**EDU430 Midterm Preparation Mega File  
BY MUHAMMAD  
(MAS All Rounder)**

1. When u see cone from bottom? What shape u sees?

- ✓ Circle
- ✓ Triangle
- ✓ Polygon
- ✓ Square

2. From left side remove the word in MS word

- ✓ Back space
- ✓ Deletes
- ✓ Inserts
- ✓ A & B

3. Short cut for replace

- ✓ Ctrl + h
- ✓ Ctrl + z

4. Command use for cut

- ✓ Ctrl + z
- ✓ Ctrl + x

5. Name of font menu

Home

6. What is URL\_\_\_\_\_

Uniform/universal resource located

7. Which bar located below the bar categorized option?

Menu bar

8. MS office related tool bar\_\_\_\_\_

Status bar

9. To view smaller text on screen u can\_\_\_\_\_

Increase the view percentage

10. ATM stand for\_\_\_\_\_

Automated Teller Machine

11. Ctrl + v stand for\_\_\_\_\_

Paste

12. CD ROM Stand for\_\_\_\_\_

Compact Disc Read-Only Memory

13. You can move the insertion point in a table

- ✓ With the up arrow and down arrow keys
- ✓ With the shift + table keys
- ✓ With the tab key
- ✓ All the above

14. In the merge process, you can

- ✓ Preview a merge
- ✓ Merge directly to a printer
- ✓ Merge to new document
- ✓ All of the above

15. Which is the latest version of Microsoft word?

- ✓ Microsoft Word 2000
- ✓ Microsoft Word 2003
- ✓ Microsoft Word 2007
- ✓ Microsoft Word 2010

16. To remove page number in MS Word

- ✓ Header and Footer command from view menu
- ✓ Page number command from insert menu
- ✓ Options command from Tool Menu
- ✓ All of the above

17. Which of the following is an input device?

- ✓ Scanner
- ✓ Speaker
- ✓ Monitor
- ✓ Projector

18. Which type of files cannot be navigated using clip-art browser?

- ✓ AVI
- ✓ BMP
- ✓ WAV
- ✓ MP3

19. Cursor is a \_\_\_\_ ✓ Pixel

- ✓ Thin blinking line

## EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)

- ✓ **Pointing device**
- ✓ None of these

20. Which key or key combination will move the insertion point to the bottom of your documents?

- ✓ **END**
- ✓ PAGE DOWN
- ✓ CTRL + PAGE DOWN
- ✓ None of the above

21. Which key enables you to move directly to specific location in document?

- ✓ Sub-document
- ✓ Cross-reference
- ✓ **Book Marks**
- ✓ End note Footnote

22. What is this technique called whereby a computer is used to present the instructional material?

- ✓ **CAI**
- ✓ HTML
- ✓ LAN
- ✓ ICT

23. The ability of students to learn and control their own learning process is called as \_\_\_\_\_

- ✓ **Meta learning**
- ✓ Cognition
- ✓ Organizing information
- ✓ Integration

24. In terms of pedagogy a multiple approach to the \_\_\_\_\_ is encouraged.

- ✓ Different problem ✓ Exertion
- ✓ Multiple problem
- ✓ **Same problem**

25. The file of information stored on a web server is called as \_\_\_\_\_

- ✓ Website
- ✓ **Web page**
- ✓ Web browser
- ✓ Search engine

26. RAM Stand For \_\_\_\_\_

- ✓ **Random access memory**

## EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)

- ✓ Read access memory
- ✓ Read accept memories
- ✓ Read accept manner

27. the main function of teaching is to preserve and protect the old values, customs, beliefs, traditions, etc is according to which function of teaching?

- ✓ Preservative
- ✓ Transmissive
- ✓ Progressive
- ✓ Developing

28. The term \_\_\_\_\_ implies the application of science to art.

- ✓ Technology
- ✓ Compact Disk
- ✓ Sociology
- ✓ Education

29. which of the following describes a manner in which communication between devices is defined?

- ✓ Protocol
- ✓ Motherboard
- ✓ Internet
- ✓ System Unit

30. \_\_\_\_\_ are networks are networks with in a single building or campus or up to a few kilometers in size.

