

PSY406

Quiz from Assessments (Mid-Term)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

1. A good teacher assess the students thoroughly and it includes: (Assessment of emotional intelligence and motivation; Background assessment; Academic assessment; All of the above)
2. Self-regulation is important for the good teacher. (True)
3. Educational psychology is the study of how people learn. (True)
4. Learning process is confined to the classroom only. (False)
5. In Pakistan the culture has been divided as: (rural and urban; modern and ancient; black and white; good and bad)
6. One of the Fringe Benefit of Self-Regulation is that the output of an individual increases by: (17%; 37%; 47%; 27%)
7. Researches have shown in various countries including Pakistan that leaders are _____. (none of them; made; both; born)
8. Subject matter remains static and do not change. (False)
9. Self-management includes: (Evaluation of oneself; Goal setting; Self reinforcement; All of them)
10. A good teacher has the following quality: (He communicates to the intelligent students only; He lacks the command on the subject; He underestimate the students; He knows his students).
11. In-depth study of an individual, group and institute is known as: (All of them; Experimental study; Case study; Correlational study)
12. Teaching machines have developed for the learning of children by whom? (Freud; Pavlov; Tichner; Skinner)
13. The variable manipulated by the experimenter is termed as: (independent variable; dependable variable)
14. In experimental studies the sample is usually divided into two groups: experimental group and _____. (reward group; central group; reinforcement group; control group)
15. The simplest research method of gathering information in educational psychology is: (all of the above; experimental studies; correlational studies; descriptive studies)
16. Following nation have worked for the development of the field of educational psychology: Russians and _____. (Pakistani; Chinese; Indian; Americans)
17. Ivan Pavlov conducted experiments on which animal predominately? (pigeons; monkeys; dogs; cats)
18. According to the researchers "spoon feeding" is a good practice for learning. (False)
19. Correlation can be positive and negative. (True)
20. In educational psychology principles of the learning are emphasized. (True)
21. In public sector institution in Pakistan a teacher must have at least a bachelor degree and a _____ degree. (M.Ed.; Intermediate; B.Ed.; Matric)
22. In developed foreign countries teacher is required to hold a membership in: (non-professional association; professional session; non-professional session; professional association)
23. In America and Europe the teacher must be a _____ . (reflective PR practitioners; reflective HR practitioners; reflective BR practitioners; reflective CR practitioners)

Maha Malik's Compilation

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

24. A statistical process that combines the data of multiple studies to find common results and to identify overall trends is termed as: (pet-analysis; meta-analysis; beta-analysis; gamma-analysis)

25. The examination body of the professional teacher in America is termed as: (INSTAGRAM; INTASC; INSTINCT; INCOME)

26. Punishment and reward both effect the process of learning. (True)

27. Internationally for becoming a teacher professional qualification is required. (True)

28. A prospective teacher should not be aware of the current debate and issues related to the effective teaching practices. (False)

29. Teachers should be aware of the changes in the laws related to education and teaching. (True)

30. Physical punishment is allowed in Pakistan especially in Punjab province in education and teaching sector. (False)

31. Which of the following type of development is not the scope of educational psychology? (physical development; cognitive development; social development; eco-friendly development)

32. The area of brain that coordinates balance like walking and standing is termed as: (thalamus; cerebellum; cerebrum; hippocampus)

33. Which of the following is not the general principle of development. (gradual development; immediate development; continuous and variable rate of development; orderly development)

34. Brain is an organ and _____ is its function. (hearing; vision; smell; mind)

35. Which hemisphere performs a vital role in language development of an individual? (right hemisphere; left hemisphere)

36. Brain is divided into left hemisphere and right hemisphere. (True)

37. Development of thinking patterns, mind, values, morality, problem solving strategies, etc are the example of physical development. (False)

38. A person develops in a complete isolation whether he is in a nuclear or joint family system. (False)

39. A child begins to imitate others at which stage of cognitive development. (Sensorimotor Stage; Preoperational Stage; Formal Operational Stage; Concrete Operational Stage)

40. When parents live with their children only, then this type of family is termed as: (Joint family; Nuclear family)

41. What is the age range of child at preoperational stage of cognitive development? (Birth to 2 Years; 2 Years to 7 Years; 11 Years to Adulthood; 7 Years to 11 Years)

42. A child can solve abstract problems at which stage of cognitive development? (Formal Operational Stage; Concrete Operational Stage; Sensorimotor Stage; Preoperational Stage)

43. A child learns to think in symbolic form at which stage of cognitive development? (Sensorimotor Stage; Concrete Operational Stage; Preoperational Stage; Formal Operational Stage)

