

EDU302

Final-Term (Solved)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Maha Malik

Human Development and Learning

✓ 1. Gilligan's Theory of Moral Development

- **Theory:** Carol Gilligan proposed that moral development in females emphasizes **care, responsibility, and relationships** over abstract principles of justice.
 - **Primary Emphasis:** The central theme in female moral development is **concern for others** and **the ethics of care**, contrasting with Kohlberg's justice-based approach.
-

✓ 2. Gender Differences and Inequality

- **Survival Inequality:** Indicates disparities in life expectancy or access to basic healthcare for females, often due to **systemic discrimination** or socio-cultural biases.
 - **Consequences of Gender Inequity:** Research shows that gender inequity leads to **lower educational attainment, economic dependency, and limited leadership opportunities** for women.
 - **Gender Disparities in Employment:** Women face **lower wages, fewer promotions, and occupational segregation** despite equal or better educational qualifications.
 - **Five Gender-Based Differences:**
 1. Females typically mature earlier than males.
 2. Boys are more likely to be diagnosed with learning disabilities.
 3. Girls perform better in verbal tasks; boys often excel in spatial tasks.
 4. Boys show more physical aggression; girls demonstrate relational aggression.
 5. Social expectations and roles vary significantly for each gender.
-

✓ 3. Intellectual Disability

- **Definition:** Intellectual disability (ID) is a significant limitation in **intellectual functioning and adaptive behavior**, affecting everyday social and practical skills.
 - **Four Levels:**
 1. **Mild**
 2. **Moderate**
 3. **Severe**
 4. **Profound**
 - **Brief Explanation:**
 - **Mild:** Can learn academic skills up to 6th-grade level; may live independently.
 - **Moderate:** Limited academic progress; needs assistance in daily life.
 - **Severe:** Needs continuous supervision; limited communication.
 - **Profound:** Requires constant care; very limited mobility and communication.
 - **Professional Contact Level:** Students with **severe or profound ID** need **intensive professional and therapeutic support**.
-

✓ 4. Causes of Mental Retardation

- **Causes include:**
 - Genetic disorders (e.g., Down syndrome)
 - Prenatal exposure to drugs or infections
 - Birth complications (e.g., oxygen deprivation)
 - Malnutrition
 - Environmental neglect
-

✓ 5. Metacognition

- **Definition:** "Thinking about one's own thinking." Involves **planning, monitoring, and evaluating** one's cognitive processes.
 - **Benefits:** Helps in **academic tasks** by improving **self-regulation, study strategies, and problem-solving skills**.
-

✓ 6. Scaffolding in Education

- **Scaffolding:** Instructional support provided by teachers to help learners achieve tasks just beyond their current ability, then gradually removed as competence increases.
-

✓ 7. Piaget's Cognitive Development

- **Three Stages (key ones):**
 1. **Sensorimotor** (0–2 years)
 2. **Preoperational** (2–7 years)
 3. **Concrete Operational** (7–11 years)
 4. **Formal Operational** (12+ years)
 - **Concrete Operational Points:**
 - Logical thinking begins.
 - Understands conservation and reversibility.
 - Can classify objects and understand time and quantity.
-

✓ 8. Vygotsky's Socio-Cultural Theory

- Learning occurs through **social interaction**.

EDU302_Human Development and Learning
Final-Term (Solved)

- Emphasizes the role of **language and culture**.
 - **Zone of Proximal Development (ZPD)**: Difference between what a learner can do alone vs. with help.
-

✓ **9. Vygotsky vs. Piaget**

Aspect	Piaget	Vygotsky
Development Focus	Cognitive stages	Social interaction
Learning Mechanism	Discovery-based	Guided participation
Role of Language	Follows thought	Drives thought

✓ **10. Acceleration**

- Educational practice of **advancing gifted students** to higher-grade levels or faster-paced content to match their capabilities.
-

✓ **11. Giftedness**

- **Definition**: High intellectual, creative, or artistic abilities.
 - **Gagne's Definition**: Giftedness is **natural ability**, while **talent** is systematically developed skill.
 - **Interest Characteristic**: Gifted children show **deep, intense focus on areas of interest**, often beyond their age group.
 - **Difference Between Terms**:
 - **Gifted**: Innate potential (IQ, creativity).
 - **Talented**: Demonstrated achievement in specific domains.
-

