

PSY406

Quiz for Mid-Term

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Educational Psychology

PSY406_Educational Psychology
Quiz for Mid-Term

1. A good teacher assess the students thoroughly and it includes: (Assessment of emotional intelligence and motivation; Background assessment; Academic assessment; **All of the above**)
2. Self-regulation is important for the good teacher. **(True)**
3. Educational psychology is the study of how people learn. **(True)**
4. Learning process is confined to the classroom only. **(False)**
5. In Pakistan the culture has been divided as: (**rural and urban**; modern and ancient; black and white; good and bad)
6. One of the Fringe Benefit of Self-Regulation is that the output of an individual increases by: (17%; 37%; 47%; **27%**)
7. Researches have shown in various countries including Pakistan that leaders are _____. (none of them; **made**; both; born)
8. Subject matter remains static and do not change. **(False)**
9. Self-management includes: (Evaluation of oneself; Goal setting; Self reinforcement; **All of them**)
10. A good teacher has the following quality: (He communicates to the intelligent students only; He lacks the command on the subject; He underestimate the students; **He knows his students**).
11. In-depth study of an individual, group and institute is known as: (All of them; Experimental study; **Case study**; Correlational study)
12. Teaching machines have developed for the learning of children by whom? (Freud; Pavlov; Tichner; **Skinner**)
13. The variable manipulated by the experimenter is termed as: (**independent variable**; dependable variable)
14. In experimental studies the sample is usually divided into two groups: experimental group and _____. (reward group; central group; reinforcement group; **control group**)
15. The simplest research method of gathering information in educational psychology is: (all of the above; experimental studies; correlational studies; **descriptive studies**)
16. Following nation have worked for the development of the field of educational psychology: Russians and _____. (Pakistani; Chinese; Indian; **Americans**)
17. Ivan Pavlov conducted experiments on which animal predominately? (pigeons; monkeys; **dogs**; cats)
18. According to the researchers "spoon feeding" is a good practice for learning. **(False)**
19. Correlation can be positive and negative. **(True)**
20. In educational psychology principles of the learning are emphasized. **(True)**
21. In public sector institution in Pakistan a teacher must have at least a bachelor degree and a _____ degree. (M.Ed.; Intermediate; **B.Ed.**; Matric)
22. In developed foreign countries teacher is required to hold a membership in: (non-professional association; professional session; non-professional session; **professional association**)
23. In America and Europe the teacher must be a _____. (**reflective PR practitioners**; reflective HR practitioners; reflective BR practitioners; reflective CR practitioners)

PSY406_Educational Psychology
Quiz for Mid-Term

24. A statistical process that combines the data of multiple studies to find common results and to identify overall trends is termed as: (pet-analysis; **meta-analysis**; beta-analysis; gamma-analysis)
25. The examination body of the professional teacher in America is termed as: (INSTAGRAM; **INTASC**; INSTINCT; INCOME)
26. During _____ orientation stage, a child's moral development is determined by social standards. (**Social approval**)
27. When the expert students are interested to know the fact about how the things are going to operate they are more likely to use (**Conditional knowledge**)
28. Which of the following studies establish a relationship between two or more variables? (**Correlational**)
29. Punishment and reward both effect the process of learning. (**True**)
30. Internationally for becoming a teacher professional qualification is required. (**True**)
31. A prospective teacher should not be aware of the current debate and issues related to the effective teaching practices. (**False**)
32. Who among the following psychologist puts forward the concept of observational learning: (**Bandura**)
33. Who among the following focused on constructivist view of learning (**Vygotsky**)
34. How many developmental stages proposed by Erik Erikson? (**Eight**)
35. Teachers should be aware of the changes in the laws related to education and teaching. (**True**)
36. Participant observation is an important type of _____ research. (**Descriptive**)
37. _____ development is related to bodily changes from the time of conception to adulthood. (**Physical**)
38. When we exert more effort in order to transfer the previous learning into a new situation it is called (**high Road transfer**)
39. Physical punishment is allowed in Pakistan especially in Punjab province in education and teaching sector. (**False**)
40. Which of the following type of development is not the scope of educational psychology? (physical development; cognitive development; social development; **eco-friendly development**)
41. The area of brain that coordinates balance like walking and standing is termed as: (thalamus; cerebellum; **cerebrum**; hippocampus)
42. Anna, 1-year old baby girl develops a sense of trust when mother provides care to her. She is more likely at _____ stage. (**Trust vs. Mistrust**)
43. If a teacher taught an idea to student and the student further explained it to other students (**Ripple effect**)
44. Which of the following is not the general principle of development. (gradual development; **immediate development**; continuous and variable rate of development; orderly development)
45. Brain is an organ and _____ is its function. (hearing; vision; smell; **mind**)

