Cs101 Final Term Past Papers

 **SUBSCRIBE** **AR Lucky Bahi**

اسلام علیکم!

اگر آپ میں سے کوئی **(Student)** **LMS Handling** کروانا چاہتا ہے یا پھر اپنے LMS کو ٹائم نہیں دے پاتے۔ تو وہ مجھ سے اپنے LMS کے لیے رابطہ کر سکتا ہے۔ اس میں آپ کی تمام **(Assignment, Quizzes And GDB's)** جمع (Submit) کروائی جائیں گی۔

We are also provide these services:

- LMS handling
- Quizes
- Assignments
- GDB
- Circular Activities
- Project Handling from A to Z.

(SRS, DESIGN DOCUMENT, TEST PHASE, VIVA, FINAL DELIVERBALE, PRE VIVA, FINAL VIVA)

- ★ Gurantee of 95% maximum to 90% minimun Marks.
- ★ You will be charged a reasonable Amount

اور اگر آپ میں سے کوئی **(Online Classes)** لینا چاہتا ہے تو وہ بھی رابطہ کر سکتا ہے

Objective Question

Question No: 1 (Marks: 1) - Please choose one

----- was known as “mill” in Analytical engine.

- Memory
- Processor Correct Ans By AR
- Monitor
- Mouse

Answer: 2

Question No: 2 (Marks: 1) -

Please choose one First electronic computer was

- ABC
- UNVAC 1 Correct Ans By AR
- Harvard Mark 1
- IBM PC

Answer: 2

Question No: 3 (Marks: 1) - Please choose one What is NOT a key factor while designing a website?

- Usability
- User-friendly
- Consistency
- Complexity Correct Ans By AR

AR Lucky Term

Answer: 4

Question No: 4 (Marks: 1)- Please choose one

What happens if I start a new list without closing the original one?

- An error will be generated
- A nested list will be created Correct Ans By AR
- Previous list will end and a new will start.
- Nothing will happen

Answer: 2

Question No: 5 (Marks: 1) - Please choose one

The most upper right pixel of the screen is of_color.

- Any Correct Ans By AR
- Red
- Green
- Blue

Answer: 1

Question No: 6 (Marks: 1) - Please choose one

A single pixel can acquire approximately____color schemes.

- 1 million
- 2 million
- 10 million
- 16 million Correct Ans By AR

Answer: 4

Question No: 7 (Marks: 1)- Please choose one

The idea of Neural Networks field is based upon_.

- Human nature
- Human brain Correct Ans By AR

AR Lucky Term

- Human culture
- Human actions

Answer: 2

Question No: 8 (Marks: 1) - Please choose one

Which one of the following is an application for artificial intelligence?

- Robotic Correct Ans By AR
- Web Agent
- Decision Support System
- All of the given options

Answer: 1

Question No: 9 (Marks: 1)

- Please

choose one Register is a kind of

_____memory

- Fast Correct Ans By AR
- Super-fast
- Slow
- Very slow

Answer: 1

Question No: 10 (Marks: 1) -

Please choose one Which of the

following is a true statement?

- Flat-file storage is better than tabular storage.
- Tabular storage is better than flat-file storage. Correct Ans By AR

AR Lucky Term

- Flat-file storage is better than relational storage.
- None of the given options

Answer: 2

Question No: 11 (Marks: 1) - Please choose one

substring (n, m) returns a string containing characters copied from position n to_____.

- $m - 2$
- $m - 1$ Correct Ans By AR
- $m + 1$
- m

Answer: 2

Question No: 12 (Marks: 1) - Please choose one

The_____is the old profession which is being eliminated because of computing.

- Typist Correct Ans By AR
- Bank manager
- Operational manager
- All of the given options

Answer: 1

Question No: 13 (Marks: 1) - Please choose one

The system that manages relational database, is called_____.

- None of the given options
- Database Management System
- Data Management System
- Relational Database Management System Correct Ans By AR

Answer: 4

AR Lucky Term

Question No: 14 (Marks: 1) - Please choose one

When web server is busy it gives the following message to the user:

- Time out
- Waiting
- **Server busy Correct Ans** By **AR**
- None of the given options

Answer: 3

Question No: 15 (Marks: 1) - Please choose one

The group of technologies concerned with the capturing, processing and transmission of information in the digital electronic form is called_____.

- Telecom Engineering
- Computer Engineering
- Computer Science
- **Information Technology Correct Ans** By **AR**

Answer: 4

Question No: 16 (Marks: 1) - Please choose one

_____team consists on the sharpest technical minds in the company.

- **Architecture Correct Ans** By **AR**
- Business Development
- Configuration Management
- Developer

Answer: 1

Question No: 17 (Marks: 1) -

Please choose one TCP stands for

AR Lucky Term

-
- Transfer Center protocol
 - **Transmission Control Protocol Correct Ans** By **AR**
 - Transmission Center Protocol
 - Telephone Center Protocol

Answer: 2

Question No: 18 (Marks: 1) - Please choose one

A collection of data organized in such a way that the computer can quickly search for a desired data item is known as:

- Retrieving
- Database
- Information
- **DBMS Correct Ans** By **AR**

Answer: 2

Question No: 19 (Marks: 1) -

Please choose one Microsoft Word is a type of:

- System Software
- **Freeware Software Correct Ans** By **AR**
- Shrink-Wrapped Software
- Custom-built Software

Answer: 2

Question No: 20 (Marks: 1) -

Please choose one Users____, how

AR Lucky Term

things work.

- Analyze in detail
- Muddle through Correct Ans By AR
- Figure out
- Read in detail

Answer: 2

Question No: 21 (Marks: 1) - Please choose one Popular schemes used for reducing bytes for storage are:

- RGB and Color mapping
- RGB and Dithering
- RGB, Color mapping and Dithering

- Color mapping and Dithering Correct Ans By AR

Answer: 4

Question No: 22 (Marks: 1) - Please choose one Hardware malfunctions is related to

- Data updates
- Data integrity
- Data security
- Data accessibility Correct Ans By AR

Answer: 4

Question No: 23 (Marks: 1) - Please choose one

If incorrectly we enter the negative age it is check by

AR Lucky Term

- Limit Integrity
- Type Integrity
- Referential Integrity Correct Ans By AR
- Physical Integrity

Answer: 3

Question No: 24 (Marks: 1) -

Please choose one Which is the user-friendly way of presenting data?

- Query
- Form
- Report Correct Ans By AR
- All of the given options

Answer: 3

Question No: 25 (Marks: 1) - Please choose one

Currently the Blue Ray DVD can store more than_of data.

- 10 GB
- 100 GB
- 50 GB Correct Ans By AR
- 150 GB

Answer: 3

Question No: 26 (Marks: 1) -

Please choose one In JavaScript, a

|| b is interpreted as

AR Lucky Term

- a is true or b is false
- a is true and b is true
- a is false and b is true
- a is true or b is true or both are true Correct Ans By AR

Answer: 4

Question No: 27 (Marks: 1) -

Please choose one Speakers fall into the hardware category.

- True Correct Ans By AR
- False

Answer: 1

Question No: 28 (Marks: 1) - Please choose one

on Blur event is occurred for a form element when it _____

- Gets focus
- Lost's focus Correct Ans By AR
- Something is typed in
- on Blur is not an event

Answer: 2

Question No: 29 (Marks: 1)

- Please

choose one You can view a 3-D

image on a _____.

- 3-D display
- 2-D display

AR Lucky Term

- On both 2-D and 3-D displays Correct Ans By AR
- We cannot view a 3-D image

Answer: 3

Question No: 30 (Marks: 1) - Please choose one

Module level design and unit testing is the responsibility of__.

- Team Lead
- Developer Correct Ans By AR
- Project Manager
- Quality Assurance Expr

Answer: 2

Question No: 01 (Marks: 1) - Please choose one

When actions depend upon the values of multiple variables, we ll use?

- if
- else
- if-- else Correct Ans By AR
- none

Answer: 3

Question No: 02 (Marks: 1) - Please choose one

When the exact number of iterations is known use the loop?

- For Correct Ans By AR
- If
- While
- None

Answer: 1

Question No: 03 (Marks: 1) - Please choose one

AR Lucky Term

When the number of iterations depend upon a condition being met use the ----- loop

- For
- Switch
- While Correct Ans By AR
- None

Answer: 3

Question No: 04 (Marks: 1) - Please choose one

The key property of “array” object is ?

- Length
- Width
- Single Correct Ans By AR
- None

Answer: 3

Question No: 05 (Marks: 1) - Please choose one

Two of the keys “array” methods are reverse ()-sort ()

- True Correct Ans By AR
- False

Answer: 1

Question No: 06 (Marks: 1) -

Please choose one JavaScript array

are -----?

- Multiple

AR Lucky Term

- Heterogenous Correct Ans By AR
- Homogenous
- None

Answer: 2

Question No: 07 (Marks: 1) - Please choose one

-----multiple computer that are connected together to share information and other resources

- Network
- Internets
- Comp networks Correct Ans By AR
- None

Answer: 3

Question No: 08 (Marks: 1) - Please choose one

Comp networks can send an email message to a remote comp using the ----- protocol?

- HTTP
- FTP
- SMTP Correct Ans By AR
- None

Answer: 3

Question No: 09 (Marks: 1) - Please choose one

Comp network can browse documents residing on a remote comp using -----?

- HTTP Correct Ans By AR
- FTP

AR Lucky Term

- SMTP
- None

Answer: 1

Question No: 10 (Marks: 1) - Please choose one

Comp networks can download and upload files to a remote comp using ----- ?

- HTTP
- **FTP Correct Ans** By **AR**
- SMTP
- None

Answer: 2

Question No: 11 (Marks: 1) - Please choose one

Network can run a program on remote comp using the ?

- SMTP
- **TELNET Correct Ans** By **AR**
- HTTP
- None

Answer: 2

Question No: 12 (Marks: 1) - Please choose one

Components of conventional computer networks are except one?

- **VPN**
- NIC
- Computers
- Hub

Answer: 1

Question No: 13 (Marks: 1) -

AR Lucky Term

Please choose one NIC stands for

-----?

- National internet cables
- National interface cards
- Network interface cards Correct Ans By AR

- None

Answer: 3

Question No: 14 (Marks: 1) -

Please choose one Cables are either

----- ?

- Electrical
- Digital
- Optical
- 1 and 2 Correct Ans By AR

Answer: 4

Question No: 15 (Marks: 1)-----

Please choose one Hub component

of comp network is ?

- I/O device
- Traffic controller
- Network traffic controller Correct Ans By AR
- None

AR Lucky Term

Answer: 3

Question No: 16 (Marks: 1) -

**Please choose one Optical cables
are required by wireless networks**

- True
- False Correct Ans By AR

Answer: 2

Question No: 17 (Marks: 1) - Please choose one

----- a device used to connect several computers to form a network

- Hub Correct Ans By AR
- Cable
- NIC
- None

Answer: 1

Question No: 18 (Marks: 1) -

**Please choose one A hub has
several ----- ?**

- NIC
- Cables
- Packet
- Ports Correct Ans By AR

Answer: 4

Question No: 19 (Marks: 1) - Please choose one

----- smaller unit of data transmitted over a comp network

AR Lucky Term

- Hub
- Port
- Packet Correct Ans By AR
- None

Answer: 3

Question No: 20 (Marks: 1) - Please choose one

All packets travel- ?

- Dependently
- Independently Correct Ans By AR
- Alternatively
- None

Answer: 2

Question No: 1 (Marks: 1) -

**Please choose one Human are
better than computers at:**

- Efficiency
- Accuracy
- Pattern recognition Correct Ans By AR
- None of the given choices

Answer: 3

Question No: 2 (Marks: 1)- Please choose one

Cray-1 was first commercial_computer

- Super Correct Ans By AR
- Mini

AR Lucky Term

- Micro
- Personal

Answer: 1

Question No: 3 (Marks: 1) -

Please choose one URL is a/an

-
- Device
 - Component
 - Address Correct Ans By AR
 - Tool

Answer: 3

Question No: 4 (Marks: 1)

- Please

choose one Mainframe Computers

are also called _____

- Enterprise Servers Correct Ans By AR
- Personal Servers
- Enterprise Managers
- Window Servers

Answer: 1

Question No: 5 (Marks: 1)- Please choose one

Which of the following is NOT a category of Mobile Computers?

