MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Theme 7: Business Finance and Financial Systems

Important Exam Points

Finance is the lifeblood of every business.

Finance supports business operations, growth, and strategic goals.

Major functions of finance are raising capital, budgeting, cost control, cash flow management, and profitability.

Capital Expenditure (CapEx) means spending on long-term assets like machinery and buildings.

Operating Expenditure (OpEx) means recurring expenses like salaries, rent, and utilities.

Main sources of finance are Equity Financing, Debt Financing, Internal Financing, and Grants/Subsidies.

Equity financing means selling ownership shares in the business.

Debt financing means borrowing money that must be repaid with interest.

Internal financing uses retained earnings or asset sales.

Grants and subsidies are non-repayable funds from governments or NGOs.

Short-term financing is used for less than one year.

Examples of short-term financing are Trade Credit, Bank Overdraft, and Factoring.

Long-term financing is used for more than one year.

Examples of long-term financing are Equity, Debentures/Bonds, Venture Capital, and Long-term Loans.

Trade credit allows businesses to buy now and pay later.

Factoring means selling accounts receivable for immediate cash.

Primary Market is where new securities are issued through IPOs.

Secondary Market is where existing securities are traded.

Pakistan Stock Exchange (PSX) is Pakistan's main securities market.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

SECP regulates Pakistan's securities market.

Investors require a Brokerage Account and CDC Account to trade in PSX.

Major securities are Stocks, Bonds, and Derivatives.

Digital transformation uses AI, cloud accounting, and financial software.

Fintech includes JazzCash, NayaPay, digital banking, and blockchain.

ESG investing focuses on Environmental, Social, and Governance factors.

Blockchain is a decentralized, secure, and tamper-proof digital ledger.

Bitcoin is the most well-known cryptocurrency.

Cryptocurrency is not legal tender in Pakistan.

Islamic finance prohibits interest (Riba).

Islamic finance uses profit-sharing and asset-backed financing.

Mudarabah is a profit-sharing contract.

Murabaha is an asset-backed financing method.

Ijara means Islamic leasing.

Musharakah means joint partnership.

Islamic finance avoids investment in Haram businesses.

Meezan Bank is a leading Islamic bank in Pakistan.

Accounting is called the language of business.

Main financial statements are Balance Sheet, Income Statement, and Cash Flow Statement.

Accounting improves transparency, compliance, decision-making, and investor confidence.

20 Very Important MCQs

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

1. Finance is known as the _____ of a business.

- A. Brain
- B. Lifeblood ✓
- C. Product
- D. Market

2. Which expenditure is made on machinery and buildings?

- A. Operating Expenditure
- B. Marketing Expenditure
- C. Capital Expenditure ✓
- D. Selling Expenditure

3. Salaries and utility bills are examples of:

- A. Capital Expenditure
- B. Operating Expenditure ✓
- C. Investment
- D. Equity

4. Which financing method involves selling ownership in a business?

- A. Debt Financing
- B. Internal Financing
- C. Equity Financing ✓
- D. Bank Loan

5. Debt financing requires:

- A. No repayment
- B. Repayment with interest ✓
- C. Sharing profits only
- D. Selling shares

6. Which source of finance uses retained earnings?

- A. Equity Financing
- B. Internal Financing ✓
- C. Debt Financing
- D. Venture Capital

7. Which financing is normally used for less than one year?

- A. Long-term Financing
- B. Short-term Financing ✓
- C. Equity Financing
- D. Venture Capital

8. Trade credit allows a business to:

- A. Buy now and pay later ✓
- B. Borrow from investors
- C. Sell shares
- D. Issue bonds

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

9. Factoring means:

- A. Selling machinery
- B. Selling receivables for immediate cash ✓
- C. Issuing shares
- D. Taking bank loans

10. Which market issues new securities for the first time?

- A. Secondary Market
- B. Primary Market ✓
- C. Money Market
- D. Forex Market

11. Existing securities are traded in the:

- A. Primary Market
- B. Secondary Market ✓
- C. Capital Budget
- D. Treasury Market

12. Pakistan Stock Exchange is regulated by:

- A. State Bank of Pakistan
- B. FBR
- C. SECP ✓
- D. Ministry of Finance

13. Which of the following is a financial technology (FinTech) example?

- A. JazzCash ✓
- B. Factory
- C. Warehouse
- D. Textile Mill

14. ESG investing mainly focuses on:

- A. Tax collection
- B. Environmental, Social and Governance factors ✓
- C. Manufacturing
- D. Exports

15. Blockchain is best described as a:

- A. Centralized database
- B. Decentralized digital ledger ✓
- C. Tax system
- D. Banking branch

16. Cryptocurrency is currently:

- A. Legal tender in Pakistan
- B. Illegal worldwide
- C. Not legal tender in Pakistan ✓
- D. Issued by SECP

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

17. Which principle is prohibited in Islamic finance?

- A. Leasing
- B. Partnership
- C. Interest (Riba) ✓
- D. Profit Sharing

18. Which Islamic financing method is based on profit sharing?

- A. Murabaha
- B. Ijara
- C. Mudarabah ✓
- D. Factoring

19. Which financial statement shows a company's assets and liabilities?

- A. Income Statement
- B. Cash Flow Statement
- C. Balance Sheet ✓
- D. Sales Report

20. Accounting is commonly known as the:

- A. Heart of Business
- B. Language of Business ✓
- C. Science of Marketing
- D. Tool of Production

Theme 8: Global Business Competition: Strategies and Challenges

Important Exam Points

Global trade is the exchange of goods and services across international borders.

Global trade promotes economic growth, specialization, and international cooperation.

Imports are goods and services purchased from other countries.

Exports are goods and services sold to other countries.

Pakistan mainly exports textiles and rice.

Pakistan mainly imports oil and machinery.

Trade balance affects a country's economy.

Global trade increases consumer choice and reduces production costs.

Economies of scale help businesses lower production costs.

Mercantilism emphasized maximizing exports and minimizing imports.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Mercantilism encouraged trade surpluses and high tariffs.

Adam Smith introduced the Theory of Absolute Advantage.

Absolute Advantage means producing goods more efficiently than other countries.

