73. An effective action plan is _____Precise

74. Professional knowledge relates to _____Communication skills

75. A reflective action plan provides the Reflective Practitioner with _____Targets, planning, evaluation

76. Reflective writing _____Links theory to practice

77. Our assumption can_____ be Perceptual.

78. A product for a teacher might include. _____All of above

79. A paradigm shift is. _____Brings a new set of concepts

80. Reframing for new learning is. _____Focused on inventing new strategies

81. Concept formation involves. _____Perception, abstraction, generalization

82. The highest level of Bloom taxonomy is. _____Evaluation

83. Using a reflective action plan is valuable._____ _____To set targeted action points

84. The Professional development Journal supports the RP to. _____Reflect on experiences

85. Inductive learning is. _____None of the above

86. SOAR stands for _____strengths, opportunities, aspirations and results

87. Which of the following are not the similarities between AI and critical Inquiry? Rationality and reason

88. Appreciative inquiry (AI) is the study and exploration of what gives life to human system when they function at their best

89. How many principles of AI _____5

90. Social skill in Gibb's model include Accepting responsibility

91. AI cycle consists of 4 elements

92. Which of the following are the internal barriers of Boud's model? Previous negative experiences

93. Which of the following is not the component of Dewey's inquiry cycle _____implement

94. How many stages of Boud's triangular representation of reflective learning _____three

95. All the following are correct with reference to class room management EXCEPT: promoting a culturally biased classroom

96. Within the domain there are .proficiencies that the reflective practitioner can focus on_____3

97. Teacher competence framework has 4 components

98. Interpersonal learning through feeling, values and attitudes

99. The teacher competency model enables teachers to develop their _____identity

100. According to critical philosophy perspective teaching practice is viewed as a form of social life in which different forms of domination

101. The teacher also must possess interpersonal skill that foster _____peer collaboration

102. There are 9 characteristics of high performing schools.

# 406 FINAL By AN.K Compilation

**103.** Professional identity is **a more or less conscious apprehension of what constitutes good and professional teaching and learning** The symptoms of **conscious of their interaction**

**104.** The lowest level of cognitive domain in Bloom's Taxonomy is _____**knowledge**

**105.** The benefits of utilizing (MI) theory are _____ _____**it generates a boad survey of experiences across levels and disciplines**

**106.** Change can also be **Evaluative** i.e. how we go about and think about work and even the outcomes can also be looked at from a change perspective

**107.** **Ripple model** can be used by the reflective practitioner to consider how to consider how their teaching addresses certain questions

**108.** SMARTER stands for _____**specific, measurable, restrict, timed, energizing and relevant**

**109.** Which of the following is not the component of Dewey's inquiry cycle_____ **implement.**

**110.** Boud's formulated the model in _____**1985.**

**111.** How many stages of Boud's Triangular Representation of Reflective Learning _____**three.**

**112.** In his 1933 work, "How We Think", Dewey distinguishes between **four** different modes of thinking.

**113.** How many phases of reflection are? _____**Six**

**114.** Gibbs reflective cycle has **six** stages.

**115.** How many Principles of AI?_____ **Five**

**116.** The Objects of Action Research Enquiry Are _____**All of these**

**117.** Action research engages teachers in a cycle of _____**experience, critical reflection and action.**

**118.** **The** **'a' and 'b'**

1. 'Fairness' in terms of professionalism mean_____ **supporting all students regardless of their problems**
2. How many levels does Bloom's taxonomy has _____**three**
3. A Mnemonic is _____**a learning technique**
4. The pastoral role of teacher is intended to provide students _____**care and attention**
5. Socratic Method is about_____ **questioning**
6. Teacher competence framework has . components _____ **4**
7. Group thinking act as a barrier to reflective practice because it_____ **creates stereotyped views**
8. The biggest challenge of work-based learning are _____**communication gap**
9. The teacher competency model enables teachers to develop _____**their identity**
10. Team cohesiveness is based around a number of factors of team and the way team works. FOR example _____ **All of the above**
11. Self-regulation is a process. _____ **linear one-way**
12. SMARTER goals are _____ specific, measurable, realistic, timed, energizing and relevant
13. The term team means _____**a group of people working together**
14. Questions of Assumption- force the reflective practitioner to _____**understand and reflect on information.**
15. Heterogeneous teams are more creative in nature because team member _____ **have more conflicts**
16. The lowest level of cognitive domain in Bloom's Taxonomy is_____ **knowledge**
17. The teacher also must possess interpersonal skill that foster_____ **peer collaboration**
18. The Norming stage in the team development is where_____ **People take on their roles efficiently**
19. How many domains of teacher identity_____.**three**
20. How many continuums of work based learning are_____._____**2**
21. The most significant factors that affect work based learning are_____ **accreditation and assessment**
22. Which one of the following is not related to work based learning_____._____ **Professional Failure**

# 406 FINAL By AN.K Compilation

**23.** The four steps in Socratic Method are_____

**24.** Effective team members are good at five C's in team composition. One of them is_____ _____**Communicating**

**25.** Within the domain there are_____ proficiencies that the reflective practitioner can focus on._____**3**

**26.** Learning from day to day chaos means _____**learning from day to day experience**

**1.** The reflective practitioner has to go through the four stages while maintaining dialogic diaries which are_____ **Uncertainty, enthusiasm, lack of enthusiasm and habit**

**2.** Lesson study focuses more on _____**Student learning**

**3.** Change can also be _____i.e. how we go about and think about our work and even the outcomes can also be looked at from a change perspective_____ **Evaluative**

**4.** A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students._____ **Teacher**

**5.** The question that reflective practitioner can ask at this ____ __of Socratic method is What do you already think at this point. _____ **Eliciting**

**6.** The reflective practitioner needs to engage with one key understanding that is _**professionalism**.

**7.** Written reflection is positive and useful because _____ **It is possible to evident all the experiences**

**8.** Can you form a new proposition given what you have just learned? This question is related to the stage_____._____ **Decide**

**9.** How many steps in Socratic questioning are_____**6**

**10.** Peer monitoring is a_**Professional relationship between reflective practitioner and colleague**

**11.** Enactive learning is the learning by_____ **Doing and experiencing consequences of actions**

**12.** Situated learning focuses on teacher learning to make them to_____ _____ _____**Think critically and originally**

**13.** Reflecting with colleagues is very important because_____ _____ _____**only helps us integrate in school and feel valued with other professionals**

**14.** Questions of Assumption is_____._____ **force us to define our task**

**15.** Which one of the following is the higher level of blooms taxonomy _____._____ **Knowledge**

**16.** ____types of questions are often used to develop thinking from lower to higher order_____ **3**

**17.** What type of skill reflective practitioner needs to develop _____ **flexible**

**18.** Asynchronous discussion allows: _____**dialogue occurs sometimes after experience**

**14.** A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students. _____**Mentor**

**15.** The question that reflective practitioner can ask at this _____ of Socratic method is What do you already think at this point. _____**Eliciting**

**16.** Supervision in education is made up of: __**Collaborative Observation and Feedback**

**17.** __types of questions are often used to develop thinking from lower to higher order. ___**Three**

**18.** Dialogue can be a self-assessment tool for reflective practitioner in: _____ **Assessing knowledge and Practice**

**19.** Which of the following are the primary processes of Socratic Method_____? _____**The constructive process**

**20.** **Lesson study focuses more on: _____**student learning**

**21.** Enactive learning is the learning by_____ _____ _____**Doing and experiencing consequences of actions**

**22.** Written reflection is positive and useful because _____ _____**It is possible to evident all the experiences**

**23.** The role of reflecting team in collaborating observation is to: _____**Listens to the dialogue without interrupting**

# 406 FINAL By AN.K

## Compilation

**24.** Which one of the following is the lower level of blooms taxonomy_____
**Evaluation**

**25.** Mentor can take on different roles for reflective practitioner like a: _____**All of these**

**26.** The conversation in the 7 C's model for supervision can create understanding for:_**Students**

**27.** The reflective practitioner needs to engage with one key understanding that is _____**professionalism**

**28.** In asynchronous discussion teacher: _____**Reflect on theories learnt about teaching**

**29.** The reflective practitioner ensure that inter-professional learning is effective at many levels like: _____**all of the above**

**30.** Reflecting with colleagues is very important because: _____**helps us integrate in school and feel valued with other professionals**

**31.** There are ____ characteristics of high performing schools: _____**9**

**32.** There are some particular drivers of inter-professional learning for reflective Practitioner like:_____**all of these**

**33.** There are some principles involved in inter-professional learning which:_____ **Increase professional satisfaction**

**34.** Questions of Assumption- **force the reflective practitioner to look at information understand it and then to reflect internally and what assumptions we assumptions we have which are affecting the information.**

**35.** What type of skill reflective practitioner needs to develop _____?_**flexible**

**36.** How many levels of bloom taxonomy are: _____**6**

**37.** An academic portfolio is an evolving collection of: __**Experience and experiments over time**

**38.** Peer observation helps you to: _____**Provide evidence**

# 406 FINAL By AN.K

## Compilation

**39.** Changes can also be _____ i.e., how we go about and think about our work and even the outcomes can also be looked at from a change perspective._____ **Evaluative**

**40.** The goal of lesson study is to improve the: _____**experience provided to the students**

**41.** As an observer you need to:_____ **do all the above**

**42.** Which one of the following is the higher level of blooms taxonomy _____? **Knowledge**

**43.** A community of practice can be described as a group of _____ working together to achieve a common goal._____**People**

**44.** Teacher collaborating is a means for reflective practitioner to get feedback which should be

**45.** Peer coaching in differentiated supervision is where: _____**Two teachers work as a team**

**46.** Situated learning focuses on teacher learning to make them to: _____ _ **Think critically and originally**

**47.** Peer observation focuses on four key areas which are: _____**Planning, teaching strategies, management, assessment**

**48.** Force the reflective practitioner to consider data and information over time to see that information is consistent , relates to_____ **questions of consistency**

# FINAL TERM CURRENT 2021

1. The reflective practitioner has to go through the four stages while maintaining dialogic diaries which are_____ Uncertainty, enthusiasm, lack of enthusiasm and habit

2. Lesson study focuses more on _____Student learning

3. Change can also be _____i.e. how we go about and think about our work and even the outcomes can also be looked at from a change perspective_____ Evaluative

4. A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students._____ Teacher

# 406 FINAL By AN.K

## Tuesday 3 August 2021 (QUIZ BY AN. K) QUIZ NO 3

1) Which of the following is a characteristic of storming stage of team development for reflective practices?

# 406 FINAL By AN.K

## Compilation

People take on their roles efficiently

**Conflict arises in the group (not sure)**

People understand how to work to achieve a common goal

People start to know each other

2) How many parts Ghayle's process of development can be divided into?

Four parts

**Three parts**

Five parts

Two Parts

3) Which of the following is a characteristic of self-regulated teacher?

Critically analyze other's work

Regulate instructions for others

**Able to think about the way they are thinking**

Control over work role of others

4) Which of the following is a characteristic of self-regulated teacher?

Critically analyze other's work

Regulate instructions for others

**Able to think about the way they are thinking**

Control over work role of others

5) Which of the following is the most important feature of work based learning?

Teacher training

Work related learning

**How to learn**

Professional growth

# 406 FINAL By AN.K

# Compilation

6) Effective team members are good at five C's in team composition. One of them is

Comparing

**Communicating**

Controlling

Completing

7) The term team means a group of people working

For their individual goals

**Together with a common goal**

Together

Individually

8) what is norming stage in team development?

People start to know each other

People take on their roles efficiently

People understand how to work to achieve a common

**Conflict arises in the group**

9) Which of the following is the most important feature of work based learning?

Teacher training

Work related learning

**How to learn**

Professional growth

IN Socratic method, how many types of questions are used to develop thinking from lower to high order?

**6 Six**

2

8

4

# 406 FINAL By AN.K

## Compilation

Which of the following is considered a valuable outcome of work-based learning?

Disciplined mind

Better communication

**Self-directed learning**

Increased productivity

How many levels of task interdependence in team organization?

2

4

5

**3**

## Monday 16 August 2021 QUIZ#4

Theory building operates on both levels: abstract and

**Empirical**

Horizontal

Vertical

Real

Force the reflective practitioner to consider data and information over time to see that information is consistent relates to

**Questions of consistency**

Questions of Logic

Questions of Precision

Questions of Relevance

In Socratic method questions of assumption force the reflective practitioner to look at the information and

Evaluate

Remember

Analyze

# 406 FINAL By AN.K

## Compilation

**Understand**

Which is NOT included in Grounded Theory comparison?

Knowledge

Events

People

Places

GT stands for **Grounded Theory**

Which of the following is closer to Vygotsky's sociocultural learning theory?

**Experiences shared with a community of professionals**

Experiences shared to the community practitioners

Experiences shared  through reflection

Experiences communicated to the community of learners

Development of practice is greatly increased if teachers

Start reading newspaper

Make strict decisions

**Share their experiences (conceptional not sure)**

Obey heads

Within the domain there are proficiencies that the Reflective practitioner can focus on.

**3**

1

4

2

Highly skilled dialoguè helps mentor and RP to

Support interaction of ideas

Execute one's perspective

Develop a power gap

Show the authority of mentor

## Compilation

Teamwork can assist in the development and promotion of interprofessional.

Interests

Interactions

Harmony

**Communication**

Which of the following is an effect of situated leaming on teachers?

Implement the existing practices

Develop connection between teacher and student

Think critically and originally

Implement the model strategies

Team work can contribute to which one of these?

Individual development

**Job satisfaction**

Stoical development

National Progress

What does learning from day to day chaos means?

Learning from others

Learning alone

**Learning from day to day experience**

Learning throughout the year

According to Halliday's social-semiotic perspective which of the following macro functions a language perform?

Cohesiveness, textual and identical

**Identical, intrapersonal and textual**

Ideational experiential), interpersonal and textual

Interpersonal, textual and communication

# 406 FINAL By AN.K

## Compilation

Which of these required for effective schooling?

Individual efforts

Stoical efforts

**Coordinated efforts Effective schooling requires coordinated and concerted efforts from teachers**

National efforts

Which one of these is a characteristic of narrative research?

Interesting

Identifiable

**Explanatory**

Justifiable

What does a reflective practitioner expects from mentor?

Dedication

Trust

Political support

Friendship

Which of the following option is suitable when teacher collaborating is a means for reflective practitioner to get feedback?

**Focused, evidence-based, constructive, timely**

Evidence-based, frequent, timely, useful

Focused, every day, evidence-based, varied

Focused, frequent, varied, useful

Which makes predictions about future or other events?

Construct

**Generalization**

# 406 FINAL By AN.K

'Does this all make sense together? This question belongs

to which type of Socratic questioning?

Precision

Relevance

Equity

**Logic**

NOT considered to be category of Knowledge?

Can be transmitted through social interactions and socialization

Tacit knowledge

Cultural knowledge

**Previous Knowledge**

Which one of the following is the reason of creativity in a heterogeneous team?

Better at working together

Have higher pace of work

Efficient coordination

**Have more conflicts (which I understand by handouts)**

In which of the following, dialogue can be a self-assessment tool for reflective practitioner?

Observing teacher's behavior

Assessing class discourse critically

Observing student's behavior

**Assessing knowledge and practice**

In 1900 who provide one coding?

Strauss

Glaser

# 406 FINAL By AN.K

## Compilation

Corbin

**Strauss and Corbin**

Repeated and similar findings is known as

Select the correct option

Validity

**Constructs**

Replication

Generalization

Refined category of data analysis includes which kind of interview?

Fourth

Third

First

Second

How many levels of task interdependence in team organization? **Three**

What is the non-directive role of a mentor?

Researcher

Counselor

Guardian

Observer

What are the four steps involved in Socratic method?

Question, clarify, experience, review

**Elicit, clarify, test, decide**

Plan, formulate, implement, evaluate

Design, discuss, apply, reflect

How many stages are there while considering situated leaming to support reflective practice**. 4**

Theory building attempt to construct and… **Evaluate**

# 406 FINAL By AN.K

**Basic means of human knowledge acquisition are _____.** 3

**Theory building attempt to construct and _____.** Evaluate

**Which one is a NOT a part of Specific domains shared by Communities of practice?**
Success stories

**The process of knowledge management fits with the notion of which of these practitioner?**
Reflective

**In terms of goal setting, what does the acronym SMARTER stand for?** specific, measurable, action-oriented, realistic, time-bound, energizing and relevant

**Effective team members are good at five C's in team composition. One of them is:**
Communication

One circle in the Venn Diagram represents which kind of experience? Concrete

How many phases have John Model for Structured Reflection (2000)? Two

Which category best describes the concerns related to confidentiality, rights to privacy, informed consent? Ethical

Reflecting on _____is very significant for the reflective practitioner because it informs the decisions that you make in the classroom. Values

Concepts bases teaching and learning required _____ to relate facts with concepts. Deeper intellectual

The Jo-Hari Window is a communication model used to improve understanding _____ For individual and between individual

Which of these relationships are important for professional growth? Collaborative

Reflective practice is about learning from acquired experience.

Which one of the following elements are considered in technical rationality?

Conceptual leaning is not about _____. Working harder

The teacher making appropriate correct judgments about their role and responsibilities within the school is called _____ competence. Ethical

Which of these term best describe the emancipator phase Critique of practice regarding conflicts distortion

The reflection which relies on self-questioning and also develop awareness for the teacher of their own assumption is termed as _____. Informal refection

Conceptual learning is a process to organize and apply knowledge in a logical way

Kinaesthetic refers to _____ Learning through interaction with one's environment

Which one of this process is referred to Informal reflection? cyclical

Inductive learning is the process of learning and reasoning from detailed facts to general principles.

Which of the following is called "light bulb moment"? Critical incident

The reflective writing gets very skewed and not realistic when we look objectively at _____ experiences. All

Occupation specific tasks are included in _____competence. Functional

Formulation of a detailed problem statement at an early stage can Prevent the process of learning from experiences.

Trying to understand the ideas behind the fact NOT just looking at the facts is known as: Analysis

We are involved in non-critical thinking process when we _____. Rely on reason rather than emotion

A self-imposed barrier to reflective practice is _____. Negative Ideas

Complete change in perspective is referred to _____. Paradigm shift

Looking back at things which has happened to us in the classroom is known as _____ writing. Reflective

Open area in Johari window will expand _____ with feedback from others in your team. Horizontally

New concepts emerge with the making of new _____. Questions

Which one of the following, thinking about historical/political perspectives on the problems are being encountered? Critical reflection

One code kind of learning is called _____ learning. Single-loop

which of the following helps teachers to generate new knowledge and ideas in reflective practice? Evaluating the existing practice

The final part of reflection include reflecting forward and _____. Reflecting backwards

_____ process allows colleagues and others to share ideas and issues. Participatory

A reflective practice must demonstrate a commitment to a personal code of values. It includes: All

----------is the process of consciously thinking through what is happening and this helps us again an understanding and to make meaning from what is going on in our lives. Reflection

How many attributes are there for a teacher to become a critical thinker? 9

The fact that different people with different experience are likely to approach problems in different ways depends on: Reframing matrix

Which beliefs are behind to make the causal relation of frames? Assumptions

What are three attitudes required in the process of reflective thinking? Open-mindedness, whole-heartedness and responsibilit

Test ideas- Try out new practices or with settings that work in contrasting ways.

Synergistic thinking is essential for _____ development. Intellectual

What is the most significant barrier to reflective practice? Lack of Knowledge

In the reflective process, there must be a room for _____. Failure

Which of the following is the most important question a reflective practitioner can ask in the final step of Hegarty's framework for reflection? What did you learn?

According to Mezirow, loss of job, divorce, marriage , back to school or moving to a new culture; all called as _____. Disorienting dilemma

Planning and leading is the part of professional _____. Skill and Application

Which category best describes the concerns related to confidentiality, rights to privacy, informed consent? Ethical

Framework for Reflection on action has all phases EXCEPT _____. Critical

The process of concept formation has _____ significant phases: Three

The ultimate goal of the Johari Window is to enlarge the open area.

The most complex part of reflective writing is _____. Interpretation

At non-reflective action level, a reflective practitioner Explores new approaches to think differently

# EDU406 Quiz # 3 MCQs Solved
# Compiled by Tanveer Online Academy

- Asynchronous discussion allows: dialogue occurs sometimes after experience
- A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students. Mentor
- The question that reflective practitioner can ask at this _____ of Socratic method is What do you already think at this point. Eliciting
- Supervision in education is made up of: Collaborative Observation and Feedback
- ____types of questions are often used to develop thinking from lower to higher order. Three
- Dialogue can be a self-assessment tool for reflective practitioner in: Assessing knowledge and Practice
- Which of the following are the primary processes of Socratic Method_____? **The constructive process**
- **Lesson study focuses more on:** student learning
- Enactive learning is the learning by_____ Doing and experiencing consequences of actions
- Written reflection is positive and useful because _____ It is possible to evident all the experiences
- The role of reflecting team in collaborating observation is to: Listens to the dialogue without interrupting
- Which one of the following is the lower level of blooms taxonomy_____? Application
- Mentor can take on different roles for reflective practitioner like a: **All of these**
- The conversation in the 7 C's model for supervision can create understanding for: Students
- The reflective practitioner needs to engage with one key understanding that is **professionalism**
- In asynchronous discussion teacher: Reflect on theories learnt about teaching
- The reflective practitioner ensure that inter-professional learning is effective at many levels like: all of the above
- Reflecting with colleagues is very important because: helps us integrate in school and feel valued with other professionals
- There are ____ characteristics of high performing schools: 9
- There are some particular drivers of inter-professional learning for reflective Practitioner like: all of these
- Force the reflective practitioner to consider data and information over time to see that information is consistent, relates to: Questions of Relevance
- 
- There are some principles involved in inter-professional learning which: Increase professional satisfaction
-

- Questions of Assumption- force the reflective practitioner to look at information understand it and then to reflect internally and what assumptions we assumptions we have which are affecting the information.
- What type of skill reflective practitioner needs to develop _____? flexible
- How many steps in Socratic questioning are_____? 6
- How many levels of bloom taxonomy are: 6
- An academic portfolio is an evolving collection of: Experience and experiments over time
- Peer observation helps you to: Provide evidence
- Peer observation focuses on four key areas which are: Planning, teaching strategies, management, assessment
- Changes can also be _____ i.e., how we go about and think about our work and even the outcomes can also be looked at from a change perspective. Evaluative
- The goal of lesson study is to improve the: experience provided to the students
- Peer monitoring is a:
- As an observer you need to: do all the above
- Can you form a new proposition given what you have just learned? This question is related to the stage_____. Decide
- Which one of the following is the higher level of blooms taxonomy _____? **Evalution**
- Questions of Assumption is_____. force the reflective practitioner to look at information understand it and then to reflect internally and what assumptions we assumptions we have which are affecting the information
- A community of practice can be described as a group of _____ working together to achieve a common goal. People
- Teacher collaborating is a means for reflective practitioner to get feedback which should be: Focused evidence based…….
- Peer coaching in differentiated supervision is where: Two teachers work as a team
- Situated learning focuses on teacher learning to make them to: Think critically and originally
-
-

# Grand Quiz Edu 406

**Question 1:**

**Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:

According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

**Question 3:**

**Which of the following is NOT a 'best' practice? Pg.19**

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students‟ active participation in learning **Question No.4:**

**What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments

**Question 5:**

**Which of the following is considered the least effective form of teacher development?**

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

**Question 6:**

**Knowing-in-action is described by Schon as _____.**

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

**Question 7:**

- 

**What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation ▪ interpretation
- both „a‟ and „b‟
- None of the above **question 8:**

**Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on „black-and-white‟ thinking **Question 9:**

**‘Looking out’ is a combination of _____.**

- A range of viewpoints about experiences
- Looking around‟ and „looking back‟
- Perspectives which direct the focus of attention
- None of the above

**Question 10:**

**Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

**DATA refers to pg.40**

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

**3:**

**What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

**4:**

**What is the impact of reflective practices on the teacher**

- It leads higher quality practice
- It changes teacher‟s values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments **5:**

**Which of the following about teacher's teacher’s professional knowledge and understanding is true? Once reflection becomes a habit you will not need to develop your reflective skills further**

- 
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

**6**

**What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students" perspectives

**7**

**According to Brookfield, which is the most powerful lens for teachers?**

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

**8**

**Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

**9**

**Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- Object-led
- Purposeful

**10**

**The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

**2:**

**Reflection-on-action can be described as _____**

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

**3:**

**Which of the following is NOT a principle of Reflective Practice? Pg.8**

**Select correct option:**

- 
- It is problem-oriented
- It is based on action research
- It is data-driven ▪ It is research-led

**4:**

**Which of the following is NOT one of the four steps in action research?**

**Select correct option:**

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action **5:**

**Re-theorising is the means by which Reflective Practitioners _____.**

**Select correct option:**

- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories **6:**

**Critical thinking is _____.**

**Select correct option:**

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

**7:**

**What are three levels of reflection?**

**Select correct option:**

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

**8**

**What is question/ analysis in the reflective cycle?**

**Select correct option:**

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

**1:**

**Interpretation is the skills of _____.**

**Select correct option:**

- Understanding and transmitting
- Cognition and communication
- Thinking and talking

- 
- Receiving and sending information

**2**

**Critical Reflection involves which of the following?**

**Select correct option:**

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating ▪ Conceptualising and describing **2:**

**Which of the following is NOT one of the four steps in action research?**

**Select correct option:**

Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

**3**

**What is part of the analytical process for the practitioner?**

**Select correct option:**

- The identification of own assumptions
- The examination of the underlying values base
- Both „a" and „b"
- None of the above

**4**

**Why reflective practice is so important?**

**Select correct option:**

- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner ▪ Research shows that reflective practitioners are more profession

**5**

**The most significant part of the model is _____.**

**Select correct option:**

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

**6**

**What do systematic reflexivity and epistemic reflexivity focus on?**

**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

**7**

**When we think habitually, we _____.**

**Select correct option:**

- Dismiss reasoning

- 
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

**8**

**Double loop learning involves _____.**

**Select correct option:**

- Changing personal assumptions
- Changing personal approaches pg.51
- Both „a" and „b"
- None of the above

**9**

**What factor makes reflection seem time-consuming?**

**Select correct option:**

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher"s professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

## EDU406 Quiz#1

Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice According to Stephen Brook, reflective practice is?
- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Which of the following is NOT a „best" practice? Pg.19

- 

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students‟ active participation in learning

What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments

Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation
- interpretation
- both „a‟ and „b‟
- None of the above

Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on „black-and-white‟ thinking

„Looking out‟ is a combination of _____.

- A range of viewpoints about experiences
- Looking around‟ and „looking back‟
- Perspectives which direct the focus of attention
- None of the above

Which of the following assumptions does NOT underlie action research?

- Teachers and other education professionals have authority to make decisions

- 

- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection What is reflective practice?
- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher‟s values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

Which of the following about teacher's teacher‟s professional knowledge and understanding is true?
Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice
  What does „a lack of conceptual clarity‟ mean?
- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students‟ perspectives

According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

Which of the following is an example of „warm‟ feedback?

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

Which of the following is not reflection in a professional setting?

- 

- Deliberate
- Theory-focused
- Object-led
- Purposeful

The „critical lenses" refer to

The perspectives that a teacher uses to generate different viewpoints

- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

Reflection-on-action can be described as _____

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

Which of the following is NOT a principle of Reflective Practice? Pg.8 Select correct option:

- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

Which of the following is NOT one of the four steps in action research?

Select correct option:

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

Re-theorising is the means by which Reflective Practitioners _____.

Select correct option:

- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

Critical thinking is _____.

Select correct option:

- A biological process
- A psychologicaland cognitive process

- 
- A communication process
- All of the above

What are three levels of reflection?

Select correct option:

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

What is question/ analysis in the reflective cycle?

Select correct option:

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

Interpretation is the skills of _____.
Select correct option:

- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

Critical Reflection involves which of the following? Select
correct option:

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualizing and describing

Which of the following is NOT one of the four steps in action research?

Select correct option:

Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

What is part of the analytical process for the practitioner?

Select correct option:

- The identification of own assumptions
- The examination of the underlying values base
- Both „a" and „b"

- None of the above

Why reflective practice is so important?

Select correct option:

- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession The most significant part of the model is _____.

Select correct option:

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

When we think habitually, we _____

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

Double loop learning involves _____.

Select correct option:

Changing personal assumptions

- Changing personal approaches pg.51
- Both „a" and „b"
- None of the above

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming

- 
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher‟s professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

## EDU406 Quiz#2

3 The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession ▪ Ensure a

Both „a‟and „b‟
None of the above

4 Reflection is NOT .

suitable work-life balance

- 
- 

- A simple „tick box‟ activity
- A routine activity for a teacher
- Both „a‟ and „b‟
- None of the above

6: Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

7 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both „a‟ and „b‟
- None of the above

8 Reflective writing focuses _____.

- 
- On all aspects of an experience
- Critical incidences
- Specific details within an experience

- Ideas, concepts and opinions

9: The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both „a" and „b"
- None of the above

10: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

1: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both „a" and „b"

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both „a" and „b"
- None of the above

7: The study of parts of the community fall in _____.

- Evaluation

- 
  - Synthesis
  - Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding 9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

10: Concepts determine _____.

How a Reflective Practitioner‟s perceptions are explained

- How a Reflective Practitioner‟s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience 1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think „outside the box‟ 

Question other people‟s assumptions

- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both „a‟ and „b‟
- None of the above

5: Exploring practice using inductive action planning requires _____.

- 
  - Clearly defined and expressed success criteria
  - Clearly identified evidence sources
  - Both „a" and „b"
  - None of the above

6: An effective action plan is _____.

  - Developmental
  - Precise
  - Shared
  - All of the above

7: Professional knowledge relates to _____.

  - Subject knowledge
  - Communication skills
  - Social interaction
  - All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

  - Targets, planning, evaluation
  - Specific target-setting, identification of actions, evaluation of success
  - Specific targets, activities, success criteria
  - None of the above

9: Reflective writing _____.

Is personal

  - Links theory to practice
  - Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above

A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation

Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences Inductive learning is. None of the above

## Quizzes

SOAR stands for strengths, opportunities, aspirations and results – Answer

Which of the following are not the similarities between AI and critical Inquiry? Rationality and reason – Answer

Appreciative inquiry (AI) is the study and exploration of what gives life to human system when they function at their best – Answer

How many principles of AI 5 – Answer

Social skill in Gibb‟s model include Accepting responsibility – Answer

AI cycle consists of 4 elements

Which of the following are the internal barriers of Boud‟s model? Previous negative experiences – Answer

Which of the following is not the component of Dewey‟s inquiry cycle implement – Answer

How many stages of Boud‟s triangular representation of reflective learning three – Answer

All the following are correct with reference to class room management EXCEPT: promoting a culturally biased classroom – Answer

Within the domain there are 3 proficiencies that the reflective practitioner can focus on

Force the reflective practitioner to consider data and information over time to see that information is consistent, relates to Questions of consistency

▪

Teacher competence framework has 4 components

Change can also be evaluative i.e. how we go about and think about our work and even the outcomes can also be looked at from a change perspective

Interpersonal learning through feeling, values and attitudes

Can you form a new proposition given what you have just learned? This question is related to the stage decide

The teacher competency model enables teachers to develop their identity

According to critical philosophy perspective teaching practice is viewed as a form of social life in which different forms of domination

The teacher also must possess interpersonal skill that foster peer collaboration

There are 9 characteristics of high performing schools.

