MID TERM QUIZ

Psy405 Quize No.01

Karen Horney wrote a book entitled:

The Psychopathology of Everyday Life

The Psychological Types

Interpretation of Dreams

The Neurotic Personality of our Time

According to _____, when you dream of an event and the event takes place, this is called synchronicity.

Abraham Maslow

Albert Bandura

Cattell **Carl Jung**

Evaluate which is the second law of thermo-dynamics, states that there is tendency towards equalization of energy within a system.

Principle of Equivalence

Principles of Opposites

Principle of Entropy

Principle of proximity

Maslow belongs to which of the following approach?

Psychodynamic

Dispositional

Mishii Brave

Behavioral

Humanistic

Who are usually labeled as self-centered or book worms and preferring indoor activities?

Extroverts

Social animal

Introverts

Cynicism

Which specialists are most likely to prescribe a drug for the treatment of a psychological disorder?

Developmental psychologists

Personality psychologists

Clinical psychologists

Psychiatrists

Which of the following concept was given by Adler, stands for guiding self ideal?

Social interest

Fictional finalism

Superiority complex

Archetypes

According to Horney, when child is abused or rejected by his/her parents, which one of the followings develops?

Psychotic behavior

Neurotic behavior

Depression

Autism

According to Freud, which principle governs the ego?

Pleasure

Reality

Primary

Oedipal

Which part of the mind is below the conscious mind that contains information that we have learned but are not thinking about right now?

Conscious

Preconscious

Unconscious

Archetype

PSY405 Quize.01

Tiny branches connected to the cell body are called what?

Dendrites

Synapse

Terminal buttons

Neural branches

Two solid neurons are connected with each other by a "fluid bridge" known as which of the following?

Axon

ganglia

synapse

Neurotransmitters*

Which of following help us to understand that where an object ends and other starts. Delay detectors

Media detectors

Edge detectors

Threshold detector

The heart of the Cognitive Psychology lies in its _____.

Experimentation

Books

New terminologies

Unique concepts

Who devised the term "iconic memory" for short term visual memory?

Barnet

Sperling

Neisser

Mishii Brave

Triesman

Attention is a perfect example of a cognitive psychology area.

According to Alfred Adler, if someone thinks that he/she can write a good book and will be famous, it refers to which of the followings?

- Social interest
- Mistaken styles of life
- **Fictional finalism**
- Creative self

During which stage of development, the Oedipal and Electra complex takes place?

- The Latency Period
- The Anal Stage
- The Oral Stage
- **The Phallic Stage**

Identify which of the following research has forced a reevaluation of the generalizability of psychology finding from one culture or/and subculture to another.

- Naturalistic research
- Experimental research
- Case study
- **Cross cultural research**

Any form of research that examines unconscious mental processes or self-defensive thought, refers to which of the followings?

- Humanistic
- Cognitive
- Behavioral
- **Psychoanalytic**

Mishii Brave

Mishii Brave

In psychological assessment, which activity provides an opportunity to ask people for their own description of their problems or personality?

- Rating scales
- **Interview**
- Behavioral coding system
- Observational method

According to Freud, which principle governs the ego?

- Pleasure
- **Reality**
- Primary
- Oedipal

Which of the following type of person focus over here is to dominate and rule people and to suppress them?

- **The ruling dominant type**
- The getting leaning type
- The avoiding type
- Social useful type
-

According to Alfred Adler, if a person concentrates on fulfilling his personal needs and ignores the needs of others, and the society then he suffers from _____.

- Organ inferiority
- Cynicism
- Externalization
- **Superiority complex**

Which of the following is the psychological theme of the oral stage?

- Betrayal
- **Dependency**
- Obedience
- Self-control

Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

- Anima
- Ego

Mishii Brave

- Shadow
- **Persona**

According to Adler, which one of the followings is an innate need of all human to live in harmony, peace and friendship with others and to make a perfect society?

- Causality
- Mistaken life style
- **Social interest**
- Elusiveness

According to Carl Jung, when you dream of an event and the event takes place, this is called meaningful coincidence, named as _____.

- **Synchronicity**
- Mistaken life style
- Arbitrary rightness
- Causality

According to Freud, when child feels that his/her ego wouldn't able to control the sexual impulses or aggressive desires, which kind of anxiety child faces?

- Realistic
- **Neurotic**
- Moral
- Social

Someone who believes that genes, physiology, and brain anatomy are greatly related to one's personality, believes in which psychological perspective?

- **Biological**
- Humanitarian
- Psychoanalytical
- Behavioral

Identify which of the following research has forced a reevaluation of the generalizability of psychology finding from one culture or/and subculture to another.

- Naturalistic research

Mishii Brave

- Experimental research
- Case study
- **Cross cultural research**

Identify which of the following statement truly describes the concept of Counter transference?

- **Is the therapist's emotional reaction to the patient**
- Can give useful information about the emotional state of the patient
- Should be explained to the patient
- Is a reason why therapist should have his own analysis

Who are usually labeled as self-centered or book worms and preferring indoor activities?

Extroverts

- Social animal
- **Introverts**
- Cynicism

Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

Anima

- Ego
- Shadow
- **Persona**

Which of the following procedure involves systematic observation of an individual's behavior which tells us how people think, feel and how these actions might contribute to explain their problems?

- Interview
- **Mental State Examination**
- Rating ScalePersonality Inventorie
- Personality Inventorie

According to Adler, which of the following type of person keeps away failure by never attempting anything at all?

- The ruling dominant type
- The getting leaning type
- **The avoiding type**
- Social useful type

PSY405 - PERSONALITY PSYCHOLOGY

QUIZE NO. 02

Q.01 Who focused on the ways in which internal cognitive and motivational processes influence and cause behavior

- Gordon Allport
- Sigmund Freud
- Carl Rogers
- J. B. Watson

Q.02 Kelly's theory is phenomenological it focuses on which of the following frame of references of the individual?

- External
- internal
- Environmental
- social

Q.03 Which of the followings was Gordon Allport's first book?

- Cognitions: A Psychological Explanation
- Personality: A Psychological Interpretation
- Memory: The Physiological Influences
- Prejudice: Some Social Reasons

Q.04 Which of the followings is not a trait of trait?

- A trait is dynamic or at least determinative in behavior
- A trait is rigid and possessive
- A trait has more than nominal existence
- A trait is more generalized than a habit

Q.05 A trait is more generalized than a habit

- Social learning theory
- A trait theory of personality
- Sullivan's interpersonal theory
- Phenomenological theory

Q.06 Kelly's theory is phenomenological it focuses on which of the following frame of references of the individual?

- External
- Internal

Mishii Brave

- Environmental
- Social

Q.07 Who focused on the ways in which internal cognitive and motivational processes influence and cause behavior?

- Gordon Allport
- Sigmund Freud
- Carl Rogers
- J. B. Watson

Q.08 Which of the following states that constructs are formed on the basis of common themes in our experiences?

- The organization corollary
- The construction corollary
- The dichotomy corollary
- The choice corollary

Q.09 Which theory uses the Q-Sort method to measure personality?

- Social cognitive
- Humanistic
- Psychodynamic
- Biological

Q.10 Which of the following conditions is not necessary in Rogers' view for therapy?

childhood expercience

Q.11 Kelly developed which of the following test to identify the important constructs a person uses to construe significant people in his or her life?

