15. A child who avoids the caregiver upon return is likely showing:

- A) Secure attachment
- B) Insecure-ambivalent attachment
- C) Insecure-avoidant attachment ☒
- D) Disorganized attachment

16. What best promotes a child's emotional development?

- A) Toys
- B) Nurturing relationships ☒
- C) Fast food
- D) Loud environment

17. Which personality part in Freud's model represents morality?

- A) Id
- B) Ego
- C) Superego ☒
- D) Libido

18. Which of these is not a type of temperament?

- A) Easy
- B) Difficult
- C) Fast ☒
- D) Slow to warm up

19. Which practice helps build mental health in toddlers?

- A) Ignoring emotions
- B) Physical punishment
- C) Unhurried time together ☒
- D) Yelling when upset

20. By age 5, what trait is largely developed in children?

- A) Language skills

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Self-esteem ✓
C) Empathy
D) Motor coordination

Topics 87–90: Preschool Development & Learning

1. At what age are children typically enrolled in preschool?

- A) 1–2 years
B) 2–4 years
C) 3–5 years ✓
D) 5–6 years

2. What is a key method preschoolers use to learn?

- A) Repetition
B) Listening only
C) Memorization
D) Learning by doing ✓

3. Which of the following is not considered a gross motor skill category?

- A) Locomotor
B) Non-locomotor
C) Manipulative
D) Cognitive ✓

4. Throwing and catching fall under which motor skill type?

- A) Locomotor
B) Non-locomotor
C) Manipulative ✓
D) Static

5. What is the ideal amount of sleep for preschoolers?

- A) 6–8 hours
B) 8–10 hours

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

C) 10–12 hours ☒

D) 12–14 hours

6. Preschoolers develop pre-skills that prepare them for:

A) Social media use

B) Religious education

C) Reading, writing, math ☒

D) Competitive sports

7. Which of the following is a locomotor skill?

A) Bending

B) Skipping ☒

C) Swaying

D) Twisting

8. Emotional regulation includes:

A) Controlling money

B) Identifying and managing emotions ☒

C) Sleeping on time

D) Learning language

9. Preschoolers often engage in what type of social play?

A) Competitive

B) Pretend ☒

C) Repetitive

D) Isolated

10. A healthy sense of independence in preschoolers means:

A) They ignore others

B) They complete self-care tasks ☒

C) They avoid routine

D) They prefer solitude

11. Social and Emotional Learning (SEL) helps children:

- A) Improve handwriting
- B) Understand and manage emotions ☒
- C) Learn multiplication
- D) Memorize facts

12. Discovery learning emphasizes:

- A) Memorization
- B) Lecture-based instruction
- C) Self-exploration and experimentation ☒
- D) Strict routines

13. Preschool children's center of gravity is located:

- A) Near the chest
- B) At the knees
- C) At the belly button ☒
- D) At the feet

14. Which is a non-locomotor skill?

- A) Running
- B) Hopping
- C) Twisting ☒
- D) Jumping

15. One effective way to stimulate curiosity is to:

- A) Give lectures
- B) Add surprises to familiar activities ☒
- C) Eliminate free play
- D) Use only flashcards

16. Which of the following is NOT a skill a preschooler should be developing?

- A) Attention span
- B) Early reading

- C) To manage learning materials and prepare for challenges
D) To avoid classroom routines
2. What does using culturally relevant materials help with?
A) Increase homework
B) Connect students to learning ☒
C) Discourage differences
D) Make lessons longer
3. Using everyday examples in lessons helps students:
A) Memorize facts
B) Relate learning to real life ☒
C) Finish work faster
D) Avoid homework
4. What is one benefit of linking routines to learning?
A) Promotes understanding of concepts like hot/cold or counting ☒
B) Makes students sleepy
C) Reduces learning outcomes
D) Encourages passive behavior
5. Giving students choices in learning results in:
A) More confusion
B) Increased involvement and motivation ☒
C) Lack of discipline
D) Less participation
6. Grouping students in class encourages:
A) Collaborative problem-solving ☒
B) Silent learning
C) Competitive behavior
D) Repetition

7. A homework menu provides:

- A) Same work to all
- B) Options tied to the lesson plan ✓
- C) Food choices
- D) Less work

8. Letting students set the pace means:

- A) Giving exams early
- B) Starting and ending class early
- C) Choosing their starting point and difficulty level ✓
- D) Avoiding hard topics

9. Self-regulation is the ability to:

- A) Obey without thinking
- B) Manage emotions and behavior to reach a goal ✓
- C) Ignore feelings
- D) Avoid interaction

10. What helps children manage emotions during stress?

- A) A warm, responsive relationship ✓
- B) Ignoring them
- C) Strict rules only
- D) Loud music

11. A structured environment supports self-regulation by:

- A) Limiting play
- B) Reducing stressors ✓
- C) Encouraging disobedience
- D) Over-challenging children

12. Teaching self-regulation includes:

- A) Punishing mistakes

C) Ignoring behavior

D) Removing playtime

13. An example of modeling self-regulation is:

A) Yelling when angry

B) Taking deep breaths when upset ✓

C) Throwing toys

D) Ignoring the child

14. Visual learners learn best through:

A) Stories

B) Pictures and graphics ✓

C) Experiments

D) Games

15. Auditory learners prefer:

A) Listening and storytelling ✓

B) Puzzles

C) Drawing

D) Running

16. Kinesthetic learners learn best by:

A) Sitting still

B) Physical activities and movement ✓

C) Reading

D) Singing

17. Logical/mathematical learners prefer:

A) Problem-solving and patterns ✓

B) Group singing

- D) Physical play

18. Which learner works best alone?

- A) Social learner
- B) Solitary learner ☒
- C) Auditory learner
- D) Kinesthetic learner

19. What is a benefit of teachers knowing each child individually?

- A) They can tailor activities to their needs ☒
- B) Teachers become less active
- C) It reduces responsibility
- D) Students compete more

20. The “Pass the Ball” activity helps children:

- A) Play only
- B) Learn names and practice communication ☒
- C) Avoid learning
- D) Sleep early

Topics 95–97: Rules, Expressing Feelings, Self-Control

1. Why should preschool rules be short and simple?

- A) To decorate the classroom
- B) To increase discipline problems
- C) So children can easily understand and remember them ☒
- D) To give more instructions

2. What helps children understand classroom rules better?

- A) Long instructions
- B) Visual aids and hand motions ☒

3. What is the benefit of combining verbal, visual, and physical cues?

A) Increases confusion

B) Enhances memory retention ✓

C) Replaces teacher guidance

D) Makes rules boring

4. What should be avoided in preschool rules?

A) Abstract words like “respect” or “responsible” ✓

B) Simple visuals

C) Colorful posters

D) Positive reinforcement

5. Where should the rules chart be posted?

A) On the ceiling

B) At children’s eye level ✓

C) Outside the class

D) On the teacher’s desk

6. Which of the following is NOT an example of an emotion?

A) Joy

B) Guilt

C) Jumping ✓

D) Fear

7. Why is it difficult for young children to express feelings?

A) They don’t have any feelings

B) They lack emotional vocabulary ✓

C) They are too busy playing

D) They understand everything

8. How do children often express their emotions?

- A) Only through talking
- B) Through behavior, play, and body language ✓
- C) Only through art
- D) Through reading

