45, A “**pure**” social environment would rarely be strongly game-like in nature.

Lesson no 6

Important MCQ

46,

Language courseware is generally understood to refer to software applications designed for language learning.

47,

With the rise of peer-to-peer interactions and social learning affordances through the internet,

48,

artificial intelligence (AI),

49,

language-learning software, ILTs,

50.

Language courseware goes back to the earliest days of CALL in the 1960s

51.

Programmed Logic for
Automatic Teaching Operations
(PLATO)

52.

PLATO programs were created with the TUTOR programming language, specifically designed for education.

53.

PLATO was one of the first systems to be usable by non-expert

54.

PLATO did have capabilities to display graphics through a pneumatic tool

55.

The use of authoring languages still requires some coding on the part of the instructor.

56.

Much of the early work in courseware development of the 1960s and 1970s was designed along similar lines to how drill exercises worked in language labs at the time, with a heavy emphasis on repetitive exercises focused on grammar and vocabulary, inspired by behavioral learning theories.

57.

Most early language-learning software targeted a specific skill area, such as reading comprehension or grammar knowledge.

58.

A JavaScript library, such as the popular jQuery, is a set of pre-written JavaScript which allows for easier development of JavaScript-based applications.

@(Important).!

59.

The process of creating and delivering language-learning software has changed significantly since its beginnings in the 1960s.

60.

The most recent version of the web authoring language, HTML 5, includes features that are important in language-learning applications including native playback for audio and video, enhanced graphics, and robust language support .

61.

JavaScript (officially ECMAScript) is a scripting language.

62.

JavaScript (officially ECMAScript) is a scripting language that is incorporated into the source of the webpage.

63.

Open educational resources (OER)

64.

learning management system (LMS) or
virtual learning environment (VLE)

65.

One of the better-known and successful
ILTs is E-Tutor for German.

Lesson.07

McQ Important

66.

The first Internet e-book was created in
1971.

67.

Early e-book creators faced the twin challenges of building collections and learning how best to use new digital technology. Despite these significant challenges, many of the early collections flourished and continue today.

68.

One of the best known of these collections was the University of Virginia Library's Etext Center, founded in 1992. E-book libraries of a similar scale,

69.

E-books are searchable, interactive, and less expensive (millions are free).

70.

Writers are exploring the e-book medium and are using it in novel ways.

71.

Authors will use the Internet as they explore ebooks in their literary work

72.

The thirty-year history of the e-book on the Internet began with slow and steady development and then launched into accelerated progress.

73.

A significant change is not likely in the immediate future.

74.

Other Internet e-book projects have more of a retro feel.

75.

The e-book is still in the early stage of development as a medium.

76.

NetLibrary launched the first e-book database for libraries in 1998.

77.

The Internet Archive includes an open-source e-book reader.

78.

One of the best known of these collections was the University of Virginia Library

Quiz #01

File

1.

By helping students to use technology, we can promote their . (autonomy)

2.

Video games addicts should pay games. (ESL)

3.The 'Nuzzel' is a tool. news

4.The 'Hot Potatoes' is a tool. (Gaming)

5.The 'Google Classroom' is a platform.
(learning)

6.A web 2.0 site allows users to interact
and collaborate as . (creators)

7.The 'Wikipedia' is a tool. (web
resource)

8.The 'Telegram' is a tool. (chat)

9.Heart of Tota is kind of video game.
(ESL)

10. The internet has become a part of
_____phenomenon. (social)

11. Having internet access in classroom opens up _____\$. (learning)

12. The 'Everest Syndrome' refers to a _____situation of the use of technology. (specific)

13. Learning becomes more durable because more are involved in technology. (senses)

14. The PowerPoint is a tool. (office)

15. Technology can be a tool in language learning. (interactive)

Quiz 02

File

1. Learners' can be enhanced through technology. (cooperation)
2. Technology is a/an tool for learners. (effective)
3. With the development of internet, technology is becoming a vital feature of language classrooms. (second)

4.Learners must use technology as a part of their learning process. (**significant**)

5.Technology has been integrated into language education since . (**1960s**)

6.In the age of technology, language education is embarking on a new .
(**trend**)

7.Cooperation is one of the most important for learning. (**tool**)

8.Technology is affecting education in ways. (**revolutionary**)

9.Technology is redefining .
(**communication**)

10. The Internet allows language to come to . **(learner)**
