

ENG529

IMP MCQs

By Nimma Malik

IMP MCQs

- 1) The term **'blended learning'** refers to every time teachers mix different media (e.g. print, audio, and video) with classroom interaction.
- 2) Teaching cannot be defined separately from **learning**. **True**
- 3) The costs involved in blended learning must be **considered** as they might not be negligible, especially at the beginning of the process.
- 4) **Electronic** assessment, also known as e-assessment, online assessment, computer-assisted/mediated assessment and computer-based assessment
- 5) Effective integration of technology is achieved when students can select technology **tools** to help them obtain information promptly.
- 6) Meaning exists in the text and readers are **passive recipients** of the information.
- 7) Students who are engaged and interested in things they are studying are expected to have better knowledge **retention**.
- 8) Commercial courseware is **ready-made, licensed**, and sold by companies.
- 9) Virtual worlds have grown from their **text-based** infancy of the **1970s** to the 3D immersive environments of today.
- 10) For successful decoding, readers need to acquire a set of **hierarchically ordered** sub-skills that sequentially help improve comprehension ability **(LaBerge and Samuels 1985)**
- 11) Technology can encourage more active participation in the learning process which can be hard to achieve through a traditional lecture environment. **True**
- 12) **The cognitive view** brings the role of background knowledge into play and highlights the interactive nature of reading and the **constructive** aspects of comprehension.

ENG529 Finals' Objective

- 13)** Different types of online assessments contain elements of one or more of the following components, depending on the assessment's purpose: formative, diagnostic, or **summative**.
- 14)** The cognitive view is also referred to as the **"top-down"** model and was introduced to counteract the **over-reliance**.
- 15)** E-marking can be combined with electronic examinations, whilst in other cases, students will still **handwrite** their exams with papers scanned in securely and uploaded into an e-marking system.
- 16)** Peer support is an **integral part** of a blended approach, as teachers cannot be on hand to help learners all the time.
- 17)** **Academic factors** such as difficulty and/or relevance with course material.
- 18)** Range and quantity of applications of new technologies for reading have grown rapidly. **True**
- 19)** **Integrating technology** into the curriculum is necessary to stay updated and take benefit of the **latest** technological advances happening around the globe.
- 20)** **Dictionaries, Glosses, and Annotations** the increasing availability of electronic corpora and online technology has facilitated the creation of tools.
- 21)** The affordance of interactivity also leads to distracted minds, information overload, and fragmentation. **True**
- 22)** **21st-century** skills are essential to be successful in this day and age.
- 23)** **Criterion** (<http://www.ets.org/criterion/>) is a web based commercial writing evaluation and feedback tool developed by **Educational Testing Service**.
- 24)** Interactive whiteboards have brought **significant** improvements in the education sector by simplifying the learning processes.
- 25)** Education isn't just about **memorizing facts and vocabulary** words; it's about solving complex problems and collaborating with others in the workforce.
- 26)** Student essays produced on W-Pal can be scored automatically with **automated** formative feedback.

ENG529 Finals' Objective

- 27) **Ed-tech** in the classroom prepares students for their **future** and sets them up for this increasing digital economy.
- 28) **Non-academic** factors such as time pressure.
- 29) **Photos to teach** is a website of -----? **Eltpics**
- 30) **Empirical studies** of corpus use for **data-driven** learning have yielded positive findings.
- 31) **Pixton** is an online comic maker to **add sound, upload pictures and images**.
- 32) In recent years, language-learning software such as Rosetta Stone or **Tell Me More** has gained prominence.
- 33) Cardenas-Claros and Gruba (2013) categorize both electronic glossaries and electronic dictionaries as **explanatory** help options.
- 34) Information processing theories all share the belief that human cognitive architecture is made up of **representations and access**.
- 35) Thus, the term 'blended' is used to mean **combining different** learning environments in an integrated way and appropriately.
- 36) Romeo and Hubbard (2010) report on a **pervasive learner** training model employed in an advanced ESL listening course that incorporated a three-hour independent listening project.
- 37) The use of language for communication, rather than for practice alone, is a **core goal** of most language instruction.
- 38) **Sociocultural Theory** Fundamental to all modern language instruction—face-to-face in the classroom or virtually through CALL —is **Vygotsky's (1962)** notion of the Zone of Proximal Development.
- 39) Choosing the right blend is a key part of the **teacher's role**.
- 40) **Blogger** (<http://www.blogger.com>): It is a free blog publishing tool **from Google** for easily sharing your thoughts with the world.
- 41) Smith and Renaud's (2013) study employed **eye-tracking** technology as a measure of what learners attended to in the **corrective feedback**.