9. What is the first step to help children express feelings?

- A) Punish them for misbehaving
- B) Name the feeling ✓
- C) Ignore the emotion
- D) Distract them

10. What is a good way to help children identify emotions in others?

- A) Use picture books and cartoons ✓
- B) Give quizzes
- C) Let them guess randomly
- D) Use flashcards only

11. When children express feelings in a healthy way, caregivers should:

- A) Ignore it
- B) Praise them ✓
- C) Change the topic
- D) Correct them

12. Why is it important not to dismiss a child's feelings?

- A) It wastes time
- B) It can lead to unhealthy expressions later ✓
- C) It saves teacher effort
- D) Children forget anyway

13. What does it mean to "tune into cues"?

- A) Play music

19. What can children say when feeling nervous?

- A) "I will fail."
- B) "I practiced this. I will do my best." ✓
- C) "I should run away."
- D) "This is boring."

20. How can everyday situations teach self-control?

- A) Use them to practice patience and behavior ✓
- B) Avoid those situations
- C) Ignore misbehavior
- D) Add pressure to the child

Topics 98–101: Cognitive Development, Concepts, Hands-on Learning

1. The preschool period is a time of rapid development in:

- A) Social media skills
- B) Thinking abilities (Cognition) ✓
- C) Physical strength only
- D) Adult-level communication

2. Centration of thought means:

- A) Focusing on one aspect of a situation ✓
- B) Thinking about multiple outcomes
- C) Multitasking effectively
- D) Reading and writing fluently

3. Which of the following is a feature of the preoperational stage?

- A) Ability to conserve
- B) Egocentric thinking ✓

C) Operational thought

D) Reversible logic

4. Preschoolers' cognitive development includes:

A) Memorizing facts

B) Asking questions and problem solving ☒

C) Avoiding new experiences

D) Repeating adult instructions only

5. Visual discrimination, matching, and comparing are part of:

A) Social skills

B) Physical development

C) Cognitive skills ☒

D) Language development

6. What is the correct learning sequence in concept development?

A) Concrete → Representational → Abstract ☒

B) Abstract → Representational → Concrete

C) Abstract → Concrete → Conceptual

D) Concrete → Abstract → Visual

7. Why are concrete materials used in early learning?

A) To decorate classrooms

B) To help children understand through hands-on experience ☒

C) To fill free time

D) To replace books

8. When a teacher brings real apples during a lesson, it helps children to:

A) Eat snacks

B) Explore with senses and categorize objects ☒

C) Play only

D) Sleep after class

9. Using collections in class helps children learn to:

- A) Draw better
- B) Count, sort, classify, and name objects ✓
- C) Share less
- D) Clean up

10. Children learn best when:

- A) They touch and experiment with real objects ✓
- B) They memorize textbook content
- C) They sit quietly and listen only
- D) They copy teacher's notes

11. What is active learning?

- A) Teacher-centered lectures
- B) Involving students in the learning process ✓
- C) Watching TV
- D) Group punishment

12. Student-centered learning focuses on:

- A) Teacher preferences
- B) Memorization
- C) Students' learning needs ✓
- D) Discipline

13. What is problem-based learning?

- A) Learning from punishments
- B) Solving real-life scenarios to gain knowledge ✓
- C) Reading stories only
- D) Avoiding challenges

14. Experiential learning involves:

- A) Memorizing tables

B) Authentic, real-life activities ☒

C) Following strict rules

D) Coloring only

15. What do children learn during water play with funnels and cups?

A) Concepts like volume, measurement, and saturation ☒

B) Vocabulary only

C) Poems

D) Alphabet

16. Free-choice time allows children to:

A) Follow strict instructions

B) Choose their own activities ☒

C) Sleep

D) Take tests

17. Outdoor time is similar to free-choice time because:

A) Children guide their own play and learning ☒

B) Teachers lead every activity

C) It's silent learning

D) No materials are used

18. Large-group activities help in:

A) Isolation

B) Social skill and academic development ☒

C) Sleeping

D) Creating discipline issues

19. Small-group activities promote:

A) Isolation from peers

B) Active engagement and personal attention ☒

C) Less social interaction

D) Passive learning

20. What is the role of transitions in preschool settings?

A) Avoided at all costs

B) Switching between activities (can be difficult) ✓

C) Ignored by children

D) A time for punishment

Topics 102–105: Scaffolding, Literacy, Projects, Development

1. Preoperational children learn best through:

A) Textbooks

B) Modeling ✓

C) Repetition

D) Memorization

2. What is scaffolding in early childhood education?

A) Supporting a child's learning by guiding without giving full answers ✓

B) Giving the correct answers directly

C) Allowing free play without interaction

D) Rewarding only good behavior

3. Which of the following is an example of scaffolding?

A) Giving punishments for mistakes

B) Asking probing questions to guide thinking ✓

C) Ignoring the child's effort

D) Letting children struggle without support

4. Offering limited-answer questions helps children by:

A) Giving ready-made answers

B) Helping them select and think independently ✓

5. Praising a child for attempting a task boosts:

- A) Confidence and self-competence ☒
- B) Dependency
- C) Laziness
- D) Misbehavior

6. Which of the following is not part of a literacy-rich environment?

- A) Reading
- B) Speaking
- C) Writing
- D) Sleeping ☒

7. Why is classroom setup important in literacy development?

- A) It encourages conversation, collaboration, and role play ☒
- B) It keeps the room neat
- C) It limits movement
- D) It ensures quiet time

8. Reading areas should be available:

- A) In teacher's office
- B) Indoors and outdoors ☒
- C) Only during free play
- D) Once a week

9. Socio-dramatic play helps children in:

- A) Role-playing and language development ☒
- B) Memorizing math tables
- C) Sitting quietly
- D) Coloring only

10. Environmental print should be:

- A) Functional, authentic, and informative ✓
- B) Decorative only
- C) Difficult to read
- D) Removed during playtime

11. Children benefit more from:

- A) Frequent short activities
- B) Extended periods of self-chosen projects ✓
- C) Teacher-led activities only
- D) Limited playtime

12. Self-chosen projects support:

- A) Intellectual engagement and deep involvement ✓
- B) Teacher satisfaction
- C) Timetable efficiency
- D) Limiting exploration

13. Why should time be uninterrupted during self-chosen tasks?

- A) To let children focus deeply and explore independently ✓
- B) To maintain discipline
- C) To test speed
- D) To reduce stress

14. What is the benefit of intellectual search in early years?

- A) Brain expands through use and experience ✓
- B) Vocabulary only improves
- C) Fine motor skills develop
- D) Routine becomes easier

