MUHAMMAD IMRAN	EDU430 - ICT in Education			
Quiz 1	GRAND QUIZ	QUIZ NO 3	QUIZ NO 4	ALL IN ONE

Lectures no. 31 to 38. (Topic 161- 190)

QUIZ NO 4

QUIZ NO 1 GRAND QUIZ

1. According to Jean Paige only ….is capable of saving our societies from possible collapse, whether violent or gradual_____ **education**
2. Which of these two are both components of the learning_____ **Memorization and understanding**
3. Animation …… and artificial reality are also critical_____ **technology**
4. RAM stand for_____ **random access memory**
5. feedback allows us the ----------of self-correcting and adaptability in context of further learning._____ **Flexibility**
6. Interactive learning ------should be a blend of assessment and learning;_____ **Applications**
7. Omar Khayam was also a famous ----------_____ **Mathematician**
8. What is this technique called whereby a computer is used to present the instructional material?_____ **CAI**
9. Our education system is designed to teach everyone in the _____ manner _____**same**
10. The Horten‘s, E-learning was designed for which kind of pedagogy?_____ **Technological**
11. ROM stand for_____ **Read only memory**
12. A ----------contains keys that allow a user to enter data and instructions into the computer._____ **Keyboard**
13. Teach children to ask their ----------questions._____ **Own**
14. The networks which are connected with in a single building or campus or up to a few kilo meters in size._____ **LAN**
15. Constructivist learning in the----------with technology makes task economical, convenient and possible._____ **Classroom**
16. With technology it is possible to---------changes in learning._____ **Measure**
17. which of these is not a search engine?_____ **AltaVista**
18. Which software can be used for giving presentation ?_____ **MS PowerPoint**
19. The file of information stored on a web server is called as_____._____ **web page**
20. ---------is any hardware component that allows a user to enter data and instructions into a computer._____ **Input device**
21. A convenient small sized computer can term in which of these?_____ **PALM**
22. Modern age is the age of_____ **science and technology**
23. The combination of technology, pedagogy and content help students to achieve their ___ **Goals**
24. In Horten‘s, E-learning by Design, he stated how many elements are required for teaching?_____ **Three**
25. Technology is growing at a phenomenal rate and we need to catch-up with it and utilize it along with an appropriate----------_____ **Pedagogy**
26. Which of the following has the aim to develop the intellectual powers in a given direction?___ _____ **Instruction**
27. Surface patterns on works of art created in the-------have been prized for centuries for their beauty, refinement, harmony intricacy and complexity_____ **Islamic world**
28. ----------are portable computers that integrate the display, keyboard, a pointing device or trackball, processor, memory and hard drive._____ **Laptop**
29. How many learning styles are there?
30. In which area the Gardener develop his famous work?_____
31. Which of these is most integral part of the learning?_____
32. The term ----------implies the application of science to art._____ **Technology**
33. ……is a device used for sound creation and production by means of computer speakers_____ **Soundcard**
34. 1 GB equal to _____**1024 MB**

35. …….drive is used for reading CD media. _____ **CD-ROM**
36. (HTML) stands for which of the following?_____ **Hyper Text Markup Language**
37. ……. Which of the following describes a manner in which communication between devices is defined_____ **Protocol**
38. Network port is used for connecting computers to which of the following_____ **network**.
39. Currently, the capacity of one layer is Blu-ray disc (BD)- the successor to DVD, between _____**27 GB and 33 GB**
40. Which of the following is not a Principles of Teaching Aids?_____ **management**
41. Which key deletes the characters to the left of the cursor_____ **Back space**
42. ……..are the physical tools used to convey information in the classroom. _____ **Teaching aids**
43. You can move the insertion point in a table_____ **All of the above**
44. Which of the following is responsible for image processing and displaying it on a monitor?_____ **graphics card**
45. _____ is the first hypertext document to be shown when a user follows a link to the web server._____ **Home Page**
46. A table _____ **is a grid organized in columns and rows**
47. Which of the following depends on the strength of graphics processor and memory of graphic card?_____ **image quality**
48. A program which is located in a separate ROM on the motherboard, and defines, as the name suggests, ----------._____ **BIOS**
49. Which of the following retains the information it's storing when the power to the system is turned off?_____**ROM**
50. The word wrap feature _____ _____**Automatically moves text to the next line when necessary**
51. Transfer of information from one place to another through different electronic and optical equipment is term as _____ **flow of information**
52. The following tool bars display in the word application window by default___ **Formatting tool bar**
53. …… is used for connecting computers and audio-video devices _____ **Firmware**
54. Which of the following is a small capacity memory which allows quick access to data _____ **Cache**
55. Image quality depends on the strength of …. components graphics _____**processor and memory**
56. Which of the following drive is used for reading CD media. _____ **CD-ROM**
57. Which of the following port is used to connect a mouse _____ **Universal Serial Bus**
58. . is a programme that allows a user to display and interact with a 'hypertext' documents _____**Web Browser**
59. Which of the following has the aim to transform a man and his personality?_____ **Teaching**
60. In MS word for what dose ruler help_____ _____**ALL**
61. Which of the following port is used for connecting a local printer_____ **Parallel port**
62. Which of the following is used for connecting computers and audio-video devices (digital cameras, etc.). _____ **Firmware**
63. 1 MB (megabyte)- …….(approximately) _____**1024 KB**
64. Which of the following is the basic unit used to measure the amount of information_____ **Bit**
65. According to COBUN 1968 what percentage of information can a person remember _____**20**
66. Memory card is a type of ……memory used to store data in digital cameras, cell phones, MP3 players etc _____ **flash**
67. Using find command in MS word you can search _____ **ALL**
68. a collection of direct links to predefined web pages which are stored in your web browser can be termed as which of the following _____**Bookmarks**
69. Transferring of a file from another computer to your own computer is which of the following? _____**DOWNLADING**
70. ------ enables computers to communicate via telephone lines. They connect computers to the Internet…_____ **Modem**
71. DVD drive is used for reading DVD discs. DVD disc capacity ranges from ----- to ----- ._____ **from 4.7 to 18GB**.
72. To move the cursor page to page of documents._____ **both of the above**
73. …..may be associated in the preparation of teaching aids _____ **Students**