✓ **12. Exceptional Children**

- Include those who are:
 - **Gifted/Talented**
 - **Physically Disabled**
 - **Learning Disabled**
 - **Emotionally Disturbed**
 - **Sensory Impaired**
-

✓ 13. ADHD and High Activity

- **ADHD:** A neurodevelopmental disorder marked by **inattention, impulsivity, and hyperactivity**.
 - **High Activity:** May refer to energetic children without attention or impulse issues.
 - **Causes of ADHD:**
 - Genetic factors
 - Brain structure differences
 - Prenatal risks (e.g., smoking)
 - Environmental toxins
-

✓ 14. Gardner's Theory of Multiple Intelligences

- **Theory:** Intelligence is not singular (IQ), but **multiple intelligences** exist in different domains.
 - **8 Main Types:**
 1. **Linguistic**
 2. **Logical-Mathematical**
 3. **Musical**
 4. **Bodily-Kinesthetic**
 5. **Spatial**
 6. **Interpersonal**
 7. **Intrapersonal**
 8. **Naturalist**
-

✓ 15. Types of Learners

- **Visual:** Prefers images, diagrams.
 - **Auditory:** Learns through listening.
 - **Kinesthetic:** Learns through movement.
 - **Read/Write:** Prefers reading and writing content.
-

✓ 16. Divergent and Convergent Thinking

- **Divergent:** Generating many ideas/solutions.
 - **Convergent:** Narrowing down to one best answer.
-

✓ 17. Vertical and Lateral Transfer

- **Vertical:** Transfer from simpler to more complex tasks.
 - **Lateral:** Transfer of learning across similar complexity tasks.
-

✓ 18. Individual Differences

- **Definition:** Variations among individuals in intelligence, learning style, personality, etc.
- **Five Means:**
 1. Heredity
 2. Environment
 3. Culture
 4. Motivation
 5. Personality traits

✓ 18. What are five effects of heredity and environment on individual differences?

1. **Intelligence levels** – influenced by both genetic factors and educational exposure.
 2. **Personality traits** – shaped by genetics and social upbringing.
 3. **Language development** – affected by home language and environmental stimulation.
 4. **Health status** – hereditary illnesses and environmental care both impact it.
 5. **Learning ability** – influenced by genetic potential and the quality of instruction.
-

✓ 19. What is meant by 'individual differences'?

Variations among individuals in characteristics like intelligence, personality, aptitude, interests, and learning styles.

✓ 20. What is critical thinking?

The ability to analyze, evaluate, and synthesize information objectively and make reasoned judgments.

✓ 21. Critical thinking can occur in...

EDU302_Human Development and Learning
Final-Term (Solved)

Situations requiring problem-solving, decision-making, analysis of data, or evaluation of arguments.

✓ 22. Which type of thinking analyzes and evaluates information?

Critical thinking is the form of thinking that performs analysis and evaluation of data and arguments.

✓ 23. What role does critical thinking play in research?

It enables researchers to **evaluate sources, analyze findings, interpret data, and form logical conclusions.**

✓ 24. Which type of thinking determines the link between different ideas?

Logical thinking or **analytical reasoning** helps determine connections among ideas.

✓ 25. What is problem-solving and what are four strategies?

Problem-solving is the process of identifying and implementing solutions to issues.
Four strategies:

1. Trial and Error
 2. Brainstorming
 3. Heuristic Methods
 4. Step-by-step Analysis
-

✓ 26. Describe 'Problem-Solving' as a way to handle stress.

By **identifying the source of stress** and applying logical strategies, problem-solving helps reduce emotional burden and improve coping.

EDU302_Human Development and Learning
Final-Term (Solved)

✓ **27. How can problem-solving be used in the classroom?**

- To engage students in real-life tasks
 - Improve critical thinking
 - Encourage active participation
 - Foster independence and decision-making
-

✓ **28. What are five strategies for teachers to support intellectual disabilities?**

1. Use visual aids and concrete examples
 2. Provide frequent feedback
 3. Use simplified language
 4. Break tasks into small steps
 5. Encourage repetition and practice
-

✓ **29. Write any six instructional strategies to assist problem solving.**

1. Think-aloud modeling
 2. Use of graphic organizers
 3. Collaborative group work
 4. Real-world problem tasks
 5. Guided questioning
 6. Reflective journaling
-

✓ **30. What are five factors that affect learning?**

1. Intelligence level
 2. Motivation
 3. Learning environment
 4. Teaching methods
 5. Emotional and physical health
-

✓ **31. What are behavioral disorders in students?**

Patterns of disruptive behaviors that interfere with learning, such as aggression, hyperactivity, and defiance.