15. Children's brains are primed to:

- A) Make sense of experiences naturally ✓

16. Preschoolers' language development includes:

- A) Longer, complex sentences with grammar usage ✓
- B) Limited vocabulary
- C) One-word commands
- D) Unstructured speech

17. What does the frequent use of “no” show in preschoolers?

- A) Aggression
- B) Desire for independence ✓
- C) Lack of understanding
- D) Disobedience

18. Preschoolers learn language:

- A) Intuitively and without formal instruction ✓
- B) Through punishment
- C) Only by memorization
- D) Through silence

19. Which type of environment best supports preschool development?

- A) One with varied activities and opportunities ✓
- B) A strict, quiet one
- C) Digital-only learning
- D) One-on-one tutoring only

20. As children grow, they begin to use:

- A) Prepositions, conjunctions, and noun clauses ✓
- B) Flashcards only
- C) Animal sounds
- D) One-word answers

Topics 106–110: Kindergarten, Language, Play, Primary Grades, Theories

1. Who is known as the founder of the kindergarten concept?

A) Maria Montessori

B) John Dewey

C) Fredrick Froebel ☒

D) Jean Piaget

2. The word “kindergarten” means:

A) Children’s home

B) Garden of children ☒

C) Learning home

D) Teaching school

3. Kindergarten supports which type(s) of development?

A) Only cognitive

B) Only physical

C) Physical, cognitive, language, and socio-psychological ☒

D) None

4. Gross and fine motor skills are developed in kindergarten through:

A) Memorization

B) Activities and play ☒

C) Recitation

D) Dictation

5. Preschoolers show rapid growth in:

A) Vocabulary and sentence length ☒

B) Spelling only

C) Memorizing poems

D) Drawing skills

2. Which of the following is influenced by classroom arrangements?
- Parent's satisfaction
 - Children's learning ✓
 - Teacher's salary
 - Curriculum cost
3. Which approach focuses on enhancing learning through understanding development?
- Behavioral
 - Developmentally Appropriate Practice ✓
 - Classical Conditioning
 - Operant Conditioning
4. Guidance theories assist teachers in:
- Discipline only
 - Budget planning
 - Designing effective learning programs ✓
 - Supervising exams
5. Who defined evaluation as a process of judging value by certain appraisal?
- Muffat
 - Hanna
 - Goods ✓
 - Piaget
6. Evaluation helps in identifying students':
- Problems ✓
 - Parents
 - Environment
 - Timetable
7. Which of the following is NOT a purpose of evaluation?
- Classification
 - Remedial guidance

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

c) Admission ☒

d) Diagnostic support

8. Evaluation helps improve:

a) Teaching and learning process ☒

b) Textbook design only

c) Playground facilities

d) Infrastructure

9. Evaluation is a _____ process.

a) Random

b) Continuous ☒

c) Temporary

d) Limited

10. Which type of evaluation helps in providing proper solutions?

a) Diagnostic

b) Remedial ☒

c) Summative

d) Normative

11. Decision making involves choosing from:

a) Single option

b) Multiple alternatives ☒

c) Peer review

d) Standardized ideas

12. First step in decision making is to:

a) Implement plan

b) Set objectives ☒

c) Assess outcomes

d) Take feedback

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

13. What must be done after developing alternatives in decision-making?

- a) Implement directly
- b) Repeat objective setting
- c) Evaluate against objectives ✓
- d) Skip the evaluation

14. Teachers make decisions based on:

- a) Children's developmental needs ✓
- b) School fees
- c) Class size only
- d) Staff salaries

15. Which skill is essential in teaching?

- a) Cooking
- b) Communication ✓
- c) Construction
- d) Translation

16. Communication with parents helps in:

- a) Explaining child's development ✓
- b) Increasing school fees
- c) Avoiding involvement
- d) Denying feedback

17. Effective communication enables teachers to:

- a) Collaborate and update progress ✓
- b) Ignore student behavior
- c) Avoid discussion
- d) Rely only on written exams

18. Which of the following is NOT a communication activity for teachers?

- a) Speaking
- b) Reading

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- c) Listening
- d) Painting ☒

19. Piaget's theory focuses on:

- a) Emotional development
- b) Cognitive development ☒
- c) Physical growth
- d) Nutritional habits

20. Which of the following is a stage of Piaget's cognitive development?

- a) Sensorimotor ☒
- b) Pre-birth
- c) Analytical
- d) Practical

Topics 116–120: Constructivism, Active Learning, Schema, Adaptation, Assimilation

1. Constructivism emphasizes that knowledge is:

- A) Memorized
- B) Transferred by the teacher
- C) Constructed by the learner ☒
- D) Inherited genetically

2. Constructivist teachers build on:

- A) National curriculum
- B) Children's past knowledge and experiences ☒
- C) Formal testing
- D) Technological input

3. Which of the following is not a principle of constructivism?

- A) Prior knowledge impacts learning
- B) Learning is passive ☒

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- C) Knowledge is constructed
- D) Purposeful activity is needed

4. Initial understanding in constructivism is:

- A) Global
- B) Local ☒
- C) Unnecessary
- D) Complete

5. Active learning is based on:

- A) Mental and physical activity ☒
- B) Passive listening
- C) Memorization only
- D) Rote learning

6. Active learning is a core element of:

- A) Behaviorism
- B) Constructivism ☒
- C) Classical conditioning
- D) Psychoanalysis

7. Children naturally engage in active learning through:

- A) Curiosity and exploration ☒
- B) Punishment
- C) Competition
- D) Sleep

8. Enriched environments promote:

- A) Active learning ☒
- B) Passive habits
- C) Laziness
- D) Standardized scores

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

9. In active learning, children are:

- A) Problem setters and solvers ✓
- B) Observers only
- C) Copying others
- D) Memorizing silently

10. Schema is defined as:

- A) A drawing tool
- B) A pattern of thought or behavior ✓
- C) A punishment strategy
- D) A storybook

11. Schemas are formed through:

- A) Experience and interaction ✓
- B) Sleeping
- C) External rewards
- D) Inheritance only

12. At birth, children's schemas are mainly:

- A) Reflexive (e.g., sucking, grasping) ✓
- B) Logical reasoning
- C) Mathematical
- D) Verbal

13. Schemas help children:

- A) Avoid learning
- B) Interpret and organize experiences ✓
- C) Repeat others' behaviors
- D) Reject new ideas

14. Adaptation in learning is the ability to:

- A) Adjust to new information ✓

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Reject change
- C) Memorize facts
- D) Avoid challenges

15. Adaptation involves:

- A) Assimilation and accommodation ☒
- B) Avoidance and acceptance
- C) Teaching and testing
- D) Reading and writing

16. Through adaptation, children:

- A) Cope with environmental changes ☒
- B) Sleep longer
- C) Compete better
- D) Avoid change

17. Adaptation occurs at:

- A) Emotional level only
- B) Cognitive level ☒
- C) Physical level only
- D) Visual level

