**

- A. Health
  - B. Social**
  - C. Educational
  - D. Industrial
- 

**Q.10 The conflict arises when an individual holds two contradictory cognitions i.e., attitudes or thoughts refers to which of the following?**

- A. The halo effect
  - B. Assumed similarity bias
  - C. The fundamental attribution
  - D. Cognitive dissonance**
-

**Q.1 One of the most primitive ways of treating abnormality, and freeing the person of the “evil” possession was the use of:**

- A. Exorcism**
  - B. Trephining
  - C. Shaman
  - D. Insight
- 

**Q.2 Which one is NOT a type of schizophrenia?**

- A. Differentiated type**
  - B. Disorganized type
  - C. Catatonic type
  - D. Paranoid type
- 

**Q.3 All the followings are the symptoms of Stress EXCEPT:**

- A. Sleeplessness
  - B. Hallucinations**
  - C. Headaches
  - D. Twitching and trembling
- 

**Q.4 In Roger’s view, if a therapist has the ability to feel what the client feels, it refers to:**

- A. Congruence
  - B. Empathy**
  - C. Equivalence
  - D. Respect
- 

**Q.5 Hippocrates maintained that four humors led to four temperaments forming one’s personality. All of the followings are temperaments EXCEPT:**

- A. Sanguine
  - B. Melancholic
  - C. Choleric
  - D. Metabolic**
- 

**Q.6 Which of the following is a type of somatoform disorder in which the person experiences a persistent fear of illness, and is preoccupied by health concerns?**

- A. Hysteria
  - B. Hypochondriasis**
  - C. Anxiety
  - D. Conversion disorders
-

**Q.7 Which of the following type of schizophrenia involves a combination of the major symptoms found in other varieties?**

- A. Undifferentiated Schizophrenia**
  - B. Catatonic Schizophrenia
  - C. Disorganized or hebephrenic type
  - D. Paranoid Schizophrenia
- 

**Q.8 Identify the name of height phobia.**

- A. Agoraphobia
  - B. Acrophobia**
  - C. Claustrophobia
  - D. Aerophobia
- 

**Q.9 Schizophrenics hear voices, see people or objects, and/or smell things that others find to be non-existent. This is known as:**

- A. Withdrawal
  - B. Delusions
  - C. Emotional disturbances
  - D. Hallucinations**
- 

**Q.10 Who among the following published the first system of classification of mental diseases?**

- A. Kraepelin
  - B. Griesinger
  - C. Phillip Pinal**
  - D. Charcot
-

**Q.1 Interpretation of messages involving consideration of the message source, and related general information, instead of considering the message itself refers to:**

- A. Peripheral route processing**
  - B. Phenomenal route processing
  - C. Central route processing
  - D. Casual route processing
- 

**Q.2 With reference to development, the period of 17th century is regarded as the age of:**

- A. Shadow
  - B. Darkness**
  - C. Reason
  - D. Dusk
- 

**Q.3 Which of the following is NOT a behavioral disturbance exhibited by schizophrenics?**

- A. Repetitive movements
  - B. Increased motivation**
  - C. Avolition
  - D. Odd facial expressions
- 

**Q.4 Rorschach belongs to which of the following category of test?**

- A. Intelligence
  - B. Projective**
  - C. Aptitude
  - D. Self-Report
- 

**Q.5 Identify the year in which DSM IV TR was published.**

- A. 2001**
  - B. 1994
  - C. 2000
  - D. 1990
- 

**Q.6 WAIS-R consists of two scales: Verbal and Performance. All of the followings are the subscales of Performance scale EXCEPT:**

- A. Object assembly
  - B. Similarities**
  - C. Picture completion
  - D. Digit symbol
-

**Q.7 Tests in which the subject is first shown the stimulus card and then asked as to what the figures represent to them?**

- A. Word association test
  - B. Rorschach inkblot test
  - C. Minnesota multiphasic personality inventory
  - D. Thematic apperception test**
- 

**Q.8 Identify the name of snake phobia.**

- A. Aerophobia
  - B. Claustrophobia
  - C. Agoraphobia
  - D. Ophidiophobia**
- 

**Q.9 The study of the agencies under social control that may improve or repair the racial qualities of future generations, either physically or mentally is:**

- A. Heredity
  - B. Intelligence
  - C. Eugenics**
  - D. Determinism
- 

**Q.10 Aaron Beck formulated the therapy for \_\_\_\_\_ patients.**

- A. Obsessive
  - B. Schizophrenic
  - C. Migraine
  - D. Depression**
-

**Q.1 Who among the following published the first system of classification of mental diseases?**

**A. Phillip Pinal**

B. Charcot

C. Griesinger

D. Kraepelin

---

**Q.2 Which of the following refers to an extreme or irrational fear of or aversion to something?**

A. Anxiety

**B. Phobia**

C. Depression

D. Stress

---

**Q.3 MMPI is an abbreviation of:**

A. Milestone Multiple Professional Inventory

B. Minnesota Multiple Professional Inventory

C. Milestone Multiphase Professional Inventory

**D. Minnesota Multiphasic Personality Inventory**

---

**Q.4 Who among the following Psychologist presented trait theories based upon factor analysis?**

**A. Raymond B. Cattell**

B. Erik Erikson

C. Albert Bandura

D. William McDougall

---

**Q.5 In terms of its causes and the factors affecting its course, bipolar disorder is most similar to which of the following?**

