MGT402 (Mega File)

Mid Term (Live Quiz)

PAID VU LMS HANDLING by Mam Mehwish

03184148783

Past Papers for Mids./Finals are also Available

1. Budgeted variable overhead Rs 90,000; Budgeted activity level 30,000 direct labor hours; Fixed factory overhead cost Rs. 60,000; Actual activity level 35,000 direct labor hours; Actual variable FOH cost Rs. 120,000. Fixed overhead rate = ?
 - ☐ Rs. 5 per direct labor hour
 - ☒ **Rs. 2 per direct labor hour ✓**
 - ☐ Rs. 3 per direct labor hour
 - ☐ None of the given options

2. Which of the following cost(s) is/are included in Factory Overhead cost?
 - ☐ Salaries of Factory Clerk
 - ☐ Electricity bill of factory
 - ☐ Factory Rent
 - ☒ **All of the given ✓**

3. Overtime that is necessary in order to fulfill the customer order is called:
 - ☐ Avoidable overtime
 - ☐ Flex time
 - ☒ **Premium Overtime ✓**
 - ☐ Unavoidable overtime

4. Suppose that a worker is paid Rs. 100 per hour and he has spent 200 hours to manufacture 250 pieces during a particular month. Keeping in view the time-based wage system, total wages of worker would be:

- ☐ Rs. 25000
- ☒ Rs. 20,000 ✓
- ☐ None of the given options

-
5. Which of the following formula is used to compute gross wages under Halsey Premium Plan?

- ☒ Gross Wages = (Time worked x wage rate) + % (Time saved x wage rate) ✓
- ☐ Gross Wages = (Time saved x wage rate) + % (Time saved x wage rate)
- ☐ Gross Wages = (Time worked x wage rate) - % (Time saved x wage rate)
- ☐ Gross Wages = (Time saved x wage rate) + % (Time saved x wage rate)

-
6. All of the following are example(s) of labor turnover EXCEPT:

- ☐ Workers appointed against the vacancy caused due to discharge or quitting of the organization
- ☒ Workers employed under the expansion schemes of the company ✓
- ☐ The total change in the composition of labor force
- ☐ Workers retrenched

-
7. In case of decreasing volume production level where predetermined FOH rate is not applied, the cost per unit expected to:

- ☐ Remain unchanged for fixed cost and increase for variable cost
- ☐ Decrease for both fixed and variable costs
- ☐ Increase for fixed cost and decrease for variable cost
- ☒ Increase for fixed cost and remain unchanged for variable cost ✓

-
8. If labor force is satisfied with their wages, it may ultimately leads to:

- ☐ Increased efficiency

- Reduced labor and overhead costs
- Increased production and productivity
- **All of the given options ✓**

9. Which of the following is **CORRECT** to compute labor turnover rate by using Separation method?

- Number of workers replaced during the period + Average number of workers during the period
- **(Number of separations in a period + Average number of workers in a period) x 100 ✓**
- $\{[(\text{Number of separations} + \text{number of replacement}) + \text{Average number of workers during the period}] \times 100\}$
- None of the given options

10. Through which of the following method, **FOH** absorption rate is calculated?

- Estimated FOH Cost/Prime Cost
- Estimated FOH Cost/Direct labor hours
- All of the given options
- **Estimated FOH Cost/Direct labor hours ✓**

1. **Cost of Goods Manufactured** can be calculated as follows:

- Total factory Cost @ Less Opening Work in process inventory Add Closing Work in process inventory
- Total factory Cost Less Opening Work in process inventory Less Closing Work in process inventory
- **Total factory Cost ✓**
- Less Closing Work in process inventory
- Total factory Cost Add Opening Work in process inventory Add Closing Work in process inventory

2. According to IASB framework, Financial statements exhibit to its users the:

- ☐ Financial position
- ☐ Cash inflow and outflow analysis
- ☒ All of the given options ✓
- ☐ Financial performance

3. Which of the following is true for total factory cost?

- ☐ Total factory cost = prime cost + conversion cost + FOH
- ☒ Total factory cost = prime cost + conversion cost ✓
- ☐ Total factory cost = prime cost + FOH
- ☐ Total factory cost = conversion cost + FOH

4. Cost of goods sold = Rs. 300,000 Beginning inventory = Rs. 30,000 Ending inventory = Rs. 40,000 Number of days in a year = 360 Inventory holding period = ?