David Ricardo introduced the Theory of Comparative Advantage.

Comparative Advantage means producing goods with the lowest opportunity cost.

Heckscher-Ohlin Theory states that countries export goods based on abundant resources.

Labor-rich countries export labor-intensive products.

Capital-rich countries export capital-intensive products.

Porter's Diamond Model explains national competitive advantage.

Porter's Diamond includes factor conditions, demand conditions, supporting industries, and firm rivalry.

Gravity Model states that trade is greater between nearby and economically large countries.

Tariffs are taxes imposed on imported goods.

Quotas are limits placed on imported goods.

Tariffs and quotas protect domestic industries but increase consumer prices.

Subsidies are government financial support provided to local businesses.

Technical standards regulate product quality and safety.

Political barriers include sanctions and trade wars.

Cultural differences can affect international marketing success.

Pakistan faces trade challenges due to currency devaluation and regional tensions.

Free Trade Agreements (FTAs) reduce tariffs and encourage trade.

Pakistan-China FTA promotes bilateral trade.

WTO promotes global trade through standardized trade rules.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

SAFTA promotes trade among South Asian countries.

CPEC improves Pakistan's transport and export infrastructure.

Digital trade uses e-commerce platforms to access international markets.

Alibaba and Daraz help SMEs reach global customers.

Export incentives include training, tax relief, and government support.

Stable exchange rates encourage foreign investment.

Multinational Corporations (MNCs) operate in multiple countries.

Examples of MNCs are Apple, Unilever, and Nestlé.

Positive impacts of MNCs include job creation, technology transfer, and infrastructure development.

Negative impacts of MNCs include profit repatriation, environmental issues, and market dominance.

Joint ventures help balance foreign investment and local interests.

Digital transformation includes AI, e-commerce, and remote work.

Sustainability encourages businesses to adopt environmentally friendly practices.

Supply chain resilience became important after COVID-19.

Trade wars reshape global trade through protectionist policies.

Cultural customization adapts products to local customer preferences.

McDonald's offers halal menus in Pakistan as an example of cultural customization.

Pakistan can improve global competitiveness through infrastructure development, exporter support, and ethical foreign investment.

20 Very Important MCQs

1. Global trade primarily refers to the exchange of:

- A. Goods only
- B. Services only

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- C. Goods and services across international borders ✓
- D. Currencies only

2. Pakistan mainly exports:

- A. Oil and machinery
- B. Textiles and rice ✓
- C. Electronics and automobiles
- D. Gold and diamonds

3. Goods purchased from foreign countries are called:

- A. Exports
- B. Imports ✓
- C. Re-exports
- D. Subsidies

4. Which theory was introduced by Adam Smith?

- A. Comparative Advantage
- B. Mercantilism
- C. Absolute Advantage ✓
- D. Gravity Model

5. David Ricardo's Comparative Advantage theory is based on:

- A. Highest production cost
- B. Lowest opportunity cost ✓
- C. Maximum imports
- D. Government subsidies

6. According to the Heckscher-Ohlin Theory, labor-rich countries usually export:

- A. Machinery
- B. Oil
- C. Labor-intensive products ✓
- D. High-tech equipment

7. Porter's Diamond Model explains:

- A. Inflation rates
- B. National competitive advantage ✓
- C. Banking systems
- D. Exchange rate policies

8. The Gravity Model suggests that trade is strongest between countries that are:

- A. Politically different
- B. Geographically close and economically large ✓
- C. Militarily powerful only
- D. Developing economies only

9. A tariff is best defined as:

- A. A limit on imports

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- B. A tax on imported goods ✓
- C. Financial aid to exporters
- D. A currency exchange policy

10. Which trade barrier directly limits the quantity of imported goods?

- A. Tariff
- B. Quota ✓
- C. Subsidy
- D. Inflation

11. Government financial support provided to domestic industries is called:

- A. Quota
- B. Subsidy ✓
- C. Import duty
- D. Exchange control

12. Which organization promotes standardized international trade rules?

- A. IMF
- B. WTO ✓
- C. OPEC
- D. ASEAN

13. CPEC mainly helps Pakistan by improving:

- A. Tourism only
- B. Agricultural land
- C. Transport and trade infrastructure ✓
- D. Banking regulations

14. Which platform is commonly associated with digital global trade?

- A. WhatsApp
- B. Alibaba ✓
- C. Microsoft Word
- D. Zoom

15. A company operating in multiple countries is known as a:

- A. Partnership
- B. Multinational Corporation (MNC) ✓
- C. Sole Proprietorship
- D. Cooperative Society

16. Which of the following is a positive impact of MNCs?

- A. Market isolation
- B. Technology transfer ✓
- C. Reduced employment
- D. Trade restrictions

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

17. Which is considered a negative impact of MNCs?

- A. Infrastructure development
- B. Job creation
- C. Profit repatriation ✓
- D. Skill development

18. After COVID-19, many businesses focused on:

- A. Eliminating exports
- B. Supply chain resilience ✓
- C. Ending globalization
- D. Reducing technology use

19. Adapting products to local customer preferences is called:

- A. Market segmentation
- B. Cultural customization ✓
- C. Trade liberalization
- D. Price discrimination

20. Which strategy can improve Pakistan's global competitiveness?

- A. Ignoring exporters
- B. Reducing infrastructure investment
- C. Supporting exporters and improving infrastructure ✓
- D. Increasing trade barriers only

Theme 9: IT, E-Commerce, and Risk Management

Important Exam Points

Information Technology (IT) is the backbone of modern business operations.

IT includes hardware, software, networks, and data systems.

IT improves business efficiency, innovation, and decision-making.

Communication tools like Zoom, Slack, and Microsoft Teams enable real-time collaboration.

ERP (Enterprise Resource Planning) systems automate payroll, inventory, billing, and other business processes.

Examples of ERP software are SAP and Oracle.

Automation reduces costs, saves time, and minimizes human errors.

Business Intelligence (BI) tools analyze customer behavior and business performance.

Examples of BI tools are Power BI and Tableau.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

CRM (Customer Relationship Management) systems improve customer relationships and personalized marketing.

Examples of CRM platforms are Salesforce and Zoho.

