Paper: CS304 8:00am

Mcqs were from ast paper files available on YouTube final term preparation. And from last 4 topics iterators and cursors Short question . There were two programs in which i have to find output and in one to find errors.

A question from iterators types.

Long questions. I had to qrite a program in which a function can identify case sensitive language . And also Error handling techniques

Overall it was easy.
