9. Being able to do something skillfully without having to consider everything closely _____ _____**Unconscious competence**
10. The difference between novice and expert teachers reflection practice is clearly visible in_____ **Developmental Readiness**
11. seeing teachers a reflective practitioner has rejected all mentioned notions except _____**helps teachers to develop repertoire of strategies**
12. according to Ash and Moore new teachers are _____ **not reflect critically and constructively**
13. According to Stephen Brook, reflective practice is? _____**Empowers the teacher to appreciate the bigger picture surrounding teaching**
14. Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs to ….. Multiple intelligence theory_____ **Logical**
15. Clarify is defined as _____ **State one point at a time**
16. Concept act as …….. tools for coping with the world and for solving problems____**cognitive**
17. Within a critical thinking framework, 'reasoning' is conducted from____ **Both 'a' and 'b'**
18. The term selective practice is derived from the work of _____**Dewey**
19. What confuses the critical thinking and pushes thought in specific directions ____**Emotions**
20. Comprehensive account of the situation either verbaly or in writing is termed as__ **Synthesis**
21. Reflective practice is important because it is used to _____**Enhance the quality of the learners**

22. Reflective practice is important because it _____ **ALL of the above**

23. Which of the following assumptions does NOT underlie action research?_____ **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**

24. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students_____ **In 3- dimensional instructions**

25. reflective practice is a crucial way of learning and extending_____ **professional understanding**

26. Concept formation involves. _____**Perception, abstraction, generalization**

27. Double loop learning is about _____ **changing the rules**

28. Reflection can be described as ----------_____**A reconstruction mental review**

29. The benefits of concept-based learning …….._____ **Depend on the intellectual level of thinking of the reflective practitioner**

30. Reflective Practices does not take place in a vacuum it occurs in a ___**social environment**

31. _____ include in personal challenges to effective reflective practice. _____**Pride**

32. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?_____ **Rhetorical frames**

33. The 4Ps in reframing matrix are Productive planning potential and ___**People perspective**

34. All are the barriers to the reflective practice except. _____**Lack of Critical thinking**

35. In reflecting writing it is important to select the most___ part of the event only. __**Significant**

36. Double loop learning involves_ _____._____**All of the above**

37. A reframing matrix is a tool used because different peoples have different_ _____**Experience to approach problem**

38. Exploring practice using inductive action planning requires _____**Clearly defined and expressed success criteria**

39. Cognitive shortcuts that people use to help make sense of complex information is known as: _____**Concept map**

40. In which type of reflection historic, political and cultural values frame practical problems? _____**Critical reflection**

41. Which beliefs are behind to make the casual relation of frames? _____**Assumptions**

42. Multiple intelligence theory benefits in _____**Development of strategies**

43. According to Habermas, reflection requires a level of detachment and _____**Objectivity**

44. A benefit of the greenaway model of reflection is_ _____**It is cyctical**

45. A reflective practitioner is able to _____**Question assumption and values**

46. The term reflective practice is derived from the work of _____**Schon**

47. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as: _____**Value**

48. According to a Brookfield, which is the most powerful lens for teachers? ____**The self lens**

49. Looking in is the part of reflective process which _____**Occur before teaching**

50. Synergistic thinking is _____**None of the above**

51. Key feature of reflection are: _____**All of these**

52. A reflective action plan involves being helped to: _____**All of these**

53. What happened when the original starting point causes a dilemma that needs to addressed?_____**Transformation**

54. The major concern for a reflective practitioner is to be aware with their _____ **Underlying beliefs and assumptions**

55. The theorem is a formal method of speculation developed by the _____ **Greeks**

56. _____ activities are the translation of naturalistic intelligence for reflective practitioner _____ **Categorizing, contrasting, classifying, organizing**

57. Concept-based learning means the reflective practitioner _____ _____ **Work with deeper levels of conceptual understanding**

58. A reflective practitioner in concept-based teaching and learning encourages _____ _____ **questions and investigation**

59. Lather stressed on the use of appropriate language in reflective practice to avoid:_____ **All of above**

60. Which are related to policies in use. They are used for dealing with the situation_____ **Action frames**

61. The benefits of utilizing (MI) theory in educator professional are multifold _____ **All of the above**

62. What act as catalyst to challenging the reflective practitioner to think at more advance levels_____ **Conceptual learning**

63. vehicles for explanation, prediction or control are called as _____ **Theories**

64. Which of the following is NOT one of the four steps in action research_____ _____ **Developing a professional measurement instrument**

65. dimensional instruction includes _____ **reforming concepts to improve the level of learning across multiple contexts**

66. making sound judgments in work related situation is an attribute of…… competence _____ **Ethical**

67. Unreflective thinker is: _____ **Unaware of the determining role of thinking**

68. Critical reflection facilitates_____ learning_____ **transformational**

69. 'Looking out' is a combination of _____ **A range of viewpoints about experiences**

70. A limitation of self reflection are ___ **The difference between perception and reality**

71. Reflective practice has been embraced by teachers, researchers , teacher and educator since last:_____ **two decades**

72. Reflection is the ability to reflect on questions __to improve practice._ **What, why and how**

73. Conceptual innovation is _____._____ **Like re-framing**

74. Epistemic stances_____ **Changes with the experiences**

75. What does not constitute professionalism?_____ **Reflection**

76. Having subject specialist knowledge is called _____ **Professionalism**

77. Emancipatory phase of critical reflective enquiry helps to _____ in the class.____ _____ **Encourage different ways of thinking**

78. In 5-step model of critical thinking, the first step is:_____ **Determining goals/objectives**

79. Single loop learning has ____strategies._____ **Rigid**

80. One principle of reflection in the Roth Model is that _____._____ _____ **It uses 'what', 'why' and 'how' questions**

