STA642 - Probability Distributions (Quiz 3)

Quiz Start Time: 11:49 AM, 01 July 2025

Question # 1 of 10 (Start time: 11:49:36 AM, 01 July 2025)

Total Marks: 1

Which of the following is a key assumption of the multinomial distribution?

Select the correct option

Reload Math Equations

- The probabilities of all outcomes change with each trial.
- All trials are dependent.
- Each trial has only two outcomes.
- The number of trials is fixed.

STA642 - Probability Distributions (Quiz 3)

Quiz Start Time: 11:49 AM, 01 July 2025

Question # 2 of 10 (Start time: 11:50:35 AM, 01 July 2025)

Total Marks: 1

The multinomial distribution is a generalization of which distribution?

Select the correct option

Reload Math Equations

- Poisson distribution
- Normal distribution
- Geometric distribution
- Binomial distribution

Time Left sec(s)

STA642 - Probability Distributions (Quiz 3)

Quiz Start Time: 11:49 AM, 01 July 2025

Question # 3 of 10 (Start time: 11:51:10 AM, 01 July 2025)

Total Marks: 1

A fair die is rolled repeatedly until a "6" appears. Which distribution best models the number of rolls needed?

Select the correct option

Reload Math Equations

- Normal distribution
- Geometric distribution
- Poisson distribution
- Binomial distribution

STA642 - Probability Distributions (Quiz 3)

Question # 4 of 10 (Start time: 11:51:45 AM, 01 July 2025)

In a Poisson Distribution, if mean (m) = e, then P(x) is given by _____

Select the correct option

- $\frac{x!}{e^{(m-x)}}$
- $\frac{e^{(m-x)}}{x!}$
- $\frac{e^{(x-m)}}{x!}$
- $\frac{x!}{e^{(x-m)}}$

Question # 5 of 10 (Start time: 11:52:48 AM, 01 July 2025)

Poisson distribution is applied for _____

Select the correct option

- ○ Uncertain Random Variable
- ◉ Discrete Random Variable
- ○ Continuous Random Variable
- ○ Irregular Random Variable

STA642 - Probability Distributions (Quiz 3)

Quiz Start Time: 11:49 AM, 01 July 2025

Question # 6 of 10 (Start time: 11:53:31 AM, 01 July 2025)

Total Marks:

Job arrive at a facility at an average rate of 5 in an 8 hour shift. The arrival of the jobs follows poisson distribution. The average service time of the job on the facility is 40 minutes. The service time follows an exponential distribution. Idle time(in hours) at a facility per shift will be

Select the correct option

Reload Math Equations

- $\frac{10}{3}$
- $\frac{14}{3}$
- $\frac{5}{7}$
- $\frac{7}{5}$

BC220401122: IQRA MUBEEN

STA642 - Probability Distributions (Quiz 3)

Quiz Start Time: 11:49 AM, 01 July 2025

Question # 7 of 10 (Start time: 11:54:32 AM, 01 July 2025)

Total Marks: 1

Consider a Poisson distribution for the tossing of a biased coin. The mean for this distribution is μ. and the standard deviation for this distribution is given by

Select the correct option

Reload Math Equations

- $\frac{1}{\mu}$
- μ^2
- $\sqrt{\mu}$
- μ

STA642 - Probability Distributions (Quiz 3)

Question # 8 of 10 (Start time: 11:55:11 AM, 01 July 2025)

Which of the following is **true** about the geometric distribution?

Select the correct option

- (●) Variance increases as p decreases.
- ( ) Variance is always less than mean.
- ( ) Mean is independent of p.
- ( ) Mean increases as p increases.

Question # 9 of 10 (Start time: 11:56:05 AM, 01 July 2025)

If the probability of success in each trial is 0.20.20.2, the expected number of trials until the first success is:

Select the correct option

- 2.
- 10.
- 5.
- 4.

STA642 - Probability Distributions (Quiz 3)

Question # 10 of 10 (Start time: 11:56:49 AM, 01 July 2025)

The pdf of poisson distribution is

Select the correct option

- ○ $\frac{e^m m^x}{x!}$
- ○ $\frac{x!}{m^x e^{-m}}$
- ◉ $\frac{e^{-m} m^x}{x!}$
- ○ $\frac{e^{-m} x!}{m^x}$