- ☒ 42 days ✓
- ☐ 10 days
- ☐ 4 days

5. If opening inventory of material is Rs.20,000 and closing inventory is Rs. 40,000. The Average inventory amount will be:

- ☐ Rs. 20,000
- ☒ Rs. 30,000 ✓
- ☐ Rs. 10,000

6. Where the applied FOH cost is greater than the actual FOH cost it is:

- ☐ Normal variance
- ☐ Budgeted variance
- ☐ Unfavorable variance
- ☒ Favorable variance ✓

7. Cost of goods sold can be calculated as follows:

- ☒ Cost of goods manufactured Add Opening finished goods inventory Less Closing finished goods inventory ✓

- Cost of goods manufactured Less Opening finished goods inventory Add Closing finished goods inventory
- Cost of goods manufactured
- Less Closing finished goods inventory
- Cost of goods manufactured Add Opening finished goods inventory Add Closing finished goods inventory

8. One of the major issues with LIFO method is that:

- It understates the value of ending inventory ✓
- It overstates the value of ending inventory
- It understates the value of cost of goods sold
- It overstates the value of gross profit

9. Which of the following would be deducted from cost of goods to be manufactured to compute cost of goods manufactured?

- Raw material closing stock
- Work in process opening inventory
- Raw material opening stock
- Work in process closing inventory ✓

10. Equity Statement is also known as:

- Cash Flows Statement
- Statement of changes in Equity ✓
- Bank statement
- Income Statement

1. A loss by theft is an example of:

- ✗ Incremental loss
 - ✗ Normal loss
 - ✗ Differential loss
 - ✓ Abnormal loss
-

2. A high inventory turnover may indicate:

- ☐ A high risk of stock-outs
 - ☐ All of the given options
 - ☒ Better liquidity
 - ☒ An efficient use of the investment in inventory
-

3. Cost of goods sold can be calculated as follows:

- ☐ Cost of goods manufactured
 - ☐ Less Opening finished goods inventory Add Closing finished goods inventory
 - ☒ Cost of goods manufactured Less Opening finished goods inventory Less Closing finished goods inventory
 - ☐ Cost of goods manufactured Add Closing finished goods inventory
 - ☐ Cost of goods manufactured Add Opening finished goods inventory Less Closing finished goods inventory
-

4. Direct Material used + Direct labor + Factory overhead Cost=?

- ☒ Total factory cost
 - ☐ Conversion cost
 - ☐ Prime cost
 - ☐ Indirect material used
-

5. Net sales = Sales less:

- ☒ Sales returns & allowances and sales discounts
 - ☐ Sales discounts only
 - ☐ Sales returns & allowances only
 - ☐ Sales returns only
-

6. EOQ is a point where:

- ☐ Total cost is maximum
 - ☐ Ordering cost is lesser than the carrying cost
 - ☒ Ordering cost is equal to carrying cost
 - ☐ Ordering cost is higher than carrying cost
-

7. Which of the following best describes the manufacturing costs?

- ☐ Direct materials and direct labor
 - ☒ Direct materials, direct labor and factory overhead
 - ☐ Direct labor and factory overhead
 - ☐ Direct materials, direct labor, factory overhead, and administrative overhead
-

8. What is entry if purchases are made on credit under periodic inventory system?

- ☐ Accounts Payable Inventory
 - ☐ Cash Inventory
 - ☒ Purchases Accounts Payable
 - ☐ Cash
-

9. Under/Over applied FOH cost can be adjusted in which of the following:

- ☐ Net Profit
 - ☒ Cost of Goods sold
 - ☐ All of given options
 - ☐ Entire Production
-

10. Which of the following best describes Sunk cost?

- ☐ The cost incurred at the time of entering into the transaction.
- ☐ The value of a benefit sacrificed in favor of an alternative.

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- ☒ The cost incurred in past but cannot be retrieved in future.
- ☐ The cost incurred in manufacturing goods or rendering services which ultimately becomes part of inventory.