18. Assimilation is the process of:

- A) Fitting new experiences into existing schemas ☒
- B) Changing schemas entirely
- C) Deleting past knowledge
- D) Memorizing facts

19. Children use assimilation when they:

- A) Apply old knowledge to new situations ☒
- B) Ignore new ideas
- C) Learn new things from scratch
- D) Forget past learning

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔
اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

20. The example of a child mistaking a dog for a cat illustrates:

- A) Assimilation ☒
- B) Accommodation
- C) Evaluation
- D) Reflex

Topics 121–125: Accommodation, Equilibrium, Piaget's Stages

1. Accommodation involves:

- A) Fitting new data into existing schemas
- B) Changing mental representations to fit new information ☒
- C) Repeating behaviors
- D) Avoiding new experiences

2. What happens when a child sees a dog and modifies their schema of a cat?

- A) Equilibrium
- B) Accommodation ☒
- C) Sensorimotor learning
- D) Passive learning

3. Accommodation is essential when:

- A) The child avoids learning
- B) New data doesn't fit existing categories ☒
- C) Schema remains unchanged
- D) Repetition occurs

4. In cognitive development, accommodation leads to:

- A) Forgetting
- B) Schema formation or modification ☒
- C) Passive listening
- D) Memorization

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

5. Equilibrium is achieved when:
- A) The child gives up learning
 - B) Assimilation and accommodation are balanced ✓
 - C) Learning stops
 - D) Schema is rejected
6. Which term refers to restoring balance in cognitive development?
- A) Assimilation
 - B) Equilibrium ✓
 - C) Reflex
 - D) Language
7. When a child can't assimilate new information, they will attempt to:
- A) Accommodate and restore equilibrium ✓
 - B) Forget it
 - C) Refuse learning
 - D) Repeat old methods
8. Equilibrium in Piaget's theory is a state of:
- A) Cognitive balance ✓
 - B) Emotional control
 - C) Language dominance
 - D) Physical rest
9. Piaget studied children's cognitive growth by:
- A) Observing and following their thinking ✓
 - B) Giving fixed answers
 - C) Testing only memory
 - D) Using rewards
10. Piaget believed development results from interaction between:
- A) Books and teachers

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔
اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Heredity and environment ✓
- C) Toys and stories
- D) Language and reading

11. According to Piaget, intellectual development influences:

- A) Emotional, moral, and social development ✓
- B) Only physical health
- C) Nutrition
- D) Sleep

12. Piaget's method focused more on:

- A) Logical reasoning used by children ✓
- B) Correct answers
- C) Fast learning
- D) Punishments

13. The sensorimotor stage occurs from:

- A) 0–2 years ✓
- B) 2–7 years
- C) 7–11 years
- D) 11–18 years

14. Which skill develops during Reflexes (0–2 months) substage?

- A) Using inborn reflexes like sucking and looking ✓
- B) Walking
- C) Symbolic play
- D) Reading

15. Tertiary Circular Reactions involve:

- A) Language learning
- B) Trial-and-error behavior ✓

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

C) Logical decisions

D) Equilibrium

16. In Secondary Circular Reactions (4–8 months), the child:

A) Repeats actions to produce effects on the environment ☒

B) Begins to talk

C) Forms complex sentences

D) Understands rules

17. The preoperational stage occurs between ages:

A) 2–7 years ☒

B) 0–2 years

C) 7–11 years

D) 11–15 years

18. Children in the preoperational stage are:

A) Egocentric and symbolic thinkers ☒

B) Logical and abstract

C) Fully socialized

D) Non-verbal

19. A hallmark of the preoperational stage is:

A) Language emergence and pretend play ☒

B) Concrete operations

C) Algebraic reasoning

D) Scientific testing

20. Children at this stage struggle to understand:

A) The idea of constancy and others' perspectives ☒

B) Shapes

C) Letters

D) Nursery rhymes

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔
اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

Topics 126–130: Representation, Conservation, Egocentrism, Concrete Operational Stage, Reversibility

1. Piaget believed intellectual development is influenced by:

- A) Formal instruction only
- B) Heredity and environment ✓
- C) Rewards and punishments
- D) Age alone

2. Piaget focused on children's:

- A) Logic and reasoning processes ✓
- B) Grades
- C) Emotions only
- D) Reading ability

3. How did Piaget gather insights into children's thinking?

- A) Standardized testing
- B) Observing and questioning children flexibly ✓
- C) IQ tests
- D) Surveys

4. According to Piaget, intellectual development affects:

- A) Emotional, social, and moral development ✓
- B) Only academic success
- C) Sleep and diet
- D) None of these

5. What is conservation in Piaget's theory?

- A) Understanding that quantity remains the same despite changes in appearance ✓
- B) Preserving energy
- C) Saving resources
- D) Memorizing facts

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

6. Children who fail conservation tasks are usually in the:

- A) Preoperational stage ✓
- B) Concrete operational stage
- C) Formal operational stage
- D) Sensorimotor stage

7. Why do preoperational children fail conservation tasks?

- A) They focus on appearance rather than logic ✓
- B) They can reverse actions mentally
- C) They ignore visuals
- D) They are shy

8. Which is an example of conservation?

- A) Understanding water volume stays the same in different shaped containers ✓
- B) Talking to oneself
- C) Naming animals
- D) Matching shapes

9. Egocentrism refers to:

- A) Inability to see another's point of view ✓
- B) Selfish behavior
- C) High self-esteem
- D) Being alone

10. Egocentric speech is when children:

- A) Talk to themselves to guide thinking ✓
- B) Give speeches
- C) Talk only with adults
- D) Refuse to speak

11. Which experiment did Piaget use to demonstrate egocentrism?

- A) Three Mountains Task ✓

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Marshmallow Test
- C) Doll Experiment
- D) Memory Test

12. Which age group shows the most egocentric thinking?

- A) Preoperational children ☒
- B) Adults
- C) Adolescents
- D) Infants

13. The concrete operational stage occurs between ages:

- A) 7–11 years ☒
- B) 2–6 years
- C) 0–2 years
- D) 12–18 years

14. Which type of logic is common in this stage?

- A) Inductive logic ☒
- B) Deductive logic
- C) Emotional logic
- D) Symbolic logic

15. Children in the concrete operational stage:

- A) Understand reversibility and conservation ☒
- B) Can think abstractly
- C) Cannot perform mental operations
- D) Only memorize facts

16. An example of inductive logic would be:

- A) Noticing allergies from repeated experience with cats ☒
- B) Learning math formulas
- C) Writing essays
- D) Memorizing tables

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

17. Reversibility is the ability to:

- A) Mentally reverse an action or thought ✓
- B) Walk backward only
- C) Change emotions quickly
- D) Repeat physical tasks

18. Which equation shows reversibility?

- A) $2 + 4 = 6$ and $6 - 4 = 2$ ✓
- B) $5 \times 5 = 25$
- C) $A = B$, $B = C$
- D) $10 \div 2 = 5$

