Today's paper psyp610

Define obesity.

Biological system k 3 characteristics.

Food intake sy related long tha.

Thalamus wla long tha.

Brain k 3 parts k subparts sy related tha question.

Androgen ko describe krna tha

PSYP610

2:30 pm

Mcqs---

Quiz files se 9 ya 10 mcqs aye. Baqi handouts se the.

Short questions---

✓Write a note on obesity.

✓Define alpha and beta receptors.

✓What are the functions of the frontal lobe of brain.

✓What is cell soma?

✓Explain biological rhythm.

✓What do you mean by cell proliferation?

Long questions---

✓Explain digital code and analog code.

✓Explain any two behaviors affected by 5TH.

✓Describe the functions of hypothalamus.

✓Explain what areas of brain are involved in speech production and language comprehension.

PsyP610

31st July

MCQS were from the handout.

Short Questions:

Is dopaminergic is linked with depression? How.

Auditory perception Agonsis.

Neurotransmitter vs neurohormone.

ACH

Long Questions:

Dopamine is linked with schizophrenia? Explain briefly.

Occipital lobe and temporal lobe function.

Dyslexia in detail.

Dopamine

Acetylene

Serotonin

Ki synthesization

How neurons develop across the mind and other visual auditory systems

Parts of mind and their character

These are important from neurochemical and neuroanatomical perspective.

Others are somewhat easy compared to them..

Psyp610 ... Final term ... 31-07-24 ... 8 am

Mcqs were conceptual all from handouts not a single from files

Short questions

1. Do neurons regenerate after dying off ?
2. What is cell soma
3. What do you know about hallucinogens
4. Illustrate cellular dehydration
5. How many types of neurochemical
- 6.

Long questions

1. Write 5 influences on brain development
2. What is location and function of cingulate gyrus
3. 2 behavior changes due to 5HT
4. What do you know about biological systems and memory

Today PPR of psyp610

*MCQS from handouts

*Part's of brain

*How the multiplication of cell stop's

* Brief note on pons

* Is depressing is linked with noradrenaline

* Role of dopamine

* Are Morphin and heroine is beneficial to cure physical pain

* Note on androgen hormone

* Note on obesity

* Are anorexian Nervosa and bulimia are associated to Brain?

Overall PPR was easy

Psyp610

Date 29/7/24

Time 8::00

Quaiz Kuch 4sy 5 files sy baqi handouts sy thay

Short question

1. What are cell migration?
2. Pain sensitivity increase ?
3. How the part of brain joint of the hemisphere?
4. What is the role of dopamine ?

Long question

1. Superior or inferior structure?
 2. Explain the Brain function?
 3. Where are the Noradrenergic neurons located?
 4. Ahmad Aik larka hai us ka car accident howa hai wo sab kuch bhool chuka hai is ko kon ki disorder hai wo btay or explain kary or treatment suggest kary
- Galvanometer is used to measure which of the following

Options are:

Blood pressure

Temperature

Heartbeat

Skin conductance

Short

3 receptors of glutamate

Topographic gradient hypothesis

Principle of equipotentiality

Cingulate gyrus it's location and it's function

Dopamine and schizophrenia

Long:

5 serotonergic pathways

3 hypothesis of destination of migration of cells

Dyslexia

Telencephalon

Today's PSYp610 paper 8:00am

MCQ's 30% file sy bqi handouts sy

S/Q

three kinds of glutamate

short note on sleep disorder

short note on frontal lobe

depolarization or hyperpolarization m diff

L/Q

aik scenario tha disorder identify or explain krni krna tha

estrogen important for human development

how drugs affect the pathway of neurotransmitters

Psyp610

27 July 2024.(08:00)

Short questions.

01 . 3 characteristics of axonal transmission.

2. characteristics of biological rhythm.

3 .which part of brain make the junction between left and right hemisphere. Also describe its function.

4 .3 pathways of dopamine and their functions.

Baki bhool gya.

Long questions.

01 . Aphasia is common in western countries as compared to China. Which factor hinder aphasia in China.

2 . Explain aphasia.

3 . Describe functions of 5HT.

4 . The development of myelin in axonal and dendrites in the developing brain.

Mcqs buhat tough ty files mn sy koi koi ta bki ajeeb sy ty.

Psyp610

Mera mcqs sary YouTube pr Jo files he final ki un me se aye thy...un videos me mistake b hai thori thori ..is liye handouts prepare krly ya confirm krly Sahi options..

Questions long me biological rhythm ka topic tha...

Language disorder knsa hota hai uspr scenario diya tha k identify kren..

31 to 37 chp se Mera paper aya tha Sara..long and short..

Acetylcholine k 2 receptor k Naam discuss kren..

Thalamus long me tha..

What is Cell soma define briefly..

D/f between neurohormones and Neurotransmitter..

..why drugs are interactive with NE..

Psy610

22 July 6:30

About ten mcqs from files.

Questions :

1= discuss sleep disorders

2: what is cell soma

3: is NA linked with depression.

4: is our internal clock biologically determined or we determine internally.

5: discuss thyroid deficit syndrome cynicte

Psy610

Pre post synaptic and synaptic cleft main Sy a rhy

Aik long last chapter Sy aya which factor regulate food intake

Alpha beta receptors

Brain ovoids

Stages of brain development

Dopamine

Aur speak disorder ka aik scenrio tha

Psy610

22 July, (2:30 pm)

Mcqs mostly from files

Questions:

1. 3 receptors of glutamate
2. Difference between concurrent family therapy & collaborative family therapy
3. Features of axonal transmission
4. Layers of brain
5. Aphasia is common in western countries as compared to China. Why? Factor that hinders aphasia in china
6. Name 2 parts of cerebral cortex. + Their significance
