Q1:

Which of the following statements is true regarding Vectors with no specified base type?

- a) A base type is needed, because Java needs to know how to allocate memory.
- b) If a base type is not specified the code will not compile.
- c) **No base type is needed, because Java will use the Object class as a base type.**
- d) No base type is needed because Vectors default to storing String objects.

If you found any mistake then inform me.

Q2:

Aside from the Scanner class, which of the following classes can be used for text-file file input?

- a) ObjectInputStream
- b) **BufferedReader**
- c) StringTokenizer
- d) None of these

If you found any mistake then inform me.

Q3:

You can -----to a network using sockets.

- a) Read
- b) Write
- c) **Read/Write**
- d) None of these

If you found any mistake then inform me.

Q4:

To create DataBaseMetaData object we write following line of code

- a) ResultSetMetaData rsmd = rs.getMetaData();
- b) **DataBaseMetaData db = con.getMeataData();**
- c) ResultSetMetaData rsmd = rs.setMetaData();
- d) DataBaseMetaData db = con.setMeataData();

If you found any mistake then inform me.

Q5:

Which of the following are passed as an argument to the paint () method?

- a) A Canvas object
- b) An Image object
- c) **A Graphics object**
- d) A paint object

If you found any mistake then inform me.

Q6:

Please choose one Java developed in-----

- a) 1990
- b) **1995**
- c) 1997
- d) 2000

If you found any mistake then inform me.

Q7:

Socket is a -----communication channel between hosts.

- a) Uni-directional
- b) Bi-directional**
- c) Multi-directional
- d) None of these

If you found any mistake then inform me.

Q8:

Event source can have ----- listeners registered on it.

- a) Single
- b) Double
- c) Multiple**
- d) Triple

If you found any mistake then inform me.

Q9:

The code below draws a line. What color is the line? `g.setColor(Color.red.green.yellow.red); g.drawLine(0, 0, 100,100);`

- a) Red
- b) Green
- c) Yellow
- d) Black**

If you found any mistake then inform me.

Q10:

Which of the following methods are invoked by the AWT to support paint and repaint operations?

- a) paint()**
- b) repaint()
- c) draw()
- d) redraw()

If you found any mistake then inform me.

Q11:

A serializable class must implement the method(s) _____.

- a) readObject and writeObject
- b) Either readObject or writeObject, or both, depending upon the desired behavior
- c) None of the given option
- d) No need to implement any method**

If you found any mistake then inform me.

Q12:

A member variable or method prefixed by the protected access modifier can be accessed:

- a) Within the same class
- b) Within the sub-class
- c) All of the above**
- d) Within the same package

If you found any mistake then inform me.

Q13:

A -----defines the way and method of communication between two parties.

- a) Compiler
- b) Protocol**
- c) Tool
- d) Technique

If you found any mistake then inform me.

Q14:

What if the main method is declared as private?

- a) The program does not compile.
- b) The program compiles and runs properly
- c) The program compiles but does not run**
- d) The program throws an exception on compile time

If you found any mistake then inform me.

Q15:

Please choose one If we remove String array from main then program _____

- a) Program cannot compile
- b) Program will compile and work properly
- c) Run time errors**
- d) Exception throws in main

If you found any mistake then inform me.

Q16:

defining a method, you must include a _____ to declare any exception that might be thrown but is not caught in the method.

- a) try block
- b) throws-clause**
- c) finally block
- d) catch block

If you found any mistake then inform me.

Q17:

A top-level class without any modifier is accessible to-----

- a) any class
- b) any class within the same file
- c) any class within the same package**
- d) any subclass of this class

If you found any mistake then inform me.

Q 18:

If we remove static from main then program _____

- a) Program cannot compile
- b) Program will compile and work properly
- c) Run time errors
- d) Exception throws in main**

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q19:

In Java, which of these classes implement the LayoutManager interface?

- a) RowLayout
- b) ColumnLayout
- c) FlowLayoutManager
- d) GridBagLayout**

If you found any mistake then inform me.

Q20:

A top-level class may have only the following access modifier.

- a) Package
- b) Public**
- c) Protected
- d) Private

If you found any mistake then inform me.

