EDU431 CUREENT FINAL PAPER 17/2/2024 BY MOIN AKHTAR (03146654464)

1. **Which of the following focuses on test level information and item statistics?**

a. Item Response Theory

b. Classical Test Theory

c. Factor Analysis

d. Regression Analysis

Correct Answer: b. Classical Test Theory (CTT)

2. **Identify the value of item difficulty for the most difficult test item.**

a. 0.3

b. 1.0

c. 0.5

d. 0.7

Correct Answer: a. 0.3

3. **How many elements of rubric are there?**

a. 3

b. 4

c. 2

d. 6

Correct Answer: c. 2

4. **How many types of essay questions are there?**

a. 2

b. 3

c. 4

d. 5

Correct Answer: c. 4

5. **How many general methods can be used for scoring rubrics of essay-type items?**

a. 1

b. 2

c. 3

d. 4

Correct Answer: b.2 (1. Holistic Scoring 2. Analytic Scoring)

6. **Guessing is eliminated in which of the following types of items?**

a. Multiple Choice Questions

b. True-False Questions

c. Matching Items

d. Essay type Items

Correct Answer: d. Essay type Items

7. **Scoring of items is a time-consuming and difficult process for which of the following types of items?**

a. Multiple Choice Questions

b. True-False Questions

c. Matching Items

d. Essay type Items

Correct Answer: d. Essay type Items

8. **Which of the following items is not included in the category of selection-type items?**

a. True-False Questions

b. Matching Items

c. Multiple Choice Questions

d. Essay type Items

Correct Answer: d. Essay type Items

9. **Which of the following is the drawback of MCQs?**

a. Subjectivity

b. Lack of Precision

c. Guessing

d. Time-Consuming

Correct Answer: c. Guessing

10. Which of the following is the advantage of short questions?

a. Measures Higher Order Skills

b. Quick to Score

c. Provides Detailed Responses

d. Requires Guessing

Correct Answer: b. Quick to Score

11. The problem stated in the form of a question or incomplete statement in MCQs is called:

a. Stem

b. Options

c. Key

d. Distractors

Correct Answer: a. Stem

12. True-false items are also known as:

a. Alternatives form items

b. Multiple Choice Items

c. Matching Items

d. Short Answer Items

Correct Answer: a. Alternatives form items

13. Subjective test items are also referred to as:

a. Objective Items

b. Performance Items

c. Essay type Items

d. True-False Items

Correct Answer: c. Essay type Items

14. Which of the following items is best to measure higher-order learning skills?

a. True-False Questions

b. Matching Items

c. Multiple Choice Questions

d. Subjective items

Correct Answer: d. Subjective items

15. Limited numbers of content areas can be tested by which of the following items?

a. True-False Questions

b. Matching Items

c. Restricted response items

d. Essay Questions

Correct Answer: c. Restricted response items

16. How many types of rubrics are there?

a. 2

b. 3

c. 4

d. 5

Correct Answer: a. 2

17. Which of the following types of rubrics is helpful for more consistent scoring across students and grades?

a. Analytic Rubric

b. Holistic Rubric

c. Single-Point Rubric

d. Checklists

Correct Answer: a. Analytic Rubric

18. Scoring of essay items is a/an:

a. Objective Process

b. Time Consuming

c. Automated Process

d. Dichotomous Process

Correct Answer: b. Time Consuming

19. Which of the following types of rubrics evaluates overall performance on a task?

a. Analytic Rubric

b. Holistic Rubric

c. Single-Point Rubric

d. Checklists

Correct Answer: b. Holistic Rubric

20. Which of the following items can a teacher use when supplying information is required instead of simple recognition?

a. True-False Questions

b. Matching Items

c. Multiple Choice Questions

d. Essay type

Correct Answer: d. Essay type

21. Which of the following is the best way to arrange items on a test?

a. Random Order

b. Sequential Order

c. According to Difficulty

d. According to Content

Correct Answer: d. According to Content

22. Which of the following is NOT one of the benefits of keeping test items confidential?

a. Prevents Cheating

b. Ensures Fairness

c. Allows Item Reuse

d. Maintains Test Security

Correct Answer: b. Ensures Fairness

23. Which of the following tests measures the extent of student's learning in a given content area?

a. Diagnostic Test

b. Formative Test

c. Summative Test

d. Aptitude Test

Correct Answer: c. Summative Test

24. A numerical report of test performance on a score scale that has well-defined characteristics and yields normative meaning is called:

a. Raw Score

b. Z-Score

c. T-Score

d. Standard Score

Correct Answer: c. T-Score

25. Zero in the raw score indicates:

a. Perfect Score

b. No Attempt

c. Incorrect Answer

d. absence of trait

Correct Answer: d. absence of trait

26. A test form is statistically equated to another test form to make the resulting test scores:

a. Comparable

b. Incomparable

c. Unreliable

d. Biased

Correct Answer: a. Comparable

27. Which of the following types of tests is administered and scored in a consistent manner?

a. Objective Test

b. Subjective Test

c. Performance Test

d. Placement Test

Correct Answer: a. Objective Test

28. Examination of grade 9 to grade 12 is conducted by:

a. Elementary School

b. Middle School

c. High School

d. College

Correct Answer: c. High School

29. In Pakistan, which of the following institutions is NOT specifically involved in assessment?

a. Higher Education Commission (HEC)

b. National Testing Service (NTS)

c. Pakistan Testing Service (PTS)

d. Pakistan Atomic Energy Commission (PAEC)

