Bt_401

M.c.q ziada num.and years.thy

Long qustn wohi impact of climate wala..

Objectives of CBD

Application.of cryopreservation

Three botanical gardens

Quarntine principle

Dna bank.

Processing of sample.in.Dna bank

Mcqs Bt401

1-ABS means

2-number of himaliyan brown bear

3-antibiotics inhibit growth of microbes by_____

4-number of snow leopard in Pakistan

5-Phenylketonuria is due to_____

6-mating process in which mating is not closer than to half sisters n brothers

7-Coral Reefs provide home to _____ % marine animals

8-Crustacean migrate for_____

9-for cryopreservatio,temperature used for liquid nitrogen_____

10-chemicals used as cryoprotectants____

11-WCPA stands for _____

12-FAO stands for_____

13-OHSS stands for_____

14-National Park cover area of_____

15-bahawalpur national parks has area_____acres

16-taunsa and chashma barrage declared reserved for wildlife by_____punjab govt.

17-which specie reintroduced in lal suhanra national park_____

18-which encourage the conservation of agro & aquatic biodiversity _____

19-category VI is not about _____

20-Ramsar convention came into action in _____

21-Ramsar conservation sites in Pakistan_____

22-total endangered plant n animals species_____

23-About _____billion species are considered extinct

24-cheap way of germplasm store_____(genes bank,dna bank,tissue culture)

25-earthworms ants and termites are_____

26-which organism maintain the structure of soil

27-Pakistan wildlife quarantine came into existence in _____(kuch is

tara tha)

28-CBD established in _____(kuch asy tha)

29-world first publication on fgr presented in _____(2014,15 or 12) is tara tha kuch

30-world wildlife conservation act passed in _____(like this)

Bt401 (2:30pm)

1-how viability can be calculated in cryopreservation

2-Advantages of Tissue culture

3-Forest genetic resources

4-Who is responsible for botanical garden

5-Objectives of CBD

6-Name of physical growth limitations in median term strage

7-Extreme weather effect on invertebrate genetic resources

8-limitations of cryopreservation

9-5 marks question related FGR

10-Effect of climate change on FGR

Bt401

Mission of Ramsar convention (2)

How can we calculate the viability of crypreservation technique (2)

Are covered by cartagona protocol? (3)

Primary objective of catagory VI? (2)

What are three pillars of Ramsar Convention? 5

Why forest genetic resources matter? (5)

Discuss the impact of climate change on FGR. Also discuss how this changing climate

effect organism which is associated with trees? (10)

MY paper.Bt 401 recent papers 23 feb2019 Time:8 am

midterm sylalbus m sy 13 mcqs thy..Final k sart syllabus m sy mcqs thy..

Q.1.Impacts of climate change on FGR..10 marks

Q.2.Link between climate change and botanical garden.5 marks

Q.3.Three pillars of ramsar site.5 marks

Q.4.define strict nature reserve.2 marks

Q.5.Biodiversity of habitate- species managemt area.3 marks

Q.6.Define phenotypic plasticity.2 marks

Q.7. Pakistan terrestrial water and marritime zone act.5 marsk

Q.8.Different variations.3 marks

Bt401

Write the impact of climate change on FGR also discuss the effect of

climate change on organism (10)

Effect of weather on invertebrates (5)

Features of habitat species management area (5)

Different variation of gene variation (3)

Name of physical growth limitations in median term storage (3)

Objective of category 6(3)

Phenotypic plasticity (2)

Game species (2)

Name of second largest national park (2)

bt401 8:00 am 23 feb

mcqs mostly from mid and final starting portion

1.role of earthworm in soil 2

2.who is responsible for botanical garden 3

3.what is legislation 2

4.effect of climate change on invertebrate genetic resource 5

5.purpose of CBD 5

6. purpose of botanical garden preservation 5

7.impct of climate chnge on FGR and also organisms related to them 10
