Question No:1 **(Marks:1)** **Vu-Topper RM**

What is the primary advantage of a Type 2 Hypervisor?

A. It provides better performance and resource utilization compared to a Type 1 Hypervisor.

B. It offers enhanced security features and isolation between virtual machines

C. It enables direct access to the physical hardware, resulting in faster I/O operations.

D. It allows for easier installation and management since it runs within the host operating system

Question No:2 **(Marks:1)** **Vu-Topper RM**

What is the typical deployment scenario for Type-2 hypervisors?

A. Developer workstations and test environments

B. Public cloud infrastructure services

C. Data centers with large-scale virtualization clusters

D. High-traffic web servers and database servers

Question No:3 **(Marks:1)** **Vu-Topper RM**

What is the primary use case for Type-2 hypervisors?

A. Cloud computing infrastructure

B. Desktop virtualization for individual users

C. Server virtualization in enterprise environments

D. High-performance computing clusters

Question No:4 **(Marks:1)** **Vu-Topper RM**

Which file format is commonly used to store virtual machine images in a Type 2 Hypervisor?

A. ISO (Disk Image)

B. VHDX (Virtual Hard Disk)

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

C. VDI (VirtualBox Disk Image)
D. VMDK (Virtual Machine Disk)

Question No:5 **(Marks:1)** **Vu-Topper RM**
What is the main advantage of using a Type-2 hypervisor?
A. Flexibility to run multiple operating systems on a single machine
B. Lower cost compared to Type-1 hypervisors
C. Enhanced security and isolation between virtual machines
D. Higher performance for resource-intensive workloads

Question No:6 **(Marks:1)** **Vu-Topper RM**
Which virtualization tool is widely used in enterprise environments and offers advanced features such as high availability and distributed resource management?
A. VMware vSphere
B. KVM
C. Xen
D. Hyper-V

Question No:7 **(Marks:1)** **Vu-Topper RM**
What is VMware vSphere?
A. A management platform for virtualization infrastructure
B. A hypervisor for server virtualization.
C. A networking protocol for virtual machine communication
D. An operating system for virtual machines

Question No:8 **(Marks:1)** **Vu-Topper RM**
Which virtualization technology is most commonly associated with containerization?

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

A. Docker
B. Hyper-V
C. ESXi
D. KVM

Question No:9 **(Marks:1)** **Vu-Topper RM**
Which type of hypervisor is more susceptible to security risks due to its dependency on the host operating system?
A. Type 4
B. Type 2
C. Type 1
D. Type 3

Question No:10 **(Marks:1)** **Vu-Topper RM**
Which hypervisor is known to prioritize performance-critical workloads over security?
A. Citrix XenServer
B. Oracle VirtualBox
C. VMware vSphere
D. Microsoft Hyper-V

Question No:11 **(Marks:1)** **Vu-Topper RM**
Among the hypervisor options, which one is more prone to attacks targeting vulnerabilities in the underlying host operating system?
A. Oracle VirtualBox
B. Microsoft Hyper-V
C. VMware vSphere
D. Citrix XenServer

Question No:12 **(Marks:1)** **Vu-Topper RM**

Which type of virtualization creates virtualized versions of physical hardware devices, allowing multiple virtual devices to run on a single physical device?

A. Server virtualization
B. Storage virtualization
C. Hardware virtualization
D. Network virtualization

Question No:13 **(Marks:1)** **Vu-Topper RM**

Which type of virtualization creates virtualized versions of physical network devices, allowing multiple virtual networks to run on a single physical network?

A. Network virtualization
B. Storage virtualization
C. Server virtualization
D. Application virtualization

Question No:14 **(Marks:1)** **Vu-Topper RM**

Which hypervisor type is commonly used for personal desktop virtualization and software testing?

A. Type 4
B. Type 2
C. Type 1
D. Type 3

Question No:15 **(Marks:1)** **Vu-Topper RM**

Which type of virtualization allows applications to run on a virtualized operating system, separate from the host operating system?

