ROUNDER**

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 1) World Wide web is the collection of **electronic documents**.
- 2) Each electronic document on the web is called a **web page** that can contain text, graphics, audio and video.
- 3) **Cyber Culture** converts the human written language or symbols to machine language and reconverts to human understandable language so the people on the destination can understand.
- 4) Now a day's especially in online chatting cyber language is created of new codes which affect our daily **spoken language**.
- 5) There are **Seven** components of cyber culture.
- 6) Internet, email, blog, chat, e-commerce, social networks and website are components of **cyber culture**.
- 7) **Internet** is The network formed by the co-operative interconnection of a large number of computer networks.
- 8) **Main goal** of the internet is to connect several computers together for the exchange of messages and share the information etc.
- 9) **Website** is a location connected to the Internet that maintains one or more web pages.
- 10) Web pages are the **building** blocks of the website
- 11) Web sites may be accessible through a **public Internet Protocol (IP)** network, such as the Internet, or a private local area network (LAN),

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

by referencing a uniform resource locator (URL) that identifies the site.

- 12) Email stands for **Electronic mail**.
- 13) There is no central **administration** and owner to the internet.
- 14) Messages that are sent electronically from one computer to another is an e-mail **message**.
- 15) A **blog** is a discussion or informational site.
- 16) Blog is published on the World Wide Web and consists of **discrete entries** ("posts").
- 17) A regularly updated website or web page is run by an **individual or group of individuals**.
- 18) Any kind of communication over the Internet that offers a real-time transmission of text messages from sender to receiver is called **online chat**.
- 19) Online chat may address **point-to-point communications** as well as **multicast communications**.
- 20) Chat can be from one sender to many receivers and video chat, or may be a **feature** of a web conferencing service.
- 21) A chat may **be direct text-based or video-based (webcams)**.
- 22) E- commerce stands for **Electronic Commerce**.
- 23) **E-commerce** is the trading or facilitation of trading in products or services using computer networks, such as the Internet.

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 24) Online shopping, online market places, Business to business buying & selling, online newsletter for marketing prospective are **Commercial transactions** on internet.
- 25) A dedicated website or other application which enables users to communicate with each other by posting information, comments, messages, images , videos are referred to as **social networks**.
- 26) Facebook, Linkedin, Twitter are examples of **Social network**.
- 27) The **cyberspace** is a term used to describe the space created through the union of electronic communications networks such as the internet, which enables computer facilitated communication between any numbers of people who may geographically dispersed around the globe.
- 28) Cyberspace is a **public space** where individuals can meet, exchange ideas, share information, provide social support and conduct business.
- 29) “The human interaction does not require physical connection to communicate, but is rather characterized by the interconnection of millions of people throughout the world through chat room, email, Facebook” is the concept of **Cyber space**.

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 30) Due to **worldwide** use of computer network, people are now able to get together and form **cyber communities** that can exchange messages easily through cyber space.
- 31) Physically meeting has been reduced due to introduction of **cyber culture**.
- 32) **Culture** is an **important** process in computer related contexts. The processes that create meaning in actions.
- 33) Cyber culture is indicated to break down borders and barriers, not only between nations but also between groups and individuals **separated** from each other due to some reasons.
- 34) If cyber culture grows then those who are cut off from cyber culture will feel more **isolated** from society and will not be properly updates about latest development and fast change.
- 35) The **cyber culture** has brought great impact on human individual's life.
- 36) In education the style of teaching learning has changed. The student teacher **interactivity** can be formed **online**.
- 37) The cyber culture has great influence in the **business world**.
- 38) The use of internet for emails and other social networks is our **participation in the cyber culture**.