Chatbots provide 24/7 customer support.

E-commerce platforms like Shopify and Daraz enable businesses to sell products online.

Cybersecurity protects business data through firewalls, encryption, and security policies.

GDPR is an important international data protection regulation.

Computer networks allow devices to share data and resources.

LAN (Local Area Network) connects devices within a single office or building.

WAN (Wide Area Network) connects multiple branches across different locations.

VPN (Virtual Private Network) provides secure remote access to business networks.

Firewalls, backups, and employee training improve network security.

Management Information System (MIS) collects, processes, stores, and analyzes business data.

MIS supports planning, decision-making, and business control.

MIS consists of hardware, software, data, and business processes.

High implementation costs and employee resistance are major MIS challenges.

E-commerce means buying and selling goods and services through the internet.

B2C (Business-to-Consumer) involves businesses selling directly to customers.

Daraz is an example of B2C e-commerce.

B2B (Business-to-Business) involves transactions between businesses.

Alibaba is an example of B2B e-commerce.

C2C (Consumer-to-Consumer) allows consumers to trade with each other.

OLX is an example of C2C e-commerce.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Digital payment systems include JazzCash and Easypaisa.

SEO and social media marketing increase online business visibility.

PriceOye became successful through verified products and transparent pricing.

Major growth drivers of e-commerce in Pakistan are smartphone usage, young population, and Digital Pakistan Policy.

Daraz expanded through Alibaba's investment and expertise.

Bykea combines ride-hailing with parcel delivery services.

Cash-on-delivery remains the preferred payment method in Pakistan.

Poor rural logistics remain a challenge for e-commerce.

Business risks include operational, financial, strategic, and cybersecurity risks.

Operational risk includes supply chain disruptions.

Financial risk includes exchange rate fluctuations.

Strategic risk includes increased market competition.

Cybersecurity risk includes hacking, phishing, and data breaches.

The risk management process consists of identifying, assessing, controlling, transferring, and monitoring risks.

Insurance helps transfer business risks.

Property insurance protects physical assets.

Liability insurance covers legal claims and customer injuries.

Cyber insurance covers losses from cyberattacks and data breaches.

Artificial Intelligence (AI) is transforming e-commerce through chatbots and automation.

Green logistics promotes environmentally friendly packaging and transportation.

Blockchain improves supply chain security and transparency.

Cloud computing reduces IT costs for businesses.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Examples of cloud service providers are AWS and Microsoft Azure.

Digital literacy improves online business competitiveness.

ISO 27001 is an international standard for information security management.

20 Very Important MCQs

1. Information Technology (IT) mainly consists of:

- A. Buildings and machinery only
- B. Hardware, software, networks, and data systems ✓
- C. Marketing and finance only
- D. Human resources only

2. Which type of software automates payroll, inventory, and billing?

- A. CRM
- B. ERP ✓
- C. MIS
- D. VPN

3. Which ERP software is commonly used by large organizations?

- A. Zoom
- B. SAP ✓
- C. Canva
- D. WhatsApp

4. Which Business Intelligence (BI) tool is used for data analysis?

- A. Tableau ✓
- B. Photoshop
- C. Chrome
- D. Gmail

5. CRM systems mainly help businesses to:

- A. Manufacture products
- B. Manage customer relationships ✓
- C. Build factories
- D. Design websites

6. Which network connects devices within the same office building?

- A. WAN
- B. VPN
- C. LAN ✓
- D. MAN

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

7. A VPN is mainly used to provide:

- A. Faster internet speed
- B. Secure remote network access ✓
- C. Free cloud storage
- D. Website hosting

8. The primary purpose of MIS is to:

- A. Replace employees
- B. Support business decision-making ✓
- C. Manufacture products
- D. Increase advertising costs

9. Which component is NOT part of an MIS?

- A. Hardware
- B. Software
- C. Data
- D. Factory building ✓

10. Which type of e-commerce involves businesses selling directly to customers?

- A. B2B
- B. C2C
- C. B2C ✓
- D. G2G

11. Alibaba is primarily an example of:

- A. B2C
- B. C2C
- C. B2B ✓
- D. P2P

12. Which platform is an example of Consumer-to-Consumer (C2C) e-commerce?

- A. Daraz
- B. OLX ✓
- C. Amazon
- D. Alibaba

13. Which digital payment system is widely used in Pakistan?

- A. PayPal only
- B. JazzCash ✓
- C. Visa only
- D. Skrill

14. Which business risk is caused by exchange rate fluctuations?

- A. Operational Risk
- B. Financial Risk ✓
- C. Strategic Risk
- D. Legal Risk

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

15. Data breaches and hacking are examples of:

- A. Operational Risk
- B. Financial Risk
- C. Cybersecurity Risk ✓
- D. Market Risk

16. Which is the first step in the risk management process?

- A. Transfer the risk
- B. Monitor the risk
- C. Identify the risk ✓
- D. Control the risk

17. Which type of insurance protects business buildings and machinery?

- A. Liability Insurance
- B. Cyber Insurance
- C. Property Insurance ✓
- D. Life Insurance

18. Cyber insurance mainly covers losses caused by:

- A. Floods
- B. Fire accidents
- C. Data breaches and cyberattacks ✓
- D. Employee resignations

19. Which technology improves supply chain transparency and security?

- A. Bluetooth
- B. Blockchain ✓
- C. Wi-Fi
- D. GPS

20. Which international standard focuses on information security management?

- A. ISO 9001
- B. ISO 14001
- C. ISO 27001 ✓
- D. ISO 22000

Theme 10: Business Combinations, Chambers of Commerce, and Trade Associations

Important Exam Points

Business combinations involve the merger or integration of two or more business entities.

Business combinations aim to achieve growth, economies of scale, market expansion, and competitive advantage.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Major forms of business combinations are Mergers, Acquisitions, Takeovers, and Consolidations.

A merger combines two companies into one business entity.

An acquisition occurs when one company purchases another company.

A takeover happens when one company gains control of another company.

Consolidation creates a completely new company by combining existing companies.

Horizontal combination occurs between businesses operating in the same industry.

Horizontal combinations reduce competition and increase market share.