PSY406_Educational Psychology
Quiz for Mid-Term

46. Which hemisphere performs a vital role in language development of an individual? (right hemisphere; left hemisphere)
47. What is the required qualification for becoming a prospective teacher in Pakistan? (B.A plus B.Ed.)
48. Identify the factor which is not a key ingredient of observational learning (Functional fixedness)
49. In Piaget's cognitive developmental stages, the stage after Sensorimotor is called: (Preoperational)
50. All of the following are the ingredients that should be kept in mind while summarizing the material except (It should be lengthy)
51. _____ refers to a person's psychological sense of being either male or female. (Gender Role)
52. INTASC is an abbreviation of _____. (Interstate New Teacher Assessment & Support Consortium)
53. In Piaget's cognitive developmental stages, the stage after Sensorimotor is called: (Preoperational)
54. _____ refers to the belief in one's ability to get success in specific situations (Self efficacy)
55. All of the following are the characteristics of good summary except (It comprises of a relevant material)
56. During _____ level of moral reasoning, a person's judgment is based upon others approval and principles (Post-Conventional)
57. Brain is divided into left hemisphere and right hemisphere. (True)
58. Development of thinking patterns, mind, values, morality, problem solving strategies, etc are the example of physical development. (False)
59. A person develops in a complete isolation whether he is in a nuclear or joint family system. (False)
60. A child begins to imitate others at which stage of cognitive development. (Sensorimotor Stage; Preoperational Stage; Formal Operational Stage; Concrete Operational Stage)
61. When parents live with their children only, then this type of family is termed as: (Joint family; Nuclear family)
62. What is the age range of child at preoperational stage of cognitive development? (Birth to 2 Years; 2 Years to 7 Years; 11 Years to Adulthood; 7 Years to 11 Years)
63. A child can solve abstract problems at which stage of cognitive development? (Formal Operational Stage; Concrete Operational Stage; Sensorimotor Stage; Preoperational Stage)
64. A child learns to think in symbolic form at which stage of cognitive development? (Sensorimotor Stage; Concrete Operational Stage; Preoperational Stage; Formal Operational Stage)
65. How to tie your shoes laces is an example of which type of memory (Procedural)

PSY406_Educational Psychology
Quiz for Mid-Term

66. A child starts to classify objects and thinks logically at which stage of cognitive development? (Concrete Operational Stage; Formal Operational Stage; Sensorimotor Stage; Preoperational Stage)
67. _____ is a learning process in which children interact with others in order to solve a problem. (Co-construction)
68. Upon the excellent result of his class, Mr. Ali treated himself with a delicious lunch with his family. This reflects: (Self-reinforcement)
69. Hira knows very well how to bake a cake and necessary steps which entails this is an example of which type of knowledge (Procedural)
70. _____ stage begins at birth and continues up to two years of a child's age. (Sensory-motor)
71. Age range of child at formal operational stage is from 11 Years to Adulthood. (True)
72. Sensorimotor stage is a fourth stage of child's cognitive development. (False)
73. Age range of child at sensorimotor stage is from 7 Years to 11 Years. (False)
74. Jean Piaget introduced four stages of child's cognitive development. (True)
75. Who thinks that self-talk plays an important role by making children plan and guide them? (Piaget; Vygotsky)
76. A teacher should _____ self-talk among students. (encourage; disregard; discourage; ignore)
77. Vygotsky believe that a child learns by a dialogue and _____ with other members of society. (Emotion; Interaction; Challenge; Action)
78. The theory proposed by Vygotsky is termed as: (Cognitive Theory; Developmental Theory; Sociocultural Theory; Biological Theory)
79. Life expectancy of cancer patients' _____ by using positive self-talk. (decreases; increases; remains same; minimizes)
80. Children learn by imitation and the process of internalization occurs as proposed by Vygotsky. (True)
81. _____ refers to the force that acts on or within an individual to initiate and direct behaviour (Motivation)
82. _____ studies describe the nature of the observed phenomenon. (Descriptive)
83. Which of the following part of the brain is involved in learning and forming new memories? (Hippocampus)
84. According to Piaget, self-talk can also be named as: (Egocentric Speech)
85. Ali tries to remain honest because he believes that misreporting can defame which ultimately will cause of embarrassment of his family? This is an example of which of the following stage of morality? (Conventional)
86. Culture and society play no role in the learning of a child according to Vygotsky. (False)
87. Vygotsky was a Russian Psychologist who worked in the field of child psychology. (True)