81. Teachers mostly don't take _____what they did in class. _____ **Action**

82. Professional competencies may be developed by:___ _____**understanding and knowledge of social and policy contexts for education**

83. What does 'a lack of conceptual clarity' mean?_____ **the educational community has different interpretations of reflection**

84. Reflective practitioner has two levels. The names of these two levels are:
_____ **action level and cognitive level**

85. A taxonomy provides a structured framework to a reflective practitioner to move from
_____**Absolute knowing to Contextual knowing**

86. Principles of developing competence among reflective practitioners include _____
_____**assume roles beyond the classroom**

87. In reflective practice the major focus of teacher must not on "why things are happening "but on:_____ **what has happened?**

88. What is reflective practice ___ **Process of action to improve the professional role**

89. Synergistic thinking is a combination of following thinking levels:_____
_____**factual and conceptual thinking**

90. Reframing of beliefs is a four-step process. The order of determination of these beliefs is:_____ **core belief -supporting beliefs -opposites of supporting belief -reframed core belief**

91. According to Sandwell's view, giving emphasis on only individual reflection leads to:___
_____**ignoring accounts of other within the community within which reflection occurs**

92. Reflective writing focuses on _____._____ **Interpretation**

93. Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of
_____ **reflection**.

94. What is the trickiest pedagogic task according to Stephan Brookfield?
_____**Getting inside student's heads**

95. Re-theorising is the means by which Reflective Practitioners _____**Critically examine practice and theories in the light of theories**

96. The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ **Practical**

97. Which model encourages the teachers to think about a given situation and establish and action plan for dealing_ _____**Gibbs reflective cycle**

98. To increase our understanding, we need to_____ **respect evidence and reason**

99. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____ **continually develop and learn from their experience or meet organizational and national standards**

100. Critical reflection involves which of the following_____ **Analysing and evaluating**

101. All the practices of formal instruction expect_____ **it develops its own assumptions**

102. in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**

103. Which of the following is not a reason for reflective practice?
_____**Reflective practitioner models reflective learning**

104. The competence model is about _____
_____**how the teacher moves through different levels of awareness**

105. What does evidence suggest as being most important for a long-term commitment to Reflective Practice_
_____**Guidance and structure are key factors for Reflective Practitioners**

106. All are the stages of epistemic stances except:_____ **Situational knowing**

107. Reflective writing does all of the following expect: _____**create ideas**

108. Leaning from reflection can also be known as_____ **Professional development-based learning**

109. Our assumption can be_____ **Perceptual**.

110. Who discuss the cultural and personal risks involved in reflective practice_____ **Brookfield**

111. The jo-Hari windows has …… quadrants_____**4**

112. What help student to build trust and promote positive learning environment in class _____**teaching becomes responsive to student feedback**

113. Theories –in-use- means:_____**For exploring and developing ideas**

114. The theorem is a formal method of speculation developed by the_____._____ **Greeks**

115. Applying a new strategy to achieve an outcome and having a wider perspective is the attribute of:__ _____**Double Loop learning**

116. Who proposes a framework based on different kinds of critical thinking.___ _____**Halpern**

117. We understand frames through the use of _____._____ **Metaphors to communicate logic**

118. Re-Thinking mean:_____ **What is already known?**

119. A reflective practitioner uses a range of reflective models in the class because___

120. Self-regulation is _____._____ **A metacognitive process**

121. The Constant striving for self-improvement of a reflective practitioner may leads to :_____ **Self-disapproval**

122. Reflective practitioner does NOT believe in:_____ **One single truth/ one right way**

123. _____ activities are the translation of musical intelligence for reflective practitioner_____ **Listening, patterning, mirroring, repeating**

124. Benjamin Bloom major work in is _____. **Cognitive**

125. Which is the highest level of reflection from the following types?_____ **Critical**

126. A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in_____**3-dimensional instruction**

127. A common strand of reflecting-in-action and reflecting-on-practice is _____._____

128. Critical analysis for a reflective practitioner is a process to_____

129. Connecting with feelings in relation to applications of theory

130. The concept of frames has been developed as a tool for _____.

131. Theory- in-use can be constructed from:

132. The 'critical lenses' refer to _____.

133. Being open-minded means the Reflective Practitioner is _____ .

134. One of the Principles of reflective practice is based on _____research.

135.

Lecture No. 1 to 6 (Topic 01 to 36). QUIZ NO 1

30-12, 2020 to 01-12, 2020

1. A benefit of the green away model of reflection is _____ It is cyctical
2. **Which of the following best describes the benefits of reflective practice?** It determines what counts as knowledge.
3. **Teachers should value their reflection and ……** their practice_____
4. In professional setting what is not considered as a characteristic of reflection _____

5. According to sandwell's view giving emphasis on only individual reflection lead to____
6. Q47: Rapid reflection is all but_____
7. **Q5: A common strand of reflecting-in-action and reflecting-on- practice is Connecting with feelings in relation to applications of theory**
8. Which reflection requires models or framework which provide a specific and structured approach?_____
9. Which one statement is the example of core best practice?Teachers provides an enriched environment
10. **What is reflective practice?** Process of action to improve the professional role
11. What type of reflection allows teachers to modify his/her teaching strategy based on students responses? All the above
12. All are the ways for a teacher to develop reflective practice startegies except____
13. Dialogic reflection has less intense approach and involve individuals _____
14. Reflection on action deals with the happened Outside the classroom
15. **Q7: Bloom's model which guides the lowest level of reflection might use all the following except** Did I give enough time for individual activity?
16. Which of the following is NOT a skill which underpins reflexivity? **Existential phenomenology**
17. Reflective practice helps teachers to generate new knowledge and ideas by _____
18. A critical friend can be defined asA trusted person who asks provocative questions, provides data to examined through another lens, and offers critiques of a person's work as a friend
19. What leads to the lacks in conceptual clarity of teachers is reflective practice precess____
20. **Q13. What does the idea of reflective practice dismiss? Select the corect optionTeachers view**
21. What is the main characteristics of informal reflection _____
22. **Q31.Which of the following is not a reason for reflective practice? Select the correct option** It is a professional requirement correct