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 39) Cyber culture **reduced** the gap between groups and individuals separated from each other due to some reasons.
- 40) Now days there are many social networking sites like Face book, MySpace and Twitter, which all serve to provide **links** to many friends to **maintain** their relationship.
- 41) Face to face communication is becoming weak due to **emerging of social networks**.
- 42) The People who **don't have the ability to communicate face to face** they can exchange their views, through these social network.
- 43) The cyber culture is **developing** and we **need** to know the values and believes of this culture.
- 44) Cyber culture has great influence on human culture and in way **new uniform global culture is developing**.
- 45) In traditional E-commerce all the dimensions are **physical** in nature.
- 46) In Pure E- commerce all the dimensions are **digital** in nature.
- 47) **Hacking** in simple terms means illegal access into a computer system without the permission of the computer owner/user.
- 48) Damaging or destroying data rather than stealing or misusing them is called **cyber vandalism**.
- 49) A **Virus** is a “program” that is loaded onto your computer without your knowledge and runs against your wishes.

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 50) **Trojan horses** are email viruses that can duplicate themselves, steal information, or harm the computer system.
- 51) The method of hiding plaintext in such a way as to hide its substance is called **encryption**.
- 52) The term **“Cyber Law”** Refers to all the legal and regulatory aspects of the Internet and its users.
- 53) The 1st rule of management is **delegation**.
- 54) The Electronic Transactions Ordinance (ETO), 2002, was the first IT relevant legislation created by **national lawmakers**.
- 55) A **patent** is a government authority or license conferring a right or title for a set period, especially the sole right to exclude others from making, using, or selling an invention.
- 56) There are about **19** cyber offences defined in Pakistan Ordinance No. **LXXII or 2007** to make provision for prevention of the electronic / cyber crimes.
- 57) Awareness learning needs to enter the **21st** Century.
- 58) A **gTLD** is a generic top level domain.
- 59) A **ccTLD** is a country code top-level domain, for example: .mx for Mexico.
- 60) There are currently **252** ccTLDs reflected in the database of the Internet Assigned Numbers Authority (IANA).

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

- 61) **B2B** Model describes commerce transactions between businesses, such as between a manufacturer and a wholesaler, or **between a wholesaler and a retailer**.
- 62) The **B2C** model involves transactions between business organizations and **consumers**.
- 63) A **C2B** model, is a type of commerce where a consumer or **end user** provides a product or service to an organization.
- 64) Computer may be used as a **weapon** for crime or as a target.
- 65) **Cyber security** refers to the technologies and processes designed to protect computers, networks and data from unauthorized access and attacks delivered through the Internet by cyber criminals.
- 66) Security deal with **three** primary issues, called the **CIA** triad.
- 67) **Malware** is any software that infects and damages a computer system without the owner's knowledge or permission.
- 68) **Trojan horses** are email viruses that can **duplicate** themselves, steal information, or harm the computer system.

69) The method of hiding plaintext in such a way as to hide its substance is called **encryption**.

70) **Encrypting** plaintext results in unreadable gibberish **called**
cipher
text.

71) The term **Cyber Law** Refers to all the legal and regulatory aspects of the Internet and its users.

72) There are **43** sections in the ordinance **ETO 2002**. It deals with the **8** main areas relating to e-Commerce.

73) Illegal electronic messages to any person without the permission of the recipient is called, **Spamming**

74) A tense situation between and/or among nation-states and/or organized groups where unwelcome cyber attacks may result in retaliation is, **Cyber dispute / conflict**

75) A virtual approach, defining the cyber world beyond the boundaries of nation states enforcement of cyber laws uniformly accepted, **Cyber**

Jurisdiction

76) There are_____ domains of E-commerce.

☐ 3

4

☐ 5

77) **Extra territorial Jurisdiction** refers to a court's ability to exercise power beyond its territorial limits.

78) How many sections are included in Electronic Transaction Ordinance 2002?

☐ 43

☐ 10

☐ 53

☐ 23

79) Public key encryption uses multiple keys. One key is used to encrypt data, while another is used to decrypt data. The key used to encrypt data is called the _____ key, while the key used to decrypt data is called the _____ key.

☐ Encryption, decryption

☐ Private, public

☐ Encryption, public

☐ **Public, private**

80) What is an encryption system that uses two keys: a public key that everyone can have and a private key for only the recipient?

