بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of God , Most
Gracious, Most merciful

EDU515

MCQS

1. What is the primary goal of educational psychology?

- a) To teach students how to learn
- b) To understand how students learn
- c) To develop new teaching methods
- d) To test student knowledge

Answer: b) To understand how students learn

2. Which of the following is a characteristic of a constructivist classroom?

- a) Teacher-centered instruction
- b) Passive learning
- c) Active student participation
- d) Emphasis on memorization

Answer: c) Active student participation

3. Which theory emphasizes the role of social interaction in cognitive development?

- a) Piaget's Cognitive Development Theory
- b) Vygotsky's Sociocultural Theory
- c) Skinner's Behaviorism
- d) Kohlberg's Moral Development Theory

Answer: b) Vygotsky's Sociocultural Theory

4. In Piaget's theory, the stage where children begin to think logically about concrete events is called the:

- a) Sensorimotor stage
- b) Preoperational stage
- c) Concrete operational stage
- d) Formal operational stage

Answer: c) Concrete operational stage

5. Which of the following is the most critical factor in shaping a child's personality, according to Erikson?

- a) Genetics
- b) Parental influence
- c) Social interactions
- d) Environmental stimuli

Answer: c) Social interactions

6. What is the term for a mental structure that organizes knowledge and guides cognitive development?

- a) Schema
- b) Heuristic
- c) Prototype
- d) Algorithm

Answer: a) Schema

7. In which stage of Kohlberg's moral development do individuals make decisions based on universal ethical principles?

- a) Pre-conventional stage
- b) Conventional stage
- c) Post-conventional stage
- d) Autonomous stage

Answer: c) Post-conventional stage

8. Which type of memory involves the ability to recall facts and general knowledge?

- a) Episodic memory
- b) Semantic memory
- c) Procedural memory
- d) Sensory memory

Answer: b) Semantic memory

9. Which of the following refers to the ability to use language in various social contexts?

- a) Pragmatics
- b) Phonology
- c) Syntax
- d) Semantics

Answer: a) Pragmatics

10. What does the term "scaffolding" refer to in Vygotsky's theory?

- a) Providing minimal guidance
- b) Giving direct answers to questions
- c) Supporting a learner's development through structured help
- d) Encouraging self-regulation

Answer: c) Supporting a learner's development through structured help

11. The concept of "zone of proximal development" (ZPD) refers to:

- a) The difference between what a learner can do independently and what they can do with help
- b) The level of a child's motivation
- c) The specific skills that are innate in a child
- d) The type of task a child is best suited for

Answer: a) The difference between what a learner can do independently and what they can do with help

12. Which of the following best defines "learning" in the context of educational psychology?

- a) Acquisition of knowledge and skills through experience
- b) Memorization of facts
- c) Copying others' behavior
- d) Testing and assessment

Answer: a) Acquisition of knowledge and skills through experience

13. Which of the following is an example of intrinsic motivation?

- a) Studying for a test to get a good grade
- b) Reading a book for enjoyment
- c) Working hard to receive a reward
- d) Completing homework to avoid punishment

Answer: b) Reading a book for enjoyment

14. Which learning theory emphasizes reinforcement and punishment as the main factors shaping behavior?

- a) Behaviorism
- b) Cognitive learning theory
- c) Constructivism
- d) Humanism

Answer: a) Behaviorism

15. Which term refers to the ability to recognize and understand emotions in oneself and others?

- a) Emotional intelligence
- b) Emotional regulation
- c) Cognitive development
- d) Emotional reactivity

Answer: a) Emotional intelligence

16. Which of the following is an example of formative assessment?

- a) A final exam
- b) A standardized test
- c) A quiz given during a lesson
- d) A graduation exam

Answer: c) A quiz given during a lesson

17. What does “differentiated instruction” involve?

- a) Using one-size-fits-all teaching methods
- b) Tailoring instruction to meet the diverse needs of learners
- c) Testing all students in the same way
- d) Emphasizing group work for all students

Answer: b) Tailoring instruction to meet the diverse needs of learners

18. In Maslow’s hierarchy of needs, which need is considered the highest level of human motivation?

- a) Safety needs
- b) Social needs
- c) Self-actualization
- d) Physiological needs