Vertical combination occurs between firms operating at different stages of the supply chain.

Vertical combinations improve efficiency and supply chain control.

Conglomerate combination occurs between companies in unrelated industries.

Conglomerate combinations promote diversification and reduce business risk.

Trade associations are organizations representing businesses from the same industry.

Trade associations protect members' interests and promote industry development.

Major functions of trade associations include policy advocacy, standard setting, training, export promotion, networking, and organizing trade events.

Chambers of Commerce are non-governmental and membership-based business organizations.

Chambers of Commerce represent business interests at regional, national, and sectoral levels.

Chambers of Commerce act as a bridge between businesses and the government.

Major functions of Chambers of Commerce include policy advocacy, trade promotion, dispute resolution, investment promotion, and capacity building.

Karachi Chamber of Commerce and Industry (KCCI) represents Pakistan's largest industrial and financial hub.

Lahore Chamber of Commerce and Industry (LCCI) supports policy advocacy and economic development in Punjab.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Sialkot Chamber of Commerce and Industry (SCCI) is famous for export-led growth and the Sialkot International Airport project.

Sarhad Chamber of Commerce and Industry (SCCI) promotes trade with Afghanistan and Central Asia.

Major challenges faced by Chambers of Commerce include political interference, funding shortages, and limited representation of small businesses.

Federation of Pakistan Chambers of Commerce and Industry (FPCCI) is the apex business organization of Pakistan.

FPCCI was established in 1950.

FPCCI represents more than 200 chambers and trade associations.

FPCCI advises the government on trade, taxation, and industrial policies.

FPCCI represents Pakistan in international organizations such as WTO, SAARC, and OIC.

Trade associations focus on the needs of specific industries.

APTMA represents Pakistan's textile industry.

PAMA represents Pakistan's automobile manufacturing industry.

P@SHA represents Pakistan's IT and software industry.

TDAP promotes exports and facilitates international trade.

Business combinations improve business efficiency, competitiveness, and market power.

Trade associations help industries solve common challenges.

Collaboration between businesses and government supports economic development.

Policy advocacy plays an important role in improving Pakistan's business environment.

20 Very Important MCQs

1. Business combinations involve the integration of:

A. Customers only

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- B. Two or more business entities ✓
- C. Government departments only
- D. Banks only

2. Which is NOT a form of business combination?

- A. Merger
- B. Acquisition
- C. Consolidation
- D. Franchising ✓

3. A horizontal combination occurs between businesses that:

- A. Operate in different industries
- B. Operate at different production stages
- C. Operate in the same industry ✓
- D. Operate in different countries

4. The main purpose of a horizontal combination is to:

- A. Reduce competition and increase market share ✓
- B. Increase taxes
- C. Reduce exports only
- D. Expand government control

5. A vertical combination takes place between firms at:

- A. The same production stage
- B. Different stages of the supply chain ✓
- C. Different countries only
- D. Different industries only

6. Conglomerate combinations mainly aim to:

- A. Increase imports
- B. Diversify business and reduce risk ✓
- C. Eliminate exports
- D. Reduce production costs only

7. Trade associations mainly represent:

- A. Government employees
- B. Businesses from the same industry ✓
- C. Universities
- D. Individual consumers

8. Which of the following is a major function of trade associations?

- A. Conducting elections
- B. Policy advocacy and industry support ✓
- C. Issuing currency
- D. Collecting taxes

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

9. Chambers of Commerce are primarily:

- A. Government ministries
- B. Non-governmental membership-based organizations ✓
- C. Political parties
- D. Commercial banks

10. Chambers of Commerce mainly serve as a bridge between:

- A. Schools and colleges
- B. Businesses and the government ✓
- C. Banks and customers
- D. Exporters and importers only

11. Which Chamber represents Pakistan's largest industrial and financial hub?

- A. LCCI
- B. SCCI (Sarhad)
- C. KCCI ✓
- D. FPCCI

12. Which Chamber is famous for the Sialkot International Airport project?

- A. KCCI
- B. LCCI
- C. Sialkot Chamber of Commerce and Industry (SCCI) ✓
- D. FPCCI

13. FPCCI was established in:

- A. 1947
- B. 1950 ✓
- C. 1965
- D. 1973

14. FPCCI is considered the:

- A. Largest bank in Pakistan
- B. Apex business organization of Pakistan ✓
- C. Ministry of Commerce
- D. Central bank

15. FPCCI represents Pakistan in international organizations such as:

- A. FIFA and ICC
- B. WTO, SAARC, and OIC ✓
- C. UNESCO only
- D. WHO only

16. Which trade association represents Pakistan's textile industry?

- A. PAMA
- B. TDAP
- C. APTMA ✓
- D. P@SHA

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

17. PAMA represents Pakistan's:

- A. Textile industry
- B. Automotive manufacturing industry ✓
- C. Banking sector
- D. Pharmaceutical industry

18. P@SHA mainly supports Pakistan's:

- A. Agriculture sector
- B. IT and software industry ✓
- C. Airline industry
- D. Tourism sector

19. TDAP is mainly responsible for:

- A. Import restrictions
- B. Export promotion and trade facilitation ✓
- C. Currency regulation
- D. Tax collection

20. Which of the following is a major challenge faced by Chambers of Commerce?

- A. Unlimited funding
- B. Political interference and funding shortages ✓
- C. Lack of industries
- D. High export demand

Theme 11: Commercial Geography of Pakistan – Economic Landscape and Regional Business Potential

Important Exam Points

Commercial geography studies the spatial distribution of economic activities.

Commercial geography explains how location, climate, natural resources, and infrastructure affect business and trade.

Commercial geography helps identify regional industrial specialization in Pakistan.

Production patterns depend on the availability of natural resources in different regions.

Industrial clusters are the geographic concentration of similar industries.

Trade and transport infrastructure support domestic and international trade.

Globalization increases international trade and foreign investment.

Pakistan's economy is based on agriculture, industry, services, and natural resources.

Punjab and Sindh are the major agricultural provinces of Pakistan.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Punjab and Sindh produce wheat, cotton, and sugarcane.

Balochistan is rich in coal, copper, and gold reserves.