Professional identity is a more or less conscious apprehension of what constitutes good and professional teaching and learning

The symptoms of conscious of their interaction

The lowest level of cognitive domain in Bloom‟s Taxonomy is knowledge

The benefits of utilizing (MI) theory are it generates a boad survey of experiences across levels and disciplines

Change can also be Evaluative i.e. how we go about and think about work and even the outcomes can also be looked at from a change perspective

Ripple model can be used by the reflective practitioner to consider how to consider how their teaching addresses certain questions

SMARTER stands for specific, measurable, restrict, timed, energizing and relevant

1. **One part of learning from reflection relies on teachers being open-minded. These characteristics include all but……**
   a) Accepting consequences of their decisions
   b) Viewing situations from multiple perspectives

▪

c) Searching for alternatives explanations for classroom events

d) **Using evidence to support or evaluate a decision or position** **2. What is hyper-reflexivity?**

a) Reflecting on the components parts of changing practice

b) **Deconstructing applications of knowledge in the classroom**

c) Deconstructing meaning acquired from experiences in the classroom

d) Acquiring meaning from experiences in the classroom

**3. Kolb's reflective cycl ……**

**a) Emphasises the role experience plays in learning**

**b) Illustrates the developmental nature of reflection**

**c) Both 'a' and 'b'**

**d) None of the above**

**4. Which of the following is not a reason for reflective practice?**

**a) Reflective practice helps students learn**

**b) It encourages us to understand our learners and their needs**

**c) It is a professional requirement**

**d) Reflective practitioner models reflective learning**

**5. To operationalize a best practice approach teachers must**

**a) Be committed to professional dialogue with other teachers**

**b) Be open-minded and committed to professionalism**

**c) See practice as a process of analysis**

**d) Be focused on technical proficiency 6. Rapid reflection is all but …..**

**a) Contemplative**

**b) Immediate**

**c) On-going**

**d) automatic**

**7. Processes in participatory reflection include all of the following except**

**a) Careful description**

**b) Thoughtful listening**

**c) Extending thinking**

**d) None of the above**

**8. A critical friend can be defined as ……**

**a) Someone who assume a directive role**

**b) A trusted person who asks provocative questions, provides data to be examined through another lens, and others critiques of a person's work as a friend**

**c) A colleague who provides solutions to problems**

**d) Judges actions and behaviors as part of feedback**

**9. Bloom's model which guides the lowest level of reflection might use all the following except ….**

**a) Was my explanation clear enough for the students?**

**b) Was the lesson complete on time?**

**c) Did I give enough time for individual activity?**

**d) What instructional strategies were used?**

**10: Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**

▪

- Teachers need to develop reflection and evaluation to support them their own and other practice

**11:** According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- **Empowers the teacher to appreciate the bigger picture surrounding teaching**
- Is a way for teaches to understand their problems
- **None of the above**

**12: Which of the following is NOT a 'best' practice?**

a) Educates the whole child
b) **Follows the text closely to ensure coverage of the curriculum**
c) Students' active participation in learning
d) Challenging environments

**13: What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- **Guidance and structure are key factors for Reflective Practitioners**
- When the Reflective Practitioner knows what is best for children Challenging environments

**14: Which of the following is considered the least effective form of teacher development?**

- **Certificated Courses**
- Workshops
- n-school mentoring
- Communities of Practice

**15: Knowing-in-action is described by Schon as _____.**

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- **When we go about the spontaneous, intuitive performance of the actions of everyday life**
- All of the above

**16: What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation
- interpretation
- **both 'a' and 'b'**
- None of the above

**17: Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- **It is emotive**
- it is not based on 'black-and-white' thinking

**18:in a school, a critical friend can be all of the following except …..**

**a) A teacher**
**b) A retired principal**

▪

c) **A new teacher who started working in the school shortly after you**
d) **A friend from another school**

**19: 'Looking out' is a combination of _____.**

- **A range of viewpoints about experiences**
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

**20: Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
- Teachers and other education professionals are committed to continued professional development

21. Personal attributes of critical thinkers include

a) Honesty about emotions
b) Evaluative disposition borne from open-mindedness
c) Personal awareness especially relating to personal bias
d) **All of the above**

22. **DATA refers to**

- The analysis of an event
- A cycle of learning
- The teacher describing, analysing, thinking and acting
- **The four steps analytical process necessary for guiding reflection**

**23: What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- **Process of action to improve the professional role**
- none of these

**24: What is the impact of reflective practices on the teacher**

- **It leads higher quality practice**
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

**25: Which of the following about teacher's teacher's professional knowledge and understanding is true?**

**Once reflection becomes a habit you will not need to develop your reflective skills further**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- teachers need to develop reflection and evaluation to support their own and others practice

**26 What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom

- **It includes too many viewpoints and so becomes confusing for the individual**
- does not account for students' perspectives

**27 According to Brookfield, which is the most powerful lens for teachers?**

- **The Self Lens**
- The Student Lens
- the peers lens, the theory lens

**28 Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching
- **Warm feedback consists of supportive, appreciative statements**
- Warm feedback raises questions
- None of the above

**29 Within a critical thinking framework, 'reasoning' is conducted from …….**

**a) A logical framework**
**b) An objective perspective**
**c) Both 'a' and 'b'**
**d) None of the above**

**30: Which of the following not a component of the process involved in reflective practice**

**a) E dism**
**b) Subject knowledge**
**c) Interpersonal relationship**
**d) Personality values**

**31 Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- **Object-led**
- Purposeful

**32 The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- **None**

**33: Leaning from reflection can also be known as ….**

a) Discussion-based learning
b) Enhancement-oriented learning
c) **Professional development-based learning**
d) Inquiry-oriented learning

**34: Reflection-on-action can be described as _____**

- Thinking about what to do
- **A reconstructive mental review**
- Problem resolution
- Weighing the pros and cons of alternatives

**35: Which of the following is NOT a principle of Reflective Practice?**
**Select correct option:**

- It is problem-oriented

- It is based on action research
- **It is data-driven**
- It is research-led

**36: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

- Identifying the research problem
- **Developing a professional measurement instrument**
- Obtaining the necessary information to answer the question
- Developing a plan of action

**37: Re-theorising is the means by which Reflective Practitioners _____.**
**Select correct option:**

- Critically examine practice
- Critically examine theories
- **Critically examine practice and theories in the light of theories**
- Critically examine data and research in the light of theories

**38: Critical thinking is _____.**
**Select correct option:**

- A biological process
- A psychological and cognitive process
- A communication process
- **All of the above**

**39: What are three levels of reflection?**
**Select correct option:**

- Technical, empirical and practical
- **Technical, practical and critical**
- Rational, technical and critical
- Rational, practical and critical

**40 What is question/ analysis in the reflective cycle?**
**Select correct option:**

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- **Asking many questions**

**41: Interpretation is the skills of _____.**
**Select correct option:**

- Understanding and transmitting
- **Cognition and communication**
- Thinking and talking
- Receiving and sending information

**42 Critical Reflection involves which of the following? Select correct option:**

- Analysing and c
- **Analysing and evaluating**

- Reasoning and evaluating
- Conceptualising and describing

**43 : According to Schon, reflection-in-action and reflection-on-action are the mechanisms reflective practitioners use that permit them to…….**

a) **Continually develop and learn from their experience**
b) **Meet organizational/ national standards**
c) **Both 'a' and 'b'**
d) None of the above

**44: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

a) Identifying the research problem
b) **Developing a professional measurement instrument**
c) Obtaining the necessary information to answer the equation
d) Developing a plan of action

**45: What is part of the analytical process for the practitioner?**
**Select correct option:**

- The identification of own assumptions
- The examination of the underlying values base
- **Both 'a' and 'b'**
- None of the above

**46: Why reflective practice is so important?**
**Select correct option:**

- Research highlights the importance of reflective practice for changing personal values biases
- **Research shows that reflective practice is essential for developing our understanding about teaching and learning**
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession **47: The most significant part of the model is _____.**

**Select correct option:**

- **Learning from experience**
- Learning from reflecting
- Learning from information
- Learning from knowledge

**48: What do systematic reflexivity and epistemic reflexivity focus on?**
**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- **Suppositions, theories, beliefs and assumptions**
- Praxis, values, theories and beliefs

**49: When we think habitually, we _____. Select correct option:**

- Dismiss reasoning
- Have a fixed focus which distracts attention
- **Ignore data**
- None of the above

**50: Double loop learning involves _____.**
**Select correct option:**

- Changing personal assumptions
- Changing personal approaches
- **Both 'a' and 'b'**
- None of the above

**51: What factor makes reflection seem time-consuming?**
**Select correct option:**

a) Regular learning networks are very time-consuming
b) Lack of leadership for Reflective Practice
c) Regular learning networks are very time-consuming
d) **Staff is too busy**

**52: Which of the following best describes the benefits of reflective practice?**

a) It changes the balance of power
b) **It determines what counts as knowledge**
c) It provides opportunity for knowledge sharing which empowers teachers
d) It determines foundation to more egalitarian perspectives

**53: What does the idea of reflective practice dismiss?**

a) Patriarchal views
b) Teachers view
c) Greater involvement of teacher in setting the education agend
d) **Fixed perception of the nature of the learning**

**54: To operationalize a best practice approach teachers must …….**

**a) Be committed to professional dialogue with other teachers**
**b)** Be open-minded and committed to professionalism
**c)** See practice as a process of analysis
**d)** Be focused on technical proficiency

**55. Looking in is the part of the reflective process which**

a) Occurs before teaching
b) Occurs after teaching
c) **Occurs as a precondition for reflection**
d) Occurs as a response to experience

**56: Which of the following Best describes a 'regular learning network'?**

a) A learning "hub" which challenge practice and policy

- b) A leaning hub of reflective practice
- c) A hub for sustained improvement in the lives of teachers
- d) **A placed for teachers to come together and discuss matters of concern** 57: According to Moon. What are the key aspects of reflective practice?

a) Reflection is a form of mental processing
b) Relies of a cognitive re-processing of experience
c) Aims to understand complexity and confusion in experience
d) **All of the above**

58: The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- **Both 'a' and 'b'**
- None of the above 59: Reflection is NOT _____.
- **A simple 'tick box' activity**
- A routine activity for a teacher
- Both 'a' and 'b'
- None of the above

60 :Deductive learning is _____.

- **From general to specific**
- Rule base
- From unknown to known
- 
- All the above

61: The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- **Both 'a' and 'b'**
- None of the above

62: Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- **Specific details within an experience**
- Ideas, concepts and opinions

63:The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- **Both 'a' and 'b'**
- None of the above

64:Working inductively means to _____ .

- **Identify a goal and explore strategies to achieve it**
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

65: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- **Adaptable to changing conditions**
- Able to review experiences critically

- Is open to many new ideas

66: Reflection can be negatively influenced by _____.
- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- **Both ‘a’ and ‘b’**

67: The Professional Development Journal is _____.
- A personal diary
- An on-going discourse
- **A subjective dialogue**
- A list of critical incidents

68: We understand frames through the use of _____.
- Metaphors providing explain them
- Metaphors to clarify them
- **Metaphors to communicate logic**
- None of the above

69: The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- **Both ‘a’ and ‘b’**
- None of the above

70: The study of parts of the community fall in _____.
- Evaluation
- Synthesis
- Analysis
- **Knowledge**

71: Concept-based learning means the Reflective Practitioner _____ .
- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- **Works with deeper levels of conceptual understanding** 72: Being committed to the profession means _____.
- **Being responsible for continuing professional development**
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above 73: Concepts determine _____.
- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- **The frames for perception**
- The ways a Reflective Practitioner explains experience 74: A Reflective Practitioner is able to _____.

- **Question assumptions and values**
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

▪

76:We develop theories-in-use as Reflective Practitioners to _____.

- **Understand theories as we apply them**
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 77: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- **Both 'a' and 'b'**
- None of the above

78: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- **Both 'a' and 'b'**
- None of the above

79: An effective action plan is _____.

- Developmental
- Precise
- Shared
- **All of the above**

80: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- **All of the above**

81: A reflective action plan provides the Reflective Practitioner with _____.

- **Targets, planning, evaluation**
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

82: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience
- **All of the above**

**83: Benjamin Bloom major work in is….**

▪

a) Affective
b) Management
c) Cognitive
d) Psychomotor

84: We can make theory-in-use visible by….

a) Construction someone's theory-in-use from observations of behavior
b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts

85: A 'problem statement' ……..

a) Is not too specific
b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general

86: Professional knowledge relates to ……

a) Subject knowledge
b) Communication skills
c) Social interaction
d) All of the above

87: The benefits of concept-based learning …….

a) Depend on the experience of the reflective practitioner
b) Depend on the intellectual level of thinking of the reflective practitioner
c) Depend on the emotional engagement of the reflective practitioner
d) Depend on the psychological engagement of the reflective practitioner

88: The reflective practitioner uses 3-dimensional instruction to …….

a) Develop skills for concept-based teaching
b) Develop understanding of connection between topics/subject
c) Build use multiple intelligence in their teaching
d) all of the above

89: critically reflective teaching is ……

a) responsible for highly effective pedagogies
b) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above

90: a paradigm shift is

a) brings a new set of concepts
b) provides the opportunity tgo understand and manage changing
c) support reflection through a simple frame work related to rule
d) all of the above

91: our assumptions can be

a) perceptual

▪

b) **situational**
c) **Rhetorical**
d) **instructional**

**92: Reframing for new learning is**

a) **process for improving understanding**
b) **focused on inventing new strategies**
c) **based on solving conflicts**
d) **all of the above**

**93: Being committed to the profession means**

a) **being responsible for continuing professional development**
b) **being responsible for managing change**
c) **being responsible for changing policy and practice**
d) **none of the above**

**94: which of the following best support the reflective practitioner to categorise the interpretation of an experience?**

a) **Meaningful**
b) **Significant**
c) **Relevant**
d) **All of the above**

**95: concept formation involves**

**Ans: Perception,abstraction,generalization**

**96: inductive learning is**

**Ans: from specailto general**

**97: the highest level of bloom taxonomy is**

**Ans: evaluation**

**98: using a reflective action plan is valuable**

**Ans: to set targeted action points**

**99: we understand frame through the use of**

**Ans: metaphors to communicate logic**

**100: the professional development journal supports the reflective practitioner to**

**Ans: reflect on experience**

**101: a limitation of reflection is**

**Ans: the difference between perception and reality**

| MUHAMMAD IMRAN | EDU406 - Critical Thinking and reflective Practice |
|---|---|
| Lecture No. 1 to 6 (Topic 01 to 36). | QUIZ NO 1 |
| 30-12, 2020 to 01-12, 2020 | |

1. Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of _____ **reflection**.
2. What is the trickiest pedagogic task according to Stephan Brookfield?____**Getting inside student's heads**
3. Re-theorising is the means by which Reflective Practitioners _____**Critically examine practice and theories in the light of theories**
4. The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ **Practical**
5. Teachers mostly do not take what they did in class_____**action**
6. Which model encourages the teachers to think about a given situation and establish and action plan for dealing_____**Gibbs reflective cycle**
7. To increase our understanding, we need to_____ **respect evidence and reason**
8. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____**continually develop and learn from their experience or meet organizational and national standards**
9. The term selective practice is derived from the work of_____**Dewey**
10. Critical reflection involves which of the following_____ **Analysing and evaluating**
11. All the practices of formal instruction expect_____ **it develops its own assumptions**
12. in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**
13. What does a lack of conceptual clarity mean?_____ _____**the educational community has different interpretations of reflection**
14. A benefit of the green away model of reflection is _____ It is cyctical
15. Which of the following assumptions does not underline action research?
16. **Which of the following best describes the benefits of reflective practice?** It determines what counts as knowledge.
17. **Teachers should value their reflection and ….**…… their practice_____
18. In professional setting what is not considered as a characteristic of reflection _____
19. According to sandwell's view giving emphasis on only individual reflection lead to____
20. **Q23.According to Stephen Brook, reflective practice is?**Empowers the teacher to appreciate the bigger picture surrounding teaching
21. Q47: Rapid reflection is all but_____
22. **Q5: A common strand of reflecting-in-action and reflecting-on- practice is Connecting with feelings in relation to applications of theory**
23. Which reflection requires models or framework which provide a specific and structured approach?_____
24. Which one statement is the example of core best practice?Teachers provides an enriched environment
25. **What is reflective practice?** Process of action to improve the professional role
26. What type of reflection allows teachers to modify his/her teaching strategy based on students responses? All the above
27. All are the ways for a teacher to develop reflective practice startegies except____
28. Dialogic reflection has less intense approach and involve individuals _____
29. Reflection on action deals with the happened Outside the classroom
30. Lather stressed on the use of appropriate language in reflective practice to avoid: All of above

31. **Q7: Bloom's model which guides the lowest level of reflection might use all the following except** Did I give enough time for individual activity?
32. Which of the following is NOT a skill which underpins reflexivity? **Existential phenomenology**
33. Reflective practice helps teachers to generate new knowledge and ideas by _____
34. A critical friend can be defined asA trusted person who asks provocative questions, provides data to examined through another lens, and offers critiques of a person's work as a friend
35. What leads to the lacks in conceptual clarity of teachers is reflective practice precess____
36. **Q13. What does the idea of reflective practice dismiss? Select the corect option**Teachers view
37. What is the main characteristics of informal reflection _____
38. **Q31.Which of the following is not a reason for reflective practice? Select the correct option** It is a professional requirement correct
39. One of the principles of reflective practice is based on _____ research _____
40. Reflection is the ability to reflect on question … to improve practice_____
41. In reflective practice, practitioner engage in a continuous cycle of self-observation and ----------Self- evaluation
42. Whose theory does not acknowledge the problematic nature of language and discourse within practice environment_____
43. Reflection can be described as ----------A reconstruction mental review
44. How critical reflection helps to deal with different perspective_____
45. Culture of reflective practice in your workplace shows_____
46. In reflective practice, practitioner engage in a continuous cycle of self-observation and_____.
47. What is question/ analysis in the reflective cycle?
48. The most basic level of reflection is called as:
49. All statements belong to technical reflection, except:
50.
51.
52.

Which of the following about teacher's teacher's professional knowledge and understanding is true? Teachers need to develop reflection and evaluation to support their own and others practice

1. Reframing helps the reflective practitioner….? Both a and b
2. Personal attributes of critical thinkers include: changing with the experiences
3. A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in : 3-dimensional instruction
4. Which one is called an example of critical thinking? Questioning
5. a Limitations of self-reflection are…….. the difference between perception and reality
6. Frames are influenced by ……Metaphors
7. Which of the following is not the attribute of reflective practice? It challenge and change practice
8. Kolb's reflective cycle…… Emphasizes the role experience play in learning
9. The first step in the reflective practice process is : make a list of teaching strategies that you used in previous week
10. Personal attributes of critical thinkers includes : all of above

Linguistic refers to Learning through spoken and written word

11. Interpretation is the skills of Understanding and transmitting
12. Which reflective practice is done badly, ineffectively or inappropriately, it give rise to ---------- concerns. Professional
13. Unreflective thinker is: Unaware of the determining role of thinking
14. Reflecting logically allows teachers to take control of their learning and helps them to develop overall---------- Competencies
15. Epistemic stances Change with the experiences
16. All were the critiques on the Reflective practice movement except Helps to improve teachers practice
17. Critically reflective learning is nurtured by relationships between teacher and ------ Learner
18. The 4Ps reframing matrix are productive, planning potential and----------

People perspective

19. What act as catalyst to challenging the reflective practitioner to think at more advance levels?

Problem solving learning
Conceptual learning
Factual learning
Critical learning

20. One of the pedagogic concern raised by reflective teaching is called

Development readiness
Conceptual understanding
Instructional planning
None of the above

21. Critical Reflection helps to support or challenge our views, practices and feelings by providing

Observation
Experience
Evidences
Experiments

22. Critical Reflection involves which of the following?

Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing

23. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students?

In 3- dimensional instructions
In 2- dimensional instructions
In 1- dimensional instructions
In 4- dimensional instructions

24. Single loop learning has ---------- strategies.

Automatic
Explanatory
Rigid
Singular

25. The cognitive process is characterized as essential to:

Lower order thinking
Logical thinking
Higher order thinking
Reflective thinking

26. The name of the Schon (1983) book is ----------

The reflective practice
The reflective practitioner
The reflection
The critical reflection

27. ---------- quadrant of Jo-Han windows represent the things that are unknown by you and are unknown by others

Open area
Blind area
Hidden area
Unknown area

28. Concept is looked or understood differently by reframing core belief based on

Core belief
New supporting beliefs
Opposite supporting beliefs
Intuitions

29. A reflective practitioner is able to

Question assumptions and values
Think outside the box
Question other people's assumptions
All of the above

30. What is the evidence of reflecting thinking?
    Reflective writing
    Making judgments
    Analyzing questions
    Linking theory to practice

31. In 5-step model of critical thinking, the first step is:
    Practice before your assess
    Gather and review feedback
    Learn through seeking answer
    Determining goals/objectives

32. Theory that commands the thinking the action is known as
    Theory in action

    Theory in reaction
    Critical theory
    Theory in use

33. Micro- Outcomes involves:
    The broad overall results of professional activity
    The outcomes of very specific activities
    The result of a partially completed activity
    All of these

34. Reflective practice is important because it is used to:
    Improve teacher's practice
    Enhance the quality of learners
    Promote school culture
    Motivate teachers and students

35. Emancipatory phase of critical reflective enquiry helps to ---------- in the class.
    Maintain discipline
    Promote rote learning
    Encourage different ways of thinking
    Discourage values, beliefs and practice.

1. Reflective practices focuses on.....
a)improvement
b)change
c)theories
d)intrepretation
2. Looking is the part of the reflective process which.....
a) occurs before teaching
b) occurs after teaching
c) occurs as a precondition for reflection
d) occurs as a response to experiences
3. Frames are influenced by.....
a)Metaphors
b) Individual interests
c) Perceptions
d)Experiences
3) Lather stressed on the use of appropriate language in reflective practice to avoide.....
a) Teaching students and teachers as objects
b) Manipulating students and teachers in reflection
c) confronting students and teachers as a thing in reflection
d) All of the above
4. which of the following do not transfer but are locked in time, place or a situation.....
a) concepts

b)ideas
c)facts
d)beliefs
5) Comprehensive account of the situation either verbaly or in writing is termed as.....
a) Reflection
b)Description
c) Synthesis
d)Analysis
6. Reflective action plan involves being helped to.....
a) select a specific target
b)Planned a programe of discussion and observation over a fixed period
c)Evaluate your effectiveness
d)All of the above
7. core critical thinking skills are .....
a) Analysis
b) Inference
c)self regulation
d)All of these
8. Epistemic stances
a) Are the ways to orgainze knowledge
b)Never changes with the experiences
c) changes with the experiences
d) Are used to describe facts
9. what is the trickest padagogic task according to stefhan brookfield?
a) Being fair with students task
b) Getting inside students  heads
c) Maintaining professional relation with collegues
d) Participating in promoting school culture
10. A reframing matrix is a tool used because different people have different.....
a) Experiences to approch the problems
b))pace to cope up with the issue
c)protocols in the institution
d)Limitations to think
11. Reflective practice have been embraced by teachers researchers, teacher and educators since last .....
a) two decades
b)three decades
c)four decades
d)five decades
12. When a professionao practitionar is aware of the relevance of the skill it is called.....
a)concious incompitence
b)concious competence
c)in concious competence
d)inconcious incompetence
13. A product for a teacher might include.....
a) Relationship with students
b) Approches to assessment
c)strategies for behaviour management
d)All of these
14. Learning to learn is .....
a)  An ability to pursue in leaning
b) Identifying available opportunities
c) Building on prior learning and experience
d)All of the above
15. what are the indicators of a reflective practionar?
a) Intellectual quality
b)Higher order thinking
c)Meta language
d) All of the above
16. Reframing helps to reflective practionar.....
a) see alternative solutions and actions
b)see things from other perspective
c)both a and b
d)None of the above
17. Which of the following helps to reduceblind area and expand open area of a person in team context.....
a) feedback

b)support
c) Information
d)reflection
18. Personal attributes of critical thinkers include:
a) Honesty about emotions
b) Evaluation disposition brone from open- mindness
c) Personal awareness specially relating to personal bias
d) All of the above
19. Reflecting logically allows teachers to take control of their learning and helps them to develop overall .....
a) Personality
b) Competencies
c) Practices
d) Performance

1. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?

   Rhetorical frames
2. The 4Ps in reframing matrix are Productive planning potential and____
   People perspective

3. All are the barriers to the reflective practice except.
   Lack of Critical thinking

4. Reflective practice is important because it is used to:
   Enhance the quality of the learners

5. In reflecting writing it is important to select the most_____ part of the event only.
   Significant

6. Double loop learning involves_____.
   All of the above

7. A reframing matrix is a tool used because different peoples have different
   Experience to approach problem

8. Exploring practice using inductive action planning requires_____
   Clearly defined and expressed success criteria

9. Cognitive shortcuts that people use to help make sense of complex information is known as:
   Concept map
10. Reflective teachers are more likely to develop _____learners.
    Reflective
11. In which type of reflection historic, political and cultural values frame practical problems?
    Critical reflection
12. Which beliefs are behind to make the casual relation of frames?
    Assumptions
13. Multiple intelligence theory benefits in_____
    Development of strategies
14. According to Habermas, reflection requires a level of detachment and _____
    Objectivity

15. A benefit of the greenaway model of reflection is_____
    It is cyctical
16. A reflective practitioner is able to_____
    Question assumption and values
17. The term reflective practice is derived from the work of _____
    Schon
18. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as:
    Value
19. According to a Brookfield, which is the most powerful lens for teachers?

The self lens

20. Looking in is the part of reflective process which_____
    Occur before teaching
21. Synergistic thinking is

    None of the above
22. Key feature of reflection are:
    All of these
23. A reflective action plan involves being helped to:
    All of these
24. What happened when the original starting point causes a dilemma that needs to addressed?
    Transformation
25. _____ include in personal challenges to effective reflective practice.
    Pride
26. The major concern for a reflective practitioner is to be aware with their_____
    Underlying beliefs and assumptions
27. The theorem is a formal method of speculation developed by the_____
    Greeks
28. _____ activities are the translation of naturalistic intelligence for reflective practitioner
    Categorizing, contrasting, classifying, organizing
29. Concept-based learning means the reflective practitioner_____
    Work with deeper levels of conceptual understanding

1) which of the following is an example of warm feedback.
Warm feedback consists of supportive, appreciative statements
2)The critical lenses refer to
None of above
3)The practitioner accounts are considered none-problematic for all reasons expect
No effort is made to footer reflection on language
4) making sound judgments in work related situation is an attribute of
Ethical
5) The cognitive processes is characterized as essential to
Higher order thinking
6)The most basic level of reflection is called as
Technical
7)which of the following best describe a ' regular learning network':
A place for a teacher to come together and discuss matter and concern
8) Technical rationally in reflection deal with the
Behavior and skills
9) critical reflection involves which of the following
Analysing and evaluating
10) quadrant of jo-hari windows represent the things that you are not aware of but are know by others
Blind area
11) reflective practitioner does not believe in
One single truth/one right way
12) learning+ reflection= Experience Is know as
Boud's triangular representation
The first step in the reflective practice process is:
Examine teaching occasion particular that went bad
……allows teachers to analyze what they have been learned and how they learned to take control of their development.
Critical reflection
In reflective practice, practitioner engage in a continuous cycle of self-observation and…….
Self evaluation
A ‘product ‘for a teacher might include……
All of the above
Absolute knowing is a process of ……
Learning from other
The stage-6 of critical thinking development is called as the ……..thinker.
Accomplished
Which of the following is NOT a ‘best’ practice?
Follow the next closely to ensure coverage of the curriculum
Core Critical Thinking Skills are:
All of the these
Reframing helps the Reflective Practitioner……..
Both ‘a’ and ‘b’

In reflective writing the two source of evidence are: your and academic reflection

**Quiz 1...edu 406**

**Q1: To operationalize a best practice approach teachers must**

**Be committed to professional dialogue with other teachrs**

Be open-minded and committed to professionalism

See practice as a process of analysis

Be focused on technical proficiency

**Q2: What is the impact of reflective practices on the teacher?**

**It leads higher quality practice**

It leads to greater independence for the teacher

It sustains inclusive environments

**Q3. Within a critical thinking framework, 'reasoning' is conducted from**

A logical framework

An objective perspective

Both 'a' and 'b'

None of the above

**Q4. The 'critical lenses' refer to**

The perspectives that a teacher uses to generate different viewpoints

The focus given to the Reflective Practitioner by taking the o different viewpoints necessary to reflect on practice

A set of different viewpoints

**None of the above**

**Q6.In a school a critical friend can be all of the following except**

A teacher

A retired principal

**A new tescher wha started workong in the school shortly after you**

A friend from another school

**Q8. According to Brookfield, which is the most powerful lens for teachen? Select the correct option**

**The Self Lens**

The Student Lens

The Peers Lens

The Theary Lens

**Q9: Double loop leanng involves**

Changing personal assumptions

Changing personal approaches

**Both a and 'b**

None of the above

Q10. **The Reflective Practitioner must** _____.

Manage workloads as part of their role in planning and leading the profession

Ensure a suitable work-life balance

Both „a" and „b"

none of above corrct

**Q11. Benjamin Bloom major work in is Select the correct option**

Affective

Management

**Cognitive**

Psychomotor

**Q12.Conceptual innovation is Select the correct option**

**Like re-framing**

The same as re-framing

Not re-framing

Identifying new questions

**Q14. What are the major mechanisms involved in critical thinking for the reflective prachitioner? Select the correct option**

Self-regulation

interpretotion

**both a and b**

None of the above

**Q15.What is question/ analysis in the reflective cycle? Select the corect option. Taking on the role of researcher**

**Q16. one of the four steps in action research.**

**Identifying the research problem**

**Q17. What do systematic reflexivity and epistemic reflexivity focus on? Select the correct option Suppositions, theories, beliefs and assumptions**

**Q18. Which of the following not a component of the process involved in reflective practice? Select the corect option Subject Knowledge**

Q19. **Which of the following is NOT a best practce? Select the colrect option**

**Educates the whole child**

Follows the text closely to ensure coverage of the curriculum

Students' active participation in leaning

Chalenging envoronments

**Q20. Looking out is a combination of Select the correct option**

**A range of viewpoints about experiences**

Looking around and looking back

Perspectives which direct the focus of attention

None of the above

**Q21. One part of learning from reflection relies on teachers being open minded These charactenstics include all but Select the correct option**

Accepting consequences of their decisions

Viewing situstions from multiple perspectives

Searching for alternatives explanations for classroom events

Using evidence to suppoit or evaluate a decision or position

**Q22. What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

Reflection is more effective when conducted collaboratively

Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching

Guidance and structure are key factors for Reflective Practitioners

When the Reflective Practitioner knows what is best for children

**Q23. What does „a lack of conceptual clarity" mean?**

The educational community has different interpretations of reflection

It confuses perceptions about what happens in the classroom

It includes too many viewpoints and so becomes confusing for the individual

does not account for students" perspectives

**Q24.Creative Thinking is not critical thinking because**

It is not logical

Ut is not problem-centred

It is emotive

It is not based on „black-and-white" thinking

**Q25.Reflection-on-action can be described as _____**

Thinking about what to do

A reconstructive mental review

Problem resolution

Weighing the pros and cons of alternatives

**Q26.**

**Critical thinking is _____.**

**Select correct option:**

A biological process

A psychologicaland cognitive process

A communication process

All of the above

**Q29.Critical Reflection involves which of the following?**

Select correct option:

Analysing and conceptualising

Analysing and evaluating

Reasoning and evaluating

Conceptualizing and describing

**Q30. What factor makes reflection seem time-consuming?**

**Select correct option:**

Regular learning networks are very time-consuming

Lack of leadership for Reflective Practice

Regular learning networks are very time-consuming

Staff is too busy

**Q32.Self-regulation is Select the correct option**

A metacognitive process correct

A creative process

A psychological process

A communication process

**Q33.Learning from reflection can also be known as Select the correct option**

Discussion-based leaning

Enhancement-oriented learning

Professionel development-based learning

**Q34.To increase our 'understanding' we need to Select the correct option**

Dismiss reasoning

R espect evidence and reason

Think criticaly

None of the above

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both ‘a’ and ‘b’
- None of the above

2. Reflection is NOT _____.

- A simple ‘tick box’ activity
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

3. : Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

4. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

5. Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

6. : The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

7. : Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

8. : By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

9. : Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

10.: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

11.: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

12.: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

13.: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

14.: Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

15.: Concepts determine _____.

- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

16.: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box'
- Question other people's assumptions
- All of the above

17.: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

18.: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

19.: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

20.: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

21.: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

22.: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

23. Our assumption can be Perceptual.
24. Our assumptions can be revealed and explored through four lenses.
25. A product for a teacher might include. All of above
26. A paradigm shift is. Brings a new set of concepts
27. Reframing for new learning is. Focused on inventing new strategies
28. Concept formation involves. Perception, abstraction, generalization
29. The highest level of Bloom taxonomy is. Evaluation
30. Using a reflective action plan is valuable. To set targeted action points
31. The Professional development Journal supports the RP to. Reflect on experiences
32. Inductive learning is. Specific to general

**84: We can make theory-in-use visible by..**
a) Construction someone's theory-in-use from observations of behavior
b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts
**85: A 'problem statement'**
a) Is not too specific
b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general
**87: The benefits of concept-based learning..**
a) Depend on the experience of the reflective practitioner
b) Depend on the intellectual level of thinking of the reflective practitioner
c) Depend on the emotional engagement of the reflective practitioner
d) Depend on the psychological engagement of the reflective practitioner
**88: The reflective practitioner uses 3-dimensional instruction to**
.. b) Develop understanding of connection between topics/subject
c) Build use multiple intelligence in their teaching
d) all of the above
89: **critically reflective teaching is .**
. a) responsible for highly effective pedagogies
B) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above
**According to moon what are the key aspects of reflective practice.**
**A)**. reflective practice is a form of mental processing
b. Relies of a cognitive re processing of experience
c. aims to understand complexity and confusion in experience
d. All of the above.
**10. Which of the following is not the best practice?**
ANS. Follows the text closely to ensure coverage of the curriculum
**11. One part of learning from reflection relies on teachers being open minded . these characteristics include all but.?**
Ans. Using evidence to support or evaluate a decision or position.
**12. What is hyper reflexivity?**
Ans. Deconstructing applications of knowledge in the classroom.

**13. The most significant part of the model is...? Ans learning from experience**
**14.DATA refers** to...?The four steps analytical process necessary for guiding reflection

Which of the following about teacher's teacher's professional knowledge and understanding is true?
Ans. Teachers need to develop reflection and evaluate to support their own practice

20) Personal attributes of critical thinkers include:
Honesty about emotions
Evaluation disposition borne from open-mindedness
Personal awareness especially relating to personal bias
All of the above

Kolb's reflective cycle:
Emphasis the role experience plays in learning
Illustrates the developmental nature of reflection
Both a, b
None of the above

Which of following is not the reason of reflective practice:
Reflective practice helps students learn
It encourages us to understand our learners and their needs
It is a professional requirement
Reflective Practitioners models reflective learning

What are three levels of reflection:
Technical, empirical, practical
Technical, practical, Critical
Rational, Technical, Critical
Rational, Practical, Critical

Processes in participatory reflection include all of the following except
Careful description
Thoughtful listening
Extending thinking
None of the above

knowing in action is described by Schon as:
Our knowing is ordinarily implicit in our patterns of action
When we cannot say what we know
When we go about spontaneous, intuitive performance of the actions of every day life
All of the above

Learning from reflection can also be known as
Professional development based learning

Which of the following assumptions does not underline action research
Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay

Interpretation is the skill of
Understanding and transmitting
Cognition and communication
Thinking and talking
Receiving and sending information

When we think habitually, we_____
**Ans: Ignore Data**

**A learning 'hub' which challenges practice and policy.**

Looking in is the part of the reflective process which_____
**Ans: Occurs as a response to experiences**

Which of the following is an example of warm feedback?
**Ans: Warm feedback consists of supportive, appreciative statements**

Self-regulation is _____
**Ans: A metacognitive process**

One principle of reflection in the Roth Model is that _____
**Ans: It uses 'what', 'why' and 'how' questions**

Question 1:
Which of the following about teacher's professional knowledge and understanding is true?
- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:
According to Stephen Brook, reflective practice is?
- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:
Which of the following is NOT a 'best' practice? Pg.19
- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

Question No.4:
What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294
- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments
Question 5:
Which of the following is considered the least effective form of teacher development?
- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:
Knowing-in-action is described by Schon as _____.
- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:
What are the major mechanisms involved in critical thinking for the reflective practitioner?
- Self-regulation
- interpretation
- both 'a' and 'b'
- None of the above

question 8:
Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on 'black-and-white' thinking

Question 9:
'Looking out' is a combination of _____.
- A range of viewpoints about experiences
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

Question 10:
Which of the following assumptions does NOT underlie action research?
- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice

- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to pg.40
- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:
What is reflective practice?
- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:
What is the impact of reflective practices on the teacher
- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

5:
Which of the following about teacher's teacher's professional knowledge and understanding is true?
Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6
What does 'a lack of conceptual clarity' mean?
- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

7
According to Brookfield, which is the most powerful lens for teachers?
- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8
Which of the following is an example of 'warm' feedback?
- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9
Which of the following is not reflection in a professional setting?
- Deliberate
- Theory-focused
- Object-led
- Purposeful

10
The 'critical lenses' refer to
- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:
Reflection-on-action can be described as _____
- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:
Which of the following is NOT a principle of Reflective Practice? Pg.8
Select correct option:
- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

4:
Which of the following is NOT one of the four steps in action research?
Select correct option:
- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

6:
Critical thinking is _____.
Select correct option:
- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:
What are three levels of reflection?
Select correct option:
- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8
What is question/ analysis in the reflective cycle?
Select correct option:
- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:
Interpretation is the skills of _____.
Select correct option:
- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2
Critical Reflection involves which of the following?
Select correct option:
- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualising and describing

2:
Which of the following is NOT one of the four steps in action research?
Select correct option:
Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3
What is part of the analytical process for the practitioner?
Select correct option:
- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4
Why reflective practice is so important?
Select correct option:
- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

5
The most significant part of the model is _____.
Select correct option:
- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6
What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7

When we think habitually, we _____.