74. …..area networks are networks with in a single building or campus or up to a few kilometers in size._____ **Local**
75. The main function of TEACHING is to preserve and protect the old values, customs, beliefs, traditions, etc. is according to which function of teaching_____ **Preservative**
76. Which key or key combination will move the insertion point to the bottom of your docoments_____ **Ctrl+End**
77. World Wide Web invented by_____ **Tim Berner Lee**
78. Which of the following is A self-learning technique, usually offline/online, involving interaction of the student with programmed instructional materials_____ **Computer Assisted Instruction**
79. Internal or private network of an organization based on internet technology (such as hypertext and protocols) and accessed over the internet is called which of the following _____ **Intranet**
80. ….are the physical tools used to convey information in the classroom_____ **Teaching aids**
81. ICT is concerned with the storage, retrieval, manipulation, transmission or reception of …..data_____ **digital**
82. Through his thought experiment imagined black holes through the relevant mathematics_____ **Einstein**
83. Most important piece of hardware_____ **motherboard**
84. …..is a modern system for annotating a document in a way that is distinguishable from the text. _____ **Markup language**
85. MS office provides help many ways. Which of these are closer to the answer_ **All of the above**
86. Metropolitan Area Network is an extension which of the following _____**LANs**.
87. Memorization and understanding are both components of the ….process._____ **learning**
88. Mx word 2007 allows creation of what type of documents by default_____ **DOC**
89. ATM means _____ **automated teller machine**
90. CD-ROM stands for _____**Compact disk read only memory**
91. All modern computers operate on _____**data**
92. Which of the following port is used to connect a local printer? _____**Parallel port**
93. Most important piece of hardware is: _____**CPU**
94. Which of the following boards is large plastic board suitable for writing and drawing?_____ **Marker board**
95. In integration……of many infinitesimal elements are taken. _____**Sum**
96. Which type of files cannot be navigated using clip art browser? _____**Mp3**
97. If a cylinder is filled with water and a sphere is put in it, then the volume of water displaced by the sphere will be equal to……of the volume of cylinder**:** _____**one third**
98. Software used to recognize text from image is called a: _____**text recognition tool**
99. Ms Office provides help in many ways. Which of these are closer to answer? _____**All of above**
100. A network of computers and other devices that is connected wireless and is a confined to a relatively small space is called? _____**Local area network**
101. If a circle is divided into two halves then ….quadrant will be formed. _____**Four**
102. Which of the following boards is widely used and teaching cannot be successful without its proper use?_____ **Black board**
103. Combination of technology pedagogy and content is bigger challenge in:_____ **Pakistan**
104. USB is the abbreviation of which of following? _____**Universal serial bus**
105. The basic instruments for constructing geometrical designs are: _____**all of above**
106. On internet function which allow users to view web pages is known as ..... **web browsing**
107. Temporary memory of computer is ..... _____**RAM**
108. ……..is a false message being spread by e-mail in order to deceive users :_____ **HOAX**
109. The future learning will be based on the textbooks prepared : _____all of **above**
110. Homework is based on progress of individual and it is modified according to the abilities Of students. This is a brief glimpse of: _____**the school of tomorrow**
111. Transfer of information from one place to another through different electronic and optical equipment is termed as …._____**transit of data / information**
112. Islam AL Saeed was died in December _____**1988**
113. Which of the following is used for connecting computers and audio-video devices(digital cameras, etc)_____ **Firmware**
114. The introduction of Geometric concepts of Islamic Arts was written by _____**Islam Al Saeed**
115. The introduction of Geometric concepts of Islamic Arts was published in _____ **1976**
116. .is software that may have been installed on your computer by a remote computer. ___**Adware**
117. Which of the following are the two main components of CPU? _____**Control unit and ALU**
118. Omar Khayyam was famous for _____**Mathematics**

119. IM stands for_____ **instant messaging**

120. Which of the following boards is used for making announcements and displaying news items?_____ _____**Bulletin board**

121. 1GB is equal to _____**1024mb**

122. is a term that implies free software use(trail) for a specified time period. _____**Shareware**

123. ICT is concerned with storage, retrieval, manipulation, transmission or reception of ------ data _____**Digital**

124. A song being played on computer speaker is _____**Soft output**

125. Which of the following drive is used for reading CD media? _____**CD-ROM**

126. Which of the following is the best way to protect your hard drive data? _____**Backup**

127. A ----- Experience which can also be replicated during examinations. The purpose of the activities to increase the relation of students _____**Collaborative**

128. Web technology is employed in calculating _____**Area**

129. Educational informatics is the study of the application of digital technologies and techniques to the use and …….of information in learning and education. _____**Communication**

130. can occur while working on a task, playing a game, reading a book _____**Immersion**

131. A program which is located in a separate ROM on the motherboard _____**BOIS**

132. Currently, the capacity of one layer of Blue-ray disc the successor to DVD is between_____ **27 GB and 33 GB**

133. Art may be a stimulus for exploring concepts of _____Both a and b

134. A program that allows users to perform different tasks or for _____Application software

135. If a cylinder is filled with water and a sphere is put in it, then the volume of water displaced _____One third

136. Term software refers to….._____ Computer program

137. On July 5, the distance of sun from the earth is _____94500000

138. A normal CD-ROM usually can store up to… ..... data? _____680 MB

139. The Islamic art and culture has……basic dimensions _____Three

140. In past fifty years, most of the school are focusing on _____Both a and b

141. Is used to describe the internal main memory of a computer_____ Volatile memory

142. Piaget's concept of constructivism relates to his studies on how knowledge is internalized and how people….that knowledge _____Learn

143. According to ..... theory, learning happens with the help of experience _____Cognitivist

144. Memorization and understanding are both components of the…. Process_____ Learning

145. Which type of the following can be presented in the forms of games or files in email attachments? _____**Trojan Horses**

146. Which of the following is the basic unit used to measure the amount of information _____**Bit**

147. If one dimensional distance comes two dimensional, then it is called _____Area

148. A circle formed _____Distance X and Y remain same

149. 1 MB (megabyte) = ---------- (approximately) _____1024KB

150. An authorized access to computer systems of another person is called-------- _____**Hacker**

151. a/ an ---------- lab is where the students are given the freedom to develop their own experiments instead of merely, following prescribed guidelines from a labor _____**Open ended**

152. if a circle is created, two other circles which pass through the center of the first circle. The area, diameter and radius of all three are _____Equal

153. small cultured photocopying machine were introduced by _____Canon

154. Which of the following port is used to connect a mouse? _____**Serial port**

155. 101. Which of the following Any smooth polished surface like rigid plastic sheet and serves as plastigraph board. _____**Plasti graph Board**

156. Active learning is _____Student centered

157. Which of the following widely used tool for display Teaching cannot be successful without proper use?_____ Blackboard

158. Cursor is a_____ Pointing device

159. Marvin minsky was a/an _____Computer scientist

160. Piaget worked on _____Children

161. Method that is used to communicate information to far off place instantly is called _____**Telecommunication**

162. Which of the following is comprised of at least two, connected, by wire or wireless, computers that can exchange data i.e. communicate? _____**Computer network**

163. Joystick: mainly used in computer -----. Unlike a mouse, it has many buttons which allow control over game objects _____**Games**