Khyber Pakhtunkhwa (KP) has significant hydropower potential.

Karachi is Pakistan's financial and industrial capital.

Karachi is home to major ports and diversified manufacturing industries.

Faisalabad is known as the "Manchester of Pakistan."

Faisalabad is Pakistan's largest textile manufacturing center.

Sialkot is famous for surgical instruments and sports goods.

Gujranwala is known for engineering products and ceramics.

Karachi Port handles about 60% of Pakistan's cargo.

Port Qasim mainly handles energy imports.

Gwadar Port is an important gateway under the China-Pakistan Economic Corridor (CPEC).

CPEC improves regional connectivity through roads, ports, and Special Economic Zones (SEZs).

Dry ports facilitate inland trade and exports.

Sialkot Dry Port was established by private exporters.

Sialkot produces about 95% of Pakistan's surgical instrument exports.

Sialkot exports surgical instruments to international markets.

Sialkot manufactures FIFA World Cup footballs.

Thermal bonding technology improved the quality of football production.

Wazirabad is famous for cutlery and handcrafted knives.

Faisalabad has a complete textile value chain including spinning, weaving, dyeing, and garment production.

Hyderabad is known for glass bangles, Ajrak textiles, and agro-processing.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Chiniot is famous for handcrafted wooden furniture and wood carving.

Punjab contributes through agriculture, textiles, SMEs, and manufacturing.

Sindh contributes through ports, finance, industries, and handicrafts.

KP contributes through hydropower, tourism, and trade with Afghanistan.

Balochistan contributes through minerals, fisheries, and Gwadar Port.

Gilgit-Baltistan contributes through tourism, gemstones, and trade via Khunjerab Pass.

Major challenges include infrastructure shortages, outdated technology, and global competition.

China and Germany are major competitors in manufacturing industries.

Policy barriers include bureaucracy, tax inefficiencies, and low investment in research and development.

CPEC provides opportunities for trade, investment, and industrial growth.

E-commerce helps SMEs access international markets.

Green energy and sustainable production improve long-term competitiveness.

Innovation and modernization are essential for Pakistan's future economic growth.

20 Very Important MCQs

1. Commercial geography mainly studies the:

- A. History of countries
- B. Distribution of economic activities ✓
- C. Political systems only
- D. Population growth only

2. Which factor does NOT directly influence commercial geography?

- A. Climate
- B. Natural resources
- C. Infrastructure
- D. Zodiac signs ✓

3. Which province is a major producer of wheat, cotton, and sugarcane?

- A. Gilgit-Baltistan
- B. Punjab and Sindh ✓

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- C. Islamabad
- D. Azad Kashmir

4. Balochistan is especially rich in:

- A. Tea plantations
- B. Coal, copper, and gold ✓
- C. Cotton only
- D. Natural gas only

5. Which province has the greatest hydropower potential?

- A. Sindh
- B. Punjab
- C. Khyber Pakhtunkhwa (KP) ✓
- D. Balochistan

6. Which city is known as Pakistan's financial capital?

- A. Lahore
- B. Faisalabad
- C. Karachi ✓
- D. Sialkot

7. Faisalabad is commonly known as the:

- A. City of Lights
- B. Manchester of Pakistan ✓
- C. City of Gardens
- D. Sports City

8. Sialkot is internationally famous for manufacturing:

- A. Cement and fertilizer
- B. Surgical instruments and sports goods ✓
- C. Automobiles only
- D. Electronics only

9. Which city is well known for engineering products and ceramics?

- A. Hyderabad
- B. Gujranwala ✓
- C. Multan
- D. Quetta

10. Approximately what percentage of Pakistan's cargo is handled by Karachi Port?

- A. 20%
- B. 40%
- C. 60% ✓
- D. 90%

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

11. Gwadar Port is strategically important because it is a major part of:

- A. WTO
- B. SAARC
- C. CPEC ✓
- D. FPCCI

12. Special Economic Zones (SEZs) are mainly developed under:

- A. Vision 2025
- B. CPEC ✓
- C. TDAP
- D. PAMA

13. Which city's dry port was established by private exporters?

- A. Lahore
- B. Karachi
- C. Sialkot ✓
- D. Faisalabad

14. About 95% of Pakistan's surgical instrument exports come from:

- A. Karachi
- B. Gujranwala
- C. Sialkot ✓
- D. Hyderabad

15. Sialkot is famous for producing:

- A. FIFA World Cup footballs ✓
- B. Mobile phones
- C. Motorcycles
- D. Computers

16. Wazirabad is well known for its:

- A. Textile industry
- B. Cutlery and handcrafted knives ✓
- C. Cement factories
- D. Oil refineries

17. Which city is famous for handcrafted wooden furniture?

- A. Hyderabad
- B. Chiniot ✓
- C. Peshawar
- D. Sukkur

18. Gilgit-Baltistan contributes to Pakistan's economy mainly through:

- A. Oil production
- B. Tourism, gemstones, and Khunjerab trade ✓
- C. Shipbuilding
- D. Textile manufacturing

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

19. Which of the following is a major challenge for Pakistan's industrial clusters?

- A. Excessive technology
- B. Global competition and outdated machinery ✓
- C. Lack of skilled workers only
- D. High agricultural production

20. Which initiative offers Pakistan major opportunities for trade, investment, and regional connectivity?

- A. ISO 9001
- B. CPEC ✓
- C. WTO only
- D. OIC

Theme 12: International Success Stories and Quality Management

Important Exam Points

International success depends on strategic planning, innovation, education, and quality management.

Post-war economic miracles transformed Japan, Germany, South Korea, Taiwan, and Singapore into global economic leaders.

Japan rebuilt its economy through government-industry collaboration.

MITI guided Japan's industrial development after World War II.

Japan adopted Kaizen for continuous improvement.

Kaizen means continuous improvement in products and processes.

Japan introduced the Just-In-Time (JIT) production system to reduce waste.

Lean Production focuses on minimizing waste and maximizing efficiency.

Toyota became a global leader through quality management and lean production.

Japan emphasized export-oriented industrial growth.

Group harmony (Wa) and lifetime employment increased employee loyalty and productivity.