- Edward Personnel Preference Scale
- Thematic Apperception Test
- Study of Values
- Role Construct Repertory Test

Q.12 In client centered therapy, therapist actively tried to understand the client's phenomenological field or the internal frame of reference of the client. It was labeled as what?

- experimaental

Q.13 For Kelley a person's processes i.e. behavior and thinking are channelized by ways that he anticipates_____.

- Imagination
- Expectations
- Reality
- Experiences

MIX QUIZES

The tendency to avoid a negative stimulus becomes stronger; the nearer the individual is to the stimulus. This is referred to as what?

- The gradient of avoidance
- The gradient of punishment
- The gradient of resistance
- The gradient of aggression

The tendency to approach a goal becomes stronger when the individual is nearer to the goal. This is referred to as what?

- **The gradient of approach**
- The gradient of success
- The gradient of need
- The gradient of motivation

According to Albert Ellis extreme beliefs that taken us to an extreme level known as what?

- **Irrational belief**
- Consequences
- Rationality
- Activating event

Who among the following was of the view that irrational beliefs are basis of all of our maladjustments?

- Albert Bandura
- Abraham Maslow
- George Kelly
- **Albert Ellis**

Dispositional domain tries to explore all of the followings EXCEPT:

- How individuals differ in their emotions
- How individuals differ in their self concepts

When individual behaves in desirable manner, gets a reward but failure to perform results in the form of withdrawal. This behavioral technique is known as what?

Token economy

The physiology of brain or peripheral nervous system leads to what; in personalities of individuals?

- **Differences**
- Similarities
- Resemblance
- Similitude
- Which of the following focuses on the idea that all behavior is learned?
- **Behavioral school of thought**
- Psychoanalysis school of thought
- Humanistic school of thought
- Gestalt school of thought
- Which of the following is a behavioral technique to teach an individual to say no in a polite manner?
- **Assertion training**
  Modeling
- Aversive training
- Flooding
  All the theories of _____ are quite different, or that they belong to a different perspective but they try to answer questions related to the areas like stages of development, motivation, learning, perception and disorders & therapies.
- **personality** :p
  A good theory of personality is one that fulfills all purposes in science EXCEPT:
- Provides a guideline to researchers
- **Creates ambiguities**
- Makes predictions
- Organizes the known available findings
  Which of the following will happen where we stop the reinforcement and the behavior will be extinguished?
- Generalization
- **Extinction**
- Spontaneous recovery
- Shaping
  What refers to the fact that personality plays a key role in how we cope, adapt and adjust to events in our every day live?
- Companionship
- Solitude
- **Adjustment**
- Friendship
- Who formulated the Law of Effect?
- Pavlov
  Kurt Lewin:/
- Kohler
- **Thorndike**

The tendency to avoid a negative stimulus becomes stronger; the nearer the individual is to the stimulus. This is referred to as what?
The gradient of avoidance

- Which of the following increases the likelihood of occurrence of a behavior?
- **Reinforcement**
- Punishment
- Insight

Extinction

All the theories of _____ are quite different, or that they belong to a different perspective but they try to answer questions related to the areas like stages of development, motivation, learning, perception and disorders & therapies.

- **Personality**
- Bio psychology
- Intelligence
- Physiology
- A reinforcer that adds something directly rewarding is:
- **Positive reinforcement**
- Secondary reinforcer
- Negative reinforcer
- Triary reinforcer

Which of the following domains deals centrally with the ways in which individuals differ from one another?

- **Dispositional**
- Biological
- Intra-psychic
- Cognitive

According to Alfred Adler, if someone thinks that he/she can write a good book and will be famous, it refers to which of the followings?

- Social interest
- Mistaken styles of life
- **Fictional finalism**
- Creative self

During which stage of development, the Oedipal and Electra complex takes place?

- The Latency Period
- The Anal Stage
- The Oral Stage
- **The Phallic Stage**

Identify which of the following research has forced a reevaluation of the generalizability of psychology finding from one culture or/and subculture to another.

- Naturalistic research
- Experimental research

- Case study
- **Cross cultural research**

  Any form of research that examines unconscious mental processes or self-defensive thought, refers to which of the followings?
- Humanistic
- Cognitive
- Behavioral
- **Psychoanalytic**
- In psychological assessment, which activity provides an opportunity to ask people for their own description of their problems or personality?
- Rating scales
- **Interview**
- Behavioral coding system
- Observational method

  According to Freud, which principle governs the ego?
- Pleasure
- **Reality**
- Primary
- Oedipal

  sWhich of the following type of person focus over here is to dominate and rule people and to suppress them?
- **The ruling dominant type**
- The getting leaning type
- The avoiding type
- Social useful type
-

  According to Alfred Adler, if a person concentrates on fulfilling his personal needs and ignores the needs of others, and the society then he suffers from _____.
- Organ inferiority
- Cynicism
- Externalization
- **Superiority complex**

  Which of the following is the psychological theme of the oral stage?
- Betrayal
- **Dependency**
- Obedience
- Self-control

  Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?
- Anima
- Ego

- Shadow
- **Persona**

  According to Adler, which one of the followings is an innate need of all human to live in harmony, peace and friendship with others and to make a perfect society?
- Causality
- Mistaken life style
- **Social interest**
- Elusiveness

  According to Carl Jung, when you dream of an event and the event takes place, this is called meaningful coincidence, named as _____.
- **Synchronicity**
- Mistaken life style
- Arbitrary rightness
- Causality

  According to Freud, when child feels that his/her ego wouldn't able to control the sexual impulses or aggressive desires, which kind of anxiety child faces?
- Realistic
- **Neurotic**
- Moral
- Social
- Someone who believes that genes, physiology, and brain anatomy are greatly related to one's personality, believes in which psychological perspective?
- **Biological**
- Humanitarian
- Psychoanalytical
- Behavioral

  Identify which of the following research has forced a reevaluation of the generalizability of psychology finding from one culture or/and subculture to another.
- Naturalistic research
- Experimental research
- Case study
- **Cross cultural research**

  Identify which of the following statement truly describes the concept of Counter transference?
- **Is the therapist's emotional reaction to the patient**
- Can give useful information about the emotional state of the patient
- Should be explained to the patient
- Is a reason why therapist should have his own analysis

Who are usually labeled as self-centered or book worms and preferring indoor activities?

Extroverts

- Social animal
- **Introverts**
- Cynicism

Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

Anima

- Ego
- Shadow
- **Persona**

Which of the following procedure involves systematic observation of an individual's behavior which tells us how people think, feel and how these actions might contribute to explain their problems?

- Interview
- **Mental State Examination**
- Rating ScalePersonality Inventorie
- Personality Inventorie

According to Adler, which of the following type of person keeps away failure by never attempting anything at all?

- The ruling dominant type
- The getting leaning type
- **The avoiding type**
- Social useful type

Q.01 According to Cattell; in which type of learning, behavior simultaneously satisfies more than one goal?

- Confluence learning
- Instrumental learning
- Structured learning
- Unstructured learning

Q.02 Which of the following is the accurate equation that Cattle gave for the understanding of personality?

- R = f (P, S)
- P = F (S, R)
- S = R (F, P)
- F = p(S, R)

Q.03 Identify the person who is primarily concerned with the discovery of truth, in Study of Value Test.

- The Theoretical
- The Aesthetic

- The Political
- The Religious

Q.04 Murray identified that the satisfaction of the need, involves reduction of the what?

