Assigning someone the role of critic

❖ **Dialectic method**

Fostering a debate of opposing viewpoints to better understand an issue

❖ **Dysfunctional conflict**

Threatens organization's interests

❖ **E-business**

Maha Malik's Compilation

Running the entire business via the Internet

❖ **Electronic mail**

Uses the Internet/intranet to send computer-generated text and documents

❖ **Emotional intelligence**

Ability to manage oneself and interact with others in mature and constructive ways

❖ **Emotional intelligence**

Ability to manage oneself and interact with others in mature and constructive ways

❖ **Emotions**

Complex human reactions to personal achievements and setbacks that may be felt and displayed

❖ **Empowerment**

Sharing varying degrees of power with lower-level employees to tap their full potential

❖ **Equity sensitivity**

An individual's tolerance for negative and positive equity

❖ **Equity theory**

Holds that motivation is a function of fairness in social exchanges

❖ **ERG theory**

Three basic needs--existence, relatedness, and growth--influence behavior

❖ **Expectancy**

Belief that effort leads to a specific level of performance

❖ **Expectancy theory**

Holds that people are motivated to behave in ways that produce valued outcomes

❖ **Expert power**

Obtaining compliance through one's knowledge or information

❖ **External factors**

Environmental characteristics that cause behavior

❖ **External factors of behavior**

Environmental characteristics that cause behavior

❖ **External locus of control**

Attributing outcomes to circumstances beyond one's control

❖ **Extranet**

Connects internal employees with selected customers, suppliers, and strategic partners

❖ **Fit perspective**

Assumes that culture must align with its business or strategic context

❖ **Formal communication channels**

Follow the chain of command or organizational structure.

❖ **Functional conflict**

Serves organization's interests

❖ **Fundamental attribution bias**

Ignoring environmental factors that affect behavior

❖ **Galatea effect**

An individual's high self-expectations lead to high performance

❖ **Gender-flex**

Temporarily using communication behaviors typical of the other gender

❖ **Goal**

What an individual is trying to accomplish

❖ **Golem effect**

Loss in performance due to low leader expectations

❖ **Group**

Two or more freely interacting people with shared norms and goals and a common identity

❖ **Group Cohesiveness**

A "we feeling" binding group members together

❖ **Group support systems**

Using computer software and hardware to help people work better together

❖ **Groupthink**

Janis's term for a cohesive in-group's unwillingness to realistically view alternatives

❖ **High-context cultures**

Primary meaning derived from nonverbal situational cues

❖ **Human capital**

The productive potential of one's knowledge and actions

❖ **Humility**

Considering the contributions of others and good fortune when gauging one's success

❖ **Hygiene factors**

Job characteristics associated with job dissatisfaction

❖ **Impression management**

A process by which people attempt to manage or control the perceptions other form of them

❖ **Individualistic culture**

Primary emphasis on personal freedom and choice

❖ **Informal group**

Formed by friends or those with common interests.

❖ **Information richness**

Information-carrying capacity of data

❖ **Initiating structure**

Organizing and defining what group members should be doing

❖ **Instrumental cohesiveness**

Sense of togetherness based on mutual dependency needed to get the job done

❖ **Instrumental values**

Personally preferred ways of behaving

❖ **Instrumentality**

A performance to outcome perception

❖ **Intellectual abilities**

The capacity to do mental activities

❖ **Intelligence**

Capacity for constructive thinking, reasoning, problem solving

❖ **Internal factors**

Personal characteristics that cause behavior

❖ **Internal factors of behavior**

Personal characteristics that cause behavior

❖ **Internal locus of control**

Attributing outcomes to one's own actions

❖ **Internet**

A global network of computer networks

❖ **Intranet**

An organization's private Internet

❖ **Intrinsic motivation**

Motivation caused by positive internal feelings

❖ **Job design**

Changing the content or process of a specific job to increase job satisfaction and performance