- ✓ Local
- ✓ Wide
- ✓ Metropolitan
- ✓ All

31. MS Word 2007 allows creation of what type of documents by default?

- ✓ WPF
- ✓ TXT
- ✓ DOC
- ✓ DOCX

32. Teach children to ask their \_\_\_\_\_ question.

- ✓ Own
- ✓ Sample

**EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)**

- ✓ Math
- ✓ Negative

33. ROM stand for\_\_\_\_\_

- ✓ Read only mean
- ✓ Read only memories
- ✓ Reticle only meaning
- ✓ Read only memory

34. World Wide Web invented by

- ✓ Bill Gates
- ✓ ARPANET
- ✓ Time Berners-Lee
- ✓ Bill Rogers

35. A convenient small size computer can term in which of these?

- ✓ PLAM
- ✓ CAI
- ✓ LAN
- ✓ DHTLM

36. Metropolitan Area Network is an extension o which of the following?

- ✓ LANS
- ✓ MANs
- ✓ WANs
- ✓ DANs

37. Which Key deletes the characters to the left of the cursor

- ✓ Delete
- ✓ Back Space
- ✓ Space
- ✓ All

38. Memorization and understanding are both components od the\_\_\_\_\_process

- ✓ Learning
- ✓ Assessment
- ✓ Communication
- ✓ Teaching

39. Our education system is designed to teach everyone in the \_\_\_\_ manner

- ✓ Same
- ✓ Different
- ✓ Varied
- ✓ Customized

40. Which of the following has the aim to develop the intellectual powers in a given direction?

- ✓ Instruction
- ✓ Teaching
- ✓ Training
- ✓ Instruction

41. Children learn by constructing \_\_\_\_\_ bit by bit and layers by layer.

- ✓ Knowledge
- ✓ Management
- ✓ Class
- ✓ Film

42. The networks which are connected with a single building or campus or up to few kilo meters in size.

- ✓ LAN
- ✓ WAN
- ✓ MAN
- ✓ Communication Satellites

43. Transferring of a file from another computer to your own computer is which of the following?

- ✓ Uploading
- ✓ Downloading
- ✓ Hosting
- ✓ Accessing

44. According to Jean Piaget only \_\_\_\_\_ is capable of saving our societies from possible collapse, whether violent or gradual.

- ✓ Education
- ✓ School Classes
- ✓ Social life
- ✓ Gmail

45. ICT is concerned with the storage, retrieval, manipulation, transmission or reception of \_\_\_\_\_ data.

**EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)**

- ✓ Primary
- ✓ Secondary
- ✓ Analogue
- ✓ Digital

46. Which is the collection of direct links to predefined web pages which are stored in your web browser is called?

- ✓ Bookmarks
- ✓ Web links
- ✓ Web page
- ✓ Web browser

47. The combination of technology, pedagogy and content help students to achieve their

- ✓ Goals
- ✓ Subjective
- ✓ Position
- ✓ Smartness

DOS is application or system software?

This is called as Disk Operating System. The operating system used on IBM personal computers and compatible machines.

Difference b/w memory card and USB drive.

Memory card is a type of flash memory used to store data in digital cameras, cell phones, MP3 players etc. USB Stick is a data storage device. It features small dimensions, relatively high capacity, reliability and speed. It belongs to the type of flash memory that remembers data, even when not under voltage i.e. they do not need electric power to maintain data integrity.

What is E-learning?

E-learning consists of all forms of learning and/or knowledge transfer that are based on electronic technologies. This term will mostly be used to describe learning and/or dissemination of knowledge without direct teacher-student contact, while using ICT technology.

What is address resolution?

It is the conversion of an IP Address to the corresponding low-level physical address. ARP is the abbreviation of Address Resolution Protocol. It is used to dynamically discover the low-level physical network hardware address that corresponds to the high level IP Address for a given host, for instance. ARP is limited to physical network systems that support broadcast packets that can be heard by all hosts on the network. See also Proxy ARP.

What is A/d converter?

A device used to convert analog data to digital data. Analog data is continuously variable, while digital data contains discrete steps.

Explain in detail what video conferencing is

Videoconferencing or Video Conferencing: A computer-based communications system that allows a group of computer users at different locations to conduct a "virtual conference" in which the participants can see and hear one another as if they were in the same room participating in a real conference.

## EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)

Baray bahi sahib was written by?

Munshi Prem Chan, a great humanist writer, famous for short stories and novels, but in reality a school master

Undo shortcut key?

Ctrl + z

Avatar

Avatar is defined as, a graphical representation of a real person, such as used in a MUVE or MMORPG, a kind of "virtual world". Participants in a MUVE or MMORPG choose a name and a visual representation of the character that they wish to adopt as an inhabitant of the MUVE or player in the MMORPG.

Scanner

Scanner is used to load data (image, text, etc.) from the printed material into a computer. The result of scanning is an image but with special programs, if we scan the text, we can get a text as a result. Software used to recognize text from image is called a text recognition tool.

Field trip and types

The tour made by a group is often known as Field Trip

Provides direct experience leading to effective understanding

Excursions usually involve a tour by a person or a group of person to some selected place.

An excursion undertaken for gathering objective based learning experience is study tour. Types:

- |                                     |                                                         |
|-------------------------------------|---------------------------------------------------------|
| <input type="radio"/> Exhibition    | <input type="radio"/> Demonstration                     |
| <input type="radio"/> Dramatization |                                                         |
| <input type="radio"/> Museum        | <input type="radio"/> Planetarium <input type="radio"/> |
| Aquarium                            | <input type="radio"/> Terrarium <input type="radio"/>   |
| Vivarium                            |                                                         |

Define teaching machine? 2 marks

These were developed by S.L. Pressy.

It's a piece of device designed to be operated by an individual student for self-learning. The student is presented with a question by some form of display on the machine. The student is required to respond either to write answer or put a button to indicate the correct response.

Define the term compatibility? 2 marks

Compatibility is referred to pieces of hardware and/or software which is capable of being used together is described as compatible.

Define binary? 2 marks

This is a numbering system with only two values: 0 (zero) and 1 (one)

## EDU430 Midterm Preparation Mega File BY MUHAMMAD (MAS All Rounder)

What is the meaning of web server? 3 marks

A Web server is a program that uses HTTP (Hypertext Transfer Protocol) to serve the files from Web pages to users. It is a programme and a computer clubbed into one entity which responds to the requests from web browsers for internet resources. The primary function of a web server is to deliver web pages to clients' e. g. Apache HTTP Server, Microsoft Internet Information Services (IIS), Sun Java System Web Server.

Define ANSI? 3 marks

This is the abbreviation of American National Standards Institute. This organization is responsible for approving U.S. standards in many areas, including computers and communications. Standards approved by this organization are often called ANSI standards (e.g., ANSI C is the version of the C language approved by ANSI).

How maps can be used in classrooms. Etc

To clear them, related their studies,

Usage of audio aids in classroom 5 marks

- Audio Aids
- Radio
- Tape recorder
- Public Address System

Demerits of project aids

### Projected Aids

- A projected aid is one which items to be observed is projected on a screen using electronic or Mechanical device.
- Very effective because movements can be added to sound and hence a realistic experience can be provided.

What is Hard disk drive?

**Hard Disk Drive (HDD)** is a place for permanent data storage (it does not delete/clear when computer shuts down). Its features are: large capacity, faster performance in comparison to optical devices but slower in comparison to RAM and are used for permanent data storage. We can distinguish between internal and external hard drives.

Differentiate b/w internal and external HDD

Internal: RAM & ROM

External: USB, floppy, memory card & CD

**Read Only Memory (ROM) and Random Access Memory (RAM)**

- ROM (Read Only Memory) is a type of permanent, internal memory that is used solely for reading. All BIOS programs are stored in ROM.
- RAM (Random Access Memory) is a working memory in which analyzed data and programs are stored, while computer runs. It allows reading and writing data, and it is deleted/cleared when the computer shuts down.

Merits, demerits of HTML 5 marks

**Merits of HTML**

- HTML is simple but powerful formatting language to use.
- The simplicity allows anyone to create web pages.
- HTML documents are device independent (works on any platform)
- The web pages can be linked together using links
- The pages can be updated at any time.

**Demerits of HTML**

HTML does not have any programming capabilities.