- Aggression
- Harmony
- Contentment
- Tension

Q.05 What a person need to be, according to Murray?

- Expressive and sensitive
- Intellectual and theoretical
- Imaginative and creative
- Social and aesthetic

Q.06 Who proposed the Social-Learning Theory?

- Albert Ellis
- William H Sheldon
- Dollard and Miller
- Albert Bandura

Q.07 Who developed a method for Heredity-Environment Analysis purpose, which he calls Multiple Abstract Variance Analysis, or MAVA?

- William H. Sheldon
- Gordon Allport
- Raymond Cattle
- George Alexander Kelly

Q.08 Bandura suggested that most human behavior is learned by which process?

- Reinforcement
- Intention
- Observation
- Insight

Q.09 According to the Raymond Cattell, which of the followings are those that set the person in motion toward a goal; in other words, they determine a person's motivational make-up?

- Unique traits
- Dynamic traits
- Source traits
- Constitutional traits

Q.10 For a _____ to be established the cue-stimulus and response should occur close together not only in space and in time but the response should be rewarded.

- Generalization

Mishii Brave

- Habit
- Extinction
- Inhibition

Quize No. 03

Q.01 According to Cattell; in which type of learning, behavior simultaneously satisfies more than one goal?

- Confluence learning

Q.02 Which of the following process is suggested by Bandura that helps human behavior to learn?

- Intention
- Observation
- Insight
- Reinforcement

Q.03 According to Bandura, which of the following occurs when an individual compares his or her own behavior to internal standard?

- Self-reinforcement
- Self-protection
- Self-harm
- Self-judgment

Q.04 According to Murray, an essential element in achieving the goals of socialization is the development of which of the following?

- An adequate id
- An adequate ego
- An adequate superego
- A strong libido

Q.05 Which of the followings, Cattell's theory is based on?

- Observation
- Factor analysis
- Operant conditioning
- Childhood experiences

Q.06 Who produced a three factor trait theory?

- Hans Eysenck
- Raymond Cattell
- Carl Rogers
- Ivan Pavlov

Q.07 According to Murray, which of the following need operates in the service of another?

- A covert need

- A subsidiary need
- A modal need
- A reactive need

Q.08 According to Murray, which of the following activated as a result of some environmental event?

- Reactive needs
- Modal needs
- Secondary need
- Covert needs

Q.09 Identify the person who places highest value on form and harmony, in Study of Value test.

- The Economic
- The Social
- The Political
- The Aesthetic

Q.10 Accurate hypotheses produce successful performance, and inaccurate hypotheses lead to what?

- Ineffective behavior
- Successful behavior
- Negative attitude
- Positive responses

Q.01 According to Bandura, which of the following occurs when an individual compares his or her own behavior to internal standard?

- Self-reinforcement

Q.02 According to Dollard and Miller's stimulus response theory, learning is the study of the circumstances under which _____.

- A response and a stimulus become strong
- A response and a stimulus become learned
- A response and a stimulus become connected
- A response and a stimulus become parted

Q.03 Cattell defined two types of traits. What are those?

- Genetic and social
- Constitutional and environmental
- Biological and environmental
- Evolutionary and adaptive

Q.04 In Cattle's specification equation, which of the following, stands for temporary body states fatigue, illness and anxiety?

- Pj
- T

- M
- R

Q.05 Which of the following is the accurate equation that Cattle gave for the understanding of personality?

- R = f (P, S)

Q.06 According to Murray which of the following method used by investigator or clinicians is the basics of all personality assessment?

- Imitation
- Observation
- Projection
- Identification

Q.07 According to Murray, which of the following need operates in the service of another?

- A covert need
- A subsidiary need
- A modal need
- A reactive need

Q.08 Whose theory of personality is based on factor analysis?

- Maslow's
- Cattell's
- Kelly's
- Henry Murray's

Q.09 Identify the person who is primarily concerned with the discovery of truth, in Study of Value Test.

- The Theoretical
- The Aesthetic
- The Political
- The Religious

Q.10 According to Murray, an essential element in achieving the goals of socialization is the development of which of the following?

- An adequate id
- An adequate ego
- An adequate superego
- A strong libido

Q.01 Who focused on the ways in which internal cognitive and motivational processes influence and cause behavior

- Gordon Allport
- Sigmund Freud
- Carl Rogers

- J. B. Watson

Q.02 Kelly's theory is phenomenological it focuses on which of the following frame of references of the individual?

- External
- internal
- Environmental
- social

Q.03 Which of the followings was Gordon Allport's first book?

- Cognitions: A Psychological Explanation
- Personality: A Psychological Interpretation
- Memory: The Physiological Influences
- Prejudice: Some Social Reasons

Q.04 Which of the followings is not a trait of trait?

- A trait is dynamic or at least determinative in behavior
- A trait is rigid and possessive
- A trait has more than nominal existence
- A trait is more generalized than a habit

Q.05 A trait is more generalized than a habit

- Social learning theory
- A trait theory of personality
- Sullivan's interpersonal theory
- Phenomenological theory

Q.06 Kelly's theory is phenomenological it focuses on which of the following frame of references of the individual?

- External
- Internal
- Environmental
- Social

Q.07 Who focused on the ways in which internal cognitive and motivational processes influence and cause behavior?

- Gordon Allport
- Sigmund Freud
- Carl Rogers
- J. B. Watson

Q.08 Which of the following states that constructs are formed on the basis of common themes in our experiences?

- The organization corollary
- The construction corollary
- The dichotomy corollary
- The choice corollary

Q.09 Which theory uses the Q-Sort method to measure personality?

- Social cognitive
- Humanistic
- Psychodynamic
- Biological

Q.10 Which of the following conditions is not necessary in Rogers' view for therapy?

childhood expercience

Q.11 Kelly developed which of the following test to identify the important constructs a person uses to construe significant people in his or her life?

- Edward Personnel Preference Scale
- Thematic Apperception Test
- Study of Values
- Role Construct Repertory Test

Q.12 In client centered therapy, therapist actively tried to understand the client's phenomenological field or the internal frame of reference of the client. It was labeled as what?

- experimaental
- ha na ?

Q.13 For Kelley a person's processes i.e. behavior and thinking are channelized by ways that he anticipates_____.

- Imagination
- Expectations
- Reality
- Experiences

1. According to Alfred Adler, if someone thinks that he/she can write a good book and will be famous, it refers to which of the followings?

- Social interest
- Mistaken styles of life
- **Fictional finalism**
- Creative self

2. During which stage of development, the Oedipal and Electra complex takes place?

- The Latency Period
- The Anal Stage
- The Oral Stage
- **The Phallic Stage**

3. Identify which of the following research has forced a reevaluation of the generalizability of psychology finding from one culture or/and subculture to another.

- Naturalistic research
- Experimental research
- Case study
- **Cross cultural research**

4. Any form of research that examines unconscious mental processes or self-defensive thought, refers to which of the followings?

- Humanistic
- Cognitive
- Behavioural
- **Psychoanalytic**

5. In psychological assessment, which activity provides an opportunity to ask people for their own description of their problems or personality?

