Quiz 1

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Quiz 1

1. In which kind of lab students are given freedom to develop their own experiments instead of merely, following prescribed guidelines from a labor? Open Ended
2. What is this technique called whereby a computer is used to present the instructional material? CAI
3. Which of the following best define learning aids? Any device or aid that assists self-learning or group learning
4. Computer that process both analog and digital is called: Hybrid computer
5. What is the storage capacity of floppy disk? 1.44
6. The process that happens with any new information (word, picture, concept) there is in your mind until that thing is placed within the cognitive schematics of your brain. Friction
7. When a teacher presents a lecture in class; the assumption is that there is some _____. prior knowledge
8. _____ enables computers to communicate via telephone lines. They connect computers to the Internet. Modem
9. Which software can be used for giving presentation ? MS PowerPoint
10. Which type of files can not be navigated using clipboard browser? MP3
11. Which one is the application that resides on a user's computer, but sends requests to a remote system to execute a designated procedure using arguments supplied by the user? Client application
12. The book, "Applying science of learning" was written by: Richard E. Mayer
13. A System that enables you to browse online services is called: WAP
14. Software used to recognize text from image is called a: Text recognition tool
15. Which of the following is the abbreviation of BSD? Berkeley Software Distribution
16. Which of the following is capable of transmitting many different signals at the same time without interfering with one another? Broadband System
17. What does the reduction in size of an image file called? Compression
18. According to jean Piaget, teacher acts as: Facilitator
19. In combination of technology, constructivist learning can be useful to make the task economical, convenient, and possible in the: Classroom
20. Which of the following type of pen enables handwriting on screen? Light pen
21. Professor miles was the supervisor of: Islam al saeed
22. Internal or private network of an organization based on internet technology (such as hypertext and protocols) and accessed over the internet is called which of the following? Intranet
23. How we can move the insertion point in a table? Up arrow and down arrow keys
24. Which of the following cannot be done with document version? None of the above
25. Which of the following displays images from the computer, it enables us to see, work and control computers? Monitor
26. Image quality depends on the strength of which of the following components of Graphics? Processor and Memory
27. What power does teaching possess? Power to create a healthy and peaceful world
28. Internet or private network of an organization based on internet technology (such as hypertext and protocols) and accessed over the internet is called which of the following: Intranet

Quiz 1

29. Which of the following is mainly used for recording sound, communication between players in online games, in combination with a web camera in video conferencing, for converting voice into text on a computer? Microphone
30. A collection of direct links to predefined web pages which are stored in your web browser can be termed as which of the following? Bookmarks
31. What is the feature of "word wrap" in Microsoft office? to moves text automatically to the next line when necessary
32. What I admire most about your art is its universality. You do not say a word, and yet the world
33. Surface patterns on works of art created in the _____ have been prized for centuries for their beauty, refinement, harmony intricacy and complexity. Islamic world
34. From which markup language did HTML evolve? SGML (Standard Generalized Markup Language)
35. understands you! This quotation was said for: Einstein
36. Currently, the capacity of one layer of Blue-ray disc- the successor to DVD is between _____. 27 GB and 33 GB
37. Which of the following is the most integral part of learning? Understanding
38. Metropolitan Area Network is an extension of which of the following? LANs
39. Brigham Young University's virtual chemistry lab is currently serving one hundred and thousand students throughout the country. 50
40. _____ is the first hypertext document to be shown when a user follows a link to the web server. Home page
41. Which of the following is a fixed disk? Hard disk
42. Which one of the below is a fee-based service, offers access to more than 500 databases, primarily in the sciences and social sciences, from which the library can create customized Bibliographies? Computer Search Service
43. Which of the following is regarded as the amount of memory needed to store one character such as a letter or a number? Bytes
44. Which of the following software is a program that allows users to perform different tasks or for problem solving? Application
45. If one side of square is one, the its area will be: One square meter
46. This is a serious flaw with_____, that the answer may be correct but its understanding is absent: Multiple choice questions
47. Which of the one is light-sensitive device for measuring colors by filtering their red, green, and blue components, as in the human eye? Colorimeter
48. What field of study does Don Atwood belongs to? Ecological anthropologist
49. Which one of the following interface enables dynamic web pages and the ability to do database queries and other complex operations across the web? Common Gateway
50. Which of the following needs to be understood between teachers and students in terms of learning? Disconnection
51. Which type of school are not possible due to lack finances and resources? Brick and Mortar schools
52. Which of the following is used to represent the color in each pixel of an image? Bit depth