A. Server virtualization

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

VuTopper RM

B. Application virtualization
C. Storage virtualization
D. Network virtualization

Question No:16 **(Marks:1)** **Vu-Topper RM**
Which type of virtualization allows multiple virtual servers to run on a single physical server, sharing the underlying hardware resources?
A. Network virtualization
B. Server virtualization
C. Storage virtualization
D. Application virtualization

Question No:17 **(Marks:1)** **Vu-Topper RM**
Which type of virtualization pools storage resources from multiple physical devices into a single virtual storage device?
A. Storage virtualization
B. Server virtualization
C. Network virtualization
D. Application virtualization

Question No:18 **(Marks:1)** **Vu-Topper RM**
Which technology provides the solution of Application level virtualization?
A. Microsoft Azure
B. Docker
C. Microsoft App-v
D. Google Cloud Platform

Vu Topper RM

Question No:19 **(Marks:1)** **Vu-Topper RM**

The practice of hosting a desktop Operating system and applications together on remote host is called _____.

A. Storage Virtualization

B. Desktop Virtualization

C. Data Virtualization

D. Application Virtualization

Question No:20 **(Marks:1)** **Vu-Topper RM**

Which type of hypervisor is more suitable for non-resource-intensive applications where high performance is not a critical requirement?

A. Type 4

B. Type 2

C. Type 1

D. Type 3

Question No:21 **(Marks:1)** **Vu-Topper RM**

Which statement is incorrect in case of Applications Virtualization?

A. Run cross-platform applications

B. Application are independent of underlying OS

C. Applications cost reduced

D. Applications installed locally on client machine

Question No:22 **(Marks:1)** **Vu-Topper RM**

Which technology companies are known for operating massive data centers to support their services?

A. Twitter and LinkedIn

B. Facebook and Google

C. Microsoft and Apple

D. Amazon and Netflix

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

Question No:23 **(Marks:1)** **Vu-Topper RM**

Which type of organization offers data center services such as colocation, hosting, or cloud services?

A. Advertising Agencies
B. Law Firms
C. Hospitals
D. Data Center Service Providers

Question No:24 **(Marks:1)** **Vu-Topper RM**

What is the primary advantage of a Hardware-Defined Data Center (HDDC)?

A. Lower hardware costs
B. Enhanced scalability and flexibility
C. Higher performance and lower latency
D. Simplified management and reduced complexity

Question No:25 **(Marks:1)** **Vu-Topper RM**

Which company designs its own custom servers and data centers as part of its infrastructure strategy?

A. TikTok
B. Airbnb
C. Facebook
D. Spotify

Question No:26 **(Marks:1)** **Vu-Topper RM**

What is the primary advantage of a Software-Defined Data Center (SDDC)?

A. Improved security
B. Faster data processing speed.
C. Enhanced scalability and flexibility

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

Vu Topper RM

D. Reduced hardware costs.

Question No:27 **(Marks:1)** **Vu-Topper RM**
What does vCPU stand for in the context of a virtual data center?
A. Virtual Core Processing Unit
B. Virtual Compute Processing Unit
C. Virtual Central Processing Unit
D. Virtual Control Processing Unit

Question No:28 **(Marks:1)** **Vu-Topper RM**
Which feature allows multiple virtual machines to access a shared storage system concurrently while maintaining data integrity?
A. Network-attached storage (NAS)
B. Storage area network (SAN)
C. Storage virtualization
D. Distributed file system

Question No:29 **(Marks:1)** **Vu-Topper RM**
What is the benefit of using virtual hard disks in a virtual data center?
A. Reduced hardware costs and better resource utilization
B. Enhanced data security and encryption capabilities
C. Improved network connectivity and lower latency
D. Increased physical storage capacity and faster data access

Question No:30 **(Marks:1)** **Vu-Topper RM**
How are vCPUs allocated to virtual machines in a virtual data center?
A. vCPUs are dynamically allocated based on the workload of each virtual machine.
B. vCPUs are only allocated to high-priority virtual machines.