19. Reversibility is a characteristic of which Piagetian stage?

- A) Concrete operational ✓
- B) Preoperational
- C) Sensorimotor
- D) Formal operational

20. A deflated ball being refilled and reused is an example of:

- A) Reversibility ✓
- B) Conservation
- C) Egocentrism
- D) Imagination

Topics 131–135: Classification, Seriation, Formal Operational Stage, Bruner's Theory, Enactive Stage

1. Classification means:

- A) Drawing
- B) Grouping objects based on common properties ✓
- C) Writing alphabets
- D) Memorizing shapes

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

2. Which is an example of classification?

- A) Grouping blocks by color ✓
- B) Drawing a tree
- C) Singing a rhyme
- D) Listening to music

3. Why is classification important for children?

- A) It helps in solving problems and understanding differences ✓
- B) It improves singing
- C) It helps in drawing
- D) It enhances memorization

4. Initially, children classify based on:

- A) Abstract ideas
- B) What they see, hear, and feel ✓
- C) Mathematical logic
- D) Written text

5. Seriation means arranging objects:

- A) In a logical order like small to large ✓
- B) In groups randomly
- C) Alphabetically
- D) By age

6. Which of the following is an example of seriation?

- A) Arranging pencils from shortest to tallest ✓
- B) Coloring shapes
- C) Reading a book
- D) Playing a song

7. Seriation helps in which subjects?

- A) Math and science ✓

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Art
- C) History
- D) Language only

8. Piaget assessed seriation using:

- A) Sticks of different lengths ☒
- B) Blocks of same size
- C) Colored papers
- D) Toy cars

9. Formal operational stage begins at around age:

- A) 7
- B) 12 ☒
- C) 4
- D) 9

10. Which ability develops during formal operational stage?

- A) Abstract thinking and deductive logic ☒
- B) Only sensory perception
- C) Walking and running
- D) Singing and dancing

11. Which is an example of formal operational thought?

- A) Planning where to place a third eye and how to use it ☒
- B) Naming colors
- C) Grouping by shapes
- D) Reading short stories

12. Which reasoning is emphasized in this stage?

- A) Deductive and inferential ☒
- B) Trial and error
- C) Mimicry
- D) Memorization

13. Bruner believed in learning through:

- A) Repetition
- B) Inquiry and discovery ✓
- C) Memorization
- D) Tests

14. Bruner's theory emphasizes:

- A) Enactive, iconic, and symbolic representations ✓
- B) Writing stories
- C) Physical strength
- D) Speed reading

15. Bruner proposed a curriculum should be:

- A) Spiral and build on previous learning ✓
- B) Strict and fixed
- C) Memory-based only
- D) Story-based

16. According to Bruner, what should shape learning?

- A) Culture ✓
- B) Gender
- C) Rules
- D) Rewards

17. Enactive stage is experienced during what age?

- A) 0–1 year ✓
- B) 3–5 years
- C) 6–7 years
- D) 12–13 years

18. Enactive learning involves:

- A) Learning by doing ✓

Inbox For Paid LMS Handling: 03066295623

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Abstract reasoning
- C) Storytelling
- D) Role play

19. A baby shakes a rattle and hears sound. This is:

- A) Enactive learning ☒
- B) Symbolic learning
- C) Iconic representation
- D) Passive learning

20. Enactive memory is based on:

- A) Physical actions ☒
- B) Words
- C) Pictures
- D) Emotions

Topics 136–140: Iconic Stage, Symbolic Stage, Discovery Learning, Vygotsky, ZPD

1. What is another name for the iconic stage?

- A) Enactive stage
- B) Pictorial stage ☒
- C) Verbal stage
- D) Symbolic stage

2. In the iconic stage, information is stored as:

- A) Symbols
- B) Sensory images ☒
- C) Words only
- D) Numbers

3. Which of the following is an example of iconic representation?

- A) A child drawing a tree from memory ☒
- B) A child solving a math problem

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

C) A baby shaking a rattle

D) A child reciting a poem

4. Children in the iconic stage believe:

A) What they see is real and true ☒

B) Everything is imaginary

C) Sounds are more important than sight

D) Actions don't have outcomes

5. At what age does the symbolic stage typically begin?

A) 0–1 years

B) 6–7 years ☒

C) 2–3 years

D) 10 years

6. The symbolic stage involves:

A) Use of language and symbols ☒

B) Trial-and-error only

C) Sound imitation

D) Only drawing

7. Which of the following is a symbolic representation?

A) The word “dog” representing an animal ☒

B) A picture of a flower

C) A child shaking a bell

D) A puppet show

8. Symbols allow children to:

A) Manipulate and organize ideas flexibly ☒

B) Only memorize things

C) Draw pictures only

D) Play silently

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

9. Discovery learning was proposed by:

- A) Jerome Bruner ✓
- B) Jean Piaget
- C) Lev Vygotsky
- D) Sigmund Freud

10. Discovery learning is based on which reasoning?

- A) Inductive reasoning ✓
- B) Deductive logic
- C) Reflexive logic
- D) Visual learning

11. The role of the teacher in discovery learning is to:

- A) Provide all the answers
- B) Facilitate the learning process ✓
- C) Focus only on exams
- D) Enforce rote memorization

12. Discovery learning encourages:

- A) Creativity, imagination, and intuition ✓
- B) Repetition
- C) Copying from books
- D) Only verbal learning

13. In discovery learning, students move from:

- A) Specific examples to general principles ✓
- B) Abstract to concrete
- C) Pictures to poems
- D) Large to small

14. According to Vygotsky, development is mainly influenced by:

- A) Genetics only

Inbox For Paid LMS Handling: 03066295623

100% Accuracy. On Time Work. Full Satisfaction Guaranteed

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

B) Culture and social interaction ✓

C) Nutrition

D) Tests

15. Which of the following supports Vygotsky's theory?

A) Learning occurs through social interaction ✓

B) Learning is solitary

C) Children should discover everything alone

D) Social interaction hinders learning

16. Vygotsky emphasized the role of:

A) More knowledgeable others (adults/peers) ✓

B) Toys and games

C) Teachers only

D) Books only

17. Vygotsky's theory contrasts with that of:

A) Piaget ✓

B) Bruner

C) Freud

D) Skinner

18. ZPD refers to:

A) The zone between what a child can do alone and with help ✓

B) A child's play area

C) Intelligence level

D) A fixed development stage

19. The person guiding a child in ZPD is called:

A) More knowledgeable other ✓

B) Assistant learner

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

C) Peer partner

D) Co-teacher

20. Learning in ZPD involves:

A) Collaborative efforts with guidance ☒

B) Complete independence

C) Learning without help

D) Memorization without understanding

Topics 141–145: Scaffolding, Guided Participation, Apprenticeship, Behaviorism, Classical Conditioning