- Require expertise knowledge.
- Time consuming.
- Difficult to remember coding

**Macaques**

EDU430:Quiz 1

Question # 9 of 10 ( Start time: 05:49:13 PM, 09

You can move the insertion point in a table

Select the correct option

- |                                  |                                       |
|----------------------------------|---------------------------------------|
| <input type="radio"/>            | With the up arrow and down arrow keys |
| <input type="radio"/>            | With the shift + tab keys             |
| <input type="radio"/>            | With the tab key                      |
| <input checked="" type="radio"/> | All of the above                      |

EDU430:Quiz 1

Question # 8 of 10 ( Start time: 05:48:21 PM, 09 November 2020)

In the merge process, you can

Select the correct option

|                                  |                             |
|----------------------------------|-----------------------------|
| <input checked="" type="radio"/> | Preview a merge             |
| <input type="radio"/>            | Merge directly to a printer |
| <input type="radio"/>            | Merge to new document       |
| <input type="radio"/>            | All of the above            |

EDU430:Quiz 1

Question # 7 of 10 ( Start time: 05:47:16 PM, 0

Which is the latest version of Microsoft Word?

Select the correct option

- |                                  |                     |
|----------------------------------|---------------------|
| <input type="radio"/>            | Microsoft Word 2000 |
| <input type="radio"/>            | Microsoft Word 2003 |
| <input type="radio"/>            | Microsoft Word 2007 |
| <input checked="" type="radio"/> | Microsoft Word 2010 |

EDU430:Quiz 1

Question # 6 of 10 ( Start time: 05:45:51 PM, 09 Noven

To remove page number in MS Word

Select the correct option

- |                                  |                                          |
|----------------------------------|------------------------------------------|
| <input checked="" type="radio"/> | Header and Footer command from view menu |
| <input type="radio"/>            | Page number command from insert menu     |
| <input type="radio"/>            | Options command from Tool menu           |
| <input type="radio"/>            | All of the above                         |

EDU430:Quiz 1

Question # 5 of 10 ( Start time: 05:43:34 F

Which of the following is an input device?

Select the correct option

- |                                  |           |
|----------------------------------|-----------|
| <input checked="" type="radio"/> | Scanner   |
| <input type="radio"/>            | Speaker   |
| <input type="radio"/>            | Monitor   |
| <input type="radio"/>            | Projector |

EDU430:Quiz 1

Question # 4 of 10 ( Start time: 05:41:30 PM, 09 M

You can break the active column using

Select the correct option

- |                       |                           |
|-----------------------|---------------------------|
| <input type="radio"/> | Break from Insert Command |
| <input type="radio"/> | Ctrl + Shift + Enter      |
| <input type="radio"/> | Ctrl + Enter              |
| <input type="radio"/> | Both A and B              |

EDU430:Quiz 1

Question # 3 of 10 ( Start time: 05:39:42 PM, 09 November 2017 )

Which type of files cannot be navigated using clip-art browser?

Select the correct option

|                                  |     |
|----------------------------------|-----|
| <input type="radio"/>            | AVI |
| <input type="radio"/>            | BMP |
| <input type="radio"/>            | WAV |
| <input checked="" type="radio"/> | MP3 |

EDU430:Quiz 1

Question # 2 of 10 ( Start time: 05:37:02 PM, 09 November)

Cursor is a \_\_\_\_

Select the correct option

- |                                  |                    |
|----------------------------------|--------------------|
| <input type="radio"/>            | Pixel              |
| <input type="radio"/>            | Thin blinking line |
| <input checked="" type="radio"/> | Pointing device    |
| <input type="radio"/>            | None of these      |

EDU430:Quiz 1

Question # 1 of 10 ( Start time: 05:35:08 PM, 09 November 2017 )

Which key or key combination will move the insertion point to the bottom of your document?

Select the correct option

|                                  |                   |
|----------------------------------|-------------------|
| <input checked="" type="radio"/> | END               |
| <input type="radio"/>            | PAGE DOWN         |
| <input type="radio"/>            | CTRL + PAGE DOWN  |
| <input type="radio"/>            | None of the above |

EDU430:Quiz 1

Question # 10 of 10 ( Start time: 05:50:01 PM, 09 November 2017 )

Which key enables you to move directly to specific location in document?