PSY406_Educational Psychology
Quiz for Mid-Term

88. Isolation is the developmental crises of which stage of development of Erickson? (Intimacy versus Isolation Stage; Ego integrity versus Despair Stage; Identity versus Role Confusion Stage; Generativity versus Stagnation Stage)
89. The age range of a child at Trust versus Mistrust Stage is: (Birth to 6 months; Birth to 18 months; Birth to 24 months; Birth to 12 months)
90. Each stage of development given by Erickson poses a particular problem, that he termed as: (Developmental crises; Developmental dispute; Developmental phase; Developmental issue)
91. Age range of a person at Industry versus Inferiority Stage is: (3 years to 6 years; 1.5 years to 3 years; Birth to 1.5 years; 6 years to 12 years)
92. Generativity versus Stagnation Stage comes at which age range? (Late Adulthood; Early adulthood; Middle Adulthood; None of these)
93. Ego integrity versus Despair Stage is the 1st stage of Erickson's developmental stage. (False)
94. Erick Erickson proposed that a person passes through eight stages of development. (True)
95. The developmental crises at 2nd stage of development is inferiority. (False)
96. A student with high positive self-concept would tend to put in greater effort in learning and mastering subjects. (True)
97. Intimacy versus Isolation Stage is the 2nd stage of development. (False)
98. Third level of moral development of Kohlberg theory is: (Conventional Moral Reasoning; None of the above; Post-Conventional Moral Reasoning; Pre-conventional Moral Reasoning)
99. In the Asian cultural tradition; more emphasis is laid upon _____. (Individualism; Collectivism)
100. Kohlberg theory has how many levels of moral development: (One; Four; Two; Three)
101. According to Kohlberg which factors affect the moral development of a person? (Both; None of these; Peer relationship; Self-esteem)
102. The sum total of the principles that govern the person's behavior are termed as: (Mentality; Totality; Conceptuality; Morality)
103. When a person's judgment is based upon other's approval and other people's principles, then it is termed as: (Conventional Moral Reasoning; Post-Conventional Moral Reasoning; Pre-conventional Moral Reasoning; None of the above)
104. Post-Conventional Moral Reasoning has been subdivided into two stages: _____ and Universal Ethical Principle Orientation. (Biological contract orientation; Ecological contract orientation; Moral contract orientation; Social contract orientation)
105. Lawrence Kohlberg theory of development is related to: (Biological development; Moral development)
106. Kohlberg's Theory of Moral Development has six stages. (False)
107. Misbehavior is universally considered as good practice. (False)
108. When a person practices aggression against another person to gain possession of any object, it is termed as: (Hostile Aggression; Instrumental Aggression)

PSY406_Educational Psychology
Quiz for Mid-Term

1109. Teacher should know whether the reason for lower performance of a student is due to any learning disability or any other factors are involved. (True)
1110. Upon the excellent result of his class, Mr. Ali treated himself with a delicious lunch with his family. This reflects: (Self-reinforcement)
1111. Ali is a taxi driver and now he is transferring his learning for driving the truck; this is known as what? (Low load transfer)
1112. You want to train your pet dog to check your emails. First you reinforce your pet for looking in the direction of the computer, then for approaching and so on in small steps. This is an example of what? Shaping when the previous learning is transferred to a new situation without much effort it is called (low Road transfer)
1113. Language is an example of which of the following culture? (Non-material culture)
1114. Who among the following developed a teaching machine for children in order to learn new concepts? (Skinner)
1115. _____ refers to the changes that occur in human beings from conception till death. (Development)
1116. Following are the traits of a prospective teacher except: (Dictating personal beliefs)
1117. Ali hit Ahad with a punch and snatched a cookie from his hand. This reflects: (Instrumental aggression)
1118. _____ teachers are those who critically examine their teaching experiences by comparing them with their colleagues. (Prospective)
1119. A child first sit, then develops an ability to stand and then to walk and so on. This is an example of which of the following? (Orderly development)
1120. _____ theory proposed that child development is dependent on his/her interaction with more expert adults and his/her culture. (Socio-cultural)
1121. Psychologist treat phobias by using _____ learning. (Enactive)
1122. _____ is defined as values, norms, and traditions that guide and determine the behavior of a group of people. (Culture)
1123. Let's suppose children are able to speak and read in both Urdu and English languages. This is referred to as: (Bilingualism)
1124. Which of the following lobe of brain is involved in movement, decision-making, problem solving and planning? (Frontal lobe)
1125. When an experiment is conducted on only one subject; it is referred as _____. (Single subject experimental design)
1126. _____ is the final stage of Piaget theory which begins at 11 years of age and continues up to adulthood. (Formal operational)
1127. Roads, bridges, and overhead are the examples of which type of culture? (Material)
1128. All of the followings are the characteristics of an expert student except (They get easily distracted from the studies)
1129. When we use different procedures to solve a particular problem we are more likely to use knowledge: (Conditional)