1. What is scaffolding in education?

A) Temporary support to help children learn ☒

B) A form of punishment

C) Group activity

D) Testing method

2. Who introduced the concept of scaffolding?

A) Piaget

B) Vygotsky ☒

C) Bruner

D) Thorndike

3. Scaffolding is used to:

A) Bridge learning gaps ☒

B) Test children's memory

C) Replace direct teaching

D) Enhance drawing

4. When does a teacher reduce scaffolding?

A) When a child becomes more independent ☒

B) When a new topic is introduced

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- C) After punishment
- D) At the end of school

5. What does guided participation involve?

- A) Learning through doing with support ☒
- B) Watching videos
- C) Memorizing concepts
- D) Passive observation

6. Which of the following is an example of guided participation?

- A) Reading aloud with help sounding out words ☒
- B) Taking a test
- C) Drawing without guidance
- D) Copying from the board

7. Guided participation helps develop:

- A) Problem-solving and memory skills ☒
- B) Singing skills
- C) Motor coordination only
- D) Emotional skills

8. In guided participation, support is:

- A) Gradually reduced as the child learns ☒
- B) Constant
- C) Removed immediately
- D) Replaced with testing

9. Apprenticeship is:

- A) A one-on-one learning relationship ☒
- B) A solo learning method
- C) Group activity
- D) Technology-based learning

10. Cognitive apprenticeship means:

- A) Learning how to think like the mentor ☒
- B) Watching TV for education
- C) Memorizing without understanding
- D) Doing homework alone

11. In traditional societies, apprenticeship was used for:

- A) Teaching fishing, hunting, and crafts ☒
- B) Teaching online courses
- C) Teaching only in schools
- D) Giving lectures

12. The mentor in apprenticeship is:

- A) The experienced person ☒
- B) The learner
- C) The supervisor
- D) The principal

13. Behaviorism focuses on:

- A) Observable behaviors ☒
- B) Mental processes
- C) Emotional learning
- D) Abstract thinking

14. Which is a key method in behaviorism?

- A) Rewards and punishments ☒
- B) Self-reflection
- C) Role play
- D) Symbolic representation

15. According to behaviorists, learning is:

- A) A result of environmental influences ☒

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Genetic
- C) Social
- D) Random

16. Behavioral theories believe behavior change is based on:

- A) Learning from environment ☒
- B) Age and maturity
- C) Emotions
- D) Personality type

17. Who developed classical conditioning?

- A) Ivan Pavlov ☒
- B) Vygotsky
- C) Watson
- D) Thorndike

18. What is an unconditioned stimulus in Pavlov's experiment?

- A) Food ☒
- B) Bell
- C) Light
- D) Saliva

19. What is a conditioned response in Pavlov's experiment?

- A) Salivating after hearing the bell ☒
- B) Running to the bell
- C) Sleeping
- D) Barking

20. Thorndike's theory emphasized:

- A) Reinforcement and consequences ☒
- B) Memory recall
- C) Social interaction
- D) Group work

Topics 146–150: Operant Conditioning, Bandura's Social Learning, Attention & Retention, Reproduction & Motivation

1. Who developed the concept of operant conditioning?

- A) B.F. Skinner ✓
- B) Ivan Pavlov
- C) Albert Bandura
- D) Erik Erikson

2. What does operant conditioning focus on?

- A) Unconscious behavior
- B) Behavior and consequences ✓
- C) Internal conflict
- D) Social roles

3. Which of the following is an example of positive reinforcement?

- A) Giving a child a reward for good behavior ✓
- B) Taking away a toy
- C) Giving extra homework
- D) Ignoring bad behavior

4. What is negative reinforcement?

- A) Removing an unpleasant stimulus to increase behavior ✓
- B) Adding a pleasant stimulus
- C) Giving punishment
- D) Ignoring behavior

5. What does "extinction" mean in operant conditioning?

- A) Strengthening a behavior
- B) Creating new habits
- C) Loss of conditioned behavior over time ✓
- D) Reinforcement of learning

6. Social learning occurs through:

- A) Observation and modeling ☒
- B) Memorization
- C) Trial and error
- D) Only formal instruction

7. What is vicarious reinforcement?

- A) Learning by observing others being rewarded or punished ☒
- B) Getting direct punishment
- C) Practicing a skill
- D) Reinforcement by parents only

8. Which of the following is NOT a key concept in Bandura's theory?

- A) Observation
- B) Repression ☒
- C) Modeling
- D) Motivation

9. What does reciprocal determinism mean?

- A) Environment, behavior, and cognition influence each other ☒
- B) Only behavior affects learning
- C) Genes determine learning
- D) Society alone shapes personality

10. Bandura believed that learning is:

- A) A passive process
- B) A cognitive process in a social setting ☒
- C) Automatic
- D) Only behavioral

11. According to Bandura, what is the first step in observational learning?

- A) Attention ☒

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Motivation
- C) Retention
- D) Reproduction

12. Why is attention important in learning?

- A) Without attention, behaviors can't be noticed or imitated ☒
- B) It's only for classroom management
- C) It keeps students sitting still
- D) It enhances punishment

13. What is retention in social learning theory?

- A) Remembering the behavior observed ☒
- B) Physically performing a behavior
- C) Motivating the child
- D) Rewarding a student

14. If a child observes a behavior but doesn't remember it, this affects:

- A) Reinforcement
- B) Retention ☒
- C) Attention
- D) Extinction

15. Retention is especially vital when:

- A) Learning is not immediate ☒
- B) Learning is always repeated
- C) Teachers use physical activities
- D) Memorizing numbers

16. What does reproduction mean in Bandura's model?

- A) The ability to perform the observed behavior ☒
- B) Remembering the steps
- C) Creating new behaviors
- D) Observing others

17. A person may not reproduce behavior due to:

- A) Lack of physical ability ☒
- B) Motivation
- C) Poor memory
- D) Observation

18. What influences the decision to imitate a behavior?

- A) Memory
- B) Motivation and expected outcomes ☒
- C) Environment only
- D) Physical fitness

19. Which of the following motivates behavior reproduction?

- A) Anticipated reward ☒
- B) Past mistakes
- C) Classroom size
- D) Peer pressure

20. What happens if the observer finds the reward unimportant?

- A) They are unlikely to imitate the behavior ☒
- B) They will still imitate it
- C) They ignore memory
- D) They become disobedient

Topics 151–155: Erikson's Stages, Maslow's Hierarchy

1. Which developmental stage occurs from birth to one year according to Erikson?

- A) Trust vs. Mistrust ☒
- B) Initiative vs. Guilt
- C) Industry vs. Inferiority
- D) Autonomy vs. Shame

2. Trust in infants is built through:

- A) Independence
- B) Consistent and loving care ✓
- C) Strict discipline
- D) Peer interaction

3. Failure to develop trust results in:

- A) Fear and insecurity ✓
- B) Boldness
- C) Overconfidence
- D) Curiosity

4. A teacher can help build trust by:

- A) Meeting children's needs consistently ✓
- B) Giving strict orders
- C) Encouraging isolation
- D) Ignoring infants