Select the correct option

|                                  |                   |
|----------------------------------|-------------------|
| <input type="radio"/>            | Sub-document      |
| <input type="radio"/>            | Cross-reference   |
| <input checked="" type="radio"/> | Book Marks        |
| <input type="radio"/>            | End note Footnote |

**EDU430 - ICT in Education**  
**Important Questions For MidTerm**  
**By Maher Afzal Sajid Muhammad**  
(MSc Math, MA Islamic Studies, B.Ed. Scholar)

**01-** Define ICT (Information and communication Technology)-

Ans: ICT is concerned with the storage, retrieval, manipulation, transmission or reception of digital data.

**02-** What is internet?

Ans: The internet is a global wide area network that connects computer systems across the world. The internet provides different online services.  
e.g. Web, Email, Social Media, Gaming etc.

**03-** Define Web server.

Ans: It is a programme and a computer clubbed into one entity which responds to the requests from web browsers for internet resource. The primary

Date: \_\_\_\_\_

Day: \_\_\_\_\_

Function of web server is to deliver web pages to clients. e.g. Apache, and HTTP server.

04- What is download?

Ans: Download means to transfer a file from another computer to your own computer. Downloading is the process of copying files to your computer from a remote location. For example you might download a file from your web hosting account to your home PC.

05- Describe teaching as a noble profession.

Ans: Teaching is regarded as the noblest of all professions in the world. A good teacher not only shows the right path that the students should follow but also prepares the human resource for the further development of the nation. Teaching has the power to create a healthy and peaceful world.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

Q6- What is teaching machines?

Ans: These were developed by S.L. Presy.

It's a piece of device designed to be operated by an individual student for self-learning. The student is represented with a question by some form of display on the machine. The student will inform the correctness of the answer. An account is kept of the responses made by the student.

Q7- Define Cache?

Ans: Cache is a small capacity memory which allows quick access to data. By storing data from working memory in cache, the speed of communication b/w processor and RAM is increased.

Microprocessors used three levels of fast cache L1, L2 and L3 used to store often used data.

Q8- What is Central Processing Unit (CPU)?

Ans: CPU or processor is a central part

Date: \_\_\_\_\_

Day: \_\_\_\_\_

of a computer (and can be referred to as the computer's "brain"). It manages all other computer parts monitors their mutual communication and performs arithmetic-logical operations. Processor speed is measured in hertz (or megahertz or gigahertz). Most famous manufacturers for personal computer processors are Intel and AMD.

09- What is Hard Disk Drive.

Ans: Hard Disk Drive (HDD) is a place for permanent data storage (it does not delete/clear when computer shuts down). Its features are: large capacity, faster performance in comparison to optical devices but slower in comparison to RAM and are used for permanent data storage.

10- What is difference b/w Internal and External Hard Drive?

Ans: The main difference between an internal hard drive and an external hard drive

Date: \_\_\_\_\_

Day: \_\_\_\_\_

is their placements of the respective hardware/location. While internal hard drives are built-in to your desktop computer or laptop, external drives are not. All computers need an internal drive to operate. ~~that~~ Within the drive, files, data and media are stored. Internal hard drives are located inside your computer. Unlike an external hard drives are not portable and only ~~can~~ be used by the computer they inhabit.

11- What is Bit?

Ans: Bit (binary digit) is the basic unit used to measure the amount of information.

A byte or octet contains eight bits.

1 KB (kilobyte) - 1024 B (byte)

1 MB (megabyte) - 1024 KB

1 GB (gigabyte) - 1024 MB

1 TB (terabyte) - 1024 GB

12- Define Memory Card and USB Stick.

Ans: Memory card is a type of flash

Date: \_\_\_\_\_

Day: \_\_\_\_\_

memory used to store data in digital cameras, cell phones, MP3 players etc.

USB stick is a data storage device.

It features small dimensions, relatively high capacity, reliability and speed.

It belongs to the type of flash memory that remembers data, even they do not need electric power to maintain data integrity.

13- What is scanner?

Ans: Scanner is used to load data (image, text etc.) from the printed material into a computer. The result of scanning is an image, but with special programs, if we scan the text, we can get a text as a result.

14- Describe the merits of HTML.

Ans: (i) HTML is simple but powerful formatting language to use.