Which of the following about teacher's teacher's professional knowledge and understanding is true? Teachers need to develop reflection and evaluation to support their own and others practice

1. Reframing helps the reflective practitioner….? Both a and b
2. Personal attributes of critical thinkers include: changing with the experiences
3. a Limitations of self-reflection are……. the difference between perception and reality
4. Frames are influenced by ……Metaphors
5. Which of the following is not the attribute of reflective practice? It challenge and change practice
6. Kolb's reflective cycle…… Emphasizes the role experience play in learning
7. The first step in the reflective practice process is : make a list of teaching strategies that you used in previous week
8. Personal attributes of critical thinkers includes : all of above
9. Interpretation is the skills of Understanding and transmitting
10. Which reflective practice is done badly, ineffectively or inappropriately, it give rise to ---------- concerns. Professional
11. Reflecting logically allows teachers to take control of their learning and helps them to develop overall---------- Competencies
12. Epistemic stances Change with the experiences
13. All were the critiques on the Reflective practice movement except Helps to improve teachers practice
14. Critically reflective learning is nurtured by relationships between teacher and ------ Learner
15. The 4Ps reframing matrix are productive, planning potential and----------

People perspective

16. One of the pedagogic concern raised by reflective teaching is called

Development readiness
Conceptual understanding
Instructional planning
None of the above

17. Critical Reflection helps to support or challenge our views, practices and feelings by providing

Observation
Experience
Evidences
Experiments

18. Critical Reflection involves which of the following?

Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing
19. Single loop learning has ---------- strategies.

Automatic
Explanatory
Rigid

20. ---------- quadrant of Jo-Han windows represent the things that are unknown by you and are unknown by others

Open area
Blind area
Hidden area
Unknown area

21. Concept is looked or understood differently by reframing core belief based on

Core belief
New supporting beliefs
Opposite supporting beliefs
Intuitions
22. A reflective practitioner is able to

Question assumptions and values
Think outside the box
Question other people's assumptions
All of the above

23. What is the evidence of reflecting thinking?

Reflective writing
Making judgments
Analyzing questions
Linking theory to practice

24. In 5-step model of critical thinking, the first step is:

Practice before your assess
Gather and review feedback
Learn through seeking answer
Determining goals/objectives

25. Theory that commands the thinking the action is known as

Theory in action

Theory in reaction
Critical theory
Theory in use

26. Micro- Outcomes involves:
The broad overall results of professional activity
The outcomes of very specific activities
The result of a partially completed activity
All of these

27. Reflective practice is important because it is used to:
Improve teacher's practice
Enhance the quality of learners
Promote school culture
Motivate teachers and students

28. Emancipatory phase of critical reflective enquiry helps to ---------- in the class.
Maintain discipline
Promote rote learning
Encourage different ways of thinking
Discourage values, beliefs and practice.

1. Reflective practices focuses on.....
a)improvement
b)change
c)theories
d)intrepretation
2. Looking is the part of the reflective process which.....
a) occurs before teaching
b) occurs after teaching
c) occurs as a precondition for reflection
d) occurs as a response to experiences
3. Frames are influenced by.....
a)Metaphors
b) Individual interests
c) Perceptions
d)Experiences
4. which of the following do not transfer but are locked in time, place or a situation.....
a) concepts
b)ideas
c)facts
d)beliefs
6. Reflective action plan involves being helped to.....
a) select a specific target
b)Planned a programe of discussion and observation over a fixed period
c)Evaluate your effectiveness
d)All of the above
7. core critical thinking skills are .....
a) Analysis
b) Inference
c)self regulation
d)All of these
8. Epistemic stances
a) Are the ways to orgainze knowledge
b)Never changes with the experiences
c) changes with the experiences
d) Are used to describe facts
9. what is the trickest padagogic task acconding to stefhan brookfield?

a) Being fair with students task
b) Getting inside students heads
c) Maintaining professional relation with collegues
d) Participating in promoting school culture
10. A reframing matrix is a tool used because different people have different.....
a) Experiences to approch the problems
b))pace to cope up with the issue
c)protocols in the institution
d)Limitations to think
11. Reflective practice have been embraced by teachers researchers, teacher and educators since last .....
a) two decades
b)three decades
c)four decades
d)five decades
12. When a professionao practitionar is aware of the relevance of the skill it is called.....
a)concious incompitence
b)concious competence
c)in concious competence
d)inconcious incompetence
13. A product for a teacher might include.....
a) Relationship with students
b) Approches to assessment
c)strategies for behaviour management
d)All of these
14. Learning to learn is .....
a) An ability to pursue in leaning
b) Identifying available opportunities
c) Building on prior learning and experience
d)All of the above
15. what are the indicators of a reflective practionar?
a) Intellectual quality
b)Higher order thinking
c)Meta language
d) All of the above
16. Reframing helps to reflective practionar.....
a) see alternative solutions and actions
b)see things from other perspective
c)both a and b
d)None of the above
17. Which of the following helps to reduceblind area and expand open area of a person in team context.....
a) feedback
b)support
c) Information
d)reflection
18. Personal attributes of critical thinkers include:
a) Honesty about emotions
b) Evaluation disposition brone from open- mindness
c) Personal awareness specially relating to personal bias
d) All of the above
19. Reflecting logically allows teachers to take control of their learning and helps them to develop overall .....
a) Personality
b) Competencies
c) Practices
d) Performance