EDU430_Information Technology in Education
Quiz 1

53. An increase or reduction in the number of pixels in an image, required to change its resolution without altering its size is called as _____ . Resampling
54. What does the abbreviation, "MISTE" stands for? Master in Innovative Technologies in Education
55. Which function of teaching transfers knowledge, ideologies, theories, principles and attributes from one generation to the other? Transmitive
56. Which of the following is defined as starting up a computer via the power switch? Booting
57. The compression / decompression software component which translates video between its uncompressed form and the compressed form in which it is stored on media (disk, etc.) is called? Codec
58. Which of the following has the aim to develop the intellectual powers in a given direction? Instruction In which way the knowledge has usually passed? Generation to generation
59. Which of the following calculations software is used for performing various calculations and presentation of results in charts? Spreadsheet
60. Which of the following device converts sound into an electrical signal, which can be stored on a computer? Microphone
61. According to George Bernard Shaw all the progress in society is based on these people. One who can adapt themselves to _____ and as such are rewarded with _____. Societal Norms & Material Success
62. Which of the following has the aim to transform a man and his personality? Teaching
63. Which of the following area networks are networks with in a single building or campus or up to a few kilometers in size? Local
64. Which of the following is a small capacity memory that allows quick access to data? Cache
65. Which of the following is used to load data (image, text, etc.) from the printed material into a computer? Scanner
66. Piaget's concept of constructivism relates to his studies on how knowledge is internalized and how people _____ that knowledge Learn
67. From left side remove the word in MS word: back space
68. _____can occur while working on a task, playing a game, reading a book. Immersion
69. Homework is based on progress of individual and it is modified according to the abilities of students. This is a brief glimpse of: the school of tomorrow
70. A network of computers and other devices that is connected wireless and is a confined to a relatively small space is called? Local area network
71. Which of the following is a modern system for annotating a document in a way that is distinguishable from the text? Markup language
72. Which one of these called brain of computer, as it translates instructions and performs calculations? Central processing unit (CPU)
73. Educational Informatics is the study of the application of digital technologies and techniques to the use and _____ of information in learning and education. Communication
74. Which one of the below is an overall color imbalance in an image, as if viewed through a coloured filter? Colour Cast
75. _____ drive is used for reading CD media. CD-ROM
76. Which of following is the number of information units transmitted per second? Bps