ENG529 Finals' Objective

- 42) **Blogger** makes it simple to **post text, photos and video**.
- 43) One of the most compelling aspects of the ZPD is that rather than measuring the level of development a **learner** has already attained
- 44) SCMC began to include the exchange of voice-over IP sound (VoIP), giving speakers two channels in which to communicate. **True**
- 45) Dialogflow, a platform supported by Google, can **train** chatbot without any coding skill; even students of humanities have modified and built new chatbots from scratch.
- 46) The interaction approach (IA) grew out of **Long's** Interaction Hypothesis, which was first developed in the **early 1980s**.
- 47) **Smith and Renaud** (2013) used eye-tracking technology to explore the relationship between L2 recasts, noticing, and learning of the recast targets. **True**
- 48) it should be noted that the online environment must be **learner**-driven and not technology-driven
- 49) Seedhouse and Almutairi (2009) employed **Transana3** software to align video, audio, and tabletop computer screen records with the transcripts of the interaction onto a single screen
- 50) **Voyant Tools** is a web-based reading and **analysis** environment for digital texts.
- 51) Mapping and Timeline Tool for Omeka Projects. **(Neatline)**
- 52) **E-Assessment** covers a wide range of **activities** so can have a wide range of benefits.
- 53) Open or Hosted resource for archiving and displaying images and content. **(Omeka).**
- 54) The first Apple computer, the Apple I, was released in **1977**.
- 55) The first IBM PC was released in **1981**.
- 56) The use of **electronic dictionaries**, text-based glosses, as well as annotations and multimedia glosses has been extensively researched since they appeared in the late 1990s

ENG529 Finals' Objective

- 57)** Using Java and a Google Sheets template, you can quickly create interactive timelines with images, videos and other content. **(Timeline)**
- 58)** We also select how and what we are becoming. In this **context**, L2 reading may be shaped by three trends in technology of learning.
- 59)** **JavaScript** (officially ECMAScript) is a **scripting** language that is incorporated into the source of the webpage, along with HTML and CSS.
- 60)** In recent years, Digital Affordances and New Listening Contexts have become increasingly common to speak about technology tools and applications in terms of their **affordances**.
- 61)** Self-assessment means the process of having the learners critically reflect upon, record the **progress** of and perhaps suggest grades for, their learning.
- 62)** Isaac Asimov's _____ laws of robotics as introduced in the short story. **(three)**
- 63)** In traditional classrooms, teachers stand in front of learners and give lecture, explanation, and instruction through using **blackboard or whiteboard**.
- 64)** Working on different projects by collaborating with others on forums or by sharing documents in their **virtual** learning environments.
- 65)** University of Minnesota ArcGISonline Server access. **(ArcGIS Online)**
- 66)** better-known and successful ILTs is E-Tutor for **German**.
- 67)** Strategic readers are capable of reflecting on their level of **understanding** and know what to do when reading difficulties occur.
- 68)** The Tactical Language and Culture Training System, for example, designed for use by **U.S.**
- 69)** The usage of technology can create a learning centred around a _____. **Lerner**
- 70)** All in One, scalable web based story editor **(We Video)**
- 71)** Self-developed courseware is usually not designed by collaborative teams not to create language learning tools to suit a specific group of learners. **(False)** because its created or design by collaborative teams)