- Laptop

AR Lucky Term

- Palmtop
- Desktop Correct Ans By AR
- Wearable

Answer: 3

Question No: 6 (Marks: 1) - Please choose one

Preliminary exploration of possible solutions, technologies, suppliers is called

- Viability
- Feasibility Correct Ans By AR
- Specification
- Integration

Answer: 2

Question No: 7 (Marks: 1) - Please choose one

_____give us the ability to manipulate data through reference instead of actual value.

- Constants
- Variables Correct Ans By AR
- Data Types
- Operators

Answer: 2

Question No: 8 (Marks: 1)- Please choose one

Consider the following statement written in JavaScript: str ="Hello" +" World" What will be the value of str?

- HelloWorld Correct Ans By AR
- Hello World

AR Lucky Term

- Hello + World
- It will result in error

Answer: 1

Question No: 9 (Marks: 1) - Please choose one

A tool that helps you to find the synonyms is called_____.

- Language
- Paragraph
- Thesaurus Correct Ans By AR
- Symbol

Answer: 3

Question No: 10 (Marks: 1) - Please choose one

Communication protocol is a__that governs the flow of information over a network

- Set of protocols
- Set of rules Correct Ans By AR
- Device
- Set of methods

Answer: 2

Question No: 11 (Marks: 1) - Please choose one

If a computer could pass the Turing test then it would be able to:

- think like human beings Correct Ans By AR
- do the things faster
- win a million-dollar prize
- store more information

Answer: 1

AR Lucky Term

Question No: 12 (Marks: 1) - Please choose one

The first Web browser with a GUI was generally available in:

- 1992
- 1993 Correct Ans By AR
- 1994
- 1995

Answer: 2

Question No: 13 (Marks: 1) - Please choose one

Web is a unique invention by humans in terms that it is:

- accessible to only the owners who control it
- accessible from particular locations only
- accessible to all humans Correct Ans By AR
- accessible to only the educational institutes

Answer: 3

Question No: 14 (Marks: 1) - Please choose one

In this URL <http://www.msn.com>, __ identifies the domain name

- www
- msn Correct Ans By AR
- http
- com

Answer: 3

Question No: 15 (Marks: 1) - Please choose one

_____ is simply a fast port that lets you connect computer peripherals and consumer electronics to your computer without restart.

- Freeware

AR Lucky Term

- Shareware
- Firewire Correct Ans By AR
- Firmware

Answer: 3

Question No: 16 (Marks: 1) - Please choose one

Which of the following is NOT supported by PC's power supply?

- -12 and +12 V DC
- -10 and +10 V DC Correct Ans By AR
- -5 and + 5 V DC
- All are supported

Answer: 2

Question No: 17 (Marks: 1) -

Please choose one In which case Cache

Memory is used

- To increase RAM speed
- To overcome BUS speed
- To overcome Speed rate between RAM and CPU Correct Ans By AR
- To overcome CPU speed

Answer: 3

Question No: 18 (Marks: 1) - Please choose one

To display a single line text area on the web page, we use ____ tag

- TEXT
- TEXTBOX
- INPUT Correct Ans By AR

AR Lucky Term

- INPUTBOX

Answer: 3

Question No: 19 (Marks: 1) - Please choose one

If an algorithm is syntactically correct, but semantically incorrect then this situation is

- Very good situation
- **Very dangerous situation** Correct Ans By AR
- Not very bad
- Neutral situation

Answer: 2

Question No: 20 (Marks: 1) - Please choose one

Users communicate with the computer using a consistent user interface provided by the OS.

- True
- False

Answer: 1

Question No: 21 (Marks: 1) - Please choose one

Application developers do not need to know much about the HW, especially the microprocessor, while they are developing their application.

- **True** Correct Ans By AR
- False

Answer: 1

Question No: 22 (Marks: 1) -

Please choose one The first spread

AR Lucky Term

sheet program was invented by

- Charles Babbage
- Dan Bricklin Correct Ans By AR
- Paul Graham
- John von Neumann

Answer: 2

Question No: 23 (Marks: 1) - Please choose one

Which representation technique of algorithm is more suitable for developer to make actual code_____?

- pseudo code Correct Ans By AR
- flow chart
- both pseudo code and flow chart
- Heuristics

Answer: 1

Question No: 24 (Marks: 1) - Please choose one

_____is used to terminate all JavaScript statements.

- Colon
- Semicolon Correct Ans By AR
- Underscore
- Apostrophe

Answer: 2

Question No: 25 (Marks: 1) - Please choose one

In java script cookies can be created for future use_____.

- Easily
- No facility at all

AR Lucky Term

- This is not possible without Java language.
- Cookies are files so java script cannot handle it. Correct Ans By AR

Answer: 4

Question No: 26 (Marks: 1) - Please choose one

When the microprocessor desires to look at a piece of data, it checks in the _____ first.

- RAM
- ROM
- Hard disk
- Cache Correct Ans By AR

Answer: 4

Question No: 1 (Marks: 1) - Please choose one

Using Java Script, you can write a character at random location on screen

- By applying randomCh () method
- With the help of String object
- With the help of random character property
- There is no built-in approach in Java Script

Answer: ?

Question No: 2 (Marks: 1) - Please choose one

If incorrectly we enter the negative age it is check by

- Limit Integrity Correct Ans By AR
- Type Integrity
- Referential Integrity

AR Lucky Term

- Physical Integrity

Answer: 1

Question No: 3 (Marks: 1)- Please choose one
The Encryption of data is related to

- Data updates
- Data security Correct Ans By AR
- Data integrity
- Data accessibility

Answer: 2

Question No: 4 (Marks: 1) - Please choose one
Which protocol is use to transfer a file over the network?

- UDP
- FTP Correct Ans By AR
- TCP
- OSI

Answer: 2

Question No: 5 (Marks: 1) - Please choose one
One can send an email message to a remote computer using _____ protocol

- HTTP
- SMTP Correct Ans By AR
- FTP
- TELNET

Answer: 2

AR Lucky Term

Question No: 6 (Marks: 1) - Please choose one

In a System having many parts to be designed, one should always do the _____ first

- **Hard part Correct Ans** By **AR**
- Simple part
- Development part
- Quality part

Answer: 1

Question No: 7 (Marks: 1) -

Please choose one Flow control

constructs in JavaScript includes:

- If-Else
- Loops and If -Else
- **Switch and If-Else Correct Ans** By **AR**
- All of the given choices

Answer: 3

Question No: 8 (Marks: 1) - Please choose one

___provides a simple, consistent way for applications to interact with the HW without having to know all the details of the HW

- Explorer.exe
- **System Files Correct Ans** By **AR**
- Operating System
- Application Software

Answer: 2

Question No: 9 (Marks: 1) - Please choose one

AR Lucky Term

Machine language is also called

- Assembly Language
- Binary Language Correct Ans By AR
- High Level Language
- HTML Language

Answer: 2

Question No: 10 (Marks: 1) - Please choose one

_____ is the best-known builder for supercomputers.

- Sun
- Cray Research Correct Ans By AR
- Microsoft
- Apple

Answer: 2

Question No: 11 (Marks: 1) -

Please choose one The weaknesses

of the computer are:

- Pattern recognition & Storage
- Speed & Innovative ideas
- Pattern recognition & Innovative ideas Correct Ans By AR
- Speed & Storage

Answer: 3

Question No: 12 (Marks: 1) - Please choose one

Communication protocol is a__that governs the flow of information over a network

AR Lucky Term

- Set of methods
- Set of protocols
- Set of rules Correct Ans By AR
- Device

Answer: 3

Question No: 13 (Marks: 1) - Please choose one

_____ team is responsible for the maintenance, expansion, improvement of the infrastructure consisting of workstations, networking equipment, software and network security.

- Support
- Configuration Management
- Quality Assurance
- Developer Correct Ans By AR

Answer: 4

Question No: 14 (Marks: 1) - Please choose one

_____ team consists on the sharpest technical minds in the company.

- Architecture Correct Ans By AR
- Business Development
- Configuration Management
- Developer

Answer: 1

Question No: 15 (Marks: 1) - Please choose one

_____ is responsible for day to day operations.

- CEO
- COO Correct Ans By AR
- CISO

AR Lucky Term

- Developer

Answer: 2

Question No: 16 (Marks: 1) - Please choose one

One of the key responsibilities of the _ is client relationship management.

- Project Manager Correct Ans By AR
- Team Lead
- Developer
- Quality Assurance Engineer

Answer: 1

Question No: 17 (Marks: 1) - Please choose one What is the major problem with flash-based website?

- Its two heavies Correct Ans By AR
- Cannot be indexed
- Less attractive
- Inaccessible

Answer: 1

Question No: 18 (Marks: 1) - Please choose one

Question No: 19 (Marks: 1) - Please choose one

The organizations are learning that business can be done in a more effective manner if emphasis is placed upon _.

- Cooperation
- Shared responsibility Correct Ans By AR
- Networking

AR Lucky Term

- All of the given options

Answer: 2

Question No: 1 (Marks: 1) - Please choose one

It represents the_____flow chart element.

- Flow Line
- Connector
- Off-page connector
- Start or Stop Correct Ans By AR

Answer: 4

Question No: 2 (Marks: 1) - Please choose one

What is NOT a key factor while designing a website?

- Usability
- User-friendly
- Consistency
- Complexity Correct Ans By AR

Answer: 4

Question No: 3 (Marks: 1) - Please choose one

_____ % of the users have left websites in frustration due to poor navigation.

- 40
- 62
- 83 Correct Ans By AR
- 91

Answer: 3

Question No: 4 (Marks: 1) -

AR Lucky Term

Please choose one In JavaScript, a variable declaration is

- Optional Correct Ans By AR
- Mandatory
- Not allowed
- None of the given

Answer: 1

Question No: 5 (Marks: 1) - Please choose one

A protocol used for receiving email messages is called__.

- URL
- Telnet
- POP3 Correct Ans By AR
- SMTP

Answer: 3

Which is correct?

- on Unload Correct Ans By AR
- on Unload
- on UNLOAD
- All of the above

Answer: 1

Question No: 7 (Marks: 1) - Please choose one

Serial arrangement in which things follow logical order or a recurrent pattern, such as statements executing one by one, is called_____.

- Loop Correct Ans By AR

AR Lucky Term

- Sequence
- Condition
- Array

Answer: 1

Question No: 8 (Marks: 1) - Please choose one

Variables allow us to manipulate data through the_____.

- Actual Value
- Reference Correct Ans By AR
- Length
- Name

Answer: 2

Question No: 9 (Marks: 1)- Please choose one

Fuzzy logic is based on_____.

- Ground facts
- Experience
- Practice
- Approximation Correct Ans By AR

Answer: 4

Question No: 10 (Marks: 1) -

Please choose one Word Processor

is a _____

- System Software
- Application Software Correct Ans By AR
- Device
- Utility

AR Lucky Term

Answer: 2

Question No: 11 (Marks: 1) - Please choose one

In the old days, databases did NOT support__.

- Number
- Boolean
- Video Correct Ans By AR
- Text

Answer: 3

Question No: 12 (Marks: 1) - Please choose one

In tabular storage, fields placed in a particular row are strongly_____.

- Independent
- Dependent
- Interrelated Correct Ans By AR
- Inconsistent

Answer: 3

Question No: 13 (Marks: 1) - Please choose one

Due to working at home, lack of interaction may result in _____professional growth.