164. The textbook 'Learning theory and online technologies' was written by _____Linda harisham

165. an eight sided polygon would be based on _____-45 degree angles

166. days and night are caused because of earth _____All
167. If the sides of polygon are increased the major and minor cycles converge and the polygon becomes a _____Circle
168. Which of the following is used To display flat and three dimensional materials _____Peg board
169. Paget was all these except _____Educator
170. Active learning means encouraging students to _____Both a and b
171. Marvin Minsky used artificial intelligence ton understand and explain _____**Learning**
172. Computer that process both analog and digital is called _____**Hybrid computer**
173. Which type of files can not be navigated using clipboard browser _____**MP3**
174. A System that enables you to browse online services is called _____**WAP**
175. Softwere used to recognize text from image is called a _____**Text recognition tool**
176. According to jean piaget, teacher acts as _____**Facilitator**
177. Professor miles was the supervisor of _____**Islam al saeed**
178. Which of the following can not be done with document version? _____**None of the above**
179. Which of the following displays are used for review consolidation of a lesson? _____**Summary displays**
180. Network port is used for connecting computer to which of the following _____**Network**
181. To move the cursor page to page of documents _____**Both of the above**
182. Computer functions are based on which of the following _____**Operating system**
183. Which of the following is not of the marge process? _____**Format a main document**
184. To view smaller text in screen you can _____**Decrease the view percentage**
185. Which of the following cannot be done with document version? _____**None of the above**
186. ICT is concerned with the storage, retrieval, manipulation, and transmission or reception of ___data _____**Digital**
187. Which key or key combination will more the insertion point to the bottom of your documents? _____**None the above**
188. The most important advantages of video disk is _____**Potential capacity**
189. Which of the following is a feature of fifth generation computers? ___**Artificial Intelligence**
190. Which of the following is an input device? _____**Scanner**
191. Of the following device is used for sound creation and production by means of computer speakers? _____**sound card**
192. Which of the following are the two main components of the CPU? __**control unit and ALU**
193. Which type of files cannot be navigated using clip art browser? _____**MP3**
194. Which of the following depends on the strength of graphics processor and memory of graphic card? _____**Image quality**
195. Which of the following items are examples of storage device? _____**all of the above**
196. The abbreviation PDF stands for_____ **portable documents formats**
197. All modern computer operate on _____**data**
198. Of the following is correct acronym of VGA? _____**video graphics adapter**
199. Which of the small capacity memory that allows quick access to data? _____**cache**
200. Our education system is design to teach everywhere in the ……manner. _____**same**
201. When you see a cone from bottom? What shape u sees? _____**Circle**
202. Short cut for Replace _____**ctrl + h**
203. Command use for Cut _____**Ctrl +x**
204. You can break the active column using _____**Ctrl + shift + Enter**
205. Two pie Radians is equal to _____**360 d e g r e es**
206. Complex problems are generally being broken down into smaller and easier? ___**Segments**
207. ……. Is software that may have been installed on your computer by a remote computer?? _____**Adware**
208. E learning is based on?? _____**Electronic Technologies**
209. With the Aid of technology, we can superimpose the triangle on the?? **Square**
210. The main function of teaching is to protect and preserve the old values, customs Beliefs, traditions etc. is according to which?? _____**Preservatives**
211. The following tool bar in the word application window by default is ??__ **Formative Toll bar**

212. Four types of mail merge documents are _____ _____**Letters, Envelopes, Mailing labels and catalogues**

213. Which of the following describes a manner in which communication between devices is defined?? _____**Protocol**

214. Educational Informatics is the study of the application of digital technologies and techniques to be use and …..of information and learning and education. _____**Communication**

215. CD room stands for? _____**Compact disk read only memory**

216. Which key deletes the character to the left of the cursor? _____**Back space**

217. Which of the following is the latest version of Microsoft Word? _____**Microsoft word 2010**

218. WAN is used abbreviation in networking it stands for? _____**Wide Area Network**

219. Which is valid statement? _____**1KB = 1024 bytes**

220. Which of The following is responsible for image processing and displaying on monitor? _____**Graphic Card**

221. Which of the following is not of the merge process? _____**Format a main documents**

222. We can insert a maximum number of columns in MS Word are? _____**63**

223. Which of the following are the physical tools used to convey the information in classroom are? _____**Teaching Aids**

224. You can move the insertion point in a table? _____**All of the above**

225. Which of the following is a modern system of annotating a document in a way that is distinguishable from the text? _____**Markup Language**

226. If one triangle fits in a square and other right angles triangle is fit in another square then area of both squares will be _____**same**

227. What I admire most about your art is its universality. You do not say a word, and yet the world understands you! This quotation was said for_____ **Einstein**

228. Metropolitan Area Network is an extension of which of the following?_____**LANs**

229. Which of the following is a fixed disk? _____**disk**

If one side of square is one, the its area will be_____ **One square meter**

Network port is used for connecting computer to which of the following _____**Network**

To move the cursor page to page of documents _____Both of the above

Computer functions are based on which of the following _____Operating system

Which of the following is not of the marge process? _____Format a main document

To view smaller text in screen you can -_____Decrease the view percentage

Which of the following cannot be done with document version? _____None of the above

ICT is concerned with the storage, retrieval, manipulation, and transmission or reception of___data Digital

Which key or key combination will more the insertion point to the bottom of your documents? None the above

The most important advantages of video disk is Potential capacity

Which of the following is a feature of fifth generation computers? Artificial Intelligence

Which of the following is an input device? Scanner

Of the following device is used for sound creation and production by means of computer speakers? sound card

Which of the following are the two main components of the CPU? control unit and ALU

Which type of files cannot be navigated using clip art browser? MP3

Which of the following depends on the strength of graphics processor and memory of graphic card? Image quality

Which of the following items are examples of storage device? all of the above

The abbreviation PDF stands for portable documents formats

All modern computer operate on data

Of the following is correct acronym of VGA? video graphics adapter

Which of the small capacity memory that allows quick access to data? cache

Our education system is design to teach everywhere in the ……manner. same

When you see a cone from bottom? What shape u sees? Circle

Short cut for Replace _____ctrl + h

Command use for Cut Ct rl +x

You can break the active column using Ctrl + shift + Enter

Two pie Radians is equal to 360 d e g r e es

Complex problems are generally being broken down into smaller and easier? Segments

……. Is software that may have been installed on your computer by a remote computer?? Adware

E learning is based on?? Electronic Technologies

With the Aid of technology, we can superimpose the triangle on the?? Square

The main function of teaching is to protect and preserve the old values, customs Beliefs, traditions etc. is according to which?? Preservatives

The following tool bar in the word application window by default is ?? Formative Toll bar