- Rating scales
- **Interview**
- Behavioural coding system
- Observational method

6. According to Freud, which principle governs the ego?

- Pleasure
- **Reality**
- Primary
- Oedipal

7. Which of the following type of person focus over here is to dominate and rule people and to suppress them?

- **The ruling dominant type**
- The getting leaning type
- The avoiding type
- Social useful type

8. According to Alfred Adler, if a person concentrates on fulfilling his personal needs and ignores the needs of others, and the society then he suffers from _____.

- Organ inferiority
- Cynicism
- Externalization
- **Superiority complex**

9. Which of the following is the psychological theme of the oral stage?

- Betrayal
- **Dependency**
- Obedience
- Self-control

10. Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

- Anima
- Ego
- Shadow
- **Persona**

11. According to Adler, which one of the followings is an innate need of all human to live in harmony, peace and friendship with others and to make a perfect society?

- Causality
- Mistaken life style
- **Social interest**
- Elusiveness

12. According to Carl Jung, when you dream of an event and the event takes place, this is called meaningful coincidence, named as _____.

- **Synchronicity**
- Mistaken life style
- Arbitrary rightness
- Causality

13. According to Freud, when child feels that his/her ego wouldn't able to control the sexual impulses or aggressive desires, which kind of anxiety child faces?

- Realistic
- **Neurotic**
- Moral
- Social

14. Someone who believes that genes, physiology, and brain anatomy are greatly related to one's personality, believes in which psychological perspective?

- **Biological**
- Humanitarian
- Psychoanalytical
- Behavioural

15. Identify which of the following research has forced a revaluation of the generalizability of psychology finding from one culture or/and subculture to another.

- Naturalistic research
- Experimental research
- Case study
- **Cross cultural research**

16. Identify which of the following statement truly describes the concept of Counter transference?

- **Is the therapist's emotional reaction to the patient**
- Can give useful information about the emotional state of the patient

- Should be explained to the patient
- Is a reason why therapist should have his own analysis

17. Who are usually labeled as self-centered or book worms and preferring indoor activities?

Extroverts

- Social animal
- **Introverts**
- Cynicism

18. Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

Anima

- Ego
- Shadow
- **Persona**

19. Which of the following procedure involves systematic observation of an individual's behaviour which tells us how people think, feel and how these actions might contribute to explain their problems?

- Interview
- **Mental State Examination**
- Rating Scale Personality inventory
- Personality Inventory

20. According to Adler, which of the following type of person keeps away failure by never attempting anything at all?

- The ruling dominant type
- The getting leaning type
- **The avoiding type**
- Social useful type

Quiz

1. The _____ test consists of a series of cards which depict human figures in various ambiguous situations.

- House Tree and Person
- Rotter's Incomplete Sentence Blank
- Thematic Apperception
- Rorschach Ink Blot

2. The _____ is the mental agency containing everything inherited, present at birth, and fixed in the individual's constitution- especially sexual and aggressive instincts.

- Emotions
- Ego

- Id
- Super Ego

3. During _____ stage of development, the Oedipal complex and Electra complex takes place.

- The Latency Period
- The Anal Stage
- The Oral Stage
- The Phallic Stage

4. _____ is the second law of thermo-dynamics, which states that there is tendency towards equalization of energy within a system.

- Equivalence
- Principles of Opposites
- Entropy
- All of the above

5. According to Jung _____ is the female component of the male psyche, It comes into existence because of the experiences that women have had with men over centuries.

- The Persona
- Self
- Anima
- Animus

6. When you dream of a person and shortly in the near future, the person appears in front of you. This is called _____, we call it meaningful coincidence.

- Causality
- Synchronicity
- Archetypes
- None of above

7. An emotional response to the threat that id impulses will become conscious is called _____anxiety.

- Realistic
- Neurotic
- Moral
- None of the above

8. When the individuals do not believe in the value of any thing rather they try to make every individual realize the meaninglessness of their goals and objectives. This kind of person is called _____.

- Elusiveness
- Projection
- Rejection
- Cynicism

Mishii Brave

9. **According to Erikson, every individual passes through _____ stages of development and sequence of these stages is genetically determined.**
    - Seven
    - Eight
    - Nine
    - Ten

10. **Sometimes the ego can control or defend against the expression of a forbidden impulse by consciously expressing its opposite. This is known as _____.**

    - Displacement:
    - Projection
    - Rationalization
    - Reaction Formation

Select correct option:

How individuals differ in their emotions
How individuals differ in their self concepts
How individuals differ in their in physiological characteristics
How individuals are similar in their recreational activities

Who suggested that most human behavior is learned by Observation?
Select correct option:

Albert Bandura
Gordon Allport
George Alexander Kelly
William H. Sheldon

_____ is the one who loves to be socialized and visit other's rather than staying alone.

Extroverts
Social animal
Introverts
Cynicism

According to Erikson, what young people must develop before they can commit to an intimate relationship?

Compassion
A sense of identity
Sexual maturity
Formal operational thought

Which of the following is a term used by Rogers to designate individuals who are using their capacities, talents, realizing their potentials, and their full range of experiences?

Self centered

Mishii Brave

Mishii Brave

Fully functioning
Cynics person
Introverts

According to Gordon Allport, what is a predisposition to respond in a manner to various kinds of stimuli?

Trait
Habit
Phenomenological field
Social interest

According to Rogers, which role teacher should play while giving knowledge that helps to create an atmosphere favorable to learning?

Authoritative
Facilitator
Commanding
Authoritarian

Basic concepts of humanistic psychology do NOT include which of the followings?

The individual as an integrated whole
Irrelevance of animal research
Man's inner nature
Psycho sexual energy

All Self-Actualizing individuals have the following characteristics EXCEPT: Select correct option:

Acceptance of self, others and nature
Hesitation of expression of feelings and ideas
Discrimination between means and ends
Peak or nystic experiences

Which of the following refers to the fact that individuals are unique, they are characterized by inner harmony and a striving force to cooperate with fellow humans?

Mishii Brave

Mishii Brave

Select correct option:

Personality psychology
Forensic psychology
Individual psychology
Cognitive psychology

Which of the following test was created by Gordon Allport to measure the basic value dimensions?
Select correct option:

Thematic Apperception Test
Minnesota Multiphasic Personality Inventory
The Study of Values
Differentiate Aptitude Test

Identify which approach is based on the assumption that personality is determined by the unique ways in which each individual views the world?
Select correct option:

The dispositional approach
The behavioral approach
The humanistic approach
The psychodynamics approach

According to Carl Rogers, when people are brought up with unconditional positive regard, what happens?
Select correct option:

They are unlikely to be fully functioning
They will tend to be vain and narcissistic
They will feel valued
They will live lives directed toward what others want and value

In which of the following we observe the behavior of others and use the information as a guide for our own behavior?
Select correct option:

Mishii Brave

Mishii Brave

Modeling
Reinforcement
Punishment
Extinction

All of the following are examples of primary drives EXCEPT:
Select correct option:

Thirst
Hunger
Money
Sex

Empathy was a highly developed trait in Sullivan's personality, and he used it to excellent advantage in studying and treating the victims of which of the followings?
Select correct option:

Schizophrenia
Anxiety disorders
Obsessive compulsive disorder
Personality disorders

According to Murray, which of the following activated as a result of some environmental event?
Select correct option:

Reactive needs
Modal needs
Secondary need
Covert needs

Rogers used which of the following techniques to study person's view about him/her and his/her relationships with others?
Select correct option:

Mishii Brave

L-sort technique
Q-sort technique
F-sort technique
P-sort technique

Personality psychology does NOT use information from which of the following field?
Select correct option:

Clinical psychology
Biological psychology
Cognitive psychology
Industrial Psychology

Dysplasia and female somatotyping are included in which of the followings?