Q21:

Which of these are valid declarations for the main method?

- a) public static void main(String args[]);**
- b) static public void main(String);
- c) public static int main(String args[]);
- d) public void main();

If you found any mistake then inform me.

Q22:

BorderLayout is the default layout manager for a JFrame's content pane?

- a) False
- b) True**

If you found any mistake then inform me.

Q23:

You want a class to have access to members of another class in the same package. Which is the most restrictive access that accomplishes this objective?

- a) public
- b) private
- c) protected
- d) default access**

If you found any mistake then inform me.

Q24:

In Java, which of these classes implement the LayoutManager interface?

- a) RowLayout
- b) GridBagLayout**
- c) FlowLayoutManager
- d) ColumnLayout

If you found any mistake then inform me.

Q25:

In Java garbage collection is done by-----

- a) JVM (Java Virtual Machine)
- b) None of given
- c) Programmer
- d) Both JVM (Java Virtual Machine) and Programmer

If you found any mistake then inform me.

Q26

Which of following can be thrown using the throw statement?

- a) Error
- b) Throwable
- c) Exception
- d) All of Given

If you found any mistake then inform me.

Q27:

An expression tag contains a scripting language expression that is evaluated.

- a) True
- b) False

If you found any mistake then inform me.

Q28:

Which of the following feature provides the facility for multiple inheritance?

- a) Adapter classes
- b) Wrapper classes
- c) Collections
- d) Interfaces

If you found any mistake then inform me.

Q29:

In order to include graphics in your Java program, it is mandatory to extend from----- class.

- a) JLabel
- b) JPanel page
- c) JButton
- d) JFrame

If you found any mistake then inform me.

Q30:

If we want to animate something like ball, moving from one place to another. we constantly need to call paint () method.

- a) False
- b) True

If you found any mistake then inform me.

Q31:

Which of the following syntax is used to create a client socket?

- a) Socket s = new Socket(serverport);
- b) Socket s = new Socket("serverName", serverPort);
- c) Socket s = new Socket(serverPort, "serverName");
- d) Socket s = new Socket("serverName");

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q32:

JavaBeans are?

- a) A special Java class file
- b) Servlets
- c) Applets
- d) A Special form of JSP**

If you found any mistake then inform me.

Q33:

Which of the following features is available in java?

- a) Global variables
- b) Primitive data types**
- c) Pointers
- d) Operator Overloading

If you found any mistake then inform me.

Q34:

A final class can't be extended.

- a) True Click**
- b) False

If you found any mistake then inform me.

Q35:

-----is/are the JSP Implicit Object(s).

- a) Session
- b) Application
- c) Config
- d) All of Given**

If you found any mistake then inform me.

Q36:

ResultSet Meta Data will help you in answering the following questions except;

- a) How Many columns are in the ResultSet?
- b) How many rows are in the ResultSet?**
- c) Is the column name is case sensitive?
- d) What is the name of given column?

If you found any mistake then inform me.

Q37:

Window Listener interface contains methods.

- a) Four
- b) Six
- c) Seven**
- d) Eight

If you found any mistake then inform me.

Q38:

ServletConfig defines a set of methods that a servlet uses to communicate with its servlet container.

a) False

b) True

If you found any mistake then inform me.

Q39:

Servlet session and JSP session have different abilities.

a) True

b) False

If you found any mistake then inform me.

Q40:

An applet can be defined as:

a) A small program written in JSP and included in an HTML page

b) A small program written in Servlet and included in an HTML page

c) A small program written in JSF and included in an HTML page

d) A small program written in Java and included in an HTML

If you found any mistake then inform me.

Q41:

Which of the following driver type(s) has better performance than other?

a) Type 2: Native - API/partly Java driver

b) Type 3: Net - protocol/all-Java driver

c) Type 1: JDBC - ODBC Bridge

d) Type 4: Native - protocol/all-java driver

If you found any mistake then inform me.

Q42:

An expression tag contains a scripting language expression that is evaluated.

a) True

b) False

If you found any mistake then inform me.