Encryption

☐ **Public key encryption**

☐ Intrusion-detection software

☐ Security-auditing software

81) The term Cyber Law is refer to as the legal and regulatory aspects of the _____ and its _____.

☐ Users, Internet

☐ **Internet, Users**

☐ Digital data, Generators

☐ Internet Service Provider, User

82) According to Electronic Crime Bill 2007 what is the imprisonment of “Unauthorized access to code” Offense?

☐ 6 Years

☐ **3 Years**

☐ 3 Months

☐ None of the above

83) According to Electronic Crime Bill 2007 what is the imprisonment of “Electronic Fraud” Offense?

☐ 1 Year

☐ 10 Months

☒ **7 Years**

☐ 7 Months

84) What scrambles the contents of a file so you can't read it without having the right decryption key?

☒ **Encryption**

☐ Intrusion-detection software

☐ Security-auditing software

☐ All of the above

85) What is the Fine of "Cyber Terrorism" Offense according to Electronic Crime Bill 2007?

☐ 1 Million

☒ **10 Million**

☐ 10 Thousand

☐ None of the above

86) What is the fine of "Defamation" Offense according to Electronic Crime Bill 2007?

☐ 5000

☐ 50,000

☒ **5 Lac**

☐ 7 Lac

87) What is the Fine of “Cyber Spamming” Offense according to Electronic Crime Bill 2007?

☐ 50,000

☐ 35,000

☐ 5 Lac

☐ None of the above

88) Cyber security refers to the **technologies** and **processes** designed to protect computers, networks and data from unauthorized access and attacks delivered through the Internet by cyber criminals.

89) We can Use our computers to **attack** other computers on the internet.

90) **Security measures** provides full security services to balance the needs of providing information to those who need it with taking action to mitigate the **dynamic** threats posed by cyber thieves and cyber terrorists.

91) **Trojan horses** are such programs which are used as the **back doors**.

92) Security suites, such as **Avast Internet Security**, will prevent you from downloading Trojan Horses.

- 93) **Password attacks** are attacks by hackers that are able to determine passwords or find passwords to different protected electronic areas and social network sites.
- 94) **Cyber security** is necessary since it helps in **securing data** from threats such as data theft or misuse, also safeguards your system from **viruses**.
- 95) **Security measures** provides full security services to balance the needs of providing information to those who need it with taking action to mitigate the **dynamic threats** posed by cyber thieves and cyber terrorists.
- 96) Your **home computer** is the popular **target** for intruders.
- 97) **Hackers** attack where they see **weakness**.
- 98) A system that hasn't been **updated** recently has flaws in it that can be taken advantage of by **hackers**.
- 99) The word "**malware**" comes from the term "**Malicious software**."
- 100) Main goal of the **internet** is to connect **several computers** together for the **exchange** of messages and share the information etc.
-

1. When a customer of a website are unable to access it due to bombardment of fake traffic, it is known as
 - Denial of Service Attack
2. Security Procedure can
 - Reduce but not eliminate risks
3. How Many Issues are covered In Electronic Crime Bill 2007 ?
 - 21
4. A tense situation between and/or among nation-states and/or organized groups where unwelcome cyber attacks may result in retaliation termed as
 - Cyber Dispute
5. The Electronic Transactions Ordinance (ETO), 2002, was the first IT-relevant legislation that consisted of-----sections.
 - 43
6. The 1st Law related to cyber issues 1st introduced in -----
 - 2002
7. When Plain text is converted to unreadable format, it is termed as -----.
 - Cipher Text
8. Which of the following is an example of a cyber crime?
 - Spam Emails
9. What Floods a website with so many request for service that it slows down or crashes ?
 - Denial-of Service attack
10. Malicious software is known as
 - Malware
11. A cyber attach in which a minor fraction of priced is added and taken to some other account is called -----.
 - Forgery
12. The First Cyber regulation was evolved in the year -----
 - 1966
13. Jurisdiction over cases arising in or involving persons residing within a defined territory refers to -----
 - Territorial Jurisdiction
14. All of these are suggestion for safe computing EXCEPT
 - Open all e-mail messages but open slowly
15. What is the fine of the “Cyber Spamming” Offense according to Electronic Crime Bill 2007?
 - 50,000
16. Which of the following is a goal that courts try to achieve?
 - All of the Given Options
17. ----- is defined as any crime completed through the use of computer technology
 - Computer Crime
18. Cyber Culture Language is -----
 - No specific Language