The primary components
The secondary components
The essential components
The fundamental components

A reinforcer that adds something directly rewarding is:

Positive reinforcement
Secondary reinforcer
Negative reinforcer
Triary reinforcer

Who discussed that a child has two basic needs, safety and satisfaction?

Carl Jung
Albert Ellis
Karen Horney
Dollard and Muller

According to Jung, which one of the followings tends to be sociable, outgoing, and interested in parties and group activities?

Moving against people
Moving away people
Extroverts
Introverts

According to Jung, the earth mother, the hero, the devil and the Supreme Being are all examples of what?

The id's most energizing, compulsive drives
Archetypes that exist in the collective unconscious
Symbols residing with an individual's anima and animus
The id's persona drives

_____ is the one who loves to be socialized and visit other's rather than staying alone.

Extroverts
Social animal
Introverts
Cynicism

What do personality psychologists study?

Statistical trends in collected data
The reliability of manipulation of independent variables
Any kind of human experience that is interesting and relatively stable over time and across situations
Effect of injuries on brain

According to Murray, an essential element in achieving the goals of socialization is the development of which of the following?

An adequate id
An adequate ego
An adequate superego
A strong libido

Maslow's theory states that individuals who are well adjusted, attempt to which of the following process?

Convince others that they have no faults
Actualize themselves
Win others to their way of thinking
Remain aloof from the rest of society

Which of the following is a technique used with drug addicts?

Stepping out of character
Modeling
Aversive conditioning
Free association

In client centered therapy, therapist actively tried to understand the client's phenomenological field or the internal frame of reference of the client. It was labeled as what?

Q-sort technique
Self understanding phase
Experiential phase
Practical application phase

Which of the following is the sexual aggressive force for Freud, while for Jung it is the life energy essential for biological, psychological and spiritual development?

Anima
The persona
Thanatos
Libido

According to Rogers, which role teacher should play while giving knowledge that helps to create an atmosphere favorable to learning?

Authoritative
Facilitator
Commanding
Authoritarian

Mishii Brave

Which of the following is an effective therapy that focuses on changing individual's irrational and dogmatic cognitions?

Behavioral Therapy
Psychoanalysis
Rational Emotive behavior Therapy
Psychodrama

Evaluate which law of thermo dynamic states that the amount of energy in a system is fixed?

Equivalence
Entropy
Principle of opposites
Law of proximity

Jung argued that in addition to an individual's personal unconscious, there is also a _____ unconscious shared by all humankind.

Separated
Personal
Collective
Egoistic

Identify which of the following statement truly describes the concept of Counter transference?

Is the therapist's emotional reaction to the patient?
Can give useful information about the emotional state of the patient
Should be explained to the patient
Is a reason why therapist should have his own analysis?

The collective unconscious consists of universal human experience repeated over centuries. With which name Jung called these universal ideas?

Archetypes
Synchronicity
Causality
Fictional finalism

Mishii Brave

Which of the followings best explains transference?

Is a form of ego strengthening?
Prevents patients from gaining insight
Is the patient's emotional response to the therapist?
Only seen in psychiatric setting

Jung's theory of personality describes a "mask" which people project as their public self. What is this mask called?

Anima
Ego
Shadow
Persona

Which of the following research method was used by Freud?

Case study method
Survey research
Co-relational method
Naturalistic observation

The key assumption of the psychoanalytic approach is that the psychological apparatus of the mind needs energy to make it go. This kind of energy is known as what?
Select correct option:

Biological energy
Kinetic energy
Unconscious energy
Conscious energy

According to Jung, the earth mother, the hero, the devil and the Supreme Being are all examples of what?

The id's most energizing, compulsive drives
Archetypes that exist in the collective unconscious
Symbols residing with an individual's anima and animus

Mishii Brave

The id's persona drives

The word “personality” is derived from which language?

German
Latin
French
Greek

Any form of research that examines unconscious mental processes or self-defensive thought, refers to which of the followings?

Humanistic
Cognitive
Behavioral
Psychoanalytic

Jung's theory was criticized for being all of the following EXCEPT:

Mystical
Over-emphasizing sex
Incomprehensible
Unscientific

Adler believed that all humans start their lives with:
Select correct option:

Weak organs
Primordial guilt
Collective unconscious
Feelings of inferiority

Which of the following, present an elaborate picture of an individual’s overall personality including the traits, characteristics, tendencies and styles that are thought to underlie behavior?

Personality inventories
Projective methods

Mishii Brave

Mishii Brave

Aptitude tests
Behavioral coding systems

Identify which of the following statement truly describes the concept of Counter transference?

Is the therapist's emotional reaction to the patient
Can give useful information about the emotional state of the patient
Should be explained to the patient
Is a reason why therapist should have his own analysis

What do personality psychologists study?

Statistical trends in collected data
The reliability of manipulation of independent variables
Any kind of human experience that is interesting and relatively stable over time and across situations
Effect of injuries on brain

Which theorist has the most optimistic view of the content and dynamics of the unconscious?

Karen Horney
Sigmund Freud
Clark Hull
Abraham Maslow

Defense mechanisms include all of the followings EXCEPT:

Denial
Splitting
Sublimation
Humor

If someone is stingy, stubborn, and excessively neat, Freud would probably have viewed him/her as fixated in which stage?
Select correct option:

Anal

Mishii Brave

Phallic
Genital
Oral

Who discussed that a child has two basic needs, safety and satisfaction?
Select correct option:

Carl Jung
Albert Ellis
Karen Horney
Dollard and Muller

According to Freud, the death instinct that motivates aggressive urges to destroy is known as which of the followings?
Select correct option:

Eros
Frustration
Arbitrary rightness
Thanatos

According to Erikson ego is in the service of the what?

Emotions
Sentiments
Id
Superego

The _____ test consists of a series of cards which depict human figures in various ambiguous situations.

House Tree and Person
Rotter's Incomplete Sentence Blank
Thematic Apperception
Rorschach Ink Blot

The _____ is the mental agency containing everything inherited, present at birth, and fixed in the individual's constitution- especially sexual and aggressive instincts.

Emotions
Ego
Id
Super Ego

During _____ stage of development, the Oedipal complex and Electra complex takes place.

The Latency Period
The Anal Stage
The Oral Stage
The Phallic Stage

._____ is the second law of thermo-dynamics, which states that there is tendency towards equalization of energy within a system

Equivalence
Principles of Opposites
Entropy
All of the above

According to Jung _____ is the female component of the male psyche, It comes into existence because of the experiences that women have had with men over centuries

The Persona
Self
Anima
Animus

When you dream of a person and shortly in the near future, the person appears in front of you. This is called _____, we call it meaningful coincidence.

Causality
Synchronicity
Archetypes
None of above

An emotional response to the threat that id impulses will become conscious is called _____anxiety

Realistic
Neurotic
Moral
None of the above

When the individuals do not believe in the value of any thing rather they try to make every individual realize the meaninglessness of their goals and objectives. This kind of person is called _____.

