CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 10 of 10 (Start time: 10:46:12 PM, 03 July 2024)

Which phase provides a road map for the developers during project planing?

Select the correct option

○	Coding
◉	Software Design
○	System Analysis
○	Testing

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 9 of 10 (Start time: 10:45:23 PM, 03 July 2024)

What was the initial focus in the early years of computing regarding software quality?

Select the correct option

○	Certification programs
◉	Debugging process
○	Software engineering procedures
○	Software Analysis

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 8 of 10 (Start time: 10:44:43 PM, 03 July 2024)

An array is a "_____" block of data whose entries are of the same type.

Select the correct option

- ○ oval
- ○ square
- ◉ rectangular
- ○ triangle

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 7 of 10 (Start time: 10:43:46 PM, 03 July 2024)

Which of the following is correct option about information hiding in software development.

Select the correct option

◉	It prevents unnecessary dependency between modules
○	Validity of module may not be compromised
○	It only depends on internal compositional structure of modules
○	It hides all data of program module

Question # 6 of 10 (Start time: 10:42:51 PM, 03 July 2024)

Why do many major software contractors require organizations to meet standards?

Select the correct option

○	To promote competition
○	To increase cost
●	To ensure quality
○	To decrease efficiency

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 4 of 10 (Start time: 10:41:11 PM, 03 July 2024)

What is the purpose of ergonomics in human-machine interface design?

Select the correct option

◉	Designing systems that harmonize with the physical abilities of humans.
○	Designing systems that harmonize with the physical abilities of machines.
○	Designing systems that harmonize with the mental abilities of humans.
○	Designing systems that harmonize with the mental abilities of machines.

Question # 3 of 10 (Start time: 10:40:12 PM, 03 July 2024)

How does a program counter function as a pointer?

Select the correct option

○	It stores numeric values
○	It updates the value of data items
○	It decode data in memory cells
◉	It holds the address of the next instruction

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 2 of 10 (Start time: 10:39:26 PM, 03 July 2024)

What is the layperson's perception about software design?

Select the correct option

○	Determining the software accuracy
◉	Deciding how the software system will do it
○	Deciding what the software system is to do
○	Determining the software performance

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 1 of 10 (Start time: 10:38:37 PM, 03 July 2024)

_____ phase is followed by Implementation phase of Software Life Cycle.

Select the correct option

○	Testing
◉	Design
○	Requirement Analysis
○	Debugging

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 10 of 10 (Start time: 02:59:38 AM, 02 July 2024)

Which of the following relates to Intellectual property laws?

Select the correct option

◉	Patent law
○	Islamic law
○	Liability law
○	System law

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 6 of 10 (Start time: 02:57:14 AM, 02 July 2024)

What does a primitive data type in programming languages allow for?

Select the correct option

○	Initializing objects for a class
○	Storing aggregate data
○	Deallocating memory cells for new data
◉	Declaration, allocation, and manipulation of data

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 5 of 10 (Start time: 02:56:37 AM, 02 July 2024)

What is the outcome of the design phase in software engineering?

Select the correct option

◉	Detailed structural plans
○	Project libraries
○	Test cases
○	Software requirements

CS101 - Introduction to Computing (Semester Quiz # 04)

Question # 4 of 10 (Start time: 02:56:05 AM, 02 July 2024)

What is the primary focus of the design phase in software engineering?

Select the correct option

○	Identifying problems
○	Creating a budgeting plan
●	Establishing requirements
○	Constructing the software system
