VIRTUAL UNIVERSITY OF PAKISTAN

M.A. Jinnah Campus, Defence Road off Raiwind Road, Lahore

Website: www.vu.edu.pk

Week 1:

Activity 1: Log of Daily Activities

Task: Complete the following log of a school day indicating how you were involved during your time at school. Note down all the activities of a day and reflect (share your views) on your experience.

Activity 1: Log of Daily Activities **Day: Monday** **Date: 11-11-24**

Time/ period	Name of the person you worked with/assisted	What did you do? (observe, assist)	Describe what you learned about teaching & learning
1 10:00-10:40	Iqra	Observed	I learned how to start the class with positive attitude .
2 10:40-11:20	Fatima	Observed	I learned about teaching skills and knowledge .
3 12:20-1:00	Ume aima	Observed	I learned how to manage time.

Activity 1: Log of Daily Activities **Day: Tuesday** **Date: 12-11-24**

Time/ period	Name of the person you worked with/assisted	What did you do? (observe, assist)	Describe what you learned about teaching & learning
1 10:00-10:40	Iqra	Observed	I learned how to achieve goals.
2 10:40-11:20	Fatima	Observed	I learned how to motivate students .
3 12:20-1:00	Ume aima	Observed	I learned how to manage time according to school time table .

Activity 1: Log of Daily Activities **Day: Wednesday** **Date: 13-11-24**

Time/ period	Name of the person you worked with/assisted	What did you do? (observe, assist)	Describe what you learned about teaching & learning
1 10:00-10:40	Iqra	Observe	I learned how to maintain discipline.
2 10:40-11:20	Fatima	Observe	I learned how to give lectures .
3 12:20-1:00	Ume aima	Observe	I learned how to make lesson plans.

Activity 1: Log of Daily Activities **Day: Thursday** **Date: 14-11-24**

Time/ period	Name of the person you worked with/assisted	What did you do? (observe, assist)	Describe what you learned about teaching & learning
1 10:00-10:40	Iqra	Assisted	I learned how to take class according to lesson plans.
2 10:40-11:20	Fatima	Assisted	I learned how to maintain our confidence level during class.
3 12:20-1:00	Ume aima	Assisted	I learned how to teach fast learning students and slow learning students .

Activity 1: Log of Daily Activities **Day: Friday** **Date: 15-11-24**

Time/ period	Name of the person you worked with/assisted	What did you do? (observe, assist)	Describe what you learned about teaching & learning
1 10:00-10:40	Iqra	Assisted	I gained my confidence .I learned how to prepare the lessons and how to make complex topics easy for students .

2 10:40-11:20	Fatima	Assisted	I gained my confidence .I learned how to prepare the lessons and how to make complex topics easy for students .
3 12:20-1:00	Ume aima	Assisted	I gained my confidence .I learned how to prepare the lessons and how to make complex topics easy for students .

Reflection: Share how this daily log activity is helping you to familiarize with the school environment.

I have observed the class room ,furniture , behavior of teacher, behavior of students , Board presentation and class discipline .I observed the way of teaching and how to control student discipline. I learned time management . I learned how to give lectures I started fluently and got very respective response from students.