Maha Malik's Compilation

EDU430_Information Technology in Education
Quiz 1

77. Which of these interfaces is work to facilitate the mouse as an input device? GUI
78. If a coin is tossed, what will be probability of heads or tail: 50%
79. Which of the following retains the information when the power to the system is turned off? ROM
80. Children learn by constructing _____bit by bit and layers by layer. Knowledge
81. Which of the following is regarded as an academic computer network? BITNET
82. DNA means: De-oxy ribo nucleic acid
83. Which is the latest version of Microsoft Word? 2010
84. A proper teaching with the inclusion of_____is transpiring; a thing which unfortunately not present in most elite institutions in the country: Instant feedback
85. Which of the following is a process in which frequently accessed data is kept on hand, rather than constantly being from the place where it is stored? Caching
86. Which is one type of objective type questions that created misconceptions sometimes? Multiple choice questions
87. Which of the following enables you to access information on the Internet through the World Wide Web? Browser
88. Which function of teaching is to preserve and protect the old values, customs, beliefs, traditions,? Preservative
89. Instructions or programs that tell hardware what to do are known as _____. Software
90. Which of the following port is used to connect a local printer? Parallel port
91. A program which is located in a separate ROM on the motherboard is called _____. BIOS
92. The four types of mail merge main documents are: Form letters, envelops, mailing labels and catalogue
93. MS office provides help in many ways. Which of these are closer to the answer? Help menu
94. Curiosity and a seemingly unrelated observation can lead to a great: Understanding
95. Which of the following type of monitor is based on cathode tube technology? CRT
96. If a circle is divided into two halves then_____quadrant will be formed. Four
97. In past fifty years, most of the school are focusing on: Both a and b
98. A program which is located in a separate ROM on the motherboard: BOIS
99. Which of the following is a file containing some information stored on a web server? web page
100. The basic instruments for constructing geometrical designs are: all of above
101. Memory card is a type of which of the following memory used to store data in digital cameras, cell phones, and MP3 players. Flash
102. Which of the following enables computers to communicate via telephone lines by connecting computers to the Internet? Modem
103. Marvin Minsky used artificial intelligence ton understand and explain: Learning
104. The term _____implies the application of science to art. Technology
105. Temporary memory of computer is _____RAM
106. Which of the following drives is used for reading CD media? CD-ROM
107. _____is a false message being spread by e-mail in order to deceive users. HOAX
108. Which of the following is mainly used in computer games? Joystick
109. The future learning will be based on the textbooks prepared: all of above
110. Which is not consisted in a processor? Memory

Maha Malik's Compilation

Quiz 1

111. ATM stands for_____ Automated Teller Machine
112. If a cylinder is filled with water and a sphere is put in it, then the volume of water displaced: Two third
113. ICT is concerned with storage, retrieval, manipulation, transmission or reception of data. Digital
114. Combination of technology pedagogy and content is bigger challenge in: Pakistan
115. Which of the following components are considered vital in the learning process? Memorization and understanding
116. MS word 2007 allows creation of which type of documents by default? DOCX
117. Einstein pointed out that, the only source of knowledge is _____Experience
118. According to Cobun (1968), what percentage of audio information can a person remember? 20
119. Which of the following drive is used for reading CD media? CD-ROM
120. What is the foundation of the economy and a driving force of social changes in the 21st century? Information and Communication Technology
121. Which function of teaching provides opportunities to recognize and restructure human experiences? Progressive
122. Transfer of information from one place to another through different electronic and optical equipment is termed as_____. transit of data
123. What is the sequence of events in the working principle of a computer? Input, processing, output
124. Which of the following is equal to 8 bits of digital information? Byte
125. The most important advantage of a video disk is: Potential capacity
126. The Islamic art and culture has_____basic dimensions Three
127. All modern computers operate on_____ data
128. Where does the phrase "Teaching Teachers: What kids are not learning" appears? Newsletter
129. Which of the following bars display in the word application window by default? Formatting tool
130. What is the storage capacity of floppy disk? 1.44MB
131. Most important piece of hardware is: CPU
132. Which of the following is used to describe an illustration or font file in an image? Bit map
133. How to view smaller text on the screen you can? Decrease the view percentage
134. Metropolitan Area Network is an extension of which of the following? MANs
135. CCD stands for? Charge coupled device
136. Which concept can be combined with technology to make the learning meaningful? All of the above
137. Which of the following is a software differentiation between upper and lower case characters? Case-dependent
138. An integrated, micro-electrical light sensing device built into some image capturing device, what does this device called? Charge coupled
139. Which of the following depends on the strength of graphics processor and memory of graphic card? Image quality