1) which of the following is an example of warm feedback.Warm feedback consists of supportive, appreciative statements
2)The critical lenses refer toNone of above

3)The practitioner accounts are considered none-problematic for all reasons expectNo effort is made to footer reflection on language
5) The cognitive processes is characterized as essential toHigher order thinking
7)which of the following best describe a ' regular learning network':A place for a teacher to come together and discuss matter and concern
8) Technical rationally in reflection deal with theBehavior and skills
9) critical reflection involves which of the followingAnalysing and evaluating
11) reflective practitioner does not believe inOne single truth/one right way
12) learning+ reflection= Experience Is know asBoud's triangular representation
The first step in the reflective practice process is:Examine teaching occasion particular that went bad
……allows teachers to analyze what they have been learned and how they learned to take control of their development.Critical reflection
In reflective practice, practitioner engage in a continuous cycle of self-observation and…….Self evaluation
A 'product 'for a teacher might include……All of the above
Absolute knowing is a process of ……Learning from other
The stage-6 of critical thinking development is called as the ……..thinker.Accomplished
Which of the following is NOT a 'best' practice?Follow the next closely to ensure coverage of the curriculum
Core Critical Thinking Skills are:All of the these
Reframing helps the Reflective Practitioner……..Both 'a' and 'b'
In reflective writing the two source of evidence are: your and academic reflection

Quiz 1...edu 406
Q1: To operationalize a best practice approach teachers must
Be committed to professional dialogue with other teachrs
Be open-minded and committed to professionalism
See practice as a process of analysis
Be focused on technical proficiency
Q2: What is the impact of reflective practices on the teacher?
It leads higher quality practice
It leads to greater independence for the teacher
It sustains inclusive environments
Q4. The 'critical lenses' refer to
The perspectives that a teacher uses to generate different viewpoints
The focus given to the Reflective Practitioner by taking the o different viewpoints necessary to reflect on practice
A set of different viewpoints
None of the above
Q8. According to Brookfield, which is the most powerful lens for teachen? Select the correct option
The Self Lens
The Student Lens
The Peers Lens
The Theary Lens
Q9: Double loop leanng involves
Changing personal assumptions
Changing personal approaches
Both a and 'b
None of the above
Q10. **The Reflective Practitioner must** _____.
Manage workloads as part of their role in planning and leading the profession
Ensure a suitable work-life balance
Both „a" and „b"
none of above corrct
Q11. Benjamin Bloom major work in is Select the correct option
Affective
Management
Cognitive
Psychomotor
Q12.Conceptual innovation is Select the correct option
Like re-framing

The same as re-framing
Not re-framing
Identifying new questions

Q14. What are the major mechanisms involved in critical thinking for the reflective prachitioner? Select the correct option

Self-regulation
interpretotion
both a and b
None of the above

Q15.What is question/ analysis in the reflective cycle? Select the corect option. Taking on the role of researcher

Q16. one of the four steps in action research.

Identifying the research problem

Q17. What do systematic reflexivity and epistemic reflexivity focus on? Select the correct option

Suppositions, theories, beliefs and assumptions

Q18. Which of the following not a component of the process involved in reflective practice? Select the corect option Subject Knowledge

Q19. **Which of the following is NOT a best practce? Select the colrect option**

Educates the whole child
Follows the text closely to ensure coverage of the curriculum
Students' active participation in leaning
Chalenging envoronments

Q21. One part of learning from reflection relies on teachers being open minded These charactenstics include all but Select the correct option

Accepting consequences of their decisions
Viewing situstions from multiple perspectives
Searching for alternatives explanations for classroom events
Using evidence to suppoit or evaluate a decision or position

Q22. What does evidence suggest as being most important for a long-term commitment to Reflective Practice?

Reflection is more effective when conducted collaboratively
Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
Guidance and structure are key factors for Reflective Practitioners
When the Reflective Practitioner knows what is best for children

Q23. What does „a lack of conceptual clarity" mean?

The educational community has different interpretations of reflection
It confuses perceptions about what happens in the classroom
It includes too many viewpoints and so becomes confusing for the individual
does not account for students" perspectives

Q24.Creative Thinking is not critical thinking because

It is not logical
Ut is not problem-centred
It is emotive
It is not based on „black-and-white" thinking

Q25.Reflection-on-action can be described as _____

Thinking about what to do
A reconstructive mental review
Problem resolution
Weighing the pros and cons of alternatives

Q26.

Critical thinking is _____.

Select correct option:

A biological process
A psychologicaland cognitive process
A communication process
All of the above

Q29.Critical Reflection involves which of the following?

Select correct option:

Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing

Q30. What factor makes reflection seem time-consuming?
Select correct option:
Regular learning networks are very time-consuming
Lack of leadership for Reflective Practice
Regular learning networks are very time-consuming
Staff is too busy
Q32.Self-regulation is Select the correct option
A metacognitive process correct
A creative process
A psychological process
A communication process
Q34.To increase our 'understanding' we need to Select the correct option
Dismiss reasoning
R espect evidence and reason
Think criticaly
None of the above

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both ‘a’ and ‘b’
- None of the above

2. Reflection is NOT _____.

- A simple ‘tick box’ activity
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

3. : Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

4. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

5. Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

6. : The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching

- Both ‘a’ and ‘b’
- None of the above

7. : Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

8. : By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

9. : Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

10. : The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

11. : We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

12. : The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

13. : Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

14. : Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

15. : Concepts determine _____.

- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained

- The frames for perception
- The ways a Reflective Practitioner explains experience

16. : A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box'
- Question other people's assumptions
- All of the above

17. : We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

18. : Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

19. : An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

20. : Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

21. : A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

22. : Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

23. Our assumptions can be revealed and explored through four lenses.
24. A product for a teacher might include. All of above
25. A paradigm shift is. Brings a new set of concepts
26. Reframing for new learning is. Focused on inventing new strategies
27. The highest level of Bloom taxonomy is. Evaluation
28. Using a reflective action plan is valuable. To set targeted action points
29. The Professional development Journal supports the RP to. Reflect on experiences
30. Inductive learning is. Specific to general

84: We can make theory-in-use visible by..

a) Construction someone's theory-in-use from observations of behavior

b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts

85: A 'problem statement'

a) Is not too specific
b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general

88: The reflective practitioner uses 3-dimensional instruction to

.. b) Develop understanding of connection between topics/subject
c) Build use multiple intelligence in their teaching
d) all of the above

89: **critically reflective teaching is .**

. a) responsible for highly effective pedagogies
B) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above

According to moon what are the key aspects of reflective practice.

A). reflective practice is a form of mental processing
b. Relies of a cognitive re processing of experience
c. aims to understand complexity and confusion in experience
d. All of the above.

10. Which of the following is not the best practice?

ANS. Follows the text closely to ensure coverage of the curriculum

11. One part of learning from reflection relies on teachers being open minded . these characteristics include all but.?

Ans. Using evidence to support or evaluate a decision or position.

12. What is hyper reflexivity?

Ans. Deconstructing applications of knowledge in the classroom.

13. The most significant part of the model is...? Ans learning from experience

14.DATA refers to...?The four steps analytical process necessary for guiding reflection

Which of the following about teacher's teacher's professional knowledge and understanding is true?

Ans. Teachers need to develop reflection and evaluate to support their own practice

20) Personal attributes of critical thinkers include:
Honesty about emotions
Evaluation disposition borne from open-mindedness
Personal awareness especially relating to personal bias
All of the above

Kolb's reflective cycle:
Emphasis the role experience plays in learning
Illustrates the developmental nature of reflection
Both a, b
None of the above

Which of following is not the reason of reflective practice:
Reflective practice helps students learn
It encourages us to understand our learners and their needs
It is a professional requirement
Reflective Practitioners models reflective learning

What are three levels of reflection:
Technical, empirical, practical
Technical, practical, Critical
Rational, Technical, Critical
Rational, Practical, Critical

Processes in participatory reflection include all of the following except

Careful description
Thoughtful listening
Extending thinking
None of the above

knowing in action is described by Schon as:
Our knowing is ordinarily implicit in our patterns of action
When we cannot say what we know
When we go about spontaneous, intuitive performance of the actions of every day life
All of the above

Interpretation is the skill of
Understanding and transmitting
Cognition and communication
Thinking and talking
Receiving and sending information

When we think habitually, we_____
Ans: Ignore Data

A learning 'hub' which challenges practice and policy.

Looking in is the part of the reflective process which_____
Ans: Occurs as a response to experiences

Which of the following is an example of warm feedback?
Ans: Warm feedback consists of supportive, appreciative statements

Self-regulation is _____
Ans: A metacognitive process

One principle of reflection in the Roth Model is that _____
Ans: It uses 'what', 'why' and 'how' questions

Question 1:
Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:
According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:
Which of the following is NOT a 'best' practice? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

Question No.4:
What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments
Question 5:
Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:
Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:
What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation
- interpretation
- both ‘a’ and ‘b’
- None of the above

question 8:
Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on ‘black-and-white’ thinking

DATA refers to pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:
What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:
What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher’s values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

5:
Which of the following about teacher's teacher’s professional knowledge and understanding is true?
Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6
What does ‘a lack of conceptual clarity’ mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students’ perspectives

7
According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8
Which of the following is an example of ‘warm’ feedback?

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9
Which of the following is not reflection in a professional setting?
- Deliberate
- Theory-focused
- Object-led
- Purposeful

10
The 'critical lenses' refer to
- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:
Reflection-on-action can be described as _____
- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:
Which of the following is NOT a principle of Reflective Practice? Pg.8
Select correct option:
- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

6:
Critical thinking is _____.
Select correct option:
- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:
What are three levels of reflection?
Select correct option:
- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8
What is question/ analysis in the reflective cycle?
Select correct option:
- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:
Interpretation is the skills of _____.
Select correct option:
- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2
Critical Reflection involves which of the following?
Select correct option:

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualising and describing

2:
Which of the following is NOT one of the four steps in action research?
Select correct option:
Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3
What is part of the analytical process for the practitioner?
Select correct option:
- The identification of own assumptions
- The examination of the underlying values base
- Both 'a' and 'b'
- None of the above

4
Why reflective practice is so important?
Select correct option:
- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

5
The most significant part of the model is _____.
Select correct option:
- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6
What do systematic reflexivity and epistemic reflexivity focus on?
Select correct option:
- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7
When we think habitually, we _____.
Select correct option:
- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8
Double loop learning involves _____.
Select correct option:
- Changing personal assumptions
- Changing personal approaches pg.51
- Both 'a' and 'b'
- None of the above

9
What factor makes reflection seem time-consuming?
Select correct option:
- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers

3. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
4. True about teacher's professional knowledge and understanding?
5. What is reflection practice? Process of action to improve the professional role
6. Best describes a regular learning network. A learning "hub" which challenge practice and policy
7. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

