

BIO101 – Basic I-Biology

Spring 2022 – Quiz # 1

Efforts By:

VU GLOBAL (Team)

AARISH ALI & Team VU Global (+96569002641)

DISCLAIMER

This file is prepared for your guidance to do your quiz, each quiz is verified by our team, however student should verify correct answer by their end.

Contact us to join our esteemed network @ +96569002641

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Chloroplast
☐	Mitochondria
☐	Nucleus
☐	Lysosomes

The organisms made up of many cells are called

Select the correct option

☐	Multicellular
☐	Cell
☐	Tissue
☐	Unicellular

Which of the following cell organelles does not contain DNA?

Select the correct option

☐	Chloroplast
☐	Mitochondria
☐	Nucleus
☐	Lysosomes

What is necessary for a cell to pass the G2 checkpoint?

Select the correct option

☐ An adequate stockpile of nucleotides

☐ Proper attachment of mitotic spindle fibers to kinetochores

☐ The cell has reached a sufficient size

☒ Accurate and complete DNA replication

The fluid portion of the cytoplasm is called the?

Select the correct option

Ribosome

Pinocytosis

Cytosol

Chloroplast

Team VU Global

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Lysosomes
☐	Mitochondria
☐	Chloroplast
☐	Nucleus

Question # 5 of 7 (Start time: 06:13:38 PM, 29 June 2022)

A group of similar individual that potentially interbreed in nature is called

Select the correct option

☐	Population
☐	Community
☒	Species
☐	Group

Question # 1 of 7 (Start time: 10:22:21 PM, 29 June 2022)

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Nucleus
☐	All of the mentioned option
☐	Lysosome
☐	Endoplasmic Reticulum

Team VU Global

When one allele expresses itself and the other does not, the one expressing itself is the recessive allele

Select the correct option

☒ False

☐ True

Team VU Global

Which of the following statements is true about the cell wall?

Select the correct option

☐	The cell wall is mainly composed of protein
☒	The cell wall is mainly composed of cellulose
☐	The cell wall is mainly composed of lipid
☐	The cell wall is mainly composed of starch

Question # 3 of 7 (Start time: 06:02:40 PM, 24 June 2022)

_____ is the study of the cell, its types, structure, functions and its organelles.

Select the correct option

☐	Biochemistry
☐	Biology
☐	Cell Biology
☐	Microbiology

Team VU Global ✓

Question # 4 of 7 (Start time: 06:03:28 PM, 29 June 2022)

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option.

Prophase

S phase

G1 phase

Prometaphase

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

- | | |
|----------------------------------|---------------|
| ☒ | Segregation |
| ☐ | Assortment |
| ☐ | Separation |
| ☐ | None of these |

Question # 6 of 7 (Start time: 06:14:21 PM, 29 June 2022)

_____ is the study of the cell, its types, structure, functions and its organelles.

Select the correct option

☐	Biotechnology
☐	Microbiology
☐	Biology
☐	Cell Biology

Team VU Global

Question # 1 of 7 (Start time: 06:09:52 PM, 29 June 2022)

Which of the following cell organelles does not contain DNA?

Select the correct option

Chloroplast

Mitochondria

Nucleus

Lysosomes

Which of the following cell organelles is involved in the storage of food, and other

Select the correct option

Lysosome

Cell membrane

Mitochondria

Vacuoles

Team VU Global

Select the correct option

Atoms

Tissue

Molecules

Cell

Question # 3 of 7 (Start time: 05:00:20 PM, 29 June 2022)

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Lysosome
☐	Nucleus
☐	Endoplasmic Reticulum
☒	All of the mentioned option

The organisms made up of many cells are called

Select the correct option

☐	Unicellular
☒	Multicellular
☐	Cell
☐	Tissue

Question 2 of 7 (Start time: 06:10:36 PM, 29 June 2022)

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so th

Select the correct option

Segregation

Assortment

Separation

None of these

Team VU Global

Which of the following statements is true about the cell wall?