Four types of mail merge documents are Letters, Envelopes, Mailing labels and catalogues

Which of the following describes a manner in which communication between devices is defined?? Protocol

Educational Informatics is the study of the application of digital technologies and techniques to be use and …..of information and learning and education. Communication

CD room stands for? Compact disk read only memory

Which key deletes the character to the left of the cursor? Back space

Which of the following is the latest version of Microsoft Word? Microsoft word 2010

WAN is used abbreviation in networking it stands for? Wide Area Network

Which is valid statement? 1KB = 1024 bytes

Which of The following is responsible for image processing and displaying on monitor? Graphic Card

Which of the following is not of the merge process? Format a main documents

We can insert a maximum number of columns in MS Word are? _____63

Which of the following are the physical tools used to convey the information in classroom are? Teaching Aids

You can move the insertion point in a table? All of the above

Which of the following is a modern system of annotating a document in a way that is distinguishable from the text? Markup Language

the volume of a pyramid is ……..of a prism one third

a small storage device that can be used to transport files from one computer to another hard disk

A short story named. Baray Bahi Sahib (Big Brother) was written by Munshi Prem Chan

memory card is a type of…….memory used to store data in digital cameras, cell phones Flash E-learning is based on.... electronic technologies

which of the following is software that enables a computer to communicate with a hardware

Device Driver

Which of the following software is used for performing various calculations and presentation of results in charts
Spreadsheet calculations software

The abbreviation PDF stands for. Portable document format

..... Through his thought experiment imagined Black Holes through the relevant mathematics. Einstein

“there are only two things which are infinite, the un Einstein;

The early work of Seymour papert was focused on.... Of people Speaking

Which of the following display asks information and ensure active involvement of pupils in the development of lesson? Developmental Displays

If a circle is created and two other circles are passed through the center of the first circle then the area, diameter and radius of all three circles Equal

A/An_____lab is where the students are given the freedom to develop their own experiments instead of merely, following prescribed guidelines from a labor. Open ended

Which of the following retains the information it's storing when the power to the system is turned off? ROM

The combination of technology, pedagogy and content is called Rectangle

Metropolitan Area Network is an extension of the following? LANs.

Image quality depends on the strength of..... Components of Graphics. Monitor screen and processor

A VLE is a web-based package designed to help teachers create online..... Courses

The book "Islamic art and architecture. "is written by Islam al Saeed

According to Jean Piaget, teacher act as all above

A circle is formed if Distance X increases, the distance Y decreases, i.e. forming a circle.

How many days are taken by the moon to rotate on its axis 27

Audio-video cassettes and hard disk are....Secondary storage devices

Iranian revolution came in 1979

Visual proof is a key methodology in the pedagogy of Science

We can develop any document and see it on screen after typing by using... managing system

Which of the following does not have the ability to self-replicate in a computer? Virus

Which type of school are not possible due to lack of finances and resources? The school of one

Jean Piaget was a cognitivist

Which of the following software is used for creating and forming text documents and nowadays, they can contain images, charts and table? Text processing software

A regular polygon has six sides

Entries published on blogs are called... posts

The complex Islamic patterns consisting of geometrical shapes has.... Basic pattern. Three

School where one teacher is for one student is called.... school for one

A six sided polygon will be based on 60 degrees

If one dimensional distance becomes two dimensional, then it is called AREA

... Is used for data entry and issuing commands. They can also be wired or wireless. Keyboard

If a circle is devided into two halves, then... Quadrant will be formed FOUR

.... Is a software package installed on the hard disc of your computer? Browser

Which of the following is a program that uses collected data about a user in order to display advertisements in a way regarded as intrusive? Adware
Omer khayyam was famous for Mathematics

..... IA term that implies free software use (trials) for a specified time period Shareware

With the help of technology, the solution of a problem becomes both a and b (play and game)

In polygon, all six sides are Equal and symmetrical

board is made of a sheet of iron that attracts a piece of magnet Magnetic Board

If a problem is devided employing ABSORB and Do activity then it is called reflection of Pedagogy

The change of year is occurred due to earth Rotation

Conceptual understanding of.... Is needed before its calculations Area

board is made of flannel cloth Flannel Board

Joystick: mainly used in computer..... Unlike a mouse, it has many buttons which allow control over game objects. Games

four squares are created adding two lines

Each polygon has a.... Cycle. Both b and c (major and minor)

..... Is a form of internet media in which users can re-post write their opinion on any topic? Blog

If technology, pedagogy and content are combined together then children becomes Intrinsically motivated

On internet, function which allow users to view web pages is known as....web browsing

Small cultured photocopying machines were introduced by Canon

Which of the following has the aim to transform a man and his personality? Teaching

Which of the following is. Program that secretly collects data about computer users (passwords, credit card numbers, etc.), to spy on users? Spyware

The future learning of the classroom will depend on Constructivist theory

Which of the following port is used to connect a mouse? Universal Serial Bus

The area which is composed by the combination of polygons is comparatively..... As compared with the circles. Less

With the aid of the technology, we can superimpose the triangle on the Square

Piaget was all of these EXCEPT Educator

According to George Bernard Shaw all the progress in society is based on these people. One who can adapt themselves to..... And as such are rewarded with..... Societal Norms and Material Success

Professor Miles was the supervisor of Islam al Saeed

Which of the following display attracts and appeal pupils and stimulates their curiosity Motivational Display

If the triangle is completely inverted, or made into a mirror image, then we will get Triangle

Islam gives the unity concept of Tawhid

The principal goal of education is to create individuals, who are capable of doing new things and not simply repeating what earlier generations have done" is said by Piaget

A term used in connection with Email is..... **Attachment**

If a rectangle is cut into two halves, then..... Is formed. **Two triangle**
According to …..Children construct an understanding of the world around them and then experience discrepancies between what they already know and what they discover in their environment Cognitivism

The close study of works of art will lead students to a greater understanding of artistic. cultural concepts and Heritage

……occurs when perceptual and cognitive systems are challenged at near capacity without being exceeded Immersion

The book "wise school "was written by Mike Rose

We can record and monitor everything which is happening inside and out the classroom with the help of camera

is defined as. a geographical representation of a real person Avatar

Seymour papert was a/an mathematician

The units of area and distance are Different

is a malicious program with the possibility of self-replication. Computer Virus

Computer is designed to sit permanently on desk Desktop Computer

"**It's** true" replied **But your fame** is **even greater**: the **world admires you**, when **nobody** understands what you say Charlie Chaplin

4. In open minded question responses of participants are

Restricted Not restricted

A and b None of above

6. if we hold all the other factors constant then we are at the optimal distance where minor changes in distance not effect

Sun Earth Temperature Human

7. The inherent ….. Between teacher and student in terms of learning needs to be understood.

Connection Disconnection

Relation None of above

8. If lecturer is giving lecture to student which part of memory is using

Short term Long term

Working memory All of above

Quiz 3

1. The sun closer to earth in summer and further away in winter what percentage of student gave the answer

40 to 50 50 to 60

60 to 70 70 to 80

2. according to conventional wisdom, what will come into play if car is turning?