Germany rebuilt its economy with Marshall Plan assistance.

Germany's Dual Education System combines vocational training with apprenticeships.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Germany's Mittelstand consists of highly competitive small and medium-sized enterprises (SMEs).

Germany follows the Social Market Economy by balancing free markets with social welfare.

Germany is globally recognized for engineering excellence.

BMW and Siemens are leading German companies.

South Korea achieved rapid economic growth through export-oriented industrialization.

Chaebols are large family-owned business groups supported by the government.

Samsung, Hyundai, and LG are examples of South Korean Chaebols.

South Korea invested heavily in education and research & development (R&D).

Confucian values of discipline and hard work supported South Korea's economic growth.

Taiwan became a global leader in semiconductor manufacturing.

Export Processing Zones attracted foreign direct investment (FDI) to Taiwan.

Hsinchu Science Park supports Taiwan's technology industry.

TSMC is the world's largest semiconductor manufacturer.

Singapore achieved success despite having limited natural resources.

Singapore adopted pro-business policies with low taxes and strict anti-corruption measures.

Singapore developed one of the world's busiest ports and Changi Airport.

Singapore invested in education, innovation, fintech, biotechnology, and smart city development.

Total Quality Management (TQM) is a company-wide approach to continuous quality improvement.

Customer focus is the primary principle of TQM.

Continuous improvement (Kaizen) is a core principle of TQM.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Employee involvement is essential for successful TQM implementation.

TQM uses data-driven decision-making to improve quality.

Six Sigma is a quality improvement methodology based on reducing defects.

The PDCA Cycle stands for Plan, Do, Check, and Act.

Benchmarking compares business performance with industry leaders.

Quality Circles involve employees working together to solve quality problems.

Toyota Production System (TPS) uses JIT and Jidoka to improve efficiency.

Jidoka means automation with a human touch.

Samsung became a global technology leader through Six Sigma and continuous innovation.

TQM can be successfully applied by both multinational companies and small businesses.

Major benefits of TQM include customer satisfaction, cost reduction, improved quality, and competitive advantage.

Pakistan can improve competitiveness by adopting Kaizen, vocational training, innovation, and TQM.

Investment in education, research, infrastructure, and exports supports long-term economic growth.

20 Very Important MCQs

1. Japan's post-war economic success was mainly based on:

- A. Natural resources
- B. Quality improvement and innovation ✓
- C. Tourism only
- D. Oil exports

2. Which Japanese philosophy means continuous improvement?

- A. Jidoka
- B. Kaizen ✓
- C. Kanban
- D. Benchmarking

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

3. The Just-In-Time (JIT) production system mainly aims to:

- A. Increase inventory
- B. Reduce waste and improve efficiency ✓
- C. Increase labor costs
- D. Delay production

4. Which Japanese company is most closely associated with Lean Production?

- A. Sony
- B. Toyota ✓
- C. Panasonic
- D. Honda

5. Germany's Dual Education System combines:

- A. Military training and education
- B. Vocational training and apprenticeships ✓
- C. Online learning only
- D. Business and law degrees

6. Germany's Mittelstand mainly refers to:

- A. Government ministries
- B. Small and medium-sized enterprises (SMEs) ✓
- C. Banks only
- D. Large multinational corporations

7. Which country experienced the "Miracle on the Han River"?

- A. Taiwan
- B. Singapore
- C. South Korea ✓
- D. Japan

8. Large family-owned business groups in South Korea are known as:

- A. Cartels
- B. Chaebols ✓
- C. Cooperatives
- D. Syndicates

9. Which of the following is a South Korean Chaebol?

- A. BMW
- B. Samsung ✓
- C. TSMC
- D. Sony

10. Taiwan is internationally recognized as a leader in:

- A. Automobile manufacturing
- B. Semiconductor production ✓
- C. Oil refining
- D. Tourism

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

11. Which company is the world's largest semiconductor manufacturer?

- A. Intel
- B. Samsung
- C. TSMC ✓
- D. Acer

12. Singapore achieved rapid growth mainly through:

- A. Oil production
- B. Pro-business policies and innovation ✓
- C. Heavy agriculture
- D. Gold mining

13. Which airport is considered one of Singapore's greatest achievements?

- A. Heathrow Airport
- B. Changi Airport ✓
- C. Dubai Airport
- D. Narita Airport

14. Total Quality Management (TQM) primarily focuses on:

- A. Increasing taxes
- B. Continuous quality improvement ✓
- C. Reducing employee involvement
- D. Increasing inventory

15. Which is the first principle of TQM?

- A. Employee punishment
- B. Customer focus ✓
- C. High pricing
- D. Automation only

16. The PDCA cycle stands for:

- A. Plan-Do-Check-Act ✓
- B. Prepare-Design-Control-Analyze
- C. Plan-Develop-Create-Apply
- D. Produce-Deliver-Check-Assess

17. Benchmarking is the process of:

- A. Setting product prices
- B. Comparing performance with industry leaders ✓
- C. Hiring new employees
- D. Designing advertisements

18. Quality Circles mainly involve:

- A. Customers only
- B. Teams solving quality-related problems ✓
- C. Government officials
- D. External auditors

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

19. In the Toyota Production System, Jidoka means:

- A. Mass production
- B. Automation with a human touch ✓
- C. Employee rotation
- D. Inventory management

20. Which strategy can help Pakistan improve global competitiveness?

- A. Ignoring quality management
- B. Adopting Kaizen, TQM, and vocational training ✓
- C. Reducing exports
- D. Eliminating industrial innovation

Theme 13: Business Ideas, Sources, and Pitching Strategies

Important Exam Points

A business idea is a concept for a product, service, or solution that satisfies a market need and generates revenue.

A successful business idea solves a customer problem.

A business idea should be feasible with available resources.

A scalable business idea has the potential for future growth.

Innovation provides a unique value proposition (USP).

Uber solved transportation problems through digital ride-hailing.

Amazon expanded from an online bookstore to global e-commerce.

Airbnb introduced a peer-to-peer accommodation model.

Sarasvathy's Effectuation Theory explains how entrepreneurs create businesses using available resources.