(ii) The simplicity allows anyone to create web pages.

(iii) The pages can be updated at any time.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

- iv) HTML documents are device independent (works on any platform).
- v) The web pages can be linked together using links.

**15-** Describe the demerits of HTML.

- Ans:
- i) HTML does not have any programming capabilities.
  - ii) Require expertise knowledge.
  - iii) Difficult to remember coding.
  - iv) Time consuming.
  - v) Not secure.

**16-** Describe operating system.

Ans: Operating system is a program which manages computer hardware. First computer did not have operating systems; they had programs that were directly loaded into the computer (e.g. punch cards). Today computers have an operating system which loads into the computer's memory during its startup. Computer functions are based on its operating system.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

The most famous operating system are:

- (i) Linux open source software.
- (ii) Microsoft windows proprietary software.
- (iii) Mac OS X proprietary software.

17- What is E-learning?

Ans: E-learning consist of all forms of learning and/or knowledge transfer that are based on electronic technologies.

This term will mostly be used to describe learning and/or knowledge transfer without direct teacher-student contact, while using ICT technology.

18- Describe the advantages of projected aids.

Ans: (i) Teachers can prepare material in advance.

(ii) Saves time in classroom.

(iii) Provides greater enjoyment in learning.

(iv) Stimulates more effective learning.

(v) Enlarge or reduces actual size of objects.

(vi) Bring distant past and present into the classroom.

(vii) Increases retention and attention.

(viii) Can make class/presentation more effective.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

**19-** Describe disadvantages of projected aids.

Ans: (i) Expensive.

(ii) Teacher must know to use.

(iii) Requires electricity and other infrastructure.

(iv) Requires a darkroom.

(v) Requires smart room facilities.

(vi) Requires maintenance.

(vii) Requires techno friendly teaching materials.

(viii) Chance for diverting from study.

**20-** Describe video conferencing.

Ans: A computer-based communications system that allows a group of computer users at different locations to conduct a "virtual conference" in which the participants can see and hear one another as if they were in the same room participating in a real conference.

**21-** What is bytes?

Ans: It can be defined as a measurement of computer memory or disc capacity.  
A byte comprises 8 bits.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

**22-** What is Avatar?

Ans: Avatar is defined as a graphical representation of a real person, such as used in a MURE or MMORPG a kind of "virtual world".

**23-** Define workstation.

Ans: A computer connected to a Local Area Network (LAN) is a client that can receive information from and send information to the server that controls the LAN.

**24-** What is clipboard

Ans: Clipboard is a temporary storage area in a computer's memory. It may be used for example, to store text that you are in the process of copying and pasting from one section of a word processed document to another section in the same document or to another document.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

25- Define compatibility.

Ans: Compatibility is referred to pieces of hardware and/or software which is capable of being used together is described as compatible.

26- What is data projector?

Ans: Data projector is a device that enables the image displayed on a computer screen to be projected onto a wall screen or Interactive whiteboard.

27- Describe ~~the~~ the database.

Ans: Database is a structured collection of data that can be used for a variety of purposes. Database are usually stored on a Hard Disk inside your computer on a CD-ROM or at a website. A database may contain data relating to staff employed by a company or to students at an educational institution.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

28- What is worms?

Ans: Worms like viruses, they possess the ability of self-replication, and however they cannot infect other programs. Some computer worms may also include "payloads" that can damage systems, steal data or delete files.

29- What is adware?

Ans: Adware is a program that uses collected data about ~~computer users~~ (passwords, credit card numbers etc.) a user in order to display advertisements in a way regarded as intrusive.

30- What are the uses of three dimensional aids in classroom?

Ans: (i) Models (Working and Static model)  
(ii) Objects (iii) Specimens  
(iv) Globe (v) Puppets  
(vi) Mockups (vii) Diorama

Date: \_\_\_\_\_

Day: \_\_\_\_\_

31- What is Firewall?

Ans: A Firewall is a software package that sits between your computer and your internet connection, keeping an eye on the traffic to and fro. Firewalls have become essential these days, because of the frequent attempts being made by hackers to grab confidential information from computers all around the world. e.g. your bank or credit card details, which may be stored in a file somewhere on your computer.