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

C. vCPUs are shared among all virtual machines in the data center.
D. Each virtual machine is assigned a fixed number of vCPUs.

Question No:31 **(Marks:1)** **Vu-Topper RM**
Which architectural component of a Virtual Data Center enables the migration of virtual machines between physical hosts without service interruption?
A. Load Balancer
B. Live Migration Manager
C. Hypervisor
D. Virtual Switch

Question No:32 **(Marks:1)** **Vu-Topper RM**
Which type of virtualization creates virtualized versions of physical network devices, allowing multiple virtual networks to run on a single physical network? Correct answer: c) Network virtualization
A. Server virtualization
B. Application virtualization
C. Network virtualization
D. Storage virtualization

Question No:33 **(Marks:1)** **Vu-Topper RM**
Which component of an SDDC is responsible for managing and orchestrating virtual machines?
A. Software-Defined Storage (SDS)
B. Hypervisor
C. Virtual Machine Manager (VMM)
D. Software-Defined Networking (SDN)

Question No:34 **(Marks:1)** **Vu-Topper RM**

Which virtualization tool provides a Type-2 hypervisor that runs on top of an existing operating system?

A. KVM

B. VirtualBox

C. Hyper-V

D. VMware vSphere

Question No:35 **(Marks:1)** **Vu-Topper RM**

What is a virtual machine (VM)?

A. A network device that connects virtual machines to the internet

B. A software program that emulates a physical computer system

C. A virtual storage device used for data backup.

D. A physical server in a virtualized environment

Question No:36 **(Marks:1)** **Vu-Topper RM**

Which of the following is a popular open-source virtualization tool?

A. Xen

B. VMware vSphere

C. VirtualBox

D. Hyper-V

Question No:37 **(Marks:1)** **Vu-Topper RM**

What is the purpose of a snapshot feature in virtual machines?

A. To capture the state of a virtual machine at a specific point in time for backup or recovery purposes.

B. To transfer a virtual machine from one physical server to another without interruption.

C. To allocate additional resources to a virtual machine for improved performance

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

D. To allow multiple virtual machines to communicate with each other

Question No:38 **(Marks:1)** **Vu-Topper RM**

Which component of VMware vSphere allows multiple virtual machines to run on a single physical server?

A. ESXi

B. Virtual Machine Monitor (VMM)

C. vMotion

D. vCenter

Question No:39 **(Marks:1)** **Vu-Topper RM**

Which virtualization technology is primarily used in cloud computing platforms like Amazon EC2?

A. Xen

B. Hyper-V

C. KVM

D. ESXi

Question No:40 **(Marks:1)** **Vu-Topper RM**

Which virtualization technology provides live migration capabilities for running virtual machines?

A. KVM

B. Hyper-V

C. ESXi

D. Xen

Question No:41 **(Marks:1)** **Vu-Topper RM**

What is the command-line interface used in ESXi called?

A. Bash

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. ESXi Shell
C. Command Prompt
D. PowerShell

Question No:42 **(Marks:1)** **Vu-Topper RM**
What is ESXi?
A. A hardware component in server architecture
B. A network protocol for remote server management
C. An operating system for servers
D. A virtualization platform by VMware

Question No:43 **(Marks:1)** **Vu-Topper RM**
Which company develops and maintains ESXi?
A. VMware
B. Oracle
C. Red Hat
D. Microsoft

Question No:44 **(Marks:1)** **Vu-Topper RM**
What is the first step in creating a virtual machine (VM) using a Type 2 Hypervisor?
A. Configure network settings for the VM
B. Create a virtual hard disk for the VM
C. Allocate resources such as CPU, memory, and storage to the VM
D. Install the Type 2 Hypervisor on the host operating system