Elusiveness
Projection
Rejection
Cynicism

According to Erikson, every individual passes through _____ stages of development and sequence of these stages is genetically determined

Seven
Eight
Nine
ten

Sometimes the ego can control or defend against the expression of a forbidden impulse by consciously expressing its opposite. This is known as _____.
Displacement:
Projection
Rationalization
Reaction Formation

_____ was a personologist who regards the explanation of an individual's uniqueness as the paramount goal of psychology.

Mishii Brave

Carl Jung
Karen Horney
Gordon Allport
William H. Sheldon

According to the Raymond Cattell, _____ are those that set the person in motion toward a goal; in other words, they determine a person's motivational make-up.

Source Traits
Unique Traits
Dynamic Traits
Constitutional Traits

In Study of Value test, _____ person places highest value on form and harmony.

The Economic
The Social
The Political
The Aesthetic

_____ theory is phenomenological, as it focuses on the internal frame of reference of the individual
Sullivan
Gordon Allport
Kelly
Raymand Cattell

In Allport's system, If a trait is extremely pervasive, that almost all the activities of a person can be traced to its influence, it is called _____.

Primary Traits
A Cardinal Traits
Central Traits
Secondary Traits
In Cattell's view, there are _____ major sources of data about personality.

Mishii Brave

Three
five
seven
nine

_____ is a term used by Rogers to designate individuals who are using their capacities and talents, realizing their potentials.

Positive Regard
Fully Functioning Person
Sense of Philosophical Humor
Social Interest

_____ has developed a method for Heredity-Environment Analysis purpose, which he calls Multiple Abstract Variance Analysis, or MAVA.

Gordon Allport
George Alexander Kelly
William H. Sheldon
Raymond Cattle

According to Gordon Allport, between 6 and 12 years of age, the child begins to fully realize that he or she has the rational capacity to find solutions to life's problems and thereby cope effectively with reality demands. This aspect of "selfhood" is termed as _____.

Propriate Striving
The Self-Image
The Sense of Self as a Rational Coper
The Sense of Self-Identity

_____ theory of personality is based on factor analysis
Maslow's
Cattell's
Kelly's
Henry Murray's

The extremely pervasive trait in Allport's theory is called _____ trait

Super
Cardinal
Influential
Central

Allport's orientation is _____.

Behavioristic
Psychoanalytic
Humanistic
None of the given options

The extremely pervasive trait in Allport's theory is called _____ trait.
Super
Cardinal
Influential
Central

Allport's orientation is _____ .

Behaviorist
Psychoanalytic
Humanistic
None of the given options

Allport has _____ approach while talking about motives

Behaviorist
Psychoanalytic
Humanistic
None of the given options

_____'s theory of personality is based on factor analysis.

Adler
Fred
Horney
None of the given

_____ also distinguishes among ability, temperament, and dynamic traits.

Cattell
Allport
Adler
Horney

_____ presented a cognitive theory of personality.

Allport
Kelly
Skinner
Watson

For _____ childhood events and unconscious forces are determinants of behavior.

Skinner
Watson
Thorndike
None of the given options

The concept of proactive needs and reactive needs was given by _____,

Murray
Kelly
Cattell
Allport

According to _____ the therapist must give unconditional positive regard to the client.

Rogers
Murray
Freud
Adler

_____ used the term personology

Watson
Wundt
Guthrie
None of the given options

MCQ's FILE FOR PSY 405

PERSONALITY PSYCHOLOGY

Lec 1-45

1)personality measurement and assessment procedure are useful in understanding the person . they include :

a) Interview .

b)Rating scale.

c)personality test .

d) **All of the above (pg :8)**

2)The _____ is the most commonly used procedure in psychological assessment .

a) **Interview . (pg:8)**

b) Observation .

c)Projective test .

d)Rating scale .

3)Appearance and behavior ,thought process ,Mood and effects ,Intellectual function and perception of person , place and time can be structure and detailed by .

a) Structure Interview .

b) Observational procedure .

c) The mental status examination . (pg:8)

d) Beavioural coding system .

4) A ---------- is a procedure in which the observer is asked to make judgments that place the person somewhere along a dimension .

a) Behavioral coding system .

b)Personality inventories .

c)Lie scale .

d) Rating scale . (pg:9)

5) Some adult clients are able to make record and keep track of their own behavior a procedure known as :

a) Lie scale .

b) K scale .

c) behavioral coding system .

d) personality inventories .

6) ---------- present an elaborate picture of an individual 's overall personality including the traits , characteristics , the tendency and the style that are thought to underlie behavior .

a) personality inventory .

b)MMPI.

c) The defensive scale .

d) none of the above .

7) MMPI Stands for .

Minnesota multiphasic personality inventory ,.

8)The test MMPI was develop in ---------- and puplished in ----------:

a) 1890,1892.

b)1919,1920.

c)1940,1943(pg:9).

d) none of the above .

9)MMPI consist of ---------- items :

a) 520.

Mishii Brave

Mishii Brave

Mishii Brave

b)450.

c)500.

d) 550.(pg:9)

10) MMPI has got validity scale :

a) 4.(pg:9)

b) 5.

c)7.

d)9.

11) four validity scales include , except.

a) Lie scale .

b) The f scale

c) K scale .

d) P scale . (pg :9)

12) the MMPI -2 is based on:

a)550.

b)560.

c)562.

d)567. (pg:10)

13)the normal scale score is a T-score of 50 any score above 50 is a sign of :

a) psychotic:

b) neurosis :

c)psychosis:

d)pathology: (pg:10)

14) The ---------- scale is sensitive to unsophisticated attempts to avoid anserwing in a frank and honest manners .

a) The lie scale . (pg :10)

b) The K scale .

c) The f scale .

d) the cannot say scale .

15) Example of items of MMPI-2:

a) I like automobile magazines .

b) I wake up with lots of energy most mornings .

c) I am startled by loud noise .

d) all of the above : (pg : 10)

16) Example statements of MMPI :

a) I cry easily :

b) I am happy most of the time.

c)I believe , I am being follow .

d) all of the following . (pg:9)

17)The known projective test , is based on the use of inkblots introduced in 1921 by :

a) Herman Rorschach, a Swiss psychiatrist .(pg:10)

b)Alferd Adler :

c) Carl Jung :

d)Sigmund Frued

18)personality can be used approached or studied using the four perspectives :

a) Psychodynamic,dispositional,Behavioral,Humanistic. (pg:12)

b)Observation, Interview , Objective test , Projective test.

c)TAT,RISB,WAT,HTP.

d)none of the above .

19) Before the advent of ---------- it was not possible to measure the aspects of human psychological functioning , intelligence , interest , motives , and personality traits .

a) Psychometrics. (pg: 12)

b) Psychonalytics.

c)Personality test ..

d) projective test .

20) rather then making judjment about where the person fall on a particullar dimension ,---------- focus on the frequency of specific behavioral events .

a) behavioral coding system .(pg: 13)

b) projective personality test .

c) observational procedure .

d) none of the above.

21)Morgan and Murray at the Harvard psychological clinic develop the :

a) TAT . (pg:15)

b)HTP.

c)RISB.

d) Inkplot.

22) There have been several variation of TAT for different groups .

a) CAT , SAT . (pg:15)

CAT(Children Apperception test),SAT (Senior apperception test)

23) Level of Consciousness is introduced by :

a) Jung.

b)Adler.

c) Karen Horney.

d)Sigmund Freud.