5. What age group does the autonomy vs. shame stage cover?

- A) 3–6 years
- B) 1–3 years ✓
- C) Birth–1 year
- D) 6–12 years

6. Autonomy develops when:

- A) Children are allowed to make choices ✓
- B) Children are told what to do
- C) Rules are strictly enforced
- D) Children are isolated

7. What is the key outcome of successful autonomy?

- A) Sense of independence ✓

- B) Distrust
- C) Shame
- D) Guilt

8. What should be avoided during this stage?

- A) Encouragement
- B) Harsh punishment and shaming ☒
- C) Safe exploration
- D) Offering options

9. The initiative vs. guilt stage occurs between the ages of:

- A) 1–3 years
- B) Birth–1 year
- C) 3–6 years ☒
- D) 6–12 years

10. Children show initiative by:

- A) Taking control in play and social interactions ☒
- B) Staying isolated
- C) Avoiding exploration
- D) Waiting for instructions

11. Children who are discouraged from initiating activities may feel:

- A) Guilt and self-doubt ☒
- B) Overconfidence
- C) Inferior
- D) Trusting

12. What results from a healthy balance of initiative?

- A) Trust
- B) Purpose ☒
- C) Shame
- D) Mastery

13. The industry vs. inferiority stage occurs between:

- A) 6–12 years ☒
- B) 3–6 years
- C) 1–3 years
- D) 12–18 years

14. Industry refers to:

- A) A sense of competence and achievement ☒
- B) Misbehavior
- C) Dependence
- D) Obedience

15. Inferiority develops when children:

- A) Are encouraged
- B) Are discouraged or feel they don't measure up ☒
- C) Are given choices
- D) Gain independence

16. Teachers can support industry by:

- A) Helping children feel successful in tasks ☒
- B) Avoiding comparison
- C) Limiting activities
- D) Providing fewer resources

17. What is the highest level of Maslow's hierarchy?

- A) Self-Actualization ☒
- B) Safety Needs
- C) Belongingness
- D) Esteem Needs

18. Which of the following is a basic physiological need?

- A) Sleep ☒

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔
اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Prestige
- C) Affection
- D) Confidence

19. Maslow believed people must fulfill lower needs:

- A) Before reaching self-actualization ☒
- B) After becoming adults
- C) At the same time as upper needs
- D) After achieving social status

20. What is an example of an aesthetic need?

- A) Beauty, balance, form ☒
- B) Self-control
- C) Food and shelter
- D) Power

Topics 156–160: Bronfenbrenner, Health Factors, Heredity, Environment, Teacher's Role

1. Who developed the Ecological Systems Theory?

- A) Urie Bronfenbrenner ☒
- B) Jean Piaget
- C) Erik Erikson
- D) Albert Bandura

2. What is the smallest and most immediate system in Bronfenbrenner's theory?

- A) Microsystem ☒
- B) Exosystem
- C) Macrosystem
- D) Chronosystem

3. Which system includes the child's home, school, and peer group?

- A) Microsystem ☒
- B) Exosystem

- D) Macrosystem

4. Which system indirectly affects the child, such as a parent's workplace?

- A) Microsystem
- B) Exosystem ☒
- C) Chronosystem
- D) Macrosystem

5. Which of the following is not a factor influencing children's health?

- A) Heredity
- B) Weather forecast ☒
- C) Socioeconomic status
- D) Hormones

6. Prenatal care impacts a child's:

- A) Language development only
- B) Immediate and long-term health ☒
- C) Social skills
- D) Moral development

7. Children raised in nurturing environments are more likely to:

- A) Have learning disabilities
- B) Live healthy lives ☒
- C) Become aggressive
- D) Become isolated

8. Which of the following is a familial influence on health?

- A) Parenting style ☒
- B) Pollution
- C) Climate
- D) Technology

9. Heredity refers to:

- A) Genetic traits passed from parents to children ✓
- B) Environmental learning
- C) Family traditions
- D) Physical activities

10. Which condition can be influenced by hereditary factors?

- A) Peer pressure
- B) Diabetes ✓
- C) Sleep habits
- D) Cleanliness

11. Which statement is true about heredity?

- A) It determines social development.
- B) It sets limits for growth and health. ✓
- C) It replaces environmental factors.
- D) It cannot be influenced by lifestyle.

12. The interaction of heredity and lifestyle can:

- A) Be ignored
- B) Affect the development of health conditions ✓
- C) Prevent social learning
- D) Always lead to illness

13. What does the environment include?

- A) Only physical surroundings
- B) Physical, psychological, and cultural factors ✓
- C) Only family income
- D) School alone

14. Which of these is a positive environmental influence?

- A) Adequate rest ✓

15. Which factor negatively affects children's development?

- A) Physical activity
- B) Sedentary lifestyle ☒
- C) Healthy diet
- D) Good hygiene

16. Living in a clean, safe home environment supports:

- A) Poor health
- B) Optimal growth and development ☒
- C) Learning disorders
- D) Stress

17. Teachers can promote health by using:

- A) Strict discipline only
- B) Health promotion and nutrition education ☒
- C) Exams
- D) Behaviorist techniques

18. Which of the following organizations promotes children's well-being?

- A) NAEYC ☒
- B) NASA
- C) WHO
- D) WWF

19. What kind of approach should teachers take in ensuring children's health?

- A) Partial
- B) Holistic ☒
- C) Punitive
- D) Isolated

20. Early Childhood Environmental Rating Scales help with:

- A) Test-taking skills
- B) Promoting TV programs
- C) Ensuring quality health and safety standards ✓
- D) Online learning only

Topics 161–165: Teacher Role, Safety, Nutrition, Indoor/Outdoor Safety

1. What is a core responsibility of early childhood teachers regarding children's health?

- A) Establishing a healthy environment ✓
- B) Giving medication
- C) Performing medical surgeries
- D) Supervising exams

2. Which organization sets standards for early childhood health and safety?

- A) National Health and Safety Performance Standards ✓
- B) NASA
- C) IMF
- D) WHO

3. Teachers support nutrition in classrooms by:

- A) Giving junk food
- B) Providing nutrition education ✓
- C) Letting children choose only sweets
- D) Ignoring mealtimes

4. A quality early childhood environment must have:

- A) Age-appropriate toys and adequate caregiver ratio ✓
- B) No rules
- C) One caregiver for 30 children
- D) Loud, cluttered space

5. Safety in early childhood care means:

- A) Preventing unnecessary harm ✓
- B) Ignoring minor injuries
- C) Allowing risky games
- D) Only outdoor protection

6. Leading cause of death in children under 14 is:

- A) Disease
- B) Unintentional injuries ✓
- C) Poor hygiene
- D) Malnutrition

7. Who is responsible for ensuring safety in childcare?

- A) Doctors only
- B) All caregivers and adults ✓
- C) Older children
- D) Only parents