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8

Double loop learning involves _____.

Select correct option:

- Changing personal assumptions
- Changing personal approaches pg.51
- Both 'a' and 'b'
- None of the above

9

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher's professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

Self-regulation is _____. EDU406

Creative Thinking is not critical thinking because _____. EDU406

Does critical Reflection involve which of the following? EDU406

Kolb's reflective cycle _____. edu406

Within a critical thinking framework, 'reasoning' is conducted from _____. EDU406

What factor makes reflection seem time-consuming? EDU406

According to Moon, what are the key aspects of reflective practice? EDU406

What is the impact of reflective practices on the teacher? edu406

**MUHAMMAD IMRAN** | **EDU406 Critical Thinking and reflective Practice**

**29th of December 2020 (MCQs-134** | **MID TERM GRAND QUIZ**

**Quiz will be based upon Multiple Choice Questions (MCQs) and covering Lecture No. 1 to 22 (Topic 01 to 132).**

1. The cognitive process is characterized as essential to_____ **Higher order thinking**
2. Which one is called an example of critical thinking? _____**Questioning**
3. The most basic level of reflection is called as _____**Technical**
4. quadrant of jo-Hari windows represent the things that you are not aware of but are known by others _____**Blind area**
5. The name of the Schon (1983) book is ---------- _____**The reflective practitioner**
6. In a school a critical friend can be all of the following except_____ **A new teacher who started working in the school shortly after you**
7. Inference is defined as the ability to_____ **understand the information**
8. Reflective teachers are more likely to develop _____learners. _____**Reflective**
9. Being able to do something skillfully without having to consider everything closely _____ _____**Unconscious competence**
10. The difference between novice and expert teachers reflection practice is clearly visible in_____ **Developmental Readiness**
11. seeing teachers a reflective practitioner has rejected all mentioned notions except _____**helps teachers to develop repertoire of strategies**
12. according to Ash and Moore new teachers are _____ **not reflect critically and constructively**
13. According to Stephen Brook, reflective practice is? _____**Empowers the teacher to appreciate the bigger picture surrounding teaching**
14. Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs to ….. Multiple intelligence theory_____ **Logical**
15. Clarify is defined as _____ **State one point at a time**
16. Concept act as …….. tools for coping with the world and for solving problems____**cognitive**
17. Within a critical thinking framework, 'reasoning' is conducted from____ **Both 'a' and 'b'**
18. The term selective practice is derived from the work of _____**Dewey**
19. What confuses the critical thinking and pushes thought in specific directions ____**Emotions**
20. Comprehensive account of the situation either verbaly or in writing is termed as__ **Synthesis**
21. Reflective practice is important because it is used to _____**Enhance the quality of the learners**
22. Reflective practice is important because it _____**ALL of the above**
23. Which of the following assumptions does NOT underlie action research?_____ **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
24. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students_____ **In 3- dimensional instructions**
25. reflective practice is a crucial way of learning and extending_____ **professional understanding**
26. Concept formation involves. _____**Perception, abstraction, generalization**
27. Double loop learning is about _____ **changing the rules**
28. Reflection can be described as ----------_____**A reconstruction mental review**
29. The benefits of concept-based learning …….._____ **Depend on the intellectual level of thinking of the reflective practitioner**
30. Reflective Practices does not take place in a vacuum it occurs in a ___**social environment**
31. _____ include in personal challenges to effective reflective practice. _____**Pride**

32. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?_____ **Rhetorical frames**
33. The 4Ps in reframing matrix are Productive planning potential and ___ **People perspective**
34. All are the barriers to the reflective practice except. _____ **Lack of Critical thinking**
35. In reflecting writing it is important to select the most___ part of the event only. __ **Significant**
36. Double loop learning involves_ _____._____ **All of the above**
37. A reframing matrix is a tool used because different peoples have different_ _____ **Experience to approach problem**
38. Exploring practice using inductive action planning requires _____ **Clearly defined and expressed success criteria**
39. Cognitive shortcuts that people use to help make sense of complex information is known as: _____ **Concept map**
40. In which type of reflection historic, political and cultural values frame practical problems? _____ **Critical reflection**
41. Which beliefs are behind to make the casual relation of frames? _____ **Assumptions**
42. Multiple intelligence theory benefits in _____ **Development of strategies**
43. According to Habermas, reflection requires a level of detachment and _____ **Objectivity**
44. A benefit of the greenaway model of reflection is_ _____ **It is cyctical**
45. A reflective practitioner is able to _____ **Question assumption and values**
46. The term reflective practice is derived from the work of _____ **Schon**
47. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as: _____ **Value**
48. According to a Brookfield, which is the most powerful lens for teachers? ____ **The self lens**
49. Looking in is the part of reflective process which _____ **Occur before teaching**
50. Synergistic thinking is _____ **None of the above**
51. Key feature of reflection are: _____ **All of these**
52. A reflective action plan involves being helped to: _____ **All of these**
53. What happened when the original starting point causes a dilemma that needs to addressed?_____ **Transformation**
54. The major concern for a reflective practitioner is to be aware with their _____ **Underlying beliefs and assumptions**
55. The theorem is a formal method of speculation developed by the _____ **Greeks**
56. _____ activities are the translation of naturalistic intelligence for reflective practitioner _____ **Categorizing, contrasting, classifying, organizing**
57. Concept-based learning means the reflective practitioner _____ _____ **Work with deeper levels of conceptual understanding**
58. A reflective practitioner in concept-based teaching and learning encourages _____ _____ **questions and investigation**
59. Lather stressed on the use of appropriate language in reflective practice to avoid:_____ **All of above**
60. Which are related to policies in use. They are used for dealing with the situation_____ **Action frames**
61. The benefits of utilizing (MI) theory in educator professional are multifold _____ **All of the above**
62. What act as catalyst to challenging the reflective practitioner to think at more advance levels_____ **Conceptual learning**
63. vehicles for explanation, prediction or control are called as _____ **Theories**
64. Which of the following is NOT one of the four steps in action research_____ _____ **Developing a professional measurement instrument**
65. dimensional instruction includes _____ **reforming concepts to improve the level of learning across multiple contexts**

66. making sound judgments in work related situation is an attribute of…… competence _____Ethical

67. Unreflective thinker is: _____Unaware of the determining role of thinking

68. Critical reflection facilitates_____ learning_____ transformational

69. 'Looking out' is a combination of _____ A range of viewpoints about experiences

70. A limitation of self reflection are ___ The difference between perception and reality

71. Reflective practice has been embraced by teachers, researchers , teacher and educator since last:_____ two decades

72. Reflection is the ability to reflect on questions __to improve practice._ What, why and how

73. Conceptual innovation is _____._____ Like re-framing

74. Epistemic stances_____ Changes with the experiences

75. What does not constitute professionalism?_____ Reflection

76. Having subject specialist knowledge is called _____ Professionalism

77. Emancipatory phase of critical reflective enquiry helps to _____ in the class.____ _____Encourage different ways of thinking

78. In 5-step model of critical thinking, the first step is:_____ Determining goals/objectives

79. Single loop learning has ____strategies._____ Rigid

80. One principle of reflection in the Roth Model is that _____._____ _____It uses 'what', 'why' and 'how' questions

81. Teachers mostly don't take _____what they did in class. _____ Action

82. Professional competencies may be developed by:___ _____understanding and knowledge of social and policy contexts for education

83. What does 'a lack of conceptual clarity' mean?_____ the educational community has different interpretations of reflection

84. Reflective practitioner has two levels. The names of these two levels are: _____ action level and cognitive level

85. A taxonomy provides a structured framework to a reflective practitioner to move from _____Absolute knowing to Contextual knowing

86. Principles of developing competence among reflective practitioners include _____ _____assume roles beyond the classroom

87. In reflective practice the major focus of teacher must not on "why things are happening "but on:_____ what has happened?

88. What is reflective practice ___ Process of action to improve the professional role

89. Synergistic thinking is a combination of following thinking levels:_____ _____factual and conceptual thinking

90. Reframing of beliefs is a four-step process. The order of determination of these beliefs is:_____ core belief -supporting beliefs -opposites of supporting belief -reframed core belief

91. According to Sandwell's view, giving emphasis on only individual reflection leads to:___ _____ignoring accounts of other within the community within which reflection occurs

92. Reflective writing focuses on _____._____ Interpretation

93. Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of _____ reflection.

94. What is the trickiest pedagogic task according to Stephan Brookfield? _____Getting inside student's heads

95. Re-theorising is the means by which Reflective Practitioners _____Critically examine practice and theories in the light of theories

96. The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ Practical

97. Which model encourages the teachers to think about a given situation and establish and action plan for dealing_ _____Gibbs reflective cycle

98. To increase our understanding, we need to_____ respect evidence and reason

99. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____ **continually develop and learn from their experience or meet organizational and national standards**

100. Critical reflection involves which of the following_____ **Analysing and evaluating**

101. All the practices of formal instruction expect_____ **it develops its own assumptions**

102. in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**

103. Which of the following is not a reason for reflective practice? _____**Reflective practitioner models reflective learning**

104. The competence model is about _____ _____**how the teacher moves through different levels of awareness**

105. What does evidence suggest as being most important for a long-term commitment to Reflective Practice_ _____**Guidance and structure are key factors for Reflective Practitioners**

106. All are the stages of epistemic stances except:_____ **Situational knowing**

107. Reflective writing does all of the following expect: _____**create ideas**

108. Leaning from reflection can also be known as_____ **Professional development-based learning**

109. Our assumption can be_____ **Perceptual**.

110. Who discuss the cultural and personal risks involved in reflective practice_____ **Brookfield**

111. The jo-Hari windows has …… quadrants_____**4**

112. What help student to build trust and promote positive learning environment in class _____**teaching becomes responsive to student feedback**

113. Theories –in-use- means:_____**For exploring and developing ideas**

114. The theorem is a formal method of speculation developed by the_____._____ **Greeks**

115. Applying a new strategy to achieve an outcome and having a wider perspective is the attribute of:__ _____**Double Loop learning**

116. Who proposes a framework based on different kinds of critical thinking.___ _____**Halpern**

117. We understand frames through the use of _____._____ **Metaphors to communicate logic**

118. Re-Thinking mean:_____ **What is already known?**

119. A reflective practitioner uses a range of reflective models in the class because___

120. Self-regulation is _____._____ **A metacognitive process**

121. The Constant striving for self-improvement of a reflective practitioner may leads to :_____ **Self-disapproval**

122. Reflective practitioner does NOT believe in:_____ **One single truth/ one right way**

123. _____ activities are the translation of musical intelligence for reflective practitioner_____ **Listening, patterning, mirroring, repeating**

124. Benjamin Bloom major work in is _____. **Cognitive**

125. Which is the highest level of reflection from the following types?_____ **Critical**

126. A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in_____**3-dimensional instruction**

127. A common strand of reflecting-in-action and reflecting-on-practice is _____._____

128. Critical analysis for a reflective practitioner is a process to_____

129. Connecting with feelings in relation to applications of theory

130. The concept of frames has been developed as a tool for _____.

131. Theory- in-use can be constructed from:

132. The 'critical lenses' refer to _____.

133. Being open-minded means the Reflective Practitioner is _____ .

134. One of the Principles of reflective practice is based on _____research.

135.

# EDU406
# GRAND QUIZ FILE
# DEVELOPED WITH THE HELP OF
# GROUP: B.ed (1.5) VU SEMESTER 1

1. **One part of learning from reflection relies on teachers being open-minded. These characteristics include all but……**

a) Accepting consequences of their decisions
b) Viewing situations from multiple perspectives
c) Searching for alternatives explanations for classroom events
**d) Using evidence to support or evaluate a decision or position**

**2. What is hyper-reflexivity?**

a) Reflecting on the components parts of changing practice
**b) Deconstructing applications of knowledge in the classroom**
c) Deconstructing meaning acquired from experiences in the classroom
d) Acquiring meaning from experiences in the classroom

**3. Kolb's reflective cycl ……**

**a) Emphasises the role experience plays in learning**
**b) Illustrates the developmental nature of reflection**
**c) Both 'a' and 'b'**
**d) None of the above**

**4. Which of the following is not a reason for reflective practice?**

**a) Reflective practice helps students learn**
**b) It encourages us to understand our learners and their needs**
**c) It is a professional requirement**
**d) Reflective practitioner models reflective learning**

**5. To operationalize a best practice approach teachers must**

**a) Be committed to professional dialogue with other teachers**
**b) Be open-minded and committed to professionalism**
**c) See practice as a process of analysis**
**d) Be focused on technical proficiency**

**6. Rapid reflection is all but …..**

**a) Contemplative**
**b) Immediate**
**c) On-going**
**d) automatic**

**7. Processes in participatory reflection include all of the following except**

**a) Careful description**
**b) Thoughtful listening**
**c) Extending thinking**
**d) None of the above**

**8. A critical friend can be defined as ……**

**a) Someone who assume a directive role**
**b) A trusted person who asks provocative questions, provides data to be examined through another lens, and others critiques of a person's work as a friend**
**c) A colleague who provides solutions to problems**
**d) Judges actions and behaviors as part of feedback**

**9. Bloom's model which guides the lowest level of reflection might use all the following except ….**

a) **Was my explanation clear enough for the students?**
b) **Was the lesson complete on time?**
c) **Did I give enough time for individual activity?**
d) **What instructional strategies were used?**

**10: Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- Teachers need to develop reflection and evaluation to support them their own and other practice

**11:** According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- **Empowers the teacher to appreciate the bigger picture surrounding teaching**
- Is a way for teaches to understand their problems
- **None of the above**

**12: Which of the following is NOT a 'best' practice?**

a) Educates the whole child
b) **Follows the text closely to ensure coverage of the curriculum**
c) Students' active participation in learning
d) Challenging environments

**13: What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- **Guidance and structure are key factors for Reflective Practitioners**
- When the Reflective Practitioner knows what is best for children Challenging environments

**14: Which of the following is considered the least effective form of teacher development?**

- **Certificated Courses**
- Workshops
- n-school mentoring
- Communities of Practice

**15: Knowing-in-action is described by Schon as _____.**

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- **When we go about the spontaneous, intuitive performance of the actions of everyday life**
- All of the above

**16: What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation
- interpretation
- **both 'a' and 'b'**

- None of the above

**17: Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- **It is emotive**
- it is not based on 'black-and-white' thinking

**18:in a school, a critical friend can be all of the following except …..**

**a) A teacher**
**b) A retired principal**
**c) A new teacher who started working in the school shortly after you**
**d) A friend from another school**

**19: 'Looking out' is a combination of _____.**

- **A range of viewpoints about experiences**
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

**20: Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
- Teachers and other education professionals are committed to continued professional development

21. Personal attributes of critical thinkers include

a) Honesty about emotions
b) Evaluative disposition borne from open-mindedness
c) Personal awareness especially relating to personal bias
**d) All of the above**

**22. DATA refers to**

- The analysis of an event
- A cycle of learning
- The teacher describing, analysing, thinking and acting
- **The four steps analytical process necessary for guiding reflection**

**23: What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- **Process of action to improve the professional role**
- none of these

**24: What is the impact of reflective practices on the teacher**

- **It leads higher quality practice**
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

**25: Which of the following about teacher's teacher's professional knowledge and understanding is true?**

**Once reflection becomes a habit you will not need to develop your reflective skills further**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- teachers need to develop reflection and evaluation to support their own and others practice

**26 What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- **It includes too many viewpoints and so becomes confusing for the individual**
- does not account for students' perspectives

**27 According to Brookfield, which is the most powerful lens for teachers?**

- **The Self Lens**
- The Student Lens
- the peers lens, the theory lens

**28 Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching
- **Warm feedback consists of supportive, appreciative statements**
- Warm feedback raises questions
- None of the above

**29 Within a critical thinking framework, 'reasoning' is conducted from …….**

**a) A logical framework**
**b) An objective perspective**
**c) Both 'a' and 'b'**
**d) None of the above**

**30: Which of the following not a component of the process involved in reflective practice**

**a) E dism**
**b) Subject knowledge**
**c) Interpersonal relationship**
**d) Personality values**

**31 Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- **Object-led**
- Purposeful

**32 The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- **None**

**33: Leaning from reflection can also be known as ….**

a) Discussion-based learning
b) Enhancement-oriented learning
**c) Professional development-based learning**
d) Inquiry-oriented learning

**34: Reflection-on-action can be described as _____**

- Thinking about what to do
- **A reconstructive mental review**
- Problem resolution
- Weighing the pros and cons of alternatives

**35: Which of the following is NOT a principle of Reflective Practice?**
**Select correct option:**

- It is problem-oriented
- It is based on action research
- **It is data-driven**
- It is research-led

**36: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

- Identifying the research problem
- **Developing a professional measurement instrument**
- Obtaining the necessary information to answer the question
- Developing a plan of action

**37: Re-theorising is the means by which Reflective Practitioners _____.**
**Select correct option:**

- Critically examine practice
- Critically examine theories
- **Critically examine practice and theories in the light of theories**
- Critically examine data and research in the light of theories

**38: Critical thinking is _____.**
**Select correct option:**

- A biological process
- A psychological and cognitive process
- A communication process
- **All of the above**

**39: What are three levels of reflection?**
**Select correct option:**

- Technical, empirical and practical
- **Technical, practical and critical**
- Rational, technical and critical
- Rational, practical and critical

**40 What is question/ analysis in the reflective cycle?**
**Select correct option:**

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- **Asking many questions**

**41: Interpretation is the skills of _____.**
**Select correct option:**

- Understanding and transmitting
- **Cognition and communication**

- Thinking and talking
- Receiving and sending information

**42 Critical Reflection involves which of the following?**
**Select correct option:**

- Analysing and c
- **Analysing and evaluating**
- Reasoning and evaluating
- Conceptualising and describing

**43 : According to Schon, reflection-in-action and reflection-on-action are the mechanisms reflective practitioners use that permit them to…….**

**a) Continually develop and learn from their experience**
**b) Meet organizational/ national standards**
**c) Both 'a' and 'b'**
d) None of the above

**44: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

a) Identifying the research problem
**b) Developing a professional measurement instrument**
c) Obtaining the necessary information to answer the equation
d) Developing a plan of action

**45: What is part of the analytical process for the practitioner?**
**Select correct option:**

- The identification of own assumptions
- The examination of the underlying values base
- **Both 'a' and 'b'**
- None of the above

**46: Why reflective practice is so important?**
**Select correct option:**

- Research highlights the importance of reflective practice for changing personal values biases
- **Research shows that reflective practice is essential for developing our understanding about teaching and learning**
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

**47: The most significant part of the model is _____.**
**Select correct option:**

- **Learning from experience**
- Learning from reflecting
- Learning from information
- Learning from knowledge

**48: What do systematic reflexivity and epistemic reflexivity focus on?**
**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- **Suppositions, theories, beliefs and assumptions**

- Praxis, values, theories and beliefs

**49: When we think habitually, we _____.**
**Select correct option:**
- Dismiss reasoning
- Have a fixed focus which distracts attention
- **Ignore data**
- None of the above

**50: Double loop learning involves _____.**
**Select correct option:**
- Changing personal assumptions
- Changing personal approaches
- **Both 'a' and 'b'**
- None of the above

**51: What factor makes reflection seem time-consuming?**
**Select correct option:**
a) Regular learning networks are very time-consuming
b) Lack of leadership for Reflective Practice
c) Regular learning networks are very time-consuming
**d) Staff is too busy**

**52: Which of the following best describes the benefits of reflective practice?**
a) It changes the balance of power
**b) It determines what counts as knowledge**
c) It provides opportunity for knowledge sharing which empowers teachers
d) It determines foundation to more egalitarian perspectives

**53: What does the idea of reflective practice dismiss?**
a) Patriarchal views
b) Teachers view
c) Greater involvement of teacher in setting the education agend
**d) Fixed perception of the nature of the learning**

**54: To operationalize a best practice approach teachers must …….**
**a) Be committed to professional dialogue with other teachers**
b) Be open-minded and committed to professionalism
c) See practice as a process of analysis
d) Be focused on technical proficiency

**55. Looking in is the part of the reflective process which**
a) Occurs before teaching
b) Occurs after teaching
**c) Occurs as a precondition for reflection**
d) Occurs as a response to experience

**56: Which of the following Best describes a 'regular learning network'?**

a) A learning "hub" which challenge practice and policy
b) A leaning hub of reflective practice
c) A hub for sustained improvement in the lives of teachers
**d) A placed for teachers to come together and discuss matters of concern**

57: According to Moon. What are the key aspects of reflective practice?

a) Reflection is a form of mental processing
b) Relies of a cognitive re-processing of experience
c) Aims to understand complexity and confusion in experience
**d) All of the above**

58: The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- **Both 'a' and 'b'**
- None of the above

59: Reflection is NOT _____.

- **A simple 'tick box' activity**
- A routine activity for a teacher
- Both 'a' and 'b'
- None of the above

60 :Deductive learning is _____.

- **From general to specific**
- Rule base
- From unknown to known
-
- All the above

61: The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- **Both 'a' and 'b'**
- None of the above

62: Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- **Specific details within an experience**
- Ideas, concepts and opinions

63:The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- **Both 'a' and 'b'**
- None of the above

64:Working inductively means to _____ .

- **Identify a goal and explore strategies to achieve it**
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

65: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- **Adaptable to changing conditions**
- Able to review experiences critically

- Is open to many new ideas

66: Reflection can be negatively influenced by _____.
- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- **Both 'a' and 'b'**

67: The Professional Development Journal is _____.
- A personal diary
- An on-going discourse
- **A subjective dialogue**
- A list of critical incidents

68: We understand frames through the use of _____.
- Metaphors providing explain them
- Metaphors to clarify them
- **Metaphors to communicate logic**
- None of the above

69: The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- **Both 'a' and 'b'**
- None of the above

70: The study of parts of the community fall in _____.
- Evaluation
- Synthesis
- Analysis
- **Knowledge**

71: Concept-based learning means the Reflective Practitioner _____ .
- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- **Works with deeper levels of conceptual understanding**

72: Being committed to the profession means _____.
- **Being responsible for continuing professional development**
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

73: Concepts determine _____.
- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- **The frames for perception**
- The ways a Reflective Practitioner explains experience

74: A Reflective Practitioner is able to _____.

- **Question assumptions and values**
- Think 'outside the box'
- Question other people's assumptions
- All of the above

76:We develop theories-in-use as Reflective Practitioners to _____.

- **Understand theories as we apply them**
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

77: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- **Both 'a' and 'b'**
- None of the above

78: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- **Both 'a' and 'b'**
- None of the above

79: An effective action plan is _____.

- Developmental
- Precise
- Shared
- **All of the above**

80: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- **All of the above**

81: A reflective action plan provides the Reflective Practitioner with _____.

- **Targets, planning, evaluation**
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

82: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience
- **All of the above**

**83: Benjamin Bloom major work in is….**

**a) Affective**

b) Management
c) Cognitive
d) Psychomotor

**84: We can make theory-in-use visible by….**

a) Construction someone's theory-in-use from observations of behavior
b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts

**85: A 'problem statement' ……..**

a) Is not too specific
b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general

**86: Professional knowledge relates to ……**

a) Subject knowledge
b) Communication skills
c) Social interaction
d) All of the above

**87: The benefits of concept-based learning …….**

a) Depend on the experience of the reflective practitioner
b) Depend on the intellectual level of thinking of the reflective practitioner
c) Depend on the emotional engagement of the reflective practitioner
d) Depend on the psychological engagement of the reflective practitioner

**88: The reflective practitioner uses 3-dimensional instruction to …….**

a) Develop skills for concept-based teaching
b) Develop understanding of connection between topics/subject
c) Build use multiple intelligence in their teaching
d) all of the above

**89: critically reflective teaching is ……**

a) responsible for highly effective pedagogies
b) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above

**90: a paradigm shift is**

a) brings a new set of concepts
b) provides the opportunity tgo understand and manage changing
c) support reflection through a simple frame work related to rule
d) all of the above

**91: our assumptions can be**

a) perceptual
b) situational
c) Rhetorical
d) instructional

**92: Reframing for new learning is**

a) process for improving understanding
b) focused on inventing new strategies

c) based on solving conflicts
d) all of the above

**93: Being committed to the profession means**

a) being responsible for continuing professional development
b) being responsible for managing change
c) being responsible for changing policy and practice
d) none of the above

**94: which of the following best support the reflective practitioner to categorise the interpretation of an experience?**

a) Meaningful
b) Significant
c) Relevant
d) All of the above

**95: concept formation involves**

Ans: Perception,abstraction,generalization

**96: inductive learning is**

Ans: from specailto general

**97: the highest level of bloom taxonomy is**

Ans: evaluation

**98: using a reflective action plan is valuable**

Ans: to set targeted action points

**99: we understand frame through the use of**

Ans: metaphors to communicate logic

**100: the professional development journal supports the reflective practitioner to**

Ans: reflect on experience

**101: a limitation of reflection is**

Ans: the difference between perception and reality

**MUHAMMAD IMRAN** | **EDU406 Critical Thinking and reflective Practice**

**29th of December 2020 (MCQs-134** | **MID TERM GRAND QUIZ**

**Quiz will be based upon Multiple Choice Questions (MCQs) and covering Lecture No. 1 to 22 (Topic 01 to 132).**

1. The cognitive process is characterized as essential to_____ **Higher order thinking**
2. Which one is called an example of critical thinking? _____**Questioning**
3. The most basic level of reflection is called as _____**Technical**
4. quadrant of jo-Hari windows represent the things that you are not aware of but are known by others _____**Blind area**
5. The name of the Schon (1983) book is ---------- _____**The reflective practitioner**
6. In a school a critical friend can be all of the following except_____ **A new teacher who started working in the school shortly after you**
7. Inference is defined as the ability to_____ **understand the information**
8. Reflective teachers are more likely to develop _____learners. _____**Reflective**
9. Being able to do something skillfully without having to consider everything closely _____ _____**Unconscious competence**
10. The difference between novice and expert teachers reflection practice is clearly visible in_____ **Developmental Readiness**
11. seeing teachers a reflective practitioner has rejected all mentioned notions except _____**helps teachers to develop repertoire of strategies**
12. according to Ash and Moore new teachers are _____ **not reflect critically and constructively**
13. According to Stephen Brook, reflective practice is? _____**Empowers the teacher to appreciate the bigger picture surrounding teaching**
14. Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs to ….. Multiple intelligence theory_____ **Logical**
15. Clarify is defined as _____ **State one point at a time**
16. Concept act as …….. tools for coping with the world and for solving problems____**cognitive**
17. Within a critical thinking framework, 'reasoning' is conducted from____ **Both 'a' and 'b'**
18. The term selective practice is derived from the work of _____**Dewey**
19. What confuses the critical thinking and pushes thought in specific directions ____**Emotions**
20. Comprehensive account of the situation either verbaly or in writing is termed as__ **Synthesis**
21. Reflective practice is important because it is used to _____**Enhance the quality of the learners**
22. Reflective practice is important because it _____**ALL of the above**
23. Which of the following assumptions does NOT underlie action research?_____ **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
24. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students_____ **In 3- dimensional instructions**
25. reflective practice is a crucial way of learning and extending_____ **professional understanding**
26. Concept formation involves. _____**Perception, abstraction, generalization**
27. Double loop learning is about _____ **changing the rules**
28. Reflection can be described as ----------_____**A reconstruction mental review**
29. The benefits of concept-based learning …….._____ **Depend on the intellectual level of thinking of the reflective practitioner**
30. Reflective Practices does not take place in a vacuum it occurs in a ___**social environment**
31. _____ include in personal challenges to effective reflective practice. _____**Pride**

32. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?_____ **Rhetorical frames**
33. The 4Ps in reframing matrix are Productive planning potential and ___ **People perspective**
34. All are the barriers to the reflective practice except. _____ **Lack of Critical thinking**
35. In reflecting writing it is important to select the most___ part of the event only. __ **Significant**
36. Double loop learning involves_ _____._____ **All of the above**
37. A reframing matrix is a tool used because different peoples have different_ _____ **Experience to approach problem**
38. Exploring practice using inductive action planning requires _____ **Clearly defined and expressed success criteria**
39. Cognitive shortcuts that people use to help make sense of complex information is known as: _____ **Concept map**
40. In which type of reflection historic, political and cultural values frame practical problems? _____ **Critical reflection**
41. Which beliefs are behind to make the casual relation of frames? _____ **Assumptions**
42. Multiple intelligence theory benefits in _____ **Development of strategies**
43. According to Habermas, reflection requires a level of detachment and _____ **Objectivity**
44. A benefit of the greenaway model of reflection is_ _____ **It is cyctical**
45. A reflective practitioner is able to _____ **Question assumption and values**
46. The term reflective practice is derived from the work of _____ **Schon**
47. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as: _____ **Value**
48. According to a Brookfield, which is the most powerful lens for teachers? ____ **The self lens**
49. Looking in is the part of reflective process which _____ **Occur before teaching**
50. Synergistic thinking is _____ **None of the above**
51. Key feature of reflection are: _____ **All of these**
52. A reflective action plan involves being helped to: _____ **All of these**
53. What happened when the original starting point causes a dilemma that needs to addressed?_____ **Transformation**
54. The major concern for a reflective practitioner is to be aware with their _____ **Underlying beliefs and assumptions**
55. The theorem is a formal method of speculation developed by the _____ **Greeks**
56. _____ activities are the translation of naturalistic intelligence for reflective practitioner _____ **Categorizing, contrasting, classifying, organizing**
57. Concept-based learning means the reflective practitioner _____ _____ **Work with deeper levels of conceptual understanding**
58. A reflective practitioner in concept-based teaching and learning encourages _____ _____ **questions and investigation**
59. Lather stressed on the use of appropriate language in reflective practice to avoid:_____ **All of above**
60. Which are related to policies in use. They are used for dealing with the situation_____ **Action frames**
61. The benefits of utilizing (MI) theory in educator professional are multifold _____ **All of the above**
62. What act as catalyst to challenging the reflective practitioner to think at more advance levels_____ **Conceptual learning**
63. vehicles for explanation, prediction or control are called as _____ **Theories**
64. Which of the following is NOT one of the four steps in action research_____ _____ **Developing a professional measurement instrument**
65. dimensional instruction includes _____ **reforming concepts to improve the level of learning across multiple contexts**

66. making sound judgments in work related situation is an attribute of…… competence _____Ethical

67. Unreflective thinker is: _____Unaware of the determining role of thinking

68. Critical reflection facilitates_____ learning_____ transformational

69. 'Looking out' is a combination of _____ A range of viewpoints about experiences

70. A limitation of self reflection are ___ The difference between perception and reality

71. Reflective practice has been embraced by teachers, researchers , teacher and educator since last:_____ two decades

72. Reflection is the ability to reflect on questions __to improve practice._ What, why and how

73. Conceptual innovation is _____._____ Like re-framing

74. Epistemic stances_____ Changes with the experiences

75. What does not constitute professionalism?_____ Reflection

76. Having subject specialist knowledge is called _____ Professionalism

77. Emancipatory phase of critical reflective enquiry helps to _____ in the class.____ _____Encourage different ways of thinking

78. In 5-step model of critical thinking, the first step is:_____ Determining goals/objectives

79. Single loop learning has ____strategies._____ Rigid

80. One principle of reflection in the Roth Model is that _____._____ _____It uses 'what', 'why' and 'how' questions

81. Teachers mostly don't take _____what they did in class. _____ Action

82. Professional competencies may be developed by:___ _____understanding and knowledge of social and policy contexts for education

83. What does 'a lack of conceptual clarity' mean?_____ the educational community has different interpretations of reflection

84. Reflective practitioner has two levels. The names of these two levels are: _____ action level and cognitive level

85. A taxonomy provides a structured framework to a reflective practitioner to move from _____Absolute knowing to Contextual knowing

86. Principles of developing competence among reflective practitioners include _____ _____assume roles beyond the classroom

87. In reflective practice the major focus of teacher must not on "why things are happening "but on:_____ what has happened?

88. What is reflective practice ___ Process of action to improve the professional role

89. Synergistic thinking is a combination of following thinking levels:_____ _____factual and conceptual thinking

90. Reframing of beliefs is a four-step process. The order of determination of these beliefs is:_____ core belief -supporting beliefs -opposites of supporting belief -reframed core belief

91. According to Sandwell's view, giving emphasis on only individual reflection leads to:___ _____ignoring accounts of other within the community within which reflection occurs

92. Reflective writing focuses on _____._____ Interpretation

93. Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of _____ reflection.

94. What is the trickiest pedagogic task according to Stephan Brookfield? _____Getting inside student's heads

95. Re-theorising is the means by which Reflective Practitioners _____Critically examine practice and theories in the light of theories

96. The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ Practical

97. Which model encourages the teachers to think about a given situation and establish and action plan for dealing_ _____Gibbs reflective cycle

98. To increase our understanding, we need to_____ respect evidence and reason

99. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____ **continually develop and learn from their experience or meet organizational and national standards**

100. Critical reflection involves which of the following_____ **Analysing and evaluating**

101. All the practices of formal instruction expect_____ **it develops its own assumptions**

102. in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**

103. Which of the following is not a reason for reflective practice? _____**Reflective practitioner models reflective learning**

104. The competence model is about _____ _____**how the teacher moves through different levels of awareness**

105. What does evidence suggest as being most important for a long-term commitment to Reflective Practice_ _____**Guidance and structure are key factors for Reflective Practitioners**

106. All are the stages of epistemic stances except:_____ **Situational knowing**

107. Reflective writing does all of the following expect: _____**create ideas**

108. Leaning from reflection can also be known as_____ **Professional development-based learning**

109. Our assumption can be_____ **Perceptual**.

110. Who discuss the cultural and personal risks involved in reflective practice_____ **Brookfield**

111. The jo-Hari windows has …… quadrants_____**4**

112. What help student to build trust and promote positive learning environment in class _____**teaching becomes responsive to student feedback**

113. Theories –in-use- means:_____**For exploring and developing ideas**

114. The theorem is a formal method of speculation developed by the_____._____ **Greeks**

115. Applying a new strategy to achieve an outcome and having a wider perspective is the attribute of:__ _____**Double Loop learning**

116. Who proposes a framework based on different kinds of critical thinking.___ _____**Halpern**

117. We understand frames through the use of _____._____ **Metaphors to communicate logic**

118. Re-Thinking mean:_____ **What is already known?**

119. A reflective practitioner uses a range of reflective models in the class because___

120. Self-regulation is _____._____ **A metacognitive process**

121. The Constant striving for self-improvement of a reflective practitioner may leads to :_____ **Self-disapproval**

122. Reflective practitioner does NOT believe in:_____ **One single truth/ one right way**

123. _____ activities are the translation of musical intelligence for reflective practitioner_____ **Listening, patterning, mirroring, repeating**

124. Benjamin Bloom major work in is _____. **Cognitive**

125. Which is the highest level of reflection from the following types?_____ **Critical**

126. A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in_____**3-dimensional instruction**

127. A common strand of reflecting-in-action and reflecting-on-practice is _____._____

128. Critical analysis for a reflective practitioner is a process to_____

129. Connecting with feelings in relation to applications of theory

130. The concept of frames has been developed as a tool for _____.

131. Theory- in-use can be constructed from:

132. The 'critical lenses' refer to _____.

133. Being open-minded means the Reflective Practitioner is _____ .

134. One of the Principles of reflective practice is based on _____research.

135.