Select the correct option

The cell wall is mainly composed of protein

The cell wall is mainly composed of cellulose

The cell wall is mainly composed of lipid

The cell wall is mainly composed of starch

Question # 7 of 7 (Start time: 05:02:55 PM, 29 June 2022)

The members of a gene pair separate from one another independent of the members of other gene pairs during meiosis.) Such law of Mendel is called

Select the correct option

☐	Law of dominance
☐	Law of Segregation
☐	Law of co-dominance
☒	Law of Independent assortment

Team VU Global

Question # 4 of 7 (Start time: 10:26:39 PM, 29 June 2022)

Different organelles assemble to form a

Select the correct option

☐	Tissue
☐	Molecules
☐	Atoms
☒	Cell

Team VU Global

The organisms made up of many cells are called

Select the correct option

☐	Tissue
☒	Multicellular
☐	Unicellular
☐	Cell

Question # 1 of 7 (**Start time: 08:48:18 PM, 29 June 2022**)

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Endoplasmic Reticulum
☒	All of the mentioned option
☐	Nucleus
☐	Lysosome

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☐	Ribosome
☒	Cytosol
☐	Chloroplast

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes

Select the correct option

Separation

None of these

Assortment

Segregation

Team VU Global

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☒	Cytosol
☐	Chloroplast
☐	Ribosome

Question # 4 of 7 (Start time: 10:26:39 P

Different organelles assemble to form a

Select the correct option

☐	Tissue
☒	Molecules
☐	Atoms
☐	Cell

E
O

Question # 5 of 7 (Start time: 10:28:19 PM, 29 June 2022)

Which of the following cell organelles is called the powerhouse of the cell?

Select the correct option

☐	Mitochondria
☐	Chloroplast
☐	Cytoplasm
☐	Nucleus

Which of the following cell organelles is present in animal cells and absent in plant cells?

Select the correct option

☒	Centrosome
☐	None of these
☐	Nucleus
☐	Golgi bodies

Question # 6 of 7 (Start time: 10:29:12 PM, 29 June 2022)

_____ have double set of chromosomes

Select the correct option

☐	Heterozygous
☐	Haploid
☐	Diploid
☐	Homozygous

Team VU Global

Question # 7 of 7 (Start time: 06:21:51 PM, 29 June 2022)

_____ have double set of chromosomes

Select the correct option

Haploid

Diploid

Heterozygous

Homozygous

Team VU Global

Question # 3 of 7 (Start time: 06:18:52 PM, 29 June 2022)

Which of the following cell organelles is involved in the storage of food, and other nutrients, required for a cell to survive?

Select the correct option

Mitochondria

Cell membrane

Vacuoles

Lysosome

Question # 1 of 7 (Start time: 04:51:52 PM, 29 June 2022)

Which of the following statements is true about the cell wall?

Select the correct option

☒	The cell wall is mainly composed of cellulose
☐	The cell wall is mainly composed of protein
☐	The cell wall is mainly composed of lipid
☐	The cell wall is mainly composed of starch

Question # 4 of 7 (Start time: 06:19:25 PM, 29 June 2022)

Which phase will come between prophase and metaphase?

Select the correct option

☒	Prometaphase
☐	Telophase
☐	Anaphase
☐	S phase

Question 8 2 of 7 (Start time: 09:33:12 PM, 29 June 2022)

Quiz Start Time: 09:33:12 PM

_____ is the separation of allele pairs (different traits of the same genes) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

☐ Segregation

Submit

☐ Separation

☐ None of these

☐ Assortment

Team VU Global

Select the correct option

Atoms

Tissue

Molecules

Cell

Q 7 (Start timer) (06:05:31 PM, 29 June 2020)

Which of the following cell organelles is absent in prokaryotes?

Select the correct option

- | | |
|-----------------------|------------------------------|
| ☐ | Nucleus |
| ☐ | All of the mentioned options |
| ☐ | Lysosome |
| ☐ | Endoplasmic Reticulum |
- 

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

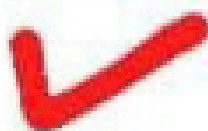

☒	Nucleus
☐	Lysosome
☐	All of the mentioned option
☐	Endoplasmic Reticulum

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

☐	Prophase
☐	G1 phase
☐	Prometaphase
☐	S phase

Team VU Global

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Endoplasmic Reticulum
☐	All of the mentioned option
☐	Nucleus
☐	Lysosome

Team VU Global

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

☒ Segregation

☐ Assortment

☐ Separation

☐ None of these

Submit

Team VU Global

What is necessary for a cell to pass the G2 checkpoint?

Select the correct option

☐	An adequate stockpile of nucleotides
☐	Proper attachment of mitotic spindle fibers to kinetochores
☐	The cell has reached a sufficient size
☒	Accurate and complete DNA replication 

Which of the following is the correct order of organization in living things from most basic (simple) to most complex?

