EDU302

Q1) Social distance practices can be influenced by factors such as:

Climate and weather conditions

Socioeconomic status of individuals

Cultural norms and values **Topic267**

Language spoken in the culture

Q2) According to Gilligan, what is the primary emphasis in the moral development of females?

Caring and interpersonal relationships **Topic264**

Justice and individual rights

Conformity to societal norms

Competition and achievement

Q3) What does "survival inequality" indicate regarding gender differences?

Inequities in terms of access to education and health services for males and females

Differences in life expectancy and mortality rates between males and females **Topic258**

Unequal opportunities for expressing opinions and ideas based on gender

Disparities in work-life balance between males and females

Q4) What does research suggest about the consequences of gender inequity for women?

Gender inequity can lead to short-term challenges but has no long-lasting consequences.

Gender inequity has minimal impact on women's lives.

Gender inequity has serious and long-lasting consequences for women. **Topic259**

Gender inequity affects men more than women.

Q5) According to Gilligan, what is the primary emphasis in the moral development of females?

Caring and interpersonal relationships **repeat q2**

Justice and individual rights

Conformity to societal norms

Competition and achievement

2023

Q6) When creating a concept map, what should be placed at the center of the diagram?

Central concept **Topic228**

Sub-concept

Complex concept

Associated concept

Q7) In which step of the lesson plan does the teacher check for understanding and provide feedback?

Second

Third

Fourth **Topic237**

Fifth

Q8) What are the four levels of Intellectual Disability (ID) based on intellectual functioning levels?

Proficient, Advanced, Moderate, and Basic

Mild, Moderate, Severe, and Profound **Topic190**

Average, Below Average, Average Plus, and Challenged

Genius, Highly Capable, Struggling, and Limited

Q9) Which term is used to describe a limited field of view experienced by some individuals with visual impairments?

Myopia

Hyperopia

Tunnel vision **Topic185**

Astigmatism

Q10) What does AHA stand for in the context of interventions for individuals with autism?

Autism Behavioral Assessment

Applied Behavior Analysis **ABA** **Topic200**

Autism Behavior Approach

Analyzing Behavioral Activities

2023

Q11) What type of issues can disrupt students' learning in e-learning?

Lack of technical support

Connectivity problems and software glitches **Topic202**

Excessive face-to-face interactions

Hardware failures in physical classrooms

Q12) Critical thinking can occur in:

Any realm of knowledge

A specific subject matter

Problem-solving

Debates and discussions

Q13) Which form of thinking involves analyzing, evaluating, and interpreting information to make rational judgments and decisions?

Critical thinking **Topic205**

Creative thinking

Problem-solving

Memory recall

Q14) What role does critical thinking play in driving research forward?

It hinders research progress by questioning established ideas

It supports research by discouraging exploration of new concepts

It fosters deeper thought and encourages the pursuit of knowledge **Topic212**

It has no impact on research endeavors

Q15) Which type of thinking deals with determining the link between different ideas?

Critical Thinking

Creative Thinking

Divergent Thinking

Convergent Thinking **Topic213**

Q 16) What should teachers do if they observe indicators of hearing loss in a student?

2023

Recommend a hearing screening if necessary

Provide the student with extra writing practice

Assign the student a class fellow as a writing assistant

Ignore the signs and wait for improvement

Q17) Behavioral disorders in students are characterized by:

High academic achievements

Chronically performing appropriate behaviors

Disruptive, aggressive, or antisocial behaviors **Topic172**

Strong social skills and positive interactions

Q18) What level of contact with professionals is essential for students with extensive needs related to intellectual disabilities?

Occasional contact

Weekly meetings

Continuous contact and monitoring **Topic169**

Daily meetings

Q19) Sign language can be beneficial for individuals with intellectual disabilities because:

It promotes physical coordination

It enhances musical abilities

It supports communication and learning needs **Topic168**

It improves mathematical skills

Q20) What is cosmetic surgery primarily focused on changing?