PSY406_Educational Psychology
Quiz for Mid-Term

130. According to Vygotsky, _____ private speech may lead towards terminal illnesses such as cancer. (Negative)
131. Amna pushed Bushra on her way towards the swing and ran speedily to sit on it. This reflects: (Hostile aggression)
132. During _____ aggression, a person inflicts harm on the other person. (Hostile)
133. Which of the following process is involved; when an individual observes and replicates another's behavior? (Imitation)
134. _____ is a famous developmental psychologist who worked extensively on the children's cognitive development. (Jean Piaget)
135. During _____ aggression, a child slaps his classmate upon stealing his measurement scale. (Overt)
136. _____ occurs when a person is unable to use tools in a new way (functional fixedness)
137. Which of the following type of culture emphasized on the physical environment of a nation? (Material)
138. Who discovered the theory of relativity? Maxwell Einstein Skinner Pavlov "Society plays a pivotal role in the development of children." This view has been given by: (Freud Piaget Maslow Vygotsky)
139. Which of the following statement is correct about Educational Psychology? (It studies the learning processes and emphasizes on the interaction between students and teachers)
140. Amna, a 25-years old woman is interested in her co-worker. She wants to marry with him in order to build an intimate relationship. She is more likely at _____ stage. (Intimacy vs. Isolation)
141. Ali refuses to read when his teacher asks him to read. This clearly indicates that he has: (Bad reading habits)
142. If a student learns mathematical principles and then use that information is comprehending the physics laws is known as (Transfer of learning)
143. Asma learns New recipes by watching her mother cooking different delicious dishes. In this condition who is the role of model (Mother)
144. Which part of the brain is involved in face recognition, spatial and visual processing? (Right)
145. Ali, a 3-years old child is able to practice toilet training without becoming dependent on significant others. He is more likely at _____ stage. (Autonomy vs. Shame and doubt)
146. If a child is unable to control his pitch, having inappropriate quality of sound like monotone then he is suffering from: (Voicing disorder)
147. If a teacher reviews his teaching on a regular basis; this is called _____. (Self-regulated teaching)
148. Albert bandura famous psychologist is most closely associated with (Observational learning)

PSY406_Educational Psychology
Quiz for Mid-Term

149. Social contract orientation is one of the stages of _____ level. (Post-conventional)
150. Which of the following stage, starts from birth and continues till two years of age? (Sensorimotor Stage)
151. Ali studies the architect, textiles, and paintings of Pakistani culture. He is probably studying _____. (Material)
152. Amna, a 5 years old girl is curious to learn and explore new things. She gets appreciation by her parents while making her own choices. She is more likely at _____ stage. (Initiative vs. Guilt)
153. When an individual responds in an old similar manner into new situation he probably exhibit its (Response Set)
154. Ali has become isolated because his fellows make fun of him when he says “thustine instead of sunshine”. Ali is suffering from _____. (Articulation disorder)
155. Which of the following is NOT a level of morality proposed by Kohlberg? (High conventional)
156. A student from low socioeconomic status believes that he is not able to perform well in school because he already has failed in last exams. This is known as: (Learned helplessness)
157. Which of the following is NOT an important element of vicarious learning? (Apprehension)
158. In _____ view of the learning human beings are not passive learners (Constructivist)
159. Children who watch _____ program on television become more aggressive than others. (Violent; Non-violent; Domestic; International)
160. Hostile aggression is subdivided into following categories: (Instrumental Aggression; None of these; Active Aggression; Both of these)
161. If a person maintains ones rights with confidence, the intention is not to hurt or damages the other, then this is termed as: (Assertiveness; Challenging; Aggression; Cheating)
162. Teachers should encounter the problems of aggression and cheating behaviors of students. (True)
163. Researches have investigated that males are more indulged in cheating than females. (True)
164. In general, aggression can be subdivided into three categories. (False)
165. Teachers cannot eliminate the cheating behavior of children. (False)
166. Modelling is an important factor in making a child to learn assertiveness or aggression. (True)
167. Labelling a student in a negative manner by a teacher can _____ a student. (Develop; Improve; Stigmatize; Enrich)
168. An ability or a set of abilities to acquire and use knowledge for solving problems and adjusting to the world. (Humiliation; Stigma; Intelligence; Self fulfilling Prophecy)
169. A judgment or prediction which comes out to be true. (Aptitude; Intelligence; Stigma; Self-fulfilling Prophecy)
170. Nature has distributed all abilities equally among all the students. (False)