24)The ---------- includes all the sensations and experiences of which we aware at any given moment .

a) Conscious level . (pg:18)

b) Preconscious .

c) Sub conscious.

d) |Consciousness .

25) The ----------sometimes called "available memory ".

a) conscious .

b) preconscious .(pg 18)

c) sub conscious .

d) Consciousness.

26) Preconscious ---------- the unconscious and conscious region of the mind .

a) bridges (pg:18)

b) canal.

c) Main road .

c) none of the above .

27) energy may be converted from one stage to another ,butt it all the ---------- energy .

a) high.

b) low .

c) same . (pg 21)

d) different .

28) Frued postulate that each individual has a---------- amount of energy available for mental activities

. a) limited . (pg 21)

B) high .

c) low .

d) same .

29) Freud as the most silent life instinct for the development of personality the sexual instinct is called ----------:

a) Libido. (pg:21)

b) Humor .

c) Thandos.

d) all of the above .

a) Realistic anxiety .

b Neurotic anxiety .() pg:22)

c) moral anxiety .

d)overwhelming anxiety.

31)When the ego is threatened by punishment from the superego , the ensuing emotional response is called .----------:

a) Moral anxiety .(pg:22)

b) Neurotic anxiety.

c) realistic anxiety .

d) none of the above .

32)The emotional response to threat and/ or perception of real danger in the external environment (e.g: poisonous snackes , wild animals , earthquakes, final examinations)is called :

a) Realistic anxiety.(pg:22)

b) moral anxiety .

c) over whelming anxiety .

d) none of the above .

33) ---------- help to carry out these functions as well as to protect the person from over whelming anxiety .

a)Ego defense mechanism .(pg:22)

B) Sublimation .

c)Repression

d)rationalization.

34)Which is an essential part of psyche :

a) Humar.(pg:24)

b) Relationship.

c)regression.

d) all of the above :

35)---------- is an ego defense that enable the individual adaptively to divert impulses so that theyu may be expressed via socially approved thoughts or actions .

a) sublimation.(pg:23)

b)repression:

c) regression.

d) reaction formation.

36) this technique brings to the conscious level emotionally loaded material that at times can be pain full threatening to be discussed at conscious level.

a) Free association: (pg:23)

b) projective test .

c) rationalization.

d)Displacement .

37) The relationship between ---------- and---------- is very important . for dream analysis .

a) Mother and doughter .

b) teacher and student.

c) Teacher and therapist .

d) patient and therapist .(pg:23)

38) the patient may relates with therapist positively as with an important person in his life like parents , teacher and friends we labwel as .

a) positive transference phenomenon.(pg:23)

b)Negative transference phenomenon.

c)none of the above .

39)The patient may relate negatively with the therapist with anger resentment or dislike .We label as

a) Positive transefernse phenomenon.

b)Negative transference has accour .(pg:24)

c) none of the above .

40)Freud in his book ,The PSYCHOPATHOLOGY of everyday life he talks about the .

a) Slip of Tongue and pen .(pg:24)

b)slip of tongue and hand .

c)slip of tongue and book .

d) none of the above .

41) Freud use this mental "map" of the mind to describe the degree to which mental events , toughts and fantasis vary in accessibility to awareness by three level . known as .

a) Id ,Ego ,Superego .

b)the conscious ,preconscious ,unconscious . (pg:25)

c)none of the above .

42) Libido which drived from Latin word meaning :

a) wish or desire . (pg:26)

b)Eros or Thanatos .

c) love or like .

d) all of the above .

43) how many kinds of instincts :

a) 4.

b)2.(pg:26).

c)6.

d) none of the above .

44) name of instincts .

a)Eros,Thanatos .

b) Primary process or pleasure principal .

c) Repressiobn or regression .

d) none of the above .

45) the ego has the role to mediate conflicts between the Id and superego according to realities of the world,if it mediate successfully we seen .

a) an intelligent and creative individual. (pg:26)

b) Boring or dull individual

c) shy and dimed individual.

d) all of the above .

46) the Id wants it and the Id wants it now refers to .

a) primary principal.

b) Libido .

c) pleasure principal. (pg:26)

d) none of the above .

47) types of anxiety .

a) 3.(pg:27)

b) 9.

c)4.

d) none of the above .

48) Which is an driving force:

a)Libido . (pg:30)

b) eros .

c)Thanatos.

d) none of the above .

49)different concept about Libido between Freud and jung ?

ANs: for freud ,libido is the main sexual aggressive force or energy , while for jung the libidinal energy is the life energy , not just required for sex and aggression .

50) The first law of thermodynamic is :

a)Libido .

b)Equivalence. (pg:30)

c) Entropy.

Thermo means heat and dynamics means movement which refers to flow of heat .

52)The collective unconscious refers to our ancestral experience and Jung label these experiences as .

a) Archetypes. (pg:31)

b)life goal .

c)Synchronicity.

d) none of the above .

53) ---------- is a greek word which means mask or cover which the actors use to wear on the stage .

a)Anima.

b) Animus .

c)Persona.(pg:31)

d) Shadow .

54)In extroverts There are some four functions of our thinking process as well such as , sensing , thinking , felling , intuiting . so we get ---------- types of peoples .

a)6.

b)4.

c)5.

d)8. (pg:32)

55)The ---------- are usually labeld as self centered or book worms and preffering indoor activities .

a)Extroverts.

b)Animus .

c) Introverts .(pg:32)

d) all of the above .

56) Social interest is an innate need of all human beings . . All human have three major problems which refers to :

a) Id , ego , superego .

b) Levels of consciousness .

c)Occupational task , Societal task , love and marriage task . (pg:36)

d) none of the above .

57)Anxiety created when a child born into the bigger or more powerful world of old childrens and adults .

a) neurotic anxiety .

b) basic anxiety .(pg:39)

c) moral anxiety.

d) all of the above

58) the ---------- is create a realistixc relationship between the real self and ideal self .

a) self analysis .

b)goal of psychotherapy .(pg :40)

(c) blind spot

d) Cynicism.

59)In 1945 Karen Horney in her book "our inner Conflicts " classified ten neurotic needs in how many categories :

a) 4.

b) 8.

c). 7

d)3.(pg:41)

60)For freud Ego is the---------- and its tries to establish a balance between id and super ego .

a) humar .

b) pleasure .

c) master control .(pg:45)

d) none of the above .

61) If crisis is successfully resolved,fidelity emerges and if unsuccessfully resolved uncertainity emerges .

a) basic trust versus basic mistrust .

b) industry versus inferiority .

c) identity versus role confusion(pg 51)

d) ego integrity versus despair .

62)Who is the creater of a new viewpoint that is known as interpersonal theory of psychiatry .

a) Harry Stack Sullivan .(pg:53)

b) Sagmunt freud.
c) Carl Junk.
d) None of the above .

63)Sullivan's unique contribution regarding the place of cognitions in the affairs of personality is his three fold classifications of experiences : these are

a) Cognitive , behavioral , biological.

b) level of consciousness .

c) prototaxic , parataxic , syntaxic .(pg:55)

d) none of the above .

64) primary component of physique:

a) entomorophy ,mesomorophy , ectomorophy .(pg59)

b)parataxic , protaxic , syntaxic .

c)none of the above .

65) the ---------- body is strong , touch ,resistant to injury and generally equipped for strenuous and exacting physical demands .

a) entomorophy.

b)ectomorophy.

c) mesomorphy.(pg:62)

d) none of the above .