- Slower Correct Ans By AR
- Faster
- Higher
- Improved

Answer: 1

Question No: 14 (Marks: 1) - Please choose one

AR Lucky Term

Distance learning has got a boost due to the_____.

- Easy communication
- Online interactive contents
- Flexibility

• All of the given options Correct Ans By AR

Answer: 4

Question No: 15 (Marks: 1) - Please choose one

_____ technique can be used to create smooth animations or to display one of several images based on the requirement.

- Image downloading
- Image preloading Correct Ans By AR
- Image uploading
- Image post loading

Answer: 2

Question No: 16 (Marks: 1) - Please choose one

The_____is becoming the preferred organizational structure for more and more organizations with the passage of time.

- Tree structured organizational model
- Network paradigm Correct Ans By AR
- Hierarchical structure
- None of the given options

Answer: 2

Question No: 17 (Marks: 1) - Please choose one

The group of technologies concerned with the capturing,

AR Lucky Term

processing and transmission of information in the digital electronic form is called _____.

- Telecom Engineering
- Computer Engineering
- Computer Science
- Information Technology Correct Ans By AR

Answer: 4

Question No: 18 (Marks: 1) - Please choose one

A large number of networks interconnected physically are called _

- LAN Correct Ans By AR
- MAN
- Internet
- Network collection

Answer: 1

Question No: 19 (Marks: 1) -

Please choose one TCP stands for

_____.

- Transfer Center protocol
- Transmission Control Protocol Correct Ans By AR
- Transmission Center Protocol
- Telephone Center Protocol

Answer: 2

Question No: 20 (Marks: 1) - Please choose one

A collection of data organized in such a way that the computer can quickly search for a desired data item is known as:

AR Lucky Term

- Retrieving
- Database Correct Ans By AR
- Information
- DBMS

Answer: 2

Question No: 21 (Marks: 1) - Please choose one

_____ is simply a fast port that lets you connect computer peripherals and consumer electronics to your computer without restart.

- Freeware
- Shareware
- Firewire Correct Ans By AR
- Firmware

Answer: 3

Question No: 22 (Marks: 1) - Please choose one

Structures, in which another list starts before the first list is finished, are called:

- Multiple Lists
- Nested Lists Correct Ans By AR
- Ordered Lists
- Un-ordered Lists

Answer: 2

Question No: 23 (Marks: 1) - Please choose one

The key property of the 'Array' object in JavaScript is

AR Lucky Term

- Value
- Length Correct Ans By AR
- Name
- All of the given choices

Answer: 2

Question No: 24 (Marks: 1) - Please choose one

Which one is the example of spreadsheet software?

- MS Word
- MS PowerPoint
- MS Excel Correct Ans By AR
- MS Access

Answer: 3

Question No: 25 (Marks: 1) -

**Please choose one The Encryption
of data is related to**

- Data updates
- Data security Correct Ans By AR
- Data integrity
- Data accessibility

Answer: 2

Question No: 26 (Marks: 1) - Please choose one

_____ is the process of analyzing large databases to identify patterns.

- Data normalization
- Data management
- Data Mining Correct Ans By AR

AR Lucky Term

- None of the given options

Answer: 3

Question No: 27 (Marks: 1) - Please choose one Which is the user-friendly way of presenting data?

- Query
- Form
- **Report Correct Ans** By **AR**
- All of the given options

Answer: 3

Question No: 28 (Marks: 1) - Please choose one

JavaScript function fixed () has equivalent HTML tag-set ____

- <. FIX></FIX>
- <F></F>
- **<PRE> </PRE> Correct Ans** By **AR**
- <H></H>

Answer: 3

Question No: 29 (Marks: 1) - Please choose one

<Form> Tags always placed between the <BODY> and </BODY> tags of a Web page

- **True Correct Ans** By **AR**
- False

Answer: 4

Answer: 1

AR Lucky Term

Question No: 30 (Marks: 1) - Please choose one

Java script has ----- ability to create and draw graphics.

- Limited
- Versatile
- Medium
- Not at all Correct Ans By AR

Question # 1

_____ is not only used as a means of retrieving data from mass storage but also as a means of retrieving items from large blocks of data stored in main memory.

Database

Hashing Correct Ans By AR

Sequential

Indexing

Question # 2

The end of a list is called the _____.

Tail Correct Ans By AR

bob

head

devon

Question # 3

AI is helping to make:

Robots Correct Ans By AR

DBMS

Online education

Smartphones

Question # 4

Font group includes options:

Font size

Typefaces

AR Lucky Term

Highlight

All of these **Correct Ans** By **AR**

Question # 5

Theoretical track is a part of:

AI responses

Amplifying

Declarative knowledge

AI domain **Correct Ans** By **AR**

Question # 6

Act that gives control over what information websites can collect from kids is:

COPPA **Correct Ans** By **AR** Video Privacy Protection

ECPA

HIPPA

Question # 7

There are many types of sensors including:

Microphones

cameras

range sensors

All of these **Correct Ans** By **AR**

Question # 8

Page Setup Group is in which ribbon of MS Word?

References

Page Layout **Correct Ans** By **AR**

Review

Insert

Question # 9

Copyright can be applied on:

Artistic work

Music

Dramatic works

All of these **Correct Ans** By **AR**

Question # 10

AR Lucky Term

When we draw a table in MS word the table have Initial column(s):

One **Correct Ans** By **AR**

Two

Three

Multiple

Question # 11

Software licenses are:

proprietary

Open source

Free

All of these **Correct Ans** By **AR**

Question # 12

Home ribbon contains groups:

Paragraph

Font

Clipboard

All of these **Correct Ans** By **AR**

Question # 13

Computer science helps in faster response times through

Emails

instant messaging

Chat

All of the given **Correct Ans** By **AR**

Question # 14

Data can come from:

Emails

Personal software

Passwords

All of these **Correct Ans** By **AR**

Question # 15

Content filtering is serving for purpose of :

Security

Socialism

AR Lucky Term

Transaction

All of these **Correct Ans** By **AR** Question # 16

Find option includes:

Find

Advance find

Go to

All of these **Correct Ans** By **AR**

Question # 17

In turn the collected information is potentially available to:

Marketing firm

Political parties

Employers

All of these **Correct Ans** By **AR**

Question # 18

Ethics and legality are essential in many industries including:

Government officer

Teachers

All of these **Correct Ans** By **AR**

Doctors

Question # 19

Which of the following is social issue:

Privacy

Cyber bullying

Identity theft

All of these **Correct Ans** By **AR**

Question # 20

A style option includes font:

Colour

Size

Name

All of these **Correct Ans** By **AR**

Question # 21

Quick Access Toolbar by default includes:

AR Lucky Term

Repeat

Save

Quick print

All of these **Correct Ans** By **AR**

Question # 1

Time required to move the read/write heads from one track to another is called as_____.

Random time

Seek time **Correct Ans** By **AR**

Rotational time

Access time

Question # 2

While sending a message it is the _____ layer's responsibility to provide an address that is compatible with the Internet infrastructure.

Network

Application **Correct Ans** By **AR**

Transport

Link

Question # 3

By attaching the _____ to a message, the sender can mark the message as authentic.

Security

Protocol

Single Signature **Correct Ans** By **AR**

Dual Signature

Question # 4

_____ tag contains the information related to metadata that is not usually displayed on the webpage.

html

head **Correct Ans** By **AR**

AR Lucky Term

p
body

Question # 5

In 2's complement notation, the maximum positive number is represented by _____.

All 1's

All 0's **Correct Ans** By **AR**

A single '0' followed by all 1's

A single '1' followed by all 0's

Question # 6

User can see directories or files by using_____.

User interface

Window explorer **Correct Ans** By **AR**

Internet explorer

Internet explorer

Question # 7

If 15 is divided by 5 using repetitive subtraction, how many steps it involves?

2

0

4

3 **Correct Ans** By **AR**

Question # 8

To construct reliable operating systems, we must develop _____ that cover every possible contingency, regardless of how minuscule it may appear.

Command

Algorithms **Correct Ans** By **AR**

Program

Activity

Question # 9

XML stands for:

AR Lucky Term

Extensible Markup Language **Correct Ans** By **AR**

Extra Markup Language

Excel Macro Language

Extensible Macro Language

Question # 10

_____ tag gives you particular information of any website.

Related

Info **Correct Ans** By **AR**

Cache

Semicolon

Question # 11

2 raised the 0 equals to _____.

2

0

3

1 **Correct Ans** By **AR**

Question # 12

Star topology based network cannot detect _____

Packets

Collision

Transmission **Correct Ans** By **AR**

Deadlock

Question # 13

_____ operator will give us only those web pages in which the searched term appears in the title of the web pages.

Intitle **Correct Ans** By **AR**

Boolean operators

Upper case title

Stocks operator

Question # 14

What would be the output when we apply NOT operation on input 1.

1

11

AR Lucky Term

0 Correct Ans By AR

01

Question # 15

The instruction code to halt machine cycle is

C400

C1000

35CE0

C000 Correct Ans By AR

Question # 16

_____ is a short version of binary digit, a smallest unit to store data.

Bit Correct Ans By AR

Mega Byte

Pattern

Byte

Question # 17

The architecture philosophy with which a CPU is designed to execute a minimal set of machine instructions is called _____.

ENVIAC

CISC

RISC Correct Ans By AR

RISC/CISC

Question # 18

Diameter of COMPACT DISK is _____.

11 centimeters

16 centimeters

12 centimeters Correct Ans By AR

10 centimeters

Question # 19

Internet is a collection of networks constructed by _____

Internet Service Producer

Intranet Server Provider

AR Lucky Term

Intranet Service Producer

Internet Service Provider **Correct Ans** By **AR**

Question # 20

Each on-demand stream is effectively _____ from a media server that stores the content to the end user that wishes to retrieve it.

Multicast

Unicast

Anycast

N-unicast

Question # 21

Link layer will be responsible to:

Deal with the communication details particular to the individual network in which the computer resides

Determine the direction of the packet's next destination

Reconstructs the original message according to the sequence numbers

Determine which application receives an incoming message

Question # 22

Which of the following is the correct sequence of network layers for the flow of message at the sender side?

Application layer to Transport layer to Network layer to Link layer

Network layer to Link layer to Transport layer to Application layer

Link layer to Network layer to Transport layer to Application layer

Application layer to Link layer to Network layer to Transport layer

Question # 23

First software for implementing the Web was released in _____.

October 1990

September 1990

November 1990

December 1990

Question # 24

In fractional binary numbers, decimal point is termed as a/an

AR Lucky Term

_____.

Inter Point

Numeric Point

Fraction Point

Radix Point

Question # 25

Suppose we have a bit pattern 11001101, how many times right circular shift should be performed on it to obtain the same bit pattern?

2 times

4 times

8 times

3 times

Question # 26

Instant messaging in which people carry on a written conversation over the Internet, is an example of which model?

Client/server

Thread-to-thread

Peer-to- peer

Process-to-process

Question # 27

The dispatcher is the component of the _____ that manages the execution of the Scheduled processes

Operating system

Utility program

Memory manager

Kernel

Question # 28

While performing the process _____ compares each memory reference to registers to ensure that the reference is within the designated limits

The ALU/CU

Process manager

AR Lucky Term

The CPU

Operating system

Question # 29

Software units that communicate with controller or sometime directly to peripheral devices called

Operating system

Utility program

System software

Device drivers

Question # 30

All bit patterns, which represent positive numbers in excess notation start with _____.

1

00

11

0

Question # 1

In the case of highly standardized languages, compiler designers often provide features, sometimes called Machine language

Language code

Language extension **Correct Ans** By **AR**

Language symbols

Language translators

Question # 2

```
Int i=1;
```

```
While(i<=5)
```

```
{
```

```
  Cout<
```

```
  l-i+1;
```

```
}
```

How many times loop will execute?