Compilation

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

44. A child starts to classify objects and thinks logically at which stage of cognitive development? (Concrete Operational Stage; Formal Operational Stage; Sensorimotor Stage; Preoperational Stage)

45. Age range of child at formal operational stage is from 11 Years to Adulthood. (True)

46. Sensorimotor stage is a fourth stage of child's cognitive development. (False)

47. Age range of child at sensorimotor stage is from 7 Years to11 Years. (False)

48. Jean Piaget introduced four stages of child's cognitive development. (True)

49. Who thinks that self-talk plays an important role by making children plan and guide them? (Piaget; Vygotsky)

50. A teacher should _____ self-talk among students. (encourage; disregard; discourage; ignore)

51. Vygotsky believe that a child learns by a dialogue and _____ with other members of society. (Emotion; Interaction; Challenge; Action)

52. The theory proposed by Vygotsky is termed as: (Cognitive Theory; Developmental Theory; Sociocultural Theory; Biological Theory)

53. Life expectancy of cancer patients' _____ by using positive self-talk. (decreases; increases; remains same; minimizes)

54. Children learn by imitation and the process of internalization occurs as proposed by Vygotsky. (True)

55. Culture and society play no role in the learning of a child according to Vygotsky. (False)

56. Vygotsky was a Russian Psychologist who worked in the field of child psychology. (True)

57. Isolation is the developmental crises of which stage of development of Erickson? (Intimacy versus Isolation Stage; Ego integrity versus Despair Stage; Identity versus Role Confusion Stage; Generativity versus Stagnation Stage)

58. The age range of a child at Trust versus Mistrust Stage is: (Birth to 6 months; Birth to 18 months; Birth to 24 months; Birth to 12 months)

59. Each stage of development given by Erickson poses a particular problem, that he termed as: (Developmental crises; Developmental dispute; Developmental phase; Developmental issue)

60. Age range of a person at Industry versus Inferiority Stage is: (3 years to 6 years; 1.5 years to 3 years; Birth to 1.5 years; 6 years to 12 years)

61. Generativity versus Stagnation Stage comes at which age range? (Late Adulthood; Early adulthood; Middle Adulthood; None of these)

62. Ego integrity versus Despair Stage is the 1st stage of Erickson's developmental stage. (False)

63. Erick Erickson proposed that a person passes through eight stages of development. (True)

64. The developmental crises at 2nd stage of development is inferiority. (False)

65. A student with high positive self-concept would tend to put in greater effort in learning and mastering subjects. (True)

66. Intimacy versus Isolation Stage is the 2nd stage of development. (False)

67. Third level of moral development of Kohlberg theory is: (Conventional Moral Reasoning; None of the above; Post-Conventional Moral Reasoning; Pre-conventional Moral Reasoning)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

68. In the Asian cultural tradition; more emphasis is laid upon _____. (Individualism; Collectivism)

69. Kohlberg theory has how many levels of moral development: (One; Four; Two; Three)

70. According to Kohlberg which factors affect the moral development of a person? (Both; None of these; Peer relationship; Self-esteem)

71. The sum total of the principles that govern the person's behavior are termed as: (Mentality; Totality; Conceptuality; Morality)

72. When a person's judgment is based upon other's approval and other people's principles, then it is termed as: (Conventional Moral Reasoning; Post-Conventional Moral Reasoning; Pre-conventional Moral Reasoning; None of the above)

73. Post-Conventional Moral Reasoning has been subdivided into two stages: _____and Universal Ethical Principle Orientation. (Biological contract orientation; Ecological contract orientation; Moral contract orientation; Social contract orientation)

74. Lawrence Kohlberg theory of development is related to: (Biological development; Moral development)

75. Kohlberg's Theory of Moral Development has six stages. (False)

76. Misbehavior is universally considered as good practice. (False)

77. When a person practices aggression against another person to gain possession of any object, it is termed as: (Hostile Aggression; Instrumental Aggression)

78. Children who watch _____ program on television become more aggressive than others. (Violent; Non-violent; Domestic; International)

79. Hostile aggression is subdivided into following categories: (Instrumental Aggression; None of these; Active Aggression; Both of these)

80. If a person maintains ones rights with confidence, the intention is not to hurt or damages the other, then this is termed as: (Assertiveness; Challenging; Aggression; Cheating)