1. One part of learning from reflection relies on teachers being open-minded. These characteristics include all but……

a) Accepting consequences of their decisions
b) Viewing situations from multiple perspectives
c) Searching for alternatives explanations for classroom events
d) **Using evidence to support or evaluate a decision or position**

2. What is hyper-reflexivity?

a) Reflecting on the components parts of changing practice
b) **Deconstructing applications of knowledge in the classroom**
c) Deconstructing meaning acquired from experiences in the classroom
d) Acquiring meaning from experiences in the classroom

3. Kolb's reflective cycl ……

a) Emphasises the role experience plays in learning
b) Illustrates the developmental nature of reflection
c) Both 'a' and 'b'
d) None of the above

4. Which of the following is not a reason for reflective practice?

a) Reflective practice helps students learn
b) It encourages us to understand our learners and their needs
c) It is a professional requirement
d) Reflective practitioner models reflective learning

5. To operationalize a best practice approach teachers must

a) Be committed to professional dialogue with other teachers
b) Be open-minded and committed to professionalism
c) See practice as a process of analysis
d) Be focused on technical proficiency 6. Rapid reflection is all but …..

a) Contemplative
b) Immediate
c) On-going
d) automatic

7. Processes in participatory reflection include all of the following except

a) Careful description
b) Thoughtful listening
c) Extending thinking
d) None of the above

8. A critical friend can be defined as ……

a) Someone who assume a directive role
b) A trusted person who asks provocative questions, provides data to be examined through another lens, and others critiques of a person's work as a friend
c) A colleague who provides solutions to problems
d) Judges actions and behaviors as part of feedback

9. Bloom's model which guides the lowest level of reflection might use all the following except ….

a) Was my explanation clear enough for the students?
b) Was the lesson complete on time?
c) Did I give enough time for individual activity?
d) What instructional strategies were used?

10: Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- Teachers need to develop reflection and evaluation to support them their own and other practice

11: According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- Is a way for teaches to understand their problems
- **None of the above**

12: Which of the following is NOT a 'best' practice?

a) Educates the whole child
b) **Follows the text closely to ensure coverage of the curriculum**
c) Students' active participation in learning
d) Challenging environments

13: What does evidence suggest as being most important for a long-term commitment to Reflective Practice?

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- **Guidance and structure are key factors for Reflective Practitioners**
- When the Reflective Practitioner knows what is best for children Challenging environments

14: Which of the following is considered the least effective form of teacher development?

- **Certificated Courses**
- Workshops
- n-school mentoring
- Communities of Practice

15: Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- **When we go about the spontaneous, intuitive performance of the actions of everyday life**
- All of the above

16: What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation ▪ interpretation
- **both 'a' and 'b'**
- None of the above

17: Creative Thinking is not critical thinking because

It is not logical
It is not problem-centred

- **It is emotive**
- it is not based on 'black-and-white' thinking

18:in a school, a critical friend canbe all of the following except …..

a) A teacher
b) A retired principal
c) A new teacher who started working in the school shortly after you
d) A friend from another school

20Personal attributes of critical thinkers include

a) Honesty about emotions
b) Evaluative disposition borne from open-mindedness
c) Personal awareness especially relating to personal bias
d) **All of the above**

22. **DATA refers to**

- The analysis of an event
- A cycle of learning
- The teacher describing, analysing, thinking and acting
- **The four steps analytical process necessary for guiding reflection**

23: What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- **Process of action to improve the professional role**
- none of these

24: What is the impact of reflective practices on the teacher

- **It leads higher quality practice**
- It changes teacher's values and beliefs

- It leads to greater independence for the teacher
- It sustains inclusive environments

25: Which of the following about teacher's teacher's professional knowledge and understanding is true?

Once reflection becomes a habit you will not need to develop your reflective skills further

Once reflection becomes a habit you will not need to develop your reflective skills further

Everyone always learns from experience

Teachers need to develop reflection and evaluation of their practice teachers need to develop reflection and evaluation to support their own and others practice

26 What does 'a lack of conceptual clarity' mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- **It includes too many viewpoints and so becomes confusing for the individual**
- does not account for students' perspectives

27 According to Brookfield, which is the most powerful lens for teachers?

- **The Self Lens**
- The Student Lens
- the peers lens, the theory lens

28 Which of the following is an example of 'warm' feedback?

- Warm feedback extends thinking and raises concerns about teaching
- **Warm feedback consists of supportive, appreciative statements**
- Warm feedback raises questions
- None of the above

29 Within a critical thinking framework, 'reasoning' is conducted from …….

a) **A logical framework**
b) **An objective perspective**
c) **Both 'a' and 'b'**
d) **None of the above**

30: Which of the following not a component of the process involved in reflective practice a) E dism

b) **Subject knowledge**
c) **Interpersonal relationship**
d) **Personality values**

31 Which of the following is not reflection in a professional setting?

- Deliberate
- Theory-focused
- **Object-led**
- Purposeful

32 The 'critical lenses' refer to

- The perspectives that a teacher uses to generate different viewpoints
- **The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice**
- A set of different viewpoints
- None

34: Reflection-on-action can be described as _____ Thinking about what to do

A reconstructive mental review

Problem resolution

Weighing the pros and cons of alternatives

35: Which of the following is NOT a principle of Reflective Practice?

Select correct option:

- It is problem-oriented
- It is based on action research
- **It is data-driven**
- It is research-led

37: Re-theorising is the means by which Reflective Practitioners _____.