19. According to Electronic Crime Bill 2007 what is the imprisonment of "Unauthorized access to code" Offense ?
- 3 Years
20. ----- are the building blocks of the website.
- Web pages
21. In ----- the dimensions are physical in nature and all transactions are Performed off-line?
- Traditional Commerce
22. According to Electronic Crime Bill 2007 what is the imprisonment of "Criminal Access" Offense?
- 3 Years
23. How many sections are included in Electronic Transactions Ordinance 2002?
- 43
24. What is the most common tool used to restrict access to a computer system?
- Passwords
25. Virus can reach to your computer in which way?
- All of the above
26. What is the fine of "Defamation" Offence According to Electronic Crime Bill 2007?
- 5 Lac
27. ----- is the process or mechanism used for converting ordinary plain text into garbled nonhuman readable text & vice versa.
- Cryptography
28. Members of Majlis-e-Shura in Shariah Appellate bench of supreme court of Pakistan works under ?
- Supreme Court
29. In ----- the dimensions are digital in nature and all transactions are performed online
- Pure E-commerce
30. Internet is Owned by
- No Body owns internet
31. The term "Cyber Law" Refers to all the legal and regulatory aspects of ----the and its ----
- Internet , users
32. Who breaks into other people's computer systems and steals and destroy information?
- Hackers
33. Public key cryptography is also known as ----- Cryptography?
- Asymmetric
34. What is "I" stands in CIA triad?
- Integrity
35. What is short for malicious software (is a software designed to disrupt computer operations, gather sensitive information ,or gain unauthorized access to computer systems)?
- Malware
36. The 1st law related to digital transaction in Pakistan was introduced in-----.

- 2002
37. Firewalls are used to protect against-----.
- Unauthorized Access
38. Model Law on E-Commerce and E-Signatures were evolved in -----.
- 1996
39. The network formed by the co-operative interconnection of a large number of computers networks is called -----.
- Internet
40. Amazon.com comes under the following model?
- B2C
41. The imprisonment under section for violation of privacy information is ---- with fine of -----
- 7 years. 1 million
42. Each electronic document on the web is called a -----
- Web Page
43. What is hardware and/or software that protects computers from intruders?
- Firewall
44. ----- is a discussion or informational site published on the World Wide Web consisting of discrete entries typically, runs by an individual or a small group
- Blog
45. What is the process of making a copy of the information stored on a computer?
- Backup
46. In a hybrid approach ----- key is used to decrypt session key and ----- key to decrypt ciphertext
- Private, Session
47. There are ----- types of Jurisdiction
- 3
48. Gains or attempts to gain access to any information system with or without any purpose comes under -----
- Violation of Privacy information
49. Which type of e-commerce focusses on consumers dealing with each other?
- C2C
50. What is the fine of "Cyber Terrorism" Offense According to Electronic Crime Bill 2007 ?
- 10 Million
51. Process of buying, selling or exchanging products, services and information through computer networks is called
- E-commerce
52. E-commerce is not suitable for
- Online Job Searching
53. An e-business that allows consumers to name their own price for product and service is following which e-commerce model
- C2B
54. Most individuals are familiar with which form of e-commerce ?