A person's behavioral traits

A person's physical features **Topic163**

A person's intellectual abilities

A person's emotional state

Q21) Why might students feel pressured to perform at a certain level or meet certain expectations in a competitive learning environment?

2023

They enjoy competition

They are naturally motivated to achieve high grades

They fear failure or disappointing their teachers

Exact option to nhi mil rhe

They don't care about their academic performance Topic162

Q22) What is a characteristic of gifted children related to their interests and passions?

They may lack interest in their passions

They may have moderate emotional reactions or responses

They may be highly sensitive and passionate Topic159

They may not observe across boundaries

Q 23) How does Gagne define gifted children?

High levels of innate ability in any domain of human ability Topic156

High levels of innate ability in academic domains only

High levels of innate ability in creative domains only

low levels of innate ability in any domain of human ability

Q 24) How can meta cognition be helpful for academic tasks?

It can help you to understand others' strengths and weaknesses as learners

It can help you to understand others' thinking and learning processes

Topic151

It can help you to understand your own strengths and weaknesses as a learner

It can help you to understand others' actions and behaviors"

Q25) Which of the following can impair mental abilities and cause memory problems?

Chronic alcoholism Topic145

Lack of exercise

Active retrieval

Creating memory triggers

Q 26) What is scaffolding in education?

2023

The process by which a teacher provides support and guidance to help learners develop their skills and knowledge **Topic144**

A method of assessment that involves breaking down complex tasks into more manageable steps

A teaching approach that encourages rote memorization of facts and figures

A method of assessment that involves breaking down complex tasks into easy tasks

Q 27) What is a useful strategy for younger students or visual learners to develop their observation and categorization skills?

Asking them to make comparisons, classify and categorize objects, things, or events **Topic141**

Encouraging physical activity

Focusing solely on rote memorization of facts and figures

Encouraging limiting social interactions

Q 28) What is the benefit of using group intelligence tests?

They allow the examiner to develop rapport

They are more accurate than individual intelligence tests

They are quick and cost-effective **Topic137-138**

Determine the student's level of anxiety

Q29 Which of the following refers to a process for establishing the relationships between two or more variables?

Validity

Reliability

Objectivity

Correlation.

Q 30) Which of the following consists of physical, intellectual, social, moral, political, economic and cultural forces?

Ethics

Language

Aesthetics

Environment **Topic152**

2023

Q 31) What is metacognition?

Generating knowledge

Thinking about knowing **Topic151**

Creating mental images in mind

Practical implementation of ideas

Q 32) Which of the following component of language studies the meanings in a language?

Syntax

Phonology

Semantics **Topic99**

Morphology

Q 33) To think about beliefs and experiences in order to clarify their personal meaning and importance is a/ an:

Outlining

Self-reflection **Topic208**

Mastery learning

Lecture reading

Q 34) Which learning style involves a preference for learning through pictures, diagrams, and visual aids?

Kinesthetic

Reading/Writing

Auditory

Visual **Topic237**

Q 35) How can a teacher foster open communication and trust among students in the classroom?

create a safe environment **Topic148**

Stand at the front of the classroom

Provide negative feedback

Discourage teamwork

Use active listening exercises

Q 36) Which of the following is an example of a cooperative learning strategy"

2023

Jigsaw activity Topic244

Individual seatwork

Lecture-based instruction

Q 37) How many types of intelligence did Gardner categorize intelligence into?

Five

Six

Seven

Eight Topic255

Q 38) Describe the five types of intelligence that are identified in the theory of Multiple Intelligence. 5 MARKS

Logical-mathematical intelligence: It relates to logical reasoning, problem-solving, and mathematical abilities

Linguistic intelligence: This intelligence involves proficiency in language, including reading, writing, **speaking, and listening**. **Interpersonal intelligence:** Interpersonal intelligence refers to the ability to understand and interact effectively with others. It involves skills such as empathy, communication, and social interaction.