Select the correct option

- | | |
|-----------------------|--|
| ☐ | Organ system, organ, tissue, cell, organism |
| ☐ | Organism, cell, tissue, organ, organ system |
| ☐ | Cell, organ, tissue, organ, organism, organ system |
| ☐ | Cell, tissue, organ, organ system, organism |
- Team VU Global
- ✓

Which phase will come between prophase and metaphase?

Select the correct option

☐	Prometaphase
☐	Telophase
☐	Anaphase
☐	S phase

When one allele expresses itself and the other does not, the one expressing itself is the recessive allele

Select the correct option

False

True

Team VU Global

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Nucleus
☐	Chloroplast
☒	Lysosomes
☐	Mitochondria

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate

select the correct option

☐ Separation

☐ None of these

☐ Assortment

☒ Segregation

Team VU Global

Question # 5 of 7 (Start time: 08:52:12 PM, 29 June 2022)

Which of the following statements is true about the Nucleus?

Select the correct option

☐	All of the mnetioned options
☐	It is called the brain of the cell
☐	It is absnt in prokaryotes
☐	It contains DNA and other genetic materials.

Question # 5 of 7 (Start time: 08:36:39 PM, 29 June 2022)

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

☐	G1 phase
☒	Prophase
☐	S phase
☐	Prometaphase

Question # 3 of 7 (Start time: 12:45:37 PM, 29 June 2022)

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

☐ Prophase

☒ S phase

☐ G1 phase

☐ Prometaphase

Question # 5 of 7 (Start time: 12:46:48 PM, 29 June 2022)

_____ is the study of the cell, its types, structure, functions and its organelles.

Select the correct option

Cell Biology

Biotechnology

Microbiology

Biology

in one allele expresses itself and the other does not, the one expressing itself is the recessive allele

ct the correct option

☐ False

☐ True

Team VU Global

Select the correct option

Atoms

Tissue

Molecules

Cell

Which of the following statements is true about the cell wall?

Select the correct option

☐	The cell wall is mainly composed of protein	
☒	The cell wall is mainly composed of cellulose	
☐	The cell wall is mainly composed of lipid	
☐	The cell wall is mainly composed of starch	

The fluid portion of the cytoplasm is called the?

Select the correct option

- | | |
|----------------------------------|-------------|
| ☐ | Ribosome |
| ☐ | Pinocytosis |
| ☒ | Cytosol |
| ☐ | Chloroplast |
- Team VU Global

What is necessary for a cell to pass the G2 checkpoint?

Select the correct option

☐	An adequate stockpile of nucleotides
☐	Proper attachment of mitotic spindle fibers to kinetochores
☐	The cell has reached a sufficient size
☒	Accurate and complete DNA replication

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Nucleus
☐	Chloroplast
☒	Lysosomes
☐	Mitochondria

Question # 1 of 7 (Start time: 04:59:46 PM, 29 June 2022)

A cross between a true breed plant/animal with another true breeds plant/animal is called

Select the correct option

☐	None of these
☒	Pure cross
☐	Test cross
☐	Hybrid cross

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Chloroplast
☐	Mitochondria
☐	Nucleus
☐	Lysosomes

Question # 3 of 7 (**Start time: 04:54:12 PM, 29 June 2022**)

The organisms made up of many cells are called

Select the correct option

☐	Multicellular
☐	Cell
☐	Tissue
☐	Unicellular

When one allele expresses itself and the other does not, the one expressing itself is the recessive allele

Select the correct option

☒ False

☐ True

Team VU Global

Question # 1 of 7 (Start time: 10:22:21 PM, 29 June 2022)

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Nucleus
☐	All of the mentioned option
☐	Lysosome
☐	Endoplasmic Reticulum

Team VU Global

Question # 3 of 7 (Start time: 06:02:40 PM, 29 June 2022)

_____ is the study of the cell, its types, structure, functions and its organelles.

Select the correct option

☐	Biochemistry
☐	Biology
☒	Cell Biology
☐	Microbiology

Which of the following cell organelles does not contain DNA

Select the correct option

☐	Lysosomes
☐	Mitochondria
☐	Chloroplast
☐	Nucleus

Question # 4 of 7 (**Start time:** 06-02-20 PM, 29 June 2022)

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

☐	Prophase
☐	S phase
☐	G1 phase
☐	Prometaphase

Question # 5 of 7 (Start time: 06:13:38 PM, 29 June 2022)

A group of similar individual that potentially interbreed in nature is called

Select the correct option

☐	Population
☐	Community
☒	Species
☐	Group

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

Question # 1 of 7 (**Start time: 08:48:18 PM, 29 June 2022**)

Which of the following cell organelles is absent in prokaryotic cells?