- B2C
55. Which Process can Prevent data from lose due to computer problems or human errors?
- Backup
56. The ability of a court to exercise power beyond its territorial limits refers to -----
Jurisdiction.
- Extra Territorial Jurisdiction
57. The practice of forging a return address on an e-mail, so that the recipient is fooled into revealing private information is termed as?
- Spoofing
58. What software detects and removes computer viruses
- Antivirus
59. In internet terminology IP means
- Internet Protocol
60. The right, power, or authority to administer justice by hearing and determining controversies is referred to as?
- Jurisdiction
61. What scrambles the contents of a file so you can't read it without having the right decryption key?
- Encryption
62. collecting personal information and effectively posing as another individual is known as
- Identity Theft
63. The method of hiding -----in such a way as to hide its substance is called encryption
- Plain-text
64. Territorial Jurisdiction Refers to Jurisdiction over cases arising in or involving persons residing within a -----.
- defined territory
65. in --- both ends must agree upon a single shared key for encryption and decryption of messages and keep the key secret between them
- Symmetric Encryption
66. The first Cyber regulation in Pakistan was -----.
- Electronic Transaction Ordinance
67. What is "A" Stands for in CIA triad?
- Availability
68. What is "C" Stands for in CIA triad?
- Confidentiality
69. Who Protects system from external threats?
- Firewall
70. All the legal and regulatory aspects of the Internet and its user are defined in the term
- Cyber Law
71. A website is being accessed by referencing a ----- that identifies the site
- Uniform resource locator (URL)
72. ----- Cipher technique uses "shift by 3" rule in encrypting the plain text. • Caesar
Cipher

Question No. 01: How many sections are included in Electronic Transaction Ordinance 2002?

- 43
- 10
- 53
- 23

Question No. 02: What is an encryption system that uses two keys: a public key that everyone can have and a private key for only the recipient?

- Encryption
- **Public key encryption**
- Intrusion-detection software
- Security-auditing software

Question No. 03: According to Electronic Crime Bill 2007 what is the imprisonment of “Unauthorized access to code” Offense?

- 6 Years
- **3 Years**
- 3 Months
- None of the above

Question No. 04: What scrambles the contents of a file so you can’t read it without having the right decryption key?

- **Encryption**
- Intrusion-detection software
- Security-auditing software
- All of the above

Question No. 05: What is the fine of “Defamation” Offense according to Electronic Crime Bill 2007? ➤ 5000

- 50,000
- **5 Lac**
- 7 Lac

Question No. 06: Public key encryption uses multiple keys. One key is used to encrypt data, while another is used to decrypt data. The key used to encrypt data is called the _____ key, while the key used to decrypt data is called the _____ key.

- Encryption, decryption
- Private, public
- Encryption, public
- **Public, private**

Question No. 07: The term Cyber Law is referred to as the legal and regulatory aspects of the _____ and its _____. ➤ Users, Internet

- **Internet, Users**
- Digital data, Generators
- Internet Service Provider, User

Question No. 08: According to Electronic Crime Bill 2007 what is the imprisonment of “Electronic Fraud” Offense?

- 1 Year
- 10 Months
- **7 Years**
- 7 Months

Question No. 09: What is the Fine of “Cyber Terrorism” Offense according to Electronic Crime Bill 2007? ➤ 1 Million

- **10 Million**
- 10 Thousand
- None of the above

Question No. 10: What is the Fine of “Cyber Spamming” Offense according to Electronic Crime Bill 2007? ➤ 50,000

- 35,000
- 5 Lac
- None of the above

CS201 Midterm Preparation Part 1 BY PIN2 And MUHAMMAD (MAS All Rounder)