Force velocity

Acceleration friction

4. Knowledge is transformed in

Information learning

A and b interaction

5. if we assume earth move in elliptical manner with the sun at exact centre then assumption is logically

True false

Correct none of above

6. **Technology introduces ____--in assessment of students**

Pedagogy efficiency

Content a &b

7. For every minute spent on teaching , how much time should be sepraed for discussion of student and teacher.

5 minute 10 minute

15 minute 20 minute

8. Students hear about different problem the information stored in

Short term Long term

Working memory All of above

Quizz 3

1**. For how much duration professor Eric mazur taught the course of introductory physics in ---- manner.**

4 years effective 5 years effective

6 years 10 years

2. **In which part of mind information is stored for longer period of time.**

Short term memory Long term

Working memory All of above

4. Mc Gill University is situated in

Newyork Montreal

Toronto massachutics

5. **If lecturer is giving lecture to student which part of memory is using**

Short term Long term

Working memory All of above

6. Who said greater hindrance to his discoveries was education

Archimedes Einstein

Galileo Newton

8. **In which part of mind information is stored for short period of time.**

Short term memory Long term
Working memory All of above

9. **which course professor Eric Mazur taught in Harvard university .**

Introductory physics advanced physics quantum physics quantum mechanics

10. There is serious flaw with - --- that answer may be correct but understanding is absent

True false fill in blanks

Multiple choices easy **type question**

11. Peer instruction is written by

Eric Mazur

12. **Change in velocity is called**

Distance force acceleration none of above

13. In this type of circuit current splits into branches so the current flow around both branches

Series parallel both a and b none

14**. MIST stands for**

Master in innovative technologies in education.

15. **TIE stands for**

Technologies innovation in education

16. **Statement teaching teachers what kid are not learning written by**

Harvard university gazette.

17**. Key note is a programme used in**

Apple Microsoft world

18. **The quotation if thousands of students they will not make thousand separate mistakes is said by**

Ashraf iqbal omer khymmue islam ul saud linda harisham

19. When students are given a problem they attempt to discover question and sort out their contradiction and confusion from

Book Web simulation all ob above,

20. Circuit has ---- types

Two Three Four Five

21. Which part of earth faces sun during summer?

Southern hemisphere Northern hemisphere

Both a and b none of all

22. If student gain new knowledge, then linkage is created with students

Previous knowledge prior knowledge

Advanced knowldge memorized knowledge

23. Nusqa e wafa is written by

Faiz ahmed faiz

25. The importance of thought experiments can be gauged by discoveries of

Einstein Newton gelilloeo all of above

26. teaching as science desigh writteb by

27. a brain has

Two hemispheres

28. The probability of guessing is higher in what type of questions

True false fill in blanks

Multiple choices easy type

29. Asking right question is

Method

30.

Quiz no 3

1. The convergence towards an answer takes place when students are allowed to discuss……to solve it_____ **problem**
2. In which month, the sun is not bright as much at 7 pm in the evening_____ **June**
3. When Winter solstice occurs on Northern Hemisphere? _____ **December 21**
4. “Teaching Teachers: What kids are not learning” is a/an_____ **Newsletter**
5. If we can impart conflict resolution training or build it into our learning applications, we may bring fresh impetus to_____ **Learning**
6. For how many students, there will be 10 to 12 learning obstacles/styles_____ **1000**
7. The quotation, “if you have a thousand students, they will not make a thousand separate mistakes” is said by_____ **Ashraf Iqbal**
8. he statement, “Teaching teachers what kids are not learning, it goes on to mention” is written in_____ **Harvard University Gazette**
9. There are basically……main methodologies for presentation of data_____ **Both a and b**
10. The behavior of the student is changed when the information about learning objectives and outcomes is stored in_____ **Long term memory**
11. When winter solstice occurs on southern hemisphere? _____**June 21**
12. Displacement -------- with time. _____**Rises**
13. Pedagogical theories tell us that if ..... children undergo an exam, there will be around ten or so common mistakes _____**10,000**
14. Circular motion without friction requires no acceleration, it is an example of _____**Misconception**
15. Contradiction, friction, conflict, cognitive disequilibrium all lead to…..... learning. ____**Meaningful**
16. What will be the probability of answer if the students are asked “will the sun rise tomorrow”? _____**99.99%**
17. Dr. Ashraf Iqbal had great rambling house in _____**Multan**
18. What is requisite for new paradigm shift in learning? _____**Technology**

19. Foundation of Educational Technology: Integrative Approaches and Interdisciplinary Perspectives by J.M Spector, contained one such event in the life of a) Gorge Polya _____ **Leo Tolstoy**
20. V=S/t is the formula used for _____ **Velocity**
21. If y=x squared, with respect to time; then differentiating it we will arrive at _____ **Y=2x**
22. The book titled. “Disrupting class” was written by _____ **Clayton M. Christensen**
23. The distance travelled by an object in specific direction is called _____ **Displacement**
24. Anna Karenina was published in which country _____ **Russia**
25. If student gain new knowledge, then the linkage is created with students‟ _____ **Prior knowledge**
26. Those nations that focus on ---------- especially its equitable distribution and prevalence are only able to make progress an all fields of life _____ **Education**
27. TIE means _____ **Technology innovation Education**
28. ITM means _____ **innovation Technology Education**
29. Software that can manage your computer and devices connected to it is termed as _____ **Operating system**
30. The Book name, “ teaching as a design science: Building pedagogical patterns for learning and technology” is written by _____ **Richard E. Mayer**
31. Stanford University is _____ **Private University**
32. In 1988, Dr. Ashraf Iqbal and his family decided to open ------- schools for children._____ **Garage**
33. Leo Tolstoy is a famous _____ **Both a and b**
34. The book “chasing the Rabbit” Was written by _____ **J. Spear**
35. Which course professor Eric Mazur taught in Harvard _____ **Advanced physics**
36. The questions, which were given to the students, contained deliberately designed warning signals. It was observed that most students either ignored these warning signals or were unable to resolve the resultant._____ **Conflict**
37. In this type of circuit, the current splits as it reaches a branch so the current flows around both branches _____ **Parallel circuit**
38. Spring 2020 Most people with a background in working with algorithms would choose this option _____ **Exponential functions**
39. When we observe a scene of torture or conversely a flower blooming, both evoke strong _____ **Emotional responses**
40. Who said that the greatest hindrance to his discoveries was his education? _____ **Einstein**
41. Planetary motion can be predicated with the help of----------_____ **Newton‟s law**
42. Feedback concerning assignments and quizzes are not provided. According to the students, this is called ---------- principle of pedagogy _____ **First**
43. Pakistan lacks resources to construct ----------like western countries Primary schools Elementary schools Secondary schools _____ **Brick and Mortar School**
44. Anna Karenina was first published in year _____ **1879**
45. The book titled, “Mathematical Mindsets‟ was written by _____ **Jo Boaler**
46. In which year, the question, „„ Why it is warmer in the summer than in the winter‟‟ was asked from Harvard University Students _____ **1986**
47. Geographical area covered by a signal base station is known as a …_____ **Data**
48. this assessment system is also called an ideal system _____ **summative assessment**
49. In this type of circuit, the components are arranged end to end so the electric current flows through the first components, then through to next components and so on, until it reaches the battery again_____ **Series circuit**
50. The earth comes closer to the sun in ..... and goes further away in the_ **Summer, winter**
51. We can understand confusing relationship questions with the help of……aid First___ _____ **Pedagogical**
52. Which concept can be combined with technology to make the learning meaningful? _____ **All of the above**
53. In which part of memory, words and pictures are formed when selective verbal cues/words came to the student‟s mind _____ **Working memory**
54. Educational Technology is an ---------- discipline Scientific _____ **Engineering**

