Select the correct option:

a) Watson & Crick

b) Louis Pasteur

c) Edward Jenner

d) Alexander Fleming

Correct Answer: b) Louis Pasteur

5. An informal term for a DNA microarray, referring to the small size of typical microarrays is called_____.

Select the correct option:

a) Transponder

b) None of the given

c) DNA Chip

d) Foot printing

Correct Answer: c) DNA Chip

6. Human embryos reach the blastocyst stage 4–5 days post fertilization, at which time they consist of _____ cells.

Select the correct option:

a) 50-150

b) 5-15

c) 150-500

d) 200-250

Correct Answer: a) 50-150

7. More than ……. different types of antibiotics have been produced with the help of biotechnology.

Select the correct option:

a) All of the given

b) 300

c) 500

d) 200

Correct Answer: d) 200

8. Vaccines are classified into prophylactic and therapeutic based on.....

Select the correct option:

a) None of the given

b) Application

c) Characteristics and Application

d) Characteristics

Correct Answer: b) Application

9. The nano materials are basically smaller than _____of a micrometer in at least one dimension.

Select the correct option:

a) 1/6th

b) 1/10th

c) 1/1000th

d) 1/100th

Correct Answer: c) 1/10th

10. Which of the following techniques involves the use of fatty bubble as a transport vehicle?

Select the correct option:

a) Centrosome

b) None of the given

c) Transposons

d) Liposomes

Correct Answer: d) Liposomes