32- What are graphical user <sup>interfaces</sup> (GUIs)?

Ans: Graphical user interface is an interface that is a software package that enables human beings to control what happens on their computers. Microsoft windows and the much older Apple Mac interface are graphical user interfaces (GUIs).

Date: \_\_\_\_\_

Day: \_\_\_\_\_

**33-** Write down the types of audio aids used in classroom.

Ans: (i) Radio

(ii) Tape recorder

(iii) Public address system

**34-** Define Homepage.

Ans: Homepage is the main web page of a business, organization or school or of a personal website. Most people usually setup their browser to open with this page at startup.

**35-** What is Interface?

Ans: An interface in computer jargon is a connection between two systems. It can be hardware or software. It may take the form of a plug, cable or socket, or all three, for example where a printer or scanner is connected to a computer and then it's a hardware interface. The term interface also known as user interface.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

**36-** What is IP address?

Ans: IP address is short abbreviation for Internet Protocol Address.

The unique numerical address for a computer on the internet, expressed as four sets of numbers (maximum 3 digits each) separated by dots: e.g. 150.237.176.24 for one of the computers at the University of Hull - where the ICT4LT website is located.

**37-** Define Karaoke Microphone.

Ans: Karaoke microphone is a popular name for a type of microphone that is more accurately described as a Dynamic Microphone.

**38** Write down different types of field trips.

Ans: (i) Exhibition (ii) Demonstration  
(iii) Dramatization (iv) Excursions  
(v) Museum (vi) Planetarium  
(vii) Aquarium (viii) Terrarium  
(ix) Vivarium.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

39- What is A/D converter?

Ans: A device used to convert analog data to digital data. Analog data is continuously variable, while digital data contains discrete steps.

40- What is address resolution?

Ans: Address resolution is the conversion of an IP address to the corresponding low-level physical address.

41- Define ANSI.

Ans: ANSI is the abbreviation of American National Standards Institute. This organization is responsible for approving U.S. standards in many areas, including computers and communications.

42- Define Binary.

Ans: This is numbering system with only two values: 0 (zero) and 1 (one). 1 is "true" or "on" and 0 is "false" or "off".

Date: \_\_\_\_\_

Day: \_\_\_\_\_

43- What is Binary File?

Ans: Binary file is a file that more than plain text (i.e. photos, sounds, spreadsheets etc.). In contrast to an ASCII file which only contains plain text.

44- Difference b/w Active and Inactive window.

Ans: Active window is the top or front window in a multiple window environment.

Inactive<sup>window</sup> is a window that is open but is not the top window.

45- What is file?

Ans: A file in computer jargon can be used to describe many different things. It may be a computer program, a document file created with a word-processor, an image file, an audio file and a video file etc. Files may be stored on CD-ROMs, DVDs and Flash Drives.

Date: \_\_\_\_\_

Day: \_\_\_\_\_

46- What is maps? and types of maps?

Ans: A map is an accurate representation of the boundaries and other details of continents, country etc. on a plane, in the form of diagram drawn to scale.

Types of maps

(i) Geographical Maps

(ii) Historical Maps

(iii) Industrial Maps

(iv) Political Maps

47- What is the function of windows speech recognition?

Ans: Windows speech recognition enables speech recognition i.e. recognizes spoken word, transfers it to text and enters it into a document; therefore it enables you to dictate a text to a computer, to browse the web using your voice etc.

48- What is HTML? History of HTML? and what points should be remembered

Date: \_\_\_\_\_

Day: \_\_\_\_\_

while HTML coding?

Ans: HTML: Hyper Text Markup Language (HTML) is a standard language used for developing web pages. HTML is a markup language that web browsers used to interpret and compose text, images and other material into visual web pages.

History of HTML: In 1980, a markup language i.e. Standard Generalized Markup Language (SGML) was developed. HTML was developed from SGML. points to Remember while HTML coding:

- (i) Each tag is enclosed within a "<" (left bracket) and ">" (right bracket).
- (ii) An opened tag must be closed.
- (iii) Opening tag is denoted by "<>"
- (iv) Closing tag is denoted by "</>"
- (v) When we save HTML file, we should add .html or .htm after the file name.
- (vi) Generally the HTML tags are written in upper case.
