1. \_\_\_\_\_ filters out older Erythrocytes(RBCs)? **Spleen**
2. IgM or cold agglutinin activate at \_\_\_\_\_? **4c\***
3. \_\_\_\_\_ rejected faster than other tissue organs, kidney or heart? **Skin graft**
4. \_\_\_\_\_ is not accessible to the immune system? **Ag**
5. The first such recombinant antigen vaccine approved for human use is the \_\_\_\_\_?  
**Hepatitis B vaccine**
6. An \_\_\_\_\_ is a pharmacological or immunological agent that modifies the effect of other agents, such as a drug or vaccine? **Adjuvant**
7. Approximately 30% of all human tumors contain mutated versions of \_\_\_\_\_? **RAS gene**

8. RB which overcomes the hurdle of\_\_\_\_\_? **G1 to S hurdles**
9. Hypersensitivity also known as\_\_\_\_\_? **Intolerance**
10. Hypersensitivity based on\_\_\_\_\_? **Two factors**
11. Type 1 hypersensitivity also known as\_\_\_\_\_? **Immediate or Anaphylactic reactions**
12. Type 1 hypersensitivity is mediated by\_\_\_\_\_? **IgE**
13. Abnormal response against the otherwise harmless environment stimulus? **Allergy**
14. Which primary cells are involved in type 1? **Basophils, mast cells**
15. Sensitization of mast cells with IgE via which receptor? **FCR receptors**
16. Type 2 hypersensitivity is also known as? **Cytotoxic hypersensitivity**
17. Reaction time of type 2 is\_\_\_\_\_? **Minutes to hours**
18. Erythroblastosis fantails are also known as\_\_\_\_\_? **Hemolytic disease**

19. Cytotoxic T cells cause direct damage to target cells? **CD4**
20. Type 3 hypersensitivity also known as? **Complex hypersensitivity**
21. Example of endogenous antigens? **Erythroblastosis fetalis**
22. Time required for type 3 hypersensitivity is? **3-10 hours.**
23. Antibodies involved in type 3 are\_\_\_\_\_? **Mostly IgG and IgM**
24. Type IV hypersensitivity also known as? **Cell mediated hypersensitivity**
25. Autoantibodies against the glomerular basement membrane? **Good pasture syndrome**
26. These all are anti-inflammatory cytokines except? **IL-12**
27. TH2 cells upon activation secrete cytokines like IL-4 and IL-5 which activate? **B-cells**
28. Vesicular pathogens are presented in combination with class 1 MHC to\_\_\_\_\_?  
**T-helper cells**
29. NK cells cannot kill normal cells due to normal expression of\_\_\_\_\_? **Class 1 MHC**

30. Cytokine\_\_\_\_\_is involved in the class switching of antibodies to IgE? **IL-4**

31. Can humans make\_\_\_\_\_different Ab molecules?  **$10^7$ - $10^8$**

32. Time span of acute rejection is\_\_\_\_\_? **1-3 weeks**

33. Primary function of coagulation? **Antimicrobial activity**

34. Second most common antibody? **IgA**

35. How many kinds of polyadenylation? **Two**

36. ADCC is another form of? **Antibody dependent cellular cytotoxicity**

37. Exudation of plasma proteins and fluids\_\_\_\_\_? **Edema**

38. MASP stands for? **Mannose-associated serine proteases**

39. How many types of adjuvants? **Two**

40. First developed antibody? **igM**

41. Least common serum antibody is? **IgE**
42. All of the following are examples of live attenuated vaccines except? **Hepatitis A**
43. ICAM stands for\_\_\_\_\_? **Intracellular Adhesion molecule**
44. Resistance of the body against infectious disease? **Immunity**
45. Soluble antigens are? **Less immunogenic**
46. First line of immunodeficiency? **Innate**
47. Poly clonal antibodies belong to\_\_\_\_\_? **IgG**
48. Class switching of immunoglobulin occurs from IgM to\_\_\_\_\_? **IgG**
49. Complement proteins are produced by? **Liver**
50. Cytidine deaminase present in\_\_\_\_\_? **DNA deamination**
51. Induction of active humoral immunity? **Passive immunization**

52. IL-12 is cytokine of\_\_\_\_\_? **Inflammation**
53. Alpha-Fetoprotein level increasing during? **hepatocellular carcinoma**
54. Hypotensive type 1 is also called\_\_\_\_\_? **Immediate or Anaphylactic reactions**
55. Patients suffering AIDS are susceptible to\_\_\_\_\_? **Kaposi Sarcoma**
56. Animals with hybrid nature of immune cells with host and donor cells are? **Chimeras**
57. T-dependent antigens contain\_\_\_\_\_type of epitopes with few copies? **Same**
58. Isograft between individuals of same genetic makeup? **Identical twin**
59. Toxin production is neutralized by antibodies named? **Antitoxins**
60. Pro-inflammatory cytokines are involved in\_\_\_\_\_of the inflammatory process? **Up regulation**
61. Infectious diseases that spread from person to person are said to be\_\_\_\_\_?  
**Contagious**

62. Cytidine deaminase is present in\_\_\_\_\_? **B-cells**

63. Avidity is influenced by the\_\_\_\_\_of both antigen and antibody? **Valency**

64. Framework regions are products of different\_\_\_\_\_region genes? **Variable**

65. Unknown Ab can be determined by\_\_\_\_\_? **Direct ELISA**

66. Monoclonal Ab used for\_\_\_\_\_? **Tumor antigen**

67. Example of live attenuated vaccine? **Bacille Calmette-Guerin vaccine**

68. Pneumococcal polysaccharide serve\_\_\_\_\_? **T-independent antigen**

69. IgM or cold agglutinin active at\_\_\_\_\_? **4c\***

70. CD2 leucocyte function of which antigen\_\_\_\_\_? **Antigen 3(LFA-3)**