ENG529 Finals' Objective

- 72)** Identifying the skills teachers need to work within _____ distance language teaching environments has also been a focus of much research. **synchronous**
- 73)** Freemium graphic design tool with infographic templates. **(Canva)**
- 74)** Language instructions can be used in class for easy planning or a peer feedback activity or out of **class** for students to submit and revise based on the feedback.
- 75)** SLA is a broad and diverse field, which has been rapidly expanding in scope and methodology ever since it emerged in the **1960s**.
- 76)** Online oral tasks are the example of _____ feature. **synchronous**
- 77)** Examples of data visualizations from Census Data. **(Census Data Viz)**
- 78)** **Walrus** is a tool for interactively **visualizing** large directed graphs in three-dimensional space.
- 79)** Google Docs, another important example, is a **free online word processor**.
- 80)** **Web 2.0 tools** include a variety of social media sites, such as Facebook and Twitter, as well as blogs.
- 81)** Blended learning can support _____ number of learners. **(variety)**
- 82)** For modified input, **Cardenas**-Claros and Gruba note various combinations **linking text**.
- 83)** The COCA interface **"Word and phrase"** (<http://www.wordandphrase.info/>) permit users to interact with the tool differently.
- 84)** Second language acquisition (SLA) is the study of the human capacity to learn languages other than the **first**.
- 85)** Provide digital feedback files e.g. standard feedback forms in **Word format**.
- 86)** Computers enable students to assemble and **create new information**.
- 87)** Teaching cannot be defined separately from learning. 'It is guiding and facilitating learning, enabling the learner to learn' **(Brown, 2000)**.

ENG529 Finals' Objective

- 88) COCA** can be used for different purposes in second language writing instruction.
- 89)** Pixton- an online **comic** maker to add sound uploads pictures and images.
- 90)** Isaac Asimov's **three** laws of robotics as introduced in the short story Runaround in **1942**.
- 91) Juxta** is a cross-platform tool for collating, comparing, and analyzing any kind or number of textual objects.
- 92) Lang-8** (<http://lang-8.com/>) is a good example of a **social networking** site designed to encourage L2 communication.
- 93)** CMC is important in distance language teaching not only as a learning tool but as a **gateway** to target language communities.
- 94)** Student essays produced on W-Pal can be scored automatically with automated formative feedback, using Coh-Metrix.
- 95)** CMC is important in distance language teaching not only as a learning tool but as a _____ to target language communities. **gateway**
- 96) The teacher** is involved at all stages as a guide.
- 97)** Access for students in different geographical locations and at different times.
- 98)** Wordpress (<http://www.wordpress.com>): It is **web** software you can use to create a beautiful website or blog.
- 99)** According to this view, reading is primarily a matter of decoding a series of **written symbols** into their aural equivalents in the quest to make sense of the text.
- 100)** Blogger (<http://www.blogger.com>): It is a **free blog** publishing tool from **Google** for easily sharing your thoughts with the world.
- 101)** Choosing the right blend is a key part of the teacher's role.
- 102)** (<http://www.edhelper.com/>) for _____. **(lesson plan)**
- 103)** Join over **98,000** other subscribers and learn English with captioned news reports read at a slower speed.

ENG529 Finals' Objective

- 104)** PBSlearningmedia.org **3,000** free lesson plans.
- 105)** With over **153,000** subscribers, Jennifer's best videos are her lessons on idioms (kitchen idioms, driving idioms, colour idioms).
- 106)** COCA (<http://corpus.byu.edu/coca/>) is a **freely** available online corpus of English, Created by **Mark Davies** at **Brigham Young University**.
- 107)** **BBC Learning English**: Another popular site, with over **64,000** followers.
- 108)** The corpus has over **450 million** words of text that covers spoken, fiction, popular magazines, newspapers, and academic text genres.
- 109)** Sociocultural theory (SCT) has its **origins** in the work of **Russian psychologist Lev Vygotsky** in the early part of the **20th** century.
- 110)** **Criterion** (<http://www.ets.org/criterion/>) is a web based **commercial writing evaluation** and **feedback tool** developed by **Educational Testing Service**.
- 111)** WWW.duolingo.co is a great source to learn any **foreign** language.
- 112)** www.spiderscribe.net is used for mainly **Exam time mind maps**.
- 113)** Positive effect of technology depends on its _____. **(usage)**
- 114)** (<http://lang-8.com/>) is a good example of a **social** networking site designed to encourage L2 communication.
- 115)** **Voyant Tools** is a web-based reading and analysis environment for **digital texts**.
- 116)** Blog (<http://www.blog.com>): It provides a **fully-featured** publishing platform for free.
- 117)** Canva is a Premium **graphic design** tool with info graphic templates.
- 118)** Criterion is a webbased commercial **writing** evaluation and feedback tool developed by _____. **(Educational Testing Service)**
- 119)** Annotate work directly in Blackboard or **Turnitin**.