8. Which is an example of a safety hazard?

- A) Uncovered electrical socket ✓
- B) A clean floor
- C) Well-lit area
- D) Organized bookshelf

9. Nutrition refers to:

- A) The science of food and its effects on health ✓
- B) Playing with food
- C) Food coloring
- D) Only vitamins

10. A well-nourished child is more likely to be:

- A) Dull and inattentive

C) Sleepy all day

D) Disobedient

11. Which of these affects a child's nutritional status?

A) Family income and knowledge ✓

B) Only doctor visits

C) Watching TV

D) Clothing

12. Teachers can promote nutrition by:

A) Planning meals and educating children ✓

B) Giving sugary drinks

C) Ignoring food hygiene

D) Avoiding snack time

13. What kind of flooring is best for indoor play areas?

A) Slippery tiles

B) Friction-resistant floors ✓

C) Marble

D) Cement

14. Children's furniture should:

A) Have curved, soft edges ✓

B) Be metallic and tall

C) Include sharp corners

D) Be made of glass

15. Sockets in play areas should be:

A) Turned off and out of reach ✓

B) Uncovered

C) At floor level

D) Decorated

16. Why is proper lighting essential in indoor play areas?

A) Children fear darkness and need to see toys ✓

B) For decoration only

C) To save electricity

D) To keep kids sleepy

17. What material is not ideal for safe playground surfacing?

A) Concrete ✓

B) Sand

C) Rubber mulch

D) Wood chips

18. Why is fencing important in outdoor play areas?

A) To keep children within a safe zone ✓

B) Decoration only

C) For adults only

D) To protect equipment

19. What should be done with broken playground equipment?

A) Ignore it

B) Repair or replace immediately ✓

C) Paint over it

D) Hide it

20. Why is age-appropriate equipment important in outdoor play areas?

A) To ensure safety and proper engagement ✓

B) To make children compete

C) For faster learning

D) To entertain parents

Topics 166–173: EFA, MDGs/SDGs, ECCE in Pakistan, Curriculum & Policy

1. What year was the EFA initiative launched?

- A) 1990 ☒
- B) 2000
- C) 2015
- D) 1980

2. Which of the following is one of the six EFA goals?

- A) Expand early childhood care and education ☒
- B) Provide only higher education
- C) Free technical training for youth
- D) None of the above

3. EFA aims to eliminate gender disparities in education by:

- A) 2005 ☒
- B) 2020
- C) 1995
- D) 2030

4. EFA targets which group for improved adult literacy?

- A) Women ☒
- B) Children
- C) Men
- D) Elders

5. EFA Goal 6 emphasizes:

- A) Quality of education and measurable outcomes ☒
- B) Construction of schools
- C) Free uniforms
- D) Hiring untrained teachers

6. What replaced the MDGs in 2015?

- A) SDGs ☒
- B) EFA
- C) ECCE
- D) PISA

7. By what year must SDG targets be achieved?

- A) 2025
- B) 2030 ☒
- C) 2040
- D) 2015

8. Which SDG directly addresses Early Childhood Development (ECD)?

- A) Goal 4 ☒
- B) Goal 1
- C) Goal 8
- D) Goal 10

9. How many SDG goals and targets are there?

- A) 17 goals and 169 targets ☒
- B) 10 goals and 50 targets
- C) 20 goals and 100 targets
- D) 15 goals and 140 targets

10. What is the deadline for achieving the SDGs?

- A) 2030 ☒
- B) 2020
- C) 2015
- D) 2045

11. Which goal links ECD with poverty alleviation?

- A) Goal 1 ☒

پڑھو اپنے رب کے نام سے جس نے پیدا کیا۔

اس نے انسان کو وہ کچھ سکھایا جو وہ نہیں جانتا تھا۔

- B) Goal 4
- C) Goal 10
- D) Goal 3

12. ECD interventions help buffer the negative effects of:

- A) Stress ☒
- B) Games
- C) Climate
- D) Light

13. Goal 5 connects ECD with:

- A) Women's economic empowerment ☒
- B) Nutrition
- C) Child mortality
- D) Forest conservation

14. What does Goal 12 focus on in ECD?

- A) Environmental conservation practices ☒
- B) Quality of toys
- C) Writing skills
- D) Food habits

15. Which goal highlights ECD's role in promoting peace?

- A) Goal 16 ☒
- B) Goal 4
- C) Goal 10
- D) Goal 7

16. When did ECCE start being seriously implemented in Pakistan?

- A) 1950
- B) After 2010 ☒
- C) 1990
- D) 2005

17. What is a major challenge faced by ECCE in Pakistan?

- A) Lack of trained teachers ✓
- B) Lack of buildings only
- C) Too many books
- D) Overuse of tablets

18. Which article of the constitution ensures education for all in Pakistan?

- A) Article 25-A ✓
- B) Article 14
- C) Article 19
- D) Article 32

19. What is the main teaching approach recommended for ECCE?

- A) Rote memorization
- B) Play-way method ✓
- C) Lectures
- D) Black-board only

20. Alpha Generation refers to children born in:

- A) 2010–2025 ✓
- B) 2000–2010
- C) 1990–2000
- D) 2025–2035

21. In which year was the first ECCE curriculum development initiated in Pakistan?

- A) 1995
- B) 2002 ✓
- C) 2005
- D) 2010

22. The latest revised ECCE curriculum was introduced in:

28. ECCE curriculum is developed focusing on:

- A) Four learning domains ✓
- B) Five subject areas
- C) Two age groups
- D) International funding

29. Observation in ECCE is necessary because:

- A) Children don't write tests
- B) Teachers need to entertain
- C) Children are unable to memorize
- D) Learning stages must be assessed ✓

30. ECCE teachers should develop which skill in children most importantly?

- A) Memorization
- B) Structured Communication ✓
- C) Political Awareness
- D) Obedience

31. Which method is emphasized in ECCE for learning?

- A) Drill Method
- B) Lecture Method
- C) Play-Way Method ✓
- D) Rote Method

32. What is one of the major recommendations to improve ECCE in Pakistan?

- A) Eliminate rural schools
- B) Increase ECCE fees
- C) Hire ECCE-trained teachers ✓
- D) Reduce class time

33. One challenge faced by ECCE teachers is:

- A) Too much financial aid

34. What is recommended for ECCE teachers at the end of each term?

A) Salary deduction

B) Detention

C) Awards and appreciation letters ✓

D) Extra training

35. ECCE success in Punjab is majorly due to:

A) High birth rate

B) Punjab Education Foundation ✓

C) Removal of exams

D) Lack of NGOs

36. ECCE monitoring should be:

A) Fear-based

B) Punitive

C) Threatening

D) Positive and evaluative ✓

37. Accreditation ensures:

A) High fees

B) Teacher holidays

C) Institutional credibility ✓

D) Parent involvement

38. In Pakistan, most ECCE teachers are:

A) Trained and licensed

B) Doctors in education

C) Hired without ECCE-specific training ✓

D) Paid high salaries