1. Cyber security refers to the technologies and processes designed to protect computers, networks and data from unauthorized access and attacks delivered through the Internet by cyber criminals.
2. Protecting computer system and information from unauthorized access or destruction / abuse.
3. Security deal with three primary issues, called the CIA triad.
4. Confidentiality Assurance that only authorized user may access a resource.
5. Integrity Assurance that resources has not been modified.
6. Availability Assurance that authorized user may access a resource when requested.
7. Protecting information in the digital age requires constant caution to deter thieves who would steal financial, proprietary, and personal identification data.
8. Cyber security is necessary since it helps in securing data from threats such as data theft or misuse, also safeguards your system from viruses.
9. Security measures provides full security services to balance the needs of providing information to those who need it with taking action to mitigate the dynamic threats posed by cyber thieves and cyber terrorists.
10. Your home computer is the popular target for intruders.
11. We can use our computers to attack other computers on the internet.
12. Intruder attacks home computer because it is not very secure and easy to break into.
13. They do attack your computers by send us a E-mail with virus.
14. Trojan horses are such programs which are used as the back doors.
15. A Virus is a "program" that is loaded onto your computer without your knowledge and runs against your wishes.
16. Virus can reach to our computer through CD-Rom.
17. Virus can reach to our computer through E – mail.
18. Virus can reach to our computer through Websites.
19. Virus can reach to our computer through download files.
20. Install a security suite that protects the computer against threats such as viruses and worms.
21. Handle E- mail attachments carefully.

CS204 Midterm Preparation BY PIN2 And MUHAMMAD (MAS All Rounder)

CS201 Midterm Preparation Part 1 BY PIN2 And MUHAMMAD (MAS All Rounder)

22. A person who secretly gets access to a computer system in order to get information, cause damage, etc.
23. Hackers attack where they see weakness.
24. A system that hasn't been updated recently has flaws in it that can be taken advantage of by hackers.
25. Regularly update your operating system.
26. Install Anti virus software's.
27. The word "malware" comes from the term "Malicious software."
28. Malware is any software that infects and damages a computer system without the owner's knowledge or permission.
29. Download an anti-malware program that also helps prevent infections.
30. Activate Network Threat Protection, Firewall, Antivirus.
31. Trojan horses are email viruses that can duplicate themselves, steal information, or harm the computer system.
32. These viruses are the most serious threats to computers.
33. Security suites, such as Avast Internet Security, will prevent you from downloading Trojan Horses.
34. Password attacks are attacks by hackers that are able to determine passwords or find passwords to different protected electronic areas and social network sites.
35. Maintain current software and updates.
36. Never share passwords.
37. Do not click random links.
38. Do not download unfamiliar software off the Internet.
39. Log out or lock your computer.
40. Remove unnecessary programs or services.
41. Frequently back up important documents and files.
42. Protects system against viruses, worms, spyware and other unwanted programs.
43. Protection against data from theft.
44. Protects the computer from being hacked.
45. Simple and practical prevention methods are explained in the lesson to prevent PCs from infection.

CS 204

Lesson: 1

Q1: Cybers :-

cybers can be used as, cyber attack, cyber security and cyber bullying.

The word "cyber" means Involving of network.

Cyber attack → attack by using internet.

Cyber security → Security on Internet.

cyber bullying → Internet bullying.

Q.2

Cyber Society:-

Focuses on construction, maintenance and facilitation of community in electronic networks and computer mediated communication.

Q.3

Cyber Culture:-

The use of world wide web by people are group of people for the exchange of social expectations, custom, history and language also called cyber culture.

→ WWW is the collection of electronic documents.

→ Each electronic documents on the web is called

Q.4

Components of Cyber Culture:-

- Internet
- Website.
- E-Mail.
- Blog.
- Online chat
- E-Commerce.
- Social networks.

Q.5

Internet:-

- The network formed by the co-operative interconnection of a large number of computer networks.
- No one owns the Internet.
- There is no central administration to the Internet.
- Community of people.
- Collection of resources.

Q.6

Website:-

- A location connected to the Internet that

- web Pages are the building block of the website.
- web Pages includes documents like text, audio and graphics etc.

Q.7

E-Mail

- E-Mail (Electronic Mail).
- Electronic mail most commonly called email.
- E-mail is most widely used in internet.
- Messages that are sent electronically from one computer to another as E-mail.

Q.8

Blog:-

A blog is a discussion or informational site published on the world wide web consisting of discrete entries is called blog.

Q.9

Online Chat:

Any kind of communication over the Internet that offers a real time transmission of text messages from sender to receiver is called

Q.10

(i) Unable to examine Product Personally.