ENG529 Finals' Objective

- 120)** There are any providers of commercially available CALL systems that use **technology**, including Rosetta Stone Tell Me More.
- 121)** Turnitin (was initially launched as an online plagiarism prevention service by **iParadigms**, LLC, in **1997**.
- 122)** Learn English Elementary by _____ **(British Council)**
- 123)** **Prezi**- cloud-based presentation software that can zoom in and out.
- 124)** Reading in the technological age is making a **tremendous** impact on how we see and interact with the world.
- 125)** The interaction approach (IA) grew out of **Long's Interaction Hypothesis**, which was first developed in the early **(1980s)**.
- 126)** eComma, an **open-source Web application** for **textual annotation** developed by the Center for Open Education Resources and Language Learning.
- 127)** Rosetta stone has also incorporated an ASR feature into its exercises, available in **25 languages**, and based on the TeLL me More algorithm originally developed by **Auralog.com**.
- 128)** Autonomous learning means that students take responsibility for their learning process, which should not be confused with self-instruction. **True**.
- 129)** Writing Pal or W-Pal is an **automated intelligent tutoring system (ITS)** developed by the Science of Learning and Educational Technology **(SoLET)** Lab at Arizona State University.
- 130)** **Self-assessment** means the process of having the learners critically reflect upon, record the progress of and perhaps suggest grades for, **their learning**.
- 131)** Human mental functioning is a **mediated** process.
- 132)** Criterion targets the writing instruction both in **K-12 programs** and higher education.
- 133)** Turnitin services in _____. **(1997)**

ENG529 Finals' Objective

- 134)** The term **peer-assessment** refers to the process of having the learners critically reflect upon, and perhaps suggest grades for, the learning of **their peers**.
- 135)** Google Drive, an office suite developed by **Google Inc.**
- 136)** **Animoto** Creates videos with photos, music and text.
- 137)** SCT posits that everything is learned on **two levels**—first on the social level (between people) and only later on the individual level.
- 138)** The concept of L2 fluency depends on a series of relative time measures such as the delivery speed and length of the utterances, the number of pauses, repetitions, lexical lapses, or discontinuities/ interruptions in spontaneous speech. **TRUE**
- 139)** Automated writing evaluation (AWE) systems have been developed to assist **both native speakers and L2 learners** to write more accurately.
- 140)** W-Pal provides **eight** animated learning modules
- 141)** Synchronous speaking tasks now do not form part of most hybrid or fully online language courses (Blake, 2011). **(False)** {Synchronous speaking tasks now form part of most hybrid or fully online language courses}
- 142)** Voki, created by **Oddcast**, allows users to create their **talking avatar, speaking different accents**.
- 143)** Information processing theories all share the belief that human cognitive architecture is made up of representations and **access**.
- 144)** Blended learning is a **transformational** force in education.
- 145)** VoiceThread can be used to conduct both tutorial CALL **for speaking or asynchronous CMC**.
- 146)** **Mental processing** is comprised of automatic (unconscious) operations and voluntary or controlled (conscious) operations.
- 147)** Supporters of the **metacognitive** view regard reading as a process of active meaning construction during which readers make use of both linguistic information from the external printed text (Langer et al. 1990) as well as their internal background knowledge.

ENG529 Finals' Objective

- 148)** Social media **mining** can be done for prediction of election results, detecting hate crimes etc.
- 149)** Learners can also compare their use of phrases to the phrases in the **corpus**.
- 150)** These sites provide unprecedented opportunities to experiment with **their language**.
- 151)** Teachers should strive for **two goals** when integrating technology.
- 152)** The first goal is to become a **computer-using teacher/**
- 153)** Teachers may be the producing materials to use in the classroom such as handouts, banners or **newsletters**.
- 154)** The second goal is to make the computer a **teaching partner** rather than an object of study.
- 155)** This definition embraces a wide range of student **activities** ranging from the use of a word processor to on-screen testing.
- 156)** Reading is regarded as a **psycholinguistic** guessing game.
- 157)** **TurningPoint** is a leading commercial student **response** system.
- 158)** Internet provides far-reaching and instantaneous interactivity; researchers and educators increasingly rely on **sociocultural** approachess.
- 159)** **e-marking** is the process by which staff provide marks and feedback to students online, which can include online annotations. **Correct**
- 160)** Continued training in the use of CALL applications to promote L2 **speaking**, or any other aspect of language proficiency, should be part of everyone's agenda.
- 161)** The increasing availability of electronic **corpora** and online technology has facilitated the creation of tools that aim to support L2 reading
- 162)** OER stands for _____. (**Open educational resource**)