55. The book titled, „„ The unpopular essays"" was written by _____ **Bertrand Russell**
56. The root cause of failed assessment system _____ **Philosophy**
57. Faber-Castell was a/an _____ **German company**
58. In order to increase self-efficacy and reduce the negative impact of extrinsic motivation: a passion for learning has to be developed where intrinsic motivation is present. This refers to _____ **Formative assessment**
59. encourages positive motivational beliefs _____ **Feedback**
60. The quotation „„ Every time a student makes a mistake in mathematics: they grow in knowledge, they move forward in learning _____ **Stanford University Professor**
61. How much stipend university was offering for taking admission in Ph.D computer science program in 2001? _____ **20,000**
62. The quotation „„ A university is composed of senior scholars who are faculty members or instructors and junior scholar"" _____ **Harvard Dean**
63. The foreword of the book titled, „„ Mathematical Mindsets"" was written by _____ **Carol Dweck**
64. Professor Novak is a professor of Pedagogy _____ **Physics**
65. Professor Novak works in _____ **Harvard University**
66. Pul Mauj Daraya is situated in _____ **Multan**
67. space shuttle columbia exploded in _____ **February 1, 2003**
68. Introductory functions constitutes----calculus_____ **basic**
69. With technology, it is possible to create the ultimate… . through animations and movies._____ **Stories**
70. Asking the right question is a \an _____ **Both a and c**
71. Knowledge is transferred in _____ **Both a and b**
72. Don Atwood is a\an_____ **Ecological anthropologist**
73. If a contradiction occurs, then the ..... starts_____ **Thinking process**
74. If you assume that as the Earth moves in a circle with the sun at the center, then this assumption is logically_____ **False**
75. Which is taken from the consumers to modify and make the product attractive? _____ **Feedback**
76. DNA is…….building block of body_____ **Basic**
77. " Nusaqa hai wafa" was written by_____ **Faiz Ahmed Faiz**
78. A circuit has… ..... types. _____ **Two**
79. A brain has _____ **Two hemispheres**
80. If a coin is tossed, what will be probability of heads or tail_____ **50%**
81. A childs learning process can be understood with the help of _____ **Technology**
82. The earth orbits the sun due to Collaboration id usually used in conjunction with conflict resolution and_____ **Problem solving**
83. Information\learning occurs through acquisition or instructional learning though enquiry this can be done through various mediums including. _____ **All of the above**
84. Marvin Misky was a\an_____ **Computer scientist**
85. The inherent .....between teachers and students in terms of learning needs to be understood _____ **Disconnection**
86. If a liquid is change into gaseous state, then it is called _____ **Evaporation**
87. The study of ..... is currently the most popular and in demand fields in Pakistan and globally_____ **Role of information technology in Education**
88. If we try to understand the reason behind committing ..... then we may develop a learning application very easily _____ **1000 students**
89. The change of velocity is called as _____ **Acceleration**
90. Lake Michigan flows in _____ **America**
91. Students hear about different problems. This information is stored in____ **Short term memory**
92. Mullah Nasaruddin belongs _____ **Turkey**

93. In coming years, which cell phone will be available in the market? _____ **Both a and b**
94. Days and nights are caused because of earth _____ **Spinning**
95. DNA means_____ **De-oxy ribo nucleic acid**
96. One surface of the cone is also in the form of a ….. _____ **Circle**
97. The ..... experiments can become the basis of a very powerful design of collaborative, interactive learning applications _____ **Thoughts**
98. The reason children play with these games for hours in comparison to passive toys, is ..... involved _____ Challenge
99. Charlie Chaplin worked in _____ **Silent movies**
100. The volume of a pyramid is… ..... of a prism. _____ **One third**
101. Which part of the Earth faces sun during summer? _____ **Northern Hemisphere**
102. Marvin Minsky used artificial intelligence to understand and explain _____ **Learning**
103. If a lecturer is giving lecture to students, then which part of the memory is using_____ **Short term memory**
104. Computers are much more effective in manipulating and ..... equations _____ **Analyzing**
105. A triggering events creates warning signals and plays a critical role in _____ **Learning**
106. Descriptive problems need_____ **Rational**
107. In a linear relationship both variable grow _____ **Linearly**
108. Who said the following quotation.”There are only two things which are infinite, The universe and human stupidity and I am sure about the former”._____ **Einstein**
109. In Pakistan there is no ..... between technology, pedagogy, content, innovation and entrepreneurship_____ **Convergence**
110. This is a serious flaw with… ..... that the answer may be correct but its understanding is absent _____ **Multiple choice questions**
111. The book “ Applying science of learning‟ was written by _____ **Richard E.Mayer**