Bird-in-Hand Principle means starting with existing skills, knowledge, and networks.

Affordable Loss Principle encourages taking small and manageable risks.

Crazy-Quilt Principle emphasizes building partnerships with stakeholders.

Lemonade Principle turns unexpected challenges into business opportunities.

Pilot-in-the-Plane Principle focuses on shaping the future through action.

Peter Drucker identified seven major sources of innovation.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Unexpected Events create new business opportunities.

Incongruities identify gaps between expectations and reality.

Process Needs improve business efficiency.

Industry Changes create opportunities through technological disruption.

Demographic Changes influence customer needs and market demand.

Changes in Perception create new consumer preferences.

New Knowledge leads to technological innovation.

Brainstorming, SWOT Analysis, Google Trends, and Market Surveys are useful idea-generation tools.

An Elevator Pitch is a short 30-second business introduction.

An Investor Pitch focuses on return on investment (ROI), market opportunity, and business growth.

A Customer Pitch explains how the product benefits customers.

A Pitch Deck presents a business idea to investors or stakeholders.

A Pitch Deck includes Problem, Solution, Market Opportunity, Business Model, Traction, and Funding Request.

The NABC Framework stands for Need, Approach, Benefits, and Competition.

Need identifies the customer's problem.

Approach explains the proposed solution.

Benefits describe the value created by the solution.

Competition explains how the business is different from competitors.

Simple language, confidence, and a strong USP improve business pitching.

Business Model Canvas (BMC) is a visual framework for designing business models.

Customer Segments identify the target market.

Value Proposition explains the value offered to customers.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Channels describe how products reach customers.

Revenue Streams explain how the business earns income.

Key Activities describe the main business operations.

Key Resources include employees, technology, and assets.

Key Partnerships involve suppliers and strategic partners.

Cost Structure includes fixed and variable business costs.

Netflix uses subscription-based revenue.

Electricity, Assembly Line, Smartphones, and Cloud Computing are examples of revolutionary business innovations.

Successful businesses solve real-world problems and continuously innovate.

Mian Muhammad Mansha is the founder of Nishat Group.

Syed Babar Ali founded Packages Limited and contributed to establishing LUMS.

Monis Rahman founded Rozee.pk.

Seema Aziz founded Bareeze and supports the CARE Foundation.

Vision, innovation, resilience, and adaptability are key qualities of successful entrepreneurs.

Business success depends on strong ideas, effective planning, and excellent communication.

20 Very Important MCQs

1. A business idea is primarily created to:

- A. Increase taxes
- B. Solve a market problem and generate revenue ✓
- C. Hire more employees only
- D. Reduce imports

2. Which characteristic allows a business to grow over time?

- A. Feasibility
- B. Scalability ✓

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- C. Advertising
- D. Branding

3. Airbnb is best known for introducing the:

- A. Online banking model
- B. Peer-to-peer accommodation model ✓
- C. Food delivery model
- D. Ride-sharing model

4. According to Sarasvathy's Effectuation Theory, the Bird-in-Hand Principle encourages entrepreneurs to:

- A. Wait for investors
- B. Start with existing resources ✓
- C. Borrow maximum capital
- D. Expand internationally first

5. Which Effectuation Principle focuses on taking small and manageable risks?

- A. Crazy-Quilt
- B. Pilot-in-the-Plane
- C. Affordable Loss ✓
- D. Lemonade

6. Turning unexpected challenges into opportunities is known as the:

- A. Bird-in-Hand Principle
- B. Lemonade Principle ✓
- C. Value Proposition
- D. Benchmarking Principle

7. Peter Drucker identified how many major sources of innovation?

- A. Five
- B. Six
- C. Seven ✓
- D. Eight

8. Which of the following is an external source of innovation according to Drucker?

- A. Process Needs
- B. Unexpected Events
- C. Demographic Changes ✓
- D. Industry Shifts

9. Which tool is commonly used for generating business ideas?

- A. SWOT Analysis ✓
- B. Payroll System
- C. ERP Software
- D. VPN

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

10. An Elevator Pitch is generally designed to last about:

- A. 5 minutes
- B. 30 seconds ✓
- C. 15 minutes
- D. 1 hour

11. An Investor Pitch mainly focuses on:

- A. Employee recruitment
- B. Return on Investment (ROI) and business growth ✓
- C. Government regulations
- D. Customer complaints

12. In the NABC Framework, the letter "B" stands for:

- A. Business
- B. Benefits ✓
- C. Budget
- D. Branding

13. The NABC Framework begins by identifying the:

- A. Revenue
- B. Need ✓
- C. Competition
- D. Marketing Strategy

14. Business Model Canvas (BMC) is mainly used to:

- A. Design and analyze business models ✓
- B. Prepare financial statements
- C. Calculate taxes
- D. Recruit employees

15. Which element of the Business Model Canvas identifies the target audience?

- A. Revenue Streams
- B. Customer Segments ✓
- C. Cost Structure
- D. Key Resources

16. Netflix mainly earns revenue through:

- A. Product manufacturing
- B. Subscription fees ✓
- C. Donations
- D. Government funding

17. Which innovation made automobiles affordable for the general public?

- A. Smartphones
- B. Assembly Line ✓
- C. Cloud Computing
- D. Blockchain

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

18. Who is the founder of Nishat Group?

- A. Monis Rahman
- B. Syed Babar Ali
- C. Mian Muhammad Mansha ✓
- D. Seema Aziz

19. Rozee.pk was founded by:

- A. Mian Muhammad Mansha
- B. Monis Rahman ✓
- C. Seema Aziz
- D. Syed Babar Ali

20. Which quality is MOST essential for long-term entrepreneurial success?

- A. Avoiding innovation
- B. Vision, resilience, and adaptability ✓
- C. Ignoring customer feedback
- D. Limiting business growth

Theme 14: Intellectual Property Rights and Other Key Issues

Important Exam Points

Intellectual Property (IP) refers to creations of the mind protected by law.

IP protects inventions, artistic works, designs, symbols, names, and business innovations.

The main purpose of Intellectual Property Rights (IPRs) is to protect creators, encourage innovation, and safeguard brand identity.