AR Lucky Term

2

3

4

5 **Correct Ans** By **AR**

Question # 3

The syntax for using && is

cmd1 cmd2 &&

cmd1 & cmd2&

&& cmd1 cmd2

cmd1 && cmd2 **Correct Ans** By **AR**

Question # 4

A _____ is a collection whose entries have a hierarchical organization similar to that of an organization chart of a typical company.

Queue

Stack

Tree **Correct Ans** By **AR**

Graph

Question # 5

In the case of _____ that are subject to heavy transaction loads, it is highly likely that a random snapshot will find the database in the middle of some transaction.

small database

large databases **Correct Ans** By **AR**

object oriented programming

web development

Question # 6

From a lay- Person's perspective, design is often equated with

How

What **Correct Ans** By **AR**

Why

Where

Question # 7

AR Lucky Term

Float CGPA>=3.5;

If (CGPA>=3.0)

Cout<<"Give Scholarship";

Else

Cout<<"Sorry you do not qualify for the scholarship";

It will show

Give Scholarship **Correct Ans** By **AR**

Sorry you do not qualify for the scholarship

Good

Display none

Question # 8

How many relational operator are offered by C++?

2

4

6 **Correct Ans** By **AR**

8

Question # 9

The term cohesion refers to this _____.

Functional cohesion **Correct Ans** By **AR**

Logical cohesion

Simple cohesion

Compound cohesion

Question # 10

A mnemonic system for representing programs is collectively called an numbers

Machine language

Assembly language **Correct Ans** By **AR**

low level language

high level language

Question # 11

Assignment statement is

+

AR Lucky Term

= Correct Ans By AR

*

/

Question # 12

In assembly language, the instructions like MOV or ADD are called as

operators

CP-Code Correct Ans By AR

Commands

Identifiers

Question # 13

What is the output of the following code?

```
int sum = 14;
```

```
if ( sum < 20 )
```

```
cout<<"Under ";
```

```
if ( sum > 20 )
```

```
cout<<"Over ";
```

Under Correct Ans By AR

Over

Under the limit

Over the limit

Question # 14

How do you initialize an array in C

```
int aarr[3] = (1,2,3)
```

```
int aarr[3] = {1,2,3} Correct Ans By AR
```

```
int aarr(3) = (1,2,3);
```

```
int aarr(3) = {1,2,3}
```

Question # 15

Correct syntax is

If (condition Statement A Else Statement B.

If condition) Statement A Else Statement B.

If condition) Statement A Else Statement B. Correct Ans By AR

AR Lucky Term

If (conditon)

Question # 16

An array is a " _____ " block of data whose entries are of the same type.

Rectangular **Correct Ans** By **AR**

Square

Triangle

Oval

Question # 17

Which of the following symbol is used at the end of the line to separate statements in many imperative languages

,

: **Correct Ans** By **AR**

.

*

Question # 18

What will be the output of the following statement?

int a = 10 + 4.867;

10

14 **Correct Ans** By **AR**

14.867

Compiler error

Question # 19

Today, database technology, combined with _____ techniques.

Data mining **Correct Ans** By **AR**

Text mining

Opening mining

Sentiment analysis

Question # 20

True parallel processing requires ----- CPU cores

Exact two cores

None of these

AR Lucky Term

Multiple **Correct Ans** By **AR**
Single

Question # 21

What does SDCL stand for in the development environment?

- Software Design Life Cycle
- System Development Life Cycle
- Software Development Life Cycle
- System Design Life Cycle

Question # 22

USA has passed legislation allowing the government to actively monitor citizens in the name of:

- Data ethics
- Data security
- National security **Correct Ans** By **AR**
- National ethics

Question # 23

A _____ is a collection whose entries have a hierarchical organization similar to that of an organization chart of a typical company.

- graph
- stack
- tree **Correct Ans** By **AR**
- queue

Question # 24

_____ drop-down contains the commands: Title Slide and Title and Content.

- Design
- Layout **Correct Ans** By **AR**
- Content
- Slide

Question # 25

To retrieve the information about an employee, we must select the _____ with the appropriate identification attribute value from the

AR Lucky Term

EMPLOYEE relation.

attributes

table

model

tuple **Correct Ans** By **AR**

Question # 26

Word provides you preformatted text boxes through:

Table

Text Indentation

Styles

Text box **Correct Ans** By **AR**

Question # 27

Process of understanding what the characteristics of images means refers to:

Image identifying

Image processing

Image analysis **Correct Ans** By **AR**

Image understanding

Question # 28

Content filters are part of Internet:

Programs

Router

Firewalls **Correct Ans** By **AR**

Network

Question # 29

Design ribbon can have:

Symbols

Page border **Correct Ans** By **AR**

Shapes

Word art

Question # 30

A _____ is a description of only that portion of the database pertinent

AR Lucky Term

to a particular user's needs.

schema

subschema **Correct Ans**

superschema

nonschema

Question # 31

DBMS stands for_____?

Database management Sound

Database maintaince and storage

Database maintaince system

Database management system **Correct Ans** By **AR**

Question # 32

Data mining is practiced on _____ data collections, called data warehouses.

dynamic

forceful

vibrant

static **Correct Ans** By **AR**

Question # 33

Command that can immediately go to a page or any marked location within your document:

Format

Go to **Correct Ans** By **AR**

Search

Ribbon

Question # 34

Which of the following is a robot used in medical field :

Belgian robot **Correct Ans** By **AR**

MED robot

Smart Doc

TUG robot

Question # 35

AR Lucky Term

_____ are ideal for storing data that will be processed in the order in which the file's entries are stored.

Database files

Sequential files **Correct Ans** By **AR**

Index files

Flat files

Question # 36

Requiring certain degree of uniformity of the style, size and orientation of symbols is a(n):

Disadvantage **Correct Ans** By **AR**

Ambiguity

Fast processing

Advantage

Question # 37

How many common forms of data mining?

Two **Correct Ans** By **AR**

Three

Five

Four

Question # 38

This _____ view of the database is called a database model.

logical

conceptual **Correct Ans** By **AR**

theoretical

empirical

Question # 39

program counter **Correct Ans** By **AR**

stack pointer

timer register

data pointer

Question # 40

Each statement in natural language can have:

One meaning

AR Lucky Term

Unique meaning

Multiple meaning **Correct Ans** By **AR**

Same meaning

Question # 41

_____ is used to combine different relations into one relation.

JOIN **Correct Ans** By **AR**

PROJECT

SELECT

COMBINE

Question # 42

Gaming addiction can cause problems:

Financial **Correct Ans** By **AR**

Identity theft

Environmental

Privacy issues

Question # 43

Data mining is practiced on _____ data collections, called data warehouses.

vibrant

static **Correct Ans** By **AR**

forceful

dynamic

Question # 44

Procedural knowledge is learning:

“what”

“slowly”

“how” **Correct Ans** By **AR**

“when”

Question # 45

Data can come from:

Emails

Passwords

Personal software

AR Lucky Term

All of these **Correct Ans** By **AR**

Question # 46

In context of environment, computer science have impacts:

Negative

Positive

Both positive & negative **Correct Ans** By **AR**

Dangerous

Question # 47

People are working in sitting position due to computer science and thus have more chance to develop:

Thinking

Harmful habits

Obesity **Correct Ans** By **AR**

Creativity

Question # 48

Pages is an option in the ribbon:

Home

Insert **Correct Ans** By **AR**

View

Review

Question # 49

We can add charts in MS-word from group:

Apps

Illustrations **Correct Ans** By **AR**

Table

Symbols

Question # 50

The problem known as the _____ can arise if one transaction is in the middle of transferring funds from one account to another when another transaction tries to compute the total deposits in the bank.

lost update problem

time sharing

AR Lucky Term

incorrect summary problem Correct Ans By AR
potential problem

Question # 51

Easy access to online health centres is because of:

Artificial intelligence

Computer science Correct Ans By AR

Intelligent agents

Database

Question # 52

Formulas in Excel start with

#

%

= Correct Ans By AR

+

Question # 53

Reduced

Increased Correct Ans By AR

Controlled

Removed

Question # 54

Information security Risks include:

Malicious code Correct Ans By AR

Cyber bullying

Data collection from children

Online scam

Question # 55

Legal notations to control digital ownership are:

Copyrights Correct Ans By AR

Ethics

Digital mediums

Digital rules

Question # 56

The fifth group in the home ribbon is the:

AR Lucky Term

Style

Editing Correct Ans By AR

Help

Insert

Question # 57

Robots identifies veins by:

Testing

Touching veins

Image processing Correct Ans By AR

Artificial intelligence

Question # 58

A _____ is a storage area that contains such an encoded address.

graph

pointer Correct Ans By AR

tree

array

ASCII WHITE is the fastest Super computer which can perform _____ calculations in one second.

☐ 1.3 billion

☐ 1.3 trillion

☐ 1.3 million Correct Ans By AR

AR Lucky Term

- ☐ 1.3 thousand

_____consists of cells arranged in rows & columns

- ☐ Spreadsheets Software **Correct Ans** By **AR**
- ☐ Word processor
- ☐ Presentation Software
- ☐ Microsoft Paint Software

Assignment operator in JavaScript is represented by:

- ☐ = **Correct Ans** By **AR**
- ☐ ==
- ☐ =>
- ☐ >=

Instead of Full System, one can_ results from part of a System

- ☐ Not achieve
- ☐ Mostly achieve
- ☐ Sometimes achieve **Correct Ans** By **AR**
- ☐ Achieve

One can browse documents residing on a remote computer using

protocol.

- ☐ HTTP
- ☐ SMTP
- ☐ FTP **Correct Ans** By **AR**
- ☐ TELNET

There are _____ ways of calling functions.

- ☐ One
- ☐ Two **Correct Ans** By **AR**
- ☐ Three
- ☐ Four

JavaScript Variables are _____.

- ☐ Dynamically Typed **Correct Ans** By **AR**
- ☐ Statically Typed
- ☐ Strong Typed
- ☐ None of the given options

Word Processor is a ____

- ☐ System Software

AR Lucky Term

- ☐ Application Software Correct Ans By AR
- ☐ Device
- ☐ Utility

Tag used to make a Text Bold is _____

- ☐ <BOLD></BOLD>
- ☐ Correct Ans By AR
- ☐ <BODY></BODY>
- ☐ None of these

Automatic machines performing various tasks that were previously done by humans, are called____.

- ☐ Robotics
- ☐ Computers Correct Ans By AR
- ☐ Decision Making Systems
- ☐ Autonomous Web Agents

In tabular storage, fields placed in a particular row are strongly____.

- ☐ Independent
- ☐ Dependent
- ☐ Interrelated Correct Ans By AR
- ☐ Inconsistent

The distance among _____ families is internet.

- ☐ Increased
- ☐ Expanded
- ☐ Contracted
- ☐ Decreased Correct Ans By AR

Distance learning has got a

AR Lucky Term

boost due to the

because of spending more time
on

_____.

- ☐ Easy communication
- ☐ Online interactive contents
- ☐ Flexibility
- ☐ All of the given options **Correct Ans** By **AR**

The_____is becoming the preferred organizational structure for moreand more organizations with the passage of time.

- ☐ Tree structured organizational model
- ☐ Network paradigm **Correct Ans** By **AR**
- ☐ Hierarchical structure
- ☐ None of the given options

_____team is responsible for the development of detailed proposals forprojects.

- ☐ Architecture
- ☐ Business Development **Correct Ans** By **AR**
- ☐ Configuration Management
- ☐ Developer

Sequence of steps that is taken to solve a problem is called_____.

- ☐ Algorithm **Correct Ans** By **AR**
- ☐ Operating System

- ☐ Application software
- ☐ None of the given options

Interactive forms are always placed between__tag-set

- ☐ TITLE Correct Ans By AR
- ☐ HEAD
- ☐ BODY
- ☐ HTML

___attribute of FORM tag is used to mention a URL when the form is beingSubmitted

- ☐ name
- ☐ action Correct Ans By AR
- ☐ method
- ☐ submit

In JavaScript, each element of array can store data of type

- ☐ A Number
- ☐ An Array
- ☐ A String variable
- ☐ All of the given choices Correct Ans By AR

Which is the user-friendly way of presenting data?