✓ 32. What are the causes of behavioral disability?

- Genetic predisposition
 - Family dysfunction
 - Abuse or neglect
 - Learning difficulties
 - Environmental stress
-

✓ 33. Teaching strategies for student disabilities

- Use of individualized instruction
 - Behavior modification plans
 - Adapted assessments
 - Assistive technologies
 - Positive reinforcement
-

✓ 34. What is sensory impairment?

Loss or reduction of a sense (e.g., sight, hearing) that affects learning and interaction.

✓ 35. What term describes limited visual fields?

Tunnel vision is commonly used to describe restricted field of vision.

✓ 36. What are five provisions for students with disabilities?

1. Inclusive classrooms
 2. Assistive technology
 3. Individualized Education Plans (IEPs)
 4. Resource rooms
 5. Trained special educators
-

✓ 37. Enlist techniques to support deaf students.

- Use of sign language
 - Visual aids and cues
 - Captioned videos
 - Speech-to-text tools
 - Seating near the teacher
-

✓ 38. How to teach students with hearing loss?

- Face the student when speaking
 - Use gestures and facial expressions
 - Repeat or rephrase key points
 - Use written instructions
 - Maintain a quiet classroom
-

✓ 39. How do kindergarten and preschool children learn?

Through play, imitation, exploration, and social interaction, using concrete experiences.

✓ 40. Preschool/kindergarten social characteristics.

- Parallel play
 - Egocentric behavior
 - Imitative actions
 - Dependence on adults
 - Beginning of cooperative play
-

✓ 41. Social relation of primary school.

- Friendships become important
 - Group work begins
 - Peer influence increases
 - Competitive spirit starts forming
-

✓ 42. **Physical characteristics of elementary school children.**

- Rapid motor development
 - Increase in strength and stamina
 - Need for physical activity
 - Development of fine motor skills
-

✓ 43. **Factors that affect human development.**

- Genetics
 - Environment
 - Nutrition
 - Socialization
 - Education
 - Emotional stability
-

✓ 44. **Stages of development.**

1. Infancy
 2. Early childhood
 3. Middle childhood
 4. Adolescence
 5. Adulthood
-

✓ 45. **Stage of development.**

A **distinct period** marked by specific physical, emotional, cognitive, and social milestones.

✓ 46. **Social characteristics.**

- Ability to interact with peers
 - Development of self-concept
 - Conformity to group norms
 - Empathy and cooperation
-

EDU302_Human Development and Learning
Final-Term (Solved)

✓ **47. What is meant by 'language development'?**

The process through which individuals acquire and refine verbal and non-verbal communication skills.

✓ **48. Explain the learning perspective of language development.**

Language is acquired through **interaction with the environment, reinforcement, and imitation** (Behaviorist view).

✓ **49. State five effective suggestions to improve children's language development at school.**

1. Engage in storytelling
 2. Use songs and rhymes
 3. Encourage discussions
 4. Introduce new vocabulary
 5. Read aloud regularly
-

✓ **50. What is the component of language that studies meaning?**

Semantics is the branch of linguistics that deals with meaning in language.

✓ **51. What is the term "Billngle"?**

Likely a **misspelling of "Bilingual"**, which refers to individuals fluent in two languages.

✓ **52. What are portfolio aspects in testing?**

- Collection of student work over time
- Shows progress and achievement
- Includes reflections, checklists, and rubrics
- Useful in **formative assessment**

✓ 53. What are the steps essential in oral learning?

1. Listening
 2. Speaking
 3. Repetition
 4. Questioning
 5. Clarification
 6. Feedback
-

✓ 54. What is computerized testing?

Assessment delivered via **computers or digital platforms**, often **auto-scored** and **adaptive**.

✓ 55. What is a conceptual map/When creating one, what goes in the center?

A **conceptual map** visually organizes relationships between ideas. The **central theme or concept** is placed in the center.

✓ 56. What are the steps in solving disabilities?

1. Identification
 2. Assessment
 3. Intervention planning
 4. Implementation
 5. Evaluation and adjustment
-

✓ 57. What are the types of inquiry learning?