81. Teachers should encounter the problems of aggression and cheating behaviors of students. (True)

82. Researches have investigated that males are more indulged in cheating than females. (True)

83. In general, aggression can be subdivided into three categories. (False)

84. Teachers cannot eliminate the cheating behavior of children. (False)

85. Modelling is an important factor in making a child to learn assertiveness or aggression. (True)

86. Labelling a student in a negative manner by a teacher can _____ a student. (Develop; Improve; Stigmatize; Enrich)

87. An ability or a set of abilities to acquire and use knowledge for solving problems and adjusting to the world. (Humiliation; Stigma; Intelligence; Self fulfilling Prophecy)

88. A judgment or prediction which comes out to be true. (Aptitude; Intelligence; Stigma; Self-fulfilling Prophecy)

89. Nature has distributed all abilities equally among all the students. (False)

90. Intelligence of the student can be inherited and acquired. (True)

Compilation

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

91. Labelling a student by the teacher should be banned. (True)

92. A teacher CANNOT nourish and improve his students by increasing student's motivation to learn and acquire. (False)

93. If a student may omit or add a word from his/her own side while reading, then this is termed as: (Bad reading habit; Comprehension error; Word recognition error; Hyperactive)

94. Which of the following is NOT the sign of learning disability of a student assessed by a teacher? (Alertness; Word recognition error; Comprehension error; Bad reading habit)

95. Students, with learning disabilities may come to believe that they cannot solve their problems themselves; it is a sign of: (Unlearned helplessness; Learned strengths; Learned helplessness; Unlearned strength)

96. What are the causes of learning disabilities of a child? (Complication in growth; All of these; Genetics; Brain injury)

97. Nature has bestowed each student with same level of intelligence and abilities. (False)

98. Public laws DO NOT exist in the USA and Pakistan that regulate the diagnosis, assessment, and teaching of students with disabilities. (False)

99. Teachers should NOT be very careful in labeling a student of victim of any learning disability. (False)

100. Slurred speech is also a sign of learning disability. (True)

101. Impaired memory is also a sign of learning disability of a child. (True)

102. Teacher should know whether the reason for lower performance of a student is due to any learning disability or any other factors are involved. (True)

103. Articulation problems and _____ are the two most common problems. (Voicing problem; Stuttering; Language disorder; All of these)

104. Speech related and other issues are more prevalent in which age group of the children? (0 years to 2 years; 6 years to 11 years; 11 years to 16 years; 2 years to 6 years)

105. A teacher can encourage gifted student by: (Giving same home task; All of these; Encouraging abstract thinking; Expecting routine answers)

106. Stuttering generally appear in children at what age? (Between the ages of 7 and 8; Between the ages of 5 and 6; Between the ages of 3 and 4; Between the ages of 9 and 10)

107. A type of speech impairment, include speaking with an inappropriate pitch, quality or loudness or in a monotone, is termed as: (Voicing problems; Non-voicing problems)

108. Articulation disorders includes the following symptoms: (Substituting one sound for another; Distorting a sound; Adding or omitting a sounds; All of these)

109. About 50% of school-age children have some form of speech impairment in USA. (False)

110. In about 50% of the cases, stuttering disappears during early adolescence. (True)

111. It is NOT the duty of a teacher to identify students with learning/communication problems and refer them to specialist and psychologist. (False)

112. How many major cultures are prevalent in Pakistan? (Four; Five; Six; Three)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

113. When diverse cultural units emphasize their differences and work collectively to achieve a common goal, then this is termed as: (Cultural Conflict; Cultural Diversity; Cultural Compatibility; All of these)

114. Non material culture includes: (Highways, open spaces, and gardens; The physical environment; Nation's or groups architecture; Gestures and dress of individual)

115. Cultural diversity may be observed at micro level and _____ level. (Meso; Macro; Mega; Meta)

116. Culture has a strong impact on the educational psychology. (True)

117. Pakistan is a country which is enriched with various diverse cultures. (True)

118. Micro level is the larger level of expression of culture. (False)

119. Which factor is NOT the cause of low academic achievement? (High Socioeconomic Status; Learned Helplessness; Poor Health Care; Low Self Esteem)

120. Higher the socioeconomic status the higher would be the _____. (Muscle; Height; Weight; Power)

121. Parents of which socioeconomic class, talk more to their children and provide them more guidance. (Upper and Middle Class; Lower and Upper Class; Lower and Middle Class; Lower Class Only)

122. A psychological condition associated with feelings of lost control and feeling that a student cannot have a good academic achievement no matter how hard he works is termed as: (Learned helplessness; Unlearned helplessness)

123. Categorizing students according to their abilities is termed as: (Learned Helplessness; Self-Esteem; Peer Influence; Tracking)