112. ----- can be enhanced with the help of technology _____Performance
113. In collaborative work, assignment is given in group and every student is responsible for submitting their assignments as _____Group
114. The sun is closer to the earth in summer and further away in the winters. What percentage of students gave this answer? _____60% to 70%
115. The book titled,"E-learning in the 21st Century" is written by _____D.Randy Garrison
116. there are differences both in terms of goals of the information they seek and how the information is used for striven formative evaluation gathered to assess the effectiveness of curriculum and guide school system choices to which curriculum to adopt and how to improve it. This was said by _____Michael Skriver
117. Despite the availability of several methodologies, personal intuition and real life experiences; in using these and arriving at different conclusion the students are still unable to resolve the _____Conflicts
118. Punch cards were used for _____IBM 1130
119. Technology introduces------ in assessment of students_____ Efficiency
120. The Anna Karenina was first published in _____1882
121.
122. The study of ------is currently the most popular and in-demand fields in Pakistan and globally _____Role of Information Technology in Education
123. Problem can be diagnosed and treated with help of_____ Both b and c
124. Software that manages your computer and devices connected to it is termed as-----Search Results _____operating system
125. For every ten minutes spent on teaching, how much time should be spared for discussion of students and teachers _____10 minutes
126. According to conventional wisdom, what will come into play if the car is turning?_____ Force
127. The variation in the seasons of the earth takes place due to… _____Both a and b
128. **How many methods are associated with constructivist approach? _____Two**
129. **Computing machines were designed by _____IBM**
130. **The radio was invented by_____ Marconi**
131. **The price of ZX81 was _____300 dollars**
132. **The watch of Contains lot of functions._____ Apple**
133. **You can make a phone call with the help of _____Apple**
134. **In learning, the process of is considered very important. _____Both A and B**
135. **The advertisement for the microprocessor was made on November 15, _____1971**
136. **The first game machine was introduced by_____ IBM**
137. **If instant feedback is provided in the classroom, then the teaching becomes more _____Innovative**
138. **The book name, ·Teaching as a Design Science: Building Pedagogical Patterns for Learning and Technology· is written by _____Diana Laurillard**
139. **Symposium is a form of _____Discussion method**
140. **Memorization took precedence over _____Understanding**
141. **Dr. Monica Tracey works in _____Wayne University**
142. **The right combination of people and system affects _____Society**
143. **Foundations of Educational Technology: Integrative Approaches and Interdisciplinary**
144. **Perspectives by J. M. Spector, contained one such event in the life of_____ Leo Tolstoy**
145. **The labs should be a place of _____All of the above**
146. **The book titled, "The unpopular essays" was written by _____Shakespeare**
147. **Programming courses should include _____Both A and B**
148. **A triggering event creates warning signals and plays a critical role in __All of the above**
149. **Information/learning occurs through acquisition or instructional learning though enquiry, "This can be done through various mediums including" _____All of the above**
150. **It would be great if the strategy is problem and content driven addresses all _____All of the above**
151. **Cursor is a_ _____Pointing device**
152. **To move the cursor page to page of documents. _____Both of the above**

153. Which of the following is a network that covers a relatively small geographical area of, it connect computers within a firm or household by wire? _____LAN

Which of the following has the aim to transform a man and his personality?

A. Teaching

The abbreviation PDF stands for

A. Portable document format

The four types of mail merge main documents are

A. Form letters, envelops, mailing labels and catalogue

WAN is a most used abbreviation in networking what is its full form?

A. Wide area network

ATM means

A. Automatic Teller Machine

Which of the following is a fixed disk?

A. Hard disk

Which of the following is not of the merge process?

A. Format a main document

Which of the following depends on the strength of graphics processor and memory of graphic card?

A. Image quality

Which of the following are the physical tools used to convey information in the classroom?

A. Teaching Aids

You can move the insertion point in a table

A. All of the above

All modern computers are operate on

A. Data

Which is not consisted in a processor?

A. Memory

In the merge process, you can

A. All of the above

Dot-matrix is a type of

Printer

A table

A. is a grid organized In columns and rows

To view smaller text on screen you can

A. Decrease the view percentage

A normal CD-ROM usually can store up to_data?

A. 680 MB

Which type of files cannot be navigated using clip-art browser?

A. MP3

Which of the following is a part of Intranet, to which independent collaborators have access?

A. Extranet

Computer functions are based on which of the following?

A. Operating system

Which of the following Items are examples of storage devices?

A. All of the above

The word wrap feature

A. Automatically moves text to the next line when necessary

Which of the following device converts sound into an electrical signal, which can be stored on a computer?

A. **Microphone**

Which of the following is responsible for image processing and displaying it on a monitor?

A. **Graphic card**

Which of the following is an input device?

A. **Scanner**

To move the cursor page to page of document

A. **Bothe of the above**

Which key should be pressed to start a new paragraph in MS-Word?

A. **Enter key**

MS office provides help in many ways. Which of these are closer to the answer?

A. **All of the above**

To remove page number in MS Word

A. **Page number command from insert menu**

Which would you choose to list synonyms and Auto correct of a selected word?

A. **Tools, Spelling**

Word processing package are

A. **MS word**

When u see cone from bottom? What shape u sees?

A. **Circle**

Jean Piaget role for teacher as

A. **Facilitator**

From left side remove the word in MS word

A. **Back space**

Short cut for Replace

A. **Ctrl + Z**

Command use for Cut

A. **Ctrl + X**

Name of font menu

A. **Home**

In the merge process, you can

A. **Preview a merge**

You can break the active column using

A. **Ctrl + Shift + Enter**

Which key enables you to move directly to specific location in document?

A. **Bookmark**

The formula Length x Width is used to measure

A. **Area**

. __ is a false message being spread by email in order to deceive users

A. **Hoax**

. If we take the rectangles and continually reduce their width we arrive at a shape of a

A. **Square**

If a triangle bisects the rectangle in two equal portion then the area of the triangle will be exactly____of triangle

A. **Half**

. If one side of square is one, then its area will be

A. **One square meter**

. The creation of _____ was based on a singularity

A. **Universe**

Email is the transmission of text message via_____

A. **Internet**

._is malicious program with the possibility of self-replication

A. **Computer Virus**

. The term virtual community encompasses a group of people who communicate via_____

A. **Social Media**

. Which of the following are the physical tools used to convey information in the classroom

B. **AV Aids**

._can be defined as a measurement of computer memory or disc capacity.