Answer: c) Self-actualization

19. Which of the following is NOT a key component of Gardner’s theory of multiple intelligences?

- a) Logical-mathematical intelligence
- b) Interpersonal intelligence
- c) Physical intelligence
- d) Linguistic intelligence

Answer: c) Physical intelligence

20. What is the main difference between classical conditioning and operant conditioning?

- a) Classical conditioning involves voluntary behaviors; operant conditioning involves involuntary behaviors.
- b) Classical conditioning involves pairing stimuli; operant conditioning involves reinforcement and punishment.
- c) Classical conditioning focuses on reinforcement; operant conditioning does not.
- d) There is no significant difference between the two.

Answer: b) Classical conditioning involves pairing stimuli; operant conditioning involves reinforcement and punishment.

21. Which of the following is a cognitive strategy that helps individuals organize and retrieve information?

- a) Chunking
- b) Reinforcement
- c) Conditioned response
- d) Behavioral modeling

Answer: a) Chunking

22. Which is the primary goal of summative assessment?

- a) To monitor student progress during learning
- b) To provide ongoing feedback
- c) To evaluate student learning at the end of an instructional period
- d) To assess daily performance

Answer: c) To evaluate student learning at the end of an instructional period

23. Which of the following statements best describes a growth mindset?

- a) Intelligence is fixed and cannot be improved.
- b) Effort leads to improvement in abilities.
- c) Success depends on innate ability alone.
- d) Failure should be avoided at all costs.

Answer: b) Effort leads to improvement in abilities.

24. Which of the following is an example of a cognitive bias in decision-making?

- a) Anchoring bias
- b) Emotional intelligence
- c) Positive reinforcement
- d) Observational learning

Answer: a) Anchoring bias

Midterm preparation file

25. Which type of memory is most closely associated with remembering personal experiences?

- a) Episodic memory
- b) Semantic memory
- c) Procedural memory
- d) Sensory memory

Answer: a) Episodic memory

26. Which of the following is an example of a metacognitive strategy?

- a) Memorizing facts
- b) Self-monitoring one's learning progress
- c) Repeating information aloud
- d) Relying on extrinsic motivation

Answer: b) Self-monitoring one's learning progress

27. Which of the following learning styles emphasizes learning through visual aids and demonstrations?

- a) Kinesthetic
- b) Auditory
- c) Visual
- d) Interpersonal

Answer: c) Visual

Midterm preparation file

28. Which of the following is an example of positive reinforcement?

- a) Giving praise for good behavior
- b) Giving detention for bad behavior
- c) Ignoring disruptive behavior
- d) Punishing inappropriate actions

Answer: a) Giving praise for good behavior

29. Which of the following is an advantage of cooperative learning?

- a) It isolates students from each other to focus on individual work.
- b) It promotes competition among students.
- c) It encourages students to work together and learn from each other.
- d) It eliminates the need for teacher involvement.

Answer: c) It encourages students to work together and learn from each other.

30. Which of the following is an example of a cognitive development milestone in early childhood?

- a) Mastering fine motor skills
- b) Developing the ability to reason logically
- c) Learning to read
- d) Developing object permanence

Answer: d) Developing object permanence

Midterm preparation file

33. What is the term for the gradual decrease in response to a stimulus after repeated exposure?

- a) Classical conditioning**
- b) Extinction**
- c) Operant conditioning**
- d) Habituation**

Answer: d) Habituation

34. Which of the following best describes a major concept of Bloom's Taxonomy?

- a) Learning occurs only through reinforcement.**
- b) Learning involves different levels of cognitive complexity.**
- c) Learning is primarily driven by emotions.**
- d) Learning is a one-time event.**

Answer: b) Learning involves different levels of cognitive complexity.

