HELLO EVERYONE!

This document contains subject group links for all Biological Sciences study programs, including **BS Zoology**, **BS Biotechnology**, and **BS Bioinformatics**. Students can easily join their respective subject study groups simply by clicking on the provided links. For practical coordination, city-wise practical group links are also given at the end of the document. However, it is mandatory for all students to join the Main Group first, as access to any subject group requires prior membership in the **Main Group**.