Select correct option:

- Critically examine practice
- Critically examine theories
- **Critically examine practice and theories in the light of theories**
- Critically examine data and research in the light of theories

38: Critical thinking is _____. All of the above

39: What are three levels of reflection? Technical, practical and critical

40 What is question/ analysis in the reflective cycle? Asking many questions

41: Interpretation is the skills of _____. Cognition and communication

4 **Critical Reflection involves which of the following? Analysing and evaluating**

4 **: According to Schon, reflection-in-action and reflection-on-action are the mechanisms reflective practitioners use that permit them to……. Both ‘a’ and ‘b’**

45: What is part of the analytical process for the practitioner? Both ‘a’ and ‘b’

46: Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning

47: The most significant part of the model is _____. Learning from experience

48: What do systematic reflexivity and epistemic reflexivity focus on? Suppositions, theories, beliefs and assumptions

49: When we think habitually, we _____. Ignore data

50: Double loop learning involves _____. Both ‘a’ and ‘b’

51: What factor makes reflection seem time-consuming? Staff is too busy

52: Which of the following best describes the benefits of reflective practice? It determines what counts as knowledge

53: What does the idea of reflective practice dismiss? Fixed perception of the nature of the learning

54: To operationalize a best practice approach teachers must ……. Be committed to professional dialogue with other teachers

55. Looking in is the part of the reflective process which Occurs as a precondition for reflection

56: Which of the following Best describes a ‘regular learning network’? A placed for teachers to come together and discuss matters of concern

57: According to Moon. What are the key aspects of reflective practice? **All of the above**

58: The Reflective Practitioner must _____. **Both ‘a’ and ‘b’**

59: Reflection is NOT _____. **A simple ‘tick box’ activity**

60 :Deductive learning is _____. **From general to specific**

61: The Reflective Practitioner has adapted _____. **Both ‘a’ and ‘b’**

62: Reflective writing focuses _____. **Specific details within an experience**

63:The Reflective Practitioner is concerned with _____. **Both ‘a’ and ‘b’**

64:Working inductively means to _____ . **Identify a goal and explore strategies to achieve it**

65: By having an open-minded attitude, the Reflective Practitioner is _____. **Adaptable to changing conditions**

66: Reflection can be negatively influenced by _____. **Both ‘a’ and ‘b’**

67: The Professional Development Journal is _____. **A subjective dialogue**

68: We understand frames through the use of _____. **Metaphors to communicate logic**

69: The Reflective Practitioner has adapted _____. **Both ‘a’ and ‘b’**

70: The study of parts of the community fall in _____. **Knowledge**

71: Concept-based learning means the Reflective Practitioner _____ . **Works with deeper levels of conceptual understanding**

72: Being committed to the profession means _____. **Being responsible for continuing professional development**

73: Concepts determine _____. **The frames for perception**

74: A Reflective Practitioner is able to _____.**Question assumptions and values**

76:We develop theories-in-use as Reflective Practitioners to _____. **Understand theories as we apply them**

77: Effective writing in a Professional Development Journal _____. **Both ‘a’ and ‘b’**

78: Exploring practice using inductive action planning requires _____. **Both ‘a’ and ‘b’**

79: An effective action plan is _____. **All of the above**

80: Professional knowledge relates to _____. **All of the above**

81: A reflective action plan provides the Reflective Practitioner with _____. **Targets, planning, evaluation**

82: Reflective writing _____. **Links theory to practice**

83: Benjamin Bloom major work in is…. Cognitive

84: We can make theory-in-use visible by…. Construction someone’s theory-in-use from observations of behavior

85: A ‘problem statement’ ……. Is not too specific

86: Professional knowledge relates to …… All of the above

88: The reflective practitioner uses 3-dimensional instruction to ……. all of the above

89: critically reflective teaching is …… all of the above

FINAL TERM

1. A Mnemonic is a _____**learning technique**
2. The most important feature of becoming a reflective practitioner is the focus on **why to learn**
3. Force the reflective practitioner to consider data and information over time to see that information is consistent , relates to____ **questions of consistency**
4. An objective is a clearly defined target that has the following characteristics **SMART specific, measurable, achievable, realistic, timed**
5. The reflective practitioner needs to engage with one key understanding that is **professionalism**.
6. The lowest level of cognitive domain in Bloom's Taxonomy is **knowledge**
7. The question that reflective practitioner can ask at this ____**Eliciting**_____ of Socratic method is What do you already think at this point.
8. SMARTER stands for____ **specific, measurable, realistic, timed, energizing and relevant** _____
9. The pastoral role of teacher is intended to provide students **care and attention**
10. The most significant factors that affect work based learning are **accreditation and assessment**

1. Which of the following about teacher's professional knowledge and understanding is true? **Teachers need to develop reflection and evaluation of their practice**
2. According to Stephen Brook, reflective practice is? **a way for teaches to understand their problems**
3. Which of the following is NOT a 'best' practice? **Follows the text closely to ensure coverage of the curriculum**
4. What does evidence suggest as being most important for a long-term commitment to Reflective Practice? **Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching**
5. Which of the following is considered the least effective form of teacher development? **Certificated Courses**
6. Knowing-in-action is described by Schon as **When we cannot say what we know**
7. What are the major mechanisms involved in critical thinking for the reflective practitioner?
    a. Self-regulation
    b. interpretation
    c. **both 'a' and 'b'**
8. Creative Thinking is not critical thinking because **It is emotive**