Activity 2: Record of School Resources

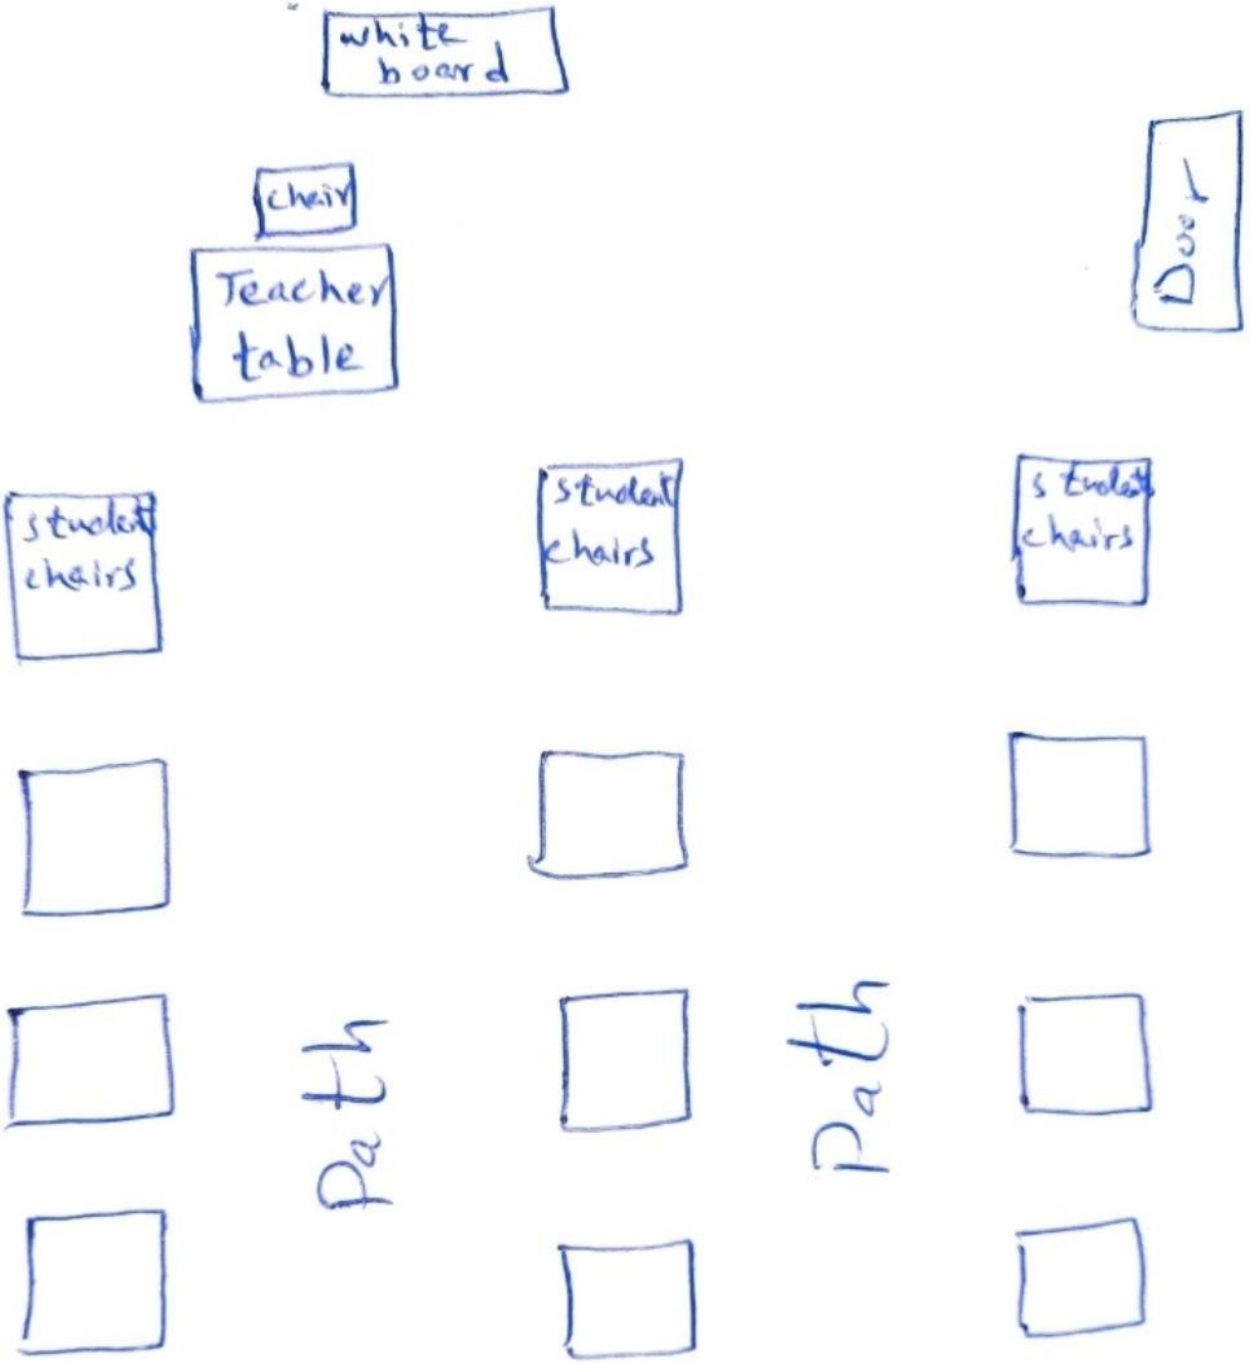

It is important to complete an observation of school resources to familiarize with the school setup .Two checklists of school resources are provided to you for this purpose.

Part - A

Observe the following materials in school and prepare the checklist-I.

Checklist-I

Item	Available/ Not Available	Comment
School handbook regarding school policies	**Available**	Well organized handbook
Dress code	**Available**	school uniform daily checked in assembly.
Map of school with locations for the following (attached the scanned copy) • Classrooms • Staff room • Playground/s • Library • Laboratory/ science room • Canteen • Hall • Drinking water arrangement • Toilets • Boundary wall • Any other If school does not have one, draw a map and attach a scanned copy.	 **Available** **Available** **Available** **Available** **Available** **Available** **Available** **Available** **Available** **Available** **Available**	 All facilities are available in the school . Everything is well maintained in a proper way. Mostly external visits are arranged here. So students are taught here with a lot of passion. Results are proof of excellence of this school.

Part-B

Each school has resources to provide to teachers' support. Observe the resources in school and if a particular resource is not available at your school; write Not Available (N/A) next to the item in column. In case if it's available, count and write in number.