- ☐ Query
- ☐ Form
- ☐ Report Correct Ans By AR

- ☐ All of the given options

Currently the BlueRay DVD can store more than_of data.

- ☐ 10 GB

- ☐ 100 GB
- ☐ 50 GB **Correct Ans** By **AR**
- ☐ 150 GB

Module level design and unit testing is the responsibility of_____.

- ☐ Team Lead
- ☐ Developer **Correct Ans** By **AR**
- ☐ Project Manager
- ☐ Quality Assurance Expert

Symbol is used for

- ☐ Connector
- ☐ Off page connector
- ☐ Start and end
- ☐ Both connector and off page connector **Correct Ans** By **AR**

In spreadsheet, which of the following function is used to solve the equation $3x^3 - 2x + 5 = 0$?

- ☐ COUNTIF
- ☐ GoalSeek **Correct Ans** By **AR**

AR Lucky Term

- ☐ =Sum
- ☐ None of the above

From which of the following is NOT a technique through which Security can be improved:

- ☐ Private or virtual-private networks
- ☐ Firewalls
- ☐ Metal detectors **Correct Ans** By **AR**
- ☐ Virus detectors

In JavaScript: In order to display the text on browser Grade A, which of following statement is True.

- ☐ documentwrite("Grade A")
- ☐ document.write("Grade A"); **Correct Ans** By **AR**
- ☐ document.write("Grade" && A");
- ☐ document.write("Grade" && "A");

The_____Processor is specially designed for PDA?

- ☐ PowerPC **Correct Ans** By **AR**
- ☐ StrongARM
- ☐ Crusoe
- ☐ SPARC

Navigation should remain_____.

AR Lucky Term

- ☐ Consistent Correct Ans By AR
- ☐ Conflicting
- ☐ Contradictory
- ☐ Unpredictable

It represents the_____flow chart element.

- ☐ Flow Line
- ☐ Connector
- ☐ Off-page connector **Correct Ans** By **AR**
- ☐ Start or Stop

The interface that a website provides to the user for accessing various parts of the website is known as__.

- ☐ Navigation **Correct Ans** By **AR**
- ☐ Arrangement
- ☐ Layout
- ☐ Home

Using smart editors they can automatically color different parts of statements in different colors e.g. HTML tags in____color.

- ☐ Green
- ☐ Grey
- ☐ Blue
- ☐ None of the given options **Correct Ans** By **AR**

AR Lucky Term

_____ can be used for entering, editing, or viewing data, one record at a time.

☐ Queries

☐ Forms **Correct Ans** By **AR**

- ☐ Reports
- ☐ None of the given options

_____ is a field that uniquely identifies each record stored in a table.

- ☐ Composite Key
- ☐ Primary key **Correct Ans** By **AR**
- ☐ Foreign key
- ☐ None of the given options

What is the 2nd step of DoS attack?

- ☐ Race
- ☐ Arm **Correct Ans** By **AR**
- ☐ Search
- ☐ Attack

Spies of one business monitoring the network traffic of their competitors' _____.

- ☐ Industrial Intelligence
- ☐ Industrial Espionage **Correct Ans** By **AR**
- ☐ Industrial Spying
- ☐ Industrial Surveillance

The developer report to _ in a development team.

- ☐ Team Lead

AR Lucky Term

- ☐ Project Manager Correct Ans By AR
- ☐ CEO
- ☐ IT Manager

The tasks performed to determine the existence of defects is called _

- ☐ Debugging
- ☐ Testing **Correct Ans** By **AR**
- ☐ Repairing
- ☐ Coding

When we buy a software package, we do not really buy it, we just by a license that allows us to use it, the ___ stays with the maker.

- ☐ Agreement
- ☐ Ownership **Correct Ans** By **AR**
- ☐ Membership
- ☐ Software

Processed data is called ____.

- ☐ Information **Correct Ans** By **AR**
- ☐ Data
- ☐ Entity
- ☐ Attribute

A ____ translates a high-level language (that is easy to understand for humans) into a language that the computer can understand.

AR Lucky Term

- ☐ Computer
- ☐ Transistor
- ☐ Compiler **Correct Ans** By **AR**
- ☐ Device

AR Lucky Term

ASCII WHITE is the fastest Super computer which can perform _____ calculations in one second.

- ☐ 1.3 billion
- ☐ 1.3 trillion
- ☐ 1.3 million **Correct Ans** By **AR**
- ☐ 1.3 thousand

_____consists of cells arranged in rows & columns

- ☐ Spreadsheets Software **Correct Ans** By **AR**
- ☐ Word processor
- ☐ Presentation Software
- ☐ Microsoft Paint Software

Java script interact with user through_____

- ☐ Special control
- ☐ Internet explorer
- ☐ Event handlers

AR Lucky Term

- ☐ Java script does not interact with user **Correct Ans** By **AR**

A unique identifier for a computer on TCP/IP network is called

- ☐ Net address
- ☐ IP address **Correct Ans** By **AR**
- ☐ TCP address
- ☐ Network address

onLoad event is occurred when the form is _____

- ☐ Loaded
- ☐ Unloaded **Correct Ans** By **AR**
- ☐ A button is pressed.
- ☐ Nothing happens.

Which of the followings is NOT a Relational DBMS software.

- ☐ Access
- ☐ FrontPage **Correct Ans** By **AR**
- ☐ FileMaker Pro
- ☐ SQL Server

country="Hello Pakistan";

document.write(country.length);

The output of the above statement is_.

☐ 12

☐ 13

☐ 14 Correct Ans By AR

☐ 15

When '+' operator is used with string operands, it_____both strings.

☐ Adds

☐ Subtracts

☐ Concatenates

☐ Compares Correct Ans By AR

Due to working at home, lack of interaction may result in ____ professional growth.

☐ Slower Correct Ans By AR

☐ Faster

☐ Higher

☐ Improved

_____has great PR skills.

☐ Architect

☐ Team Lead

☐ Project Manager

☐ Chief Executive Officer Correct Ans By AR

_____breaks down the message, to be sent over the internet, into packets.

- ☐ Protocol Correct Ans By AR
- ☐ TCP
- ☐ IP
- ☐ NIC

When the packets reach at destination,_____reassembles them into original message.

- ☐ Protocol
- ☐ TCP Correct Ans By AR
- ☐ IP
- ☐ NIC

Many developers write the_____first and then incrementally convert each line into_____.

- ☐ Real code & Pseudo code
- ☐ Pseudo code & Real code Correct Ans By AR
- ☐ Real code & Artificial code
- ☐ None of the given options

If a computer could pass the Turing test then it would be able to:

- ☐ think like human beings
- ☐ do the things faster Correct Ans By AR

AR Lucky Term

- ☐ win a million dollar prize
- ☐ store more information

Information available on the web is

- ☐ mostly free of cost **Correct Ans** By **AR**
- ☐ costly
- ☐ very cheap
- ☐ of no use

When we buy a software package, we do not really buy it, we just by a license that allows us to use it, the ___ stays with the maker.

- ☐ Agreement
- ☐ Ownership **Correct Ans** By **AR**
- ☐ Membership
- ☐ Software

No **Correct Ans** By **AR**

Question

The data storage space is divided into several sections, called, each of which is capable of holding several records.

Buckets **Correct Ans** By **AR**

Question

Conversion from key values to bucket numbers is called a:

Hash function **Correct Ans** By **AR**

Question

Robots identifies veins by

Image processing **Correct Ans** By **AR**

Question

Refers to the task of identifying documents that relate to the topic at hand.

Information retrieval **Correct Ans** By **AR**

Question

Page setup Group is in which ribbon of MS word?

Page Layout **Correct Ans** By **AR**

Question

Image analysis is also known as

region finding **Correct Ans** By **AR**

AR Lucky Term

Question

If we want to link two sections of a same documents we generally use:
Hyperlink **Correct Ans** By **AR**

Question

The simplest response is a, which is merely a predetermined response to the input data.

Reflex action **Correct Ans** By **AR**

Question

_____ refers to identifying characteristics of the image.

Image processing **Correct Ans** By **AR**

Question

We can customize indentation with:

Ruler **Correct Ans** By **AR**

Question

Ensures patient confidentiality for all healthcare-related data.

HIPPA **Correct Ans** By **AR**

Question

Retailers manage record of their customers:

Purchases **Correct Ans** By **AR**

Question

Smart Art was introduced in Word version:

Question #

The statement $z=x+y$ shows

The sum of X and Y be assigned to the variable Z Correct Ans By AR

Question #

The Turing test result of program DOCTOR developed by JosephWeizenbaum was:

AR Lucky Term

Ambiguous **Correct Ans** By **AR**

Question #

A process which is used by the software industry to design, develop and test high quality software is known as:

Software life cycle **Correct Ans** By **AR**

Question #

Shortcut key to select the whole text in a document **Ctrl+a**

Correct Ans By **AR**

Question #

In the case of the incremental model these prototypes evolve into the complete, final system, a process known as _____.

Evolutionary prototyping

Question #

Microsoft office includes:

Word **Correct Ans** By **AR**

Question #

Design ribbon can have:

Page border **Correct Ans** By **AR**

Question #

The option of strike through is in group:

Particular machine **Correct Ans** By **AR**

AR Lucky Term

Question #

The field of artificial intelligence is being pursued along paths:2 Correct Ans By

AR

Question #

Design phase is followed by.....

Implementation Correct Ans By AR

Question #

The point at which all the steps in a transaction have been recorded in the log is called the_____.

commit point

AR Lucky Term

Question #

"Displaying Text in Two Columns" feature is in which tab of MS Word? **Page Layout** **Correct**

Ans By **AR**

Question #

Command that can immediately go to a page or any marked location within your document:

Go to **Correct Ans** By **AR**

Question #

We can customize indentation with:

Question #

Ctrl+y is used for: **Redo**

1. The result of----- step in the entire development process should be "tested" for accuracy **Each**

intermediate step

2. From a lay- person's perspective, design is often equated with

How

3. The amount of paper American use in a year is:

85 million tons

4. Which of the following might be used to convert high-level language instructions into machine language?

An interpreter

5. Table group is a part of _____ ribbon:

AR Lucky Term

Insert

6. Attacks can be made to prevent access to websites by crashing:

Servers

7. Which of the following statement is used for output in C++?

cout<<

8. A model which represents the shift away from strict adherence to the waterfall model is:

Iterative model

AR Lucky Term

9. A rapidly expanding subject that is closely associated with database technology is_____, which consists of techniques for discovering patterns in collections of data.

Data mining

10. In the case of highly standardized languages, compiler designers often provide features, sometimes called

Language extension

11. The system's interface should be designed for the _____.

all of above

12. Which of the following might be used to convert high-level language instructions into machine language?

An interpreter

13. True parallel processing requires----- CPU cores

Multiple

14. Which of the following technique is used in software testing that examines the functionality of an application without peering into its internal structures or workings.

Black box testing

15. Which of the following is a robot used in medical field :

Belgian robot

16. In modern computer applications, problems are more easily solved in the context of:

AR Lucky Term

Technology

17. Turing gave a percentage of a machine that will have a chance to pass Turing test in year:

2000

18. In Belgian Pepper Robot works in:

Hospitals

19. Meaning of a statement in natural language depends on its:

Style

20. Shortcut to insert an end note in MS word is

Alt + Ctrl + D

21. Stakeholders can be a

Government agencies

22. Gaming addiction can cause problems:

Environmental

23. Illustration is a part of ribbon:

Insert

24. DBMS stands for_____?

Database management system

25. What will be the output of the following code?

```
int main()
```

```
{
```

AR Lucky Term

```
int x = 9; while
```

```
(x>0)x=x-1;
```

```
cout<<x;
```

```
return 0;
```

```
}0
```

26. In context of health, computer sciences have impacts:

Both positive & negative

27. If the result after comparison of two variables in relational operators is False, then if statement returns value.

0

28. Now if the result after comparison of two variables is True, then if statement returns value

1

29. A mnemonic system for representing programs is collectively called a numbers

Machine language

30. Second phase of the development phase of the software development life cycle is:

Bb

AR Lucky Term

31. Which software testing methodology is to develop a set of test data that insures that each instruction in the software is executed at least once?