❖ **Job enlargement**

Putting more variety into a job

❖ **Job involvement**

Extent to which an individual is immersed in his or her present job

❖ **Job satisfaction**

An affective or emotional response to one's job

❖ **Leader trait**

Personal characteristics that differentiate leaders from followers

❖ **Leader-member relations**

Extent that leader has the support, loyalty, and trust of work group

❖ **Leadership**

Process whereby an individual influences others to achieve a common goal

❖ **Learning**

A relatively permanent change in the behavior occurring as a result of experience

❖ **Legitimate power**

Obtaining compliance through formal authority

❖ **Liaison individuals**

Those who consistently pass along grapevine information to others

❖ **Linguistic style**

A person's typical speaking pattern

❖ **Listening**

Actively decoding and interpreting verbal messages

❖ **Low-context cultures**

Primary meaning derived from written and spoken words

❖ **Maintenance roles**

Relationship-building group behavior

❖ **Management**

Process of working with and through others to achieve organizational objectives efficiently and ethically

❖ **Managing diversity**

Creating organizational changes that enable all people to perform up to their maximum potential

❖ **Met expectations**

The extent to which one receives what he or she expects from a job

❖ **Motivation**

Psychological processes that arouse and direct goal-directed behavior

❖ **Motivators**

Job characteristics associated with job satisfaction

❖ **Need for achievement**

Desire to accomplish something difficult

❖ **Need for affiliation**

Desire to spend time in social relationships and activities

❖ **Need for power**

Desire to influence, coach, teach, or encourage others to achieve.

❖ **Need hierarchy theory**

Maha Malik's Compilation

Five basic needs--physiological, safety, love, esteem, and self-actualization--influence behavior

❖ **Needs**

Physiological or psychological deficiencies that arouse behavior

❖ **Negative inequity**

Comparison in which another person receives greater outcomes for similar inputs

❖ **Negotiation**

Give-and-take process between conflicting interdependent parties

❖ **Noise**

Interference with the transmission and understanding of a message

❖ **Nonassertive style**

Timid and self denying behavior

❖ **Nonverbal communication**

Messages sent outside of the written or spoken word

❖ **Norm**

Shared attitudes, opinions, feelings, or actions that guide social behavior

❖ **Normative beliefs**

Thoughts and beliefs about expected behavior and modes of conduct

❖ **Organization**

System of consciously coordinated activities of two or more people

❖ **Organizational Behavior**

Interdisciplinary field dedicated to better understanding and managing people at work

❖ **Organizational citizenship behaviors (OCBs)**

Employee behaviors that exceed work role requirements

❖ **Organizational commitment**

Extent to which an individual identifies with an organization and its goals

❖ **Organizational culture**

Shared values and beliefs that underlie a company's identity

❖ **Organizational identification**

Organizational values or beliefs become part of one's self-identity

❖ **Organizational moles**

Those who use the grapevine to enhance their power and status

❖ **Organizational politics**

Intentional enhancement of self-interest

❖ **Organizational socialization**

Process by which employees learn an organization's values, norms, and required behavior

❖ **Participative management**

Involving employees in various forms of decision making

❖ **Perception**

Process of interpreting one's environment

❖ **Perceptual model of communication**

Process in which receivers create their own meaning

❖ **Person-Job Fit**

The extent to which the contributions made by the individual match the inducements offered by the organization

❖ **Personal initiative**

Going beyond formal job requirements and being an active self-starter

❖ **Personality**

Stable physical and mental characteristics responsible for a person's identity

❖ **Personality conflict**

Interpersonal opposition driven by personal dislike or disagreement

❖ **Position power**

Degree to which leader has formal power

❖ **Positive inequity**

Comparison in which another person receives lesser outcomes for similar inputs

❖ **Proactive personality**

Action-oriented person who shows initiative and perseveres to change things

❖ **Process theories of motivation**

Identify the process by which internal factors and cognitions influence motivation