A. Schizophrenia

B. Substance use disorders

**C. Unipolar depression**

D. Panic disorder

---

**Q.6 Which model of psychotherapy consists of Systematic desensitization and contingency management?**

**A. Behavioral**

B. Biological

C. Cognitive

D. Family and couples

---

**Q.7 Which disorder was previously known as “melancholia”?**

- A. Major depression**
  - B. Dissociative fugue
  - C. Dissociative disorder
  - D. Anxiety
- 

**Q.8 With reference to development, the period of 18th century is regarded as the age of:**

- A. Reason
  - B. Shadow
  - C. Darkness
  - D. Enlightenment**
- 

**Q.9 In Roger’s view, if a therapist has the ability to feel what the client feels, it refers to:**

- A. Empathy**
  - B. Respect
  - C. Equivalence
  - D. Congruence
- 

**Q.10 According to Hippocrates, four humors led to four temperaments forming one’s personality. Which of the following is NOT among those?**

- A. Melancholic
  - B. Choleric
  - C. Schizophrenic**
  - D. Sanguine
-

**Q.1 The explanation of mental disease according to the ancient man was that mental disorders are caused by abnormal activities of which of the following part?**

- A. Mind
  - B. Glands
  - C. Hormones
  - D. Soul**
- 

**Q.2 How many divisions APA has?**

- A. 58
  - B. 55
  - C. 57
  - D. 56**
- 

**Q.3 In history, special baths, diet, medication, music, - and pleasant environment were provided to the mental patients in which era?**

- A. Europe
  - B. Ancient times**
  - C. The islamic world
  - D. Middle ages
- 

**Q.4 Who was the first ever to use the term “mental test” for devices used to measure intelligence?**

- A. Charles Darwin
  - B. Kurt Koffka
  - C. James McKeen Cattell**
  - D. Francis Galton
- 

**Q.5 Gardner maintained that humans possess around how many kinds of intelligences?**

- A. 9
  - B. 7
  - C. 10
  - D. 8**
- 

**Q.6 Who among the following gave the three classic categories of traits such as Cardinal, Central and Secondary traits?**

- A. Sigmund Freud
  - B. Erik Erikson
  - C. Gordon Allport**
  - D. Alfred Adler
-

**Q.7 In Rogerian therapy, mirroring of emotional experiences is called:**

- A. Demonstration
  - B. Mirroring
  - C. Reflection**
  - D. Manifestation
- 

**Q.8 Which of the following period lasted from the fall of the Roman Empire in 5th century AD till the 15th century?**

- A. Ancient times
  - B. Europe
  - C. Middle ages**
  - D. The islamic world
- 

**Q.9 Two major dimensions of personality i.e. introversion-extroversion and neuroticism-stability are given by:**

- A. Abraham Maslow
  - B. Gordon Allport
  - C. Raymond Cattell
  - D. Hans Eysenck**
- 

**Q.10 Who defined intelligence as the capacity to understand the world, think rationally and use resources effectively when faced with challenges?**

- A. Watson
  - B. Woodworth**
  - C. Feldman
  - D. Freud
-

**Q.1 In Roger's view, if a therapist shows genuineness, honesty with the client, it refers to:**

- A. Equivalence
  - B. Congruence**
  - C. Respect
  - D. Empathy
- 

**Q.2 Practicing an intelligence test will improve which of the following?**

- A. Your IQ test score
  - B. Your intelligence
  - C. Your ability to a specific intelligence**
  - D. Your general level of ability
- 

**Q.3 Which of the following states that learned expectations which one is capable of performing a certain behavior, or producing a desired outcome?**

- A. Self-efficacy**
  - B. Self-esteem
  - C. Self-concept
  - D. Self-realization
- 

**Q.4 Which of the following is the main technique of Carl Rogers?**

- A. Free Association
  - B. Reflection**
  - C. Double Dispute
  - D. Token Economy
- 

**Q.5 Who among the following gave the three classic categories of traits such as Cardinal, Central and Secondary traits?**

- A. Sigmund Freud
  - B. Alfred Adler
  - C. Erik Erikson**
  - D. Gordon Allport
- 

**Q.6 How many divisions APA has?**

- A. 55
  - B. 56
  - C. 58
  - D. 57**
-

**Q.7 Who was the first to develop formal measure of intelligence in 1905?**

- A. Sternberg & Russel
  - B. Coles & Hass
  - C. Stanford & Binet
  - D. Binet & Simon**
- 

**Q.8 Thorndike divided intelligence into three main divisions. Which of the following is not one of them?**

- A. Social intelligence
  - B. Concrete intelligence
  - C. Fluid intelligence**
  - D. Abstract intelligence
- 

**Q.9 Schizophrenics hear voices, see people or objects, and/or smell things that others find to be non-existent. This is known as:**

- A. Delusions
  - B. Hallucinations**
  - C. Emotional disturbances
  - D. Withdrawal
- 

**Q.10 Which one of the following Axis of DSM-IV-TR deals with Psychosocial or environmental problems?**

- A. Axis I
  - B. Axis III
  - C. Axis II
  - D. Axis IV**
-
