

ASSIGNMENT NO. 01
Mgt401

Solution

For full solution watch this video == <https://youtu.be/e3f8WqcXjqk>
And get full marks. There is missing some entries.

Asset Number	Description	Opening Balance of Fixed Asset (Gross Value)	Closing Balance of Fixed Assets	Accumulated Depreciation	Carry amount
1	Land and building	1,750,000	2,250,000	42,000	Missing https://youtu.be/e3f8WqcXjqk
2	Plant and machinery	220,000	251,500	25,150	227,137.50
3	Computers	610,000	610,000	122,000	Missing https://youtu.be/e3f8WqcXjqk
		2,580,000	3,111,500	189,150	2,923,137.50

- a) Revaluation surplus
Revaluation for Land and Building:

2021 *Revaluation value land and building is Rs. 2,250,000*

20 *cost of land and building is Rs. 1,750,000*

revaluation surplus = Rs. 2,250,000 - Rs. 1,750,000 = Rs. 500,000

- b) Cost of what ?

Missing = <https://youtu.be/e3f8WqcXjqk>

Cost of addition on Plant and machinery

Rs. 30,000 + Rs. 1,000 + Rs. 2,500 - Rs. 2,000 = Rs. 31,500

Accumulated Depreciation 7

Land and Building:

Thus, depreciation value per year = $1,050,000 / 25 = Rs. 42,000$

Plant and Machinery

Depreciation= 10% p.a. reducing balance.

plant and machinery;

$$\text{accumulated depreciation} = 10\% * 220,000 = \text{Rs. 22,000}$$

On new machine;

$$\begin{aligned} \text{accumulated depreciation} &= 10\% * 31,500 \\ &= \text{Rs. 3,150} \end{aligned}$$

0

$$\begin{aligned} \text{Total depreciation of plant and machinery} &= \text{Rs. 22000} + \text{Rs 3150} \\ &= \text{25.150} \end{aligned}$$

Computer

Depreciation=20% on computer straight line.

Therefore,

Only one Missing calculation

What should I do ?