ENG529 Finals' Objective

- 163)** SCMC began to include the exchange of voice-over **IP sound (VoIP)**, giving speakers two channels in which to communicate. **True.**
- 164)** Structural perspectives are also referred to by researchers as the “**bottom-up**” (Chun and Plass 1997; Nunan 1991) or the “**outside-in**” (McCarthy 1999) views.
- 165)** How many best video sites for English? **(100)**
- 166)** By using technology in the classroom, both teachers and students can develop skills essential for the **21st century**.
- 167)** Digital environments add visual and **auditory features** to a text and require the reader to integrate the information afforded by these modes into the processes of comprehension..
- 168)** Drawing on the work of Chapelle (2003) among others, they divide help options **into four** categories: **operational, regulatory, compensatory, and explanatory**.
- 169)** Gorjian, Hayati, and Pourkhoni (2013) have extolled the virtues of having students study L2 pronunciation and intonation using the **PRAAT** acoustic analysis software.
- 170)** **Present. Me** A video presenting platform
- 171)** **Blabberize** Animates any image with a moving mouth and audio.
- 172)** **wordle.net, wordclouds.com** creates beautiful word clouds.
- 173)** **Infogram** Creates interactive info graphics.
- 174)** StudyBlue is an online tool for making **flashcards** with video and audio.
- 175)** Fundamental to all modern language instruction—face-to-face in the classroom or virtually through CALL is **Sociocultural Theory**.
- 176)** Storybird is a collaborative **storytelling** tool. Students can create short art inspired stories.
- 177)** Google, can train **chatbot** without any coding skill, even students of humanities have modified and built new chatbots from scratch.

ENG529 Finals' Objective

- 178)** One free tool for video annotation is **ANVILL**, which allows the importation of data from a variety of sources, including phonetics tools, such as the widely used **PRAAT**.
- 179)** **Animoto** Creates videos with photos, music and text.
- 180)** **Piktochart** Creates quick and impressive infographics
- 181)** Learning **analytics** is defined as the educational instruments designed to collect, measure, and analyze students 'learning data with the goal of better understanding learning processes and predicting learning outcomes in educational contexts.
- 182)** Dialogflow, a platform supported by **Google**.
- 183)** **Google Books NGram Viewer** : Analyzes historical word occurrence, usage and changes over time and allows users to download data for more intensive research.
- 184)** _____ Theories all share the belief that human cognitive architecture is made up of representations and access. **(Information processing)**
- 185)** **Culturomics - Google Ngrams Addon** : An add-on for Google Ngrams to download data sets.
- 186)** The three-year observation made by **Stockwell** (2010) of EFL students in **Japan**.
- 187)** **Time Magazine Corpus** : Offers access to American Mainstream Cultural Text Analysis via the complete text of the Time Magazine Archive.
- 188)** **SCMC** can help improve learners' L2 oral proficiency by developing the same cognitive mechanisms that underlie spontaneous conversational speech.
- 189)** _____ are considered one of the original English teachers on YouTube.
(MisterDuncan)
- 190)** Self-developed courseware is usually designed by **collaborative teams** to create language learning tools to suit a specific group of learners. **Correct**
- 191)** **Wordle** is a ____ word cloud generator with extensive shape, color and font options.
(robust)