Q43:

If we want to call toString() method of parent class in JAVA. Which of the following statement will be used?

a) sub.toString();

b) new.toString();

c) super.toString();

d) this.toString();

If you found any mistake then inform me.

Q44:

A final class can't be extended.

a) True

b) False

If you found any mistake then inform me.

Q45:

Java program code is compiled into form called

- a) Machine code
- b) native Code
- c) Byte Code**
- d) Source Code

If you found any mistake then inform me.

Q46:

Overloading is -----whereas overriding is -----

- a) Run time binding, compile time binding
- b) Compile time binding, run time binding**
- c) Run time binding, late time binding
- d) Late binding, compile time binding

If you found any mistake then inform me.

Q47:

setColor() is a method of -----object.

- a) JFrame
- b) Image
- c) JPanel
- d) Graphics**

If you found any mistake then inform me.

Q48:

Timer class constructor requires time in-----

- a) Seconds
- b) Milli seconds**
- c) Micro seconds
- d) Nano seconds

If you found any mistake then inform me.

Q49:

Which of the following syntax is used to create a Server Socket?

- a) `ServerSocket ss = new ServerSocket("serverName");`
- b) `ServerSocket ss = new ServerSocket(serverPort);`**
- c) `ServerSocket ss = new ServerSocket("serverName", serverPort);`
- d) `ServerSocket ss = new ServerSocket(serverPort, "serverName");`

If you found any mistake then inform me.

Q50:

Static methods only access-----

- a) Instance variable
- b) Instance method
- c) Static variables and methods**
- d) Both static and instance members

If you found any mistake then inform me.

Q51:

Which of the following is used for inheritance in java?

- a) implements
- b) extends
- c) : (colon)**
- d) inherit

If you found any mistake then inform me.

Q52:

----- returns the elements at specified position in the list.

- a) Object get(int index)**
- b) Object set(int index)
- c) Object return(int index)
- d) Object remove(int index)

If you found any mistake then inform me.

Q53:

A collection can store-----

- a) Homogenous objects**
- b) Heterogeneous objects
- c) Objects as well as primitive values
- d) At most 100 objects

If you found any mistake then inform me.

Q54:

The keyword "this" is used to

- a) invoke constructor of another class
- b) invoke constructor of sub class from super class
- c) invoke constructor of super class from sub class
- d) invoke alternate constructor of the same class**

If you found any mistake then inform me.

Q55:

Choose the correct syntax to define an interface named as "Speaker" in java language

- a) public class Speaker{ }
- b) public Speaker class interface{ }
- c) public interface Speaker{ }**
- d) public interface class Speaker{ }

If you found any mistake then inform me.

Q56:

The following is an example of.

```
BufferedReader br = new BufferedReader(fr);
```

- a) Byte oriented stream
- b) Node stream
- c) Filter stream**
- d) File stream

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q57:

There are _____ types of exceptions in Java

a) 2

b) 3

c) 4

d) 5

If you found any mistake then inform me.

Q58:

The classes which contain the word-----are byte-oriented streams.

a) Reader

b) Writer

c) Stream

d) Byte

If you found any mistake then inform me.

Q59:

Which of the following belongs to a category of checked exception?

a) Null Pointer exception

b) IOException

c) Array index out of bounds

d) NumberFormatException

If you found any mistake then inform me.

Q60:

Event source can have ----- listeners registered on it.

a) Single

b) Double

c) Triple

d) Multiple

If you found any mistake then inform me.

Q61:

Which of the following exception belongs to a category of un-checked exception?

a) IOException

b) Null Pointer

c) AWTException

d) ClassNotFoundException

If you found any mistake then inform me.

Q62:

An abstract class ----- instantiated.

a) Cannot be

b) Can be

c) Must

d) None of these

If you found any mistake then inform me.

Q63:

What if the way and method of communication between two parties the static modifier is removed from the signature of the main method?

- a) The program does not compile
- b) The program compiles and runs properly
- c) The program compiles but does not run
- d) The program throws an exception on compile time**

If you found any mistake then inform me.

Q64:

Exceptions must be handled while handling files otherwise it may lead to-----

- a) Logical error
- b) Syntax error
- c) Run-time error**
- d) No error

If you found any mistake then inform me.