PSY406_Educational Psychology
Quiz for Mid-Term

171. Intelligence of the student can be inherited and acquired. (True)
172. Labelling a student by the teacher should be banned. (True)
173. A teacher CANNOT nourish and improve his students by increasing student's motivation to learn and acquire. (False)
174. If a student may omit or add a word from his/her own side while reading, then this is termed as: (Bad reading habit; Comprehension error; Word recognition error; Hyperactive)
175. Which of the following is NOT the sign of learning disability of a student assessed by a teacher? (Alertness; Word recognition error; Comprehension error; Bad reading habit)
176. Students, with learning disabilities may come to believe that they cannot solve their problems themselves; it is a sign of: (Unlearned helplessness; Learned strengths; Learned helplessness; Unlearned strength)
177. What are the causes of learning disabilities of a child? (Complication in growth; All of these; Genetics; Brain injury)
178. Nature has bestowed each student with same level of intelligence and abilities. (False)
179. Public laws DO NOT exist in the USA and Pakistan that regulate the diagnosis, assessment, and teaching of students with disabilities. (False)
180. Teachers should NOT be very careful in labeling a student of victim of any learning disability. (False)
181. Slurred speech is also a sign of learning disability. (True)
182. Impaired memory is also a sign of learning disability of a child. (True)
183. Articulation problems and _____ are the two most common problems. (Voicing problem; Stuttering; Language disorder; All of these)
184. Speech related and other issues are more prevalent in which age group of the children? (0 years to 2 years; 6 years to 11 years; 11 years to 16 years; 2 years to 6 years)
185. A teacher can encourage gifted student by: (Giving same home task; All of these; Encouraging abstract thinking; Expecting routine answers)
186. Stuttering generally appear in children at what age? (Between the ages of 7 and 8; Between the ages of 5 and 6; Between the ages of 3 and 4; Between the ages of 9 and 10)
187. A type of speech impairment, include speaking with an inappropriate pitch, quality or loudness or in a monotone, is termed as: (Voicing problems; Non-voicing problems)
188. Articulation disorders includes the following symptoms: (Substituting one sound for another; Distorting a sound; Adding or omitting a sounds; All of these)
189. About 50% of school-age children have some form of speech impairment in USA. (False)
190. In about 50% of the cases, stuttering disappears during early adolescence. (True)
191. It is NOT the duty of a teacher to identify students with learning/communication problems and refer them to specialist and psychologist. (False)
192. How many major cultures are prevalent in Pakistan? (Four; Five; Six; Three)
193. When diverse cultural units emphasize their differences and work collectively to achieve a common goal, then this is termed as: (Cultural Conflict; Cultural Diversity; Cultural Compatibility; All of these)