9. ‘Looking out’ **is a combination of A range of viewpoints about experiences**
10. Which of the following assumptions does NOT underlie action research? **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
11. DATA refers to **the four steps analytical process necessary for guiding reflection**
12. What is reflective practice? **Process of action to improve the professional role**
13. What is the impact of reflective practices on the teacher **It leads higher quality practice**
14. Which of the following about teacher's teacher’s professional knowledge and understanding is true?
15. Once reflection becomes a habit you will not need to develop your reflective skills further **Teachers need to develop reflection and evaluation of their practice**
16. What does ‘a lack of conceptual clarity’ mean? **The educational community has different interpretations of reflection**
17. According to Brookfield, which is the most powerful lens for teachers? **The Student Lens**
18. Which of the following is an example of ‘warm’ feedback? **Warm feedback consists of supportive, appreciative statements**
19. Which of the following is not reflection in a professional setting? **Object-led**
20. The ‘critical lenses’ refer to **the focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice**
21. Reflection-on-action ca**n be described as Thinking about what to do**
22. Which of the following is NOT a principle of Reflective Practice?
    i. It is problem-oriented
    ii. It is based on action research
    iii. It is data-driven
    iv. It is research-led
    v. **None**
23. Which of the following is NOT one of the four steps in action research?
    i. Identifying the research problem
    ii. **Developing a professional measurement instrument**
    iii. Obtaining the necessary information to answer the question
    iv. Developing a plan of action
24. Re-theorising is the means by which **Reflective Practitioners critically examine practice and theories in the light of theories**
25. Critical thinking is _____.
    a. A biological process
    b. A psychological and cognitive process

c. A communication process

d. **All of the above**

26. What are three levels of reflection? **Technical, practical and critical**

27. What is question/ analysis in the reflective cycle? **Taking on the role of researcher**

28. Interpretation is the skills of **Understanding and transmitting**

29. Critical Reflection involves which of the following**? Analyzing and evaluating**

30. Action Research is…**Process, Collaboration, Improvement, Practice, Communication**

31. What is part of the analytical process for the practitioner?

    a. The identification of own assumptions

    b. The examination of the underlying values base

    c. Both 'a' and 'b'

    d. None of the above

32. Why reflective practice is so important? **Research shows that reflective practice is essential for developing our understanding about teaching and learning**

33. The most significant part of the model is **Learning from reflecting**

34. What do systematic reflexivity and epistemic reflexivity focus on? **Beliefs, values and assumptions**

35. When we think habitually**, we Ignore data**

36. Double loop learning involves **Changing personal approaches**

37. What factor makes reflection seem time-consuming? **Regular learning networks are very time-consuming**

38. Is not reflection in a professional setting? **Object-led**

39. Best practice approach teachers must**. Be committed to professional dialogue with other teachers**

40. Critical reflection facilitates_____ learning. Fosters **transformational** learning

41. Why reflective practice is so important? **Research shows that reflective practice is essential for developing our understanding about teaching and learning.**

42. True about teacher's professional knowledge and understanding?

43. What is reflection practice**? Process of action to improve the professional role**

44. Best describes a regular learning network**. A learning "hub" which challenge practice and policy**

45. According to Moon. What are the key aspects of reflective practice? **Reflection is a form of mental processing**

46. The Reflective Practitioner must _____.

a. Manage workloads as part of their role in planning and leading the profession

b. Ensure a suitable work-life balance

c. Both 'a' and 'b'

d. **None of the above**

47. Reflection is NOT _____.

a. **A simple 'tick box' activity**

b. A routine activity for a teacher

48. **Deductive learning is From general to specific**

49. The Reflective Practitioner has adapted _____.

a. Ways of knowing

b. Patterns of reasoning

c. **Both 'a' and 'b'**

50. Reflective writing focuses **On all aspects of an experience**

51. The most important feature of becoming a reflective practitioner is the focus on **how to learn.**

52. A Mnemonic is **a learning technique.**

53. An objective is a clearly defined target that has the following characteristics **specific and measureable.**

54. Questions of Assumption- force the reflective practitioner to **understand and reflect on information.**

55. Socratic Method is about **questioning.**

56. The most significant are that affect work based learning **accreditation and assessment.**

57. The Reflective Practitioner is concerned with **Using a wider range of pedagogies as a means to realize excellence in teaching**

58. Working inductively means to **identify a goal and explore strategies to achieve it**

59. By having an open-minded attitude, the Reflective **Practitioner is more reflective**

60. Reflection can be **negatively influenced by A lack of objectivity**

61. The Professional **Development Journal is A subjective dialogue**

62. We understand **frames through the use of Metaphors to communicate logic**

63. The Reflective Practitioner has adapted **Ways of knowing**

64. The study of parts of the **community fall in Knowledge**

65. Concept-based learning means the Reflective Practitioner **Works with deeper levels of conceptual understanding**

66. Being committed **to the profession means being responsible for continuing professional development**

67. Concepts determine **the frames for perception**

68. A Reflective Practitioner is able to **Think 'outside the box'**

69. We develop theories-in-use as Reflective Practitioners to **Explain situations**

70. Effective writing in a Professional Development Journal **May include diagrams and drawings**

71. Exploring practice using inductive action planning requires **Clearly identified evidence sources**

72. An effective action plan is **Precise**

73. Professional knowledge relates to **Communication skills**

74. A reflective action plan provides the Reflective Practitioner with **Targets, planning, evaluation**

75. Reflective writing **Links theory to practice**

76. Our assumption can be **Perceptual.**

77. A product for a teacher might include. **All of above**

78. A paradigm shift is. **Brings a new set of concepts**

79. Reframing for new learning is. **Focused on inventing new strategies**

80. Concept formation involves. **Perception, abstraction, generalization**

81. The highest level of Bloom taxonomy is. **Evaluation**

82. Using a reflective action plan is valuable. **To set targeted action points**

83. The Professional development Journal supports the RP to. **Reflect on experiences**
