The state transition diagram _____

Answer (Please select your correct option)

Depicts relationships between data objects

Depicts functions that transform the data flow

Indicates how data are transformed by the system

Indicates system reactions to external events

Correct answer solved by hadi

What would be the most suitable architecture to develop a commercial web page to do business transactions over the internet?

Answer (Please select your correct option)

Client server model

Island model

RAD model

Repository model

Made By: Waqar Siddhu

UML (unified modeling language) analysis modeling focuses on the _____.

Answer (Please select your correct option)

☐ Behavioral model and environment model.

☐ Behavioral model and implementation model.

☐ User model and environmental model

☒ User model and structural model

Given below are some statements associated with prototyping. Which one is correct statement?

Answer (Please select your correct option)

The scope and the complexity of the system can quickly expand beyond original plans.

Prototyping decreases creativity since it does not allow quick feedback.

Prototypes negate the requirement for the system analysis phase.

Prototyping is a technique that can be used to reduce customer satisfaction

Made By: Waqar Siddhu

Which of the following is not a fact finding method?

Answer (Please select your correct option)

Site visits

Prototyping

Study of similar systems

Modulation

Made By: Waqar Siddhu

The nature of software applications can be characterized by their information _____

Answer (Please select your correct option)

Complexity

Content

Determinacy

Content and determinacy

A project is considered successful if :

Answer (Please select your correct option)

☒ The system was delivered in time and with in budget.

Correct answer solved by hadi
Cell No:03228043306
Email: usmanraj20@gmail.com

☐ The system meets at least some of the customer's requirements.

☐ The system development process has a maximum impact on the ongoing business process.

☐ Minimum time was spent for requirement gathering and designing.

Made By: Waqar Siddhu

Cohesion is an internal property of a module whereas coupling is its----- with other modules

Answer (Please select your correct option)

☐ Relationships

☒ Dependence

☐ Independence

☐ Separation

As per Peter Coad's methodology the following may NOT be a perfect candidate for being an object:

Answer (Please select your correct option)

☐ Folder

☐ Bin

☐ Student

☐ Size

Maybe

Made By: Waqar Siddhu

_____ requirements are often called product features.

Answer (Please select your correct option)

Functional