Quiz 1

140. Feedback allows us the _____of self-correcting and adaptability in context of further learning. Flexibility
141. _____ is used for connecting computers and audio-video devices in the system. Firmware
142. All of these are examples of storage devices Except ? Motherboard
143. Which of the following is a programme and a computer clubbed into one entity which responds requests for internet sources? Web Server
144. Islam Al Saeed was died in December: 1988
145. Ctrl + v stand for_____. Paste
146. Currently, the capacity of one layer of Blue-ray disc the successor to DVD is between: 27 GB and 33 GB
147. Which of the following boards is used for making announcements and displaying news items? Bulletin board: 1GB is equal to: 1024mb
148. Which of the following port is used to connect a local printer? Parallel port
149. In addition to text, what else can be described as hypertext with hyperlinks? Tables, images, and other elements
150. 1 MB (megabyte) = 1024KB
151. What underlying concept defines the structure of the World Wide Web? HTML
152. Which of the following is an area of RAM reserved for data recently read from disk? Cache Memory
153. In which manner rays of the sun fall on the earth when the tilt of the earth remains constant? Parallel
154. Which of the following is a unit of measurement that represents one figure or character of data? Bit
155. What is small capacity memory called which allows quick access to data? Cache
156. HTML codes are also known as _____ HTML Tags
157. Which one of these is the most important piece of hardware? CPU
158. Which of the following software is used for creating and forming text documents and nowadays, they can contain images, charts and tables? Text processing Software
159. Which of the following has the aim to develop the intellectual powers in a given direction? Instruction
160. A table: Is a grid organized in columns and rows.
161. When you see cone from bottom? What shape you see? circle
162. A_____ Experience which can also be replicated during examinations. The purpose of the activities to increase the relation of students. Collaborative
163. Which of the following is the basic unit used to measure the amount of information: Bit
164. Which of the following bars display in the word application window by default? Formatting tool
165. Command use for Cut: Ctrl + x
166. Which of the following is a program which manages computer hardware? Operating system
167. The probability of guessing is higher in what type of questions: Multiple choice questions
168. Animation _____and artificial reality are also critical. Technology

Quiz 1

169. The ability of students to learn and control their own learning process is called as _____. Meta learning
170. Which of the following is the basic unit used to measure the amount of information: Bit
171. Which of the following is NOT a search engine? Firefox
172. In integration_____of many infinitesimal elements are taken. Sum
173. Which of the following scientists through his thought experiment imagined Black Holes through the relevant mathematics? Einstein
174. Animation, artificial reality, and which of the following are also critical? Technology
175. Which of the following experiment can become the basis of a very powerful design of collaborative, interactive learning applications? Thought
176. Which of the following is a mistake, or unexpected occurrence, in a piece of software or in a piece of hardware? Bug
177. Which one of the below is a file sent to a web browser by a web server that is used to record one's activities? Cookies
178. Which university does "Don Atwood" works in? McGill University
179. Transfer of information from one place to another through different electronic and optical equipment is termed as _____.flow of information
180. Art may be a stimulus for exploring concepts of: Both a and b
181. 1 GB is equal to: 1024 megabytes
182. Which of the following is the best way to protect your hard drive data? Backup
183. A convenient small sized computer can term in which of these? PALM
184. Term software refers to _____ Computer program
185. Which of these is used for data entry and issuing commands? Keyboard
186. Name of Font menu: Home
187. Memorization and understanding are both components of the_____ Process. Learning
188. MS office related tool bar_____status bar
189. A normal CD-ROM usually can store up to_____ data? 680 MB
190. Which of the following is a fixed disk? Hard Disks
191. A/An _____ lab is where the students are given the freedom to develop their own experiments instead of merely, following prescribed guidelines from a labor. Open Ended
192. What does ICT stand for? Information and Communication Technology
193. Which of the following is defined as a collection of related pages on particular information? Website
194. Cd rom stands for_____ Compact Disc Read-Only Memory
195. A program that allows users to perform different tasks or for: Application software
196. Which of the following boards is widely used and teaching cannot be successful without its proper use? Black board
197. Which of the following are the physical tools used to convey information in the classroom? Teaching aids
198. The networks which are connected within a single building or campus or up to a few kilometers in size is referred to as: LAN
199. Which one of these is the most important piece of hardware? Motherboard