Checklist-II

Resource Type	**Not Available**	**If Available, write number**
Library Books for the teachers such as guidebooks, textbooks etc. Books for the students e.g. story books, history books, Islamic books etc.	**Available**	100 books
Laboratory/Science Room Mention the equipment available for science experiments. E.g. chemicals, jars, forceps.	**Available**	50 equipments
Computer Lab E.g. computers, monitors, LCDs, printers etc.	**Available**	30 computers
Classroom Resources Student desk and chairs Teachers' chair and table White / Chalk board Bulletin board Any other **Teachers' support material** Textbooks Lesson plan preparation guidelines	**Available**	Student desk and chairs Teachers' chair and table White board everything is available in very good condition **Teachers' support material** Textbooks Lesson plan preparation guidelines Are available for all students.
Sports Facilities Sports kits, e.g. cricket bat, ball, wicket, football.	**Available**	Sports kits are available .
Other Resources available (if any)	**Available**	Water coolers, Indoor games facilities.

Reflection: Share your views how these material/resources are helpful for teaching and learning process.

All the material and resources are very helpful for teaching and learning process. Students takes more interest in learning by these resources . Students are highly motivated and try to learn concepts. Computer lab is very helpful to attach students with modern way of learning. So overall this school is a complete package of nation building.

Activity 3: Interview with the Cooperating-Teacher

Use the following ideas to know more about your cooperating teacher. You can also develop your own questions if you want to.

a. Name**:** b. Qualification:

c. Teaching Experience: **04 years**.

a. Do you prepare lesson plan regularly? **Yes**
How you keep a record of lesson plans?

Yes I prepare lesson plan regularly . I keep a record of lesson plans in hard form in my file.

b. What activities you use to engage your students in learning? (e.g. discussion, questions/answers, AV aids)

I use discussion and questions answers method to engage my students in learning . During this process I try to visit every student for help and observation.

c. How do you motivate students for learning?

I always try to motivate them by telling stories of successful peoples who were poor in early life. I tell them about scholarships. I respect students and their parents who energize them and they become very devoted for studies.

Reflection: Reflect upon the responses of the teacher and state how will you make your teaching more effective?

I like very much spending time with my cooperating teacher. I am very impressed with the way of teaching of my cooperating teacher. She is very honest and hardworking . I have also observed her teaching in class. The method of teaching was very polite and simple which can engage all students easily. Moreover question asked at end of lesson were answered by students comfortably. I want to adopt her method of teaching and after some experience .

Activity 4: Interview with the student/s

With permission from your cooperating teacher, interview a student or a group of students to learn about the school from student's perspective.

Use the following ideas to know more about students. You can also develop your own questions if you want to.

Number of student/s: 10 classes: 10th

Interview was conducted in Urdu, but here I have translated into English.

a. What do you like the most in the school?

Student 1: I like school building .
Student 2: I like talking with friends and sitting with them.
Student 3: I like my teachers.
Student 4: I like computer and science lab.

b. What types of activities do you like the most in the classroom?

Student 5: Reading books.
Student 6: Lectures
Student 7: I always like study related discussion with teachers and students .

c. What activities you don't like in classroom or school?

Student 8: I don't like punishment.
Student 9: I don't like too much classwork.
Student 10: I don't like long time of period.
Student 1: I don't like noise of students .

d. Any other question: state what are future plans?

Student 2: I want to become a pilot.
Student 3: I want to become doctor .
Student 4: I want to become a scientist.

Reflection: What did you learn about school from students' responses?

After talking with a lot of students, I have observed that students have immense talent. But they don't know what to do in life. They are not sure about completion of study due to poverty. But if they are encouraged and directed well they can be better citizen. They can achieve their dreams by little concentration according to their circumstances.

Activity 5: Community Engagement and Co-Curricular Activities

This assignment requires you to find out about the involvement of parents and other community members in the school, as well as the students' involvement in co-curricular activities in the school and the community.

1. Speak to your Cooperating Teacher and other school staff and find out how parents and community members are involved in the school. Are they encouraged to be involved? What impact does their involvement has on the school?

The more parents involved in their children's education, the better their entire class's motivation, behavior, and grades become. Encouraging parent engagement is more than common courtesy. It's one of the best ways to create a positive learning environment for every student. Parents supervision and continues checking plays key role of getting success of students . Involvement of parents is very important for successful school and students . For that purpose, we arrange parent's teacher meetings. But response from parents is not healthy because of lack of their education. One more factor is that village parents are laborers and they have not enough time and knowledge to discuss about their children. But we keep on trying to contact with them physical and on mobile phone. There is very low percentage of parents who are involved with school.

2. Find out what co-curricular activities i.e. sports day and debates are organized in the school? What impact do these activities have on the students?

Co-curricular activities play an essential role in a student's life as they play an important part in enhancing the learning process at school and make it more engaging and fun.Co-curricular activities takes place in school at very large scale like Cricket football , sports gala, music , speech , drama, arts and crafts etc.