# EDU406 Quiz # 3 MCQs Solved
# Compiled by Tanveer Online Academy

- Asynchronous discussion allows: dialogue occurs sometimes after experience
- A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students. Mentor
- The question that reflective practitioner can ask at this _____ of Socratic method is What do you already think at this point. Eliciting
- Supervision in education is made up of: Collaborative Observation and Feedback
- ____types of questions are often used to develop thinking from lower to higher order. Three
- Dialogue can be a self-assessment tool for reflective practitioner in: Assessing knowledge and Practice
- Which of the following are the primary processes of Socratic Method_____? **The constructive process**
- **Lesson study focuses more on:** student learning
- Enactive learning is the learning by_____ Doing and experiencing consequences of actions
- Written reflection is positive and useful because _____ It is possible to evident all the experiences
- The role of reflecting team in collaborating observation is to: Listens to the dialogue without interrupting
- Which one of the following is the lower level of blooms taxonomy_____? Evaluation
- Mentor can take on different roles for reflective practitioner like a: **All of these**
- The conversation in the 7 C's model for supervision can create understanding for: Students
- The reflective practitioner needs to engage with one key understanding that is **_professionalism**
- In asynchronous discussion teacher: Reflect on theories learnt about teaching
- The reflective practitioner ensure that inter-professional learning is effective at many levels like: all of the above
- Reflecting with colleagues is very important because: helps us integrate in school and feel valued with other professionals
- There are ____ characteristics of high performing schools: 9
- There are some particular drivers of inter-professional learning for reflective Practitioner like: all of these
- There are some principles involved in inter-professional learning which: Increase professional satisfaction
- 
- Questions of Assumption- force the reflective practitioner to look at information understand it and then to reflect internally and what assumptions we assumptions we have which are affecting the information.
- What type of skill reflective practitioner needs to develop _____? flexible

# EDU406 Quiz # 3 MCQs Solved
# Compiled by Tanveer Online Academy

- How many steps in Socratic questioning are_____? 6
- How many levels of bloom taxonomy are: 6
- An academic portfolio is an evolving collection of: Experience and experiments over time
- Peer observation helps you to: Provide evidence
- Peer observation focuses on four key areas which are: Planning, teaching strategies, management, assessment
- Changes can also be _____ i.e., how we go about and think about our work and even the outcomes can also be looked at from a change perspective. Evaluative
- The goal of lesson study is to improve the: experience provided to the students
- Peer monitoring is a:
- As an observer you need to: do all the above
- Can you form a new proposition given what you have just learned? This question is related to the stage_____. Decide
- Which one of the following is the higher level of blooms taxonomy _____? **Knowledge**
- Questions of Assumption is_____. force the reflective practitioner to look at information understand it and then to reflect internally and what assumptions we assumptions we have which are affecting the information
- A community of practice can be described as a group of _____ working together to achieve a common goal. People
- Teacher collaborating is a means for reflective practitioner to get feedback which should be
- Peer coaching in differentiated supervision is where: Two teachers work as a team
- Situated learning focuses on teacher learning to make them to: Think critically and originally
-

## EDU406 QUIZ 3 MCQS SPRING 2021

**When differentiated supervision is occurred in peer coaching? Two teachers work as a team**

**Which of the following is a characteristic of best peer mentoring? Honest in terms of the exchange of information**

**The goal of lesson study is to improve the: Experiences provided to the students**

**Can you form a new proposition given what you have just learned? This question is related to the stage_____. Decide**

**The conversation in the 7 C's model of supervision can create new understanding for: Students**

**Theory building operates on both levels: abstract and _____. Empirical**

**Team work can contribute to which one of these? Job satisfaction**

**Reflecting with colleagues is very important because: helps us integrate in school and feel valued with other professionals**

**In 1900 who provide one coding? Strauss and Corbin**

**Inter-professional learning happens at the level of the timetable and allocation of resources within the timetable and _____. Curriculum**

**Learning occurs when we tried to close the gap between which one of these? What we think we know and what we actually know**

**Which of the following is NOT Interpersonal discourse? Skeptical**

**An academic portfolio is an evolving collection of: Experiences and experiments over time**

**Force the reflective practitioner to consider data and information over time to see that information is consistent, relates to_____. Questions of consistency**

**Basic means of human knowledge acquisition are _____. 3**

**Theory building attempt to construct and _____. Evaluate**

**Which one is a NOT a part of Specific domains shared by Communities of practice? Success stories**

**The process of knowledge management fits with the notion of which of these practitioner? Reflective**

**In terms of goal setting, what does the acronym SMARTER stand for? specific, measurable, action-oriented, realistic, time-bound, energizing and relevant**

**Effective team members are good at five C's in team composition. One of them is: Communication**

**According to Halliday's social-semiotic perspective which of the following macro functions a language perform? Ideational (experiential), interpersonal and textual**

**Repeated and similar findings is known as_____. Replication**

**In an organization, which of the following is the biggest barrier to reflective practice? Lack of training**

**The use of evidence for professional learning cannot be a_____.**

**Who are change agents? Teachers**

**The role of reflecting team in collaborating observation is to: Listen to the dialogue without interruption and take notes**

**Sources of theoretical sensitivity include which of these experiences? Personal Experience and Professional**

**Communities of practice share specific domains and this/these numbers of domains is/are: 3**

**In Socratic method, questions of assumption force the reflective practitioner to look at the information and _____ it. Understand**

**The reflective practitioner has to go through the four stages while maintaining dialogic diaries which are_____ Uncertainty, enthusiasm, lack of enthusiasm and habit**

**The question that reflective practitioner can ask at this _____ of Socratic method is What do you already think at this point. Eliciting**

**Which of the following option is suitable when teacher collaborating is a means for reflective practitioner to get feedback? Focused, evidence-based, constructive, timely**

**Written reflection is positive and useful because: It is possible to evident all the experiences**

**Which of the following is a characteristic of self-regulated teacher? Able to think about the way they are thinking**

**Which of these required for effective schooling? Coordinated efforts**

**Which of the following is considered a valuable outcome of work-based learning? Self-directed learning**

**Supervision in education is made up of: Collaborative observation and feedback**

**To allow the reflective practitioner to seek out and conceptualize latent social patterns and structures through constant comparisons for this reflective practitioner has to take the role of which one of these? Researcher**

**How many fields of knowledge exist? 3**

**In SECI, the letter C represents: Combination**

**How many stages are there while considering situated learning to support reflective practitioner? 4**

**As an observer what do you need the most? Give structured feedback**

**Within the domain there are_____ proficiencies that the reflective practitioner can focus on. 3**

**'Does this all make sense together? This question belongs to which type of Socratic questioning? Logic**

**In Selective coding we have to identify which category? Single**

**In which of these areas peer observation focuses? Planning, teaching strategies, management, assessment**

**Evidence from students can be _____. Formal and Informal**

**COP is a group of people that work together for: Common goal**

**GT stands for? Grounded Theory**

**Which of the following are processes for the creation of academic portfolio? Connection, selection, reflection, collection**

**Teamwork can assist in the development and promotion of inter-professional: Communication**

**Evidence can be source of information for _____. Teaching**

**Which is NOT included in Grounded Theory comparison? Knowledge**

**IPL stands for: Inter professional learning**

Reflective teaching allows us to make changes in _____. Practice

Action is the --------- stage of reflection in Situating reflecting process. Final

Which one of the following introduced the idea of reflective practice? Dewey

Reviewing is very much about ---------- Reflecting on practice

Which one of the following resulted when reflective practitioner constantly strive for self-improvement? Negative

Which one of the following is NOT considered as a characteristics of reflection in professional setting? Critical

What is the important aspect of 21st century learning in classroom? Conductive to learning

_____ is a process which focuses on a professional relationship with the colleague. Critical friend

What is the best classroom practice? Students are on task

According to Lather which one of the following is necessary for reflective practice? Language

Reflexive critique deals with: Questioning things, arguments and trying to find new ways

Reviewing is very much about ---------- Reflecting on practice

Which of the following is NOT one of the four steps in action research? Developing a professional measurement instrument

A critical friend can be defined as ____. A trusted person who asks provocative questions, provides data to be examined through another lens, and offers critiques of a person’s work as a friend

Research shows that teachers, who reflect on their teaching results: in achieving best outcomes for their students

Which one of the following elements are considered in technical rationality? Behavior and attitude

Reflection-on-action takes place _____. Inside the classroom

It is very much about thinking back after the classroom teaching has happened.

Reflecting on practice

Which of the following best describes the benefits of reflective practice? It determines what counts as knowledge

Who described reflective practice as 'inner contemplation'? Sandywell

Reflecting on _____is very significant for the reflective practitioner because it informs the decisions that you make in the classroom. Values

According to Jenny Moon 'reflection is a form of_____ Mental processing

Which one of the following allows teachers to analyze what they have been learned and how they learned to take control of their development? Reflective practice

What was the main concern of Schon? Development of teachers

Which one of the following concern raised when reflective practice done badly, ineffectively or inappropriately? Professional

When did John develop the concept of "Guided Reflection"? 1994

Which one of the following reflective practice movement helped teachers to play their leadership roles? Curriculum development

Which of the following is NOT a level of reflection? Shallowness

What is to be gained from reflective practice? Best practice

Which one of the following helps critical reflection to support or challenge our views, practices and feelings? Evidences

In reflective practice, practitioners engage in a continuous cycle of self-observation and_____. Self-evaluation

The term reflective practice is derived from the work of _____. Schon

Processes in participatory reflection include all of the following EXCEPT

_____. Extending thinking

Which of the following assumptions does NOT underlie action research?

Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay

Which one of the following element of reflection is continuously practiced by reflective practitioners? Self Evalution

Which one of the following is the use of reflective practice?

Which one of the following proposed basic model on which dialogic reflection is based? Brockbank and McGill

which one of the following should be the focus of the teachers in reflective practice? What has happened?

"Where could I use this again"? This question is an example of _____. Applying

Which type of learning does critical reflection facilitate? Transformational

Which one of this process is referred to Informal reflection? Cyclical

What confuses the critical thinking and pushes thoughts in specific directions?

**Emotions** **Dewey** was among the first to identify reflection as a specialized form of thinking.

The challenge thinker in which phase: **2**

Which one of the following reflections requires models or framework which provide a specific and structured approach? **Formal Reflection**

Double loop learning involves modification of____. **Objectives**

Reflective teaching allows us to make changes in_____.

**Practice** How many circles are in simple Venn diagram for reflective practice? **2**

**One part of learning from reflection relies on teachers being open-minded. These characteristics include all but ____. Using evidence to support or evaluate a decision or position**

**----------is the process of consciously thinking through what is happening and this helps us again an understanding and to make meaning from what is going on in our lives.**

**Reflection**

**Which one of the following resulted when reflective practitioner constantly strive for self-improvement?** Ethical concerns

**Which one of the following pedagogic concern is raised by reflective teaching? Developmental readiness**

**To operationalize a best practice approach teachers must _____. Be committed to professional dialogue with other teachers**

**Which one of the following is the name of the Schon's book (1983)? The Reflective Practitioner**

Which one of the following developed by teachers when reflect logically? **Practice**

According to Stephen Brook, reflective practice is? a way for teaches to understand their problems Learning + Reflection = Experience is known as_. **Baud's Triangular Representation**

What is the correct sequence of Rodgers model (2002)? **Presence in experience, Description of experience, Analysis of experience, Experimentation**

Which one of the following developed by teachers when reflect logically? **Practice**

What is the third step of Dewey's 5 stage Model? **Hypothesis**

Who discussed the cultural and personal risks involved in reflective practice? **Brookfield**

Which of the following needs to be considered by the practitioners who engage themselves in reflective practice? **conflicts of interests**

Which of the following is considered a powerful tool for change and improvement? **Action research**

What do systematic reflexivity and epistemic reflexivity focus on? **Suppositions, theories, beliefs and assumptions**

In which phase of Rodgers model (2002) the teacher can move backwards? **Experimentation**

Which one of the following statement is the example of core best practice of the teacher? EDU406

**Provides an enriched environment**

Seeing things as “yes” or “no” with no subtitles referred to: **critical thinker**

**According to Stephen Brook reflective practices: it is our way for teaches to understand their problems**

**Peter's described reflective practice as a four-step model and called it: data**

**There are basic ___ techniques of critical thinking. 16**

**which of the following is considered the least effective form of teacher development: certified courses**

**According to the stage theory the who is just starting is called which type of thinker: Unreflective**

**How many stages are there in stage theory: 4**

**it is important to remember that critical incidents are not necessary ___ things. Bad**

**think, discuss, write, investigate and explore are all verbs representing what level of reflection? Review**

**According to Stephen Brookfield (1995) reflective practice is all except; locate teaching in classroom environment**

**What does ‘a lack of conceptual clarity’ mean? The educational community has different interpretations of reflection**

**Which of the following type of questions are addressed in reflection to improve practice? What, why and how**

**Which of the following best describes the benefits of reflective practice? It determines what counts as knowledge**

**Encourage wider discussions**

**Which one of the following, teacher reflects upon the larger context of education particularly with ethical and moral issues? Critical reflection**

**The reflection which relies on self-questioning and also develop awareness for the teacher of their own assumption is termed as _____. Informal refection**

**All act as lenses to explore the own assumptionn EXCEPT Action research**

**Which one of the following aspects of individuals are involved in dialogic reflection? Decisions and judgments**

**Which of the following about teacher's teacher's professional knowledge and understanding is true? teachers need to develop reflection and evaluation to support their own and others practice**

**Which type of a question promote the higher-order learning of the students? Do my assessments really reflect learning?**

**It is very much about thinking on your feet, the moment-to-moment reflection that happens while you're teaching: Reflecting in practice**

**Reflexivity for teachers means NOT only engaging both in a personal reflection but also ----------. Encourage wider discussions**

**Rapid reflection is all but _____ Contemplative**

**Which one of the following reflection focuses on the investigating questions and clarifying the assumptions behind teaching activities: Practical**

**Which type of learning is occurred by practice of formal reflection? Conscious**

**In the reflective process, there must be a room for _____. Failure**
**Which of the following is NOT a skill which underpins reflexivity? Existential phenomenology**

**Which one of the following repertoire of teaching is developed through reflection in the classroom?**
**Strategies**
**Reflexivity for teachers means NOT only engaging both in a personal reflection but also ----------.**

**which of the following is main characteristic of informal reflection self questioning**

**Greenway's 3-stage model is known as: plan do review model**

**all ethical concerns are generated by reflective practice process except right to speak**

**Which of the following assumptions does not underlie action research? teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**

**which one of the following is the main characteristic of formal reflection theory based**

**Which one of the following learners are developed by the reflective teachers? Reflective**

**_____ process allows colleagues and others to share ideas and issues. Participatory**

**which one of the following is the name of the schon's book 1983 Reflective practitioner**

**Which is the third component of underpinning reflexivity critical thinking**

**Gibbs reflective cycle 1988 the term "what happened" is used in: analysis**

**reflective practice leads to the following except leads to enquiry inform practice**

**Which element is usually not represented in reflected practice of novice teachers to reflect critically**

**we propose a framework based on different kinds of critical thinking: Halpain**

**Schon theory does not acknowledge the role of individual**

**inference is defined as the ability to determine an accurate conclusion from given information**

**Critical thinking moves us away from**
**rash conclusion**

**All are the areas of concern of reflective practice except creative**

**Which type of reflection enables us to take control of one's development dialogic**

**which one of the following is the main characteristic formal of reflection**
**theory based**

**which one of these element encounter with the elements of step 3 in the model of critical thinking answer practice before assess**

**which one of the following is ensured about the nature of teaching and learning in reflective practice answer experiment based**

**which one of the following allows teachers to analyse what they have been learned and how they learned to take control of their development?**
**reflective journal**

**in what model the action-oriented level of reflection is referred to as**
**now word**

**Saying things as yes or no with no subtitles is referred to critical thinkers**

**the ability to think clearly, logically and rationally is called answer critical thinking**

**Reflective practice is about learning from answer acquired experience**

**Malia is a problem student is an example of statement imprecise**

**Which is the most complex aspect of Gor and Zeichner model?**
**Social reconstructionist critical reflection**

**__ Feedback raises questions about why the teacher took particular actions. Cool**

**what is the question/analysis in reflective cycle asking many question**

**one circle in the Venn diagram represents what kind of experience concrete**

**Try out new practices or with settings that work in contrasting ways, is known as test ideas**

**which type of question is a sample of analyse phase answer why certain things happen in a particular way**

**loss of job, divorce, marriage, back to school, or moving to a new culture are included in a disorienting dilemma**

**Which type of learning is acquired by practice of formal reflection conscious**

**One's Assumptions, values and belief create their professional identity**
**Critical thinking is important because it answer helps to take problems quickly**

**Comprehensive account of the situation either verbally or in writing is term as description**

**which one of the following helps to identify the difference between novice and expert teacher answer developmental rediness**

**Self regulation is a __ process metacognitive**

**the circle on the left in Venn diagram is represented as Self structure**

**Blooms model which guides the lowest level of reflection might use all of the following except did I give enough time for individual activity**

**School model of reflective practice is based on reflecting in and on practice**

**which step is based on judgement and on teachers opinions about things evaluation**

**which one of the following decades reflective practice has been embraced by teachers, researchers and educator's answer two decades**

**What does the idea of reflective practice dismiss teacher's view**

**All are the areas of concern for reflective practice and except creative**

**according to Stephen Brook the reflective practices is a way for teachers to understand their problems**

**Critical Thinking and Reflective Practices (EDU 406) Topic # 01**

1. Teachers mostly don't takes..... what they did in class. **Action**

**professional role ..... topic25**

**Topic # 02**

Reflective teachers are more likely to develop ..... **learners reflective**

**2.** Reflection is a form of..... processing that we use to fulfill a purpose or achieve some anticipated outcome‖ **mental**

**3.** What is the trickiest pedagogic task according to Stephan Brookfield? **Getting inside student's heads**

**Topic # 03**

**1.** The move toward seeing teachers a reflective practitioners is also a rejection of top-down forms of educational reform that..... **involve teachers only as conduits for implementing programmed, curricula and ideas formulated elsewhere.**

**2.** seeing teachers a reflective practitioner has rejected all mentioned notions except **helps teachers to develop repertoire of strategies**

**3.** Reflective practice has been embraced by teachers, researchers , teacher and educator since last..... **two decades**

**4.** During the last ....., the slogan of reflective teaching has been embraced by teachers, teacher educators and educational researchers all over the world.
**two decades**

**Topic # 04**

**1.** The name of the Schon (1983) book is..... **The reflective practitioner**

**2.** Schon (1983) coined the term reflective practice in his book ..... **The Reflective Practitioner‖.**

**3.** What does a lack of conceptual clarity mean? **the educational community has different interpretations of reflection**

**4.** According to Sandwell's view, giving emphasis on only individual reflection

leads to ..... **ignoring accounts of other within the community within which reflection occurs**

**5.** In Sandwell's views, an emphasis on individual reflection.....**fails to consider the accounts of other within the community within which reflection occurs.**

**Topic # 05**

**1.** In reflective practice the major focus of teacher must not on "why things are happening "but on.....**what has happened?**

**Topic # 07**

**1.** According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to.....**continually develop and learn**

**Topic # 08**

**1.** critical reflection facilities .....**transformational learning**

**Topic # 15**

The most basic level of reflection is called as.....**Technical**

Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of..... **reflection**

The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as ..... **Practical**

**Topic # 18**

Reflective writing focuses on..... **Specific details within an experience**

**Topic # 20**

**1.** Re-theorising is the means by which Reflective Practitioners .....**Critically examine practice and theories in the light of theories**

**Topic # 23**

**1.** In a school a critical friend can be all of the following except ..... **A new teacher who started working in the school shortly after you**

**Topic # 29**

**1.** One principle of reflection in the Roth Model is that..... **It uses 'what', 'why' and 'how' questions**

**Topic # 32**

**1**. 'Looking out' is a combination of..... **A range of viewpoints about experiences**

**Topic # 36**

**1.** Which model encourages the teachers to think about a given situation and establish and action plan for dealing..... **Gibbs reflective cycle**

**Topic # 42**

**1.** The difference between novice and expert teachers reflection practice is clearly visible in **Developmental Readiness**

**2.** According to Ash and Moore new teachers are..... **not reflect critically and constructively**

**3.** Ash and Moore (2002) say that new teachers can choose..... **not to reflect constructively and critically,**

**Topic # 43**

Which one is called an example of critical thinking? ..... **Questioning**

**Topic # 44**

**Being open-minded so that we evaluate all reasonable inferences**

**Topic # 45**

Inference is defined as the ability to ..... **understand the information**

**Topic # 46**

**1.** Unreflective thinkers ..... **are largely unaware of the determining role that thinking is playing in their lives**

**2.** Unreflective thinker is ..... **Unaware of the determining role of thinking**

**Topic # 49**

**1.** The cognitive process is characterized as essential to ..... **Higher order thinking**

**Topic # 50**

**2.** Clarify is defined as..... **State one point at a time.**

**Topic # 51**

**1.** In 5-step model of critical thinking, the first step is..... **Determine goals/ objectives**

**Topic # 55**

**1.** Facilitates synergistic thinking- the interplay between ..... **factual and conceptual levels of thinking.**

**2.** Synergistic thinking is a combination of following thinking levels ..... **factual and conceptual thinking**

**Topic # 56**

**1.** According to Dewey Schon and others concepts are ..... tools for coping with the world and for solving problems ..... **cognitive**

**Topic # 57**

**1. The process of concept formation has three important phases ..... Perception ,Abstration ,Generalization**

**Topic # 58**

**1.** Conceptual innovation is ..... but deeper. **like reframing**

**Topic # 59**

**1.** Single loop learning has ..... strategies **Rigid strategies**

**Topic # 65**

**1.** A limitation of self reflection are ..... **The difference between perception and reality**

**Topic # 68**

**1.** Professional competencies may be developed by..... **understanding and knowledge of social and policy contexts for education** **Topic # 71**

**1.....** competence (making sound judgments in work-related situations) **Values/ethical**

**2. .**making sound judgments in work related situation is an attribute of ..... competence **Values/ethical**

**Topic # 89**

Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs to .....Multiple intelligence theory **Logical**

**Topic # 94**

quadrant of jo-Hari windows represent the things that you are not aware of but are known by others..... **Blind area**

**Topic # 98**

Being able to do something skillfully without having to consider everything closely ..... **Unconscious competence**

**Topic # 99**

**1.** Having subject specialist knowledge is called ..... **Professionalism**

**Topic # 111**

**1.** Reflective practitioner has two levels. The names of these two levels are ..... **action level and cognitive level Topic**

**# 115**

**1.** Reframing of beliefs is a four-step process. The order of determination of these beliefs is .....**core belief -supporting beliefs -opposites of supporting belief - reframed core belief**

**Topic # 118**

**1.** Epistemic stances ..... **Changes with the experiences**

**Topic # 123**

**1.** Emancipatory phase of critical reflective enquiry helps to .....in the class. **Encourage different ways of thinking**

**Topic # 240**

**1.** Reflection is the ability to reflect on questions .....to improve practice. **What, why and how**

**1.** What does not constitute professionalism? .....**Reflection**

**2.** A taxonomy provides a structured framework to a reflective practitioner to move from **Absolute knowing to Contextual knowing**

**3.** Principles of developing competence among reflective practitioners include ..... **assume roles beyond the classroom**

**4.** Reflective writing focuses on .....**Interpretation**

**5.** To increase our understanding, we need to .....**respect evidence and reason**

What confuses the critical thinking and pushes thoughts in specific directions? **Emotions**

**Dewey** was among the first to identify reflection as a specialized form of thinking.

The challenge thinker in which phase: **2**

Which one of the following reflections requires models or framework which provide a specific and structured approach? **Formal Reflection**

Double loop learning involves modification of _____. **Objectives**

Reflective teaching allows us to make changes in _____. **Practice**

How many circles are in simple Venn diagram for reflective practice? **2**

Which one of the following developed by teachers when reflect logically? **Practice**

According to Stephen Brook, reflective practice is? a way for teaches to understand their problems

Learning + Reflection = Experience is known as _____. **Baud's Triangular Representation**

What is the correct sequence of Rodgers model (2002)? **Presence in experience, Description of experience, Analysis of experience, Experimentation**

Which one of the following developed by teachers when reflect logically? **Practice**

What is the third step of Dewey's 5 stage Model? **Hypothesis**

Who discussed the cultural and personal risks involved in reflective practice? **Brookfield**

Which of the following needs to be considered by the practitioners who engage themselves in reflective practice? **conflicts of interests**

Which of the following is considered a powerful tool for change and improvement? **Action research**

What do systematic reflexivity and epistemic reflexivity focus on? **Suppositions, theories, beliefs and assumptions**

In which phase of Rodgers model (2002) the teacher can move backwards? **Experimentation**

Which one of the following statement is the example of core best practice of the teacher? EDU406 **Provides an enriched environment**

Seeing things as "yes" or "no" with no subtitles referred to: **critical thinker**

1. Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of _____ **reflection**.
2. What is the trickiest pedagogic task according to Stephan Brookfield?____**Getting inside student's heads**
3. Re-theorising is the means by which Reflective Practitioners _____**Critically examine practice and theories in the light of theories**
4. The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ **Practical**
5. Teachers mostly do not take what they did in class_____**action**
6. Which model encourages the teachers to think about a given situation and establish and action plan for dealing_____**Gibbs reflective cycle**
7. To increase our understanding, we need to_____ **respect evidence and reason**
8. According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____**continually develop and learn from their experience or meet organizational and national standards**
9. The term selective practice is derived from the work of_____**Dewey**
10. Critical reflection involves which of the following_____ **Analysing and evaluating**
11. All the practices of formal instruction expect_____ **it develops its own assumptions**
12. in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**
13. What does a lack of conceptual clarity mean?_____ _____**the educational community has different interpretations of reflection**
14. A benefit of the green away model of reflection is _____ It is cyctical
15. Which of the following assumptions does not underline action research?
16. **Which of the following best describes the benefits of reflective practice?** It determines what counts as knowledge.
17. **Teachers should value their reflection and ….**….. their practice_____
18. In professional setting what is not considered as a characteristic of reflection _____
19. According to sandwell's view giving emphasis on only individual reflection lead to____
20. **Q23.According to Stephen Brook, reflective practice is?**Empowers the teacher to appreciate the bigger picture surrounding teaching
21. Q47: Rapid reflection is all but_____
22. **Q5: A common strand of reflecting-in-action and reflecting-on- practice is Connecting with feelings in relation to applications of theory**
23. Which reflection requires models or framework which provide a specific and structured approach?_____
24. Which one statement is the example of core best practice?Teachers provides an enriched environment
25. **What is reflective practice?** Process of action to improve the professional role

26. What type of reflection allows teachers to modify his/her teaching strategy based on students responses? All the above
27. All are the ways for a teacher to develop reflective practice startegies except____
28. Dialogic reflection has less intense approach and involve individuals _____
29. Reflection on action deals with the happened Outside the classroom
30. Lather stressed on the use of appropriate language in reflective practice to avoid: All of above
31. **Q7: Bloom's model which guides the lowest level of reflection might use all the following except** Did I give enough time for individual activity?
32. Which of the following is NOT a skill which underpins reflexivity? **Existential phenomenology**
33. Reflective practice helps teachers to generate new knowledge and ideas by _____
34. A critical friend can be defined asA trusted person who asks provocative questions, provides data to examined through another lens, and offers critiques of a person's work as a friend
35. What leads to the lacks in conceptual clarity of teachers is reflective practice precess____
36. **Q13. What does the idea of reflective practice dismiss? Select the corect option Teachers view**
37. What is the main characteristics of informal reflection _____
38. **Q31.Which of the following is not a reason for reflective practice? Select the correct option** It is a professional requirement correct
39. One of the principles of reflective practice is based on _____ research _____
40. Reflection is the ability to reflect on question … to improve practice_____
41. In reflective practice, practitioner engage in a continuous cycle of self-observation and ----------Self- evaluation
42. Whose theory does not acknowledge the problematic nature of language and discourse within practice environment_____
43. Reflection can be described as ----------A reconstruction mental review
44. How critical reflection helps to deal with different perspective_____
45. Culture of reflective practice in your workplace shows_____
46. In reflective practice, practitioner engage in a continuous cycle of self-observation and_____.
47. What is question/ analysis in the reflective cycle?
48. The most basic level of reflection is called as:
49. All statements belong to technical reflection, except:
50.
51.
52.

Which of the following about teacher's teacher's professional knowledge and understanding is true? Teachers need to develop reflection and evaluation to support their own and others practice

1. Reframing helps the reflective practitioner….? Both a and b
2. Personal attributes of critical thinkers include: changing with the experiences
3. A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in : 3-dimensional instruction
4. Which one is called an example of critical thinking? Questioning
5. a Limitations of self-reflection are…….. the difference between perception and reality
6. Frames are influenced by ……Metaphors
7. Which of the following is not the attribute of reflective practice? It challenge and change practice

8. Kolb's reflective cycle…… Emphasizes the role experience play in learning
9. The first step in the reflective practice process is : make a list of teaching strategies that you used in previous week
10. Personal attributes of critical thinkers includes : all of above

Linguistic refers to Learning through spoken and written word

11. Interpretation is the skills of Understanding and transmitting
12. Which reflective practice is done badly, ineffectively or inappropriately, it give rise to ---------- ------ concerns. Professional
13. Unreflective thinker is: Unaware of the determining role of thinking
14. Reflecting logically allows teachers to take control of their learning and helps them to develop overall---------- Competencies
15. Epistemic stances Change with the experiences
16. All were the critiques on the Reflective practice movement except Helps to improve teachers practice
17. Critically reflective learning is nurtured by relationships between teacher and ------ Learner
18. The 4Ps reframing matrix are productive, planning potential and----------

People perspective

19. What act as catalyst to challenging the reflective practitioner to think at more advance levels?

Problem solving learning
Conceptual learning
Factual learning Critical
learning

20. One of the pedagogic concern raised by reflective teaching is called

Development readiness
Conceptual understanding
Instructional planning
None of the above

21. Critical Reflection helps to support or challenge our views, practices and feelings by providing

Observation
Experience
Evidences
Experiments

22. Critical Reflection involves which of the following?

Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing

23. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students?

In 3- dimensional instructions
In 2- dimensional instructions
In 1- dimensional instructions
In 4- dimensional instructions

24. Single loop learning has ---------- strategies.

Automatic
Explanatory
Rigid
Singular

25. The cognitive process is characterized as essential to:

Lower order thinking
Logical thinking
Higher order thinking Reflective thinking

26. The name of the Schon (1983) book is ----------

The reflective practice
The reflective practitioner
The reflection
The critical reflection

27. ---------- quadrant of Jo-Han windows represent the things that are unknown by you and are unknown by others

Open area
Blind area
Hidden area
Unknown area

28. Concept is looked or understood differently by reframing core belief based on

Core belief
New supporting beliefs
Opposite supporting beliefs
Intuitions

29. A reflective practitioner is able to

Question assumptions and values Think outside the box
Question other people's assumptions
All of the above

30. What is the evidence of reflecting thinking?
    Reflective writing
    Making judgments
    Analyzing questions
    Linking theory to practice

31. In 5-step model of critical thinking, the first step is:
    Practice before your assess
    Gather and review feedback
    Learn through seeking answer
    Determining goals/objectives

32. Theory that commands the thinking the action is known as Theory in action

Theory in reaction
Critical theory
Theory in use

33. Micro- Outcomes involves:
    The broad overall results of professional activity
    The outcomes of very specific activities
    The result of a partially completed activity
    All of these

34. Reflective practice is important because it is used to:
Improve teacher's practice
Enhance the quality of learners
Promote school culture
Motivate teachers and students

35. Emancipatory phase of critical reflective enquiry helps to ---------- in the class.
Maintain discipline
Promote rote learning
Encourage different ways of thinking Discourage
values, beliefs and practice.

1. Reflective practices focuses on.....
a)improvement
b)change
c)theories
d)intrepretation
2. Looking is the part of the reflective process which.....
a) occurs before teaching
b) occurs after teaching
c) occurs as a precondition for reflection
d) occurs as a response to experiences 3. Frames are influenced by.....
a)Metaphors
b) Individual interests
c) Perceptions
d)Experiences
3) Lather stressed on the use of appropriate language in reflective practice to avoide..... a) Teaching students and teachers as objects
b) Manipulating students and teachers in reflection
c) confronting students and teachers as a thing in reflection
d) All of the above
4. which of the following do not transfer but are locked in time, place or a situation..... a) concepts
b)ideas
c)facts
d)beliefs
5) Comprehensive account of the situation either verbaly or in writing is termed as..... a) Reflection
b)Description
c) Synthesis
d)Analysis
6. Reflective action plan involves being helped to.....
a) select a specific target
b)Planned a programe of discussion and observation over a fixed period
c)Evaluate your effectiveness
d)All of the above
7. core critical thinking skills are .....
a) Analysis
b) Inference
c)self regulation
d)All of these
8. Epistemic stances
a) Are the ways to orgainze knowledge
b)Never changes with the experiences

c) changes with the experiences
d) Are used to describe facts
9. what is the trickest padagogic task acconding to stefhan brookfield?
a) Being fair with students task
b) Getting inside students heads
c) Maintaining professional relation with collegues
d) Participating in promoting school culture
10. A reframing matrix is a tool used because different people have different.....
a) Experiences to approch the problems
b))pace to cope up with the issue
c)protocols in the institution
d)Limitations to think
11. Reflective practice have been embraced by teachers researchers, teacher and educators since last .....
a) two decades
b)three decades
c)four decades
d)five decades
12. When a professionao practitionar is aware of the relevance of the skill it is called..... a)concious incompitence
b)concious competence
c)in concious competence
d)inconcious incompetence
13. A product for a teacher might include.....
a) Relationship with students
b) Approches to assessment
c)strategies for behaviour management
d)All of these
14. Learning to learn is .....
a) An ability to pursue in leaning
b) Identifying available opportunities
c) Building on prior learning and experience
d)All of the above
15. what are the indicators of a reflective practionar?
a) Intellectual quality
b)Higher order thinking
c)Meta language
d) All of the above
16. Reframing helps to reflective practionar.....
a) see alternative solutions and actions
b)see things from other perspective
c)both a and b
d)None of the above
17. Which of the following helps to reduceblind area and expand open area of a person in team context.....
a) feedback
b)support
c) Information
d)reflection
18. Personal attributes of critical thinkers include:
a) Honesty about emotions
b) Evaluation disposition brone from open- mindness
c) Personal awareness specially relating to personal bias
d) All of the above

19. Reflecting logically allows teachers to take control of their learning and helps them to develop overall ..... a) Personality
b) Competencies
c) Practices
d) Performance

1. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?