Quiz 1

200. Which one of the below is defined as the components that make up a computer system? Configuration
201. Who said "if you have a thousand students, they will not make a thousand separate mistakes"? Ashraf Iqbal
202. In which of the following, the headline, "They have a mind of their own" appeared? Harvard Gazette
203. How we can move the insertion point in a table? Tab Key
204. In terms of pedagogy a multiple approach to the _____ is encouraged. same problem
205. Teach children to ask their _____ questions. Own
206. Which kind of memory is used to store data in memory card? Flash
207. According to _____ theory, learning happens with the help of experience Cognitivist
208. What is URL_____. uniform/universal resource located
209. Omar Khayyam was famous for: Mathematics
210. Which of the following boards is large plastic board suitable for writing and drawing? Marker board
211. What does ROM stand for? Read Only Memory Which of the following drive is used for reading CD media? CD-ROM
212. Which of the following is input as well as output device at the same time? Touch screen
213. What will be the probability of answer if the students are asked, "Will the sun rise tomorrow? 99.99%
214. What causes the variation in the seasons of the earth? Tilted
215. Which of the following describes a manner in which communication between devices is defined? Protocol
216. Memory card is a type of _____ memory used to store data in digital cameras, cell phones, and MP3 players. Flash
217. Which of these types is oldest type of printer? Dot matrix
218. What does IT stand for? Information Technology
219. To view smaller text on screen u can_____Increase the view percentage
220. Short cut for Replace: Ctrl + z
221. A song being played on computer speaker is: Soft output
222. Ms Office provides help in many ways. Which of these are closer to answer? All of above
223. Which of the following is a programme that allows a user to display and interact with 'hypertext' documents? Web browser
224. What is HTML primarily used for in web development? Developing web pages
225. Which one of the below can store text, graphics, objects, and other data? Clipboard
226. Which one is the method of running an executable script or program from a Web server? Common Gateway Interface (CGI)
227. When did a mars size body collided with the earth? 4.5 billion years ago
228. Using find command in MS Word, you can search: All
229. Which of these better describe the word software? Computer programs
230. What does a good teacher prepare students for? competitive environment
231. Which type of the following can be presented in the forms of games or files in email attachments? Trojan Horses

EDU430_Information Technology in Education
Quiz 1

232. Educational informatics is the study of the application of digital technologies and techniques to the use and _____ of information in learning and education. Communication
233. Which is a valid statement? 1kb= 1000 bytes
234. Which of the following software is specifically designed for creating professional presentations with slides containing graphical and textual element? Openoffice.org Impress
235. Which of the following is NOT an example of operating system? Microsoft Office
236. On a web page, a clickable image is any image that has a embedded in it. URL
237. Eric Mazur is a professor of_____at Harvard University. Physics
238. ATM stands for which of the following? automated teller machine
239. _____ may be associated in the preparation of teaching aids. Students
240. According to Jean Paige only _____ is capable of saving our societies from possible collapse, whether violent or gradual. Education
241. Which of the following port is used to connect a mouse? Universal Serial Bus
242. On July 5, the distance of sun from the earth is: 94500000
243. Which of the following is used for connecting computers and audio-video devices (digital cameras, etc): Firmware
244. Which of the following device is used for sound creation and production by means of computer speakers? Sound card
245. Which is the one management system that ensures color uniformity across input and output devices so that final printed results match original? CMS
246. What does EMIS stands for? Education Management Information Systems
247. Omar Khayam was also a famous _____Mathematician
248. Computer is an electronic device, which process the data with the help of _____: Programs
249. RAM stands for: Random Access Memory
250. Which bar located below the bar categorized option? Menu bar
251. _____is a term that implies free software use (trail) for a specified time period. Shareware
252. Technology is growing at a phenomenal rate and we need to catch-up with it and utilize it along with an appropriate: Pedagogy
253. Which course professor Eric Mazur taught in Harvard University? Introductory Physics
254. What does NOT exist between technology, pedagogy, content, innovation and entrepreneurship in Pakistan? Convergence
255. The abbreviation PDF Stands for: Portable Document Format
256. What is the key or combination of keys to move the cursor page to page of documents? Ctrl + Page Up
257. Which of the following retains the information it's storing when the power to the system is turned off? ROM
258. Which of the following is NOT a principle of teaching aid? Management
259. Which of this process is called when one is connecting with prior knowledge? Cognitive process
260. Sun can be seen in summer with the naked eye around at time? 19 pm
261. Is used to describe the internal main memory of a computer: Volatile memory
262. Web technology is employed in calculating: Area