35. Which of the following refers to the idea that learning occurs in stages?

- a) Piaget's stages of development**
- b) Gardner's multiple intelligences**
- c) Vygotsky's zone of proximal development**
- d) Skinner's operant conditioning**

Answer: a) Piaget's stages of development

36. Which of the following is an example of intrinsic motivation in an educational setting?

- a) Studying to pass an exam**
- b) Reading a book because of interest**
- c) Completing a project for a grade**
- d) Participating in class to earn rewards**

Answer: b) Reading a book because of interest

Midterm preparation file

37. What does the term “cognitive load” refer to?

- a) The amount of information the brain can process at one time
- b) The total number of hours spent studying
- c) The ease of recalling information
- d) The strategies used to increase memory retention

Answer: a) The amount of information the brain can process at one time

38. Which of the following best describes a “learning disability”?

- a) A developmental delay in physical abilities
- b) A difficulty in acquiring knowledge in a specific area despite adequate teaching
- c) An emotional response to a learning environment
- d) A challenge that limits a student’s social skills

Answer: b) A difficulty in acquiring knowledge in a specific area despite adequate teaching

39. What is the term for the belief that one’s abilities and intelligence can be developed through dedication and hard work?

- a) Growth mindset
- b) Fixed mindset
- c) Motivation theory
- d) Cognitive dissonance

Answer: a) Growth mindset

40. Which of the following best describes the concept of "self-regulation" in learning?

- a) Relying on the teacher for all guidance
- b) The ability to manage one's own learning process, including setting goals and monitoring progress
- c) Completing assignments in a group setting
- d) Focusing only on short-term tasks and ignoring long-term goals

Answer: b) The ability to manage one's own learning process, including setting goals and monitoring progress

MCQS

Midterm preparation file

41. Which theory suggests that people learn by observing others?

- a) Behaviorism
- b) Social Learning Theory
- c) Cognitive Development Theory
- d) Constructivist Theory

Answer: b) Social Learning Theory

42. In which of the following stages of Piaget's cognitive development do children begin to engage in symbolic play?

- a) Sensorimotor stage
- b) Preoperational stage
- c) Concrete operational stage
- d) Formal operational stage

Answer: b) Preoperational stage

43. Which of the following is the primary goal of a formative assessment?

- a) To measure students' final grades
- b) To monitor student learning and provide ongoing feedback
- c) To assess overall classroom behavior
- d) To determine the final ranking of students

Answer: b) To monitor student learning and provide ongoing feedback

44. What does "constructivism" emphasize in the learning process?

- a) Learning through direct instruction and memorization
- b) Learning through interaction with the environment and active engagement
- c) Learning through external rewards
- d) Learning based on teacher-centered control

Answer: b) Learning through interaction with the environment and active engagement

45. What is "transfer of learning"?

- a) The process of memorizing information
- b) Applying learned skills or knowledge in new situations
- c) The ability to recall information during exams
- d) The development of motor skills

Answer: b) Applying learned skills or knowledge in new situations

46. Which of the following best describes "metacognition"?

- a) The process of memorizing information
- b) The ability to think about one's thinking and learning process
- c) The study of emotional responses in learning
- d) The unconscious learning of new skills

Answer: b) The ability to think about one's thinking and learning process

Passing criteria of this course

Letter Grade	Grade Points	Equivalent Percentage
A+	4.00	90-100
A	4.00	85-89
A-	3.66 - 3.99	80-84
B+	3.33 - 3.65	75-79
B	3.00 - 3.32	71-74
B-	2.66 - 2.99	68-70
C	2.00 - 2.65	61-67
D	1.00 - 1.99	50-60
F	0.00	00-49

Passing Criteria for a Course:

The passing criteria is defined in such a way that it ensures the student shall be consistent in his studies throughout the semester.

Therefore, for passing a course/subject, student shall fulfill the following:

- Secure minimum **20%** score in Formative Assessments/Mid terms
- Secure minimum **20%** score in Final Term Examinations.
- Secure at least **40%** marks in aggregate while fulfilling the above requirements

Course Selection and Credit Hours

Q: How do I select courses when the course selection is open?

A: Follow these steps:

- 1. Check the credit hours allowed by your university (e.g., 21, 18, or 15 credit hours).**
- 2. Each subject typically has 3 credit hours.**
- 3. Divide the total allowed credit hours by 3 to determine how many subjects you can select.**

Examples:

21 credit hours = 7 subjects

15 credit hours = 5 subjects

Remember, the university may allow different credit hours for each student, so check your specific allowance.

By following these steps, you can make informed decisions during course selection and manage your credit hours effectively.