   Rhetorical frames
2. The 4Ps in reframing matrix are Productive planning potential and____ People perspective

3. All are the barriers to the reflective practice except. Lack of Critical thinking

4. Reflective practice is important because it is used to: Enhance the quality of the learners

5. In reflecting writing it is important to select the most_____ part of the event only. Significant

6. Double loop learning involves_____. All of the above

7. A reframing matrix is a tool used because different peoples have different Experience to approach problem

8. Exploring practice using inductive action planning requires_____ Clearly defined and expressed success criteria

9. Cognitive shortcuts that people use to help make sense of complex information is known as: Concept map
10. Reflective teachers are more likely to develop _____learners. Reflective
11. In which type of reflection historic, political and cultural values frame practical problems? Critical reflection
12. Which beliefs are behind to make the casual relation of frames? Assumptions
13. Multiple intelligence theory benefits in_____ Development of strategies
14. According to Habermas, reflection requires a level of detachment and _____ Objectivity

15. A benefit of the greenaway model of reflection is_____ It is cyctical
16. A reflective practitioner is able to_____ Question assumption and values
17. The term reflective practice is derived from the work of _____ Schon
18. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as: Value
19. According to a Brookfield, which is the most powerful lens for teachers? The self lens
20. Looking in is the part of reflective process which_____ Occur before teaching
21. Synergistic thinking is

    None of the above
22. Key feature of reflection are: All of these
23. A reflective action plan involves being helped to: All of these
24. What happened when the original starting point causes a dilemma that needs to addressed? Transformation

25. _____ include in personal challenges to effective reflective practice.
    Pride
26. The major concern for a reflective practitioner is to be aware with their_____
    Underlying beliefs and assumptions
27. The theorem is a formal method of speculation developed by the_____
    Greeks
28. _____ activities are the translation of naturalistic intelligence for reflective practitioner Categorizing, contrasting, classifying, organizing
29. Concept-based learning means the reflective practitioner_____ Work with deeper levels of conceptual understanding

1) which of the following is an example of warm feedback.
Warm feedback consists of supportive, appreciative statements
2)The critical lenses refer to
None of above
3)The practitioner accounts are considered none-problematic for all reasons expect
No effort is made to footer reflection on language
4) making sound judgments in work related situation is an attribute of Ethical
5) The cognitive processes is characterized as essential to
Higher order thinking
6)The most basic level of reflection is called as
Technical
7)which of the following best describe a ' regular learning network':
A place for a teacher to come together and discuss matter and concern
8) Technical rationally in reflection deal with the
Behavior and skills
9) critical reflection involves which of the following
Analysing and evaluating
10) quadrant of jo-hari windows represent the things that you are not aware of but are know by others
Blind area
11) reflective practitioner does not believe in
One single truth/one right way
12) learning+ reflection= Experience Is know as
Boud's triangular representation
The first step in the reflective practice process is:
Examine teaching occasion particular that went bad
……allows teachers to analyze what they have been learned and how they learned to take control of their development. Critical reflection
In reflective practice, practitioner engage in a continuous cycle of self-observation and…….
Self evaluation A 'product 'for a teacher
might include……
All of the above
Absolute knowing is a process of …… Learning
from other
The stage-6 of critical thinking development is called as the ……..thinker. Accomplished
Which of the following is NOT a 'best' practice?
Follow the next closely to ensure coverage of the curriculum
Core Critical Thinking Skills are: All of the these
Reframing helps the Reflective Practitioner……..
Both 'a' and 'b'
In reflective writing the two source of evidence are: your and academic reflection
**Quiz 1...edu 406**
**Q1: To operationalize a best practice approach teachers must**
**Be committed to professional dialogue with other teachrs**
Be open-minded and committed to professionalism
See practice as a process of analysis

Be focused on technical proficiency

**Q2: What is the impact of reflective practices on the teacher?**

**It leads higher quality practice**

It leads to greater independence for the teacher

It sustains inclusive environments

**Q3. Within a critical thinking framework, 'reasoning' is conducted from**

A logical framework

An objective perspective

Both 'a' and 'b'

None of the above

**Q4. The 'critical lenses' refer to**

The perspectives that a teacher uses to generate different viewpoints

The focus given to the Reflective Practitioner by taking the o different viewpoints necessary to reflect on practice

A set of different viewpoints

**None of the above**

**Q6.In a school a critical friend can be all of the following except**

A teacher

A retired principal

**A new tescher wha started workong in the school shortly after you**

A friend from another school

**Q8. According to Brookfield, which is the most powerful lens for teachen? Select the correct option The Self Lens**

The Student Lens

The Peers Lens

The Theary Lens

**Q9: Double loop leanng involves**

Changing personal assumptions

Changing personal approaches

**Both a and 'b**

None of the above

Q10. **The Reflective Practitioner must** _____.

Manage workloads as part of their role in planning and leading the profession

Ensure a suitable work-life balance Both „a" and „b" none of above corrct

**Q11. Benjamin Bloom major work in is Select the correct option** Affective

Management

**Cognitive**

Psychomotor

**Q12.Conceptual innovation is Select the correct option**

**Like re-framing**

The same as re-framing

Not re-framing

Identifying new questions

**Q14. What are the major mechanisms involved in critical thinking for the reflective prachitioner? Select the correct option**

Self-regulation

interpretotion **both**

**a and b** None of

the above

**Q15.What is question/ analysis in the reflective cycle? Select the corect option. Taking on the role of researcher**

**Q16. one of the four steps in action research.**

**Identifying the research problem**

**Q17. What do systematic reflexivity and epistemic reflexivity focus on? Select the correct option Suppositions, theories, beliefs and assumptions**

**Q18. Which of the following not a component of the process involved in reflective practice? Select the corect option Subject Knowledge**

Q19. **Which of the following is NOT a best practce? Select the colrect option**

**Educates the whole child**
Follows the text closely to ensure coverage of the curriculum
Students' active participation in leaning
Chalenging envoronments
**Q20. Looking out is a combination of Select the correct option**
**A range of viewpoints about experiences**
Looking around and looking back
Perspectives which direct the focus of attention
None of the above
**Q21. One part of learning from reflection relies on teachers being open minded These charactenstics include all but Select the correct option**
Accepting consequences of their decisions
Viewing situstions from multiple perspectives
Searching for alternatives explanations for classroom events
Using evidence to suppoit or evaluate a decision or position
**Q22. What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**
Reflection is more effective when conducted collaboratively
Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
Guidance and structure are key factors for Reflective Practitioners When
the Reflective Practitioner knows what is best for children
**Q23. What does „a lack of conceptual clarity" mean?**
The educational community has different interpretations of reflection
It confuses perceptions about what happens in the classroom
It includes too many viewpoints and so becomes confusing for the individual does
not account for students" perspectives
**Q24.Creative Thinking is not critical thinking because**
It is not logical
Ut is not problem-centred
It is emotive
It is not based on „black-and-white" thinking
**Q25.Reflection-on-action can be described as _____**
Thinking about what to do
A reconstructive mental review
Problem resolution
Weighing the pros and cons of alternatives **Q26.**
**Critical thinking is _____.**
**Select correct option:**
A biological process
A psychologicaland cognitive process
A communication process
All of the above

**Q29.Critical Reflection involves which of the following?**
Select correct option:
Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing

**Q30. What factor makes reflection seem time-consuming?**
**Select correct option:**
Regular learning networks are very time-consuming
Lack of leadership for Reflective Practice
Regular learning networks are very time-consuming
Staff is too busy
**Q32.Self-regulation is Select the correct option**

A metacognitive process correct
A creative process
A psychological process
A communication process
**Q33.Learning from reflection can also be known as Select the correct option** Discussion-based leaning
Enhancement-oriented learning
Professionel development-based learning
**Q34.To increase our 'understanding' we need to Select the correct option**
Dismiss reasoning
R espect evidence and reason
Think criticaly
None of the above

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both ‘a’ and ‘b’
- None of the above

2. Reflection is NOT _____.

- A simple ‘tick box’ activity
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

3. : Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

4. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

5. Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

6. : The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

7. : Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve

- Reflect in an exploratory and trial-and-error fashion
- None of the above

8. : By having an open-minded attitude, the Reflective Practitioner is _____. ✦ More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

9. : Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

10. : The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

11. : We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

12. : The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

13. : Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

14. : Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

15. : Concepts determine _____.

- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

16. : A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

17. : We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

18. : Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both ‘a’ and ‘b’
- None of the above

19. : An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

20. : Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

21. : A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

22. : Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

23. Our assumption can be Perceptual.
24. Our assumptions can be revealed and explored through four lenses.
25. A product for a teacher might include. All of above
26. A paradigm shift is. Brings a new set of concepts
27. Reframing for new learning is. Focused on inventing new strategies
28. Concept formation involves. Perception, abstraction, generalization
29. The highest level of Bloom taxonomy is. Evaluation
30. Using a reflective action plan is valuable. To set targeted action points
31. The Professional development Journal supports the RP to. Reflect on experiences
32. Inductive learning is. Specific to general

**84: We can make theory-in-use visible by..**
a) Construction someone's theory-in-use from observations of behavior
b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts **85: A 'problem statement'** a) Is not too specific

b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general

**87: The benefits of concept-based learning..**

a) Depend on the experience of the reflective practitioner
b) Depend on the intellectual level of thinking of the reflective practitioner
c) Depend on the emotional engagement of the reflective practitioner
d) Depend on the psychological engagement of the reflective practitioner

**88: The reflective practitioner uses 3-dimensional instruction to**

.. b) Develop understanding of connection between topics/subject c) Build use multiple intelligence in their teaching
d) all of the above

89: **critically reflective teaching is .**

. a) responsible for highly effective pedagogies
B) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above

**According to moon what are the key aspects of reflective practice. A)**.

reflective practice is a form of mental processing
b. Relies of a cognitive re processing of experience
c. aims to understand complexity and confusion in experience
d. All of the above.

**10. Which of the following is not the best practice?**

ANS. Follows the text closely to ensure coverage of the curriculum

**11. One part of learning from reflection relies on teachers being open minded . these characteristics include all but.?**

Ans. Using evidence to support or evaluate a decision or position.

**12. What is hyper reflexivity?**

Ans. Deconstructing applications of knowledge in the classroom.

**13. The most significant part of the model is...? Ans learning from experience**

**14.DATA refers** to...?The four steps analytical process necessary for guiding reflection

Which of the following about teacher's teacher's professional knowledge and understanding is true?
Ans. Teachers need to develop reflection and evaluate to support their own practice

20) Personal attributes of critical thinkers include:
Honesty about emotions
Evaluation disposition borne from open-mindedness
Personal awareness especially relating to personal bias
All of the above

Kolb's reflective cycle:
Emphasis the role experience plays in learning
Illustrates the developmental nature of reflection
Both a, b
None of the above

Which of following is not the reason of reflective practice:
Reflective practice helps students learn
It encourages us to understand our learners and their needs
It is a professional requirement
Reflective Practitioners models reflective learning

What are three levels of reflection:
Technical, empirical, practical
Technical, practical, Critical

Rational, Technical, Critical
Rational, Practical, Critical

Processes in participatory reflection include all of the following except
Careful description
Thoughtful listening
Extending thinking
None of the above

knowing in action is described by Schon as:
Our knowing is ordinarily implicit in our patterns of action
When we cannot say what we know
When we go about spontaneous, intuitive performance of the actions of every day life All of the above

Learning from reflection can also be known as
Professional development based learning

Which of the following assumptions does not underline action research
Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay

Interpretation is the skill of
Understanding and transmitting
Cognition and communication
Thinking and talking
Receiving and sending information

When we think habitually, we_____
**Ans: Ignore Data**

**A learning 'hub' which challenges practice and policy.**

Looking in is the part of the reflective process which_____
**Ans: Occurs as a response to experiences**

Which of the following is an example of warm feedback?
**Ans: Warm feedback consists of supportive, appreciative statements**

Self-regulation is _____
**Ans: A metacognitive process**

One principle of reflection in the Roth Model is that _____
**Ans: It uses 'what', 'why' and 'how' questions**

EDU406 Q#2

**3** The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both 'a' and 'b'
- None of the above

**4** Reflection is NOT _____.

- A simple ‘tick box’ activity
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

6: Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

7 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

**8** Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

9: The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

10: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

1: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them

- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

7: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

9: Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

10: Concepts determine _____.

- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both ‘a’ and ‘b’
- None of the above

## Quiz

**Question 1: Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice **Question No.2:** According to Stephen Brook, reflective practice is?
- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

**Question 3: Which of the following is NOT a 'best' practice? Pg.19**

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

**Question No.4: What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children Challenging environments

**Question 5: Which of the following is considered the least effective form of teacher development?**

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

**Question 6: Knowing-in-action is described by Schon as _____.** ✦ Our knowing is ordinarily implicit in our patterns of action

- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life ✦ All of the above

**Question 7: What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation ✦ interpretation
- both 'a' and 'b'
- None of the above **question 8: Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on 'black-and-white' thinking

**Question 9: 'Looking out' is a combination of _____.**

- A range of viewpoints about experiences
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

**Question 10: Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

**DATA refers to pg.40**

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

**3: What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role

- none of these

**4: What is the impact of reflective practices on the teacher**

- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

**5: Which of the following about teacher's teacher's professional knowledge and understanding is true?**
**Once reflection becomes a habit you will not need to develop your reflective skills further**

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

**6 What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

**7 According to Brookfield, which is the most powerful lens for teachers?**

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

**8 Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

**9 Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- Object-led
- Purposeful

**10 The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

**2: Reflection-on-action can be described as _____**

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

**3: Which of the following is NOT a principle of Reflective Practice? Pg.8 Select correct option:**

- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

**4: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

**5: Re-theorising is the means by which Reflective Practitioners _____.**
**Select correct option:**

- Critically examine practice

- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

**6: Critical thinking is _____.**
**Select correct option:**
- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

**7: What are three levels of reflection?**
**Select correct option:**
- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

**8 What is question/ analysis in the reflective cycle?**
**Select correct option:**
- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

**1: Interpretation is the skills of _____.**
**Select correct option:**
- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

**2 Critical Reflection involves which of the following? Select correct option:**
- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualising and describing

**2: Which of the following is NOT one of the four steps in action research? Select correct option:**
Action Research is…Process, Collaboration, Improvement, Practice, Communication
pg.250

**3 What is part of the analytical process for the practitioner?**
**Select correct option:**
- The identification of own assumptions
- The examination of the underlying values base
- Both 'a' and 'b'
- None of the above

**4 Why reflective practice is so important?**
**Select correct option:**
- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession **5 The most significant part of the model is _____.**

**Select correct option:**
- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

**6**

**What do systematic reflexivity and epistemic reflexivity focus on?**
**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

**7**
**When we think habitually, we _____. Select correct option:**

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

**8**
**Double loop learning involves _____.**
**Select correct option:**

- Changing personal assumptions
- Changing personal approaches pg.51
- Both 'a' and 'b'
- None of the above

**9**
**What factor makes reflection seem time-consuming?**
**Select correct option:**

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher's professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

**EDU406:Quiz 1** Quiz Start T

**Question # 1 of 10 ( Start time: 07:09:39 PM, 23 November 2016 )**

According to Stephen Brook, reflective practice is?

**Select correct option**

- ○ Locates teaching within the context of the school agenda
- ○ Empowers the teacher to appreciate the bigger picture surrounding teaching
- ◉ Is a way for teaches to understand their problems
- ○ None of the above

**EDU406:Quiz 1** Quiz Start Time: 07:09 PM, 23 I

**Question # 2 of 10 ( Start time: 07:10:34 PM, 23 November 2016 )**

Reflection is a form of _____ processing that we use to fulfill a purpose or achieve anticipated outcome

**Select correct option**

- ○ physical
- ✓ mental
- ○ purposeful
- ○ none of the above

EDU406:Quiz 1 Quiz S

**Question # 3 of 10 ( Start time: 07:11:41 PM, 23 November 2016 )**

Concept formation involves _____.

**Select correct option**

- (•) Perception, abstraction, generalization
- ( ) Observation, analysis, synthesis
- ( ) Perception, analysis, categorization
- ( ) Observation, synthesis, generalization

EDU406:Quiz 1

**Question # 5 of 10 ( Start time: 07:13:54 PM, 23 November 2016 )**

Which of the following is NOT a 'best' practice?

**Select correct option**

- ( ) Educates the whole child
- ( ) Follows the text closely to ensure coverage of the curriculum
- ( ) Students' active participation in learning
- (✓) Challenging environments

**EDU406:Quiz 1**

**Question # 6 of 10 ( Start time: 07:14:40 PM, 23 November 2016 )**

Which of the following is NOT a principle of Reflective Practice?

**Select correct option**

| | |
|---|---|
| ◉ | It is problem-oriented |
| ○ | It is based on action research |
| ○ | It is data-driven |
| ○ | It is research-led |

**EDU406:Quiz 1**

**Question # 7 of 10 ( Start time: 07:15:49 PM, 23 November 2016 )**

What is reflective practice?

**Select correct option**

| | |
|---|---|
| ○ | A process to evaluate teaching |
| ○ | Process leading to activity in response to any aspects of the professional role |
| ◉ | Process of action to improve the professional role |
| ○ | None of the above |

EDU406:Quiz 1

**Question # 8 of 10 ( Start time: 07:16:19 PM, 23 Novemb**

Reflective writing focuses _____.

**Select correct option**

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions ✓

EDU406:Quiz 1

**Question # 9 of 10 ( Start time: 07:17:37 PM, 23 November 2016 )**

Within a critical thinking framework, 'reasoning' is conducted from _____ .

**Select correct option**

- A logical framework ✓
- An objective perspective
- Both 'a' and 'b'
- None of the above

EDU406 Q#2

**5** The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both 'a' and 'b'
- None of the above

**6** Reflection is NOT _____.

- A simple 'tick box' activity
- A routine activity for a teacher
- Both 'a' and 'b'
- None of the above

6: Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

**9** The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

**10** Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

9: The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

10: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

1: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning

- Both ‘a’ and ‘b’
- None of the above

7: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

9: Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

10: Concepts determine _____.

- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both ‘a’ and ‘b’
- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both ‘a’ and ‘b’
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above
A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation
Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences

Inductive learning is. None of the above

EDU406 Quiz#2

3 The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both 'a' and 'b'
- None of the above

4 Reflection is NOT _____.

- A simple 'tick box' activity
- A routine activity for a teacher
- Both 'a' and 'b'
- None of the above

6: Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

7 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both 'a' and 'b'
- None of the above

8 Reflective writing focuses _____.

- On all aspects of an experience

- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

9: The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

10: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

1: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

7: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding 9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above 10: Concepts determine _____.
- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience 1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both ‘a’ and ‘b’
- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both ‘a’ and ‘b’
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above

A paradigm shift is. Brings a new set of concepts

Reframing for new learning is. Focused on inventing new strategies

Concept formation involves. Perception, abstraction, generalization

The highest level of Bloom taxonomy is. Evaluation

Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences Inductive learning is. None of the above

**EDU406:Quiz No. 2** Quiz

**Question # 1 of 10 ( Start time: 08:58:15 PM, 07 December 2016 )**

Critically reflective teaching is _____.

**Select correct option**

- ✓ Responsible for highly effective pedagogies
- Responsive and adaptable to meet learners' needs
- A social process involving family and community
- All of the above

**EDU406:Quiz No. 2**

**Question # 3 of 10 ( Start time: 09:01:03 PM, 07 December 2016 )**

We can make theory-in-use visible by_____.

**Select correct option**

- Construct someone's theory in-use from observations of behavior
- Clues for discovering the Theory-In-Use
- ✓ Developing ideas
- Exploring concepts

EDU406:Quiz No. 2

Question # 4 of 10 ( Start time: 09:02:26 PM, 07 December 2016 )

A 'problem statement' _____.

Select correct option

- Is not too specific
- ✓ Finds solutions to problems
- Does not find solutions to problems
- Is not too general

EDU406:Quiz No. 2

Question # 5 of 10 ( Start time: 09:03:52 PM, 07 December 2

Professional knowledge relates to _____.

Select correct option

- Subject knowledge
- ✓ Communication skills
- Social interaction
- All of the above

EDU406:Quiz No. 2 Q

**Question # 6 of 10 ( Start time: 09:04:29 PM, 07 December 2016 )**

The benefits of concept-based learning _____.

**Select correct option**

- Depend on the experience of the Reflective Practitioner
- Depend on the intellectual level of thinking of the Reflective Practitioner ✓
- Depend on the emotional engagement of the Reflective Practitioner
- Depend on the psychological engagement of the Reflective Practitioner

EDU406:Quiz No. 2 Quiz Start Time:

**Question # 7 of 10 ( Start time: 09:05:46 PM, 07 December 2016 )**

The Reflective Practitioner is concerned with _____.

**Select correct option**

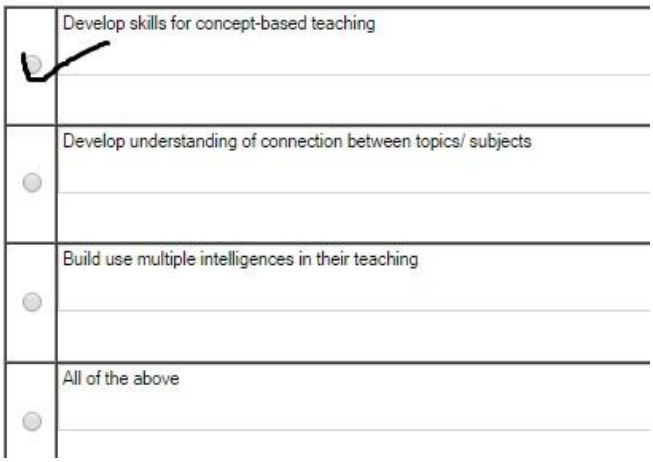

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching ✓
- Both 'a' and 'b'
- None of the above

EDU406:Quiz No. 2 Qui

**Question # 8 of 10 ( Start time: 09:06:47 PM, 07 December 2016 )**

The Reflective Practitioner uses 3-Dimensional instruction to _____.

**Select correct option**

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above
A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization

The highest level of Bloom taxonomy is. Evaluation

Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences

Inductive learning is. None of the above

Question 1:

Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:

According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:

Which of the following is NOT a 'best' practice? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

Question No.4:

What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments Question 5:

Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:

Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:

What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation ✦ interpretation
- both 'a' and 'b'
- None of the above question 8:

Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on 'black-and-white' thinking Question 9:

'Looking out' is a combination of _____.

- A range of viewpoints about experiences
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

Question 10:

Which of the following assumptions does NOT underlie action research?

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to pg.40
- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:
What is reflective practice?
- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:
What is the impact of reflective practices on the teacher
- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments 5:

Which of the following about teacher's teacher's professional knowledge and understanding is true? Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6
What does 'a lack of conceptual clarity' mean?
- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

7
According to Brookfield, which is the most powerful lens for teachers?
- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8
Which of the following is an example of 'warm' feedback?
- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9
Which of the following is not reflection in a professional setting?
- Deliberate
- Theory-focused
- Object-led
- Purposeful

10
The 'critical lenses' refer to
- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:
Reflection-on-action can be described as _____
- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:
Which of the following is NOT a principle of Reflective Practice? Pg.8 Select correct option:

- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

4:
Which of the following is NOT one of the four steps in action research?
Select correct option:

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

6:
Critical thinking is _____.
Select correct option:

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:
What are three levels of reflection?
Select correct option:

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8
What is question/ analysis in the reflective cycle?
Select correct option:

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:
Interpretation is the skills of _____.
Select correct option:

- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2
Critical Reflection involves which of the following? Select correct option:

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating ✦ Conceptualising and describing

2:
Which of the following is NOT one of the four steps in action research? Select correct option:
Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3
What is part of the analytical process for the practitioner?
Select correct option:

- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4
Why reflective practice is so important?

Select correct option:

- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner ✦ Research shows that reflective practitioners are more profession

5

The most significant part of the model is _____.

Select correct option:

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6

What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7

When we think habitually, we _____.

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8

Double loop learning involves _____. Select correct option:

- Changing personal assumptions
- Changing personal approaches pg.51
- Both 'a' and 'b'
- None of the above

9

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher's professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

Edu406

Being open-minded means the Reflective Practitioner is _____ .

- Reflexive
- Non-judgmental
- Both 'a' and 'b'
- None of the above

Supporting beliefs provide _____ .

- The foundation on which our core beliefs rest
- The structure for exploring our core beliefs
- The framework for understanding our core beliefs
- The scaffold that helps us hold onto our core beliefs

---

The practice of reflection should focus on _____

- Both the strengths and the weaknesses
- First the weaknesses and then the strengths
- Both 'a' and 'b'
- None of the above

---

The 'norming' stage of team development might include which of the following characteristics?

- Participants getting to know one another
- Organizing roles and responsibilities
- Developing expectations
- None of the above

A key skill in the mentoring relationship is:

- Trust
- Feedback
- Both 'a' and 'b'
- None of the above

Other factors affect IPL, such as:

- Lack of resources
- Location
- Workload
- All of the above

For Dewey, successful reflection is epitomized by:

- Risk-taking
- Perspective-seeking
- Both 'a' and 'b'
- None of the above

As an internal processing model, Boud's Triangle:

- Re-examines experience in light of feelings
- Re-examines experience in light of knowledge
- Re-examines experience in light of intentions
- All of the above

When Reflective Practice is done badly…

- It can reinforce prejudice and bad practice
- It does not support existing practice
- It loses its value
- The organization needs to take greater responsibility

All of the following could be methods of maintaining dialogue with your 'critical friend' except:

- Regular telephone contact
- A shared journal of learning (e.g. email/ blog)
- Team meeting

- Regular face-to-face contact

The Reflective Practitioner needs to embrace critical thinking as a means to _____.

- Accept personal responsibility
- Develop a tolerance for confusion which can ultimately lead to truth through curiosity
- Improve the ability to listen, question and clarify
- All of the above

Which of the following is the fifth step involved in action research 7-step process

- Identifying research questions
- Collecting data
- Analyzing data
- Reporting results

Communities of Practice help Reflective Practitioners _____

- To develop and share good practice
- To manage professional relationships
- To Share ideas
- To develop skills related to profession

The Reflective Practitioner sets learning goals which are

- Essential for best practice
- Based on theory
- Based on research
- Realistic

Critical Reflection helps to support or challenge our views, practices and feelings by providing:

- Observation
- Experience
- Experiments
- Evidences

A new means of interaction is available to teachers including _____ .

- Skype
- Smart phones
- E-mail
- All of the above

Part of action planning is to identify _____ .

- Barriers to action
- Experiences
- Outcomes
- Values

The teaching professional is _____

- Adaptable to conditions
- Constantly improving the ability to adapt to the contexts of teaching
- Always developing a professional persona
- Depends on values

The 'creation' level of Bloom's taxonomy relates to

- A new cycle of action for the Reflective Practitioner
- Matching new learning to existing concepts
- Both 'a' and 'b'
- None of the above

All are the essential practices in the process of becoming a reflective practitioner except:

- Making time for solitary reflection
- Becoming a perpetual problem-solver

- Questioning the status quo
- Writing the reflection journal

| MUHAMMAD IMRAN | EDU406 Critical Thinking and reflective Practice | | | |
|---|---|---|---|---|
| QUIZ NO 1 | GRAND QUIZ | MID TERM | FINAL TERM | ALL IN ONE FILE |

1. The cognitive process is characterized as essential to_____ **Higher order thinking**
2. Which one is called an example of critical thinking? _____**Questioning**
3. The most basic level of reflection is called as _____**Technical**
4. quadrant of jo-Hari windows represent the things that you are not aware of but are known by others _____**Blind area**
5. The name of the Schon (1983) book is ---------- _____**The reflective practitioner**
6. In a school a critical friend can be all of the following except_____ **A new teacher who started working in the school shortly after you**
7. Inference is defined as the ability to_____ **understand the information**
8. Reflective teachers are more likely to develop _____learners. _____**Reflective**
9. Being able to do something skillfully without having to consider everything closely _____ _____**Unconscious competence**
10. The difference between novice and expert teachers reflection practice is clearly visible in_____ **Developmental Readiness**
11. seeing teachers a reflective practitioner has rejected all mentioned notions except _____**helps teachers to develop repertoire of strategies**
12. according to Ash and Moore new teachers are _____ **not reflect critically and constructively**
13. According to Stephen Brook, reflective practice is? _____**Empowers the teacher to appreciate the bigger picture surrounding teaching**
14. Problem-solving, brainstorming, hypothesizing, investigating, experimenting, Socratic method, online searching are belongs to ….. Multiple intelligence theory_____ **Logical**
15. Clarify is defined as _____ **State one point at a time**
16. Concept act as …….. tools for coping with the world and for solving problems_____**cognitive**
17. Within a critical thinking framework, 'reasoning' is conducted from_____ **Both 'a' and 'b'**
18. The term selective practice is derived from the work of _____**Dewey**

20. Comprehensive account of the situation either verbaly or in writing is termed as_____ **Synthesis**
21. Reflective practice is important because it is used to _____**Enhance the quality of the learners**
22. Reflective practice is important because it _____**ALL of the above**

23. Which of the following assumptions does NOT underlie action research?_____ **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**

24. In what type of instructions, teacher uses inductive teaching to draw the statement of conceptual understanding from students_____ **In 3- dimensional instructions**

25. reflective practice is a crucial way of learning and extending_____ **professional understanding**

26. Concept formation involves. _____**Perception, abstraction, generalization**

27. Double loop learning is about _____ **changing the rules**

28. Reflection can be described as ----------_____**A reconstruction mental review**

29. The benefits of concept-based learning …….._____ _____**Depend on the intellectual level of thinking of the reflective practitioner**

30. Reflective Practices does not take place in a vacuum it occurs in a _____**social environment**

31. _____ include in personal challenges to effective reflective practice. _____**Pride**

32. Which frames are used as a weapon to attach with other frames to convince people that our frame is a good one?_____ **Rhetorical frames**

33. The 4Ps in reframing matrix are Productive planning potential and _____**People perspective**

34. All are the barriers to the reflective practice except. _____**Lack of Critical thinking**

35. In reflecting writing it is important to select the most___ part of the event only. _____**Significant**

36. Double loop learning involves_ _____._____**All of the above**

37. A reframing matrix is a tool used because different peoples have different_ _____**Experience to approach problem**

38. Exploring practice using inductive action planning requires _____**Clearly defined and expressed success criteria**

39. Cognitive shortcuts that people use to help make sense of complex information is known as: _____**Concept map**

40. In which type of reflection historic, political and cultural values frame practical problems? _____**Critical reflection**

41. Which beliefs are behind to make the casual relation of frames? _____**Assumptions**

42. Multiple intelligence theory benefits in _____**Development of strategies**

43. According to Habermas, reflection requires a level of detachment and _____**Objectivity**

44. A benefit of the greenaway model of reflection is_ _____**It is cyctical**

45. A reflective practitioner is able to _____**Question assumption and values**

46. The term reflective practice is derived from the work of _____**Schon**

47. Criteria that is used for deciding if a situation is desirable or undesirable or if the idea is good one or a bad one is called as: _____**Value**

48. According to a Brookfield, which is the most powerful lens for teachers? _____**The self lens**

**49.** Looking in is the part of reflective process which _____**Occur before teaching**

**50.** Synergistic thinking is _____**None of the above**

**51.** Key feature of reflection are: _____**All of these**

**52.** A reflective action plan involves being helped to: _____**All of these**

**53.** What happened when the original starting point causes a dilemma that needs to addressed?_____**Transformation**

**54.** The major concern for a reflective practitioner is to be aware with their _____**Underlying beliefs and assumptions**

**55.** The theorem is a formal method of speculation developed by the _____**Greeks**

**56.** _____ activities are the translation of naturalistic intelligence for reflective practitioner _____**Categorizing, contrasting, classifying, organizing**

**57.** Concept-based learning means the reflective practitioner _____ _____**Work with deeper levels of conceptual understanding**

**58.** A reflective practitioner in concept-based teaching and learning encourages _____ _____**questions and investigation**

**59.** Lather stressed on the use of appropriate language in reflective practice to avoid: _____ **All of above**

**60.** Which are related to policies in use. They are used for dealing with the situation _____ **Action frames**

**61.** The benefits of utilizing (MI) theory in educator professional are multifold _____**All of the above**

**62.** What act as catalyst to challenging the reflective practitioner to think at more advance levels_____ **Conceptual learning**

**63.** vehicles for explanation, prediction or control are called as _____ **Theories**

**64.** Which of the following is NOT one of the four steps in action research_____ _____**Developing a professional measurement instrument**

**65.** dimensional instruction includes _____ _____**reforming concepts to improve the level of learning across multiple contexts**

**66.** making sound judgments in work related situation is an attribute of…… competence_____**Ethical**

**67.** Unreflective thinker is: _____**Unaware of the determining role of thinking**

**68.** Critical reflection facilitates_____ learning_____ **transformational**

**69.** 'Looking out' is a combination of _____ **A range of viewpoints about experiences**

**70.** A limitation of self reflection are _____ **The difference between perception and reality**

**71.** Reflective practice has been embraced by teachers, researchers , teacher and educator since last:_____ **two decades**

72. Reflection is the ability to reflect on questions __to improve practice._____ **What, why and how**

73. Conceptual innovation is _____._____ **Like re-framing**

74. Epistemic stances_____ **Changes with the experiences**

75. What does not constitute professionalism?_____ **Reflection**

76. Having subject specialist knowledge is called _____ **Professionalism**

77. Emancipatory phase of critical reflective enquiry helps to _____ in the class.____ _____**Encourage different ways of thinking**

78. In 5-step model of critical thinking, the first step is:_____ **Determining goals/objectives**

79. Single loop learning has ____strategies._____ **Rigid**

80. One principle of reflection in the Roth Model is that **___It uses 'what', 'why' and 'how' questions**

81. Teachers mostly don't take _____what they did in class. _____ **Action**

82. Professional competencies may be developed by:___ _____

**_____understanding and knowledge of social and policy contexts for education**

83. What does 'a lack of conceptual clarity' mean? _____the educational community has different interpretations of reflection

84. Reflective practitioner has two levels. The names of these two levels are: _____ **action level and cognitive level**

85. A taxonomy provides a structured framework to a reflective practitioner to move from _____**Absolute knowing to Contextual knowing**

86. Principles of developing competence among reflective practitioners include _____ _____**assume roles beyond the classroom**

87. In reflective practice the major focus of teacher must not on "why things are happening "but on:_____ **what has happened?**

88. What is reflective practice ____ **Process of action to improve the professional role**

89. Synergistic thinking is a combination of following thinking levels:_____ _____**factual and conceptual thinking**

90. Reframing of beliefs is a four-step process. The order of determination of these beliefs is:_____ **core belief -supporting beliefs -opposites of supporting belief -reframed core belief**

91. According to Sandwell's view, giving emphasis on only individual reflection leads to:___

_____ **ignoring accounts of other within the community within which reflection occurs**

**92.** Reflective writing focuses on _____._____ **Interpretation**

**93.** Teacher reflect upon the larger context of education particularly with ethical and moral issues is an attribute of _____ **reflection**.