PSY406_Educational Psychology
Quiz for Mid-Term

194. Non material culture includes: (Highways, open spaces, and gardens; The physical environment; Nation's or groups architecture; **Gestures and dress of individual**)
195. Cultural diversity may be observed at micro level and _____ level. (Meso; **Macro**; Mega; Meta)
196. Culture has a strong impact on the educational psychology. (**True**)
197. Pakistan is a country which is enriched with various diverse cultures. (**True**)
198. Micro level is the larger level of expression of culture. (**False**)
199. Which factor is NOT the cause of low academic achievement? (**High Socioeconomic Status**; Learned Helplessness; Poor Health Care; Low Self Esteem)
200. Higher the socioeconomic status the higher would be the _____. (Muscle; Height; Weight; **Power**)
201. Parents of which socioeconomic class, talk more to their children and provide them more guidance. (**Upper and Middle Class**; Lower and Upper Class; Lower and Middle Class; Lower Class Only)
202. A psychological condition associated with feelings of lost control and feeling that a student cannot have a good academic achievement no matter how hard he works is termed as: (**Learned helplessness**; Unlearned helplessness)
203. Categorizing students according to their abilities is termed as: (Learned Helplessness; Self-Esteem; Peer Influence; **Tracking**)
204. Development is the construction of thought processes including decision making and problem solving. (**Cognitive**)
205. Which of the following refers to the image which an individual has of himself or herself as masculine or feminine? (**Gender role identity**)
206. Ali starts fighting with his class fellow Akbar to get the pen. This is an example of _____. (**Instrumental aggression**)
207. Culture is one factor influences the educational psychology and the other factor is socioeconomic factor. (**True**)
208. Culture is defined as the knowledge, values, attitudes and traditions that guide and determine the behavior of a group of people. (**True**)
209. Government surveys show that our poor students do not access to clean drinking water so access to pens, pencils, calculators and computers is even more difficult. (**True**)

211. Which of the following is NOT the average characteristics of men? (Assertive; Aggressive; **Emotionally Sensitive**; Active)
212. The difference in view of males and females that often favors one gender over the other, is termed as: (Gender Role Identity; **Gender Bias**; Sex Discrimination; Language Differences)
213. People with a "_____" identity would rate themselves high on characteristics usually associated with females, such as "sensitive". (Masculine; **Feminine**)
214. Some school curriculum manifest gender bias. (**True**)

PSY406_Educational Psychology
Quiz for Mid-Term

215. Language and dialects have a profound influence on the educational process. (True)
216. The word gender refers to traits and behaviors that a particular culture judges to be appropriate for men and for women. (True)
217. Women on average are assertive, aggressive and active. (False)
218. If a teacher conveys and teaches biased views about different genders, then this is an acceptable behavior. (False)
219. Changes simply caused by _____ such as growing taller or turning gray do not qualify as learning. (Maturation; Fragmentation; Saturation; Pigmentation)
220. The experiment conducted by Ivan Pavlov is known as _____ experiments. (Operant Conditioning; Classical Conditioning)
221. If a teacher regards a child as less intelligent and resultantly the child lags behind in academics thus providing proof that he/she indeed is not a good student. It is called _____. (Self-fulfilling prophecy)
222. Studies describe the nature of the observed phenomenon. (Descriptive)
223. Who among the following emphasized the importance of the cultural environment in order to understand a person's development? (B.F. Skinner)
224. A process through which experience causes a more or less permanent change in one's knowledge and behavior is termed as: (Memory; Learning; Attention; Cognition)
225. In ABC sequence of learning, "C" stands for: (Cause; Concern; Collaboration; Consequence)
226. When a reinforcer is presented at definite time intervals, then it is termed as: (Ratio Schedule; Interval Schedule)
227. Aristotle believed that learning takes place by the following factors: (All of these; Contiguity; Contrast; Similarity)
228. Aristotle was a _____ philosopher. (Greek; Pakistani; American; Russian)
229. Bell in experiments conducted by Pavlov on dogs is: (Conditioned Stimulus; Unconditioned Stimulus)
230. Skinner identified four conditions of learning. (True)
231. A good teacher SHOULD NOT be aware of the basic principles of learning. (False)
232. What is the purpose of using educational technology? (Control behavior of students; Change behavior of students; Impart better instructions; All of these)
233. "Stealing is a crime and I cannot commit it." Which level of Kohlberg's theory of moral development is operational in this case? (Conventional)
234. Punjabi women prefer Shalwar Kameez over other dresses, while Sindhi women prefer Ajrak frocks in their clothing. This difference belongs to _____ level of culture. (Micro)
235. Amir believes that as he is a boy he should express aggressiveness whenever and wherever it is needed. This reflects Amir's: (Gender Role Identity)
236. A system where students earn tokens for good academic work is termed as: (Tray Economy; Toy Economy; Train Economy; Token Economy)