(ii) Communication Improvement.

(iii) Not everyone is connected to the Internet.

(iv) Possibility of credit card number theft.

Q.15

E-commerce Safety Tips:-

i) Protect your Personal information

ii) Make sure the site is genuine.

iii) check out the sellers.

iv) Turn your computer off when your shopping finished.

Lesson. No. 3

Q.1

Cyber Crimes:-

Any crime that involves a computer, mobile and a network. Computer may be used as weapon for crime.

Q.2

Categories of Cyber crime:-

- i) Crime against Individuals.
- ii) Crime against Property.
- iii) Crime against Government.

Q.3

Cyber crime against Individual:-

This type of cyber crime can be in the form of hacking, Identity theft, cyber bullying and cyber stalking etc.

Q.4

Cyber Crime against Property:-

In the real world criminal can steal and rob, even in the cyber criminals resort

Q.5

Cyber Crime against Governments

This category is not as common as the other two categories, crime against a government are referred to as cyber terrorism.

In this category, criminals hack government websites, and military websites.

Q.6

Types of Cyber Crime :-

- Hacking.
- Software Piracy.
- Cyber stalking.
- Malicious Software.
- Identity theft.
- Cyber Bullying.
- Email spamming and spoofing.
- Computer vandalism.

Q.7

Hacking :-

Hacking in simple term means illegal access into a system.

Permission of the computer owner.

Q.8

Software Privacy:

This crime occurs when a person violates copyrights and unauthorized copying of software.

Q.9

Cyber Stalking:-

The crime in which the attacker harassed or threaten a victim using electronic communication. Such as e-mail and instant messages (IM).

Q.10

 - v) Never send your credit cards number.
 - vi) Avoid sending any Photograph online to the strangers.
 - vii) Do not open mails from strangers.
 - viii) Do not respond to harassing or negative messages.
 - ix) Learn more about Internet Privacy.
 - x) Keep your operating system up to date.
-

Lesson NO. 4

Q.1

Cyber Security:-

Cyber security refers to the technologies and processes designed to protect computer, networks and data from unauthorized through the Internet by cyber criminals is called cyber security.

Q.2

Security deals three primary issues

- Confidentiality
- Integrity
- Availability

Q.3

Confidentiality:-

Assurance that they only authorized users may access a resource.

Q.4

Integrity:-

Assurance that resources has not been modified.

Q.5

Availability:-

Assurance that authorized users may access a resource when requested.

Q.6

Why Intruders attack home computers:

Not very secure.

Easy to break.

Q.7

Major Security Problems:-

- Virus and worms
- Hacker.
- Malware.
- Trojan Horses.
- Password Cracking.

Q.8

Virus and worms:- with Solution:

A virus is a program that is loaded onto your computer without your knowledge and runs against your wish.

Solution:-

Handle E-mail attachment

Q.9

How many ways that virus can reach your computer:-

- CD-Rom
- E-mails
- Websites
- Downloaded files.

Q.10

Malware with solution:-

The word malware comes from the term Malicious software.

Malware is any software that infects and damages a computer system without the owner's knowledge or permission.

Solution:-

- Activate network
- Threat Protection
- Firewall.
- Antivirus.

Q.11

Password Cracking:-

that are able to determine Passwords or find Passwords to different Protected electronic area.

Solution: Use always strong Password.

Q.12

Things to do for Protecting your computer

- i) Use security software.
- ii) Never share Passwords.
- iii) Do not click random links.
- iv) Maintain current software and updates.
- v) Log out or lock your computer.
- vi) Do not download unfamiliar software.

Q.13

Advantages of Cyber security:-

- Protects system against viruses & worms.
- Protection against data from theft.
- Protect the computer from being hacked.
- Minimizes computer freezing.
- Gives Privacy to users.

CS201 Midterm Preparation Part 1 BY PIN2 And MUHAMMAD
(MAS All Rounder)

65. Lesson. No:5

Cryptography

The method of hiding Plain texts in such way as to hide its substance is called as cryptography.