ENG529 Finals' Objective

- 192)** Using eye fixation data as a measure of “**noticing events**” learners were found to attend about **60%** of the intensive recasts they received by a **native speaker** interlocutor.
- 193)** **Voyant Tools** is a web-based reading and **analysis** environment for digital texts.
- 194)** Although SLA approaches of the different stages provide distinct implications for **CALL**.
- 195)** Mapping and Timeline Tool for Omeka Projects. **(Neatline)**
- 196)** Simultaneously, many **Web 2.0 tools** and technologies are being designed and used for all levels of L2 learners to build certain skills for effective L2 reading.
- 197)** **Instant and detailed** feedback may (or may not) be enabled.
- 198)** Fundamental to all modern language instruction—face-to-face in the classroom or virtually through CALL is _____. **(Vygotsky)**
- 199)** Now, technology is used for the distribution of text as well as _____. **(ideal)**
- 200)** Vygotsky asserted that language, **first** or second, is always learned and used in a social setting.
- 201)** Distance language education can focus on communication and learning as a **social process**.
- 202)** The use of language for **communication**, rather than for practice alone, is a core goal of most language instruction.
- 203)** One factor encouraging motivation in blended learning is **reliance** on discovery learning and self-directed learning.
- 204)** PBS learning media _____ free lesson plan. **3,000**
- 205)** Web 2.0 applications like Google Docs provide the tools for **collaborative writing**.
- 206)** Text-to-Speech (TTS) is the process of synthesizing natural-sounding speech from text via **computer** programs.
- 207)** Students **undertake** online tests many times to assess and **re-assess** their knowledge

ENG529 Finals' Objective

- 208)** With countless online resources, technology can help improve **teaching**.
- 209)** Which of the following is developed by eComma? (**Open Education Resources and Language Learning**)
- 210)** **Sophisticated** reporting, allowing you to **refine** the exercise or identify areas in which more instruction is needed.
- 211)** Cognitive science is also concerned with functional and **neurobiological** descriptions of the learning processes.
- 212)** Reading instruction is increasingly informed by **sociocultural** and learner-centered constructive perspectives.
- 213)** Digital books or e-books are an **effective** technological tool for curriculum.
- 214)** Technology is no longer solely used for distribution purposes, now placed on opportunities for communication using both **text and sound**.
- 215)** three general cognitive science principles (i.e., the dual-channel assumption, the **limited capacity assumption**, and the active processing assumption)
- 216)** Curriculum integration with the use of **technology** involves the infusion of technology as a tool to enhance learning in a content area or multidisciplinary setting.
- 217)** The first Internet e-book was created in **1971**.
- 218)** Writing Pal is developed by _____. (**SoLET**)
- 219)** Sociocultural Theory was developed in _____ (**1962**)
- 220)** **Cognitive science** is also concerned with functional and neurobiological descriptions of the learning processes.
- 221)** The success of any blended learning course is **largely** in the blend.
- 222)** The most widely used variant of technology in language learning is **CALL (computer assisted language learning)**.

ENG529 Finals' Objective

- 223)** Chapelle (2003) links technology to **SLA theories** by showing how several theories can be adapted to explore the role of the computer as a stand-in for a human interlocutor.
- 224)** By using computer technology, language class becomes an _____ place. **(active)**
- 225)** Early Internet e-book creators faced substantial **technical** challenges.
- 226)** Corpus-based **pedagogies**, data-driven learning, are based on the idea that students need to have access to examples of language
- 227)** Quizzes are a tool of _____. **(Exam Time)**
- 228)** Different forms of technology can be used to experiment with and decide what works best for students in terms of **retaining** their knowledge.
- 229)** Turnitin is a _____ tool. **(Originated and checking)**
- 230)** From the SCT perspective of SLA, language learning is facilitated by **social interaction**.
- 231)** Photos to teach is a website of _____. **(elptics)**
- 232)** Hampel (2009) identifies a key challenge in online distance synchronous settings as addressing the tendency for tutors to assume a more directive or **teaching-centered** approach than is congruent with the espoused benefits of learner-centered language teaching.
- 233)** Listening is a key part of teaching and that listening happens best in the **classroom** environment.
- 234)** Learning with the help of technology helps to develop _____. **(Higher Order Thinking skills)**
- 235)** Lyceum defines **affordances** as possibilities as well as **limitations**” having “an impact on its [Lyceum’s] use”.
- 236)** In **December 2004**, Google partnered with prominent libraries in launching the Google Print Library Project
- 237)** The term blended learning refers to every time a teacher’s mixes differences _____ for classroom interaction. **(media)**