PSY406_Educational Psychology
Quiz for Mid-Term

237. Following techniques can be used by the teachers to improve the behavior of students: (Token Economy; Behavior Shaping; Behavior Modification; **All of these**)
238. To encourage positive behavior in his students, a teacher can: (Avoid giving instructions to student; Avoid talking to student; **Giving rewards for positive behavior**; Delay in giving feedback)
239. The application of behavioral learning principles to change behavior of students in classroom and laboratories is termed as: (Partial Behavior Analysis; Practical Behavior Analysis; **Applied Behavior Analysis**; Automatic Behavior Analysis)
240. A technique in which a teacher reinforces each small step of progress taken by his students towards a desired goal. (**Behavior Shaping**; Token Economy)
241. There is only ONE way to give punishment to students. (**False**)
242. To encourage behavior is to reinforce it. (**True**)
243. Learning difficulties normally occur due to the malfunctioning of: (**Central nervous system**)
244. The ability to acquire knowledge and possible utility of that knowledge in order to solve the problems is known as: (**Intelligence**)
245. How many developmental stages are proposed by Erik Erikson? (**Eight**)
246. Educational Psychologists DO NOT use principles of experimental psychology to modify behavior of their students. (**False**)
247. Desirable behavior is directed towards desirable goal. (**True**)
248. Learning by observation is termed as: (**Vicarious Learning**; Enactive Learning)
249. Voluntary self-regulation can be learned by: (Practicing self-regulated behavior; **All of these**; Observing, watching and imitating; Direct teaching)
250. Bandura says that _____ elements play an important role in vicarious learning. (Two; Five; Three; **Four**)
251. Social cognitive theory is based on two major factors i.e., Enactive Learning and _____. (**Vicarious Learning**; Active Learning)
252. Bandura's early work focused on _____ behaviors and was labeled social learning theory. (Somatic; **Social**; Cognitive; Physical)
253. When an experiment is conducted on only one subject; it is referred to as (**Single subject experimental design**)
254. Which of the following type of culture expresses in the form of language and customs? (**Non-material**)
255. The concept of self-regulation and its relationships with learning is put forth by: (Skinner; Pavlov; Bandura; **Zimmerman**)
256. Bandura's early work on learning was based in behavioral principles of reinforcement and _____. (Socialization; **Punishment**; Redistribution; Cognition)
257. Learning by doing is termed as: (**Enactive Learning**; Vicarious Learning)
258. Bandura believed that traditional behavioral views were accurate, but incomplete. (**True**)
259. Self-regulation is that it must be carried by fear of punishment. (**False**)

PSY406_Educational Psychology
Quiz for Mid-Term

260. The correct order of four cognitive processes of learning are: (Retrieval, storage, encoding, attention; **Attention, encoding, storage, retrieval.**)
261. Gathering information, and organizing it in relation to what you already know, is termed as: (**Encoding**; Retrieval; Storage; All of these)
262. The process of attaching meaning to sensations is called: (Learning; Cognition; Memory; **Perception**)
263. Noticing parts of sensation and then making a whole of it is termed as: (Top down processing; **Bottom up processing**)
264. Getting the information from store house when needed is termed as: (All of these; Storage; **Retrieval**; Encoding)
265. Early information processing views of memory used the _____ as a model. (Workstation; Laptop; Tablet; **Computer**)
266. In which of the following stages does a child develop an "if-then" pattern of thinking? (**Formal Operational Stage**)
267. During a quarrel, Bilal punched Usman as he insulted him. This is an example of _____ aggression. (**Hostile**)
268. There are a number of theories of memory, but the most common are the _____ processing explanations. (Data; **Information**; News; Record)
269. Memory is NOT one of the important factors that affect learning of students. (**False**)
270. The Atkinson- Shiffrin believes that the human senses are bombarded by stimuli all the time. (**True**)
271. Attention is the process through which we choose to focus to certain stimuli and ignore other stimuli. (**True**)
272. The knowledge that contains verbal information facts, figures etc., is known as: (Episodic Knowledge; Procedural Knowledge; **Declarative Knowledge**; Conditional Knowledge)
273. The storage time of short term memory is usually: (Between 20-25 Seconds; **Between 15-20 Seconds**; Between 5-10 Seconds; Between 10-15 Seconds)
274. The information which is acquired, stored and used in particular situation, is termed as: (General Knowledge; **Domain- Specific Knowledge**)
275. A segment of overall memory storage where information, material or contents are held for only a short time, it is known as: (Long Term Memory; **Short Term Memory**)
276. A part of long term memory is the memory that we are not conscious of recalling is called: (**Implicit memory**; Explicit memory)
277. "M-M-M-M-My name is Akram" – saying this Akram introduced himself to the class. This relates to: (**Stuttering**)
278. Noman, an eighth grade student, thinks "No matter how hard I study for this test, I'll always get a bad grade." His thinking reflects _____. (**Learned helplessness**)
279. Initiative versus Guilt is the stage of psychosocial development consisting of the period of _____ years of age. (**03 to 06**)