❖ **Programmed conflict**

Encourages different opinions without protecting management's personal feelings

❖ **Propensity to trust**

A personality trait involving one's general willingness to trust others

❖ **Purposeful communication distortion**

Purposely modifying the content of a message

❖ **Quality circles**

Small groups of volunteers who strive to solve quality-related problems

❖ **Realistic job preview**

Presents both positive and negative aspects of a job

❖ **Recruitment practices**

Attempts to attract qualified, diverse employees at all levels

❖ **Referent power**

Obtaining compliance through charisma or personal attraction

❖ **Reward power**

Obtaining compliance with promised or actual rewards

❖ **Role ambiguity**

Others' expectations are unknown

❖ **Role conflict**

Others have conflicting or inconsistent expectations

❖ **Role overload**

Others' expectations exceed one's ability

❖ **Roles**

Expected behaviors for a given position.

❖ **Schema**

Mental picture of an event or object

❖ **Scientific management**

Using research and experimentation to find the most efficient way to perform a job

❖ **Self-Concept**

Person's self-perception as a physical, social, spiritual being

❖ **Self-efficacy**

Belief in one's ability to do a task

❖ **Self-esteem**

One's overall self-evaluation

❖ **Self-fulfilling prophecy**

Someone's high expectations for another person result in high performance

❖ **Self-managed teams**

Groups of employees granted administrative oversight for their work

❖ **Self-management leadership**

Process of leading others to lead themselves

❖ **Self-monitoring**

Observing one's own behavior and adapting it to the situation

❖ **Self-serving bias**

Taking more personal responsibility for success than failure

❖ **Sex-role stereotype**

Beliefs about appropriate roles for men and women

❖ **Shared leadership**

Simultaneous, ongoing, mutual influence process in which people share responsibility for leading

❖ **Situational theories**

Propose that leader styles should match the situation at hand

❖ **Skill**

Specific capacity to manipulate objects

❖ **Social loafing**

Decrease in individual effort as group size increases

❖ **Social Perception**

The process through which individuals attempt to combine, integrate, and interpret information about others

❖ **Social power**

Ability to get things done with human, informational, and material resources

❖ **Socialized power**

Directed at helping others

❖ **Socio-emotional cohesiveness**

Sense of togetherness based on emotional satisfaction

❖ **Stereotype**

Beliefs about the characteristics of a group

❖ **Strength perspective**

Assumes that the strength of corporate culture is related to a firm's financial performance

❖ **Task roles**

Task-oriented group behavior.

❖ **Task structure**

Amount of structure contained within work tasks

❖ **Team**

Small group with complementary skills who hold themselves mutually accountable for common purpose, goals, and approach

❖ **Team building**

Experiential learning aimed at better internal functioning of groups

❖ **Team viability**

Team members satisfied and willing to contribute

❖ **Telecommuting**

Doing work that is generally performed in the office away from the office using different information technologies

❖ **Terminal values**

Personally preferred end-states of existence

❖ **Theory Y**

McGregor's modern and positive assumptions about employees being responsible and creative

❖ **Total quality**

An organizational culture dedicated to training, continuous improvement, management and customer satisfaction

❖ **Total quality management**

An organizational culture dedicated to training, continuous improvement, and customer satisfaction.

❖ **Transactional leadership**

Focuses on clarifying employees' roles and providing rewards contingent on performance

❖ **Transformational leadership**

Transforms employees to pursue organizational goals over self-interests

❖ **Trust**

Reciprocal faith in others' intentions and behavior

❖ **Valence**

The value of a reward or outcome

❖ **Value (congruence or person-culture fit)**

The similarity between personal values and organizational values

❖ **Value attainment**

The extent to which a job allows fulfillment of one's work values

❖ **Value system**

The organization of one's beliefs about preferred ways of behaving and desired end-states

❖ **Values**

Enduring belief in a mode of conduct or end-state

❖ **Virtual team**

Information technology allows group members in different locations to conduct business

❖ **Vision**

Long-term goal describing "what" an organization wants to become

❖ **Workforce demographics**

Statistical profiles of adult workers