124. Culture is one factor influences the educational psychology and the other factor is socioeconomic factor. (True)

125. Culture is defined as the knowledge, values, attitudes and traditions that guide and determine the behavior of a group of people. (True)

126. Government surveys show that our poor students do not access to clean drinking water so access to pens, pencils, calculators and computers is even more difficult. (True)

127. A language variation spoken by a particular ethnic, social or regional group is termed as: (Dialects; Cultural language; Bilingualism; Language difference)

128. Which of the following is NOT the average characteristics of men? (Assertive; Aggressive; Emotionally Sensitive; Active)

129. The difference in view of males and females that often favors one gender over the other, is termed as: (Gender Role Identity; Gender Bias; Sex Discrimination; Language Differences)

130. People with a "_____" identity would rate themselves high on characteristics usually associated with females, such as "sensitive". (Masculine; Feminine)

131. Some school curriculum manifest gender bias. (True)

132. Language and dialects have a profound influence on the educational process. (True)

133. The word gender refers to traits and behaviors that a particular culture judges to be appropriate for men and for women. (True)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

134. Women on average are assertive, aggressive and active. (False)

135. If a teacher conveys and teaches biased views about different genders, then this is an acceptable behavior. (False)

136. Changes simply caused by _____ such as growing taller or turning gray do not qualify as learning. (Maturation; Fragmentation; Saturation; Pigmentation)

137. The experiment conducted by Ivan Pavlov is known as _____ experiments. (Operant Conditioning; Classical Conditioning)

138. A process through which experience causes a more or less permanent change in one's knowledge and behavior is termed as: (Memory; Learning; Attention; Cognition)

139. In ABC sequence of leaning, "C" stands for: (Cause; Concern; Collaboration; Consequence)

140. When a reinforcer is presented at definite time intervals, then it is termed as: (Ratio Schedule; Interval Schedule)

141. Aristotle believed that learning takes place by the following factors: (All of these; Contiguity; Contrast; Similarity)

142. Aristotle was a _____ philosopher. (Greek; Pakistani; American; Russian)

143. Bell in experiments conducted by Pavlov on dogs is: (Conditioned Stimulus; Unconditioned Stimulus)

144. Skinner identified four conditions of learning. (True)

145. A good teacher SHOULD NOT be aware of the basic principles of learning. (False)

146. What is the purpose of using educational technology? (Control behavior of students; Change behavior of students; Impart better instructions; All of these)

147. A system where students earn tokens for good academic work is termed as: (Tray Economy; Toy Economy; Train Economy; Token Economy)

148. Following techniques can be used by the teachers to improve the behavior of students: (Token Economy; Behavior Shaping; Behavior Modification; All of these)

149. To encourage positive behavior in his students, a teacher can: (Avoid giving instructions to student; Avoid taking to student; Giving rewards for positive behavior; Delay in giving feedback)

150. The application of behavioral learning principles to change behavior of students in classroom and laboratories is termed as: (Partial Behavior Analysis; Practical Behavior Analysis; Applied Behavior Analysis; Automatic Behavior Analysis)

151. A technique in which a teacher reinforces each small step of progress taken by his students towards a desired goal. (Behavior Shaping; Token Economy)

152. There is only ONE way to give punishment to students. (False)

153. To encourage behavior is to reinforce it. (True)

154. Educational Psychologists DO NOT use principles of experimental psychology to modify behavior of their students. (False)

155. Desirable behavior is directed towards desirable goal. (True)

156. Learning by observation is termed as: (Vicarious Learning; Enactive Learning)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

157. Voluntary self-regulation can be learned by: (Practicing self-regulated behavior; All of these; Observing, watching and imitating; Direct teaching)

158. Bandura says that _____ elements play an important role in vicarious learning. (Two; Five; Three; Four)

159. Social cognitive theory is based on two major factors i.e., Enactive Learning and _____. (Vicarious Learning; Active Learning)

160. Bandura's early work focused on _____ behaviors and was labeled social learning theory. (Somatic; Social; Cognitive; Physical)

161. The concept of self-regulation and its relationships with learning is put forth by: (Skinner; Pavlov; Bandura; Zimmerman)

162. Bandura's early work on learning was based in behavioral principles of reinforcement and _____. (Socialization; Punishment; Redistribution; Cognition)

163. Learning by doing is termed as: (Enactive Learning; Vicarious Learning)

164. Bandura believed that traditional behavioral views were accurate, but incomplete. (True)

165. Self-regulation is that it must be carried by fear of punishment. (False)

166. The correct order of four cognitive processes of learning are: (Retrieval, storage, encoding, attention; Attention, encoding, storage, retrieval.)