PSY406_Educational Psychology
Quiz for Mid-Term

280. During the age range of _____ years a psychologist can easily diagnose a child with stuttering? (3 to 4)
281. When a person knows when and why to apply and use declarative and procedural knowledge, then this is termed as: (Episodic Knowledge; Conditional Knowledge)
282. The information acquired, stored and used in different kinds of tasks and situations, is termed as: (General Knowledge; Domain- Specific Knowledge)
283. The knowledge in action or knowledge about certain procedures is termed as: (Conditional Knowledge; Procedural Knowledge; Episodic Knowledge; Declarative Knowledge)
284. How did you win that cricket match from your rival team when you were in class eight? It is an example of which type of knowledge? (Conditional Knowledge; Episodic Knowledge)
285. Knowledge and learning are NOT related to each other. (False)
286. A _____ is a pattern or guide for representing an event, concept or skill. (Schema; Attention; Perception; Information)
287. The factors affecting our lecturing and educational process are: (Meta cognition; Story Grammar; All of these; Script and Schemata)
288. A teacher can help student in planning, monitoring and _____. (Synthesizing; Formulating; Evaluating; Making)
289. A typical general structure that could fit many specific stories, is termed as: (Story Prose; Story Novel; Story Grammar; Story Poetry)
290. _____ refers to the difference in view of males and females that often favors one gender over the other. (Gender bias)
291. Which part of the brain deals with spatial and visual processing? (Parietal hemisphere)
292. During _____ aggression, a child slaps his classmate upon stealing his measurement scale. (Instrumental)
293. An individual receives thousands of stimuli everyday but gives attention to only _____ of them. (Some; All; None of the above; Half)
294. Which ONE of the following actions of the teacher CANNOT make the students attentive? (Calling students by name; Using bright colors; Highlighting of written and spoken words; Using dull and boring colors)
295. Attention and perception are NOT the factors that affect the learning of a student. (False)
296. Perception is a process of attaching meaning to the sensation that we receive. (True)
297. Teacher, who CANNOT capture and hold attention of students can prove to be effective teachers. (False)
298. Putting the problem in clear unambiguous words, is termed as: (Working Backward Strategy; Discovery Learning; Analogical Thinking; Verbalization Process)
299. Which of the following is NOT the concept given by the Bruner? (Students must be active; Students must be passive)
300. The leaning strategy given by David Ausubel, is termed as: (Expository Teaching; Discovery Learning)
301. Algorithm is which type of problem solving? (General Strategy; Domain Specific)

PSY406_Educational Psychology
Quiz for Mid-Term

302. Jerome Bruner has given a learning strategy termed as _____ learning.
(Documentary; Summary; **Discovery**; Recovery)
303. When one limits the solutions for problems that are similar to one's at hand, then this is called: (All of these; Verbalization Process; **Analogical Thinking** ; Working Backward Strategy)
304. Language is an example of which of the following culture? (**Non-material culture**)
305. Ane refers to the changes that occur in human beings from conception till death. (**Growth**)
306. Asma teaches the grade 9th students. She expects better results from male students than females; she is more likely to exhibit _____. (**Gender bias**)
307. When a person draws specific conclusion from the general existing knowledge, then this is termed as: (**Deductive Reasoning**; Inductive Reasoning)
308. When one student with goal moves backwards to solve a problem, then this is termed as: (Expository Teaching; Analogical Thinking ; **Working Backward Strategy**; Verbalization Process)
309. In class room, teachers used to favor males over females. This indicates: (**Gender biasness**)
310. All of the following are the features of learning disabilities EXCEPT: (**Sharp memory**)
311. Heuristics are which type of problem solving? (Domain Specific; **General Strategy**)
312. Problem solving is finding new answers to reach a goal or creating new solutions to problems. (**True**)