White-box testing

32. Each statement in natural language can have:

AA

33. Find option includes:

All of above

34. A device that responds to stimuli from its environment:

Agent

35. Format painter is in group of:

Design

36. In particular, the chart that indicates the entire game is overseen by a function named _____

Control Game,

37. The description of the object's properties is called

Class

38. Editing group has commands:

5

39. Style groups in MS-word can have:

Functions

AR Lucky Term

40. Control structure iterates a set of instructions based on the provided condition called

Conditional

41. Information security Risks include:

Online scam

42. Each programming language tends to approach the parallel processing paradigm and have different terminology. In Ada we use termfor this purpose.

Thread

43. The option of bullets is in group:

Paragraph

44. An analogy to the fact that the development process was allowed to flow in only one direction called

Waterfall model

45. Content filtering is used to implement company policies related to usage of:

Information system

46. $5\%2$ would give

1

47. Which of the following symbol is used at the end of the line to separate statements in many imperative languages?

;

48. Privacy is the "right to be let alone" is written by:

AR Lucky Term

Samuel D. Warren

49. "Displaying Text in Two Columns" feature is in which tab of MS Word?

Page Layout

50. ----- refers to data items that can take on only the values true or false

Boolean

51. If we want to end a page at a specific point and move to the next page we can use:

Page end

52. AI is helping to make:

Robots

53. Which of the following is the contrast of the Declarative paradigm?

Imperative paradigm

54. Which one is a unary operator?

NOT

55. Quick Access Toolbar by default includes:

All of these

56. The option of strike through is in group:

Font

AR Lucky Term

57. In modern computer applications, problems are more easily solved in the context of:

Technology

58. Equal to sign is

=

59. Actions according to environment knowledge:

Reflex action

60. To retrieve the information about an employee, we must select the _____ with the appropriate identification attribute value from the EMPLOYEE relation.

Table

61. How many common forms of data mining?

Two

62. Insert tab can have group:

Pages

63. Writing programs in a machine language is a tedious task that often leads to errors that must be located and corrected

Debugging

64. We have paste options:

Multiple

65. A significant example of iterative techniques is:

Rational unified process

AR Lucky Term

66. A software license is a _____ between the owner and user of a software product that grants the user certain permissions to use the product without transferring ownership rights to the intellectual property.

Legal agreement 67.

Page group includes options: **Cover**

page

68. The syntax for using && is: **Cmd1**

&& cmd 2

69. Smart art was introduced in MS word version

2007

70. If the result after comparison of two variables in relational operators is False, then if statement returns value

0

71. When we apply header it is shown at:

Start page of document

72. A translator which takes assembly language program as input & produce machine language code as output is known as:

Assembler

73. Theoretical track is a part of:

AR Lucky Term

Declarative knowledge

74. In MS-word different type of effects on the text can be applied with:

All of given

75. While_____and software license agreements provide legal avenues to inhibit outright copying and unauthorized use of software.

Copy rights

76. Social sites includes:

Twitter

77. Correct syntax is:

If (condition) Statement a Else Statement B.

78. There we found that a register called a_____is used to hold the address of the next instruction to be executed.

program counter

79. Software Engineering is an engineering discipline that is concerned with:

All aspects of software production

80. Microsoft office includes:

Word

81. In some cases, the data collection process is readily apparent; in others it is:

Subtle

AR Lucky Term

82. Access to the forbidden literature is because of:

Computer

83. _____are ideal for storing data that will be processed in the order in which the file's entries are stored.

Sequential files

84. Change case control is an example of:

Dropdown menu

85. A program DOCTOR developed by Joseph Weizenbaum in the mid-1960s named as:

Eliza

86. Information that was once buried in arcane records has become accessible because of:

Database

87. Meaning of a statement in natural language depends on the manner in which it is:

88. Programming languages are well-designed so that each statement has _____meaning:

Only one

89. _____is based on real time factory concept.

Factory pattern

90. The fifth group in the home ribbon is the:

AR Lucky Term

Eliding

91. Retailers maintain record of their costumers:

Purchases

92. USA has passed legislation allowing the government to actively monitor citizens in the name of:

National security

93. Data mining is practiced on_____data collections, called data warehouses.

static

94. The links between_____in an object-oriented database are normally maintained by the DBMS.

Objects

95. In which of the following paradigms, a program is constructed by connecting smaller predefined program units.

Functional paradigm

i=1;

While(i<=5)
{

Cout<<i;I=i+1;

}

How many times loop will execute?

AR Lucky Term

5

96. Paste option is a part of home ribbon group called:

Clipboard

97. Editing group have commands:

3

98. People are working in sitting position due to computer science and thus have more chance to develop:

Obesity

99. The style group in the home ribbon is the:

Fourth group

100. The sign of modulus is

%

101. _____ deals with designing systems that harmonize with the physical abilities of humans.

Ergonomics

102. The communication between people because of computer science has:

Improved

103. Content filtering works by matching_____of characters:

Strings

104. Easy access to online health centres is because of:

Database

AR Lucky Term

105. A _____ is a collection whose entries have a hierarchical organization similar to that of an organization chart of a typical company.

Tree

106. Sophisticated packages designed primarily for the software engineering environment known as

DIES

107. The default theme of MS-Word document is:

Office

108. While _____ and software license agreements provide legal avenues to inhibit outright copying and unauthorized use of software.

Copyrights

109. The option of justify is in group:

Paragraph

110. -----stages about developing a solution to the problem

Design

111. A _____ is a description of only that portion of the database pertinent to a particular user's needs.

Subschema

112. 1Which is Boolean operator for logical AND.

&

113. Content Risks include:

AR Lucky Term

Harmful Advice

114. One operation we might want to perform on a relation is to select_____possessing certain characteristics and to place these selected _____in a new relation.

tuple, tuple

115. In the case of highly standardized languages, compiler designers often provide features, sometimes called

Language extension

116. We can add charts in MS-word from group:

Table

117. 1Turing test was purposed in:

1950

118. 1Act that ranges government restrictions on wire taps to include transmissions of data is:

ECPA

119. Computer science helps in faster response times through:

All of given

120. In_____software tester is aware of the interior structure of the software and uses this knowledge when designing the test.

Black-box testing

121. The field of artificial intelligence is being pursued along paths:

AR Lucky Term

3

122. Software licenses are:

All of these

123. Requiring certain degree of uniformity of the style, size and orientation of symbols is a(n):

CCCC

124. The term programming paradigm is a misnomer. A more realistic term would be Non-Procedural paradigms

Nontraditional paradigms

125. In turn the collected information is potentially available to:

All of these

126. Major component of syntactic analysis is:

DD

127. In assembly language, the instructions like MOV or ADD are called as_____

OP-Code

128. We have to write an equation with 2 as a number and 3 as its power. Which option can be used for this purpose?

BB

129. The imperative paradigm, also known as the Particular machine

Procedural paradigms

130. Third generation language

AR Lucky Term

attributes refer to Particular machine

AR Lucky Term

131. Computer security is also known as:

Cyber-security

132. In_____if two modules interact with the same item of data, then modifications made to one module may affect the other.

Data coupling

133. Retailers maintain record of their costumers:

Purchases

134. Each programming language tends to approach the parallel processing paradigm and have different terminology. In Ada we use termfor this purpose.

Task

135. A specific example is the _____series of standards, which address numerous industrial activities such as design, production, installation and servicing.

ISO 9000

136. In Object Oriented Paradigm, each object will have its own collection of functions which is known as:

Classes

137. 1Pages is an option in the ribbon:

Insert

138. Learning procedural knowledge usually involves a process:

Trial-and-error

AR Lucky Term

139. A model which represents the shift away from strict adherence to the waterfall model is:

Iterative model

140. Distinction between software engineering and other engineering disciplines is the lack of quantitative techniques, called

Metrics

141. The term cohesion refers to this _____.

logical cohesion

142. Ethical issues are related to:

Moral principles

143. Modules come in a variety of_____.

Forms

144. _____begins the paragraph with a large letter that spills down into the text:

Drop cap

145. Plagiarism is a major problem in:

Education

146. Shortcut key of cut is:

Ctrl+x

AR Lucky Term

147. Which intermodal coupling occurs when a module passes control of execution to another, as in a function call?

control coupling

148. Process of understanding what the characteristics of images means refers to:

Analysis

149. This _____ view of the database is called a database model.

Conceptual

150. If we want to end a page at a specific point and move to the next page we can use:

Page end

151. 1A file's _____ is normally stored as a separate file on the same mass storage device as the _____.

index , indexed file

152. Declarative paradigms system is design for

All of these

153. 1A _____ is a pre-developed model for solving a recurring problem in software design.

design pattern

154. The conceptual shape or arrangement of data is known as

Data structure

AR Lucky Term

155. Which of the following language is related to functional paradigm?

Python

156. This conceptual view of the database is called a _____ model.

Database

157. Electronic Theft include

Cyber bullying

158. Control structure iterates a set of instructions based on the provided condition called

Loop

159. Shortcut key of paste is:

Ctrl+v

160. Which from the following is not a relational operator?

!=

161. We can highlight a text from group:

Font

162. Reports can be received at home through email because of advancement in:

Artificial intelligence

163. CAN-SPAM Act applies in:

US

AR Lucky Term

164. In particular, the chart that indicates the entire game is overseen by a function named _____

Controlgame

165. A translator which takes assembly language program as input & produce machine language code as output is known as:

Assembler

166. Which of the following is social issue?

All of given

167. A rapidly expanding subject that is closely associated with database technology is_____, which consists of techniques for discovering patterns in collections of data.

Data mining

168. 1Assignment statement is

=

169. The term _____ refers to a collection of data that is multidimensional in the sense that internal links between its entries make the information accessible from a variety of perspectives.

Database

170. The statement $z=x+y$ shows

The sum of X and Y be assigned to the variable Z

171. 1The Turing test result of program DOCTOR developed by Joseph Weizenbaum was:

Ambiguous

AR Lucky Term

172. A process which is used by the software industry to design, develop and test high quality software is known as:

Software life cycle

173. 1Shortcut key to select the whole text in a document

Ctrl+a

174. In the case of the incremental model these prototypes evolve into the complete, final system, a process known as_____.

Evolutionary prototyping

175. Microsoft office includes:

Word

176. Design ribbon can have:

Page border

177. The option of strike through is in group:

Particular machine

178. The field of artificial intelligence is being pursued along paths:

2

179. Design phase is followed by.....

Implementation

180. The point at which all the steps in a transaction have been recorded in the log is called the_____.

commit point

AR Lucky Term

181. "Displaying Text in Two Columns" feature is in which tab of MS Word?