167. Gathering information, and organizing it in relation to what you already know, is termed as: (Encoding; Retrieval; Storage; All of these)

168. The process of attaching meaning to sensations is called: (Learning; Cognition; Memory; Perception)

169. Noticing parts of sensation and then making a whole of it is termed as: (Top down processing; Bottom up processing)

170. Getting the information from store house when needed is termed as: (All of these; Storage; Retrieval; Encoding)

171. Early information processing views of memory used the _____ as a model. (Workstation; Laptop; Tablet; Computer)

172. There are a number of theories of memory, but the most common are the _____ processing explanations. (Data; Information; News; Record)

173. Memory is NOT one of the important factors that affect learning of students. (False)

174. The Atkinson- Shiffrin believes that the human senses are bombarded by stimuli all the time. (True)

175. Attention is the process through which we choose to focus to certain stimuli and ignore other stimuli. (True)

176. The knowledge that contains verbal information facts, figures etc., is known as: (Episodic Knowledge; Procedural Knowledge; Declarative Knowledge; Conditional Knowledge)

177. The storage time of short term memory is usually: (Between 20-25 Seconds; Between 15-20 Seconds; Between 5-10 Seconds; Between 10-15 Seconds)

178. The information which is acquired, stored and used in particular situation, is termed as: (General Knowledge; Domain- Specific Knowledge)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

179. A segment of overall memory storage where information, material or contents are held for only a short time, it is known as: (Long Term Memory; Short Term Memory)

180. A part of long term memory is the memory that we are not conscious of recalling is called: (Implicit memory; Explicit memory)

181. When a person knows when and why to apply and use declarative and procedural knowledge, then this is termed as: (Episodic Knowledge; Conditional Knowledge)

182. The information acquired, stored and used in different kinds of tasks and situations, is termed as: (General Knowledge; Domain- Specific Knowledge)

183. The knowledge in action or knowledge about certain procedures is termed as: (Conditional Knowledge; Procedural Knowledge; Episodic Knowledge; Declarative Knowledge)

184. How did you win that cricket match from your rival team when you were in class eight? It is an example of which type of knowledge? (Conditional Knowledge; Episodic Knowledge)

185. Knowledge and learning are NOT related to each other. (False)

186. A _____ is a pattern or guide for representing an event, concept or skill. (Schema; Attention; Perception; Information)

187. The factors affecting our lecturing and educational process are: (Meta cognition; Story Grammar; All of these; Script and Schemata)

188. A teacher can help student in planning, monitoring and _____. (Synthesizing; Formulating; Evaluating; Making)

189. A typical general structure that could fit many specific stories, is termed as: (Story Prose; Story Novel; Story Grammar; Story Poetry)

190. An individual receives thousands of stimuli everyday but gives attention to only _____ of them. (Some; All; None of the above; Half)

191. Which ONE of the following actions of the teacher CANNOT make the students attentive? (Calling students by name; Using bright colors; Highlighting of written and spoken words; Using dull and boring colors)

192. Attention and perception are NOT the factors that affect the learning of a student. (False)

193. Perception is a process of attaching meaning to the sensation that we receive. (True)

194. Teacher, who CANNOT capture and hold attention of students can prove to be effective teachers. (False)

195. Putting the problem in clear unambiguous words, is termed as: (Working Backward Strategy; Discovery Learning; Analogical Thinking; Verbalization Process)

196. Which of the following is NOT the concept given by the Bruner? (Students must be active; Students must be passive)

197. The leaning strategy given by David Ausubel, is termed as: (Expository Teaching; Discovery Learning)

198. Algorithm is which type of problem solving? (General Strategy; Domain Specific)

199. Jerome Bruner has given a learning strategy termed as _____ learning. (Documentary; Summary; Discovery; Recovery)

PSY406_Educational Psychology
Quiz from Assessments (Mid-Term)

200. When one limits the solutions for problems that are similar to one's at hand, then this is called: (All of these; Verbalization Process; Analogical Thinking ; Working Backward Strategy)

201. When a person draws specific conclusion from the general existing knowledge, then this is termed as: (Deductive Reasoning; Inductive Reasoning)

202. When one student with goal moves backwards to solve a problem, then this is termed as: (Expository Teaching; Analogical Thinking ; Working Backward Strategy; Verbalization Process)

203. Heuristics are which type of problem solving? (Domain Specific; General Strategy)

204. Problem solving is finding new answers to reach a goal or creating new solutions to problems. (True)