Select the correct option

☐	Endoplasmic Reticulum
☐	All of the mentioned option 
☐	Nucleus
☐	Lysosome

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☐	Ribosome
☒	Cytosol
☐	Chloroplast

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes

Select the correct option

- ☐ Separation
- ☐ None of these
- ☐ Assortment
- ☒ Segregation

Return

Team VU Global

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☒	Cytosol
☐	Chloroplast
☐	Ribosome

Question # 4 of 7 (**Start time: 10:26:39 PM, 29 June 2022**)

Different organelles assemble to form a

Select the correct option

☐	Tissue
☐	Molecules
☐	Atoms
☐	Cell

Question # 5 of 7 (Start time: 10:28:19 PM, 29 June 2022)

Which of the following cell organelles is called the powerhouse of the cell?

Select the correct option

☒	Mitochondria
☐	Chloroplast
☐	Cytoplasm
☐	Nucleus

Which of the following cell organelles is present in animal cells and absent in plant cells?

Select the correct option

☒	Centrosome
☐	None of these
☐	Nucleus
☐	Golgi bodies

Question # 6 of 7 (Start time: 10:29:12 PM, 29 June 2022)

_____ have double set of chromosomes

Select the correct option

☐	Heterozygous
☐	Haploid
☐	Diploid
☐	Homozygous

Team VU Global

Question # 6 of 7 (Start time: 06:21:21 PM, 29 June 2022)

A group of similar individual that potentially interbreed in nature is called

Select the correct option

☐	Community
☐	Population
☐	Group
☒	Species

Team VU Global

Question # 7 of 7 (**Start time: 06:21:51 PM, 29 June 2022**)

_____ have double set of chromosomes

Select the correct option

☐	Haploid
☒	Diploid
☐	Heterozygous
☐	Homozygous

Question # 3 of 7 (Start time: 06:18:52 PM, 29 June 2022)

Which of the following cell organelles is involved in the storage of food, and other nutrients, required for a cell to survive?

Select the correct option

- | | |
|----------------------------------|---------------|
| ☐ | Mitochondria |
| ☐ | Cell membrane |
| ☒ | Vacuoles |
| ☐ | Lysosome |

Which of the following statements is true about the cell wall?

Select the correct option

☒	The cell wall is mainly composed of cellulose	✓
☐	The cell wall is mainly composed of protein	
☐	The cell wall is mainly composed of lipid	
☐	The cell wall is mainly composed of starch	

Question # 4 of 7 (Start time: 06:19:25 PM, 29 June 2022)

Which phase will come between prophase and metaphase?

Select the correct option

☒	Prometaphase
☐	Telophase
☐	Anaphase
☐	S phase

Question 2 of 7 (Start time: 09:33:12 PM, 29 June 2022)

Quiz Start Time: 08:33

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

☒ Segregation

☐ Separation

☐ None of these

☐ Assortment

Submit

☐	Unicellular
☐	Cell

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☐	Ribosome
☒	Cytosol
☐	Chloroplast

A cross between a true breed plant/animal with another true breeds plant/animal is called _____

Select the correct option

☐	None of these
☒	Pure cross
☐	Test cross
☐	Hybrid cross

Question # 1 of 7 (**Start time: 01:13:01 PM, 29 June 2022**)

Which of the following cell organelles does not contain DNA?

Select the correct option

☐	Nucleus
☐	Lysosomes
☐	Mitochondria
☐	Chloroplast

Which of the following statements is true about the cell wall?