Page Layout

182. Command that can immediately go to a page or any marked location within your document:

Go to

183. Ctrl+y is used for:

Redo

1. A computer translator is best described as **system software**
2. Which of the following data type is used for a variable having whole numeric values **Integer.**
3. Each pass through a loop is called a(n) **Literation**
4. TUG robot can carry medications of **450**
5. THE field of NLP tends towards which direction **ALL**
6. Which of the following is a block element of HTML ? **<table>**
7. is a band coding environmental for writing and editing HTML and Javascript Adobe Dreamweaver **code view.**
8. XML stands for ? Extra modem link **Extensible mark up language .**
9. Compilers and editors come under which type of software **system software .**
10. In Which type of SDLC , interaction of the system with outside world is defined as **Requirement analysis.**
11. Previously , computers were based on dedicated CPUs , those CPUs performed **only one task**

AR Lucky Term

12. Which of the following testing technique focus on the functional requirements of the software ? **Black box testing.**
13. Which of the following is not the primary area of the concern in design phase ? **Architecture .**
14. Which of the following symbol is used for grouping in a pseudo code **0.**
15. Hearing loss due to computer is more common in those listening to **high volume.**
16. Consider the XML statement <staff clef="treble"></staff> and tell what is the value of attribute in the statement ? **Treble.**
17. Specific legal rights which protects the owners of IP are **IPR**
18. Privacy uses the theory of : **natural rights**
19. Generally the technique is used to transmit passwords securely over the internet **Encryption.**
20. DVD stands for . **Digital Versatile disk.**
21. MS word is a part of.. **Microsoft office.**
22. Button to increase and decrease size of text are available on **Font group.**
23. Font effects include..... **Italicize**
24. What will be the output of =MIN(A6:A8) in the given table **34**
25. Shortcut key to insert new comment in MS word is **shift +F2**
26. We can store samples per seconds for long distance telephone:..... **A3**
27. Address of cell "8" in given below sheet is **B3**
28. Address of sheet containing value "5" in given below:..... **B2**
29. An interrupt converts the CPU into privilege mode and transfers control to within the operating system **interrupt handler**
30. Page group options include :..... **page break**

AR Lucky Term

31: Title page of documents is called :.....cover page

32: When we share the document with others and want them to understand it easily we can add :.....comments

33: A one dimensional array with..... elements could be used to store the number of times each alphabet letter occurs in a page of text.....26

34. Inserting a new entry at the top of a stack is called ..an entrypushing

35. We often refer to the number of nodes in the longest path from the root to leaf as theof the tree depth

AR Lucky Term

36. The nodes at the other extremes callednodesterminal
37. How many bytes store in 1 Megabyte? 1048
38. How many bytes can store in 1 kilobytes ? 1024
39. in imperative paradigm ,we start with findingand express this as sequence of :...algorithm commands
40. Which of the following language is not related to functional paradigm:.....scheme
41. The symbol << is known asoperator , insertion.
42. Relational in 11001101 identify the mantissa field M1104
43. ISP stands forinternet service provider
44. Cluster computing describes a distributed system in which many computers work closely together to provide computation independent
45. Robots in comparison of humans are able to take blood from the veins:....accurately
46. when you search jaguar on google then,it will show the result of car andanimal
47. we write ..operator then it will try to search all terms individually:...inurl
48. A test that shows the performance of AI model is called :...turing test
49. The problems are associated with general image analysis are:...enormous
50. To understand natural language humans rely on :.....additional

AR Lucky Term

knowledge

51. Which operators are used to compare the values of operands to produce logical value in C language? relational operator
52. A software consists ofset of instruction+ operating procedure
53. Which of the following is the first phase of software development lifecycle? requirement analysis.
54. The importance of software design can be summarized in a single word which is :....quality
55. Which of the following is not related to white box testing.....clear box testing
56. In RGB, we havebytes 3

AR Lucky Term

57. Content filtering can be used to implement company's:....policies
.....=
59. An important component within today's GUI shells is thewindow
manager
60. In Excel ,Rows are labeled as1,2,3 etc
61. Example of combination command isunderline
62. If we have pasted the text in wrong line and want to cancel this
action we can usecommand.....undo
63. We can perform sort from group:.....paragraph
64. Which one of the following will not be considered as the
use of wordprocessor? making ledger
65. In style menu we canall of these
66. Sniffing software records user activates and report them to intruder
67. When we want to move to a book mark we select it and click on the
button:.....move
68. What will the output of the following excel formula?If
 $A1=4, B1=6, C1=2, =(B1^{(A1-C1)})^2$48
69. What will be the output of following excel formula.....12.5
70. Address of the cell containing value 4 in spread sheet given below is
.....A2
71. We can insert a preformatted sidebar text box through :.....text box
72. When we are using themes in MS word the tool tip indicates themes ;

AR Lucky Term

..... current

73. The select operation extractsfrom a relation :.....rows
74. A one dimensional array withelements could be used to store the number of times each alphabet letter occurs in page of text 26
75. Aarray consists of multiple rows and columns in which positions are identified by pairs of indices.....2-dimensional
76. The simplest form of array is thearraydimensional

AR Lucky Term

77.,is a phase that make distinction between the tasks of software analyst and a programmer **implementation**
78. We use to reduce unnecessary dependencies or effects or modules **information hiding**
79. In the case of incremental model these prototypes evolve into the complete, final system, a process known as **evolutionary**
80. A stronger form of cohesion is also called as cohesion
..... **functional**
81. The syntax for using && is **cmd1 & cmd2**
82. {count<<i;l=i+1;} How many times loops will execute **5**
83. **Inti=1; While (I,=5) {Count<<I; I=i+1;}..5**
84. From a lay person's perspective design is often equated with **software lifecycle**
85. How many relational operators are offered by C++? **6**
86. Is not a phase of SDLC **problem identification**
87. The software of of binary digit is **2**
88. Software engineering is an engineering discipline that is concerned with **all aspects**
of **software production**
89. Model allows the development process only in one direction..... **water fall**
90. A translator which takes assembly language program as in produce machine language code as output is known as **assembler**
91. Stakeholders can be a. **government agencies**
92. The description of the objects properties is called ... **class**
93. The syntax for using && is **cmd & cmd2**
94. Week cohesion is also called as Cohesion **logical**
95. :Which of the following language is related to functional paradigm
..... **lisp**

AR Lucky Term

96. :Which of the following is not the reason due to which a software is moved to maintenance stage.....**repair process**
97. The description of the objects properties is called ...**class**
98. In the case of highly standardized languages compiler designers often provide features, sometimes called **language extension**
99. The traditional development phase of the software lifecycle does not include the stage ;**maintenance**
100. An alternative to translators,....**interpreter**
101. Recurring problems which are handled by the pre developed module in software design is called**design pattern**
102. is aimed to give detail explanation about the use and features of the software **user documentation**
103. How many relational operators are offered by C++? **6**

AR Lucky Term

104. The traditional development phase of the software lifecycle does not include the stage, **maintenance**
105. In structure chart functions are represented by....**arrows**
106. are generally used for the creation of loosely coupled systems
factory design pattern
107. True parallel processing requires CPU cores ...**multiple**
108. Which software testing refers to tests that do not rely on knowledge the software's interior composition **black box testing**
109. float CGPA=3.5; If (CGPA>=3.0) Count<<"Give scholarship"; Else Count<<"Sorry you do not qualify for the scholarship";**sorry you do not qualify for this scholarship.**
110. If the result after comparison of two variables in relational operators is False, then if statement returns value **0**.
111. Which one is not a valid data type? **HTML**
112. Model allows the development process only in one direction.....**WATERFALL**
113. float CGPA=3.5; If (CGPA>=3.0) Count<<"Give scholarship"; Else Count<<"Sorry you do not qualify for the scholarship";.....
Sorry you do not qualify for this scholarship
114. In the case of highly standardized languages compiler designers often provide features, sometimes called **factory design pattern**
115. Which of the following is correct for incremental model? **1st increment is simplified version**
116. are the sophisticated software packages that are primarily designed for the software **IDEs**
117. Which phase provides a road map for developers during project planning
.....**system**
m
analysis
118. If the result after comparison of two variables in relational

AR Lucky Term

operators False, then if statement returns value.....0

119. Which documentation is required that can be used for software maintenance later on in the software user documentation

120. Is not a phase of SDLC problem identification

121. The incremental Model can be equated some times with the mode ..iterative

122. Which of the following is correct for incremental modes.....1st increment is simplified version

123. The traditional development phase of the software lifecycle does not include the stage maintenance

124. We use to reduce unnecessary dependencies or effects or modules..information hiding

125. Which of the following is the correct syntax to initialize a 3-element integer array in C/C++?.....int arr[3]={1,2,3}...

126. Which software testing refers to tests that do not rely on knowledge the software's interior composition black box testing

AR Lucky Term

127. Which of the following technique is used in software testing that examines the functionality of an application without peering into its internal structures or workings..... **Black box testing**

128. Which of the following statement is used for output in C++... **count<<**

129. Which of the following symbol is used at the end of the line to separate statements in many imperative languages **;**

130. How many choices are possible when using a single if-else statement
2

131. Which one is unary operator? **not**

132. Which of the following is the contrast of the declarative paradigm?
..... **object oriented paradigm**

133. Which of the following is the traditional approach of programming process? **imperative paradigm**

134. Refers to data items that can take on only the values true or false... **boolean**

135. In object oriented paradigm each object will have its own collections of functions which is known as..... **method**

136. Writing programs in a machine language is a tedious task that leads to errors that must be located and corrected **debugging**

137. $5\%2$ would give **1**

138. Which of the following might be used to convert high level language instructions into machine language.... **an interpreter**

138. A alters the execution sequence of program **control statement**

139. Page group includes options:..... **cover page**

140. A mark or any other distinctive sign associated with products is called **Trademark**

141. We can customize indentation with **Ruler**

142. Retailers manage record of their customers **Purchasers**

143. Social sites includes:..... **Twitter**

AR Lucky Term

144. Computer science has made hacking bank account:..... Possible
145. Attacks that can be made to prevent access to web sites DDOS
146. Software licenses provide end users with the right to one or more copies of the software without violating copyrights
147. Learning procedural knowledge usually involves a process Trial-and-error
148. Which of the following is a robot used in medical field:..... Belgian robot
149. Shortcut to select the whole text in a document:..... ctrl+A
150. Editing group have commands 3
151. Matching geometric characteristics technique cannot read:..... Handwritten material
152. Content filtering is used to implement company policies related to information system
-

AR Lucky Term

153. The location that is used to temporary store the information that has been cut from somewhere:..... **Clipboard**
154. A **sequential file** is a file that is accessed in a serial manner from its beginning to its end as though the information in the file were arranged in one long row.
155. Arrange Group is in which ribbon of MS Word? **Page Layout**
156. Justify option is used to give spaces to the paragraph on left and right side **equal**
157. Shortcut to insert a new comment in MS word is **Shift+F2**
158. The people present around the e-waste gain **diseases**
159. The field of Artificial intelligence is being pursued along paths:... **2**
160. People are working in sitting position and thus have more chance to develop:.... **obesity**
161. Privacy is the "right to be let alone" is written by:..... **Samuel D. Warren**
162. The shortcut key that Track Changes is **Ctrl+Shift+E.**
163. Information that was once buried in arcane records has become accessible **database**
164. In the United States is the Privacy Act of 1974 whose purpose was to protect citizens from abusive use of databases **Government**
165. want to reapply a command, you can use **Redo**
166. Displaying text in two columns feature is in which tab of MS word **Page layout**
167. There are many types of sensors **All of these (microphones, cameras, range sensors)**
168. Matching geometric characteristics techniques of recognizing images is used in.... **Optical imaging recognition.**
169. Electronic Theft include **online scam**
170. How many common forms of data mining?... **2 (class description and class discrimination)**
171. Act that gives parents control over what information websites can collect from kids is:.....