**94.** What is the trickiest pedagogic task according to Stephan Brookfield?

_____**Getting inside student's heads**

**95.** Re-theorising is the means by which Reflective Practitioners _____**Critically examine practice and theories in the light of theories**

**96.** The reflection which focuses on the investigating questions and clarifying the assumptions behind teaching activities is called as_____ **Practical**

**97.** Which model encourages the teachers to think about a given situation and establish and action plan for dealing_ _____**Gibbs reflective cycle**

**98.** To increase our understanding, we need to_____ **respect evidence and reason**

**99.** According to schon reflection in action and reflection on action all the mechanism reflective practitioners use that permit them to_____ **continually develop and learn from their experience or meet organizational and national standards**

**100.** Critical reflection involves which of the following_____ **Analysing and evaluating**

**101.** All the practices of formal instruction expect_____ **it develops its own assumptions**

**102.** in which type of reflection historic political and critical values frame practical problems_____ **critical reflection**

**103.** Which of the following is not a reason for reflective practice?

_____**Reflective practitioner models reflective learning**

**104.** The competence model is about _____**how the teacher moves through different levels of awareness**

**105.** What does evidence suggest as being most important for a long-term commitment to Reflective Practice_ _____**Guidance and structure are key factors for Reflective Practitioners**

**106.** All are the stages of epistemic stances except:_____ **Situational knowing**

**107.** Reflective writing does all of the following expect: _____**create ideas**

**108.** Leaning from reflection can also be known as_____ **Professional development-based learning**

**109.** Our assumption can be_____ **Perceptual**.

**110.** Who discuss the cultural and personal risks involved in reflective practice_____ **Brookfield**

**111.** The jo-Hari windows has …… quadrants_____**4**

**112.** What help student to build trust and promote positive learning environment in class

_____**teaching becomes responsive to student feedback**

**113.** Theories –in-use- means: _____**For exploring and developing ideas**

**114.** The theorem is a formal method of speculation developed by the_____._____ **Greeks**

**115.** Applying a new strategy to achieve an outcome and having a wider perspective is the attribute of:__

_____Double Loop learning

**116.** Who proposes a framework based on different kinds of critical thinking.___ _____**Halpern**

**117.** We understand frames through the use of _____._____ **Metaphors to communicate logic**

**118.** Re-Thinking mean:_____ **What is already known?** **119.** A reflective practitioner uses a range of reflective models in the class because___

**120.** Self-regulation is _____._____ **A metacognitive process**

**121.** The Constant striving for self-improvement of a reflective practitioner may leads to :_____ **Self-disapproval**

**122.** Reflective practitioner does NOT believe in:_____ **One single truth/ one right way**

**123.** _____ activities are the translation of musical intelligence for reflective practitioner_____ **Listening, patterning, mirroring, repeating**

**124.** Benjamin Bloom major work in is _____. **Cognitive**

**125.** Which is the highest level of reflection from the following types?_____ **Critical**

**126.** A reflective practitioner plans his/her teaching through practical activities to develop knowledge and skills so that students can learn inductively and deductively in_____**3-dimensional instruction**

| **Lecture No. 1 to 6 (Topic 01 to 36).** | **QUIZ NO 1** |
|---|---|
| **30-12, 2020 to 01-12, 2020** | |

**1.** A benefit of the green away model of reflection is _____ It is cyctical **2.** **Which of the following best describes the benefits of reflective practice?**

_____ It determines what counts as knowledge.

**3.** **A common strand of reflecting-in-action and reflecting-on- practice is**

_____**Connecting with feelings in relation to applications of theory**

**4.** Which one statement is the example of core best practice?__**Teachers provides an enriched environment**

**5.** **What is reflective practice?** _____Process of action to improve the professional role

**6.** What type of reflection allows teachers to modify his/her teaching strategy based on students responses?

_____All the above

**7.** Reflection on action deals with the happened _____ Outside the classroom

**8.** **Bloom's model which guides the lowest level of reflection might use all the following except**

_____Did I give enough time for individual activity?

**9.** Which of the following is NOT a skill which underpins reflexivity?_____ **Existential phenomenology**

**10.** A critical friend can be defined as_____A trusted person who asks provocative questions, provides data to examined through another lens, and offers critiques of a person's work as a friend

11. **What does the idea of reflective practice dismiss? Select the corect option_____Teachers view**

12. **Which of the following is not a reason for reflective practice? Select the correct option_____** It is a professional requirement correct

**13.** Which of the following about teacher's teacher's professional knowledge and understanding is true?

_____Teachers need to develop reflection and evaluation to support their own and others practice

1. Reframing helps the reflective practitioner….?
   _____Both a and b
2. Personal attributes of critical thinkers include:_____ changing with the experiences
3. a Limitations of self-reflection are…….____. the difference between perception and reality
4. Frames are influenced by
   ……_____Metaphors
5. Which of the following is not the attribute of reflective practice? It challenge and change practice
6. Kolb's reflective cycle…… Emphasizes the role experience play in learning
7. The first step in the reflective practice process is : make a list of teaching strategies that you used in previous week
8. Personal attributes of critical thinkers includes : all of above
9. Interpretation is the skills of _____Understanding and transmitting
10. Which reflective practice is done badly, ineffectively or inappropriately, it give rise to ----------
    --- concerns.
    _____Professional
11. Reflecting logically allows teachers to take control of their learning and helps them to develop overall----------
    _____- Competencies
12. Epistemic stances _____Change with the experiences
13. All were the critiques on the Reflective practice movement except_____ Helps to improve teachers practice
14. Critically reflective learning is nurtured by relationships between teacher and ------ _____Learner
15. The 4Ps reframing matrix are productive, planning potential and----------People perspective
16. One of the pedagogic concern raised by reflective teaching is called_____Development readiness
17. Critical Reflection helps to support or challenge our views, practices and feelings by providing

Evidences

18. Critical Reflection involves which of the following?

Analysing and evaluating

19. Single loop learning has ---------- strategies.

Rigid

20. ---------- quadrant of Jo-Han windows represent the things that are unknown by you and are unknown by others

Unknown area

21. Concept is looked or understood differently by reframing core belief based on

New supporting beliefs

22. A reflective practitioner is able to

Question assumptions and values

23. What is the evidence of reflecting thinking? Reflective writing

24. In 5-step model of critical thinking, the first step is: Determining goals/objectives

25. Theory that commands the thinking the action is known as

Theory in use

26. Micro- Outcomes involves: All of these

27. Reflective practice is important because it is used to:

Improve teacher's practice

28. Emancipatory phase of critical reflective enquiry helps to ---------- in the class. Encourage different ways of thinking

1. Reflective practices focuses on.....
a)improvement

2. Looking is the part of the reflective process which.....
a) occurs before teaching

3. Frames are influenced by.....
c) Perceptions
.
4. which of the following do not transfer but are locked in time, place or a situation..... c)facts

6. Reflective action plan involves being helped to.....

d)All of the above
7. core critical thinking skills are .....
d)All of these

8. Epistemic stances
c) changes with the experiences

9. what is the trickest padagogic task acconding to stefhan brookfield?
b) Getting inside students  heads

10. A reframing matrix is a tool used because different people have different.....
a) Experiences to approch the problems

11. Reflective practice have been embraced by teachers researchers, teacher and educators since last .....
a) two decades

12. When a professionao practitionar is aware of the relevance of the skill it is called..... a)concious incompitence

13. A product for a teacher might include.....

d)All of these
14. Learning to learn is .....

d)All of the above
15. what are the indicators of a reflective practionar?
d) All of the above

16. Reframing helps to reflective practionar.....
a) see alternative solutions and actions
b)see things from other perspective
c)both a and b
d)None of the above

17. Which of the following helps to reduceblind area and expand open area of a person in team context.....
a) feedback

18. Personal attributes of critical thinkers include:
a) Honesty about emotions
b) Evaluation disposition brone from open- mindness
c) Personal awareness specially relating to personal bias
d) All of the above

19. Reflecting logically allows teachers to take control of their learning and helps them to develop overall .....d) Performance

1) which of the following is an example of warm feedback.Warm feedback consists of supportive, appreciative statements
2)The critical lenses refer toNone of above
3)The practitioner accounts are considered none-problematic for all reasons expectNo effort is made to footer reflection on language
5) The cognitive processes is characterized as essential toHigher order thinking
7)which of the following best describe a ' regular learning network':A place for a teacher to come together and discuss matter and concern
8) Technical rationally in reflection deal with theBehavior and skills
9) critical reflection involves which of the followingAnalysing and evaluating
11) reflective practitioner does not believe inOne single truth/one right way
12) learning+ reflection= Experience Is know asBoud's triangular representation
The first step in the reflective practice process is:Examine teaching occasion particular that went bad ……allows teachers to analyze what they have been learned and how they learned to take control of their development.Critical reflection
In reflective practice, practitioner engage in a continuous cycle of self-observation and…….Self evaluation
A ‘product ‘for a teacher might include……All of the above
Absolute knowing is a process of ……Learning from other
The stage-6 of critical thinking development is called as the ……..thinker.Accomplished Which of the following is NOT a ‘best’ practice?Follow the next closely to ensure coverage of the curriculum
Core Critical Thinking Skills are:All of the these
Reframing helps the Reflective Practitioner……..Both ‘a’ and ‘b’
In reflective writing the two source of evidence are: your and academic reflection

**Quiz 1...edu 406**
**Q1: To operationalize a best practice approach teachers must**
Be committed to professional dialogue with other teachrs
Be open-minded and committed to professionalism

See practice as a process of analysis
Be focused on technical proficiency
**Q2: What is the impact of reflective practices on the teacher?**
**It leads higher quality practice**
It leads to greater independence for the teacher
It sustains inclusive environments
**Q4. The 'critical lenses' refer to**
The perspectives that a teacher uses to generate different viewpoints
The focus given to the Reflective Practitioner by taking the o different viewpoints necessary to reflect on practice
A set of different viewpoints
None of the above
**Q8. According to Brookfield, which is the most powerful lens for teachen? Select the correct option** **The Self Lens**
The Student Lens
The Peers Lens
The Theary Lens
**Q9: Double loop leanng involves**
Changing personal assumptions
Changing personal approaches
**Both a and 'b**
None of the above
Q10. **The Reflective Practitioner mus**t _____.
Manage workloads as part of their role in planning and leading the profession
Ensure a suitable work-life balance Both „a" and „b" none of above corrct
**Q11. Benjamin Bloom major work in is Select the correct option** Affective
Management
**Cognitive**
Psychomotor
**Q12.Conceptual innovation is Select the correct option**
**Like re-framing**
The same as re-framing
Not re-framing
Identifying new questions
**Q14. What are the major mechanisms involved in critical thinking for the reflective prachitioner? Select the correct option**

S

elf-regulationinterpretotion**bothaandb**Noneofthheabo

v
e

**Q15.What is question/ analysis in the reflective cycle? Select the corect option. Taking on the role of researcher**

**Q16. one of the four steps in action research.**

**Identifying the research problem**

**Q17. What do systematic reflexivity and epistemic reflexivity focus on? Select the correct option Suppositions, theories, beliefs and assumptions**

**Q18. Which of the following not a component of the process involved in reflective practice?**

**Select the corect option Subject Knowledge**

Q19. **Which of the following is NOT a best practce? Select the colrect option**

**Educates the whole child**

Follows the text closely to ensure coverage of the curriculum

Students' active participation in leaning

Chalenging envoronments

**Q21. One part of learning from reflection relies on teachers being open minded These charactenstics include all but Select the correct option**

Accepting consequences of their decisions

Viewing situstions from multiple perspectives

Searching for alternatives explanations for classroom events

Using evidence to suppoit or evaluate a decision or position

**Q22. What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

Reflection is more effective when conducted collaboratively

Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching

Guidance and structure are key factors for Reflective Practitioners When the Reflective Practitioner knows what is best for children

**Q23. What does „a lack of conceptual clarity" mean?**

The educational community has different interpretations of reflection

It confuses perceptions about what happens in the classroom

It includes too many viewpoints and so becomes confusing for the individual does not account for students" perspectives

**Q24.Creative Thinking is not critical thinking because**

It is not logical

Ut is not problem-centred

It is emotive

It is not based on „black-and-white" thinking

**Q25.Reflection-on-action can be described as _____**

Thinking about what to do

A reconstructive mental review
Problem resolution
Weighing the pros and cons of
alternatives **Q26.**
**Critical thinking is _____.**
**Select correct option:**
A biological process
A psychologicaland cognitive process
A communication process
All of the above

**Q29.Critical Reflection involves which of the following?**
Select correct option:
Analysing and conceptualising
Analysing and evaluating
Reasoning and evaluating
Conceptualizing and describing

**Q30. What factor makes reflection seem time-consuming?**
**Select correct option:**
Regular learning networks are very time-consuming
Lack of leadership for Reflective Practice
Regular learning networks are very time-consuming
Staff is too busy
**Q32.Self-regulation is Select the correct option**
A metacognitive process correct
A creative process
A psychological process
A communication process
**Q34.To increase our 'understanding' we need to Select the correct option**
Dismiss reasoning
R espect evidence and reason
Think criticaly
None of the above

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession ▪ Ensure a suitable work-life balance
- Both ‘a’ and ‘b’
- None of the above

2. Reflection is NOT _____.

- A simple ‘tick box’ activity

- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

3. : Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

4. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

5. Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

6. : The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching ▪ Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

7. : Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

8. : By having an open-minded attitude, the Reflective Practitioner is _____. ▪ More reflective

- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

9. : Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

10. : The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

11. : We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

12. : The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

13. : Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

14. : Being committed to the profession means _____.

- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

15. : Concepts determine _____.

- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained

- The frames for perception
- The ways a Reflective Practitioner explains experience

16. : A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box'
- Question other people's assumptions
- All of the above

17. : We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

18. : Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

19. : An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

20. : Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

21. : A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

22. : Reflective writing _____.

- Is personal

- Links theory to practice
- Questions experience

23. Our assumptions can be revealed and explored through four lenses.
24. A product for a teacher might include. All of above
25. A paradigm shift is. Brings a new set of concepts
26. Reframing for new learning is. Focused on inventing new strategies
27. The highest level of Bloom taxonomy is. Evaluation
28. Using a reflective action plan is valuable. To set targeted action points
29. The Professional development Journal supports the RP to. Reflect on experiences
30. Inductive learning is. Specific to general

**84: We can make theory-in-use visible by..**
a) Construction someone's theory-in-use from observations of behavior
b) Clues for discovering the theory-in-use
c) Developing ideas
d) Exploring concepts **85: A 'problem statement'** a) Is not too specific
b) Find solutions to problems
c) Does not find solutions to problems
d) Is not too general
**88: The reflective practitioner uses 3-dimensional instruction to** .. b) Develop understanding of connection between topics/subject c) Build use multiple intelligence in their teaching
d) all of the above
89: **critically reflective teaching is .**
. a) responsible for highly effective pedagogies
B) responsive and adaptable to meet learners' needs
c) a social process involving family and community
d) all of the above
**According to moon what are the key aspects of reflective practice. A)**. reflective practice is a form of mental processing
b. Relies of a cognitive re processing of experience
c. aims to understand complexity and confusion in experience
d. All of the above.
**10. Which of the following is not the best practice?**
ANS. Follows the text closely to ensure coverage of the curriculum
**11. One part of learning from reflection relies on teachers being open minded . these characteristics include all but.?**
Ans. Using evidence to support or evaluate a decision or position.

**12. What is hyper reflexivity?**
Ans. Deconstructing applications of knowledge in the classroom.
**13. The most significant part of the model is...? Ans learning from experience**
**14.DATA refers** to...?The four steps analytical process necessary for guiding reflection

Which of the following about teacher's teacher's professional knowledge and understanding is true? Ans. Teachers need to develop reflection and evaluate to support their own practice

20) Personal attributes of critical thinkers include:
Honesty about emotions
Evaluation disposition borne from open-mindedness
Personal awareness especially relating to personal bias
All of the above

Kolb's reflective cycle:
Emphasis the role experience plays in learning
Illustrates the developmental nature of reflection
Both a, b
None of the above

Which of following is not the reason of reflective practice:
Reflective practice helps students learn
It encourages us to understand our learners and their needs
It is a professional requirement
Reflective Practitioners models reflective learning

What are three levels of reflection:
Technical, empirical, practical
Technical, practical, Critical
Rational, Technical, Critical
Rational, Practical, Critical

Processes in participatory reflection include all of the following except
Careful description
Thoughtful listening
Extending thinking
None of the above

knowing in action is described by Schon as:
Our knowing is ordinarily implicit in our patterns of action
When we cannot say what we know

When we go about spontaneous, intuitive performance of the actions of every day life All of the above

Interpretation is the skill of
Understanding and transmitting
Cognition and communication
Thinking and talking
Receiving and sending information

When we think habitually, we_____

*Ans: Ignore Data*

**A learning 'hub' which challenges practice and policy.**

Looking in is the part of the reflective process which_____
**Ans: Occurs as a response to experiences**

Which of the following is an example of warm feedback?
**Ans: Warm feedback consists of supportive, appreciative statements**

Self-regulation is _____
**Ans: A metacognitive process**

One principle of reflection in the Roth Model is that _____

*Ans: It uses 'what', 'why' and 'how' questions*

Question 1:
Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:
According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems

- None of the above

Question 3:

Which of the following is NOT a 'best' practice? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning Question No.4:

What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging
environments

Question 5:

Which of the following is considered the least effective form of teacher development? ▪ Certificated Courses

- Workshops
- n-school mentoring
- Communities of Practice Question 6:

Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:

What are the major mechanisms involved in critical thinking for the reflective practitioner? ▪ Self-regulation ▪ interpretation ▪ both 'a' and 'b'

- None of the above question 8:

Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on 'black-and-white' thinking

DATA refers to pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting

- The four steps analytical process necessary for guiding reflection

3:
What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:
What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments 5:

Which of the following about teacher's teacher's professional knowledge and understanding is true?
Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6
What does 'a lack of conceptual clarity' mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

7
According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8
Which of the following is an example of 'warm' feedback?

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9
Which of the following is not reflection in a professional setting?

- Deliberate

- Theory-focused
- Object-led
- Purposeful

10
The 'critical lenses' refer to

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:
Reflection-on-action can be described as _____

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:
Which of the following is NOT a principle of Reflective Practice? Pg.8 Select correct option:

- It is problem-oriented
- It is based on action research
- It is data-driven ▪ It is research-led

6:
Critical thinking is _____.
Select correct option:

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:
What are three levels of reflection?
Select correct option:

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8
What is question/ analysis in the reflective cycle?
Select correct option:

- Taking on the role of researcher
- Using quantitative data to make decisions

- Describing a situation
- Asking many questions

1:
Interpretation is the skills of _____.
Select correct option:
- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2
Critical Reflection involves which of the following?
Select correct option:
- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating ▪ Conceptualising and describing

2:
Which of the following is NOT one of the four steps in action research? Select correct option:
Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3
What is part of the analytical process for the practitioner?
Select correct option:
- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4
Why reflective practice is so important?
Select correct option:
- Research highlights the importance of reflective practice for changing personal values biases ▪ Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner ▪ Research shows that reflective practitioners are more profession

5
The most significant part of the model is _____.
Select correct option:
- Learning from experience

- Learning from reflecting
- Learning from information
- Learning from knowledge

6
What do systematic reflexivity and epistemic reflexivity focus on?
Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7
When we think habitually, we _____.
Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8
Double loop learning involves _____.
Select correct option:

- Changing personal assumptions
- Changing personal approaches pg.51
- Both ‘a’ and ‘b’
- None of the above

9
What factor makes reflection seem time-consuming?
Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
4. True about teacher’s professional knowledge and understanding?
5. What is reflection practice? Process of action to improve the professional role

6. Best describes a regular learning network. A learning "hub" which challenge practice and policy
7. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

**1. One part of learning from reflection relies on teachers being open-minded. These characteristics include all but……**

a) **Using evidence to support or evaluate a decision**

**or position 2. What is hyper-reflexivity?**

a) **Deconstructing applications of knowledge in the classroom**

**3. Kolb's reflective cycl ……**

**a) Both 'a' and 'b'**

**4. Which of the following is not a reason for reflective practice?**

**a) Reflective practitioner models reflective learning**

**5. To operationalize a best practice approach teachers must**

**a) Be committed to professional dialogue with other teachers**

**6. Rapid reflection is all but …..**

**a) Contemplative**

**7. Processes in participatory reflection include all of the following except a) None of the above**

**8. A critical friend can be defined as ……**

**a) A trusted person who asks provocative questions, provides data to be examined through another lens, and others critiques of a person's work as a friend**

**9. Bloom's model which guides the lowest level of reflection might use all the following except**

**a) What instructional strategies were used?**

**10: Which of the following about teacher's professional knowledge and understanding is true?**

✦ **Teachers need to develop reflection and evaluation of their**

**practice 11:** According to Stephen Brook, reflective practice is?

✦ **None of the above**

**12: Which of the following is NOT a 'best' practice?**

a) **Follows the text closely to ensure coverage of the curriculum**

**13: What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

✦ **Guidance and structure are key factors for Reflective Practitioners**

**14: Which of the following is considered the least effective form of teacher development?** ✦ **Certificated Courses**

**15: Knowing-in-action is described by Schon as _____.**

- **When we go about the spontaneous, intuitive performance of the actions of everyday life** **16: What are the major mechanisms involved in critical thinking for the reflective practitioner?**
- **both 'a' and 'b'**

**17: Creative Thinking is not critical thinking because** **It is emotive** **18:in a school, a critical friend canbe all of the following except …..**

**a)** **A friend from another school**

**20**Personal attributes of critical thinkers include

a) **All of the above**

22. **DATA refers to**

- **The four steps analytical process necessary for guiding reflection**

**23: What is reflective practice?**

- **Process of action to improve the professional role**

**24: What is the impact of reflective practices on the teacher**

- **It leads higher quality practice**

**25: Which of the following about teacher's teacher's professional knowledge and understanding is true?**

**Once reflection becomes a habit you will not need to develop your reflective skills further** **Teachers need to develop reflection and evaluation of their practice** teachers need **What does 'a lack of conceptual clarity' mean?**

- **It includes too many viewpoints and so becomes confusing for the individual**

**27 According to Brookfield, which is the most powerful lens for teachers?** **The Self Lens**

**28 Which of the following is an example of 'warm' feedback?**

- **Warm feedback consists of supportive, appreciative statements**

**29 Within a critical thinking framework, 'reasoning' is conducted from ……. a) Both 'a' and 'b'**

**30: Which of the following not a component of the process involved in reflective practice Subject knowledge**

**31 Which of the following is not reflection in a professional setting?** **Object-led**

**32 The 'critical lenses' refer to**

- **The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice**

**34: Reflection-on-action can be described as _____**

Thinking about **A reconstructive mental review**

**35: Which of the following is NOT a principle of Reflective Practice? Select correct option:**

- **It is data-driven**

**37: Re-theorising is the means by which Reflective Practitioners _____. Select correct option:**

- **Critically examine practice and theories in the light of theories**

**38: Critical thinking is _____. All of the above**

**39: What are three levels of reflection? Technical, practical and critical**

**40 What is question/ analysis in the reflective cycle? Asking many questions**

**41: Interpretation is the skills of _____. Cognition and communication**

**42 Critical Reflection involves which of the following? Analysing and evaluating**

**43 : According to Schon, reflection-in-action and reflection-on-action are the mechanisms reflective practitioners use that permit them to……. Both 'a' and 'b'**

**45: What is part of the analytical process for the practitioner? Both 'a' and 'b'**

**46: Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning 47: The most significant part of the model is _____. Learning from experience**

**48: What do systematic reflexivity and epistemic reflexivity focus on? Suppositions, theories, beliefs and assumptions**

**49: When we think habitually, we _____. Ignore data**

**50: Double loop learning involves _____. Both 'a' and 'b'**

**51: What factor makes reflection seem time-consuming? Staff is too busy**

**52: Which of the following best describes the benefits of reflective practice? It determines what counts as knowledge**

**53: What does the idea of reflective practice dismiss? Fixed perception of the nature of the learning**

**54: To operationalize a best practice approach teachers must ……. Be committed to professional dialogue with other teachers**

**55. Looking in is the part of the reflective process which Occurs as a precondition for reflection**

**56: Which of the following Best describes a 'regular learning network'? A placed for teachers to come together and discuss matters of concern**

57: According to Moon. What are the key aspects of reflective practice? **All of the above**

58: The Reflective Practitioner must _____. **Both 'a' and 'b'**

59: Reflection is NOT _____. **A simple 'tick box' activity**

60 :Deductive learning is _____. **From general to specific**

61: The Reflective Practitioner has adapted _____. **Both 'a' and 'b'**

62: Reflective writing focuses _____. **Specific details within an experience**

63:The Reflective Practitioner is concerned with _____. **Both 'a' and 'b'**
64:Working inductively means to _____ . **Identify a goal and explore strategies to achieve it** 65: By having an open-minded attitude, the Reflective Practitioner is _____. **Adaptable to changing conditions**
66: Reflection can be negatively influenced by _____. **Both 'a' and 'b'**
67: The Professional Development Journal is _____. **A subjective dialogue**
68: We understand frames through the use of _____. **Metaphors to communicate logic**
69: The Reflective Practitioner has adapted _____. **Both 'a' and 'b'**
70: The study of parts of the community fall in _____. **Knowledge**
71: Concept-based learning means the Reflective Practitioner _____ . **Works with deeper levels of conceptual understanding**
72: Being committed to the profession means _____. **Being responsible for continuing professional development**
73: Concepts determine _____. **The frames for perception**
74: A Reflective Practitioner is able to _____.**Question assumptions and values**

76:We develop theories-in-use as Reflective Practitioners to _____. **Understand theories as we apply them**

77: Effective writing in a Professional Development Journal _____. **Both 'a' and 'b'**

78: Exploring practice using inductive action planning requires _____. **Both 'a' and 'b'**

79: An effective action plan is _____. **All of the above**

80: Professional knowledge relates to _____. **All of the above**

81: A reflective action plan provides the Reflective Practitioner with _____. **Targets, planning, evaluation**

82: Reflective writing _____. **Links theory to practice**

**83: Benjamin Bloom major work in is….** **Cognitive**
**84: We can make theory-in-use visible by….** **Construction someone's theory-in-use from observations of behavior**
**85: A 'problem statement' ……..** **Is not too specific**
**86: Professional knowledge relates to ……** **All of the above**
**88: The reflective practitioner uses 3-dimensional instruction to …….** **all of the above**
**89: critically reflective teaching is ……** **all of the above**

1. A Mnemonic is a _____**learning technique**
2. The most important feature of becoming a reflective practitioner is the focus on _____**why to learn**
3. An objective is a clearly defined target that has the following characteristics _____**SMART specific, measurable, achievable, realistic, timed**
4. The lowest level of cognitive domain in Bloom's Taxonomy is _____**knowledge**
5. SMARTER stands for_____ specific, measurable, realistic, timed, energizing and relevant
6. The pastoral role of teacher is intended to provide students _____**care and attention**
7. The most significant factors that affect work based learning are _____**accreditation and assessment**
8. Which of the following about teacher's professional knowledge and understanding is true? **Teachers need to develop reflection and evaluation of their practice**
9. According to Stephen Brook, reflective practice is? **a way for teaches to understand their problems**

10. Which of the following is NOT a 'best' practice? Follows the text closely to ensure coverage of the curriculum 11. What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching

**12.** Which of the following is considered the least effective form of teacher development? **Certificated Courses**

**13.** Knowing-in-action is described by Schon as **When we cannot say what we know**

**14.** What are the major mechanisms involved in critical thinking for the reflective practitioner? **both 'a' and 'b'**

**15.** Creative Thinking is not critical thinking because **It is emotive**

16. 'Looking out' is a combination of A range of viewpoints about experiences 17. Which of the following assumptions does NOT underlie action research? Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay 18. DATA refers to the four steps analytical process necessary for guiding reflection 19. What is reflective practice? Process of action to improve the professional role

**20.** What is the impact of reflective practices on the teacher **It leads higher quality practice**

**21.** Once reflection becomes a habit you will not need to develop your reflective skills further **Teachers need to develop reflection and evaluation of their practice**

**22.** What does 'a lack of conceptual clarity' mean? **The educational community has different interpretations of reflection**

**23.** According to Brookfield, which is the most powerful lens for teachers? **The Student Lens**

**24.** Which of the following is an example of 'warm' feedback? **Warm feedback consists of supportive, appreciative statements**

**25.** Which of the following is not reflection in a professional setting? **Object-led**

26. The 'critical lenses' refer to the focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice 27. Reflection-on-action can be described as Thinking about what to do

**28.** Which of the following is NOT a principle of Reflective Practice? **None**

MUHAMMAD IMRAN

**29.** Which of the following is NOT one of the four steps in action research? **Developing a professional measurement instrument**

30. Re-theorising is the means by which Reflective Practitioners critically examine practice and theories in the light of theories

**31.** Critical thinking is _____. **All of the above**

**32.** What are three levels of reflection? **Technical, practical and critical**

**33.** What is question/ analysis in the reflective cycle? **Taking on the role of researcher**

**34.** Interpretation is the skills of **Understanding and transmitting**

**35.** Critical Reflection involves which of the following**? Analyzing and evaluating**

36. Action Research is…Process, Collaboration, Improvement, Practice, Communication 37. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning

**38.** The most significant part of the model is **Learning from reflecting**

**39.** What do systematic reflexivity and epistemic reflexivity focus on? **Beliefs, values and assumptions**

**40.** When we think habitually**, we Ignore data**

**41.** Double loop learning involves **Changing personal approaches**

**42.** What factor makes reflection seem time-consuming? **Regular learning networks are very timeconsuming**

**43.** Is not reflection in a professional setting? **Object-led**

44. Best practice approach teachers must. Be committed to professional dialogue with other teachers

**45.** Critical reflection facilitates_____ learning. Fosters **transformational** learning

**46.** Why reflective practice is so important? **Research shows that reflective practice is essential for developing our understanding about teaching and learning.**

47. What is reflection practice? Process of action to improve the professional role 48. Best describes a regular learning network. A learning "hub" which challenge practice and policy

**49.** According to Moon. What are the key aspects of reflective practice? **Reflection is a form of mental processing**

**50.** The Reflective Practitioner must _____. _____**None of the above**

**51.** Reflection is NOT _____. _____**A simple 'tick box' activity**

**52.** The Reflective Practitioner has adapted _____._____ **Both 'a' and 'b'**

**53.** Reflective writing focuses _____**On all aspects of an experience**

**54.** The most important feature of becoming a reflective practitioner is the focus on _____**how to learn.**

**55.** An objective is a clearly defined target that has the following characteristics **specific and measureable.**

**56.** Socratic Method is about _____**questioning.**

**57.** The most significant are that affect work based learning _____**accreditation and assessment.**

**58.** The Reflective Practitioner is concerned with **Using a wider range of pedagogies as a means to realize excellence in teaching** **59.** Working inductively means to _____**identify a goal and explore strategies to achieve it**

**60.** By having an open-minded attitude, the Reflective _____**Practitioner is more reflective**

61. Reflection can be _____negatively influenced by A lack of objectivity 62. The Professional_____ Development Journal is A subjective dialogue 63. We understand _____frames through the use of Metaphors to communicate logic

**64.** The Reflective_____ Practitioner has adapted **Ways of knowing**

**65.** The study of parts of the _____**community fall in Knowledge**

**66.** Concept-based learning means _____

_____the Ref**lective Practitioner Works with deeper levels of conceptual understanding**

67. Being committe**d**_____ _____

_____**to the profession means being responsible for continuing professional development**

68. Concepts determine _____**the frames for perception**

69. A Reflective Practitioner is able to _____**Think 'outside the box'**

70. We develop theories-in-use as Reflective Practitioners _____to **Explain situations**

71. Effective writing in a Professional Development Journal _____**May include diagrams and drawings**

72. Exploring practice using inductive action planning requires _____**Clearly identified evidence sources**

73. An effective action plan is _____**Precise**

74. Professional knowledge relates to _____**Communication skills**

75. A reflective action plan provides the Reflective Practitioner with _____**Targets, planning, evaluation**

76. Reflective writing _____**Links theory to practice**

77. Our assumption can_____ be **Perceptual.**

78. A product for a teacher might include. _____**All of above**

79. A paradigm shift is. _____**Brings a new set of concepts**

80. Reframing for new learning is. _____**Focused on inventing new strategies**

81. Concept formation involves. _____**Perception, abstraction, generalization**

82. The highest level of Bloom taxonomy is. _____**Evaluation**

83. Using a reflective action plan is valuable._____ _____**To set targeted action points**

84. The Professional development Journal supports the RP to. _____**Reflect on experiences**

85. Inductive learning is. _____**None of the above**

86. SOAR stands for _____**strengths, opportunities, aspirations and results**

87. Which of the following are not the similarities between AI and critical Inquiry? **Rationality and reason**

88. Appreciative inquiry (AI) is **the study and exploration of what gives life to human system when they function at their best**

89. How many principles of AI _____**5**

90. Social skill in Gibb's model include **Accepting responsibility**

91. AI cycle consists of **4** elements

92. Which of the following are the internal barriers of Boud's model? **Previous negative experiences**

93. Which of the following is not the component of Dewey's inquiry cycle _____**implement**

94. How many stages of Boud's triangular representation of reflective learning _____**three**

95. All the following are correct with reference to class room management EXCEPT: **promoting a culturally biased** classroom

**96.** Within the domain there are ….proficiencies that the reflective practitioner can focus on_____**3**

**97.** Teacher competence framework has **4** components

**98.** **Interpersonal** learning through feeling, values and attitudes

**99.** The teacher competency model enables teachers to develop their _____**identity**

**100.** According to **critical philosophy perspective** teaching practice is viewed as a form of social life in which different forms of domination

**101.** The teacher also must possess interpersonal skill that foster _____**peer collaboration** **102.** There are **9** characteristics of high performing schools.