66) the person's behavior is obtained through observation of his internal frame of refrence by which of the theory of personality .

a) behavioural .

b) cognitional .

c) physiological .

d)phenomenological theory of personality .(pg:78)

67)---------- view puts the emphasis on the positive aspects of life , free choices and personal

b) psychological growth experiences .

a) humanistic .(pg:78)

.

c) emotional .

d) behavioral .

68)An innate need to survive ,grow and enhance one's self . refers to

a) phenomenological theory of personality.

b) Humanistic view .

c)Actualizing tendency (pg:78)

d)none of the above .

69)for Kelley an individual's behavior and thoughts are guided by a set of ---------- that are used in predicting future events .

a)Templets for reality .

b) constructs alternativism.

c) personal constructs .(pg:93)

d) all of the above .

70) when individual are confronted with anovel situation , they apply the ---------- role conflict therapy .

b) fixed role therapy

c) C.P.C cycle . (pg:100)

none of the above .

71)A ---------- is a predisposition or way to respond in a manner to various kind of stimuli.

A) social .

b) economical.

c. personality .

d) traits (pg:104)

72)Who determines ? Personality is some thing and do something ?

a) Gordon Allport .(pg:106)

b) Henry murray's.

c)Skinner's

b)none of the above

73) These are the study of values except

a)Regression.(pg:112)

b)Political.

c)Economics.

d)Asethetic

74)The overall construct that unifies traits and provides directions for the persons life is term the Proprium . This concept essentially refers to the :

a) Self as unknown.

b) self as very well known .

c)self as known(pg:112)

d) none of the above .

75)Attitudes, Ergs, Sentiments-self are the important dynamic traits in ---------- system .

a)Roggers.

b) Cattle's(pg:114)

c)Allport .

d) none of the above .

76)According to cattle's personality is that which permits a prediction of what a person will do in a given situation:

a)R=f(P,S) (pg:114)

b)16 Pf.

c) sjr R .

d) none of the above .

77) most important Daynamic of trait is :

a)Attitute .

b)Ergs.

c)Sentiments-self .

c)all of the above .(pg:114)s

78)The L-Data refers to .

a)The life record.(pg:114)

b)the sel rating questionnaire.

c)The objective test .

d)projective test .

79)---------- is of course widely used as an everyday empirical tool by contemporary investigator .

a)nature of personality .

b) surface traits .

c) sentiments .

d)factor analysis .(pg:115)

80)When two things vary together , they are said to be ---------- e.g there is a relationship between height weight because one increase ,the other will also ten d to increase .

a) Single .

b)double.

c) correlation.(pg:115)

d) all of the above .

81)An ---------- is a response of an individual to a situation or object .Thus the attitude of a young man"I want very much to marry a women "

a) Self .

b) L data.

c)attitude.(pg:115)

d)Features .

82)---------- may involve actual records of the person's behavior in society, such as school records , court record although in practice .

a)L-Data.

b) Q- data

c)T-Data

d) none of the above .

83) ----------is based on a third possibility , the creation of special situation in which the person's behavior may be objectively scored .

a) Q data.

b)L data .

c)Projective test .

d) Objective test T-Data.(pg:117)

84) personality development is the result of

a) Classical.

b) Instrumental

c) Both a and b

d) Motivation and learning .(pg:120)

85) This test has been widely used in predicting vocationally and academic success and failure .

a) projective.

b)objective

c) R technique and P technique .

d) 16 Pf (pg:121)

86) the most important ability traits is intelligence of which cattell describes two kinds .

a)fluid intelligence .

b) Crystallized intelligence .

c) both a and b . (pg:121)

d) none of the above .

87) ---------- refers to subject-object or subject-subject interactions of sufficient duration to include the significant element of any given behavioral sequence .

a) uniqueness.

b) need integrate .

c)proceedings(pg:124).

d)serials.

88)The ---------- refer to a single unit o r formulation of behavior taking place over a longer period of time such as marriage, friendship or a career in business .

a) uniqueness.

b) proceeding.

c) both a and b

d)serial .(pg:124)

89)A ---------- is a construct .Which stan ds for a force…in the brain region, a force which organizesperception, appereception, interjection ,conationand action in such a way as a transform in a certain direction an unsatisfying situation .

a) needs . (pg:125)

b) perception.

c) Imagery.

d)hypnosis.

90)type of needs include .

a) primary and secondary.

b)proactive and reactive .

c)process model and effect.

d) all of the above .(pg:126)

91) ---------- vary from simply formulation of a single subject-object interaction to more general and of longer transaction.

a) Tension reduction.

b)Need integrate .

c)Thema (pg:128)

d) vector –value scheme

92) ---------- consist of discovering what generates pleasure and what generateas distress for the individual.

a)genetic –measurement determinants.

b) uniqueness.

c) learning .(pg:28)

d) none of the above

93) ---------- explain behavior in terms of interaction between cognitive , behavioral and environmental determinants.

a)Behavioral learning theory .

b)Cognitive theory .

c) both a and b.

d) social learning theory (pg:133)

94) ---------- consider learning principles to be sufficient to explain and predict behavior and behavior change .

a) Roger.

b) Murray.

c) Albert Bandura.(pg:133)

d) none of the above

95)In ---------- we observe the behavior of other and use the information as a guide for our own behavior .

a)learning.

b) counseling.

c) conditioning .

d) modeling(pg:133)

96)Accurate hypothesis produce successful performance , and inaccurate hypothesis lead to ---------- behavior.

a)effective .

b)powerful.

c) consequence.

d) ineffective (pg:134)

97) Bandura gave us how many types of reinforcement .

a) 5.

b) 4.

c) 2.(pg:134)

d) none of the above .

98) when an individual witnesses someone else experience reinforcing or punishing consequences for a behavior and that individual anticipates similar consequences if she or he produce the same behavior . which reinforcement accour ?

a) direct reinforcement.

b)Self reinforcement .

c)victarios reinforcement . (pg:135)

d) reinforcement .

99)when an individual compares his or her behavior to internal standard.

a)self reinforcement (pg:134)

b) victarios reinforcement

c) both a and b .

d) none of the above .

100) attentional process include .

a) retention process.

b) Production process.

c)Motivational process .

d)all of the above (pg:135)

101) ---------- is the key concept in the theory of Dollard and Miller .

a) need .

b) Imagery .

c)reinforcement .

d) habit .(pg:143)

102) ---------- discovered a type of learning that became known as classical conditioning .

a) Watson.

b) Thorndike.

c) Dollar .

e) Pavlov.(pg:144)

103)---------- is a school of thought that focuses on the idea that all behavior is learned .
a) cognition.
b) classical.
c) behaviorism (pg:155)
d)none of the above .

104) A teacher might send the disruptive child out of the class into the hall for descipline is an example of :
a) undesired behavior.
b)Punishment.
c)Extinction.(pg:156)
d)Generalization.

105) if reinforcement is presented on each occasion this is referred to as which schedule of reinforcement .
a) interval reinforcement.
b)variable ratio reinforcement schedule.
c) continuous reinforcement schedule.(pg:157)
d)fixed ratio schedule.

106) ---------- Is an effective therapy that focus on changing individual's irrational and dogmatic cognitions by using technique .
a)cognitive therapy .
b) behavioral therapy .
c)REBT. (pg:164)
d)Emotional therapy.
