CURRENT MCQS OF BT301

1. *Nuclein was discovered in ……. 1869*
2. *Types of ribonucelotides are …….4 types (A, G, C, T))*
3. *RNA……. IS single stranded when it just formed from DNA?*
4. *Human genome size is …….3 billion*
5. *One complete turn of DNA encodes ….. One amino acid*
6. *southern blotting technique is used to ……..Detect DNA*
7. *There are at least …..4 systems …. Restriction modification system . (RM)*
8. *Hydrogen……. Bond exists between nitrogenous base and pentose sugar.*
9. *pawlling and corey predicted a second types of secondary structure which they called …Betasheet*
10. *Virus's is composed of ……DNA/RNA & protein coat*
11. *Small fragment of DNA …….Polyacrylamides*
12. *western blotting detect …….Protein*
13. *we sequencing the genome ……..Identity, location, regulating*
14. *Genome research help for ……Agriculture , bioprocessing, DNA forensic*
15. *mitochondria gene are in human cell ……13*
16. *In human bout ….. gene while in bacteria ……./23000 & 2000 respectively*
17. *nucleotide size of minisatellites …… and microstallites ,,,,,,,,, 1-12bp & 12-500bp*
18. *Plasmid that do not carry (tra gene) ……Non- reduced*
19. *The number & size of fragments done by restriction enzyme depends onTarget site of DNA*
20. *mainly …3…… method are used for joining DNA in vitro*
21. *pSC 101 contain ……..Tetracycline resistance*
22. In E-coli each super coiled loop have average length of……. 10-20 kbp
23. Highly condensed chromatin is known as ……..Heterochromatin
24. LTR consist of …….. Bp 250-600bp

Join VU BIO ANIMALS

25. ..... Bacillus subtilis ..... Is a particularly attractive alternative cloning host .

26.strain identification is written as .....EcoK

27.Plasmid don't carry .....Two genes

28.DNA bind with histone to form.....Stable structure

29.Capsid is made up.....Protein called proteomers

30.One complete turn of DNA is ...Duble helix

31.Nuclein was discovered by .....Friedrich Miescher (1844-1895)

32.LTR consist of .....Two sub classes (ltr &non ltr)

33. Human genome consists of 23 pairs. base pairs

34.A probe is labeled with.....Reporter group