Q65:

Which of the following package needs to be import while handling files?

- a) java.util
- b) java.awt
- c) javax.swing
- d) java.io**

If you found any mistake then inform me.

Q66:

Given a one-dimensional array arr, what is the correct way of getting the number of elements in arr

- a) arr.length**
- b) arr.length — 1
- c) arr.size — 1
- d) arr.length()

If you found any mistake then inform me.

Q67:

Which of the following syntax is used to attach an input stream to console?

- a) FileReader fr = new FileReader('input.txt');**
- b) FileReader fr = new FileReader(FileDescriptor.in);
- c) FileReader fr = new FileReader(FileDescriptor);
- d) FileReader fr = new FileReader(console);

If you found any mistake then inform me.

Q68:

All the exceptions and errors in java are inherited from -----class.

- a) Exception
- b) Error
- c) Throwable**
- d) IOException

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q69:

Window frame and dialog use _____ as their default layout.

a) Border layout

b) Flow layout

c) GridBag layout

d) Grid layout

If you found any mistake then inform me.

Q70:

Which of following can be thrown using the throw statement?

a) Error

b) Exception

c) Throwable

d) All of Given

If you found any mistake then inform me.

Q71:

Which of the following is modifier is provided by default if no access is written explicitly?

a) public

b) Private

c) Default

d) Protected

If you found any mistake then inform me.

Q72:

Which of the following stream read/write data in the form of bytes?

a) FileReader

b) FileWriter

c) PrintWriter

d) FileInputStream

If you found any mistake then inform me.

Q73:

An instance of abstract class cannot be created.

a) True

b) False

If you found any mistake then inform me.

Q74:

The relationship between class and interface is called-----

a) ' Is a ' relationship

b) ' Has a ' relationship

c) ' Responds to ' relationship

d) None of the given options

If you found any mistake then inform me.

Q75:

Which of the following is called ' pure abstract class ' ?

- a) Concrete class
- b) Wrapper class
- c) Abstract class with no abstract method
- d) Interface**

If you found any mistake then inform me.

Q76:

Which of the following is true about abstract class?

- a) An abstract class must have all methods declared as abstract methods.
- b) A class without any abstract method can be declared as abstract class**
- c) An instance of abstract class can be created
- d) A class must have at least one abstract method to be an abstract class.

If you found any mistake then inform me.

Q77:

Which of the following is true about AWT and SWING components?

- a) AWT components create a process whereas SWING component creates a thread.**
- b) AWT components create a thread whereas SWING component creates a process.
- c) Both AWT and SWING component creates a process.
- d) Both AWT and SWING component creates a thread.

If you found any mistake then inform me.

Q78:

Border layout divides the area into regions

- a) 2
- b) 3
- c) 4
- d) 5**

If you found any mistake then inform me.

Q79:

JPanel and Applet use----- as their default layout.

- a) Flow layout**
- b) Border layout
- c) GridBag layout
- d) Grid layout

If you found any mistake then inform me.

Q80:

Which of the following is a general-purpose container?

- a) JFrame
- b) JPanel**
- c) JApplet
- d) Dialog

If you found any mistake then inform me.

Q81:

Which of the following function will be used to register event handler with events generator(button)?

- a) AddAction()
- b) addActionListener()**
- c) addListener()
- d) registerListener()

If you found any mistake then inform me.

Q82:

If a class needs to handle events generated by button, then which of the following interface a class needs to implement?

- a) ComponentListener
- b) MouseListener
- c) ActionListener**
- d) KeyListener

If you found any mistake then inform me.

Q83:

Which of the following statement regarding Java is false?

- a) Java is a programming language
- b) A Java program compiles into machine language**
- c) Java is case sensitive language
- d) Java uses an interpreter

If you found any mistake then inform me.

Q84:

Which of the following function is declared in MouseMotionListener interface?

- a) public void mousePressed (MouseEvent me);
- b) public void mouseDragged (MouseEvent me);**
- c) public void mouseClicked (MouseEvent me);
- d) public void mouseEntered (MouseEvent me);

If you found any mistake then inform me.