AR Lucky Term

COPPA

172. Text files, which are _ in which each logical record is a single symbol encoded using ASCII or Unicode **sequential files**
173. Actions according to environment knowledge:.... **Intelligent action**
174. Ribbon has types of Commands **Three**
175. Plagiarism is a major problem in **Education**
176. Data comes from **All of the above**
177. Which of the following acts as a security guard between the Internet and your local area network **Firewall**
178. Ctrl+y is used for **Redo**
179. Ctrl+z is used for:..... **Undo**
180. Process of understanding what the characteristics of images is step **two**
181. Researchers are trying to develop _____ systems that exhibits intelligent behavior in_ track:.... **Engineering**
182. The option of justify is in group **Paragraph**
183. The option of bullets is in group:.... **Paragraph**
-
184. The option of strike through is in group:..... **font**

AR Lucky Term

185. Hyperlinks have by default color:.... **Blue**
186. Format painter is in group of:..... **Clipboard**
187. Process of understanding what the characteristics of images means refer to:.... **Image analysis**
188. Undo is used by:... **Ctrl+z**
189. In Belgian Pepper Robot works in:..... **hospitals**
190. The part where different bullets options are given is called:.....
Bullet library
191. Software licenses are:... **All of these (proprietary, free, open source)**
192. Proofing Group is in which ribbon of MS word? **Review**
193. Word provides you preformatted text boxes through **text box**
194. A program DOCTOR developed by Joseph Weizenbaum in the mid-1960s named as:... **ELIZA**
195. The amount of paper American use in a year is: **85 million tons**
196. One method that got on social media is the idea of a parent/child cellphone: **Contract**
197. Pages is an option in the ribbon: Insert 60. When we draw a table in MS word the table have Initial column(s):..... **one**
198. A patent can last:.... **20 years**
199. Content filtering works by matching _ of characters **strings**
200. Procedural knowledge is learning:..... “ **How**”
201. Declarative knowledge is learning:..... “ **what**”
202. We can add charts in MS word from group **Illustrations**
203. Illustration is part of ribbon **Insert**
204. Shortcut to insert end note:.... **Ctrl+Shift+D**
205. Shortcut to insert footnote:..... **Alt+Ctrl+F**
206. major component of syntactic analysis is :..... **parsing**
207. Command that can immediately go to a page or any marked location within your document **Go to**
208. The test that matches will have a chance to pass to Turing was of **5 minutes**
209. Each statement in a natural language can have **multiple meanings**
210. Shortcut key of paste is **Ctrl+v**

AR Lucky Term

211. Act that mandates about financial institutions must deal with the private information of individuals **Gramm-Leach-Bliley Act**
212. Meaning of a statement in natural language depends on its **context**
213. Copyright can be applied on:... **All of these (dramatic works, artistic and musical works)**
214. Content Risks include:... **Harmful Advice**
215. Information security Risks include:... **Malicious code**
216. **Sequential files** are ideal for storing data that will be processed in the order in which the file's entries are stored.
217. To select shapes that are hidden or behind the text we can click:
...**Select objects**
-
218. We have paste options:... **Multiple**

AR Lucky Term

219. Reports can be received at home through email because of investment in:.. **Computer Science**
220. Font group includes options: **All of these (Typefaces, Highlight, font size)**
221. Attacks can be made to prevent access to websites by crashing: **Servers**
222. Meaning of a statement in natural language depends on the manner in which it is: **Communicated**
223. Paragraph group have option:.... **Shading**
224. Arial is a famous type of:.... **font family**
225. option is MS word prevent others from making changes to the selected text.... **Block Authors**
226. Sometimes when a device is continuously running it damages us by: **Radiations**
227. In some cases, the data collection process is readily apparent; **in others it is subtle**
228. Usual way of protecting software is : **Copyright**
229. When we apply header it is shown at:.... **Every page of the document**
230. Programming languages are well-designed so that each statement has meaning:.. **Only one**
231. AI is helping to make.... **Robots**
232. Act that ranges government restrictions on wire taps to include transmissions of data is: **ECPA**
233. We have to write an equation with 2 as a number and 3 as its power. Which option can be used for this purpose:..... **Superscript**
234. In context of environment, computer science have impacts: Both positive & negative
235. Shortcut key of Cut is: **Ctrl+x**
236. Turing gave a percentage of a machine that will have a chance to pass Turing test in year:..... **2000**
237. Paste option is a part of home ribbon group called:..... **Clipboard**
238. The communication between people because of computer science has:..... **improved**

AR Lucky Term

239. Eye for long amount of time is not meant to look:.... 2 D
240. Home ribbon contains groups : All of these (Paragraph, Font, Clipboard)
241. We can highlight a text from group:.... font
242. Microsoft office includes:.... word
243. MS Word is an example of:.... word processors
244. Content filters are part of Internet:.... firewalls
245. The default theme of MS word is:.... Office
246. Table group is a part of _ ribbon:.... Insert
247. We can decrease indent from group:.... Paragraph
248. Insert tab can have group:.... Pages
249. If we want to end a page at a specific point and move to the next page we can use... Page break
250. Computer science helps in faster response times through: ...All of the given (emails, instant messaging, chat)
-

AR Lucky Term

251. Access to the forbidden literature because of: ... **Computer**
252. Style groups in MS word can have:..... **Shading**
253. Data can come from:..... **All of these (Emails, Personal software, Passwords)**
254. Gaming addiction can cause problems: **Financial**
255. Content filtering is serving for purpose of: **All of these (Security, Socialism, Transaction)**
256. The style group in the home ribbon is the:..... **Fourth group**
257. We can set line spacing from group:..... **Paragraph**
258. Self-driven cars are example of:.... **AI**
259. Legal notations to control digital ownership are: **Copyrights**
260. The fifth group in the home ribbon is the:.... **Editing**
261. Find option includes: **All of these (Find, Advance find, Go to)**
262. Shortcut key to select whole text in a document: **Ctrl+a**
263. The Turing test result of program DOCTOR developed by Joseph Weizenbaum was: **Passed**
264. With computer science the access to private information has: **Increased**
265. Pre written mathematical expressions or formulas are called:.... **Symbol**
266. In turn the collected information is potentially available to:.... **all of these (marketing firms, political parties, employers)**
267. The field of linguistic tends towards which direction: **Theoretical**
268. CAN-SPAM Act applies in: **US**]
269. Data mining is practiced on data collections, called data warehouses..... **Static**
270. Easy access to online health centres is because of : **Computer Science**
271. Theoretical track is a part of:..... **AI domain**
272. The approach leads to a simulation-oriented methodology..... **Theoretical**
273. The approach leads to a performance-oriented methodology. **Engineering**

AR Lucky Term

274 displays the document as it would appear if printed and is the default view.....

PrintL ayou

275..... maximizes the Word window on the screen and removes all toolbars etc to allow easy reading..... **Read Mode**

276. A is a specially formatted letter that appears at the beginning of a paragraph just like you see in newspapers or in books **drop cap**

277. are a way to keep track of

reading..... **Bookmarks** 278. we can

performed text through..... **Text box**

279..... is used to combine different relations into one relations **JOIN**

280. Inserting a new entry at the top of stack is called an entry..... **Pushing**

281. Conditional statements, which are used within another conditional statements, are called.... **Nesting conditional statements**

282. The chance of machine to pass tuning test according to tuning were **30%**

283. A process over internet can interact with other processes as a ;.... **All(client,server,peer)**

284. Which of the following is not an INLINE element of HTML? ****

285. Adaptive dictionary encoding technique is also called **Dynamic dictionary encoding**

AR Lucky Term

286. Operation calculating NOT of the OR can be represented as.....**NOR**
287. The importance of software design can be summarized in a single word which is**Efficiency**
288. The ability of GIF is to encodemakes it unstable for application in which higher precision is required....**256 colors**
289. In which stage of SDLC interaction of the system with outside world is defined**Requirement analysis**
290. Rational unified process was created by ...**IBM**
291. Using HTTP protocol ,hypertext documents are normally transferred betweenand ...**Browser and web server**
292. The internet and computers have made it easier for spiteful people to attack people via the anonymous platform is**Cyber Bullying**
293. Content Risk can be.....**Illegal content**
294. Software licensing terms and conditions usually include.....**All(Fair use of software,limitations of ability,warranties and disclaimers)**
- 295.....conserves battery power and works continuously in real time fashion....**Embedded system**
296. What is the level of recursion to find 899 in following array?(2,5,7,99,899).....**Level 1**
- 297.....tracks contain more information in mass storage system.....**Outer**
298. Which of the following is used to sort on the basis of more than one column in MS Excel.....**Basic sort**
299. What will be the output of the following excel formula?if A1=4,B1=15,C1=17,(A1^(B1+C1)2).....**8**
300. The evaluation process for the determination of software product that satisfy all the conditions is known as.....**Software validation**
301. Imperative paradigm is also known as**Procedural paradigm**
302. A computer translator is best described as **System software**
303. One typical medical robot can alleviate a persontimes a day **40**
304. Robots in comparison of humans are able to take blood from the veins ,.....**accurately**
305. HTML stands for **Hyper tool markup**

AR Lucky Term

language

306. XML stands forExtensible markup language

307. Which option in MS Access provides the ability to enter new record and navigate through existing records easilyForms

308. Originally the length of IP address is32-bits

309. The idea of storing a computer's program in its main memory is known asStored

program concept

310. A person involved with the entire development process, requirements analysis and design steps.....Software analysts

311. which of the following symbol used for grouping in a pseudo code.....Q

312. Computer science allows hospitals to be managedEfficiently

AR Lucky Term

313. Message sent from source to destination via internet usually passes through.....layersarchitecture.....Two
314. EPIC is a research centre that is Non profitable
315. USB and Fire Wire are examples of high speed data transfer over aShort distance
- 316.....is a step of steps that define how a task is performedAlgorithm
317. The home tab in Excel and power point are Similar
318. Which of the following is valid type of sort in MS Excel Basic sort
319. We can have an equally spaced paragraph from left to right side throughJustify
320. A good presentation slide should have maximum how many points 3
321. Which of the following is not a type of page margin in MS Word? Centre
322. Table templates can be added through Insert table
323. Using illustration group we can add Shapes
324. The point at which all the steps in a transaction have been recorded in the log is called Commit point
325. Columns in a relation are referred to as attributes
326. which of these describes stepwise refinement? it is top down approach
327. In MS word $A=r^2$ isequation
328. Page group options include Page break
329. Rows are identified byin the left most column of MS Excel numbers
330. We can modify a style bysettings
331. Things thought to be secure can be accessed by unintended sources such asEmail
- 332.....act prevents wrongful disclosure of an individuals personality 'identifiable information stemming from their rental material.....Video primary protection
- 333.....is a process in which operating system is loaded from mass storage to mainmemoryBootting
334. The importance of software design can be summarized in a single word whichis ...Quality
335. Fetal Therac -25 X ray radiation is an example of Software failure

AR Lucky Term

336. The symbol << is known as.....operator **Extraction**
337. Which option in MS Access provides ability to enter..... new record and negative through existing record only **Forms**
338. What will be the output of the following LISP statement **List atom**
339. What does ICANN stands for **Internet Corporation for Assigned Names and Numbers**
340. If the result after comparison of two variables in relational operators .false then if statement returns value **0**
341. How many types will excuted?..... **5**
342.is not a phase of SDLC **problem identification**
343. Soft ware engineering is an engineering discipline that is concerned with **All aspects of software production**
344. Stakeholders can be a **Government agencies**
-
345. The description of the object's properties is called..... **Class**

AR Lucky Term

346. An alternative to translators **Interpreter**
347. Recurring problems which are handled by the pre developed module in software design is called..... **Design pattern**
348. In structure chart functions are represented by **Arrows**
- 349.....are generally used for the creation of loosely coupled systems..... **Factory design system**
350. True parallel processing requires CPU cores
..... **Multiple**
351. Which one is not a valid data type?
..... **Html**
352. The incremental model can be required some times with the model..... **Iterative**
353. Control structure which iterates a set of instructions based on the provided conditions, is called **Loop**
354. Which of the following is the correct syntax to initialize a 3 element integer array in C++..... **int arr[3]=(1,2,3)**
355. In structure chart functions are represented by **Arrows**
356. In object oriented paradigm each object will have its own collector of functions which is known as.... **Method**

AR Lucky Term

- **(RUP)** rational unified process
- extreme programming **(XP)**.
- software quality assurance **(SQA)**
- **COBOL** (COmmon Business-Oriented Language)
- **(OOP)**. object-oriented Programming
- **(CASE)**, computer-aided software engineering
- **(IDEs)** integrated development environments
- **(COTS)** commercial off-the-shelf
- International Electrotechnical Commission **(IEC)**.
- **GOMS** Goals Operator method selection
- Research in Motion **(RIM)**