ENG529 Finals' Objective

- 238)** When technology is used learners can learn _____. **(meaningfully)**
- 239)** In distance language learning teachers and learners are separated _____. **(physically)**
- 240)** Fill in an online feedback form (rubric), available in both Blackboard and **Turnitin**.
- 241)** Video-conferencing was originally designed for _____ communication. **Social**
- 242)** In distance teaching-learning processes, _____ mediates. **(technology)**
- 243)** **In 1978, Roy Trubshaw** created a new game that was patterned on one of the variations of Zork that he called MUD. It first ran on the network **of Essex University** only, but in **1987**.
- 244)** Positive effect of technology depends on its. **(usage)**
- 245)** In distance language education communication has become a _____ process. **(social)**
- 246)** Language instructors can use it in class for essay planning or a **peer-feedback activity**, or out-of-**class** for students to submit and revise based on the feedback.
- 247)** Roy Trubshaw created a new game that was patterned on one of the variations of Zork that he called **(MUD)**
- 248)** Internet Archive is launched in **1996**.
- 249)** Teachers worldwide are using (more or less successfully) the **Communicative Approach** to teach English.
- 250)** The use of film in teaching helps to _____ the topic. **Realize**
- 251)** The creation of the first text-based computer games, beginning with **Colossal Cave Adventure** (CCA) by Will Crowther in 1975–1976.
- 252)** VWs have almost entirely been published after **2000**.
- 253)** The evolution of MUDs led to the creation of MOOs (MUDs, Object-Oriented), with the first created by **Stephen White in 1990**.

ENG529 Finals' Objective

- 254)** The bulk of _____ learning takes place in non-co-presence. **Distance.**
- 255)** Virtual text-based environment was based on the **real-life** Mammoth Cave system in Kentucky.
- 256)** Blake describes CMC as the essential “_____” that holds students together in distance language learning. **Glue**
- 257)** The application of technology provides _____ ways for teaching methods. **Alternative**
- 258)** Computer-mediated communication has developed a sense of _____ in learning. **Community**
- 259)** With the development of Internet, technology is becoming a vital feature of _____ language classrooms. **Second**
- 260)** Learners must use technology as a _____ part of their learning process. **Significant**
- 261)** Technology is redefining _____. **Communication**
- 262)** In the age of technology, language education is embarking on a new _____. **Trend**
- 263)** Cooperation is one of the most important _____ for learning. **Tool**
- 264)** Technology is a/an _____ tool for learners. **Effective**
- 265)** Technology is affecting education in _____ ways. **Revolutionary**
- 266)** Technology has been integrated into language education since _____. **1960s**
- 267)** Learners' _____ can be enhanced through technology. **Cooperation**
- 268)** Internet allows language to come to _____. **Learner**
- 269)** The combination of multimedia and technology attracts students' _____. **(attention)**
- 270)** Steinkuehler and Williams consider Virtual Worlds as _____. **(new third space)**

ENG529 Finals' Objective

- 271)** The use of internet increases learners' _____. **(motivation)**
- 272)** Learners' _____ - can be enhanced through technology. **(cooperation)**
- 273)** The use of computer technology expands _____ for learning. **(opportunities)**
- 274)** Which of the following is a kind of knowledge which we learn from other people, either by direct instruction or by watching them. **(culture)**
- 275)** In technology education, there should be a sustained _____ made between task design and implementation. **(comparison)**
- 276)** Virtual worlds are primarily _____ spaces for the purpose of human's interaction. **(social)**
- 277)** Some researchers also discuss the power of VWs to expose learners to the real world via the _____ environment. **(virtual)**
- 278)** In the early days of VW development, the choices were quite _____. **(limited)**
- 279)** The first virtual text-based environment was based on the real-life Mammoth Cave system in _____. **(Kentucky)**
- 280)** Active worlds (AWs) were created in _____. **(1995)**
- 281)** Determine how many individuals are making use of VWs is also quite _____. **(difficult)**
- 282)** Online 3D environment may simulate them _____ world. **(real)**
- 283)** One of the first widely available VWs with a significant education component was _____. **(active worlds)**
- 284)** Technology is mostly used as a **generic** term.
- 285)** Asynchronous forums were among the **earliest** forms of CMC used in distance language teaching.

ENG529 Finals' Objective

286) Computer-mediated communication has made the learners as _____ agents. **Active**

287) Positive effect of technology depends on its _____. **Usage**

288) Now, technology is used for the distribution of text as well as _____. **Sound**

289) Technology in language learning has been in constant **evolution** since its genesis in the 1950s.

290) The development of technology in language education is also the result of the development of learning **theories** and pedagogical considerations.