Select the correct option

☐	The cell wall is mainly composed of protein	
☐	The cell wall is mainly composed of cellulose	
☐	The cell wall is mainly composed of lipid	
☐	The cell wall is mainly composed of starch	

_____ is the study of the cell, its types, structure, functions and its organelles.

Select the correct option

Cell Biology

Biotechnology

Biology

Team VU Global

Different organelles assemble to form a

Select the correct option

☐	Atoms
☐	Tissue
☐	Molecules
☐	Cell

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

Separation

Reload

None of these

Assortment

Segregation

Team VU Global

Question # 3 of 7 (Start time: 12:45:37 PM, 29 June 2022)

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

Prophase

S phase

G1 phase

Prometaphase

When one allele expresses itself and the other does not, the one expressing itself is the recessive allele

Select the correct option

☐	False
☐	True

Question # 7 of 7 (Start time: 12:55:19 PM, 29 June 2022)

Total Mark

The members of a gene pair separate from one another independent of the members of other gene pairs. (These separations occur in the formation of gametes during meiosis.) Such law of mendel is called

Select the correct option

[Reload Math Equation](#)

Law of Segregation

Law of co-dominance

Law of Independent assortment

Law of dominance

Team VU Global

Question # 6 of 7 (Start time: 12:53:55 PM, 29 June 2022)

Which of the following cell organelles is present in animal cells and absent in plant cells?

Select the correct option

☒	Centrosome
☐	None of these
☐	Nucleus
☐	Golgi bodies

Question # 2 of 7 (Start time: 12:52:00 PM, 29 June 2022)

A group of similar cells that come together to perform a specific function is a/an

Select the correct option

Organ system

Organism

Tissue

Organ

Question # 1 of 7 (Start time: 12:50:27 PM, 29 June 2022)

Which of the following statements is true about the Nucleus?

Select the correct option

☒	All of the mnetioned options
☐	It is absent in prokaryotes
☐	It contains DNA and other genetic materials.
☐	It is called the brain of the cell

Which of the following statements is true about the Nucleus?

Select the correct option

All of the mentioned options

It is absent in prokaryotes

It contains DNA and other genetic materials.

It is called the brain of the cell

Question # 6 of 7 (**Start time: 12:39:34 PM, 29 June 2022**)

Which of the following is the correct order of organization in living things from most basic (simpl

Select the correct option

Organism, cell, tissue, organ, organ system

Cell, tissue, organ, organ system, organism

Cell, organ, tissue, organ, organism, organ system

Organ system, organ, tissue, cell, organism

Question # 5 of 7 (**Start time: 12:39:03 PM, 29 June 2022**)

The fluid portion of the cytoplasm is called the?

Select the correct option

☐	Pinocytosis
☐	Ribosome
☐	Chloroplast
☒	Cytosol

Question # 1 of 7 (Start time: 12:37:13 PM, 29 June 2022)

Total Marks

_____ is the separation of allele pairs (different traits of the same gene) during meiosis so that they can transfer specifically to separate gametes.

Select the correct option

Different organelles assemble to form a

Select the correct option

☐	<i>Atoms</i>
☐	<i>Cell</i>
☐	<i>Tissue</i>
☐	<i>Molecules</i>

Question # 6 of 7 (**Start time: 10:47:05 AM, 29 June 2022**)

A group of similar individual that potentially interbreed in nature is called

Select the correct option

Group

Species

Community

Population

Question # 5 of 7 (Start time: 10:46:17 AM, 29 June 2022)

A cross between a true breed plant/animal with another true breeds plant/animal is called _____

Select the correct option

☐	Pure cross
☐	None of these
☐	Hybrid cross
☐	Test cross

Which of the following cell organelles is involved in the storage of food, and other nutrients, required for a cell to survive?

Select the correct option

☐

Cell membrane

☐

Vacuoles

☐

Mitochondria

☐

Lysosome

_____ have double set of chromosomes

Select the correct option

☐	Diploid
☐	Haploid
☐	Heterozygous
☐	Homozygous

Chromosomes are duplicated during what portion of the cell cycle?

Select the correct option

☐	<i>S phase</i>
☐	<i>Prophase</i>
☐	<i>Prometaphase</i>
☐	<i>G1 phase</i>

Question # 1 of 7 (Start time: 10:40:07 AM, 29 June 2022)

What is necessary for a cell to pass the G2 checkpoint?

Select the correct option

- | | |
|-----------------------|---|
| ☐ | An adequate stockpile of nucleotides |
| ☐ | Accurate and complete DNA replication |
| ☐ | The cell has reached a sufficient size |
| ☐ | Proper attachment of mitotic spindle fibers to kinetochores |

A cross between a true breed plant/animal with another true breeds plant/animal is called _____

Select the correct option

☐	None of these
☐	Test cross
☐	Hybrid cross
☐	Pure cross

The organisms made up of many cells are called

Select the correct option

☐	Tissue
☐	Cell
☐	Multicellular
☐	Unicellular