Question No:45 **(Marks:1)** **Vu-Topper RM**
Which of the following is a key feature of ESXi?
A. Server virtualization

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

B. Hardware load balancing
C. Network routing
D. Data replication

Question No:46 **(Marks:1)** **Vu-Topper RM**
Choose the correct layer for VirtualBox in the below diagram?
A. Layer 1
B. Layer 1 and Layer 2
C. Layer 2
D. Layer 3

Question No:47 **(Marks:1)** **Vu-Topper RM**
Which option is used to add a new Virtual Machine in VirtualBox interface?
A. Import
B. New
C. Settings and Import
D. Settings

Question No:48 **(Marks:1)** **Vu-Topper RM**
What is the primary function of ESXi?
A. Managing network switches
B. Managing physical servers
C. Providing cloud storage
D. Managing virtual machines

Question No:49 **(Marks:1)** **Vu-Topper RM**
Capturing the state and data of Virtual Machine at any stage is called _____.
A. VM migration

Vu Topper RM

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

B. Pausing VM
C. Backup
D. Snapshot

Question No:50 **(Marks:1)** **Vu-Topper RM**
The facility of capturing snapshot of Virtual Machine at any stage in VirtualBox is _____.
A. Restricted to paid products
B. Not available
C. Free of cost
D. Misleading

Question No:51 **(Marks:1)** **Vu-Topper RM**
On a particular server:
A. If we reboot one VM, it has no effect on other VMs
B. If we reboot one VM, then physical server is required to boot first
C. We cannot reboot any VM
D. If we reboot one VM, all other VMs reboot at the same time

Question No:52 **(Marks:1)** **Vu-Topper RM**
Which component helps manage and control the use of the network?
A. Security
B. Traffic shaping
C. NIC teaming
D. Network policies

Question No:53 **(Marks:1)** **Vu-Topper RM**
How many Guest Operating systems are there in a Virtual environment, if we have a one Physical Machine and 9 Virtual Machines?

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Vu Topper RM

A. 10
B. 1
C. 9
D. 0

Question No:54 **(Marks:1)** **Vu-Topper RM**

Increasing the number of Virtual Machines in Virtual Environment can _____the System performance?

A. Enhance
B. Pause
C. Not effect
D. Degrade

Question No:55 **(Marks:1)** **Vu-Topper RM**

Which aspect of network management ensures that critical applications receive sufficient bandwidth and prevents network congestion?

A. NIC teaming
B. Security
C. Network policies
D. Traffic shaping

Question No:56 **(Marks:1)** **Vu-Topper RM**

Which component provides increased bandwidth, failover protection, and load balancing by combining multiple network interfaces?

A. NIC teaming
B. Network policies
C. Security
D. Failover

Vu Topper RM

بری صحبت سے تنہائی بہتر ہے اور تنہائی سے نیک صحبت بہتر ہے

For More Help Contact What's app 03224021365

Question No:57 **(Marks:1)** **Vu-Topper RM**

What is the purpose of failover?

A. To provide backup in case of failure or outage

B. To manage network traffic

C. To govern the use of the network

D. To combine multiple network interfaces

Question No:58 **(Marks:1)** **Vu-Topper RM**

If we have a total 5 Virtual Machines in a Virtual Environment and suddenly one fails, then how many other VMs will affect?

A. 1

B. 0

C. 4

D. 5

Question No:59 **(Marks:1)** **Vu-Topper RM**

What does security in network management involve?

A. Preventing unauthorized access and protecting against security threats

B. Managing network traffic

C. Managing network policies

D. Combining multiple network interfaces

Question No:60 **(Marks:1)** **Vu-Topper RM**

Which aspect of network management involves managing the flow of network traffic to ensure sufficient bandwidth for critical applications?

A. Security

B. Network policies

C. Traffic shaping

D. NIC teaming
