Quiz No 3+4

1: While using a Human Computer Interface, a general purpose computer relies on which of the following to perform an activity?

Hardware

Front interface (lec 27)

Software

None of the above

2: Which of the following best describes Innovation?

The thinking of novel ideas

The successful development of a new product

The management process of invention

The process of conception, development and commercialization

3: Virtual University Model provides e learning to the students all over the world regardless of their physical locations. Which of the following is not an advantage of studying in a virtual mode?

Scalability

Centralized examination

No instant feedback lec (30)

Teaching and testing resources are available to masses

4: Virtual University Model provides e-learning to students through ----------.

Internet

Broadcast television

Availability of CDs

All of the above

5. A teacher is planning to teach the students the concept of melting and dissolving through experiments. She wants the students to think critically during experiments, which of the following is a procedure for making rational decisions about the reality of effects.

Discovery
Fact
Evidence
Hypothesis

6: A teacher is teaching Science to grade 4, she is posing problems with a context relating to experimentation to check the understanding of students. Which of the following can be best achieved through hypothesis testing? Select correct option

Inquiry

Problem solving

Demonstration

Observation

7: A teacher is teaching mathematics to the students. She is posing different problems to the students in classroom to check their understanding of a concept. Which of the following is the right sequence of 4C Model of posing problems? Select correct option

Choices, Consequences, Context,

Challenges Consequences, Context, Choices,

Context, Challenges, Choices, Consequences (lec 26)

Choices, Challenges, Context, Consequences

8: A teacher is teaching 'Past Tense' to students of Grade 3. She is not asking questions in classroom. What could be the reason for not promoting questioning in the classroom?

They feel that they understand everything so completely that questions aren't necessary

They don't want to embrace themselves

They want to keep back the class with questions

All of the above

9: The purpose of the evaluation is to make?

Decision

Prediction

Judgment

Opinion

10 Every teacher sets a goal in the classroom for students learning. Which of the following helps the students to achieve their learning goals?

Feedback

Class test

Discussion

Meetings

11. A teacher is teaching science to the students. She will prepare a lesson plan in which she referred to as:

Activity-based process definition method

Task analysis

Process

Process mapping

12. If a teacher is teaching geometry to the students and she is not asking question. What

It requires a lot of skills on the part of the teacher

It encourage students participation

Provides teacher feedback

Participation engages student's interest

13. Instrument used for measuring sample of behavior is?

A. Test

B. Measurement

C. Assessment

D. Evaluation

14. Following are the advantages of learning in human computer interface except:

Hidden feature

Flexible

User friendly

Use fewer system resources

15. The use of technology to enhance learning process is called …….in education.

Information technology

Information communication technology

Information technology

Communication technology

16. Basic Human computer interface heuristics are:

Rate of responsiveness

Error recognition and communication

Interface feedback

All of the above

17. The purpose of the evaluation is to make?
A. Decision
B. Prediction
C. Judgment
D. Opinion

18. Visual system is a powerful tool for

Long term memory

Short term memory

Sensory memory

Conscious memory

19. If as a teacher, you discovered that your students needed greater opportunity to work on process skills you would structure lessons based on

The jigsaw Model

Interactive instruction

Discovery

Direct instruction

20. Khan academy provides online lecture to the students on hundreds of courses. Which of the following is not an advantage of learning through khan academy lecture?

Effective communicator

Easy to update the lecture

Instant feedback

Eliminates social interaction

21……….encourages motivation

Competition

Individual learning

Harmony

None of the above

22. Social interaction get enhanced by all of the following except

Communication

Collaboration

Cognitive pressure

None of the above

23. In conventional teaching, there is …

Accreditation

Assessment

Rules and regulation

All of the above

24. Teacher can improve educational outcomes of the students with physical disabilities by

Classroom arrangement with easy access to supplies

Working with professionals

Accommodation & encouragement

All of the above

25……is the important aspect to maximize students learning’

Teacher presence

Social presence

Cognitive presence

All of the above

26. The content developers of a school focus on all of the following EXCEPT

Learning theories

Content of other books

Personal working experiences

Level of understanding’

27. Problem-based learning differ from the presentation and direct instruction models of teaching in that the focus of PBL is--------

Presenting ideas

Demonstrating skills

Presenting concept

Facilitating investigation

28. When planning question, teacher must keep in mind

Course goals

Leading question

Aim for direct question’

None of the above

29. Assistive technology lets students have access to computer for learning by ….

Keyboard and mouse alternatives

Voice recognition software

Tablets

All of the above

30……..offers students support services to assist with functioning in the classroom

Inclusion

Accommodation

Modification

None of the above

31. The climate of social pressure is created through technology by

Online working sites

Online course website

Recorded lecture

All of the above

32. The variables of the social pressure are affected by……..

Generation change

Global change

Educational change

None of the above

33. Following are the types of narrative except

Logical narrative

Temporal narrative

Spatial narrative

Abstract narrative

34. Problem-based learning is characterized by------

An emphasis on investigation of real life situation

A highly structured learning environment

An emphasis on lifelong learning

A competitive task structure

35……in the schooling needs improvement

Books must be interactive

Transformation of the knowledge

Use of the smart devices

All of the above

36. In problems- based learning, the teacher's role is most similar to the teacher's role in------

Presentation

Direct instruction

Cooperative learning

Discussion

37. Average wait time in classroom for having answer from students is

1 second

2 second

3 second

4 second

38. Which of the following is not a criterion for a good problem situation?

It must be authentic

It must be clearly structured and defined

It must be appropriate to the student's level of development

It must be such that its solution will be benefited by group effort

39. Which of the following steps a school administration must take to improve the amount of learning?

Classroom assessment

Use of innovative tools

Focus on discovery

All of the above

40. Questioning is important for which of the following

Understanding to solve problems

Higher order thinking

Improving classroom practice

All of the above

41. Problem- based learning would be the most appropriate teaching method for which of the following topics?

Math facts

Learning to key the letters a and x

Minerals

Discrimination

42. Profiles wanted by apple and Google to hire employees include the ----------skills.

Innovation

Communication

Collaboration

All of the above

43. A teacher is asking questions in classroom on the basis of hypothesis testing. Which of the following reflects the true meaning of a hypothesis?

The operational definition of the results of the research

A qualitative research design

A tentative prediction of the results of the research

A quantitative study

44. The teacher gives feedback to every student in the class or to the parents in meetings. Instant feedback is also a method of evaluation. The purpose of evaluation is to make judgment about educational?

Quantity

Quality

Time period

Age

45. A teacher must develop pedagogical strategies in the classroom that allow:

Instant feedback

Individual learning pace

Excitement, enjoyment, wonders of students in classroom

All of the above

46. In non-traditional education...is a key factor

Flexibility

Assessment

Rule and regulation

None of the above

47. Which of the following is Not a formal assessment?

Assignment

Paper

Quiz

Discussion

48. Which of the following is not a major instructional outcome of problem-based learning?

Learning adult role behaviors

Learning important life skills

Learning required academic information

Learning required inquiry skill