The three major forms of Intellectual Property are Trademark, Copyright, and Patent.

A Trademark is a sign, logo, word, phrase, design, or symbol that distinguishes one business from another.

Trademarks protect brand identity and prevent unauthorized use of similar marks.

The Trademarks Ordinance, 2001 governs trademarks in Pakistan.

IPO Pakistan administers trademark registration.

Types of trademarks include word marks, logos, slogans, 3D marks, and sound marks.

Trademark registration involves application, examination, publication, opposition period, and registration.

A registered trademark is valid for 10 years and can be renewed indefinitely.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Copyright protects original literary, artistic, musical, cinematic, and software works.

The Copyright Ordinance, 1962 governs copyright protection in Pakistan.

Copyright registration is optional but provides legal benefits.

Copyright for literary, artistic, and musical works lasts for the author's lifetime plus 50 years after death.

Copyright for films and sound recordings lasts 50 years from publication.

A Patent gives inventors exclusive rights over new, useful, and non-obvious inventions.

The Patents Ordinance, 2000 governs patents in Pakistan.

Patents protect products, processes, machines, and inventions with technical applications.

Scientific theories, mathematical methods, abstract ideas, and medical treatment methods cannot be patented.

A patent remains valid for 20 years from the filing date with annual renewal fees.

The Intellectual Property Organization (IPO) Pakistan was established in 2005.

IPO Pakistan administers trademarks, copyrights, and patents.

Pakistan joined the Madrid Protocol in 2021 for international trademark registration.

Pakistan's IP system follows international standards set by WIPO.

Pakistan's surgical industry is centered in Sialkot.

Most surgical SMEs in Pakistan operate as Original Equipment Manufacturers (OEMs).

OEMs manufacture products for other companies' brands.

ODMs design products for other companies.

OBMs manufacture and sell products under their own brands.

The Four-Factor Model explains why SMEs avoid developing their own brands.

The four major barriers are Organizational, Entrepreneurial, Marketing, and Environmental factors.

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

Organizational barriers include limited resources, weak R&D, and poor organizational culture.

Entrepreneurial barriers include limited vision and complacency.

Marketing barriers include weak branding, poor market access, and lack of distribution networks.

Environmental barriers include weak IP protection, limited government support, and strong international competition.

Government support, stronger IP laws, and branding programs can improve SME competitiveness.

Entrepreneurial exit does not always indicate business failure.

The five major reasons entrepreneurs leave business are Economic, Strategic, Personal, Business Performance, and External factors.

Economic factors include declining profits and financial problems.

Strategic factors include better career opportunities, mergers, and new business interests.

Personal factors include burnout, health issues, family responsibilities, and retirement.

Business performance factors include declining sales, management conflicts, and lack of innovation.

External factors include economic crises, regulatory changes, political instability, and technological disruption.

Successful entrepreneurial exits can be strategic and planned decisions.

20 Very Important MCQs

1. Intellectual Property (IP) mainly protects:

- A. Physical property only
- B. Creations of the mind ✓
- C. Agricultural land
- D. Government assets

2. Which of the following is NOT a form of Intellectual Property?

- A. Trademark
- B. Patent

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- C. Copyright
- D. Invoice ✓

3. A trademark is primarily used to protect a company's:

- A. Machinery
- B. Brand identity ✓
- C. Employees
- D. Buildings

4. Which law governs trademarks in Pakistan?

- A. Copyright Ordinance, 1962
- B. Patents Ordinance, 2000
- C. Trademarks Ordinance, 2001 ✓
- D. Companies Act, 2017

5. A registered trademark in Pakistan is initially valid for:

- A. 5 years
- B. 10 years ✓
- C. 15 years
- D. 20 years

6. Copyright mainly protects:

- A. Company logos only
- B. Original literary, artistic, and musical works ✓
- C. Buildings only
- D. Industrial machinery

7. Copyright for literary works generally lasts for:

- A. 20 years after publication
- B. Lifetime of the author plus 50 years ✓
- C. 10 years only
- D. 100 years from creation

8. Which law governs patents in Pakistan?

- A. Companies Act, 2017
- B. Patents Ordinance, 2000 ✓
- C. Trademarks Ordinance, 2001
- D. Copyright Ordinance, 1962

9. A patent provides exclusive rights over an invention for:

- A. 10 years
- B. 15 years
- C. 20 years ✓
- D. 25 years

10. Which of the following cannot be patented?

- A. New machine

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

- B. Manufacturing process
- C. Mathematical method ✓
- D. Technical invention

11. IPO Pakistan was established in:

- A. 1995
- B. 2000
- C. 2005 ✓
- D. 2010

12. Pakistan became a member of the Madrid Protocol in:

- A. 2018
- B. 2019
- C. 2021 ✓
- D. 2023

13. Most surgical SMEs in Pakistan operate as:

- A. OBM's
- B. ODM's
- C. OEM's ✓
- D. Franchises

14. Which city is Pakistan's major surgical instruments cluster?

- A. Karachi
- B. Lahore
- C. Sialkot ✓
- D. Faisalabad

15. Which is NOT one of the Four-Factor Model barriers?

- A. Organizational Factors
- B. Entrepreneurial Factors
- C. Marketing Factors
- D. Political Factors ✓

16. Limited resources and weak R&D are examples of:

- A. Marketing Factors
- B. Organizational Factors ✓
- C. Strategic Factors
- D. External Factors

17. Weak intellectual property protection is classified as which barrier?

- A. Marketing Factor
- B. Environmental Factor ✓
- C. Organizational Factor
- D. Entrepreneurial Factor

MGT211 IMPORTANT NOTES + EXAM KEY POINTS + LECTURE WISE MCQS

18. According to the entrepreneurial exit study, burnout and family commitments are:

- A. Economic Factors
- B. Strategic Factors
- C. Personal Factors ✓
- D. Performance Factors

19. Declining profitability is mainly classified as which exit factor?

- A. Strategic Factor
- B. Economic Factor ✓
- C. External Factor
- D. Personal Factor

20. According to the study, leaving entrepreneurship should always be considered:

- A. A business failure
- B. A legal violation
- C. A strategic or personal decision in many cases ✓
- D. A financial crime