A. Bytes

The probability of guessing is higher in what type of questions _____**Multiple choice questions**

QUIZ NO 4

1. In 1960s, Muslim high school was part of_____ **Multan board**
2. system is based on annual examination _____**Summative**
3. there are type of motivation _____**two**
4. is a holistic concept that typically involves cognitive as well as non- cognitive abilities___ **Performance**
5. changes people and people changes technology._____ **Technology**
6. In 2001, computer science program was incepted in which university _____**LUMS**
7. Confession was written by _____**Leo Tolstoy**
8. Confession was written in_____ **1879**
9. Dr. Arslan, who went to become vice-chancellor at Quaid-e-Azam University, went for his PhD in _____**biology**
10. Gorge Polya was a/an _____**Mathematician**
11. Dr. Asraf Iqbal is dean of _____**Computer sciences**
12. The assessment system of America is based on_____ **Norm assessment**
13. Most analysis tell you about the weakness of ----- and how decision making is much more effective under a dictatorship _____**Democracy**
14. 1960s, Board examinations were held after _____**8th standard**
15. Starting with the advent of the steam engine, the fragmentation caused by……..is quite evident____ _____**Technology**
16. The question about calculation of speed and its graphical representation was asked 25 Hec scholars. These scholars were asked to provide distance at various intervals. How many students _____**Three**
17. Physiological and sociological process refers to _____**Education**
18. The root cause of failed assessment system is Rote memorization _____**Philosophy**
19. Interactive computers address ---------- aspect of feedback _____**One**
20. Leo Tolstoy advocating for the reform of ------- schools. _____**Peasant**
21. In our conventional educational system mistakes are considered------- _____**Bad**
22. The book, „„Foundations of Educational Technology integrative Approaches and Interdisciplinary Perspectives"" was published in _____**2016**
23. Social, teaching and cognitive are important aspects of _____ **Classroom**
24. Memorization took precedence over Learning Knowledge _____**understanding**
25. The earth is tilted and ---------- on its _____**Revolving**
26. "If all human beings became good there would be no problems" is a/an_____ **Argument**
27. ……refers to behavior that is driven by external rewards such as money, fame, grades, and praise _____ **Extrinsic motivation**
28. How many areas should be analyzed after diagnosing the problem _____**two**

29. The first computer bought by UET was radio Shack TRS----------_____ **80**
30. Who said this quotation, „„ in today‟s information society, the future of economic well being rests on the effectiveness of schools and corporations to empower their people to be more effective learners and knowledge creators““? _____**Joseph D. Novak**
31. There are -------- presences in classroom _____**Three**
32. In open ended questions, the responses of participants are _____**Not restricted**
33. In 1969, how many universities existed in Pakistan? _____**Two**
34. Dr. Ashraf iqbal took class to the outside remote area. What was the purpose behind this? _____**Quality education**
35. It would be great if the strategy is problem and content driver addresses all _____**Disciplines**
36. On July 5 the distance of sun from the Earth is……. _____**94,500,000**
37. Charlie Chaplin was a/an……. _____**Actor**
38. Don Atwood works in…._____ **McGill University**
39. Niagara fall is situated in……_____**Canada**
40. The quotation” Make just one change” is said by _____**Mike Rose**
41. If the cone is looked from the bottom, then it would appear in the form of…. _____**Circle**
42. According to… ..... theory, learning happens with the help of experience __**Constructivist**
43. A key note is a program which is used in _____**Apple**
44. Seymour Papert was a\an… _____**All of the above**
45. A triggering event creates warning signals and plays a critical role in _____**Learning**
46. An instrument which indicates distance travel by vehicles, such as a bicycle or automobile is called as….. _____**Both a and b**
47. Combination of technology, pedagogy and content is biggest challenge in…. _____**Pakistan**
48. How much duration ..... professor Eric Mazur taught the course of introductory physics in… ..... manners? _____**6 years, conventional**
49. Dr. Ashraf Iqbal joined the NASA, research center in Langley on _____**In February 1986**
50. Formative assessment implies that a thing is tested while being--_____ _____**Both a & b (developed and built)**
51. Mullah Nasaruddin is famous for his _____**All of the above**
52. If teacher centric learning is removed with interactive discovery based applications, then this flaws becomes _____**Simpler**
53. Piaget worked on _____**Children**
54. Zia Mohiuddin, was a famous _____**Orator**
55. 1960s, UET was known as _____**PUET**
56. In which country, There are significant dropouts during transition from high school to college _____**America**
57. We can record and monitor everything which is happening inside and outside the classroom with the help of _____**Technology**
58. “If we assume that the Earth moves in an elliptical manner with the sun at its exact center” then this assumptions is logically _____**True**
59. Breaking down problems into smaller component which are easier to explain is called as _____**Both a and c**
60. The textbook “learning theories and online technologies” was written by ____**Linda Hersisham**
Leonardo da Vinci was a\an_____ **All of the above**
61. If we are able to capture the common mistakes and the reasoning behind them, then we may be to design the right _____**Learning aid**
62. How many students are dropped from 700 students every year where Dr. Ashraf Iqbal is currently working as dean?_____ **550 students**
63. The labs should be a place of_____ **All above (trial,error,learning)**
64. The principle goal of education is to create individuals who are capable of doing new things _____**Piaget**
65. If the tilt of the earth remains constant, then the rays of sun fall on the earth _____**Parallel**

66. An event which is causes you to be startled and your mind to be agitated is called as _____ **Triggering event**
67. McGill University is situated in _____ **Montreal**
68. The theory of relativity was given by _____ **Einstein**
69. The Book titled, „„Academically Adrift"" was written by _____ **Both a and b**
70. Stanford University is situated_____ **America**
71. According to --------- educational enquiry is a process to investigate problems and issues and not to memorize solutions _____ **Dewey**
72. Is a holistic concept that involves cognition, cognitive memory, mental constructs, language associations_____ **Learning**
73. The book entitled, „„Now you see it"" is written by _____ **Cathy Davidson**
74. The book ------ states that prior to the industrial revolution. When schools had only three to four pupils for each instructor then formative assessment was used _____ **Rethinking education in the age of technology**
75. Programming courses should include _____ **Both a and b**
76. „Race to Nowhere" is the name of a/an _____ **Movie**
77. The right blend of information technology and pedagogy play a significant role in _____ **Learning**
78. How much time did J. Spear take to fix the front seat in a car? _____ **15 seconds**
79. Most of the teachers think that the readings of the graph is _____ **Trivial**
80. The idea of clearing navy guns during the Second World War was proposed by Joe Boaler _____ **Noman Fredrick**
81. assessment takes place at end of learning activity_____ **Summative assessment**
82. The book titled, „„Educational innovation beyond technology"" is written by _____ **Nancy Law**
83. In the evening, the sun rays strikes at a/an _____ **Angle of 90 degree**
84. Executive Director of, „„Association for Educational Communication and Technology (AECT) is _____ **Phillip Harris**
85. assessment contains instantaneous feedback_____ **Formative assessment**
86. The students construct their own knowledge when they interact with individuals. This refers to _____ **Constructivist theory**
87. Continual assessment is synonym _____ **Summative**
88. The process of manufacturing cars in Japanese factories was consisted of --- steps _____ **Five**
89. The right combination of people and system affects _____ **Society**
90. Dr. Asharaf Iqbal surveyed ------ students to know the responses of students about pedagogy and technology _____ **352**
91. After the industrial revolution, the format of school assessment system shifted to _____ **Summative assessment**
92. Dr. Ashraf Iqbal is currently working as dean in a renowned private university. In this university, student dropout rate within two years is more than _____ **70%**