Q.2

Caesar's Cipher :-

ABCDEFGHIJKLMNOPQRSTUVWXYZ and sliding the everything up by 3.

It becomes

DEFGHIJKLMNOPQRSTUVWXYZABC.

B = E

C = F and so on--

Q.3

Conventional Cryptography:-

Plaintext $\rightarrow$ encryption $\rightarrow$ Ciphertext $\rightarrow$ Decryption $\rightarrow$ Plaintext

67.

68.

uv/td fa

data that is not going anywhere.

Lesson No: 6

Q.1

Cyber Law:-

Cyber law refers to all the legal and regulatory aspects of the internet and its users.

Q.2

Role of law and lawyers:-

The 1st rule of management is delegation consultancy.

Subject matter expert.

A blend of law and technology.

Uncited law 1966.

Modern law of E-commerce 1996.

E-Signatures 1996.

Resolution Policy 1998:

DMCA 1998

EUCD 2001

Q.3

Cyber Regulation in Pakistan:-

- The electronic transaction ordinance 2002.
- Prevention of electronic crime ordinance 2008.

Lesson. NO. 7

Q.1

Cyber Law in Pakistan:-

There are two different law in Pakistan. Deals with crime of Internet. Two of them most common are.

- Electronic transaction ordinance 2002.
- Electronic cyber crime Bill 2007.

Q.2

Electronic transaction ordinance 2002

- First IT-relevant legislation.
- Protection for Pakistan e-commerce

- Protect Pakistan critical infrastructure.
- No recognition of electronic documents.
- No recognition of electronic records.

Q.3

PRE (ETO), 2002:-

- No recognition of electronic documents.
- No " " " " records.
- Failure to authenticate digitally.
- No online transaction system.
- No rules for all of these.

Q.4

POST - (ETO), 2002.

- Electronic documentation and record recogni
- Electronic and digital form of authenticate
- Messages through E-mail, fax and mobile
- There are 43 section in this ordinance

Q.5

43 Section in ETO 2002

- Recognition of electronic documents.

→ Electronic communication

- Digital signatures.
- Stamp duty.
- Attestation.
- Jurisdiction.

Q.6

violation of Privacy Information:-

- i) Gain or attempts to gain access
- ii) To acquire information unauthorized.
- iii) Imprisonment 7 Years.
- iv) Fine RS. 1 million.

Q.7

Damage to Information System:-

- Alter, modify, delete, generate and transmit.
- Create hindrance in Information access.
- Imprisonment 7 Years.
- Fine RS. 1 million.

Q.8

Electronic cyber crime bill 2007:

This bill deals with

Data

Electronic fraud

Electronic forgery

Cyber terrorism

Cyber spamming

Cyber Stalking

Punishment

Fine

(i) Data damage

3 Lac

3 Yrs

(ii) Electronic fraud

7 Lac

7 Years

(iii) Electronic forgery

7 Lac

7 Yrs

(iv) Cyber Stalking

3 Lac

3 Yrs

(v) Spamming

50,000

6 month

(vi) Cyber terrorism

10 million

(vii) Spoofing

3 Lac

3 Yrs

Lesson NO. 8

Q.1

What is Jurisdiction:

The right, Power or authority to administer Justice by hearing and determining controversies.

Q.2

TYPES of Jurisdiction:-

- Territorial Jurisdiction
- Extra Territorial Jurisdiction
- Cyber Jurisdiction.

Q.3

Territorial Jurisdiction:-

Jurisdiction Over cases arise in our involving Persons residing within a territory as territory.

Q.4

Extra Territorial Jurisdiction:-

It refers to court ability to exercise power beyond its territorial limits.

Q.5

Cyber Jurisdiction:-

A virtual approach defining the cyber world beyond the boundaries of nation states enforcement of cyber law uniformly accepted.

Q.6

Cyber dispute conflict:-

A tense situation between nation states or organized groups where unwelcome cyber attacks may result in retaliation.