103. Professional identity is a more or less conscious apprehension of what constitutes good and professional teaching and learning The symptoms of conscious of their interaction

**104.** The lowest level of cognitive domain in Bloom's Taxonomy is _____**knowledge**

**105.** The benefits of utilizing (MI) theory are _____

_____**it generates a boad survey of experiences across levels and disciplines**

**106.** Change can also be **Evaluative** i.e. how we go about and think about work and even the outcomes can also be looked at from a change perspective

**107.** **Ripple model** can be used by the reflective practitioner to consider how to consider how their teaching addresses certain questions

108. SMARTER stands for _____specific, measurable, restrict, timed, energizing and relevant

**109.** Which of the following is not the component of Dewey's inquiry cycle_____ **implement.**

**110.** Boud's formulated the model in _____**1985**.

**111.** How many stages of Boud's Triangular Representation of Reflective Learning _____**three**. **112.** In his 1933 work, "How We Think", Dewey distinguishes

between **four** different modes of thinking. **113.** How many phases of reflection are? _____**Six** **114.** Gibbs reflective cycle has **six** stages.

**115.** How many Principles of AI?_____ **Five**

**116.** The Objects of Action Research Enquiry Are _____**All of these** **117.** Action research engages teachers in a cycle of _____**experience, critical reflection and action.**

**118. The Reflective Practitioner is concerned with**

_____._____ **Both 'a' and 'b'**

1. 'Fairness' in terms of professionalism mean_____ **supporting all students regardless of their problems**
2. How many levels does Bloom's taxonomy has _____**three**
3. A Mnemonic is _____**a learning technique**
4. The pastoral role of teacher is intended to provide students _____**care and attention**
5. Socratic Method is about_____ **questioning**

MUHAMMAD IMRAN

6. Teacher competence framework has .... components _____ **4**
7. Group thinking act as a barrier to reflective practice because it_____ **creates stereotyped views**
8. The biggest challenge of work-based learning are _____**communication gap**
9. The teacher competency model enables teachers to develop _____**their identity** **10.** Team cohesiveness is based around a number of factors of team and the way team works. FOR example _____ __ **All of the above**
11. Self-regulation is a ..... process. _____ **linear one-way**
12. SMARTER goals are _____ specific, measurable, realistic, timed, energizing and relevant
13. The term team means _____**a group of people working together**
14. Questions of Assumption- force the reflective practitioner to _____**understand and reflect on information**.
15. Heterogeneous teams are more creative in nature because team member _____ **have more conflicts**
16. The lowest level of cognitive domain in Bloom's Taxonomy is_____ **knowledge**
17. The teacher also must possess interpersonal skill that foster_____ **peer collaboration** **18.** The Norming stage in the team development is where_____ **People take on their roles efficiently**
19. How many domains of teacher identity_____.
20. How many continuums of work based learning are_____._____**2**
21. The most significant factors that affect work based learning are_____ **accreditation and assessment**
22. Which one of the following is not related to work based learning_____._____ **Professional Failure**
23. The four steps in Socratic Method are_____
24. Effective team members are good at five C's in team composition. One of them is_____ _____**Communicating**
25. Within the domain there are_____ proficiencies that the reflective practitioner can focus on._____**3**

**26.** Learning from day to day chaos means _____**learning from day to day experience**

1. The reflective practitioner has to go through the four stages while maintaining dialogic diaries which are_____ **Uncertainty, enthusiasm, lack of enthusiasm and habit**
2. Lesson study focuses more on _____**Student learning**
3. Change can also be _____i.e. how we go about and think about our work and even the outcomes can also be looked at from a change perspective_____ **Evaluative**
4. A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students._____ **Teacher**
5. The question that reflective practitioner can ask at this ____ __of Socratic method is What do you already think at this point. _____ **Eliciting**
6. The reflective practitioner needs to engage with one key understanding that is _**professionalism**.
7. Written reflection is positive and useful because _____ **It is possible to evident all the experiences**
8. Can you form a new proposition given what you have just learned? This question is related to the stage_____._____ _____ **Decide**
9. How many steps in Socratic questioning are_____**6**
10. Peer monitoring is a_**Professional relationship between reflective practitioner and colleague**
11. Enactive learning is the learning by_____ **Doing and experiencing consequences of actions** **12.** Situated learning focuses on teacher learning to make them to_____ _____ _____**Think critically and originally**
13. Reflecting with colleagues is very important because_____ _____

MUHAMMAD IMRAN

_____**only helps us integrate in school and feel valued with other professionals**

**14.** Questions of Assumption is_____._____ **force us to define our task**

**15.** Which one of the following is the higher level of blooms taxonomy _____._____ **Knowledge**

**16.** ____types of questions are often used to develop thinking from lower to higher order_____ **3**

**17.** What type of skill reflective practitioner needs to develop _____ **flexible**

**18.** Asynchronous discussion allows: _____**dialogue occurs sometimes after experience**

**14.** A _____is somebody who is working along-side students in the classroom, supporting and encouraging vast challenges and cheer leading the successes of students.

_____

_____**Mentor**

**15.** The question that reflective practitioner can ask at this _____ of Socratic method is What do you already think at this point.

_____**Eliciting**

**16.** Supervision in education is made up of: __**Collaborative Observation and Feedback**

**17.** __types of questions are often used to develop thinking from lower to higher order. ___**Three 18.** Dialogue can be a self-assessment tool for reflective practitioner in:

_____ **Assessing knowledge and Practice**

**19.** Which of the following are the primary processes of Socratic Method_____?

_____**The constructive process**

**20.** **Lesson study focuses more on:**

_____**student learning 21.** Enactive learning is the learning by_____

_____

_____**Doing and experiencing consequences of actions 22.** Written reflection is positive and useful because

_____
_____**It is possible to evident all the experiences**

23. The role of reflecting team in collaborating observation is to: _____**Listens to the dialogue without interrupting**
24. Which one of the following is the lower level of blooms taxonomy_____ **Evaluation**
25. Mentor can take on different roles for reflective practitioner like a: _____**All of these**
26. The conversation in the 7 C's model for supervision can create understanding for:_**Students**
27. The reflective practitioner needs to engage with one key understanding that is

_____**p rofessionalism**

28. In asynchronous discussion teacher: _____Reflect on theories learnt about teaching
29. The reflective practitioner ensure that inter-professional learning is effective at many levels like:

_____**all of the above**

30. Reflecting with colleagues is very important because:

_____
_____**helps us integrate in school and feel valued with other professionals**

31. There are ____ characteristics of high performing schools: _____**9**
32. There are some particular drivers of inter-professional learning for reflective Practitioner like:

_____
___**all of these**

33. There are some principles involved in inter-professional learning which:_____ **Increase professional satisfaction**
34. Questions of Assumption- **force the reflective practitioner to look at information understand it and then to reflect internally and**

**what assumptions we assumptions we have which are affecting the information.**

35. What type of skill reflective practitioner needs to develop _____? _____**flexible**

36. How many levels of bloom taxonomy are: _____**6** **37.** An academic portfolio is an evolving collection of: __**Experience and experiments over time**

38. Peer observation helps you to: _____**Provide evidence**

39. Changes can also be _____ i.e., how we go about and think about our work and even the outcomes can also be looked at from a change perspective._____ **Evaluative**

40. The goal of lesson study is to improve the: _____**experience provided to the students**

41. As an observer you need to:_____ **do all the above**

42. Which one of the following is the higher level of blooms taxonomy _____? **Knowledge** **43.** A community of practice can be described as a group of _____ working together to achieve a common goal. _____**People**

44. Teacher collaborating is a means for reflective practitioner to get feedback which should be

45. Peer coaching in differentiated supervision is where: _____**Two teachers work as a team**

46. Situated learning focuses on teacher learning to make them to: _____ _____ **Think critically and originally**

47. Peer observation focuses on four key areas which are: _____ _____**Planning, teaching strategies, management, assessment**

48. Force the reflective practitioner to consider data and information over time to see that information is consistent , relates to_____ **questions of consistency**

**49.**

EDU406 Q#2

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both ‘a’ and ‘b’

2. Reflection is NOT _____.

A simple ‘tick box’ activity
A routine activity for a teacher
- None of the above

- 
- 
- Both ‘a’ and ‘b’
- None of the above

3. Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

5. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

6.Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

7. The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both 'a' and 'b'
- None of the above

8: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

9: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both 'a' and 'b'

4: The Professional Development Journal is _____.

A personal diary

- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both 'a' and 'b'

- None of the above

7: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding 9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above 10: Concepts determine _____.
- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience 1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box' ▪ Question other people's assumptions

- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both 'a' and 'b'
- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above

A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation

Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences
Inductive learning is. None of the above

Question 1:

Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:

According to Stephen Brook, reflective is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:

Which of the following is NOT a 'best' ? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning Question No.4:

What does evidence suggest as being most important for a long-term commitment to Reflective Practice?

Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments

Question 5:

Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:

Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:

What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation ▪ interpretation
- both ‘a’ and ‘b’
- None of the above question 8:

Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on ‘black-and-white’ thinking Question 9:

‘Looking out’ is a combination of _____.

- A range of viewpoints about experiences
- Looking around’ and ‘looking back’
- Perspectives which direct the focus of attention
- None of the above

Question 10:

Which of the following assumptions does NOT underlie action research?

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:

What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:

What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments 5:

Which of the following about teacher's teacher's professional knowledge and understanding is true? Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6

What does 'a lack of conceptual clarity' mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

7

According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8

Which of the following is an example of 'warm' feedback?

Warm feedback extends thinking and raises concerns about teaching

- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9

Which of the following is not reflection in a professional setting?

- Deliberate
- Theory-focused
- Object-led
- Purposeful

10

The 'critical lenses' refer to

- The perspectives that a teacher uses to generate different viewpoints

- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:

Reflection-on-action can be described as _____

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:

Which of the following is principle of Reflective Practice? Pg.8
Select correct option:

- It is problem-oriented
- It is based on action research
- It is data-driven ▪ It is research-led

4:

Which of the following is NOT one of the four steps in action research?

Select correct option:

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

5:

Re-theorising is the means by which Reflective Practitioners _____.

Select correct option:

- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

6:

Critical thinking is _____.

Select correct option:

- A biological process
- A psychologicaland cognitive process

- A communication process
- All of the above

7:

What are three levels of reflection?

Select correct option:

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8

What is question/ analysis in the reflective cycle?

Select correct option:

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:

Interpretation is the skills of _____.

Select correct option:

- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2

Critical Reflection involves which of the following?
Select correct option:

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating ▪ Conceptualising and describing

2:

Which of the following is NOT one of the four steps in action research?
Select correct option:

Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3

What is part of the analytical process for the practitioner?

Select correct option:

- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4

Why reflective practice is so important?

Select correct option:

- Research highlights the importance of reflective practice for changing personal values biases

- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner ▪ Research shows that reflective practitioners are more profession

5

The most significant part of the model is _____.

Select correct option:

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6

What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7

When we think habitually, we _____.

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8

Double loop learning involves _____.

Select correct option:

- Changing personal assumptions (thinking deferentially
- Changing personal approaches changing rule pg.51
- Both 'a' and 'b'
- None of the above

9

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

**Quiz no 1**

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher's professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role 7. describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? **Aims to understand complexity**

**9.**reflection is a form of ……**Mental**…….processing that we use to fulfill purpose or achieved anticipated outcom**e.**

**10.**

1.What is the name of Competences that Characterize the Critical Thinker? Clarification

2. The reflective practitioner relies on_____.Synergistic thinking

3. Which of the following NOT involves internal commitment to discovery_____.Knowing what you have learned or what you want to learn from practice and experience needs some planning

4. What is the benefit of Benefits of concept-based teaching and learning_____

.A teacher who questions, investigates, explores and discovers

5. Epistemic stances_____.Traditional knowing

6. _____ is a process by which the reflective practitioner learns how to organize information in logical mental structures. Conceptual learning

7. Absolute knowing' is a process of _____.Learning from others

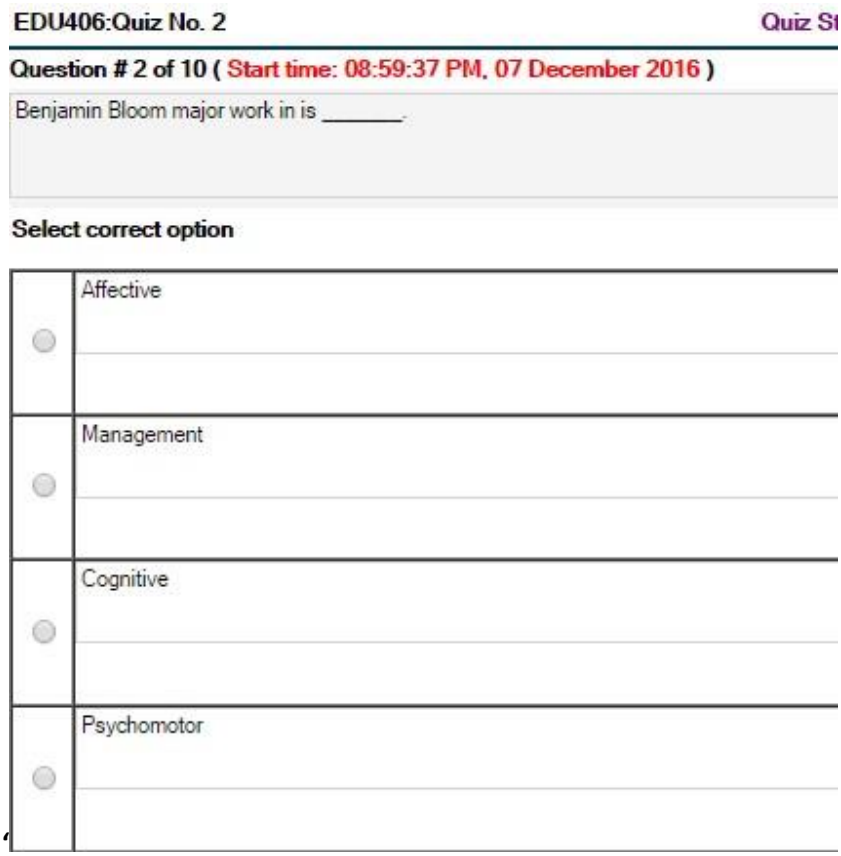

8.Identifying opportunities for you to discuss, reinforce and develop your practice is about inductive action planning_____ _.Inductive action plan

9. How many types of frames are_____.2

10. Reflecting on interpreting of both the learner's experience and the phenomena being experienced so as to move beyond the partiality of previous understanding is_____.Hermeneutic Phenomenological analysis

Within a critical thinking framework, reasoning is conducted from…… a logicalframe work.

One part of learning from reflection relies teachers being open minded.These characteristics includer all but**……**

EDU406:Quiz No. 2 Quiz St

Question # 2 of 10 ( Start time: 08:59:37 PM, 07 December 2016 )

Benjamin Bloom major work in is _____.

Select correct option

- Affective
- Management
- Cognitive
- Psychomotor

**EDU406:Quiz No. 2**

**Question # 3 of 10 ( Start time: 09:01:03 PM, 07 December 2016 )**

We can make theory-in-use visible by_____.

**Select correct option**

| | |
|---|---|
| ○ | Construct someone's theory in-use from observations of behavior |
| ○ | Clues for discovering the Theory-In-Use |
| ○ | Developing ideas |
| ○ | Exploring concepts |

**EDU406:Quiz No. 2** Q

**Question # 4 of 10 ( Start time: 09:02:26 PM, 07 December 2016 )**

A 'problem statement' _____.

**Select correct option**

- Is not too specific
- Finds solutions to problems
- Does not find solutions to problems
- Is not too general

**EDU406:Quiz No. 2**

**Question # 5 of 10 ( Start time: 09:03:52 PM, 07 December 2**

Professional knowledge relates to _____.

**Select correct option**

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

**EDU406:Quiz No. 2** Q

**Question # 6 of 10 ( Start time: 09:04:29 PM, 07 December 2016 )**

The benefits of concept-based learning _____.

**Select correct option**

- Depend on the experience of the Reflective Practitioner
- Depend on the intellectual level of thinking of the Reflective Practitioner
- Depend on the emotional engagement of the Reflective Practitioner
- Depend on the psychological engagement of the Reflective Practitioner

**EDU406:Quiz No. 2** Qui

**Question # 8 of 10 ( Start time: 09:06:47 PM, 07 December 2016 )**

The Reflective Practitioner uses 3-Dimensional instruction to _____.

**Select correct option**

- Develop skills for concept-based teaching
- Develop understanding of connection between topics/ subjects
- Build use multiple intelligences in their teaching
- All of the above

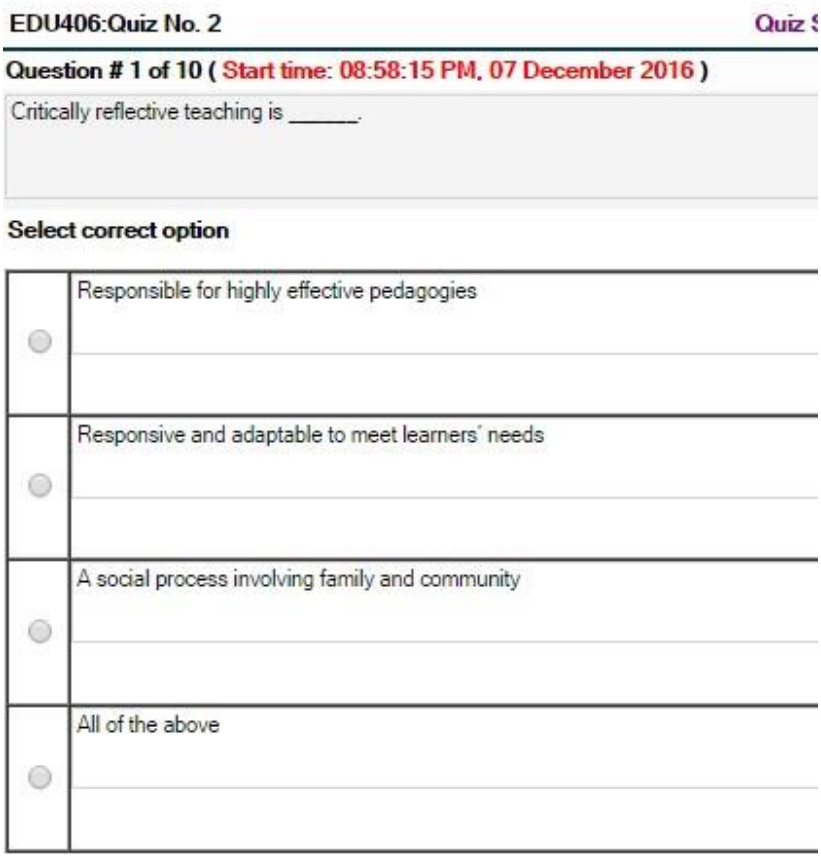

**EDU406:Quiz No. 2** **Quiz Start Time:**

**Question # 7 of 10 ( Start time: 09:05:46 PM, 07 December 2016 )**

The Reflective Practitioner is concerned with _____.

**Select correct option**

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both 'a' and 'b'
- None of the above

EDU406:Quiz No. 2 Quiz

Question # 1 of 10 ( Start time: 08:58:15 PM, 07 December 2016 )

Critically reflective teaching is _____.

Select correct option

- Responsible for highly effective pedagogies
- Responsive and adaptable to meet learners' needs
- A social process involving family and community
- All of the above

EDU406 Q#2

1. The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both 'a' and 'b'

2. Reflection is NOT _____.

A simple 'tick box' activity
A routine activity for a teacher

- None of the above

MUHAMMAD IMRAN

- Both ‘a’ and ‘b’
- None of the above

3. Deductive learning is _____.

- From general to specific
- Rule base
- From unknown to known
- All the above

5. The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

6.Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

7. The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

8: Working inductively means to _____ .

- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

9: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.

- A lack of objectivity

- The Reflective Practitioner ignoring the truth
- None of the above
- Both 'a' and 'b'

4: The Professional Development Journal is _____.

A personal diary

- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.

- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- Both 'a' and 'b'
- None of the above

7: The study of parts of the community fall in _____.

- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .

- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding 9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above 10: Concepts determine _____.
- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- The frames for perception

- The ways a Reflective Practitioner explains experience 1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box' ▪

Question other people's assumptions

- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice 4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both 'a' and 'b'
- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both 'a' and 'b'
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation

- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.

A product for a teacher might include. All of above

A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation

Using a reflective action plan is valuable. To set targeted action points

The Professional development Journal supports the RP to. Reflect on experiences
Inductive learning is. None of the above

Question 1:

Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:

According to Stephen Brook, reflective is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:

Which of the following is NOT a 'best' ? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning Question No.4:

What does evidence suggest as being most important for a long-term commitment to Reflective Practice?

Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments

Question 5:

Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:

Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:

What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation ▪ interpretation
- both ‘a’ and ‘b’
- None of the above question 8:

Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on ‘black-and-white’ thinking Question 9:

‘Looking out’ is a combination of _____.

- A range of viewpoints about experiences
- Looking around’ and ‘looking back’
- Perspectives which direct the focus of attention
- None of the above

Question 10:

Which of the following assumptions does NOT underlie action research?

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:

What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:

What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments 5:

Which of the following about teacher's teacher's professional knowledge and understanding is true? Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6

What does 'a lack of conceptual clarity' mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

7

According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8

Which of the following is an example of 'warm' feedback?

Warm feedback extends thinking and raises concerns about teaching

- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9

Which of the following is not reflection in a professional setting?

- Deliberate
- Theory-focused
- Object-led
- Purposeful

10

The 'critical lenses' refer to

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:

Reflection-on-action can be described as _____

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:

Which of the following is principle of Reflective Practice? Pg.8
Select correct option:

- It is problem-oriented
- It is based on action research
- It is data-driven ▪ It is research-led

4:

Which of the following is NOT one of the four steps in action research?

Select correct option:

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

5:

Re-theorising is the means by which Reflective Practitioners _____.

Select correct option:

- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

6:

Critical thinking is _____.

Select correct option:

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:

What are three levels of reflection?

Select correct option:

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8

What is question/ analysis in the reflective cycle?

Select correct option:

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:

Interpretation is the skills of _____.

Select correct option:

- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2

Critical Reflection involves which of the following?
Select correct option:

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating ▪ Conceptualising and describing

2:

Which of the following is NOT one of the four steps in action research?
Select correct option:

Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3

What is part of the analytical process for the practitioner?

Select correct option:

- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4

Why reflective practice is so important?

Select correct option:

- Research highlights the importance of reflective practice for changing personal values biases

- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner ▪ Research shows that reflective practitioners are more profession

5

The most significant part of the model is _____.

Select correct option:

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6

What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7

When we think habitually, we _____.

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8

Double loop learning involves _____.

Select correct option:

- Changing personal assumptions (thinking deferentially
- Changing personal approaches changing rule pg.51
- Both 'a' and 'b'
- None of the above

9

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

**Quiz no 1**

7. Is not reflection in a professional setting? Object-led
8. Best practice approach teachers must . Be committed to professional dialogue with other teachers
9. Critical reflection facilitates_____ learning. Fosters transformational learning
10. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
11. True about teacher's professional knowledge and understanding?
12. What is reflection practice? Process of action to improve the professional role 7. describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? **Aims to understand complexity**

**9.**reflection is a form of ……**Mental**…….processing that we use to fulfill purpose or achieved anticipated outcom**e.**

**10.**

1.What is the name of Competences that Characterize the Critical Thinker? Clarification

8. The reflective practitioner relies on_____.Synergistic thinking

9. Which of the following NOT involves internal commitment to discovery_____.Knowing what you have learned or what you want to learn from practice and experience needs some planning

10. What is the benefit of Benefits of concept-based teaching and learning_____

.A teacher who questions, investigates, explores and discovers

11. Epistemic stances_____.Traditional knowing

12. _____ is a process by which the reflective practitioner learns how to organize information in logical mental structures. Conceptual learning

13. Absolute knowing' is a process of _____.Learning from others

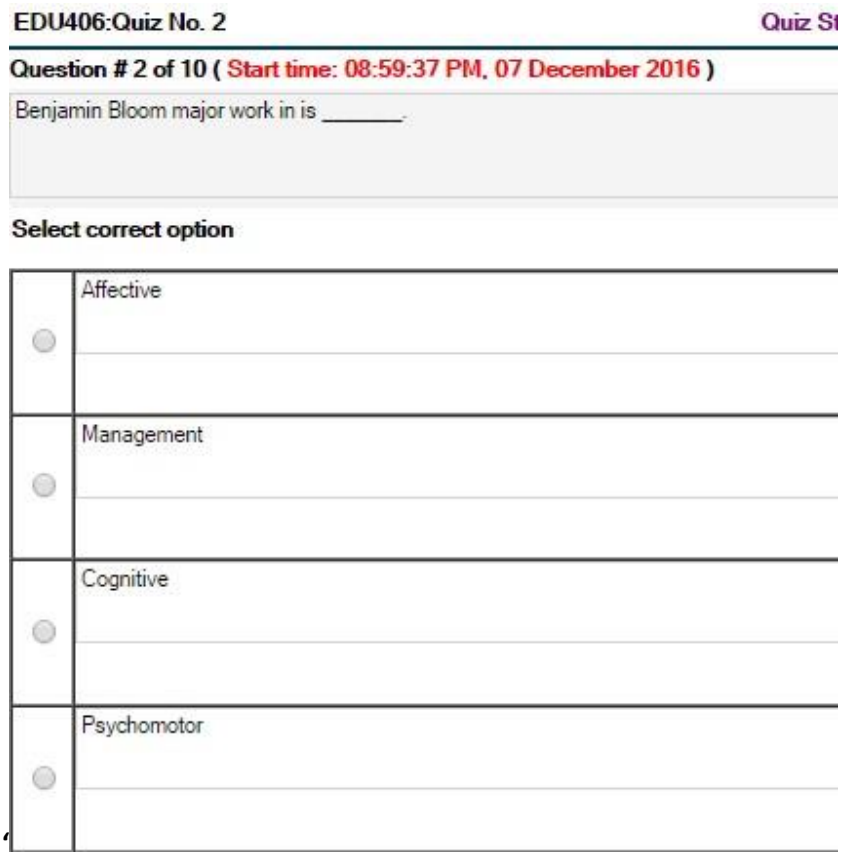

8.Identifying opportunities for you to discuss, reinforce and develop your practice is about inductive action planning_____ _.Inductive action plan

11. How many types of frames are_____.2

12. Reflecting on interpreting of both the learner's experience and the phenomena being experienced so as to move beyond the partiality of previous understanding is_____.Hermeneutic Phenomenological analysis

Within a critical thinking framework, reasoning is conducted from…… a logicalframe work.

One part of learning from reflection relies teachers being open minded.These characteristics includer all but……

**Question # 7 of 10 ( Start time: 09:05:46 PM, 07 December 2016 )**

The Reflective Practitioner is concerned with _____.

**Select correct option**

| | |
|---|---|
| ○ | Using a wider range of experiences and research to underpin the approach to teaching |
| ○ | Using a wider range of pedagogies as a means to realize excellence in teaching |
| ○ | Both 'a' and 'b' |
| ○ | None of the above |

EDU406:Quiz No. 2 Quiz S

Question # 1 of 10 ( Start time: 08:58:15 PM, 07 December 2016 )

Critically reflective teaching is _____.

Select correct option

- Responsible for highly effective pedagogies
- Responsive and adaptable to meet learners' needs
- A social process involving family and community
- All of the above

Self-regulation is _____. EDU406

Creative Thinking is not critical thinking because _____. EDU406

Does critical Reflection involve which of the following? EDU406

Kolb's reflective cycle _____. edu406

Within a critical thinking framework, 'reasoning' is conducted from _____. EDU406

What factor makes reflection seem time-consuming? EDU406

According to Moon, what are the key aspects of reflective practice? EDU406

What is the impact of reflective practices on the teacher? edu406

*B.ed (1.5) VU Semester 1*

**EDU406**
**GRAND QUIZ FILE**
**DEVELOPED WITH THE HELP OF**
**GROUP: B.ed (1.5) VU SEMESTER 1**

1. **One part of learning from reflection relies on teachers being open-minded. These characteristics include all but……**
a) Accepting consequences of their decisions
b) Viewing situations from multiple perspectives
c) Searching for alternatives explanations for classroom events
**d) Using evidence to support or evaluate a decision or position**

**2. What is hyper-reflexivity?**
a) Reflecting on the components parts of changing practice
**b) Deconstructing applications of knowledge in the classroom**
c) Deconstructing meaning acquired from experiences in the classroom
d) Acquiring meaning from experiences in the classroom

**3. Kolb's reflective cycl ……**
**a) Emphasises the role experience plays in learning**
**b) Illustrates the developmental nature of reflection**
**c) Both 'a' and 'b'**
**d) None of the above**

**4. Which of the following is not a reason for reflective practice?**
**a) Reflective practice helps students learn**
**b) It encourages us to understand our learners and their needs**
**c) It is a professional requirement**
**d) Reflective practitioner models reflective learning**

**5. To operationalize a best practice approach teachers must**
**a) Be committed to professional dialogue with other teachers**
**b) Be open-minded and committed to professionalism**
**c) See practice as a process of analysis**
**d) Be focused on technical proficiency**

**6. Rapid reflection is all but …..**
**a) Contemplative**
**b) Immediate**
**c) On-going**
**d) automatic**

**7. Processes in participatory reflection include all of the following except**
**a) Careful description**
**b) Thoughtful listening**
**c) Extending thinking**
**d) None of the above**

**8. A critical friend can be defined as ……**
**a) Someone who assume a directive role**
**b) A trusted person who asks provocative questions, provides data to be examined through another lens, and others critiques of a person's work as a friend**
**c) A colleague who provides solutions to problems**
**d) Judges actions and behaviors as part of feedback**

**9. Bloom's model which guides the lowest level of reflection might use all the following except ….**
**a) Was my explanation clear enough for the students?**

**b) Was the lesson complete on time?**
**c) Did I give enough time for individual activity?**
**d) What instructional strategies were used?**

**10: Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- Teachers need to develop reflection and evaluation to support them their own and other practice

**11:** According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- Is a way for teaches to understand their problems
- **None of the above**

**12: Which of the following is NOT a 'best' practice?**

a) Educates the whole child
**b) Follows the text closely to ensure coverage of the curriculum**
c) Students' active participation in learning
d) Challenging environments

**13: What does evidence suggest as being most important for a long-term commitment to Reflective Practice?**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- **Guidance and structure are key factors for Reflective Practitioners**
- When the Reflective Practitioner knows what is best for children Challenging environments

**14: Which of the following is considered the least effective form of teacher development?**

- **Certificated Courses**
- Workshops
- n-school mentoring
- Communities of Practice

**15: Knowing-in-action is described by Schon as _____.**

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- **When we go about the spontaneous, intuitive performance of the actions of everyday life**
- All of the above

**16: What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation
- interpretation
- **both 'a' and 'b'**
- None of the above

**17: Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- **It is emotive**
- it is not based on 'black-and-white' thinking

**18:in a school, a critical friend canbe all of the following except …..**

**a) A teacher**
**b) A retired principal**
**c) A new teacher who started working in the school shortly after you**
**d) A friend from another school**

**19: 'Looking out' is a combination of _____.**

- **A range of viewpoints about experiences**
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

**20: Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- **Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay**
- Teachers and other education professionals are committed to continued professional development

21. Personal attributes of critical thinkers include

a) Honesty about emotions
b) Evaluative disposition borne from open-mindedness
c) Personal awareness especially relating to personal bias
**d) All of the above**

**22. DATA refers to**

- The analysis of an event
- A cycle of learning
- The teacher describing, analysing, thinking and acting
- **The four steps analytical process necessary for guiding reflection**

**23: What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- **Process of action to improve the professional role**
- none of these

**24: What is the impact of reflective practices on the teacher**

- **It leads higher quality practice**
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

**25: Which of the following about teacher's teacher's professional knowledge and understanding is true?**

**Once reflection becomes a habit you will not need to develop your reflective skills further**

- Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- **Teachers need to develop reflection and evaluation of their practice**
- teachers need to develop reflection and evaluation to support their own and others practice

**26 What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- **It includes too many viewpoints and so becomes confusing for the individual**
- does not account for students' perspectives

**27 According to Brookfield, which is the most powerful lens for teachers?**

- **The Self Lens**
- The Student Lens
- the peers lens, the theory lens

**28 Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching
- **Warm feedback consists of supportive, appreciative statements**
- Warm feedback raises questions
- None of the above

**29 Within a critical thinking framework, 'reasoning' is conducted from …….**

a) **A logical framework**
b) **An objective perspective**
c) **Both 'a' and 'b'**
d) **None of the above**

**30: Which of the following not a component of the process involved in reflective practice**

a) **E dism**
b) **Subject knowledge**
c) **Interpersonal relationship**
d) **Personality values**

**31 Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- **Object-led**
- Purposeful

**32 The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- **The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice**
- A set of different viewpoints
- None

**33: Leaning from reflection can also be known as ….**

a) Discussion-based learning
b) Enhancement-oriented learning
c) **Professional development-based learning**
d) Inquiry-oriented learning

**34: Reflection-on-action can be described as _____**

- Thinking about what to do

- **A reconstructive mental review**
- Problem resolution
- Weighing the pros and cons of alternatives

**35: Which of the following is NOT a principle of Reflective Practice?**
**Select correct option:**

- It is problem-oriented
- It is based on action research
- **It is data-driven**
- It is research-led

**36: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

- Identifying the research problem
- **Developing a professional measurement instrument**
- Obtaining the necessary information to answer the question
- Developing a plan of action

**37: Re-theorising is the means by which Reflective Practitioners _____.**
**Select correct option:**

- Critically examine practice
- Critically examine theories
- **Critically examine practice and theories in the light of theories**
- Critically examine data and research in the light of theories

**38: Critical thinking is _____.**
**Select correct option:**

- A biological process
- A psychological and cognitive process
- A communication process
- **All of the above**

**39: What are three levels of reflection?**
**Select correct option:**

- Technical, empirical and practical
- **Technical, practical and critical**
- Rational, technical and critical
- Rational, practical and critical

**40 What is question/ analysis in the reflective cycle?**
**Select correct option:**

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- **Asking many questions**

**41: Interpretation is the skills of _____.**
**Select correct option:**

- Understanding and transmitting
- **Cognition and communication**
- Thinking and talking

- Receiving and sending information

**42 Critical Reflection involves which of the following?**
**Select correct option:**

- Analysing and c
- **Analysing and evaluating**
- Reasoning and evaluating
- Conceptualising and describing

**43 : According to Schon, reflection-in-action and reflection-on-action are the mechanisms reflective practitioners use that permit them to…….**

a) **Continually develop and learn from their experience**
b) **Meet organizational/ national standards**
c) **Both 'a' and 'b'**
d) None of the above

**44: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

a) Identifying the research problem
b) **Developing a professional measurement instrument**
c) Obtaining the necessary information to answer the equation
d) Developing a plan of action

**45: What is part of the analytical process for the practitioner?**
**Select correct option:**

- The identification of own assumptions
- The examination of the underlying values base
- **Both 'a' and 'b'**
- None of the above

**46: Why reflective practice is so important?**
**Select correct option:**

- Research highlights the importance of reflective practice for changing personal values biases
- **Research shows that reflective practice is essential for developing our understanding about teaching and learning**
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

**47: The most significant part of the model is _____.**
**Select correct option:**

- **Learning from experience**
- Learning from reflecting
- Learning from information
- Learning from knowledge

**48: What do systematic reflexivity and epistemic reflexivity focus on?**
**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- **Suppositions, theories, beliefs and assumptions**
- Praxis, values, theories and beliefs

**49: When we think habitually, we _____.**
**Select correct option:**
- Dismiss reasoning
- Have a fixed focus which distracts attention
- **Ignore data**
- None of the above

**50: Double loop learning involves _____.**
**Select correct option:**
- Changing personal assumptions
- Changing personal approaches
- **Both 'a' and 'b'**
- None of the above

**51: What factor makes reflection seem time-consuming?**
**Select correct option:**
a) Regular learning networks are very time-consuming
b) Lack of leadership for Reflective Practice
c) Regular learning networks are very time-consuming
**d) Staff is too busy**

**52: Which of the following best describes the benefits of reflective practice?**
a) It changes the balance of power
**b) It determines what counts as knowledge**
c) It provides opportunity for knowledge sharing which empowers teachers
d) It determines foundation to more egalitarian perspectives

**53: What does the idea of reflective practice dismiss?**
a) Patriarchal views
b) Teachers view
c) Greater involvement of teacher in setting the education agend
**d) Fixed perception of the nature of the learning**

**54: To operationalize a best practice approach teachers must …….**
**a) Be committed to professional dialogue with other teachers**
b) Be open-minded and committed to professionalism
c) See practice as a process of analysis
d) Be focused on technical proficiency

**55. Looking in is the part of the reflective process which**
a) Occurs before teaching
b) Occurs after teaching
**c) Occurs as a precondition for reflection**
d) Occurs as a response to experience

**56: Which of the following Best describes a 'regular learning network'?**

a) A learning “hub” which challenge practice and policy
b) A leaning hub of reflective practice
c) A hub for sustained improvement in the lives of teachers
**d) A placed for teachers to come together and discuss matters of concern**

57: According to Moon. What are the key aspects of reflective practice?

a) Reflection is a form of mental processing
b) Relies of a cognitive re-processing of experience
c) Aims to understand complexity and confusion in experience
**d) All of the above**

58: The Reflective Practitioner must _____.

- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- **Both ‘a’ and ‘b’**
- None of the above

59: Reflection is NOT _____.

- **A simple ‘tick box’ activity**
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

60 :Deductive learning is _____.

- **From general to specific**
- Rule base
- From unknown to known
-
- All the above

61: The Reflective Practitioner has adapted _____.

- Ways of knowing
- Patterns of reasoning
- **Both ‘a’ and ‘b’**
- None of the above

62: Reflective writing focuses _____.

- On all aspects of an experience
- Critical incidences
- **Specific details within an experience**
- Ideas, concepts and opinions

63:The Reflective Practitioner is concerned with _____.

- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- **Both ‘a’ and ‘b’**
- None of the above

64:Working inductively means to _____ .

- **Identify a goal and explore strategies to achieve it**
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

65: By having an open-minded attitude, the Reflective Practitioner is _____.

- More reflective
- **Adaptable to changing conditions**
- Able to review experiences critically
- Is open to many new ideas

66: Reflection can be negatively influenced by _____.
- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- **Both 'a' and 'b'**

67: The Professional Development Journal is _____.
- A personal diary
- An on-going discourse
- **A subjective dialogue**
- A list of critical incidents

68: We understand frames through the use of _____.
- Metaphors providing explain them
- Metaphors to clarify them
- **Metaphors to communicate logic**
- None of the above

69: The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- **Both 'a' and 'b'**
- None of the above

70: The study of parts of the community fall in _____.
- Evaluation
- Synthesis
- Analysis
- **Knowledge**

71: Concept-based learning means the Reflective Practitioner _____ .
- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- **Works with deeper levels of conceptual understanding**

72: Being committed to the profession means _____.
- **Being responsible for continuing professional development**
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

73: Concepts determine _____.
- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- **The frames for perception**
- The ways a Reflective Practitioner explains experience

74: A Reflective Practitioner is able to _____.

- **Question assumptions and values**
- Think 'outside the box'
- Question other people's assumptions
- All of the above

76:We develop theories-in-use as Reflective Practitioners to _____.

- **Understand theories as we apply them**

- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

77: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- **Both 'a' and 'b'**
- None of the above

78: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- **Both 'a' and 'b'**
- None of the above

79: An effective action plan is _____.

- Developmental
- Precise
- Shared
- **All of the above**

80: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- **All of the above**

81: A reflective action plan provides the Reflective Practitioner with _____.

- **Targets, planning, evaluation**
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

82: Reflective writing _____.

- Is personal
- **Links theory to practice** **not sure**
- Questions experience

**83: Benjamin Bloom major work in is….**

**a) Affective**
**b) Management**
**c) Cognitive**
**d) Psychomotor**

**84: We can make theory-in-use visible by….**

a) **Construction someone's theory-in-use from observations of behavior**
b) **Clues for discovering the theory-in-use**
c) **Developing ideas**
d) **Exploring concepts**

**85: A 'problem statement' ……..**

a) **Is not too specific**
b) **Find solutions to problems**
c) **Does not find solutions to problems**
d) **Is not too general**

**86: Professional knowledge relates to ……**

a) **Subject knowledge**
b) **Communication skills**
c) **Social interaction**
d) **All of the above**

**87: The benefits of concept-based learning …….**

a) **Depend on the experience of the reflective practitioner**
b) **Depend on the intellectual level of thinking of the reflective practitioner**
c) **Depend on the emotional engagement of the reflective practitioner**
d) **Depend on the psychological engagement of the reflective practitioner**

**88: The reflective practitioner uses 3-dimensional instruction to …….**

a) **Develop skills for concept-based teaching**
b) **Develop understanding of connection between topics/subject**
c) **Build use multiple intelligence in their teaching**
d) **all of the above**

**89: critically reflective teaching is ……**

a) **responsible for highly effective pedagogies**
b) **responsive and adaptable to meet learners' needs**
c) **a social process involving family and community**
d) **all of the above**

# Quiz

**Question 1: Which of the following about teacher's professional knowledge and understanding is true?**

- Once reflection becomes a habit you will not need to develop your reflective skills further
- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

**Question No.2:** According to Stephen Brook, reflective practice is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

**Question 3: Which of the following is NOT a 'best' practice? Pg.19**

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

**Question No.4: What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294**

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children Challenging environments

**Question 5: Which of the following is considered the least effective form of teacher development?**

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

**Question 6: Knowing-in-action is described by Schon as _____.**

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

**Question 7: What are the major mechanisms involved in critical thinking for the reflective practitioner?**

- Self-regulation
- interpretation
- both 'a' and 'b'
- None of the above

**question 8: Creative Thinking is not critical thinking because**

- It is not logical
- It is not problem-centred
- It is emotive

- it is not based on 'black-and-white' thinking

**Question 9: 'Looking out' is a combination of _____.**

- A range of viewpoints about experiences
- Looking around' and 'looking back'
- Perspectives which direct the focus of attention
- None of the above

**Question 10: Which of the following assumptions does NOT underlie action research?**

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

**DATA refers to pg.40**

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

**3: What is reflective practice?**

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

**4: What is the impact of reflective practices on the teacher**

- It leads higher quality practice
- It changes teacher's values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

**5: Which of the following about teacher's teacher's professional knowledge and understanding is true?**

**Once reflection becomes a habit you will not need to develop your reflective skills further**

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

**6 What does 'a lack of conceptual clarity' mean?**

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students' perspectives

**7 According to Brookfield, which is the most powerful lens for teachers?**

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

**8 Which of the following is an example of 'warm' feedback?**

- Warm feedback extends thinking and raises concerns about teaching

- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

**9 Which of the following is not reflection in a professional setting?**

- Deliberate
- Theory-focused
- Object-led
- Purposeful

**10 The 'critical lenses' refer to**

- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

**2: Reflection-on-action can be described as _____**

- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

**3: Which of the following is NOT a principle of Reflective Practice? Pg.8**
**Select correct option:**

- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

**4: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**

- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

**5: Re-theorising is the means by which Reflective Practitioners _____.**
**Select correct option:**

- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

**6: Critical thinking is _____.**
**Select correct option:**

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

**7: What are three levels of reflection?**

**Select correct option:**

- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

**8 What is question/ analysis in the reflective cycle?**
**Select correct option:**

- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

**1: Interpretation is the skills of _____.**
**Select correct option:**

- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

**2 Critical Reflection involves which of the following?**
**Select correct option:**

- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualising and describing

**2: Which of the following is NOT one of the four steps in action research?**
**Select correct option:**
Action Research is…Process, Collaboration, Improvement, Practice, Communication
pg.250

**3 What is part of the analytical process for the practitioner?**
**Select correct option:**

- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

**4 Why reflective practice is so important?**
**Select correct option:**

- Research highlights the importance of reflective practice for changing personal values biases
- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

**5 The most significant part of the model is _____.**
**Select correct option:**

- Learning from experience

- Learning from reflecting
- Learning from information
- Learning from knowledge

**6**
**What do systematic reflexivity and epistemic reflexivity focus on?**
**Select correct option:**

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

**7**
**When we think habitually, we _____.**
**Select correct option:**

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

**8**
**Double loop learning involves _____.**
**Select correct option:**

- Changing personal assumptions
- Changing personal approaches pg.51
- Both 'a' and 'b'
- None of the above

**9**
**What factor makes reflection seem time-consuming?**
**Select correct option:**

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher's professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7. Best describes a regular learning network. A learning "hub" which challenge practice and policy
8. According to Moon. What are the key aspects of reflective practice? Reflection is a form of mental processing

**Question # 8 of 10 ( Start time: 07:16:19 PM, 23 Novemb**

Reflective writing focuses _____.

**Select correct option**

- ○ On all aspects of an experience
- ○ Critical incidences
- ○ Specific details within an experience
- ✓ Ideas, concepts and opinions

**EDU406:Quiz 1**

**Question # 9 of 10 ( Start time: 07:17:37 PM, 23 November 2016 )**

Within a critical thinking framework, 'reasoning' is conducted from _____ .

**Select correct option**

- ✓ A logical framework
- ○ An objective perspective
- ○ Both 'a' and 'b'
- ○ None of the above

# EDU406 Quiz#2

3 The Reflective Practitioner must _____.
- Manage workloads as part of their role in planning and leading the profession
- Ensure a suitable work-life balance
- Both ‘a’ and ‘b’
- None of the above

4 Reflection is NOT _____.
- A simple ‘tick box’ activity
- A routine activity for a teacher
- Both ‘a’ and ‘b’
- None of the above

6: Deductive learning is _____.
- From general to specific
- Rule base
- From unknown to known
- All the above

7 The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

8 Reflective writing focuses _____.
- On all aspects of an experience
- Critical incidences
- Specific details within an experience
- Ideas, concepts and opinions

9: The Reflective Practitioner is concerned with _____.
- Using a wider range of experiences and research to underpin the approach to teaching
- Using a wider range of pedagogies as a means to realize excellence in teaching
- Both ‘a’ and ‘b’
- None of the above

10: Working inductively means to _____ .
- Identify a goal and explore strategies to achieve it
- Plan a programme of discussion and observation to improve
- Reflect in an exploratory and trial-and-error fashion
- None of the above

1: By having an open-minded attitude, the Reflective Practitioner is _____.
- More reflective
- Adaptable to changing conditions
- Able to review experiences critically
- Is open to many new ideas

3: Reflection can be negatively influenced by _____.
- A lack of objectivity
- The Reflective Practitioner ignoring the truth
- None of the above
- Both ‘a’ and ‘b’

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.
- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- Both 'a' and 'b'
- None of the above

7: The study of parts of the community fall in _____.
- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .
- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

10: Concepts determine _____.
- How a Reflective Practitioner's perceptions are explained
- How a Reflective Practitioner's beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think 'outside the box'
- Question other people's assumptions
- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings

- Is short and precise
- Both ‘a’ and ‘b’
- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both ‘a’ and ‘b’
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.
A product for a teacher might include. All of above
A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation
Using a reflective action plan is valuable. To set targeted action points
The Professional development Journal supports the RP to. Reflect on experiences
Inductive learning is. None of the above

**Question # 8 of 10 ( Start time: 09:06:47 PM, 07 December 2016 )**

The Reflective Practitioner uses 3-Dimensional instruction to _____.

**Select correct option**

- Develop skills for concept-based teaching
- Develop understanding of connection between topics/ subjects
- Build use multiple intelligences in their teaching
- All of the above

One circle in the Venn Diagram represents which kind of experience? Concrete

How many phases have John Model for Structured Reflection (2000)? Two

Which category best describes the concerns related to confidentiality, rights to privacy, informed consent? Ethical

Reflecting on _____is very significant for the reflective practitioner because it informs the decisions that you make in the classroom. Values

Concepts bases teaching and learning required _____ to relate facts with concepts. Deeper intellectual

The Jo-Hari Window is a communication model used to improve understanding _____ For individual and between individual

Which of these relationships are important for professional growth? Collaborative

Reflective practice is about learning from acquired experience.

Which one of the following elements are considered in technical rationality?

Conceptual leaning is not about _____. Working harder

The teacher making appropriate correct judgments about their role and responsibilities within the school is called _____ competence. Ethical

Which of these term best describe the emancipator phase Critique of practice regarding conflicts distortion

Conceptual learning is a process to organize and apply knowledge in a logical way

Kinaesthetic refers to _____ Learning through interaction with one's environment

Inductive learning is the process of learning and reasoning from detailed facts to general principles.

The reflective writing gets very skewed and not realistic when we look objectively at _____ experiences. All

Occupation specific tasks are included in _____competence. Functional

Formulation of a detailed problem statement at an early stage can Prevent the process of learning from experiences.

Trying to understand the ideas behind the fact NOT just looking at the facts is known as: Analysis

We are involved in non-critical thinking process when we _____. Rely on reason rather than emotion

A self-imposed barrier to reflective practice is _____. Negative Ideas

Complete change in perspective is referred to _____. Paradigm shift

Looking back at things which has happened to us in the classroom is known as _____ writing. Reflective

Open area in Johari window will expand _____ with feedback from others in your team. Horizontally

New concepts emerge with the making of new _____. Questions

Which one of the following, thinking about historical/political perspectives on the problems are being encountered? Critical reflection

One code kind of learning is called _____ learning. Single-loop

which of the following helps teachers to generate new knowledge and ideas in reflective practice? Evaluating the existing practice

The final part of reflection include reflecting forward and _____. Reflecting backwards

_____ process allows colleagues and others to share ideas and issues. Participatory

A reflective practice must demonstrate a commitment to a personal code of values. It includes: All

----------is the process of consciously thinking through what is happening and this helps us again an understanding and to make meaning from what is going on in our lives. Reflection

How many attributes are there for a teacher to become a critical thinker? 9

The fact that different people with different experience are likely to approach problems in different ways depends on: Reframing matrix

Which beliefs are behind to make the causal relation of frames? Assumptions

What are three attitudes required in the process of reflective thinking? Open-mindedness, whole-heartedness and responsibilit

Test ideas- Try out new practices or with settings that work in contrasting ways.

Synergistic thinking is essential for _____ development. Intellectual

What is the most significant barrier to reflective practice? Lack of Knowledge

In the reflective process, there must be a room for _____. Failure

Which of the following is the most important question a reflective practitioner can ask in the final step of Hegarty's framework for reflection? What did you learn?

According to Mezirow, loss of job, divorce, marriage , back to school or moving to a new culture; all called as _____. Disorienting dilemma

Planning and leading is the part of professional _____. Skill and Application

Which category best describes the concerns related to confidentiality, rights to privacy, informed consent? Ethical

Framework for Reflection on action has all phases EXCEPT _____. Critical

The process of concept formation has _____ significant phases: Three

The ultimate goal of the Johari Window is to enlarge the open area.

The most complex part of reflective writing is _____. Interpretation

At non-reflective action level, a reflective practitioner Explores new approaches to think differently

EDU406 Q#2

1. The Reflective Practitioner must _____.
   - Manage workloads as part of their role in planning and leading the profession
   - Ensure a suitable work-life balance
   - Both ‘a’ and ‘b’
   - None of the above
2. Reflection is NOT _____.
   - A simple ‘tick box’ activity
   - A routine activity for a teacher
   - Both ‘a’ and ‘b’
   - None of the above
3. Deductive learning is _____.
   - From general to specific
   - Rule base
   - From unknown to known
   - All the above
5. The Reflective Practitioner has adapted _____.
   - Ways of knowing
   - Patterns of reasoning
   - Both ‘a’ and ‘b’
   - None of the above

6.Reflective writing focuses _____.
   - On all aspects of an experience
   - Critical incidences
   - Specific details within an experience
   - Ideas, concepts and opinions

7. The Reflective Practitioner is concerned with _____.
   - Using a wider range of experiences and research to underpin the approach to teaching
   - Using a wider range of pedagogies as a means to realize excellence in teaching
   - Both ‘a’ and ‘b’
   - None of the above

8: Working inductively means to _____ .
   - Identify a goal and explore strategies to achieve it
   - Plan a programme of discussion and observation to improve
   - Reflect in an exploratory and trial-and-error fashion
   - None of the above

9: By having an open-minded attitude, the Reflective Practitioner is _____.
   - More reflective
   - Adaptable to changing conditions
   - Able to review experiences critically
   - Is open to many new ideas

3: Reflection can be negatively influenced by _____.
   - A lack of objectivity
   - The Reflective Practitioner ignoring the truth
   - None of the above
   - Both ‘a’ and ‘b’

4: The Professional Development Journal is _____.

- A personal diary
- An on-going discourse
- A subjective dialogue
- A list of critical incidents

5: We understand frames through the use of _____.
- Metaphors providing explain them
- Metaphors to clarify them
- Metaphors to communicate logic
- None of the above

6 The Reflective Practitioner has adapted _____.
- Ways of knowing
- Patterns of reasoning
- Both ‘a’ and ‘b’
- None of the above

7: The study of parts of the community fall in _____.
- Evaluation
- Synthesis
- Analysis
- Knowledge

8: Concept-based learning means the Reflective Practitioner _____ .
- Transfers learning to new concepts easily
- Makes meaning and process information more deeply
- Has a more thorough working knowledge of theories-in-use
- Works with deeper levels of conceptual understanding

9: Being committed to the profession means _____.
- Being responsible for continuing professional development
- Being responsible for managing change
- Being responsible for changing policy and practice
- None of the above

10: Concepts determine _____.
- How a Reflective Practitioner’s perceptions are explained
- How a Reflective Practitioner’s beliefs are explained
- The frames for perception
- The ways a Reflective Practitioner explains experience

1: A Reflective Practitioner is able to _____.

- Question assumptions and values
- Think ‘outside the box’
- Question other people’s assumptions
- All of the above

2: We develop theories-in-use as Reflective Practitioners to _____.

- Understand theories as we apply them
- Predict what will happen when we apply theory to practice
- Explain situations
- Generate schemas for translating theory into practice

4: Effective writing in a Professional Development Journal _____.

- May include diagrams and drawings
- Is short and precise
- Both ‘a’ and ‘b’

- None of the above

5: Exploring practice using inductive action planning requires _____.

- Clearly defined and expressed success criteria
- Clearly identified evidence sources
- Both ‘a’ and ‘b’
- None of the above

6: An effective action plan is _____.

- Developmental
- Precise
- Shared
- All of the above

7: Professional knowledge relates to _____.

- Subject knowledge
- Communication skills
- Social interaction
- All of the above

8: A reflective action plan provides the Reflective Practitioner with _____.

- Targets, planning, evaluation
- Specific target-setting, identification of actions, evaluation of success
- Specific targets, activities, success criteria
- None of the above

9: Reflective writing _____.

- Is personal
- Links theory to practice
- Questions experience

Our assumption can be Perceptual.
A product for a teacher might include. All of above
A paradigm shift is. Brings a new set of concepts
Reframing for new learning is. Focused on inventing new strategies
Concept formation involves. Perception, abstraction, generalization
The highest level of Bloom taxonomy is. Evaluation
Using a reflective action plan is valuable. To set targeted action points
The Professional development Journal supports the RP to. Reflect on experiences
Inductive learning is. None of the above

Question 1:
Which of the following about teacher's professional knowledge and understanding is true?

- Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice

Question No.2:
According to Stephen Brook, reflective is?

- Locates teaching within the context of the school agenda
- Empowers the teacher to appreciate the bigger picture surrounding teaching
- a way for teaches to understand their problems
- None of the above

Question 3:
Which of the following is NOT a 'best' ? Pg.19

- Educates the whole child
- Follows the text closely to ensure coverage of the curriculum
- Students' active participation in learning

Question No.4:
What does evidence suggest as being most important for a long-term commitment to Reflective Practice? Pg294

- Reflection is more effective when conducted collaboratively
- Collaborating with colleagues encourages the Reflective Practitioner to focus on what values inform his/her teaching
- Guidance and structure are key factors for Reflective Practitioners
- When the Reflective Practitioner knows what is best for children

Challenging environments
Question 5:
Which of the following is considered the least effective form of teacher development?

- Certificated Courses
- Workshops
- n-school mentoring
- Communities of Practice

Question 6:
Knowing-in-action is described by Schon as _____.

- Our knowing is ordinarily implicit in our patterns of action
- When we cannot say what we know
- When we go about the spontaneous, intuitive performance of the actions of everyday life
- All of the above

Question 7:
What are the major mechanisms involved in critical thinking for the reflective practitioner?

- Self-regulation
- interpretation
- both 'a' and 'b'
- None of the above

question 8:
Creative Thinking is not critical thinking because

- It is not logical
- It is not problem-centred
- It is emotive
- it is not based on 'black-and-white' thinking

Question 9:

‘Looking out’ is a combination of _____.

- A range of viewpoints about experiences
- Looking around’ and ‘looking back’
- Perspectives which direct the focus of attention
- None of the above

Question 10:
Which of the following assumptions does NOT underlie action research?

- Teachers and other education professionals have authority to make decisions
- Teacher and other education professionals want to improve their practice
- Teachers and other education professionals can and will engage in systematic research only if they are given adequate time and additional pay
- Teachers and other education professionals are committed to continued professional development

DATA refers to  pg.40

- The analysis of an event
- The teacher describing, analysing, thinking and acting
- The four steps analytical process necessary for guiding reflection

3:
What is reflective practice?

- A process to evaluate teaching
- Process leading to activity in response to any aspects of the professional role
- Process of action to improve the professional role
- none of these

4:
What is the impact of reflective practices on the teacher

- It leads higher quality practice
- It changes teacher’s values and beliefs
- It leads to greater independence for the teacher
- It sustains inclusive environments

5:
Which of the following about teacher's teacher’s professional knowledge and understanding is true?
Once reflection becomes a habit you will not need to develop your reflective skills further

- Everyone always learns from experience
- Teachers need to develop reflection and evaluation of their practice
- teachers need to develop reflection and evaluation to support their own and others practice

6
What does ‘a lack of conceptual clarity’ mean?

- The educational community has different interpretations of reflection
- It confuses perceptions about what happens in the classroom
- It includes too many viewpoints and so becomes confusing for the individual
- does not account for students’ perspectives

7
According to Brookfield, which is the most powerful lens for teachers?

- The Self Lens
- The Student Lens
- the peers lens, the theory lens

8
Which of the following is an example of ‘warm’ feedback?

- Warm feedback extends thinking and raises concerns about teaching
- Warm feedback consists of supportive, appreciative statements
- Warm feedback raises questions
- none

9
Which of the following is not reflection in a professional setting?
- Deliberate
- Theory-focused
- Object-led
- Purposeful

10
The 'critical lenses' refer to
- The perspectives that a teacher uses to generate different viewpoints
- The focus given to the Reflective Practitioner by taking the different viewpoints necessary to reflect on practice
- A set of different viewpoints
- None

2:
Reflection-on-action can be described as _____
- Thinking about what to do
- A reconstructive mental review
- Problem resolution
- Weighing the pros and cons of alternatives

3:
Which of the following is  principle of Reflective Practice? Pg.8
Select correct option:
- It is problem-oriented
- It is based on action research
- It is data-driven
- It is research-led

4:
Which of the following is NOT one of the four steps in action research?
Select correct option:
- Identifying the research problem
- Developing a professional measurement instrument
- Obtaining the necessary information to answer the question
- Developing a plan of action

5:
Re-theorising is the means by which Reflective Practitioners _____.
Select correct option:
- Critically examine practice
- Critically examine theories
- Critically examine practice and theories in the light of theories
- Critically examine data and research in the light of theories

6:
Critical thinking is _____.
Select correct option:

- A biological process
- A psychologicaland cognitive process
- A communication process
- All of the above

7:
What are three levels of reflection?
Select correct option:
- Technical, empirical and practical
- Technical, practical and critical
- Rational, technical and critical
- Rational, practical and critical

8
What is question/ analysis in the reflective cycle?
Select correct option:
- Taking on the role of researcher
- Using quantitative data to make decisions
- Describing a situation
- Asking many questions

1:
Interpretation is the skills of _____.
Select correct option:
- Understanding and transmitting
- Cognition and communication
- Thinking and talking
- Receiving and sending information

2
Critical Reflection involves which of the following?
Select correct option:
- Analysing and c
- Analysing and evaluating
- Reasoning and evaluating
- Conceptualising and describing

2:
Which of the following is NOT one of the four steps in action research?
Select correct option:
Action Research is…Process, Collaboration, Improvement, Practice, Communication pg.250

3
What is part of the analytical process for the practitioner?
Select correct option:
- The identification of own assumptions
- The examination of the underlying values base
- Both ‘a’ and ‘b’
- None of the above

4
Why reflective practice is so important?
Select correct option:
- Research highlights the importance of reflective practice for changing personal values biases

- Research shows that reflective practice is essential for developing our understanding about teaching and learning
- Research shows that students grades increase when they are taught by a reflective practitioner
- Research shows that reflective practitioners are more profession

5

The most significant part of the model is _____.

Select correct option:

- Learning from experience
- Learning from reflecting
- Learning from information
- Learning from knowledge

6

What do systematic reflexivity and epistemic reflexivity focus on?

Select correct option:

- Beliefs, values and assumptions
- Methods and theories
- Suppositions, theories, beliefs and assumptions
- Praxis, values, theories and beliefs

7

When we think habitually, we _____.

Select correct option:

- Dismiss reasoning
- Have a fixed focus which distracts attention
- Ignore data
- None of the above

8

Double loop learning involves _____.

Select correct option:

- Changing personal assumptions (thinking deferentially
- Changing personal approaches changing rule pg.51
- Both ‘a’ and ‘b’
- None of the above

9

What factor makes reflection seem time-consuming?

Select correct option:

- Regular learning networks are very time-consuming
- Lack of leadership for Reflective Practice
- Regular learning networks are very time-consuming
- Staff is too busy

**Quiz no 1**

1. Is not reflection in a professional setting? Object-led
2. Best practice approach teachers must . Be committed to professional dialogue with other teachers
3. Critical reflection facilitates_____ learning. Fosters transformational learning
4. Why reflective practice is so important? Research shows that reflective practice is essential for developing our understanding about teaching and learning.
5. True about teacher’s professional knowledge and understanding?
6. What is reflection practice? Process of action to improve the professional role
7.

describes a regular learning network. A learning "hub" which challenge practice and policy

8. According to Moon. What are the key aspects of reflective practice? **Aims to understand complexity**

**9.**reflection is a form of ……**Mental**……..processing that we use to fulfill purpose or achieved anticipated outcom**e.**

**10.**

1.What is the name of Competences that Characterize the Critical Thinker? Clarification

2. The reflective practitioner relies on_____.Synergistic thinking

3. Which of the following NOT involves internal commitment to discovery_____.Knowing what you have learned or what you want to learn from practice and experience needs some planning

4. What is the benefit of Benefits of concept-based teaching and learning_____

.A teacher who questions, investigates, explores and discovers

5. Epistemic stances_____.Traditional knowing

6. _____ is a process by which the reflective practitioner learns how to organize information in logical mental structures. Conceptual learning

7. Absolute knowing' is a process of _____.Learning from others

8.Identifying opportunities for you to discuss, reinforce and develop your practice is about inductive action planning_____ _.Inductive action plan

9. How many types of frames are_____.2

10. Reflecting on interpreting of both the learner's experience and the phenomena being experienced so as to move beyond the partiality of previous understanding is_____.Hermeneutic Phenomenological analysis

Within a critical thinking framework, reasoning is conducted from…… a logicalframe work.

One part of learning from reflection relies teachers being open minded.These characteristics includer all but**…….**

**406 BY SHOUKAT AAJIZ ON 26 MAY 2021**

Bloom's taxonomy of learning has _____ stages.

6

Mindfulness helps to have _____.

Awareness

Which one of the following proposed basic model on which dialogic reflection is based?

Brockbank & McGill (2000)

“Which step is based on judgments and on teacher’s opinion about things”.

Evaluation

What is to be gained from reflective practice?

Best practice

Processes in participatory reflection include all of the following EXCEPT _____.

Extending thinking

Reflexivity is a concept which is easily:

Communicated

It is very much about thinking back after the classroom teaching has happened.

Reflecting on practice

Which one of the following aspects of individuals are involved in dialogic reflection?

According to Donald Schon, action research is a relationship between _____and change action.

Understanding

Which of the following assumptions does NOT underlie action research?

Who proposed a framework based on different kinds of critical thinking?

Maziro

Which one of the following is the name of the Schon's book (1983)?

The Reflective Practitioner

"Am I using the right strategies for teaching?" is an example of:

Academic reflection

Thinking is based on _____.

Assumptions

In Steven Brook field's model, self-lens referred to as:

According to Boud's model reflective practice is based on the --------

Observation

Open-mindedness, flexibility, truth-seeking, confidence are describing which of these terms?

Dispositions

According to the stage theory the one who is just starting is called which type of thinker?

Unreflective

What are the four components of Kolb's Reflective Cycle?

Abstract experience, reflective observation, abstract conceptualization and active experimentation

Bloom's model which guides the lowest level of reflection might use all the following except _____.

Was the lesson complete on time?

What  is reflective practice?

Process to evaluate teaching

A common strand of reflecting-in-action and reflecting-on-practice is _____.

Examie our work

According to Sandwell, which one of the following is the result of giving too much emphasis on individual?

How many levels are in Bloom's taxonomy relation?

6

Taking the critical thinker another step further closer to the goal of higher order thinking is referred to _____.

Analysis

Which of the following is NOT one of the four steps in action research?

Developing a professional measurement instrument

Inference is defined as the ability to:

How many types of reflection for teachers have been proposed by Hatton and Smith (1995)?

THREE

Self-awareness is the part of

The move towards seeing teachers as reflective practitioners is a rejection of _____view of teaching learning.

Top-down

Which one of the following reflection requires models or framework which provide a specific and structured approach?

Formal

Which one of the following repertoire of teaching is developed through reflection in the classroom?

Strategies

Experimentation is the _____ phase of Rodgers model.

Experimentation

Which one of these element encounter with the elements of step 3 in the model of Critical Thinking?

Practice before you assess

The second step in 5-step model of critical thinking is _____.

Develop appropriate questions

Which one of the following does not acknowledge the problematic nature of language and discourse within practice environment?

Schon

Monitoring and Evaluation of thinking is called as _____.

Metacognition

Critical thinking is a _____ process.

Cognitive

In which phase of Rodgers model (2002) the teacher can move backwards?

Presence in experience

A useful strategy for developing teacher identity through reflective practice is the Socratic Method. Socrates developed this approach to questioning reality based on thorough understanding of skills for questioning and cross examining evidence in o arrive at the truth of a situation and a reflective practitioner can use this approach to the reflective approach. It is a process of developing thinking skills and the ability t reason deeply and thoroughly. The focus is on giving students questions, not answe is an effective thinking tool and help promote an inquiring, probing mind by continu probing into the subject with questions. Fortunately, the abilities we gain by focusin the elements of reasoning in a disciplined and self-assessing way, and the logical relationships that result from such disciplined thought, prepare us for Socratic questioning.

The six steps in Socratic Questioning are:

- Which topic to choose to question
- What examples can we find to help us explore the experience?
- Which example suits the topic best?
- Can you explain the examples in detail? (Can be in verbal or written form)
- Examining the underlying principles
- How to make broad understanding from a specific question? This is also known as regressive abstraction.

It is useful for the reflective practitioner to see that the Socratic Method continuous relies on questioning and answering back and forth and through question and answe the reflective practitioner will begin to understand and interpret situations and

Do remember, a teacher is going to integrate the lessons with child's interest. It is not a subject specified integration but it is integration of teaching content with child's interest.

## Form 3 – Networked integration:

- **The network methodology is totally student-centered. It professes that only the learner can direct the integration process. The methodology professes that the learner knows their topic and can self-direct their focus on the necessary resources both within and across subject areas.**

- **Networked are created between the learners.**

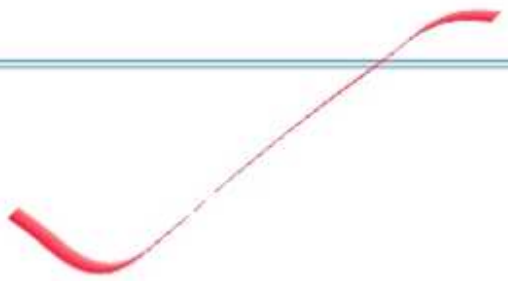

**Form 3 foc[illegible] the integration [illegible]ject knowledge or content with children's interest.**