Q85:

When there is just a onetime use of a particular object of a java class, we use-----

- a) named object
- b) anonymous object**
- c) either named object or anonymous object
- d) either named object nor anonymous object

If you found any mistake then inform me.

Q86:

Adapter classes have been defined for listener interfaces except _____ interface.

- a) MouseListener
- b) KeyListener
- c) WindowListener
- d) ActionListener**

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q87:

DML stands for?

- a) Data Management Language
- b) Direct Manipulation Language
- c) Direct Management Language
- d) Data Manipulation Language**

If you found any mistake then inform me.

Q88:

Which of the following package needs to import while interacting with relational database?

- a) java.io
- b) java.sql**
- c) javax.swing
- d) java.awt

If you found any mistake then inform me.

Q89:

If there is no exception in the try nor then the catch block executes.

- a) Always
- b) Sometime
- c) Never**
- d) None of the given

If you found any mistake then inform me.

Q90:

DSN stands for-----

- a) Data System Name
- b) Domain system Name
- c) Data Source Name**
- d) Database System Name

If you found any mistake then inform me.

Q91:

Array List can store objects of _?

- a) Same types only**
- b) Different types only
- c) Both same and different types
- d) Can't store objects

If you found any mistake then inform me.

Q92:

Which of the following method is used to execute SELECT SQL statements?

- a) executeUpdate(sql);
- b) ExecuteUpdate(sql);
- c) executeQuery(sql);**
- d) ExecuteQuery(sql);

If you found any mistake then inform me.

Q93:

Mouse motion event is generated when mouse is:

- a) Pressed
- b) Entered
- c) Clicked
- d) Dragged**

If you found any mistake then inform me.

Q94:

CREATE, ALTER, DROP are-----SQL statements.

- a) DML
- b) DDL**
- c) DCL
- d) None of given

If you found any mistake then inform me.

Q95:

AWT is a GUI package used in java, AWT stands for

- a) Apache Windows Toolkit
- b) Application Windowing Tools
- c) Application Windows Template
- d) Abstract Windowing Toolkit**

If you found any mistake then inform me.

Q96:

Which of the following method is used to execute INSERT, UPDATE and Delete SQL statements?

- a) executeQuery(sql);
- b) ExecuteQuery(sql);
- c) executeUpdate(sql);**
- d) ExecuteUpdate(sql);

If you found any mistake then inform me.

Q97:

DDL stands for?

- a) Data Definition Language**
- b) Data Driven Language
- c) Database Definition Language
- d) Database Driven Language

If you found any mistake then inform me.

Q98:

Which of the given Listener Interface is need to handle the "ActionEvent"?

- a) ActionListener
- b) KeyAction Listener
- c) ActionListener**
- d) MotionListener

If you found any mistake then inform me.

Q99:

Which of the following statement object is used to execute stored procedures?

- a) Statement
- b) PreparedStatement
- c) CallableStatement**
- d) None of given options

If you found any mistake then inform me.

Q100:

HashMap takes key as a/an-----

- a) Object**
- b) Array
- c) Primitive value
- d) Function

If you found any mistake then inform me.

Q101:

Timers are constructed by specifying both a delay parameter and a/an Listener.

- a) Action**
- b) Mouse
- c) Key
- d) Window**

If you found any mistake then inform me.

Q102:

Which of the following function will be used to register event handler with events generator (button)?

- a) addAction()
- b) addListener()
- c) addActionListener()**
- d) Register eventhandler()

If you found any mistake then inform me.

Q103:

Which of the following operator is used to concatenate strings?

- a) +=
- b) +-
- c) ++
- d) +**

If you found any mistake then inform me.

Q104:

Which of the following is a DDL statement?

- a) Select
- b) Delete
- c) Create**
- d) Update

If you found any mistake then inform me.

Q105:

In Java, types of statement objects are available for sending SQL queries to the databases.

- a) Two
- b) Three**
- c) Four
- d) Five

If you found any mistake then inform me.

Q106:

The given line of code will result in `System.out.println(5+9);`

- a) 59
- b) 5+9
- c) 14**
- d) Syntax error

If you found any mistake then inform me.

Q107:

To compile "Test.java" class, command is used in java.