- **Structured Inquiry**
 - **Guided Inquiry**
 - **Open Inquiry**
 - **Problem-based Inquiry**
-

EDU302_Human Development and Learning
Final-Term (Solved)

✓ 58. What is recalling, relating, and elaborating?

- **Recalling:** Retrieving prior knowledge
 - **Relating:** Connecting new info to past experiences
 - **Elaborating:** Expanding or explaining the idea in detail
-

✓ 59. In which step of the lesson plan does the teacher check for understanding?

Evaluation step – The teacher checks for understanding by assessing students' grasp of the topic through questioning, activities, or assessment tools.

✓ 60. How can a teacher foster open communication and trust?

- Encourage student participation
 - Listen actively and respectfully
 - Provide consistent feedback
 - Create a safe, non-judgmental environment
 - Show empathy and support
-

✓ 61. What are five cooperative learning techniques?

1. Think-Pair-Share
 2. Jigsaw
 3. Round Robin
 4. Group Investigation
 5. Team Games-Tournaments (TGT)
-

✓ 62. What are five elements of cooperative learning?

1. Positive interdependence
 2. Individual accountability
 3. Group processing
 4. Interpersonal skills
 5. Face-to-face interaction
-

EDU302_Human Development and Learning
Final-Term (Solved)

✓ **63. What is a cooperative learning strategy?**

An instructional approach where students work together in small groups to achieve shared learning goals, helping each other understand and complete tasks.

✓ **64. State any five circumstances that trigger inappropriate behavior.**

1. Lack of structure in classroom
 2. Unmet emotional needs
 3. Peer pressure
 4. Inconsistent discipline
 5. Low self-esteem or frustration
-

✓ **65. What is the benefit of group intelligence tests?**

- Efficient and cost-effective
 - Can assess large numbers of students at once
 - Useful for initial screening
 - Provides comparative performance data
-

✓ **66. Enlist three abilities measured through differential aptitude tests.**

1. Verbal reasoning
 2. Numerical ability
 3. Mechanical reasoning
-

✓ **67. What is a useful strategy for visual learners to develop observation skills?**

- Using **visual aids** like charts, diagrams, and color-coded notes
 - **Observation drawing activities**
 - Graphic organizers and mind maps
-

✓ **68. What is Galileo's theory?**

EDU302_Human Development and Learning
Final-Term (Solved)

Galileo is best known for scientific theories in physics and astronomy. In education, he's associated with **observation-based learning and empirical methods**—the idea that knowledge is gained through observation and experimentation.

✓ **69. Origin of social learning theory**

- Developed by **Albert Bandura**
 - Emphasizes learning through **observation, imitation, and modeling**
 - Highlights the role of **social context** in behavior acquisition
-

✓ **70. Criticism of Erikson's theory**

- Overemphasizes **stages** that may not occur in sequence
 - **Cultural bias** – based largely on Western development
 - Less focus on **individual differences**
-

✓ **71. Trait theory of personality**

- Focuses on identifying and measuring **stable characteristics** (traits) that define an individual's personality.
 - Key theorists: **Allport, Cattell, Eysenck**
-

✓ **72. Theories of personality**

1. **Psychoanalytic Theory** (Freud)
 2. **Trait Theory**
 3. **Behavioral Theory**
 4. **Humanistic Theory** (Rogers, Maslow)
 5. **Social-Cognitive Theory** (Bandura)
-

✓ **73. Why might students feel pressured in a competitive learning environment?**

- Constant comparison to peers
- High parental or teacher expectations

EDU302_Human Development and Learning
Final-Term (Solved)

- Fear of failure or judgment
 - Limited opportunities for collaboration
-

✓ 74. How can metacognition help academic success?

- Improves **self-awareness** of learning strategies
 - Enhances **planning and goal setting**
 - Promotes **self-monitoring** and reflection
 - Helps **adapt strategies** to suit tasks
-

✓ 75. What is cosmetic surgery primarily focused on?

- **Enhancing physical appearance** for aesthetic purposes rather than medical necessity.
-

✓ 76. What are types of personality?

1. **Introvert vs. Extrovert**
 2. **Type A vs. Type B**
 3. **Openness, Conscientiousness, Extraversion, Agreeableness, Neuroticism (Big Five)**
-

✓ 77. Taking notes

An essential skill that involves **listening or reading attentively, identifying key points, and recording them** for later review. Techniques include **Cornell method, mind mapping, and outlining.**