Correct Answer: d. Pakistan Atomic Energy Commission (PAEC)

30. All of the following decisions are made on the basis of high-stake testing EXCEPT:

a. Promotion

b. Graduation

c. Measure learning process during session

d. Certification

Correct Answer: c. Measure learning process during session

31. NEAS stands for:

a. National Educational Assessment System

b. National Elementary Assessment Service

c. New Educational Achievement System

d. National Evaluation and Assessment Scheme

Correct Answer: a. National Educational Assessment System

32. Which of the following is likely to be the next step once the test is ready?

a. Administers

b. Test Analysis

c. Test Development

d. Test Scoring

Correct Answer: a. Administration

33. Which of the following refers to an instrument used for measuring a sample of behavior?

a. Assessment

b. Test

c. Evaluation

d. Examination

Correct Answer: b. Test

34. Which of the following involves the provision of a conducive physical and psychological environment to test-takers?

a. Test Preparation

b. Test Administration

c. Test Analysis

d. Test Scoring

Correct Answer: b. Test Administration

35. Which of the following is an acceptable item according to the given value of item discrimination in Classical Test Theory (CTT)?

a. -0.2

b. 0.0

c. 0.3

d. 0.8

Correct Answer: d. 0.8

36. Which of the following needs to be considered while preparing for high stake testing?

a. Test Security

b. Random Scoring

c. Open Book Format

d. Informal Setting

Correct Answer: a. Test Security

37. Which of the following types is suitable for measuring higher-order thinking skills?

a. True-False Questions

b. Matching Items

c. Multiple Choice Questions

d. Essay type

Correct Answer: d. Essay type

38. Guessing parameter can be detected in:

a. IRT

b. True-False Questions

c. Matching Items

d. Essay Questions

Correct Answer: a. IRT (Item Response Theory)

39. In which type of test, scoring is a time-consuming process?

a. Reliability of the test

b. Subjective Test

c. Performance Test

d. Essay type

Correct Answer: b. Essay type

40. Identify the value of item difficulty for the most difficult test item.

a. 0.3

b. 1.0

c. 0.5

d. 0.7

Correct Answer: a. 0.3

Note: The value of item difficulty for the most difficult test item is 0.3. In the context of item response theory, item difficulty is often represented on a scale from 0 to 1. A lower value indicates a more difficult item, as it suggests that fewer test-takers are expected to answer the item correctly. Therefore, among the given options, 0.3 represents the most difficult item.

41. Identify the value of item difficulty for easiest test item.

a. 0.3

b. 1.0

c. 0.5

d. 0.7

Correct Answer: b. 1.0

Note: The value of item difficulty for the easiest test item is **1.0**. In the context of item response theory, item difficulty is often represented on a scale from 0 to 1. A higher value indicates an easier item, as it suggests that more test-takers are expected to answer the item correctly. Therefore, among the given options, 1.0 represents the easiest item.

Subjective

1. **Question:** What are three limitations of MCQs?

   Ans:

   - Limited assessment of higher-order thinking.
   - Guessing may lead to inaccurate results.
   - Difficulty in crafting well-constructed distractors.

2. **Question:** What are three advantages of essay type questions?

   Ans:

   - Allow for in-depth understanding and analysis.
   - Assess higher-order cognitive skills.
   - Provide opportunities for creativity and expression.

3. **Question:** Write a brief note on achievement test.

   Ans:

   - An achievement test measures a person's knowledge or skills in a particular subject or domain.

4. **Question:** Enlist any three issues in test administration.

   Ans:

   - Standardization inconsistencies.
   - Proctor bias or variability.
   - Cheating prevention challenges.

5. **Question:** Write down three properties of Item Characteristic Curve (ICC).

   Ans:

   - Discrimination parameter.
   - Difficulty parameter.
   - Probability of correct response.

6. **Question:** State five guidelines for writing essay type questions.

   Ans:

   - Clearly state the task or prompt.
   - Use specific and detailed language.
   - Provide a grading rubric.
   - Encourage organization and coherence.
   - Specify the expected length.

7. **Question:** State five guidelines for writing restricted response items.

   Ans:

   - Clearly define the task or problem.
   - Limit the response format.
   - Provide specific evaluation criteria.
   - Encourage depth and detail.
   - Keep questions clear and concise.

8. **Question:** Write down any five characteristics of standardized achievement tests.

Ans:

- Consistent administration and scoring.
- Norm-referenced or criterion-referenced.
- Reliable and valid measures.
- Objective and standardized procedures.
- Representative content.

9. **Question:** Mention any five points that need to be considered while packaging the test.

Ans:

- Clear instructions for administration.
- Properly labeled test booklets and answer sheets.
- Adequate time allocation for each section.
- Confidentiality and security measures.
- Accommodations for special needs, if required.