- a) javac Test.java**
- b) javac Test
- c) java Test.java
- d) java Test

If you found any mistake then inform me.

Q108:

By implementing this interface, a class declares that it is willing to be by automatic serialization machinery.

- a) Checked
- b) Decode
- c) Read**
- d) Destroyed

If you found any mistake then inform me.

Q109:

Which of the following is the correct way to access `writeObject()` function using "out" object of `ObjectOutputStream` class.

- a) `out->writeObject()`
- b) `out<-writeObject()`
- c) `out->(writeObject())`
- d) `out.writeObject()`**

If you found any mistake then inform me.

Q110:

`int i = (int)( Math.random() * 5 ); // will generate random numbers between-----.`

- a) 0 & 4**
- b) 0 & 5
- c) 1 & 4
- d) 1 & 5

If you found any mistake then inform me.

Q111:

If you want the timer to fire only the first time and then stop, invoke-----

a) setRepeats(false)

b) setRepeats(true)

c) setOnce(false)

d) setOnce(true)

If you found any mistake then inform me.

Q112:

In ResultSetMetaData methods, method returns the number of columns in the result set.

a) getColumnDisplaySize (int)

b) getColumnLabel (int)

c) getColumnType (int)

d) getColumnCount ()

If you found any mistake then inform me.

Q113:

The method returns true or false depending upon whether the next row is available (exist) or not in ResultSet.

a) getters

b) next()

c) close()

d) close()

If you found any mistake then inform me.

Q114:

Which of the following method/s is a ResultSetMetaData method?

a) getColumnCount ()

b) getColumnName(int)

c) getColumnDisplaySize (int)

d) All of the Given Options

If you found any mistake then inform me.

Q115:

is the correct syntax to set size of top-level container "myFrame" as 200 rows in pixel and 400 columns in pixel.

a) myFrame.setSize(200,400) ;

b) myFrame.setSize(400,200) ;

c) myFrame->setSize(200,400) ;

d) myFrame->setSize(400,200) ;

If you found any mistake then inform me.

Q116:

Which of the following command is used to invoke an Applet from command line interpreter?

a) Applet htmlfile

b) appletviewer htmlfile

c) appletviewer javafile

d) viewer htmlfile

If you found any mistake then inform me.

Q117:

In ResultSetMetaData methods, method returns the suggested column label for printouts.

- a) getColumnName()
- b) getColumnCount ()
- c) getColumnType (int)
- d) getColumnLabel()**

If you found any mistake then inform me.

Q118:

The classes which contain the word -----in their names are byte-oriented streams.

- a) Reader
- b) Writer
- c) Stream**
- d) Byte

If you found any mistake then inform me.

Q119:

Given code is showing the result of addition of two integer type numbers. Choose correct output of this code. Int i = 7; int j = 8; int k = i+j;

System.out.println("Seven" + i + "plus Eight" + j + "is" + k);

- a) Seven 7 plus Eight 8 is 15**
- b) Seven i plus Eight j is k
- c) Seven i plus Eight j is +15
- d) Seven plus Eight is k

If you found any mistake then inform me.

Q120:

In the context of Java Graphics; most of time, painting is done automatically.

- a) True**
- b) False

If you found any mistake then inform me.

Q121:

How many ports are available for UDP socket?

- a) 64
- b) 128
- c) 64k**
- d) 128k

If you found any mistake then inform me.

Q122:

How many ports are available for UDP socket?

- a) 64
- b) 128
- c) 64k**
- d) 128k

If you found any mistake then inform me.

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

Q123:

How many ports are available for UDP and TCP socket simultaneously?

- a) 64
- b) 128
- c) 64k
- d) 128k**

If you found any mistake then inform me.

Q123:

In java, adapter classes have been defined for the following listener interfaces except interface

- a) FocusListener
- b) ComponentListener
- c) MouseMotionListener
- d) ItemListener**

If you found any mistake then inform me.

Q124:

If the subclass overrides all the abstract methods of super class, then subclass is called-----

- a) Abstract class
- b) Concrete class**
- c) Base class
- d) Parent class

If you found any mistake then inform me.

