Mine today paper of BT101 (01-03-2017)

Total Q 48

40 Mcqs

2 Q (2 marks)

Write name of insect which feed on male flowers nectors?

Define red tide?

2 Q (3 marks)

Write examples of phycometozes?

Difference between aquatic biomes and terrestrial biomes?

2 Q (5 marks)

Write invasive species and write its two examples?

What is global warming?

2 Q (10 marks)

Write types of growth of lichens and write its benefits?

Write short note on photozones?

Bt101

1.name the insect which feed on male nector ?(2marks)

2.causes of global warming. (2marks)

3.genetic biodiversity? (3marks)

4.solid waste ka tha koi 3 ways btane the yad nahi question pora. (3marks)

5.define commensalism with example.. (5marks)

6 three types of biodiversity on spatial level?(10marks)

7.write down the value of biodiversity? (5marks)

8.Growth forms of Lichens?

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

BT101:-

What is Eutharopication? 2

what is Pacilli? 2

How collected solid waste is categorized? 3

What is the variety of Biodiversity? 3

What is chemical welfare and examples? 5

Write shorty the step involved in Nitrogen Cycle? 10

Write briefly the types of Biodiversity on spital scale? 10

Bt101

Direct nd indirect exploitation

Types of symbiosis

Allogenic and autogenic succession

Nitrogen fixing bacteria

kingdom protista

Carbon cycle and photosynthesis

Global warming nd effects

Bt101

Types of protozonans 10

Nitrogen cycle 10

Water cycle 5

Protection of ecosystem 5

Solid wastage 3

Crypits definition with example 3

Red tide definition 2

Eutrophication 2

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

BT101

Long

Water cycle

Nitrogen cycle

After effect of removing forest

Invasive

Species

Short

Name of insect who pollinated on male plant

Red tide

Baqi yd aye to comment me likh do gi

BT101

Define red tide?

after effects of deforestation

How solid state is managed

define= climax community, sere, serial stage, pioneer community, primary succession

effects of solid state

types of symbiosis

ek question yd nae

My today paper of bt101

Define mimicry with example 2 marks

Define red tide 3 marks

Carbon cycle pe note likhna tha 10 marks

How ozone layer produce? 10 marks

Global warming 5 marks

Write Deuteromycetes characteristics. 5 marks

Mcqs 70% mid term k syllabus me se the

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

Bt101 Ecology.

Don't forget to read mid term.

My 75% mcqs were from Mid term.

Long question

Types of Protozoan

Growth form of Lichens.

Greenhouse effect and causes.

Bt101

1- What are the two forms of symbionts?(2)

2- Define pellicle?(2)

3-What do You know about DMS?(3)

4-What is neurospore and its uses?(3)

5-Write a note on values of biodiversity?(5)

6-Explain global warming?(5)

7-What are the three major forms of lentic and explain each form?(10)

8-Write a note on protozoan?(10)

BT101 PAPER

Q:1 Cockroach one benefit and one harmful effect in environment?

Q:2 define penicillin

Q:3 Define eutrophication

Q:4 Cultural eutrophication and characteristics of eukaryotic lake?

Q:5 major parts of symbiosis

Q:6 ozone depletion

Q:7 Chemical warfare

Q:8 Neurospora and its uses

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

What is meant by DMS? (3)

Photosynthesis?(2)

Enlist some biogeochemical cycle? (5)

Strategy of protect ecosystem? (5)

Neurospora and its use (3)

define genetic diversity?

write down three zones of rivers?

define biomagnification?

define eutrophication?

types of nitrogen fixation bacteria

soil characteristic

two kingdom system

types of solid waste

endotherms

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

Five factors that influence biodiversity? 5

Types of Mycorrhizae 5

Ectotherms 5

Bad things with two kingdom system

Ways a solid waste is categorized
b/w aquatic Biomes and terrestrial Biome

Interspecific competition

Food chain

Mycoplasma

Genetic Diversity

Coloration concept

Types of symbiosis

Wind action in lentic water bodies.

water biota 7% 1.4 million	
Heliconius	Basidiomycetes
Ascomycetes	Asco
Species/Unit area	Phyco
380-760 nm	Deuter
Clumped dist	Stimulated
Scavenger	20,000,000
Hawk	Diatom
Caribbees	typer Air Pollution

If you need any other queries If you need any other queries, then freely to ask us

<https://www.facebook.com/groups/vubiomates/?ref=bookmarks>

13/11/17

- Q.1 Enlist some effects of ozone depletion.
- Q.2 Define chemical warfare with examples?
- Q.3 Define weathering and also enlist its types.
- Q.4 Differentiate between direct and Indirect exploitation.
- Q.5 Write down the factors that affect ecosystem diversity.
- Q. Define genetic diversity.
- Q. Write down three zones of rivers.
- Q. Define biomagnification.
- Q. Define Eutrophication.
- Q. What kind of factors are important in population dynamics.

If you need any other queries If you need any other queries, then freely to ask us

1. Q: 1 enlists some effects of Ozone depletion?
2. Q: 2 Define chemical warfare with examples?
3. Q: 3 define weathering and also enlist its types?
4. Q: 4 differentiate between direct and indirect exploitation?
5. Q: 5 write down the factors that affect ecosystem diversity?
6. Q: 6 define genetic diversity?
7. Q: 7 write down three zones of rivers?
8. Q: 8 define biomagnification?
9. Q: 9 define eutrophication?
10. Q: 10 what kinds of factors are important in population dynamics?

1. Direct and indirect exploitation ? 3 marks
2. Three biological components in which phosphorus is present ? 3 marks.
3. Define commensalism and example 3 marks
4. population diversity enlist two main factors for study of genetic diversity 3 marks
5. two taxonomic groups of slime mold 2 marks.
6. Define ecology. 2 marks
7. write down the insect which feeds on the male nectar flower. 2 marks.
8. Eutrophication 2 marks
9. taxonomic group of slime mold 2 marks
10. Write reproductive cycle of fungi 5 marks
11. short note on the major steps of water cycle. 5 marks
12. Reproductive potential or factors that affect the reproductive potential. 5 marks