Q125:

In Java Graphics, while painting a swing component. which of the following functions is invoked first?

- a) Paint()
- b) paintComponent()**
- c) paintBorder()
- d) PaintChildren()

If you found any mistake then inform me.

Q126:

An applet is typically embedded in a Web page and can be run from a browser.

- a) True Page**
- b) False

If you found any mistake then inform me.

Q127:

In Java, we can read/write to a network using sockets.

- a) True
- b) False**

If you found any mistake then inform me.

Q128:

Which of the following statements attaches an output stream to console?

- a) `FileWriter fw = new FileWriter(FileDescriptor.out);`
- b) `FileWriter fw = new FileWriter(FileDescriptor.in);`
- c) `FileWriter fw = new FileWriter(FileDescriptor);`

All Services are Available: LMS Handling, Assignments, Quizzes, GDBs, Online Classes,
Project Making and Also Web Development Classes. WhatsApp: 03421718143

d) **FileWriter fw = new FileWriter("output.txt");**

If you found any mistake then inform me.

Q129

Which of the given Listener Interfaces is needed to handle the "MouseEvent"?

a) **MouseListener**

b) MouseMotionListener

c) MouseActionListener

d) MouseFocusListener

If you found any mistake then inform me.

Q130:

In Java, Transient fields are returned as null on reading.

a) **True**

b) False

Q131:

If ResultSet is TYPE_FORWARD_ONLY then it when you call to the previous () method.

a) Moves the cursor to previous row if cursor is on valid row

b) Returns false if cursor is not on valid row

c) **Throws an exception**

d) Executes normally

If you found any mistake then inform me.

Q132:

TELNET works on port.

a) 21

b) **23**

c) 80

d) 84

If you found any mistake then inform me.

Q133:

Java compiler is called on UNIX or windows.

a) **Javac**

b) java

c) cjava

d) c java

If you found any mistake then inform me.

Q134:

Java language has a little worse performance than C++ language, because

a) it is object-oriented

b) **it uses built in libraries**

c) it does not use pointers

d) it checks all errors, malicious and viruses

If you found any mistake then inform me.

Q135:

Which of the following Statements is true regarding paintChildren() method?

- a) It tells the component to paint its border
- b) It first paints the background and then performs custom painting
- c) It first performs custom painting and then paints the background
- d) It tells any components contained by this component to paint themselves**

If you found any mistake then inform me.

Q136:

Which of the given Listener interface(s) have adopter class(s)?

- a) ActionListener
- b) AdjustmentListener
- c) ItemListener
- d) MouseMotionListener**

If you found any mistake then inform me.

Q137:

In Java, Serializable Interface can be found under package.

- a) java.io**
- b) java.net
- c) java.sql
- d) java.util

If you found any mistake then inform me.

Q138:

The server just waits, listening to the socket for a client to make a connection request.

- a) True**
- b) False

If you found any mistake then inform me.

Q139:

A default ResultSet object has a cursor that

- a) moves backward only
- b) moves forward only**
- c) moves backward and Forward
- d) cannot move

If you found any mistake then inform me.

Q140:

Java does not handle exception by as keyword.

- a) try
- b) catch
- c) exception**
- d) finally

If you found any mistake then inform me.

Q141:

What will happen if main method is declared as private?

- a) The program will not compile
- b) The program will throw an exception at run
- c) The program will compile and run successfully
- d) None of given options**

If you found any mistake then inform me.

Q142:

Following are the code statements used in java event handling. Identify the code statement that is used for registering event handler with event generator

- a) b1.addActionListener(this)
- b) frame = new JFrame()
- c) frame.setSize(150, 150)
- d) b1 = new JButton("OK")**

If you found any mistake then inform me.

Q143:

The toString() method returns a representation of .

- a) int,string
- b) string,int
- c) object,string
- d) string,object**

If you found any mistake then inform me.

Q144:

Mouse events can be trapped for-----GUI component.

- a) JPanel
- b) JFrame
- c) JButton
- d) All of given**

If you found any mistake then inform me.

Q145:

The collection API are defined in package.

- a) java.io
- b) java.util**
- c) java.awt
- d) java.sql

If you found any mistake then inform me.
